C. General Requirements					
1 Scope of Services: The Procurement of the City of Jacksonville's ("City") Housing and Community Development Division is currently accepting bids. Funding will be made available for community partners, Community Development Corporations (CDCs), and non-profit organizations focused on the development of affordable housing for attainable housing developments. The funding can be used as a form of gap funding, making a large impact on the ability of some organization to make sure projects financially successful to move forward. The City is committed to assisting Duval County persons at 80% or below the Duval County AMI (Average Medium Income) for a duration of 20 (twenty) years. The Contractor must meet the minimum specifications identified in Section 1.4 of this RFP. Please see Section 4 for a full description of the services and deliverables required under this RFP.		a. Acknowledge			
2 The United States of America, specifically the City of Jacksonville and Duval County, is grappling with a housing affordability crisis that has evolved over several decades. The local housing ecosystem has faced several challenges, including those caused by COVID-19, leading to supply chain disruptions and increased material costs. Wage growth has not kept pace with rising rents and home prices. Hurricane destruction throughout the state, as well as fluctuations in housing investor activity, has further complicated the situation. Furthermore, there has been a persistent lack of public well-to provide, coordinate, and fund low- and moderate-income housing initiatives. As a result, a significant portion of the city's residents, including low- and moderate-income families and individuals, are struggling to find housing that is affordable, attainable, and adequate. • The Approval Gap Financing Program (GAP) creates a financial incentive for affordable housing developers to construct new single family residential homes in Duval County's challenged real estate markets. The Contractor is able to fill the "gap" between what it costs to build a single-family home and the appraised value. • Qualified Contractors can receive up to $125,000 per single family home (as justified by the Duval County appraisal and an accepted development proposal), up to eight (8) projects within eighteen (18) months. • Qualified Contractor would submit one proposal packet per single family home development. Each proposal packet will be ranked independently from one another. The maximum project eligible per single family home development project is $125,000. • Qualified Contractor can submit up to three (3) proposal packets in which the total subsidy does not exceed $600,000. • In order to be a qualified developer, the Contractor must meet the minimum Requirements for Affordable Housing Developers. Eligible homebuyers must be low-income individuals, having household incomes as provided within the Program Income Limits. Program Goals • Increase affordable housing development opportunities in areas of the City of Jacksonville where significant need and impact can be identified and documented. • Maximize the leveraging of resources to the greatest extent possible. • Strategically promote homeownership opportunities for low and moderate income individuals and families who are buying their first homes; • Reduce blight, promote the development, stabilization and preservation of neighborhoods; and • Spur economic development across the City by assisting families with incomes up to 140% of the Area Median Income (AMI) to purchase single family homes. Project Grading and Deliverables: • Proposals will be graded based upon criteria outlined in the evaluation section • Points will be awarded for each category based upon the response of the contractor. The contractor will be expected to give detailed information on the project as it pertains to competence and experience, Financial Capabilities, Project Plans and specifications, Project Timeline, project marketing plan and the overall GAP financing amount requested. • All projects must undergo an environmental review. Sites with the below mentioned negative characteristics may be ineligible if sufficient mitigation and abatement efforts are not included in the project design or such efforts are deemed not feasible. The distances are to be measured from all parcel boundaries of the development site. • within 300 feet of junk or scrap metal yards • within 3,000 feet of active railroad tracks • within 1,000 feet of an interstate highway including frontage and service roads • within 300 feet of heavy industrial uses • within 300 feet of a solid waste or sanitary landfill • within 100 feet of high voltage transmission power lines • within 5,000 feet of any civilian or military airport 60 dB noise contour • Site must not be within an Airport Accident Potential Zone https://library.municode.com/fl/jacksonville/codes/code_of_ordinances?nodeId=ZONE_CHAPZONECO_PT13REREALAHOTH • Site must not be within a flood zone as determined by FEMA Flood Map Service Center: https://msc.fema.gov/portal/search • Applicants with sites adjacent to one or more negative features are required to submit projects with these potential environmental impacts without the sufficient mitigation and/or abatement efforts needed within your development plan. • The contractor is expected to deliver based upon information provided within the Response a completed single family new construction home or the rehabilitation of an existing single-family home that meets the minimum		a. Acknowledge			
3 Contractors must satisfy the following mandatory minimum requirements in order to have their Responses evaluated. By submitting a Response, Contractor warrants and represents that it satisfies these requirements. Failure to meet these requirements at the time of first opening will result in the Response not being evaluated and being rejected as non-responsive: • Contractor must be a registered Florida corporation (For-Profit or Non-Profit) and must have been in existence for two (2) years. The corporation must be in good standing with the State of Florida as evidenced by a current Good Standing Certificate issued from the Florida Division of Corporations. • Contractor must be properly licensed in the State of Florida to perform the scope of services prescribed in this RFP and obtain a Business Tax Receipt for Duval County, if applicable. • Contractor must have completed at least two (2) affordable housing, residential, mixed-use, commercial, industrial, or other real estate development construction and/or rehabilitation projects within the past five (5) years. The Contractor must provide copies of a certificate of occupancy or certificate of completion issued by the appropriate jurisdiction as evidence of the completion of such projects were completed outside of the state of Florida please provide certificate of completion documentation along with an explanation as to the project's significance. 4. • The Contractor's proposed development site must not be located within a flood zone as determined by FEMA Flood Map Service Center: **https://msc.fema.gov/portal/search**. 5. • Contractor must execute the GAP Financing Affidavit.		a. The Housing and Community Development Division is providing this memorandum in response to the Procurement Services request regarding the solicitation for professional services and the requirement for a minimum of three (3) supplier responses.

The solicitation received fewer than three supplier responses. Pursuant to the Procurement Manual, when fewer than three suppliers respond to a solicitation for professional services or professional design services, the Chief of Procurement shall resolicit proposals unless the Chief determines, in consultation with the using agency, that no advantage would be obtained by resoliciting.

After reviewing the solicitation and the responses received, Housing and Community Development concurs that **no advantage would be obtained by resoliciting the solicitation at this time**. The solicitation was made available to qualified suppliers, and the responses received provide a sufficient basis to evaluate the available services and determine whether the procurement can proceed in the best interest of the City. In addition, as highlighted in the JPAC justification request form submittal, the appropriation of $900,000.00 to Beaches Habitat for Humanity serves a valid public purpose by allowing Beaches Habitat for Humanity to manage funding to oversee the construction of a minimum of eight (8) affordable townhomes. The project will increase the availability of safe, decent, and attainable housing, and meet the City Council's purpose with these funds of building attainable homeownership opportunities.

Accordingly, Housing and Community Development supports proceeding without re-solicitation and respectfully requests that Procurement Services continue processing the solicitation consistent with applicable City procurement requirements.

Please let me know if any additional information or documentation is needed.

Sincerely,

Travis Jeffrey
