SUBJECT: ESC-0371-22 Library Materials

DATE: July 14, 2022

The library received seven (7) proposals for evaluation for the subject project and found the following six of the seven to be responsive, interested, qualified and available to provide the services required in the Competitive Sealed Proposal:

- Baker & Taylor
- Bibliotheca
- Brodart
- Ingram
- Midwest Tapes
- Overdrive

Multicultural Books and Videos, the seventh vendor, does not meet the minimum vendor requirements stated in 1.4.2 for this RFP as they could not provide references from five (5) urban libraries to which the bidder has supplied at least $500,000 of library materials on an annual basis for three (3) years with cataloging services and was therefore not evaluated.

Six (6) proposals were evaluated for each type of library material and requested in the bid and sold by each respective vendor. The evaluation matrix approved for this CSPEC bid was used to evaluate each vendor's response by library material type. Each firm's cost data sheets are also attached for your information.

Based on the above, the following firms are listed in ranked order for each material type. The ranking of first, second and third designates the order of qualification of these firms to perform the required services.

For books:

1. Baker & Taylor
2. Brodart
3. Ingram

For audiovisual materials:

1. Midwest Tape

1. Midwest Tape
2. Overdrive
3. Baker & Taylor

Section 4
Description of Services and Deliverables

4.0 Purpose

1. The purpose of this Request for Proposal (RFP) is to solicit proposals from commercially and technically qualified and experienced vendors for a contract to furnish, on an as needed basis, books, audiovisual materials, and digital materials in a variety of formats, including but not limited to hardcover books, trade paperbacks, mass-market paperbacks, library editions, CDs, DVD's, spoken word audio CDs, digital e-books, e-audio, e-music and e-video. The supplier may be responsible for the acquisition, original cataloging, copy cataloging, item linking (online linking of item-level, copy specific information to appropriate bibliographic records), processing and delivery of the materials.

2. The supplier must be able to provide a broad spectrum of library material in quantities to meet the needs of a large public library system. This request for proposal does not restrict or limit the library's acquisition of books and related materials in other or similar formats from other vendors, publishers, or groups of publishers, in any way. The Jacksonville Public Library (JPL) is soliciting proposals from applicants so that the proposals can be evaluated to ensure that the vendors selected will meet the needs of the JPL. Vendors may respond to the RFP in total or to specific areas (i.e., print materials only, CDs/DVDs only, etc.).

3. The JPL recognizes that some vendors may specialize in one format or type of material and the library will consider partial proposals. Vendor responses for each format or type of material will be evaluated separately. This may result in contracts with multiple vendors. When appropriate, a vendor may submit multiple alternatives with associated costs that reflect different solution strategies. This three (3) year agreement commences at the start of the contract, with three (3) one (1) year renewal options. Renewal options will be exercised at the sole discretion of the City based on bidder performance, their ability to meet contract obligations (specifications), and the availability of funds.

4. The JPL is comprised of a Main Library and 20 branch libraries of three sizes ranging from large regional branches to medium size community branches to small neighborhood branches. The University Park Library building is a multi-use building where the Support Service Department of the library is located. The library is a department of the City of Jacksonville but is governed by The Board of Library Trustees.

5. The JPL's holdings number over 961,479 titles and just over 2,000,000 physical items. Approximately 827,563 borrowers are currently registered. Annual circulation was more than 3,800,000 items in fiscal year 2021.

6. The estimated materials budget range for the JPL for fiscal year 2022 is between $4 million and $5 million. Of that, *approximately* $1,200,000 and $1,700,000 will spend on print adult, children's, teen and standing orders materials, $60,000 and $70,000 on DVD's, $8,000 and $12,000 on music CD's, $60, 000 and $70,000 on books on CD's and $1,500,000 and 2,500,000 on popular digital format books, audio, music and video.

7. Vendors must fully respond to the requested specifications in all sections. If a vendor is responding for specific materials only (print materials only, CDs/DVDs only, digital materials only, etc.) full responses in all sections applicable to material type responding about is the minimum requirement.

8. Vendors must demonstrate the ability, experience, organization, technical qualifications, stock, facilities and standard services common to the wholesale library materials trade that would allow the vendor to supply at least five hundred thousand dollars ($500,000) of library materials on a

Docusign Envelope ID: E658954B-F321-4363-B098-B709C238A19A

yearly basis. If a vendor is responding to a specific material, please state the amount in dollars that could be supplied yearly.

9. The JPL uses the Sirsi Dynix Symphony integrated library system version 3.7.1 for acquisitions, cataloging, circulation and our online public access catalog is Enterprise version 5.1.0. Vendors must be capable of interfacing with our integrated library system.

4.1 Order formats.

Vendor must be able to accept orders transmitted in the following formats:

1. Electronic ordering via vendor's proprietary system with 9XX information that can be used to create an order record in Sirsi Dynix Symphony.
2. Electronic Data Interchange (EDI) via Sirsi Dynix Symphony.
3. Accept orders by phone.
4. Accept orders by e mail.
5. Accept printed purchase orders.
6. Accept orders online.

4.2 Collection Development & Selection Services.

1. Vendor shall provide a web-based online bibliographic database that interfaces effectively with the JPL's Sirsi Dynix Symphony integrated library system to facilitate the creation of ordered lists. No cost access to vendor's database is highly desirable. If there is a cost for the vendor's database please provide the cost. Vendors are asked to provide trial access to their database to assist in the evaluation of RFP responses.

2. Vendor's proprietary database shall be able to perform the following functions:

   a. Ability to search the system by ISBN, title, author, subject, series, UPC, keyword on major fields, publisher, and Dewey Decimal classification system to Dewey ones (e.g. 640, 641, 642…).

   b. Ability to search on a combination of fields.

   c. Ability to limit search by grade level, language, publication date, binding, material type, e-content platform, stock status and initial print run.

   d. Ability to search by review source and its publication date desired, especially for Library Journal, Booklist, Kirkus Reviews, School Library Journal, Publisher's Weekly, Audiofile, and New York Times Book Review.

   e. Ability to sort retrieved records by publication date, author, title, Dewey Classification System and series title. Sorting by local note field is highly desirable.

   f. Ability to accurately show the vendor's current real-time inventory of items in the bibliographic database including items in stock and items on order.

   g. Ability to mark items retrieved and add or delete these items to a shopping cart–like list.

   h. Ability for multiple users to have access to a list and for the JPL to control users' access to lists for both viewing and editing purposes.

   i. Ability to know during a search if an item is already on another JPL order list. Duplicate checking by title as well as ISBN is required.

Docusign Envelope ID: E658954B-F321-4363-B098-B709C238A19A

j. Ability to download the bibliographic records in MARC format to the Sirsi Dynix Symphony system.

k. Ability to download the bibliographic records in MARC format to Microsoft Excel and Microsoft Access, with the ability to customize MARC fields.

l. Availability of at least two (2) note fields with a minimum of 250 characters for each item note field that can be downloaded as part of the order list.

m. Ability to automatically generate a report of expenditures from a single list by fund and location.

n. Ability to link from a title to records for all other formats of the same title listed in vendor's database. Formats shall include but not be limited to large print, audio book, eBook and DVD.

o. Ability to add orders to an item using a template with multiple locations and funds. As an example—an order of 30 copies of one title that will be distributed to 15 locations and using two different funding sources.

p. Ability for the JPL to set up grid templates for ordering.

q. Ability to set exact library discounts and value-added service costs for material types in order to reflect accurate cost of each item.

r. Ability to globally add or change funds, locations, quantities, and local notes for all items in a list is highly desirable.

s. Access to pre-built specialty lists. For example: lists organized by material type, bestseller status, subject matter, specific international languages, pre-publication lists of upcoming popular releases.

t. Availability of customizable standing order plans for books, DVD, and spoken audio that the JPL can receive monthly and edit to our specifications prior to ordering.

u. Ability to offer a street release date program for books, audiobooks, and DVDs is required.

v. Availability of a robust collection management database that provides collection analysis and collection maintenance reporting. If vendor requires a platform agreement, please include with response.

4.3 Fill Rate.

The JPL is aware that there are some factors beyond a vendor's control such as shipping delays and insufficient print runs. Given that the majority of the orders under this contract will be for easily obtainable material, vendor must be able to:

1. Meet fill rate for each year of the contract which must meet or exceed ninety percent (90%) for all items ordered.

2. Provide fully cataloged and processed priority, rush orders sent within 5 working days of receipt of books from the publisher to the vendor.

3. Ship from stock 85% of orders for available new titles within 20 days from the receipt of the order, including cataloging and processing time, if the library chooses to have these services provided.

Docusign Envelope ID: E658954B-F321-4363-B098-B709C238A19A

4. Send 80% of all items back ordered and available from the publisher, cataloged and processed (if specified), within 120 days of receipt of order.

5. Vendor shall explain how they will meet the above criteria.

4.4 Inventory.

For each format bid on, the vendor shall demonstrate the ability to provide a broad comprehensive spectrum of library materials in quantities to meet the needs of a large urban public library system.

1. The JPL collects materials in hardback and paperback; juvenile, teen and adult nonfiction in all Dewey subject ranges; adult, teen and juvenile fiction; adult and juvenile reference materials; mass market paperbacks, print and audiovisual international language materials; graphic novels juvenile picture, easy reader and board books. The JPL purchases new releases as well as back-list titles and purchases limited research and technical materials. Non-print purchasing includes materials such as DVDs, spoken word CDs, music CDs, e-books, e-audiobooks, e-music, and e-videos. Orders for quantities from one (1) to over 200 volumes per title may be placed by the JPL. Provide evidence of breadth and quantity of all formats of titles routinely held in inventory:

    a. State areas of materials that are supplied by vendor.
    b. State areas of materials that are not supplied by vendor.
    c. State the quantity of vendor's inventory.
    d. State vendor's number of service centers or warehouses and their locations.
    e. State the number of new titles added annually.
    f. Provide list of publishers stocked.
    g. Provide a list of International languages supplied.

2. Vendor shall have the ability to provide bestselling and high demand materials by street release date. This is important for DVDs and bestselling print authors in particular.

4.5 Cataloging

Vendor shall be able to provide cataloging and item-level holding services based upon the specifications outlined in the following sections.

1. Vendor shall demonstrate the ability to provide original and copy cataloging in accordance with the JPL's Cataloging Policy Manual 2017 (Exhibit A). The JPL is seeking vendors with the ability to provide OCLC records and catalog print books and AV materials. The JPL requires the vendor provide only OCLC catalog records modified in accordance with the library's cataloging policy. Original cataloging will be done as OCLC-defined full-level MARC records. Less than full level records (minimal, core and level 3) will not be acceptable. The vendor shall explain how they will meet these criteria and provide the MARC record and fully processed item of each of the following based on the JPL's policies:

    a. For print material: adult hardcover fiction title and juvenile paperback reader title.

    b. For non-print material: non-fiction spoken word, feature film DVD, multi disc (3 or more discs) DVD, and popular music compact disc.

    c. A MARC record for an e-book title.

2. The vendor shall be able to provide MARC catalog records with appended 949 holding records that can be loaded, indexed and retrieved by the Sirsi Dynix Symphony integrated library system. Each vendor-supplied order record and its corresponding fully cataloged MARC record must contain matching OCLC numbers in the 001 MARC field. The vendor shall notify the library when the OCLC number in the 001 field of the order record differs from the fully cataloged MARC record.

The vendor must supply a bibliographic record containing the matching 001 field, with new holdings record(s) appended in 949 tag(s). Call numbers must match existing library holdings. If more than one call number is on the record, the vendor is to email the JPL contact to confirm the preferred call number prior to completing the order.
