PAF Instructions
Part 1 (using agency)

Form Type: This form will be used for both Administrative Awards and JPAC Requests. Select type from dropdown options.

Goods and/or Services: Enter a brief description of the types of goods and services included in the request.

Requested Action and Justification: Enter a brief description of the requested action or authority being sought. i.e.; *Request permission to award the lowest, responsive responsible bidder for an ITB or award the highest ranked supplier for an RFP.* This block should also be used for additional information such as additional 4th account strings, or other information essential for contract execution.

Supplier: Enter awarded supplier name**.** If multiple, include in "Requested Action and Justification" box.

Basis of Award: Select from Lowest Price Technical Acceptable (LPTA), Highest Price Technical Acceptable (HPTA) or N/A.

Bid Opening Date: The date bids were unsealed by Procurement.

POA #: This is your 1Cloud generated Agreement number. Select Type, Enter Number.

PO #: Enter the PO number or agreement release number.

Change Order #: Provide the applicable change order number represented by this request.

Solicitation #: Select Prefix type, Enter Number, and Year.

Contract #: This number should be the same as your POA number (unless procured prior to 2020)

Contract Amendment #: Provide the applicable amendment number represented by this request.

Term: Select the Period of Performance or Term for the initial period.

Options: Period of time for each renewal or option.

Options Used: Prior to this request, enter how many options were already used.

Federally Funded: Select yes or no from dropdown if Federal Funds will be used.

JSEB Rec: Select Encouragement or JSEB Set Aside Option.

JESB %: If JSEB Participation, enter the percentage.

Bonds Waived Pursuant to: Select option from Drop down.

Funding Sources: Fund/Center/Account/Project/Activity, all fields are required even if zeros.

New NTE/GMP: Enter the new total not to exceed amount. Note, this should match the contract maximum indebtedness, if applicable**.**

Contingent Amount: If your agency requests an allowance for unforeseen additional expenses, then specify the amount of your requested increase and new NTE that represents the contingency allowance. This is over and above any quote.

DMP/ODPO Account: Enter the Direct Materials Purchase/Owner Direct Purchase Order Account. Used mainly for CIP (Capital Improvement/Construction) Projects

Using Agency/BU: Select one from the dropdown list.

Concurrence: Using Agency internal routing requirements for Electronic Signatures (follow Proc Manual for threshold requirements)

Title: Title of person electronically signing form.

Attachments: Included any supplemental information to the Procurement Award Form. i.e.; *Scope of work, previous awards*.

**Any field where there is no data available, or no entry is required, either leave it blank or enter N/A. Any fields where there is known data, include for informational purposes. Any changes to an original award should contain the data that is being changed and any other relevant data required for JPAC review and approval.*

Guillermo Hechevarria
Superformance MF Inc
2637 W 76 St
Hialeah FL 33016

Dear Guillermo Hechevarria:

This is in reference to your request for a Manufacturer Identification Code (MIC). Your company is assigned the following MIC:

AEK

Please complete and sign enclosure (1), the MIC verification form, and scan it and return by email (*the preferred method*), or return it to us by mail. **Also, please note that the regulations in 33 CFR §181.33(b) require you to notify this office if you change company ownership, name, or address**; failure to do this will subject you to the penalties in Title 46, United States Code, Section 4311.

You can access the USCG Boat Builder's Handbook at: http://uscgboating.org/regulations/boatbuilders-handbook.php. This handbook contains all of the information necessary for you to build compliant recreational boats. The regulations which prescribe the use of your company's MIC in the Hull Identification Numbers (HIN) appear in 33 CFR §181.23.

The Coast Guard Office of Auxiliary and Boating Safety, Recreational Product Assurance Branch believes you will find these materials to be beneficial. Please feel free to contact the office with any suggestions or questions you may have. You are also encouraged to visit our websites at: www.uscgboating.org and www.safeafloat.com.

Sincerely,

Kristopher Franklin

TO: City of Jacksonville
Procurement Division
214 North Hogan Street, 8th Floor
Jacksonville, FL 32202

DATE: 30 March 2026

FROM: AD4K, LLC
8306 Noble Vines Dr.
Hoschton, GA 30519

SUBJECT: Offer Submission – ITB 17646-26 Purchase of 10m (33') Fire Interceptor with Boat Master Trailer

AD4K, LLC is pleased to submit its offer in response to **ITB 17646-26, Purchase of 10m (33') Fire Interceptor with Boat Master Trailer**. We appreciate the opportunity to provide the City of Jacksonville with our proposal for the required **10m (33') Fire Interceptor – Port Security and Emergency Response Vessel with trailer** in accordance with the solicitation requirements.

Our submission is based on a careful review of the solicitation documents, including the bid requirements, technical specifications, response instructions, and pricing requirements. AD4K, LLC understands that this procurement is for a one-time purchase, that bids must be submitted for the full quantity, and that award will be made on an all-or-none basis to the lowest responsive and responsible bidder, subject to the terms of the solicitation.

AD4K, LLC is submitting an offer for **Line 1 – Purchase of 10m (33') Fire Interceptor - Port Security and Emergency Response Vessel and Boat Master Trailer or Equivalent**, and our proposal includes the technical and supporting information necessary for the City's review. We understand that where a manufacturer's name or brand is referenced, sufficient product data must be provided to permit an intelligent comparison, and we have structured our submission accordingly.

We acknowledge the City's requirement that all items furnished be provided in accordance with the published specifications and contract terms, and we confirm that our offer is submitted in good faith, without collusion, and with the intent to fully comply with the solicitation requirements. We also understand that pricing is to include furnishing and delivery, and that prices are to remain in effect for 120 calendar days after bid opening as stated in the solicitation.

Our proposed vessel package is based on the Fire Interceptor 10M platform and related specifications included with the solicitation, including the required emergency response vessel configuration and trailer package.

Thank you for your consideration of our offer. AD4K, LLC appreciates the opportunity to support the City of Jacksonville. Should you require any additional information, clarifications, or supporting documentation as part of your evaluation, we stand ready to provide it through the proper procurement channel.

Respectfully Submitted,

Ryan Woods
Chief Executive Officer

AD4K, LLC

Marine Vessel Manufacturing & Integrated Marine Systems

Authorized Distributor – Superformance Jet Boats LLC

COMPANY OVERVIEW

AD4K LLC is a U.S.-based manufacturer and authorized distributor of high-performance aluminum patrol vessels, trailers, and integrated marine systems supporting federal, state, and municipal maritime operations. The company delivers turnkey marine platforms designed for enforcement, fisheries, research, and public safety missions.

CORE COMPETENCIES

- Custom aluminum patrol vessel fabrication (all-aluminum construction)
- Turnkey propulsion integration (Mercury, Yamaha, Honda)
- Marine electrical system installation and protected wiring integration
- Specialty vessel systems for patrol, research, electrofishing, and survey operations
- Trailer integration and logistics coordination
- Water testing, commissioning, and delivery

KEY DIFFERENTIATORS

- Direct manufacturer relationship with Superformance Jet Boats LLC
- All-aluminum vessel construction using marine-grade alloys
- Hidden electrical routing for water protection
- Turnkey delivery — vessels arrive fully operational
- Designed for demanding government maritime missions

RELEVANT EXPERIENCE

Contract Name/#: FA441725P0162
Agency/Client: U.S. Airforce – 1 SOCONS
Scope: Refurbishment of two 38’ SAFE Boat Full Cabin vessels to full operational status.

LETTER OF AUTHORIZATION

To Whom It May Concern,

This letter serves as formal authorization that AD4K LLC is fully authorized to market, quote, sell, and support the products and services of SUPERFORMANCE Jet Boats LLC.

This authorization includes full access to all applicable technical documentation, product specifications, manufacturer information, and compliance data necessary to support customer requirements and contractual obligations.

Additionally, AD4K LLC is authorized to represent SUPERFORMANCE Jet Boats LLC in communications with customers, including federal, state, and local government agencies, and to provide products that are new, genuine, and fully supported by the manufacturer.

This authorization shall remain valid unless otherwise revoked in writing by SUPERFORMANCE Jet Boats LLC.

Should you require any additional information or verification, please do not hesitate to contact us.

Respectfully,

Guillermo Hechevarria
Owner / Authorized Representative

Dear Guillermo Hechevarria:

This is in reference to your request for a Manufacturer Identification Code (MIC). Your company is assigned the following MIC:

AEK

Please complete and sign enclosure (1), the MIC verification form, and scan it and return by email (*the preferred method*), or return it to us by mail. **Also, please note that the regulations in 33 CFR §181.33(b) require you to notify this office if you change company ownership, name, or address**; failure to do this will subject you to the penalties in Title 46, United States Code, Section 4311.

You can access the USCG Boat Builder's Handbook at: http://uscgboating.org/regulations/boatbuilders-handbook.php. This handbook contains all of the information necessary for you to build compliant recreational boats. The regulations which prescribe the use of your company's MIC in the Hull Identification Numbers (HIN) appear in 33 CFR §181.23.

The Coast Guard Office of Auxiliary and Boating Safety, Recreational Product Assurance Branch believes you will find these materials to be beneficial. Please feel free to contact the office with any suggestions or questions you may have. You are also encouraged to visit our websites at: www.uscgboating.org and www.safeafloat.com.

Sincerely,

Kristopher Franklin

CWO Kristopher Franklin

MetalCraft Marine
INCORPORATED

April 6 ,2026
Jacksonville Fire & Rescue Department
214 N. Hogan Street
1st Floor, Ed Ball Building
Room 110, Jacksonville, FL
32202
Attention: Boat Committee

Reference: 10M (33') Fire Interceptor – Port Security and Emergency Response Vessel

We have greatly appreciated and enjoyed working with Jacksonville Fire & Rescue over these past many years. Your marine program is one of the best organized in the country and how you handled the Xiamen ship fire was nothing short than amazing. We recently visited the vessels and once again were impressed at your high level of maintenance.

There was some confusion in this initial bid with the technical specification which resulted in the rebid, we have clarified certain specification issues that remain. Omitted is the actual FLIR M-364 camera, Whelen Emergency lights & Siren with controller and Zipwake trim tabs from the original discussion/bid, totalling over $30,000. These items can be added after if desired, along with some essential spotter windows.

As you know from these many years working together the MetalCraft boats last a very long time, are easy to service and maintain and we are there whenever you need service and support.

Terms Offered; 10% after preconstruction meeting
20% at commencement of construction
20% at completion of metalwork
20% at receipt of engines
20% at completion of seatrials
10% at delivery

We look forward to working with you on this project. If we are successful in this bidding process, we can start building in less than a month.

Thank you for this opportunity,

Jay M.

Jacksonville F&R D — 10M (33') Fire Interceptor — 2026-04-06

Standard Features — Port Security and Emergency Response Vessel

METAL HULL

The Fire Interceptor 10M boat is 32'10" X 8'6" with a draft of 22". It comes complete with 5/16" bottom and 3/16" hull sides. The deck is 3/16" non-skid plate. The Interceptor hull shape is a deep V hull with a very fine bow entry to easily break through significant waves (USCG rated for Sea State 6 survivable) and steep chop. The fine entry provides unusual sound reduction from waterborne noise. The hull deadrise is 22 degrees aft to provide high static stability based on the vessel's width and meets ISO 12215 construction standards and ISO 12217 intact stability. DB in the cabin at cruise RPM is in the 78 Db range. All welding is as per AWS welding standards and the boat comes with anti corrosion monitoring as per ABYC and the MCM 10 year hull warranty. Expected service life is 25 years. The boat is built to USCG and USN MII standards and meets all requirements of CFR 46 and ABYC. The design was selected by the USCG for the Long Range INterceptor II & III
