City of Jacksonville, Florida

Procurement Award Form (PAF)

Part 1 – Form Type: JPAC Award Request: Renewals, Extensions, and Unit Price Increases

Goods and/or Services: Miscellaneous Drainage Design Projects

Requested Action and Justification:

Recommend approval of award to Osiris 9 Consulting, LLC for Miscellaneous Drainage Design Projects (West Area Annual) and to incorporate the attached scope of services and fee summary exhibits A and B. Initial term will be for two (2) years with two (2), two-year renewal options. Total expenditure amount will be $3,000,000.00.

To be executed via formal contract through the Office of General Counsel and encumbered by individual purchase orders.

Supplier:	Osiris 9 Consulting, LLC	**Basis of Award:**	Highest Evaluated	**BID Opening Date:**	07/24/2025

PAF Instructions
Part 1 (using agency)

Form Type: This form will be used for both Administrative Awards and JPAC Requests. Select type from dropdown options.

Goods and/or Services: Enter a brief description of the types of goods and services included in the request.

Requested Action and Justification: Enter a brief description of the requested action or authority being sought. i.e.; *Request permission to award the lowest, responsive responsible bidder for an ITB or award the highest ranked supplier for an RFP.* This block should also be used for additional information such as additional 4th account strings, or other information essential for contract execution.

Supplier: Enter awarded supplier name**.** If multiple, include in "Requested Action and Justification" box.

Basis of Award: Select from Lowest Price Technical Acceptable (LPTA), Highest Price Technical Acceptable (HPTA) or N/A.

Bid Opening Date: The date bids were unsealed by Procurement.

POA #: This is your 1Cloud generated Agreement number. Select Type, Enter Number.

PO #: Enter the PO number or agreement release number.

Change Order #: Provide the applicable change order number represented by this request.

Solicitation #: Select Prefix type, Enter Number, and Year.

Contract #: This number should be the same as your POA number (unless procured prior to 2020)

Contract Amendment #: Provide the applicable amendment number represented by this request.

Term: Select the Period of Performance or Term for the initial period.

Options: Period of time for each renewal or option.

Options Used: Prior to this request, enter how many options were already used.

Federally Funded: Select yes or no from dropdown if Federal Funds will be used.

JSEB Rec: Select Encouragement or JSEB Set Aside Option.

JESB %: If JSEB Participation, enter the percentage.

Bonds Waived Pursuant to: Select option from Drop down.

Funding Sources: Fund/Center/Account/Project/Activity, all fields are required even if zeros.

New NTE/GMP: Enter the new total not to exceed amount. Note, this should match the contract maximum indebtedness, if applicable**.**

Contingent Amount: If your agency requests an allowance for unforeseen additional expenses, then specify the amount of your requested increase and new NTE that represents the contingency allowance. This is over and above any quote.

DMP/ODPO Account: Enter the Direct Materials Purchase/Owner Direct Purchase Order Account. Used mainly for CIP (Capital Improvement/Construction) Projects

Using Agency/BU: Select one from the dropdown list.

Concurrence: Using Agency internal routing requirements for Electronic Signatures (follow Proc Manual for threshold requirements)

Title: Title of person electronically signing form.

Attachments: Included any supplemental information to the Procurement Award Form. i.e.; *Scope of work, previous awards*.

**Any field where there is no data available, or no entry is required, either leave it blank or enter N/A. Any fields where there is known data, include for informational purposes. Any changes to an original award should contain the data that is being changed and any other relevant data required for JPAC review and approval.*

Docusign Envelope ID: C6444D66-16FF-40A7-B50B-5694D4D4ED92

2.3.1 Scope of Services – Professional Engineering Services for Miscellaneous Drainage Design Projects – West Area

GENERAL:

This is a Request for Proposal (RFP), responses to which will be utilized to select an Engineering Consultant to provide professional engineering design services which may be needed from time to time on various drainage projects (estimated construction costs generally less than $2,000,000). All projects under this contract will be in the City's Right of Way and Stormwater Maintenance Divisions West Area identified on the attached Location Map. Projects will consist of various types of drainage improvement projects on an as-needed basis.

The City reserves the right to perform some of the work required on any project or to specify the extent of work needed for each project. All design recommendations shall, as applicable, comply with:

- The City's Master Storm Water Management Plan
- The City's Land Development Procedures Manual
- Manual on Uniform Traffic Control Devices
- FDOT Minimum Standards for Design, Construction and Maintenance of Streets and Highways
- Florida's Design Criteria for Resurfacing, Restoration and Rehabilitation (RRR) of Streets and Highways
- FDOT Design Standard Index
- JEA Design Standards and JEA Water & Sewer Standards Manual

It is intended that the Contractor's services will result in all investigations, designs, drawings, permits, specifications, and other documents needed for the City to:

- Acquire necessary land or easements
- Address utility conflicts and adjustments
- Obtain permits from regulatory agencies
- Seek bids and contract for construction

The Contractor may also be required to prepare public presentation materials, attend community meetings, respond to public feedback, and modify designs accordingly to reflect community input.

In the event that JEA opts to piggyback on this contract, the Engineer or their subconsultant must be listed on JEA's Prequalified Engineering List:

- QPL Category WE4 – Water, Sewer and Reclaimed Water Pipe Less Than 24 Inches
- QPL Category WE3 – Water, Wastewater and Reclaimed Water Pressurized Pipe Greater Than or Equal to 24 Inches

This prequalification will be required for any proposed utility improvements or relocation of JEA utilities for conflict resolution. All utility plans must comply with JEA's standards and be prepared

Docusign Envelope ID: C6444D66-16FF-40A7-B50B-5694D4D4ED92

at a design scale and in formats as directed by the City. The Engineer shall maintain existing service connections and assume full responsibility for:

- Obtaining all required permits
- Performing survey work
- Preparing technical specifications, cost estimates, and SUE investigations
- Drafting a schedule of values

Utility coordination and conflict resolution shall be initiated early in the design process. The Contractor shall coordinate directly with affected utility owners (JEA, AT&T, TECO, etc.) and document utility resolutions through coordination logs or meeting summaries.

Each project may include one or more of the following phases:

1. Study/Conceptual Design: Identify existing conditions, evaluate alternatives, and prepare conceptual layouts.
2. Final Design: Prepare construction documents including plans, specifications, drainage calculations, permitting applications, and cost estimates.
3. Post-Design Services: Respond to Requests for Information (RFIs), review shop drawings, attend construction meetings, and provide as-built support.

The Consultant shall provide all deliverables in both hard copy and electronic formats, including Civil 3D (DWG), GIS-compatible shapefiles (if applicable), and PDF documents. Digital submittals must be organized and labeled per the City's standards.

Each phase will be negotiated separately, with the City retaining the option to proceed to the next phase upon satisfactory completion of the current phase.

Services for each project will be authorized by a separate purchase order, including an itemized list of deliverables and negotiated fees. Each project shall be treated as an independent engagement.

The number of projects anticipated is unknown. The City does not guarantee a minimum or maximum value of work under this contract, nor equal distribution across disciplines.

Consultant performance may be evaluated based on criteria including:

- Timeliness of deliverables
- Quality of design documents
- Responsiveness to City direction
- Permitting success rate
- Coordination effectiveness with utilities and stakeholders

Suite 1109
Jacksonville, FL 32258

Dear Mr. Ghani:

The Florida Department of Transportation has reviewed your application for prequalification package and determined that the data submitted is adequate to technically prequalify your firm for the following professional services types of work per Rule 14-75, F.A.C.:

2.0 - Project Development & Environmental (PD&E) Studies

3.1 - Minor Highway Design
3.2 - Major Highway Design
3.3 - Controlled Access Highway Design

6.1 - Traffic Engineering Studies
6.2 - Traffic Signal Timing
6.3.1 - Intelligent Transportation Systems Analysis and Design
6.3.2 - Intelligent Transportation Systems Implementation
6.3.3 - Intelligent Transportation Traffic Engineering Systems Communications

7.1 - Signing, Pavement Marking and Channelization
7.2 - Lighting
7.3 - Signalization

13.3 - Policy Planning
13.4 - Systems Planning
13.5 - Subarea/Corridor Planning
13.6 - Land Planning/Engineering

Your firm is now technically prequalified with the Department for Professional Services in the above referenced work types. The overhead audit has been accepted, and your firm may pursue projects in the referenced work types with fees of any dollar amount. This status shall be valid until June 30, 2026, for contracting purposes.

Approved Rates

Home Overhead	Facilities Capital Cost of Money (FCCM)	Premium Overtime	Home Direct Expense	Published Fee Schedule
200.00%	0.209%	Reimbursed	0.01%	No

Per Title 23, U.S. Code 112, there are restrictions on sharing indirect cost rates. Refer to Code for additional information.

Should you have any questions, please feel free to contact me by email at FDOT.PSPrequalification@dot.state.fl.us.

Sincerely,

Philip Pitts

Scott Graham, VP
ETM SURVEYING & MAPPING, INC.
14775 Old St Augustine Road
Jacksonville, FL 32258
grahams@etmsurvey.com

Dear Mr. Graham:

The Florida Department of Transportation has reviewed your application for prequalification package and determined that the data submitted is adequate to technically prequalify your firm for the following professional services types of work per Rule 14-75, F.A.C.:

8.1 - Control Surveying
8.2 - Design, Right of Way & Construction Surveying
8.3 - Photogrammetric Mapping
8.4 - Right of Way Mapping

Your firm is now technically prequalified with the Department for Professional Services in the above referenced work types. The overhead audit has been accepted, and your firm may pursue projects in the referenced work types with fees of any dollar amount. This status shall be valid until June 30, 2026, for contracting purposes.

Approved Rates

Home Overhead	Facilities Capital Cost of Money (FCCM)	Premium Overtime	Home Direct Expense	Published Fee Schedule
249.10%	1.960%	Reimbursed	1.64%	No

Per Title 23, U.S. Code 112, there are restrictions on sharing indirect cost rates. Refer to Code for additional information.

Should you have any questions, please feel free to contact me by email at FDOT.PSPrequalification@dot.state.fl.us.

Sincerely,

Philip Pitts

SCHEDULE OF PROPOSED PRICES/RATES

NAME OF CONTRACTOR Mechling Engineering & Consulting, Inc.

Proposal Number COJ West 16854-25

1. Average hourly direct labor rates (without Fringe Benefits)

Principal	$ 75.00 hr.
Project Manager (Responsible Professional)	$ 68.50 hr.
Engineer (Registered)	$ 62.50 hr.
Engineer (Not registered)	$ 41.66 hr.
Senior Environmental Scientist	$ 40.00 hr.
Environmental Scientist	$ 31.66 hr.
Designer or CADD Operator	$ 35.00 hr.
Clerical (Typist, Word Processor, Document Assembly, etc.)	$ 27.00 hr.

2. Total Overhead Rate (to be applied to Direct Labor:) 150 %

3. Profit Rate (to be applied to Direct Labor plus Overhead) 10 %

4. Other Direct Project Costs per Unit (please specify)

See Page 2

6. Estimated percentage of total fee to be performed by subconsultants 20 %

7. Please provide any other relevant rates that may apply to this project including average direct hourly labor rates for other categories of proposed personnel

UNIT FEE SCHEDULE
February 2025

EQUIPMENT RENTAL AND EXPENDABLES	UNIT FEE	UNIT
2” Diam. PVC Screen (5 ft.)	$60.00	each
2” Diameter PVC Riser (5 ft.)	$40.00	each
2” Diameter PVC well point	$15.00	each
20/30 Silica Sand – 50 lb. bag	$14.00	each
Locking cap for 2” diameter well	$15.00	each
Brass Lock	$7.00	each
Compressor and Controller for Bladder Pumps	$225.00	day
Concrete Saw	$125.00	day
Core drill with bit	$225.00	day
DO Meter	$65.00	day
Drums (55-gal HDPE)	$188.00	each
Drums (55-gal steel)	$118.00	each
Flame Ionization Detector (F.I.D.) Organic Vapor Analyzer (OVA)	$200.00	day
Field Supplies	$50.00	day
Generator for coring rig	$90.00	day
Groundwater Filters	$18.00	each
Hand Auger	$36.00	day
High Density Polyethylene (HDPE) Sample Tubing	$1.00	foot
Interphase Probe	$80.00	day
Multi Meter: Conductivity, Dissolved Oxygen (DO), Temperature, pH, oxidation-reduction potential (ORP)	$175.00	day
Organic Vapor Field Test Cups	$2	each
Peristaltic Pump	$55.00	day
pH Meter	$45.00	day
Photoionization Detector (PID) Organic Vapor Analyzer (OVA)	$126.00	day
Ponar Sampler	$75.00	day
Silicon Sample Tubing	$6.00	foot
Slug Test Equipment (datalogger, transducer, slugs)	$300.00	day
Submersible Pump	$175.00	day
Survey Equipment	$100.00	day
Teflon Bailers	$25.00	each
Teflon-lined Polyethylene Sample Tubing	$3.00	foot
Turbidity Meter	$55.00	day
Vehicle (per vehicle)	$100.00	day
Water Level Indicator	$40.00	day

Dear Mr. Walpole:

The Florida Department of Transportation has reviewed your application for prequalification package and determined that the data submitted is adequate to technically prequalify your firm for the following professional services types of work per Rule 14-75, F.A.C.:

2.0 - Project Development & Environmental (PD&E) Studies

3.1 - Minor Highway Design
3.2 - Major Highway Design
3.3 - Controlled Access Highway Design

4.1.1 - Miscellaneous Structures
4.1.2 - Minor Bridge Design

5.1 - Conventional Bridge Inspection
5.4 - Bridge Load Rating

6.1 - Traffic Engineering Studies
6.2 - Traffic Signal Timing
6.3.1 - Intelligent Transportation Systems Analysis and Design
6.3.2 - Intelligent Transportation Systems Implementation
6.3.3 - Intelligent Transportation Traffic Engineering Systems Communications

7.1 - Signing, Pavement Marking and Channelization
7.2 - Lighting
7.3 - Signalization

8.1 - Control Surveying
8.2 - Design, Right of Way & Construction Surveying
8.3 - Photogrammetric Mapping
8.4 - Right of Way Mapping

9.1 - Soil Exploration
9.2 - Geotechnical Classification Lab Testing
9.3 - Highway Materials Testing
9.4.1 - Standard Foundation Studies
9.4.2 - Non-Redundant Drilled Shaft Bridge Foundation Studies
9.5 - Geotechnical Specialty Lab Testing

10.1 - Roadway Construction Engineering Inspection
10.3 - Construction Materials Inspection

13.3 - Policy Planning
13.4 - Systems Planning
13.5 - Subarea/Corridor Planning
13.6 - Land Planning/Engineering
13.7 - Transportation Statistics

15.0 - Landscape Architect

Your firm is now technically prequalified with the Department for Professional Services in the above referenced work types. The overhead audit has been accepted, and your firm may pursue projects in the referenced work types with fees of any dollar amount. This status shall be valid until June 30, 2026, for contracting purposes.

Re: JSEB Re-Certification Letter

The City of Jacksonville is pleased to announce that your company has been certified as a Jacksonville Small and Emerging Business Enterprise (JSEB). This certification enables your company to compete for work and perform work as a JSEB enterprise. JSEB certification does NOT guarantee work.

918 Consulting Services, specifically:
-42 Engineering Consulting

925 Engineering Services, Professional, specifically:
-17 Civil Engineering
-28 Drainage Engineering
-33 Engineer Services, Professional
-35 Environmental Engineering
-36 Engineering Services (Not Otherwise Classified)
-55 Inspecting, General/Engineering
-58 Irrigation; Drainage; Flood Control/Engineering
-61 Land Development and Planning/ Engineering
-70 Municipal Engineering
-87 Sewage Collection, Treatment, and disposal/Engineering
-96 Waste Water Treatment Engineering
-97 Water Supply, Treatment, and Distribution/Engineering

Four Waters Engineering, Inc., will be identified as a certified JSEB on our website for tracking purposes. The City of Jacksonville's Jacksonville Small and Emerging Business website can be found at https://jseb.jacksonville.gov/.

Your company's stature Inc. with the City of Jacksonville is active for three years provided there are no changes in ownership, control/operation of the company, or eligibility requirements during this certification period. Please be advised that you are required to notify this agency immediately of any changes in your business ownership, control/operations, or business service capabilities.

Sincerely,

Dear Mr. Price:

The Florida Department of Transportation has reviewed your application for prequalification package and determined that the data submitted is adequate to technically prequalify your firm for the following professional services types of work per Rule 14-75, F.A.C.:

9.1 - Soil Exploration
9.2 - Geotechnical Classification Lab Testing
9.3 - Highway Materials Testing
9.4.1 - Standard Foundation Studies
9.4.2 - Non-Redundant Drilled Shaft Bridge Foundation Studies
9.5 - Geotechnical Specialty Lab Testing

10.1 - Roadway Construction Engineering Inspection
10.3 - Construction Materials Inspection
10.4 - Minor Bridge & Miscellaneous Structures CEI

Your firm is now technically prequalified with the Department for Professional Services in the above referenced work types. The overhead audit has been accepted, and your firm may pursue projects in the referenced work types with fees of any dollar amount. This status shall be valid until June 30, 2026, for contracting purposes.

Approved Rates

Home Overhead	Field Overhead	Facilities Capital Cost of Money (FCCM)	Premium Overtime	Home Direct Expense	Field Direct Expense	Published Fee Schedule
258.41%	105.27%	1.501%	Excluded	10.73%	3.93%	Yes

*Rent and utilities excluded from field office rate. These costs will be directly reimbursed on contracts that require the consultant to provide field office.

Docusign Envelope ID: C6444D66-16FF-40A7-B50B-5694D4D4ED92

Per Title 23, U.S. Code 112, there are restrictions on sharing indirect cost rates. Refer to Code for additional information.

The Florida Department of Transportation has reviewed your application for prequalification package and determined that the data submitted is adequate to technically prequalify your firm for the following professional services types of work per Rule 14-75, F.A.C.:

2.0 - Project Development & Environmental (PD&E) Studies

3.1 - Minor Highway Design
3.2 - Major Highway Design
3.3 - Controlled Access Highway Design

4.1.1 - Miscellaneous Structures
4.1.2 - Minor Bridge Design

5.1 - Conventional Bridge Inspection
5.4 - Bridge Load Rating

6.1 - Traffic Engineering Studies
6.2 - Traffic Signal Timing
6.3.1 - Intelligent Transportation Systems Analysis and Design
6.3.2 - Intelligent Transportation Systems Implementation
6.3.3 - Intelligent Transportation Traffic Engineering Systems Communications

7.1 - Signing, Pavement Marking and Channelization
7.2 - Lighting
7.3 - Signalization

8.1 - Control Surveying
8.2 - Design, Right of Way & Construction Surveying
8.3 - Photogrammetric Mapping
8.4 - Right of Way Mapping

Docusign Envelope ID: C6444D66-16FF-40A7-B50B-5694D4D4ED92

9.1 - Soil Exploration
9.2 - Geotechnical Classification Lab Testing
9.3 - Highway Materials Testing
9.4.1 - Standard Foundation Studies
9.4.2 - Non-Redundant Drilled Shaft Bridge Foundation Studies
9.5 - Geotechnical Specialty Lab Testing

10.1 - Roadway Construction Engineering Inspection
10.3 - Construction Materials Inspection

13.3 - Policy Planning
13.4 - Systems Planning
13.5 - Subarea/Corridor Planning
13.6 - Land Planning/Engineering
13.7 - Transportation Statistics

15.0 - Landscape Architect

Your firm is now technically prequalified with the Department for Professional Services in the above referenced work types. The overhead audit has been accepted, and your firm may pursue projects in the referenced work types with fees of any dollar amount. This status shall be valid until June 30, 2026, for contracting purposes.

Approved Rates

Home Overhead	Field Overhead	Facilities Capital Cost of Money (FCCM)	Premium Overtime	Home Direct Expense	Field Direct Expense	Published Fee Schedule
191.69%	178.44%	0.577%	Reimbursed	3.25%	3.25%	No

*Rent and utilities excluded from field office rate. These costs will be directly reimbursed on contracts that require the consultant to provide field office.

Per Title 23, U.S. Code 112, there are restrictions on sharing indirect cost rates. Refer to Code for additional information.

Should you have any questions, please feel free to contact me by email at FDOT.PSPrequalification@dot.state.fl.us.

Dear Mr. Thie:

The Florida Department of Transportation has reviewed your application for prequalification package and determined that the data submitted is adequate to technically prequalify your firm for the following professional services types of work per Rule 14-75, F.A.C.:

8.1 - Control Surveying

8.2 - Design, Right of Way & Construction Surveying
8.3 - Photogrammetric Mapping
8.4 - Right of Way Mapping

Your firm is now technically prequalified with the Department for Professional Services in the above referenced work types. The overhead audit has been accepted, and your firm may pursue projects in the referenced work types with fees of any dollar amount. This status shall be valid until June 30, 2026, for contracting purposes.

Approved Rates

Home Overhead	Field Overhead	Facilities Capital Cost of Money (FCCM)	Premium Overtime	Home Direct Expense	Field Direct Expense	Published Fee Schedule
176.15%	145.41%	0.662%	Reimbursed	19.01%	0.00%	Yes

*Rent and utilities excluded from field office rate. These costs will be directly reimbursed on contracts that require the consultant to provide field office.

Subsurface Utility Engineering Rates:

Vacuum Excavation Equipment	$94 per hour
Designating Equipment	$31 per hour

PAF Instructions
Part 1 (using agency)

Form Type: This form will be used for both Administrative Awards and JPAC Requests. Select type from dropdown options.

Goods and/or Services: Enter a brief description of the types of goods and services included in the request.

Requested Action and Justification: Enter a brief description of the requested action or authority being sought. i.e.; *Request permission to award the lowest, responsive responsible bidder for an ITB or award the highest ranked supplier for an RFP.* This block should also be used for additional information such as additional 4th account strings, or other information essential for contract execution.

Supplier: Enter awarded supplier name**.** If multiple, include in "Requested Action and Justification" box.

Basis of Award: Select from Lowest Price Technical Acceptable (LPTA), Highest Price Technical Acceptable (HPTA) or N/A.

Bid Opening Date: The date bids were unsealed by Procurement.

POA #: This is your 1Cloud generated Agreement number. Select Type, Enter Number.

PO #: Enter the PO number or agreement release number.

Change Order #: Provide the applicable change order number represented by this request.

Solicitation #: Select Prefix type, Enter Number, and Year.

Contract #: This number should be the same as your POA number (unless procured prior to 2020)

Contract Amendment #: Provide the applicable amendment number represented by this request.

Term: Select the Period of Performance or Term for the initial period.

Options: Period of time for each renewal or option.

Options Used: Prior to this request, enter how many options were already used.

Federally Funded: Select yes or no from dropdown if Federal Funds will be used.

JSEB Rec: Select Encouragement or JSEB Set Aside Option.

JESB %: If JSEB Participation, enter the percentage.

Bonds Waived Pursuant to: Select option from Drop down.

Funding Sources: Fund/Center/Account/Project/Activity, all fields are required even if zeros.

New NTE/GMP: Enter the new total not to exceed amount. Note, this should match the contract maximum indebtedness, if applicable**.**

Contingent Amount: If your agency requests an allowance for unforeseen additional expenses, then specify the amount of your requested increase and new NTE that represents the contingency allowance. This is over and above any quote.

DMP/ODPO Account: Enter the Direct Materials Purchase/Owner Direct Purchase Order Account. Used mainly for CIP (Capital Improvement/Construction) Projects

Using Agency/BU: Select one from the dropdown list.

Concurrence: Using Agency internal routing requirements for Electronic Signatures (follow Proc Manual for threshold requirements)

Title: Title of person electronically signing form.

Attachments: Included any supplemental information to the Procurement Award Form. i.e.; *Scope of work, previous awards*.

**Any field where there is no data available, or no entry is required, either leave it blank or enter N/A. Any fields where there is known data, include for informational purposes. Any changes to an original award should contain the data that is being changed and any other relevant data required for JPAC review and approval.*

2.3.1 Scope of Services – Professional Engineering Services for Miscellaneous Drainage Design Projects – West Area

GENERAL:

This is a Request for Proposal (RFP), responses to which will be utilized to select an Engineering Consultant to provide professional engineering design services which may be needed from time to time on various drainage projects (estimated construction costs generally less than $2,000,000). All projects under this contract will be in the City's Right of Way and Stormwater Maintenance Divisions West Area identified on the attached Location Map. Projects will consist of various types of drainage improvement projects on an as-needed basis.

The City reserves the right to perform some of the work required on any project or to specify the extent of work needed for each project. All design recommendations shall, as applicable, comply with:

- The City's Master Storm Water Management Plan
- The City's Land Development Procedures Manual
- Manual on Uniform Traffic Control Devices
- FDOT Minimum Standards for Design, Construction and Maintenance of Streets and Highways
- Florida's Design Criteria for Resurfacing, Restoration and Rehabilitation (RRR) of Streets and Highways
- FDOT Design Standard Index
- JEA Design Standards and JEA Water & Sewer Standards Manual

It is intended that the Contractor's services will result in all investigations, designs, drawings, permits, specifications, and other documents needed for the City to:

- Acquire necessary land or easements
- Address utility conflicts and adjustments
- Obtain permits from regulatory agencies
- Seek bids and contract for construction

The Contractor may also be required to prepare public presentation materials, attend community meetings, respond to public feedback, and modify designs accordingly to reflect community input.

In the event that JEA opts to piggyback on this contract, the Engineer or their subconsultant must be listed on JEA's Prequalified Engineering List:

- QPL Category WE4 – Water, Sewer and Reclaimed Water Pipe Less Than 24 Inches
- QPL Category WE3 – Water, Wastewater and Reclaimed Water Pressurized Pipe Greater Than or Equal to 24 Inches

This prequalification will be required for any proposed utility improvements or relocation of JEA utilities for conflict resolution. All utility plans must comply with JEA's standards and be prepared

Docusign Envelope ID: C6444D66-16FF-40A7-B50B-5694D4D4ED92

at a design scale and in formats as directed by the City. The Engineer shall maintain existing service connections and assume full responsibility for:

- Obtaining all required permits
- Performing survey work
- Preparing technical specifications, cost estimates, and SUE investigations
- Drafting a schedule of values

Utility coordination and conflict resolution shall be initiated early in the design process. The Contractor shall coordinate directly with affected utility owners (JEA, AT&T, TECO, etc.) and document utility resolutions through coordination logs or meeting summaries.

Each project may include one or more of the following phases:

1. Study/Conceptual Design: Identify existing conditions, evaluate alternatives, and prepare conceptual layouts.
2. Final Design: Prepare construction documents including plans, specifications, drainage calculations, permitting applications, and cost estimates.
3. Post-Design Services: Respond to Requests for Information (RFIs), review shop drawings, attend construction meetings, and provide as-built support.

The Consultant shall provide all deliverables in both hard copy and electronic formats, including Civil 3D (DWG), GIS-compatible shapefiles (if applicable), and PDF documents. Digital submittals must be organized and labeled per the City's standards.

Each phase will be negotiated separately, with the City retaining the option to proceed to the next phase upon satisfactory completion of the current phase.

Services for each project will be authorized by a separate purchase order, including an itemized list of deliverables and negotiated fees. Each project shall be treated as an independent engagement.

The number of projects anticipated is unknown. The City does not guarantee a minimum or maximum value of work under this contract, nor equal distribution across disciplines.

Consultant performance may be evaluated based on criteria including:

- Timeliness of deliverables
- Quality of design documents
- Responsiveness to City direction
- Permitting success rate
- Coordination effectiveness with utilities and stakeholders
