RE: Coastline Drive and Liberty Street Bridge Replacement- Change Order 1
Fin Project No.: 422940-4-A8-01 & 422940-5-A8-01
Federal Aid Project No.: 0082096B
COJ Contract Number: 6931-11
FDOT Contract No.: G0965
County-Section Number: Duval-7200

Dear Mr. McKnight:

GAI Consultants has conducted all appropriate reviews along with comparative engineer's estimates and has concluded that the documents submitted for Change Order 1 (CO-1) for the following items are approved for the City of Jacksonville to process:

Item 1: Temporary Access Road Deletion/Landscape Addition
Item 2: Mid Arm Park Benches
Item 3: New Trash Cans
Item 4: New Light Fixtures/Light Poles
Item 5: Installation of a Mixed Section Hybrid Wall Under the End of the Liberty Street Structure
Item 6: Berlman Power Rerouting
Item 7: Cost Savings Initiative CSI-001 (Liberty Street Edge)
Item 8: Hurricane Irma Costs

Please contact me at (904) 559-8081 or e-mail me at a.sutherland@gaiconsultants.com if there are any questions.

Sincerely,
GAI Consultants, Inc.

SUPERIOR CONSTRUCTION CO., INC.
COASTLINE DRIVE/LIBERTY STREET BRIDGE REPLACEMENTS
CONTRACT NO. 6931-10

CHANGE ORDER # 1
4/18/2018

NBR	MASTER ITEM DESCRIPTION	QUANTITY	UOM	UNIT COST	NET ADDITION	NET DELETION	TOTALS
	ADDITIONAL SCOPE						
1	TEMPORARY ACCESS ROAD DELETION/LANDSCAPE ADDITION	1.000	LS	$ -	$ 110,000.00	$ 110,000.00	
	JUSTIFICATION: The temporary road was no longer needed and the funds which were saved were re-utilized for other required enhancements (landscaping modifications along Coastline Drive and behind the Old Courthouse Annex, project rendering) which resulted in a net $0.00 change.						
2	MID ARM PARK BENCHES	1.000	LS	$ 128,758.54	$128,758.54		
	JUSTIFICATION: Install 36 new mid arm park benches in lieu of refurbishing the existing benches. The replacement will be in conformance with the parameters set for the Riverwalk and will provide a uniform look while decreasing future maintenance through this reconstructed segment of the riverwalk						
3	TRASH CANS	9.000	EA	$ 2,426.55	$21,838.95		
	JUSTIFICATION: Install 9 new trash receptacles in lieu of refurbishing the existing ones. The replacement will be in conformance with the parameters set for the Riverwalk and will provide a uniform look while decreasing future maintenance through this reconstructed segment of the Riverwalk						
4	NEW LIGHT FIXTURES / LIGHT POLES	1.000	LS	$ 143,411.00	$143,411.00		
	JUSTIFICATION: Install 36 new historic light poles in lieu of refurbishing the existing ones. The replacement will be in conformance with the parameters set for the Riverwalk and will provide a uniform look while decreasing future maintenance through this reconstructed segment of the riverwalk						
5	INSTALL A MIXED SECTION HYBRID WALL UNDER THE END OF THE LIBERTY ST STRUCTURE.	1.000	LS	$ 267,681.59	$267,681.59		
	JUSTIFICATION: The repairs to the existing bulkhead wall are deemed necessary to preserve the integrity of the approaching roadway/bridge approach slab and will eliminate the need for additional road closures in the near term for repairs after the project is complete. Contractor's price and time provided are preliminary and will be adjusted once final plans are approved and the complete construction cost is known.						
6	BERKMAN POWER REROUTING	1.000	LS	$ 379,396.61	$379,396.61		
	JUSTIFICATION: The contractor was requested to assist with the relocation of secondary powerlines effort to reduce the time impacts to the project						
7	COST SAVINGS INITIATIVE- CSI–001 LIBERTY STREET EDGE	-1.000	LS	$ 74,349.25		$74,349.25	
	JUSTIFICATION: The cost savings initiative eliminates co-mingling of the City's Right-of-Way with the adjacent Berkman Plaza property while providing a credit to the City of Jacksonville.						
	TOTAL ADDITIONAL SCOPE				**$ 1,051,086.69**	**$ 184,349.25**	
	NET TOTAL ADDITIONAL SCOPE						**$ 866,737.44**

Subject: Price for new Light Poles and Fixtures

Dear Sir:

At the request of the City of Jacksonville (COJ); Superior Construction (SCC) has obtained pricing for the replacement with new of the Historical LED light fixture. This work is going to be completed by our Electrical subcontractor for the project. The cost for the replacement will be a total of: **$143,411.00.** This includes the credit for not having to refurbish the salvaged poles and delivering the salvaged poles to the City of Jacksonville.

I have attached a copy of the quote from Hinson for your information.

If you need any further information or would like to discuss the issue further please let me know.

Regards,

Donald R. Anderson

Carl,
In the transmittal letter the total for light pole replacement is $143,411.00 and in the pricing breakout the total is $134,411.00. Is this a typo or are there added costs?

To: Superior Construction

Re: Liberty Street

The Davey Tree Expert Company proposes to furnish all necessary labor, materials, equipment, transportation, taxes and insurance as per specification of site visit on June 27, 2017 by Ron Morgan.

Description of Services

Dig and relocate 7 Sabal Palms to Davey nursery for storage @ $300.00/palm	$ 2,100.00
Tear out @ $240.00/hour	$ 1,920.00
Relocate 7 Sabal Palms after completion of JEA work @ $300.00/palm	$ 2,100.00
Total	**$ 6,120.00**

*No warranty on relocated palms, palms in storage that die can be replaced at the same rate of $300.00

Proposal is valid for 60 days. If a contract or letter of intent is issued within 60 days this proposal valid for duration of project.

Respectfully submitted,

Ron Morgan

Re: Hyatt Landscaping

The Davey Tree Expert Company proposes to furnish all necessary labor, materials, equipment, transportation, taxes and insurance as per specification of Superior Construction Co.

Davey Tree honored the same unit price for both the Hyatt Landscape and the Berkman Sodding. A quantity discount was available doing it this way instead of having a price increase to show up for such a small quantity.

Description of Services	
Install 14,000 SF St. Augustine Sod	$ 8,120.00
(Any change in amount, use $0.58/Sf	
$0.58/SF * 9 SF/SY= $5.22/SY	
Total	**$8,120.00**

**This quantity discount reflects the $5.00/SY price for the Berkman Secondary sod work.

Sod under warranty for 1 year from install date if covered by irrigation.

Proposal is valid for 60 days. If a contract or letter of intent is issued within 60 days this proposal valid for duration of project.

Respectfully submitted,

Ron Morgan

Phone: 904-763-4372
Email: danderson@superiorsc.com

Re: Coastline - Downtown

Subject: Relocate Fence

Armstrong Fence Co., a leader in perimeter security throughout the Southeastern United States intends to submit a bid for subject project. The scope of work is to furnish and install as per Your Request the following:

- - TO INCLUDE:
  1. Remove and Relocate approximately 150' of 6' High Temporary Chain Link Fence.
  2. Remove and Relocate approximately 150' of Razor Ribbon.
  3. Remove and Reinstall at later Date approximately 40' of Dog Park Fence on South End.
  4. Remove and Reinstall at later Date approximately 40' of Dog Park Fence on North End and Install (1) 12' Double Swing Gate.
  5. Grass Mowing and Clearing of Fence Line by Others.

  TOTAL PRICE - $3,823.00

SPECIAL TERMS BELOW:

- This quote is only good till January 1st, 2018.
- Fence is a leased fence and at all times is the property of Armstrong Fence Co. Any service work as a part of the lease must be done solely by Armstrong Fence Co. at no additional cost. This includes (but is not limited to), removal (after twist), relocations, restanding of fence or privacy screen to an example.
- Price includes up to two mobilizations for removal, additional mobilizations will be $250.00 per occurrence.
- Quote is a lump sum payment for the length of term noted. We do not pro rate the rent.
- No retainage on temporary fence. This quote will be made an attachment of any sub contract.
- Customer is responsible for maintaining the condition of the fence, free from vegetation, and safety of the fence.
- Upon removal if fence is buried, or has an excessive amount of vegetation growing through it an additional removal charge will be applied.
- Credit Terms are first order payment upfront (with or without credit approval), after that, net 30 days (with credit approval) or 50% down and balance paid to installation crew upon completion of initial installation.
- Standard Exclusions: Sand Bags, Posts Driven in Pavement, Core Drilling, Sidewalk, Grading, Clearing, any other item not specifically listed, and Padlocks.
- Gates Unless Specifically Noted will be a Ringed Hinges with a Driven Posts.
- Partially Damaged Panels will be billed at $90.00 Per Panel. Totally Damaged Panels will be billed at $170.00 Per Panel plus Applicable Top Charge.
- Totally Damaged 6' Rolled Chainlink Fabric will be billed at $3.00 Per Lineal Foot.
- Privacy Screen on Temporary Panels with Stands is NOT Recommended (Even with Sand Bags). We can guarantee the Fence WILL Blow Over. Restanding of Fence will be performed at an Additional Charge Along with the Reinstallation of the Screen.
- Privacy Screen (if applicable) will typically Blow Off in High Winds. Reinstallation of Screen will be performed at an Additional Charge.
- Please Sign Installation Crew's Work Order Acknowledging Units Installed and Conditions. Any Missing Units WILL Be Billed At Rates Listed Above.

Any Questions please feel free to call at 904-814-0715.

Frank,

Would you be able to break down your 20k budget for the Berkman. They need a break down to evaluate the price.

Regards,

Donald

Subject: RE: Additional Berkman Secondary Solutions

There may be some reduction, but it won't be much. Calculations for conductor will be the same, detailing for connection at the xfmer will be the same, liability will be the same. And there could be more work associated with detailing pole installation and connections.

Frank,

Is there any chance if we go overhead the engineering cost will be reduced from the original 20K budget. This would only be a temporary solution with us continuing with the original plan of placing the conduit in the Liberty St. deck.

Regards,

Donald

Subject: RE: Additional Berkman Secondary Solutions

The aerial option does offer a cleaner installation with a shorter and less disruptive installation process to the pedestrian community vs. going along the planters. The more likely path in front of the planters will avoid impacting the drainage trash collecting along the temporary curb. I've added a sketch illustrating the path for ground mounting conduit based upon our walkthrough yesterday. The overall length of the conductor will increase due to the bends vs. taking a straight route, which will likely increase the voltage drop and should be examined.

The aerial mount offers the most effective means of installation, with the least impact to the existing facilities.

Subject: Additional Berkman Secondary Solutions

Gents,

In summary of the walkaround we had with Hinson yesterday, there are two additional options in play that Hinson is pricing up.

1) A temporary overhead solution with the placement of poles in the palm planters along the East face on the Riverwalk. This would allow for a riser at JEA transformer, side stepping the utility conflicts at the end of the park. It would go back into the ground at the iron sally port located between the town homes.

2) A temporary concrete curb along the base of the palm planters.

    a. Would allow for drainage of the Riverwalk and avoid the conflict with the light poles running down the back of the handrail.

Danny will have pricing for us by EOB Wednesday for these options for evaluation.

Donald

SCOPE OF WORK

Speedy Concrete Cutting, Inc. will provide labor, supervision, project management, and equipment as necessary to perform the following line item scopes of work. This proposal may not be inclusive of all demolition and cutting required on this project, and is strictly limited to the line item scopes of work listed below.

Slab Sawing

1. Provide saw cutting [slab saw] 26,000 ft. of 8" thick slab (twin tee deck)

2. Provide saw cutting [slab saw] 2,700 ft. of 20" thick slab (twin tee deck)

Scope Price .

1. All 8" thick concrete ~~$0.20 per inch ft.~~
2. All 20" thick concrete $0.25 per inch ft.

Price for cutting through bricks on RiverWalk.

Site Specific Conditions and Exclusions

1. The contractor will be responsible for layout of all saw cutting scopes listed in this proposal.

2. The contractor will be responsible for all protection of area / and any items on wall or surrounding area.

Standard Conditions

1. This proposal is based on Speedy Concrete Cutting staging a medium duty truck within 200 feet of the work area to provide water on site.

2. This proposal is strictly limited to concrete cutting.

Mobilization and Working Hours- This proposal is based upon all scopes of work being completed in one continuous mobilization. Hours of work being offered are Monday thru Saturday 6:30 a.m. until 6:30 p.m. and no Holiday or Night time hours are included. Additional mobilizations may constitute a Change Order.

Payment and Terms – This proposal is based upon no retainage being withheld and payment terms of net 30 days from date of pay application / invoice.

Standard Exclusions

- Identification and Marking of all active utilities within and adjacent to the work area. Per O.S.H.A. standards, all electrical conduits present within our areas of work will be either identified by locates, or shut of at the source, and locked and tagged out. This includes but not limited to compliance with all statutes for locations to be performed prior to work commencing.

- Capping, Plugging, and relocating all utilities as required to perform scopes of work.

- Furnish, Install, and Maintain all temporary utilities required to perform scope of work.

Exclusions for Site, Building and Adjacent Surfaces:

- Barricading and Safe Guarding of all Openings that are created.

- Protecting all areas and finishes to remain.

- Protecting all finishes to remain in areas of ingress/egress.

- Protection and Safe Guarding of Pedestrians and Pedestrian Traffic Areas.

- Furnishing, Installing, and maintaining any type of M.O.T. requirements.

Permits and Notices:

- Permits and Notices required by all applicable laws, ordinances, regulations or restrictions relating to this scope of work.

Acceptance of this proposal is acknowledged by your signature below.

4-3.9.3-1 Description:

The area for this Cost Savings Initiative (CSI) is focused on the left edge of the future Liberty Street structure. The property line and easement along the left edge of the structure is a broken line as determined by the concrete planters and stairway running along the face of the Berkman Plaza parking garage.

The original concept in the technical proposal was to construct the Liberty structure back into the footprint and elevation of the original intact bridge. This required the adjustment of the span length, variable lengths, to allow for the continuance of the deck into the gaps created by the planters. The accommodations in the foundation can be seen in the Technical Foundation Drawing (Appendix A) with the adjustment of the cap locations to support the concrete deck to the full depth into the gaps created by the planters (Appendix B). The resulting finished platform would recreate the original cavities to collect trash and become a place for vagrants to congregate or homestead. This permanent surface would also close off access for future inspection and continue to provide a contentious point for negotiation with the adjacent land owner for maintenance and ownership of a small portion of the future structure.

The alternate plan for this area of the structure is demonstrated in Appendix C. The plan is to modify a Florida Slab Beam (FSB) with a platform to support the installation of a project typical 32" traffic rail. The rail would be flush with the face of the existing planter(s). This would facilitate a clean solid face along the length of the left edge of the new structure. The gap located behind the barrier and the parking structure would then be filled in with grating on metal supports detailed on the lower right of page S-02 in Appendix C. By not having to vary the span length, it will allow for the full efficient use of FSBs to eliminate an entire intermediate bent and associated pile foundation. The expected construction sequence can be followed in Appendix D.

4-3.9.3-2 Cost Estimate:

An itemized cost breakdown per the Pay Items are listed in Appendix E. This redesign will result in a total savings of **$148,698.50**. As per specification the savings will be split equally.

4-3.9.3-3 Itemization of Changes:

1) Standardization of the span lengths from beginning to end of the bridge in lieu of making every span a different dimension.
2) Removal of one intermediate bent and the associated pile foundation
3) Reduction in the total number of FSB slabs required for the gaps between the planters.

4) Modification of four (4) EA FSB with a pedestal placed as an after pour on the edge of the FSB.
5) Addition of a grating flush with the top of the barrier wall.
6) Increase of quaintly of Traffic Railing.
7) Increase of quaintly of Bullet Rail
8) Increase of quaintly of Coating

4-3.9.3-4 Engineering Analysis:

The final engineering for the CSI will be incorporated into the 90% plans for submission and approval through the normal design review process for design build projects.

4-3.9.3-5 Expiration Date:

The decision for the final acceptance for this CSI will be required prior to the submission of the 90% plans with enough notice for any modification of the submission. This date is going to be **October 1, 2017**.

4-3.9.3-6 Revised Project Schedule:

This revision will not impact the project schedule.

Subject: Hurricane Irma Costs

Dear Sir:

During the time period of 09/06/17 to 09/18/17 (12 Contract Days) the Coastline and Liberty Street Project was severely impacted by a weather event. Hurricane Irma caused Superior to incur costs that were unforeseen at the time a price was provided to the owner. There were costs to relocate equipment into a secure fleeting area so that the equipment would not be a hindrance to public safety during the storm event. The wide spread impact and the unknown duration caused Superior to be unable to re-task equipment and personnel during and after the storm; these stand-by costs were recognized by the Coastline Project. After the storm, there were costs for relocating the equipment from our fleeting area back into position: location(s) prior to the storm.

The attachments have a breakdown for each piece of equipment and for every person associated with the project. The following is the cost with the allowable mark-up per specification:

Labor: $41,879.12
Equipment: $109,912.72

Total: $159,484.01

If you have any questions or need any further information, please feel free to contact me: (904) 763-4372

SUBJECT: **DESIGN-BUILD FIRM FOR COASTLINE DRIVE & LIBERTY STREET BRIDGE REPLACEMENT**

BID # **CDB-0028-16** OPEN DATE: **10/28/2015**

COMPETITIVE SEALED PROPOSAL EVALUATION COMMITTEE

KIND AND BASIS OF CONTRACT: AGENCY: **DEPARTMENT OF PUBLIC WORKS**
CONSTRUCTION – DESIGN/BUILD- PART I AND PART II

BASIS OF AWARD: **EVALUATION CRITERIA LOWEST PRICED RESPONSIVE TECHNICAL PROPOSAL**

NUMBER OF BIDS INVITED: 3 NUMBER RECEIVED: 2 OTHER: 1

SUMMARY OF BIDS AND RECOMMENDED ACTIONS:

Part I of subject RFP was competitively sourced and short-listed to the three qualified firms shown below for meeting the qualifications in conformance with F.S. 287.055, applicable State requirements for grant funding and Chapter 126 Parts 2 and 7 of the Procurement Code for Award of Design-Build Contracts.

Archer-Western Contractors, LLC. , Hal Jones Contractors, Inc., Superior Construction Company Southeast, LLC.

Archer-Western withdrew from Part II, therefore, two responses were received for Part II of the short-listed firms for the price proposal and technical response review and evaluation. Accordingly, recommend approval of award to the lowest, technically responsive proposer Superior Construction Company Southeast, LLC for the Guaranteed Maximum Price (GMP) of $24,700,000.00 with a guaranteed completion date of 630 calendar days from issuance of the notice-to-proceed. This project to be executed by formal contract and funding to be encumbered by accounts as follows:

PWCP32BVP519-069505-PW0778-01	$300,000.00
PWCP32EVP519-06505-PW0778-01	$4,500,000.00
PWCP32EVP519-069505-PW0778-01	$12,000,000.00

The remaining $7,900,000.00 which has been approved in the City of Jacksonville Capital Improvement Program will be contingent upon approval and appropriation of the 2016-2017 Budget Ordinance.
