To establish a representative benchmark for each bid item, a trimmed average unit cost was calculated using the six qualified bids received. For each individual bid item, the highest unit price and the lowest unit price were excluded, and the remaining four unit prices were averaged. Blue cells notate any variance of 50% below the Trimmed Average Bid Price

To establish a representative benchmark for each bid item, a trimmed average unit cost was calculated using the six qualified bids received. For each individual bid item, the highest unit price and the lowest unit price were excluded, and the remaining four unit prices were averaged. Blue cells notate any variance of 50% below the Trimmed Average Bid Price

To establish a representative benchmark for each bid item, a trimmed average unit cost was calculated using the six qualified bids received. For each individual bid item, the highest unit price and the lowest unit price were excluded, and the remaining four unit prices were averaged. Blue cells notate any variance of 50% below the Trimmed Average Bid Price

To establish a representative benchmark for each bid item, a trimmed average unit cost was calculated using the six qualified bids received. For each individual bid item, the highest unit price and the lowest unit price were excluded, and the remaining four unit prices were averaged. Blue cells notate any variance of 50% below the Trimmed Average Bid Price

Re: New Sidewalk Construction Southeast (Construction Bid 17975-26)
City Contract # 71491-22 E&R Project # 2464
Pedestrian Safety Program
(Southeast – Construction Bid 17975-26)

Dear Mr. Young:

EISMAN & RUSSO (E&R) has reviewed the six (6) Qualified Bids submitted for the Pedestrian Safety Program (Southeast – Construction Bid 17975-26) and identified a few insignificant calculation adjustments (due to rounding) that have been corrected.

In addition to the corrections, E&R further assessed each of the 6 Qualified Bider's unit prices and have attached a summary of our results. In general, we established a representative benchmark for each bid item by excluding the highest and lowest unit prices and utilizing the remaining four unit prices to establish an average. We utilized these average bid prices "Trimmed Average Bid" to compare them with each bidder's to identify potential unbalanced values. Although there were significant variances with the Lowest Bidder, the differences do not appear to have an adverse impact on the City.

Consequently, after review and removing the recommended North & West Bid Award to ONAS Corporation, E&R has determined that 1st Choice Engineering, Construction & Development, LLC is the lowest responsive bidder and recommends the City of Jacksonville award this contract to this firm. However, prior to award, an updated business license from 1st Choice Engineering, Construction & Development, LLC will be required.

Please feel free to contact me with any questions.

Sincerely,

EISMAN & RUSSO

John P. Pappas, P.E.

Bidder certifies that no officer or agent of the CITY will directly or indirectly benefit from this bid. Bidder states that this Proposal is made in conformity with the Contract Documents and agrees that in case of any discrepancy or differences between its Proposal and the Contract Documents, the provisions of the latter shall prevail.

Bidder certifies that it has carefully examined the foregoing Proposal after the same was completed and has verified every item placed thereon; and agrees to indemnify, defend and save harmless the CITY against any cost, damage or expense which may be incurred or caused by any error in the Bidder's preparation of same.

Bidder states that all applicable taxes are included in the unit prices or Lump Sum Bid and acknowledges this project is not exempt from the State or Local Sales or Use taxes, and payment of such taxes is the responsibility of the Bidder.

The undersigned Bidder agrees to keep its bid in effect for 120 calendar days after the Bid Opening date to allow the CITY time to award the bid, should it be awarded, and time to prepare and execute the contract (or issue the purchase order). This time period begins at the time bids are opened and ends upon the issuance of Notice to Proceed (NTP) by the CITY. The bid prices shall remain in effect throughout the life of the Contract. Failure of the CITY to issue NTP within the specified time period shall allow Bidder to withdraw its Bid and terminate its contract without penalty or forfeiture of Bid Bond. Failure of the CITY to issue NTP within the specified time period shall not entitle Bidder to an adjustment of its Bid prices, unless mutually agreeable by the CITY.

Bidder certifies, under penalty of perjury and contract rescission, that it has all required licenses to perform the work required to fulfill the terms of the contract resulting from a successful bid. Furthermore, the Bidder affirms that all subcontractors requiring to be licensed are listed in its response and are properly licensed to perform work on their respective portions of this project.

2.3 General Requirements

*1. Please review and acknowledge attached Plans and Specifications.

The work covered by these plans and specifications consists of furnishing all labor, materials and equipment; and performing all operations necessary for the construction of concrete sidewalks and appurtenant work including enclosing existing drainage ditches as required for the installation of sidewalk at diesignated locations, as specified in the Contract Documents.

The work sites will be on any street, highway, or other City property located within the North/West area and Southeast area within Duval County (See Maps). However, at any time during the extent of this contract, the City may issue purchase orders to construct sidewalks in other areas of the City.

It is the intent of this Contract to provide, upon request, well-constructed City standard sidewalks at various locations within the limits of the City of Jacksonville. It is not the intent of these Contract Documents to minutely define the mode, means, methods, techniques, sequence, or procedures of construction selected by the Contractor, or the safety precautions and programs incidental to the work of the Contractor, but rather to set forth reasonable and rational criteria for the construction thereof.

It is the intent of the CITY to have separate bidders; one for the Part A - North / West Area contract and a second for the Part B - Southeast Area contract. Each contract may be awarded to the lowest responsive, responsible Bidder contingent on the availability of funds within the project's approved budget. The CITY has the right to reject any or all bids if it is in the best interest of the CITY. It is the intent of the City that no sidewalk contractor shall have more than one of the two contract areas.
