Price Sheet

1. PROPOSAL

a. A Bidder must provide a price on each item listed.

b. Unless stated otherwise by the City, all bid prices should include the furnishing and delivery of materials.

c. Bidder must insert extended prices obtained by multiplying the proposed quantities times the unit prices. In case of errors, unit prices will govern. The corrected extended prices and corrected Total Base Bid will be used to determine the lowest qualified Bid.

d. The Total Base Bid plus selected Alternate(s), if any, will be used to determine the lowest bidder. If selected, Alternate(s) will be awarded in the order listed (i.e. -- 1,2,3...).

e. Bidder agrees to keep its bid in effect for 120 calendar days after the Bid Opening date to allow the CITY time to award the bid, should it be awarded, and time to prepare and execute the contract (or issue the purchase order). This time period begins at the time bids are opened and ends upon the issuance of Notice to Proceed (NTP) by the CITY. The bid prices shall remain in effect throughout the life of the Contract. Failure of the CITY to issue NTP within the specified time period shall allow Bidder to withdraw its Bid and terminate its contract without penalty or forfeiture of Bid Bond. Failure of the CITY to issue NTP within the specified time period shall not entitle Bidder to an adjustment of its Bid prices, unless mutually agreeable by the CITY.

f. Bids in which the prices are obviously unbalanced are subject to rejection. The CITY shall not be liable to the CONTRACTOR for failure to reject or notify the Bidder of any unbalanced bid.

2. CONDITIONS IN BIDDER'S PROPOSAL

a. The Bidder shall not stipulate in its Bid Proposal, or append thereto, any conditions contrary to those contained in the Contract Documents.

3. TAXES

a. Bidders shall include in their bid prices any sales taxes or use taxes which they are required by law to pay. Bidders are reminded, it is the CONTRACTOR'S responsibility to pay all Florida Sales Taxes that are required to be paid to the State under the subject contract. These taxes, by State law, are not to be set forth as a separate line item. Therefore, the CONTRACTOR shall devise his own method to insure recovery. Additional allowances will not be made for failure to include these required taxes in the proposal.

Dear Guillermo Hechevarria:

This is in reference to your request for a Manufacturer Identification Code (MIC). Your company is assigned the following MIC:

AEK

Please complete and sign enclosure (1), the MIC verification form, and scan it and return by email (*the preferred method*), or return it to us by mail. **Also, please note that the regulations in 33 CFR §181.33(b) require you to notify this office if you change company ownership, name, or address**; failure to do this will subject you to the penalties in Title 46, United States Code, Section 4311.

You can access the USCG Boat Builder's Handbook at: http://uscgboating.org/regulations/boatbuilders-handbook.php. This handbook contains all of the information necessary for you to build compliant recreational boats. The regulations which prescribe the use of your company's MIC in the Hull Identification Numbers (HIN) appear in 33 CFR §181.23.

The Coast Guard Office of Auxiliary and Boating Safety, Recreational Product Assurance Branch believes you will find these materials to be beneficial. Please feel free to contact the office with any suggestions or questions you may have. You are also encouraged to visit our websites at: www.uscgboating.org and www.safeafloat.com.

Sincerely,

Kristopher Franklin

BOATMASTER TRAILER

Model MC10M-21 – Triple Axle, Aluminum I-Beam

Specification Sheet – 10m (33') Fire Interceptor Transport

Prepared for Government Procurement Review

Overview

The BoatMaster MC10M-21 is a heavy-duty commercial-series aluminum boat trailer, custom-engineered via CAD drawings to fit the hull of the 10m (33') Fire Interceptor Port Security and Emergency Response Vessel. The trailer features a triple-axle, aluminum I-beam frame with diamond tread plate fenders, marine-grade pressure-treated bunks, surge disc brakes, electric winch, and 12V submersible LED lighting. All aluminum construction provides superior corrosion resistance for marine and coastal environments. The unit is manufactured in the USA by BoatMaster (JDCI Enterprises, Inc.) in Fort Myers, Florida.

AD4K, LLC

Marine Vessel Manufacturing & Integrated Marine Systems

Authorized Distributor – Superformance Jet Boats LLC

COMPANY OVERVIEW

AD4K LLC is a U.S.-based manufacturer and authorized distributor of high-performance aluminum patrol vessels, trailers, and integrated marine systems supporting federal, state, and municipal maritime operations. The company delivers turnkey marine platforms designed for enforcement, fisheries, research, and public safety missions.

CORE COMPETENCIES

- Custom aluminum patrol vessel fabrication (all-aluminum construction)
- Turnkey propulsion integration (Mercury, Yamaha, Honda)
- Marine electrical system installation and protected wiring integration
- Specialty vessel systems for patrol, research, electrofishing, and survey operations
- Trailer integration and logistics coordination
- Water testing, commissioning, and delivery

KEY DIFFERENTIATORS

- Direct manufacturer relationship with Superformance Jet Boats LLC
- All-aluminum vessel construction using marine-grade alloys
- Hidden electrical routing for water protection
- Turnkey delivery — vessels arrive fully operational
- Designed for demanding government maritime missions

Dear Guillermo Hechevarria:

This is in reference to your request for a Manufacturer Identification Code (MIC). Your company is assigned the following MIC:

AEK

Please complete and sign enclosure (1), the MIC verification form, and scan it and return by email (*the preferred method*), or return it to us by mail. **Also, please note that the regulations in 33 CFR §181.33(b) require you to notify this office if you change company ownership, name, or address**; failure to do this will subject you to the penalties in Title 46, United States Code, Section 4311.

You can access the USCG Boat Builder's Handbook at: http://uscgboating.org/regulations/boatbuilders-handbook.php. This handbook contains all of the information necessary for you to build compliant recreational boats. The regulations which prescribe the use of your company's MIC in the Hull Identification Numbers (HIN) appear in 33 CFR §181.23.

The Coast Guard Office of Auxiliary and Boating Safety, Recreational Product Assurance Branch believes you will find these materials to be beneficial. Please feel free to contact the office with any suggestions or questions you may have. You are also encouraged to visit our websites at: www.uscgboating.org and www.safeafloat.com.

Sincerely,

Kristopher Franklin

Subject: Request for Contract Revision / Price Realignment - ITB-17646-26 (Purchase of Fire Interceptor Boat with Master Trailer)

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Dear Ruth,

I am writing to you regarding the recent award notice for BID#: ITB-17646-26, under which AD4K LLC was selected as the lowest responsive, responsible bidder for the Purchase of the 10m (33') Fire Interceptor Boat and Boat Master Trailer. We truly appreciate the opportunity to work with the City of Jacksonville on this important public safety project.

Upon receiving the award notification and initiating our final pre-production and supply chain review, we identified a critical, unexpected issue concerning our initial sub-vendor components pricing. Unfortunately, due to significant, compounding market-wide cost increases from our raw aluminum alloy and marine component suppliers (specifically impacting specialized parts such as the specialized marine electronics package, heavy-duty raw materials, and precision propulsion components), we have been informed that the raw supply costs heavily exceed our original bid projections.

Because we hold our manufacturing and safety standards to the highest degree to ensure full compliance with ABS welding standards, ABYC guidelines, and USCG CFR 46 requirements for emergency vessels, we cannot substitute alternative, lower-grade components without compromising the structural integrity or operational capability of the fire interceptor boat.

To fully deliver the exact high-performance, turnkey platform the City of Jacksonville requires without any compromise to safety, our adjusted necessary price to build and deliver the vessel package is $700,000.00.

We understand that this is a significant revision from the original award amount of $315,880.00. Because this financial realignment is substantial, we completely respect that the City may need to re-evaluate the procurement. If this updated pricing cannot be accommodated under the current solicitation guidelines, please let us know how we should proceed. We are fully prepared to return any initial project initialization funds or documentation that may have been provided thus far so that the City is not penalized or delayed.

We remain fully committed to supporting the City of Jacksonville and would welcome the opportunity to discuss alternative options or an official contract amendment if feasible.

Thank you for your time, understanding, and continued guidance through this process.

Best Regards,
