Procurement Award Form (PAF)

Part 1 – Form Type: JPAC 126.204 (a) New Award, Renewals, Waive Technical Defects, Price Increases, NTE Increases.

Goods and/or Services: Timucuan Trail - Fort Caroline Connector Segement

Requested Action and Justification:

Recommend approval to amend the award with CW Matthews Contracting to implement Change Order #1 for Timucuan Trail - Fort Caroline Connector Segment C in the amount of $48,785.36. The new total expenditure not to exceed $2,873,885.36

To be executed via formal change order through the Office of General Counsel.

Supplier:	CW Matthews Contracting	**Basis of Award:**	LPTA	**BID Opening Date:**	09/18/2025

PAF Instructions
Part 1 (using agency)

Form Type: This form will be used for both Administrative Awards and JPAC Requests. Select type from dropdown options.

Goods and/or Services: Enter a brief description of the types of goods and services included in the request.

Requested Action and Justification: Enter a brief description of the requested action or authority being sought. i.e.; *Request permission to award the lowest, responsive responsible bidder for an ITB or award the highest ranked supplier for an RFP.* This block should also be used for additional information such as additional 4th account strings, or other information essential for contract execution.

Supplier: Enter awarded supplier name**.** If multiple, include in "Requested Action and Justification" box.

Basis of Award: Select from Lowest Price Technical Acceptable (LPTA), Highest Price Technical Acceptable (HPTA) or N/A.

Bid Opening Date: The date bids were unsealed by Procurement.

POA #: This is your 1Cloud generated Agreement number. Select Type, Enter Number.

PO #: Enter the PO number or agreement release number.

Change Order #: Provide the applicable change order number represented by this request.

Solicitation #: Select Prefix type, Enter Number, and Year.

Contract #: This number should be the same as your POA number (unless procured prior to 2020)

Contract Amendment #: Provide the applicable amendment number represented by this request.

Term: Select the Period of Performance or Term for the initial period.

Options: Period of time for each renewal or option.

Options Used: Prior to this request, enter how many options were already used.

Federally Funded: Select yes or no from dropdown if Federal Funds will be used.

JSEB Rec: Select Encouragement or JSEB Set Aside Option.

JESB %: If JSEB Participation, enter the percentage.

Bonds Waived Pursuant to: Select option from Drop down.

Funding Sources: Fund/Center/Account/Project/Activity, all fields are required even if zeros.

New NTE/GMP: Enter the new total not to exceed amount. Note, this should match the contract maximum indebtedness, if applicable**.**

Contingent Amount: If your agency requests an allowance for unforeseen additional expenses, then specify the amount of your requested increase and new NTE that represents the contingency allowance. This is over and above any quote.

DMP/ODPO Account: Enter the Direct Materials Purchase/Owner Direct Purchase Order Account. Used mainly for CIP (Capital Improvement/Construction) Projects

Using Agency/BU: Select one from the dropdown list.

Concurrence: Using Agency internal routing requirements for Electronic Signatures (follow Proc Manual for threshold requirements)

Title: Title of person electronically signing form.

Attachments: Included any supplemental information to the Procurement Award Form. i.e.; *Scope of work, previous awards*.

**Any field where there is no data available, or no entry is required, either leave it blank or enter N/A. Any fields where there is known data, include for informational purposes. Any changes to an original award should contain the data that is being changed and any other relevant data required for JPAC review and approval.*

CONSTRUCTION CHANGE ORDER

Change Order No. One (1) Date August 19, 2026

Description of Project Timucuan Trail- Fort Caroline Connector Segment C

Name of Contractor CW Matthews Contracting Company Inc

Contractor's Address 6741 Lloyd Road West, Jacksonville Florida 32254

Contract No. 72554-26/ PO 704267-26

Account No. See attached Original Contract $2,825,100.00

+ Previous Change Order N/A + Change Order No. 1 $48,785.36

*See attached appendix for additional listings.

TOTAL REVISED CONTRACT $2,873,885.36

Bid Number 16931-25

Construction Completion Date November 23,2026

Revised Construction Completion Date

Contract Expiration Date 03/23/2027

Revised Contract Expiration Date

In compliance with General Conditions of above-referenced contract, CONTRACTOR and OWNER do both hereby agree that the CONTRACTOR shall make the following changes, additions or deletions to the Work specified in the plans and specifications: See attached.

Justification: See attached.

By execution of this document, the Contractor acknowledges that all issues related to Contract Time and Compensation are resolved.

The Issuing Authority has looked over cost and pricing data for this change order and has determined that this change order is necessary and all costs are reasonable.

Accepted for Contractor CW Matthews Contracting Company Inc

Item 01

District Two Local Agency Change Order Request

Change Order Number 01

Financial Project Number: 441861-2-58-01 **Contract Number:** G3229 / 6256.302

Project Description: Timucuan Trail - Ft. Caroline Connector (Segment C)

Local Agency: City of Jacksonville

Current Contract Amount: $2,825,100.00 **Change in Contract:** $21,230.00

Current Contract Days: 210 **Change in Contract Days:** 0

Change Due to Design Error or Omission: No

Description of Changes:

A. Addition of Quality Control (QC) Testing services associated with construction activities.
B. Compensation for QC testing services shall be based on actual invoiced testing costs incurred by the Contractor's testing consultant, plus a maximum ten percent (10%) markup for contractor overhead and administration associated with coordinating the testing services.
C. This change order establishes a limiting amount of $21,230.00 for reimbursement of QC testing services. Final compensation shall be based on actual documented testing invoices and shall not exceed the established limiting amount without prior written approval.

Justification for Changes:

A. During construction, the City of Jacksonville requested that Quality Control (QC) testing services be performed to support project construction activities and verification of materials and workmanship in accordance with applicable contract requirements and FDOT specifications.
B. The original contract did not include compensation for the requested QC testing effort. This change order is necessary to provide reimbursement for the required testing services and associated contractor coordination effort.

Resources / Materials:

A. Reimbursement shall be based on actual invoices submitted for QC testing services performed on the project.
B. Contractor markup shall be limited to a maximum of ten percent (10%) of the actual testing costs.
C. The total reimbursement authorized under this change order shall not exceed $21,230.00.

Change Order #01 – Engineer's Analysis/Estimate

Item 01

Description of Additional Work: Quality Control (QC) testing services are required for the Timucuan Trail – Ft. Caroline Connector (Segment C) project to verify materials and workmanship in accordance with contract requirements and FDOT specifications. The services include laboratory testing, sampling, field testing, reporting, and coordination associated with documenting compliance.

Entitlement Analysis for Additional Contract Cost:
The original contract did not include compensation for the requested QC testing effort. During construction, the City of Jacksonville requested that the Contractor provide QC testing services to support ongoing construction operations and material verification. This work is necessary to maintain compliance with contract requirements and FDOT specifications.

Engineer's Estimate – QC Testing Services:
The estimated value for QC testing services was developed based on anticipated testing needs during construction activities. Reimbursement shall be based on documented invoices for testing services performed on the project.

Negotiated Cost: Compensation for QC testing services shall be reimbursed based on actual invoices submitted by the Contractor's testing consultant, plus a maximum ten percent (10%) markup for contractor overhead and administration. Total reimbursement under this change order shall not exceed $21,230.00.

Engineer's Concurrence: DRMP concurs that the QC testing services are necessary to support construction activities and verify compliance with applicable contract requirements and FDOT specifications. All submitted invoices shall be reviewed for reasonableness and consistency with the approved scope of work prior to reimbursement.

Federal Aid Eligibility

Non-participating Funding: N/A

Participating Funding: This change results in an overall increase to the original contract cost due to required field testing and is consistent with the original intent of project contract. The costs are anticipated to be considered participating.

District Two Local Agency Change Order Request

Change Order Number 02

Financial Project Number: 441861-2-58-01 **Contract Number:** G3229 / 6256.302

Project Description: Timucuan Trail - Ft. Caroline Connector (Segment C)

Local Agency: City of Jacksonville

Original Contract Amount: $2,825,100.00 **Change in Contract:** $27,555.36

Original Contract Days: 210 **Change in Contract Days:** 5

Change Due to Design Error or Omission: No

Description of Changes:

A. Overrun plan quantity for Sediment Barrier by 112 LF.
B. Underrun plan quantity for Litter Removal by 0.02 AC.
C. Overrun plan quantity for Clearing and Grubbing by 0.02 AC.
D. Overrun plan quantity for Removal of Existing Concrete by 145 SY.
E. Underrun plan quantity for Regular Excavation by 84.3 CY.
F. Overrun plan quantity for Embankment by 76.4 CY.
G. Overrun plan quantity for Type “B” Stabilization by 28 SY.
H. Overrun plan quantity for Optional Base Group by 13 SY.
I. Overrun plan quantity for Superpave Asphaltic Conc, Traffic B by 1.4 TN.
J. Remove Inlets, Dt Bot, Type C, <10' with a plan quantity of 2 EA.
K. Add Inlets, Dt Bot, Type E, <10' with a plan quantity of 2 EA.
L. Underrun Pipe Culvert, Optional Material, Other Shape - Ellip/Arch, 18"SD by 189 LF.
M. Add Pipe Culvert, Optional Material, Round, 30" SD with a plan quantity of 189 LF.
N. Underrun plan quantity for Mitered End Sect, Optional - Elliptical / Arch, 18" SD by 1 EA.
O. Add Mitered End Section, Optional Round, 30" SD with a plan quantity of 1 EA.
P. Overrun plan quantity for Concrete Sidewalk and Driveways, 6” Thick by 64 SY.
Q. Underrun plan quantity for Performance Turf, Sod by 9 SY.
R. Underrun plan quantity for Single Post Sign, Relocate by 6 EA.
S. Overrun plan quantity for Single Post Sign, Remove by 1 EA.
T. Overrun plan quantity for Thermoplastic, Standard, White, Solid, 12" for Crosswalk and Roundabout by 1 LF.
U. Overrun plan quantity for Thermoplastic, Standard, White, Solid, 24" for Stop Line and Crosswalk by 68 LF.

Justification for Changes:

A – U. During final design development and evaluation of field conditions, revisions were made to the shared use path alignment, pedestrian access features, grading limits, and drainage infrastructure in accordance with Plan Revision 03. The revisions were necessary to improve constructability, enhance pedestrian connectivity and safety, reduce impacts to existing environmental features, and provide compatibility with planned future corridor improvements.

Implementation of the revised design required adjustments to earthwork, drainage, sidewalk, stabilization, erosion control, signing and pavement marking quantities, as well as the addition of revised drainage structures and pipe conveyance facilities. The requested quantity adjustments are necessary to construct the project in accordance with the revised contract documents.

Item 02

Change Order #02 – Engineer's Analysis/Estimate

Description of Underrun Quantities Requested: Minor underruns of existing pay items were identified as a result of revised plan quantities associated with plan Revision 03 differing from the original plan estimates. The underrun quantities are associated with the following pay items: Litter Removal, (0.02) AC; Regular Excavation, (84.3) CY; Pipe Culvert, Optional Material, Other Shape – Ellip/Arch, 18" SD, (189) LF, Mitered End Section, Optional – Elliptical / Arch, 18" SD, (1) EA; Performance Turf, (9) SY and Single Post Sign, Relocate, (6) EA.

Description of Overrun Quantities Requested: Overruns of existing pay items were identified as a result of the revised plan quantities in conjunction with the additional construction activity related to increasing the capacity of the side drain from the vicinity of Station 57+70 to the vicinity of Station 69+61; extending the shared use path (SUP) from the vicinity of Station 176+63 to the vicinity of Station 177+07 and shifting the planned pedestrian crosswalk from the vicinity of Station 77+24 to the vicinity of Station 77+76 in accordance with plan Revision 03. The overrun quantities are associated with the following pay items: Sediment Barrier, 112 LF; Clearing and Grubbing, 0.02 AC; Removal of Existing Concrete, 145 SY; Embankment, 76.4 CY; Type "B" Stabilization, 28 SY; Optional Base Group, 13 SY; Superpave Asphaltic Concrete, 1.4 TN; 6" Concrete Sidewalk and Driveways, 64 SY; Single Post Sign, Remove, 1 EA; 1 LF of 12" Wide Solid White Thermoplastic Pavement Marking and 68 LF of 24" Wide Solid White Thermoplastic Pavement Marking.

Description of Added Pay Items and Quantities Requested:
Inlets, Dt Bot, Type E, <10: The addition of two (2) 5'-6" by 4'-0" type "E" ditch bottom inlet structures replaces the two (2) 4'-1" by 3'-4" type "C" ditch bottom inlet structures for drainage structures SD-2 and SD-3 in the vicinity of Stations 69+00 and 69+61, respectively, in accordance with Plan Revision 03 to collect runoff from the revised ditch and grading configuration and provide positive drainage along the right side of Fort Caroline Road and accommodate the increase in the side drain pipe culvert size from 18" elliptical/arch to 30" round.

Pipe Culvert, Optional Material, Round, 30" SD: The addition of 189 LF of 30" round pipe culvert replaces 189 LF of 18" elliptical/arch pipe culvert from the vicinity of Station 67+70 to the vicinity of Station 69+61 to provide increased conveyance capacity between the revised drainage structures.

Mitered End Section, Optional Round, 30" SD: The addition of one (1) 30" diameter round mitered end section replaces one (1) 18" elliptical/arch mitered end section for drainage structure SD-1 in the vicinity of Station 67+70 in accordance with Plan Revision 03 to provide stable inlet/outlet transitions and proper end treatment for the increased pipe conveyance system.

Entitlement Analysis for Additional Contract Cost:
During final design development and evaluation of existing field conditions, project access needs, pedestrian connectivity requirements, environmental constraints, and corridor improvements, revisions were made to the proposed shared use path alignment, path termini, pedestrian crossing features, driveway and sidewalk tie-ins, grading limits, and supporting infrastructure. The revised design extends and refines portions of the shared use path, adjusts pedestrian crossing locations, modifies path tie-in locations, and increases associated sidewalk and driveway reconstruction quantities to better accommodate existing field conditions, improve pedestrian safety, and enhance corridor connectivity. Modifications were also made to reduce impacts to existing vegetation and preserve several mature trees while maintaining the overall project objectives and improving constructability within constrained portions of the corridor.

To support the revised shared use path configuration, pedestrian access improvements, modified grading limits, and future corridor compatibility, the stormwater collection and conveyance system was reevaluated. The review determined that increased drainage capacity was necessary to adequately serve the revised facility footprint, existing drainage patterns, anticipated future runoff conditions, and future expansion within the

Docusign Envelope ID: 135FCDB1-79A8-4664-B9E9-0E27629C8CD7

Item 02

corridor. As a result, the design was modified to include larger drainage structures, increased storm drain pipe conveyance capacity, revised end treatments, enhanced outfall protection, and associated grading modifications necessary to support the revised hydraulic design and provide positive drainage throughout the corridor.

Implementation of Revision 03 required adjustments to earthwork, stabilization, base, sidewalk construction, driveway reconstruction, drainage facilities, erosion control measures, signing, pavement markings, and other associated roadway quantities. The Contractor is required to perform the revised work in order to construct the project in accordance with the approved plans.

The plan revisions and associated quantity adjustments were reviewed to determine entitlement for additional contract compensation. The review determined that the revised work was necessary to construct the project in accordance with the current contract documents and that the requested quantity adjustments and associated contract costs are reasonable, necessary, and directly related to the revised design. Based upon the review of the revised plans, quantity calculations, and contract requirements, the CEI finds that the Contractor is entitled to additional compensation for the quantity adjustments and added pay items required to implement the Revision 03 design changes. Therefore, entitlement to additional contract cost is justified and approval of this Change Order is recommended.

Engineer's Estimate – Plan Quantity Adjustments
The revised quantities are based on the Revision 03 roadway plans and associated field adjustments. All additional quantities are considered necessary to construct the project in accordance with the revised design intent and applicable FDOT standards.

Negotiated Cost: The revised work is anticipated to utilize existing contract pay item unit prices where applicable. A review of the Contractor's proposed unit prices for the added pay items 0425-1-551, 0430-174-130 and 0430-984-133 determined the pricing to be consistent with FDOT specifications, contract requirements and the FDOT item average unit costs for Florida Market Area 05 (Duval County) and therefore no further price negotiations were necessary.

Engineer's Concurrence: All final quantities were verified by field measurement and the Engineer of Record. DRMP agrees that the changes in pay item quantities are acceptable and meet the intent of the project plans.

Contract Time

Description: An additional five (5) days of contract time is granted to construct drainage structures SD-2 and SD-3; the larger 30" round pipe culvert from the vicinity of Station 67+70 and the larger mitered end section for structure SD-1 in the vicinity of Station 67+70; all in accordance with Plan Revision 03.

Engineer's Time Analysis for Additional Time: Following a thorough review of the Contractor's request for a five (5) calendar-day time extension, based on the additional work and changes outlined in Plan Revision 03, it has been determined that an extension of five (5) calendar days is justified and reasonable. These days are considered participating and non-compensable with regard to overhead or daily costs.

Federal Aid Eligibility

Non-participating Funding: N/A

Participating Funding: This change results in an overall increase to the original contract cost associated with Plan Revision 03 and the resulting quantity adjustments necessary to construct the project in accordance with the revised contract documents. The costs are anticipated to be considered participating.

PAF Instructions
Part 1 (using agency)

Form Type: This form will be used for both Administrative Awards and JPAC Requests. Select type from dropdown options.

Goods and/or Services: Enter a brief description of the types of goods and services included in the request.

Requested Action and Justification: Enter a brief description of the requested action or authority being sought. i.e.; *Request permission to award the lowest, responsive responsible bidder for an ITB or award the highest ranked supplier for an RFP.* This block should also be used for additional information such as additional 4th account strings, or other information essential for contract execution.

Supplier: Enter awarded supplier name**.** If multiple, include in "Requested Action and Justification" box.

Basis of Award: Select from Lowest Price Technical Acceptable (LPTA), Highest Price Technical Acceptable (HPTA) or N/A.

Bid Opening Date: The date bids were unsealed by Procurement.

POA #: This is your 1Cloud generated Agreement number. Select Type, Enter Number.

PO #: Enter the PO number or agreement release number.

Change Order #: Provide the applicable change order number represented by this request.

Solicitation #: Select Prefix type, Enter Number, and Year.

Contract #: This number should be the same as your POA number (unless procured prior to 2020)

Contract Amendment #: Provide the applicable amendment number represented by this request.

Term: Select the Period of Performance or Term for the initial period.

Options: Period of time for each renewal or option.

Options Used: Prior to this request, enter how many options were already used.

Federally Funded: Select yes or no from dropdown if Federal Funds will be used.

JSEB Rec: Select Encouragement or JSEB Set Aside Option.

JESB %: If JSEB Participation, enter the percentage.

Bonds Waived Pursuant to: Select option from Drop down.

Funding Sources: Fund/Center/Account/Project/Activity, all fields are required even if zeros.

New NTE/GMP: Enter the new total not to exceed amount. Note, this should match the contract maximum indebtedness, if applicable**.**

Contingent Amount: If your agency requests an allowance for unforeseen additional expenses, then specify the amount of your requested increase and new NTE that represents the contingency allowance. This is over and above any quote.

DMP/ODPO Account: Enter the Direct Materials Purchase/Owner Direct Purchase Order Account. Used mainly for CIP (Capital Improvement/Construction) Projects

Using Agency/BU: Select one from the dropdown list.

Concurrence: Using Agency internal routing requirements for Electronic Signatures (follow Proc Manual for threshold requirements)

Title: Title of person electronically signing form.

Attachments: Included any supplemental information to the Procurement Award Form. i.e.; *Scope of work, previous awards*.

**Any field where there is no data available, or no entry is required, either leave it blank or enter N/A. Any fields where there is known data, include for informational purposes. Any changes to an original award should contain the data that is being changed and any other relevant data required for JPAC review and approval.*
