RE: Citywide Emergency Debris Management Services
City of Jacksonville
County of Duval
Request to Increase Unit Prices in Accordance with the Consumer Price Index

Dear Ms. Nettles:

J.B. Coxwell Contracting, Inc. (JBCCI) respectfully request an increase to our contractual unit prices based on the Southern Region Consumer Price Index (CPI Attached). In accordance with the contract documents, a modification based on consumer price indices is allowed if agreed by both parties. JBCCI respectfully request the City's consideration of the attached increased which includes the CPI adjustment from April of 2021 thru the latest data provided in May 2022. This creates an increase of 10.15% to all unit prices.

Please note, items 14 and 15 on the bid form previously had identical descriptions. JBCCI bid the work with the assumption that item No. 14 was Hazardous Stump Extraction 36.01" to 42" and item No. 15 was Hazardous Stump Extraction 42.01" to 48". These have been adjusted on the attached schedule of values.

Additionally, items numbers 28, 29 and 30 have been added as requested to address removal of silt, sand and mud. Please let us know if you have any questions.

Respectfully,
J. B. COXWELL CONTRACTING, INC.

Christopher C. Blank
Vice President Operations

CONSUMER PRICE INDEX – APRIL 2022

The Consumer Price Index for All Urban Consumers (CPI-U) increased 0.3 percent in April on a seasonally adjusted basis after rising 1.2 percent in March, the U.S. Bureau of Labor Statistics reported today. Over the last 12 months, the all items index increased 8.3 percent before seasonal adjustment.

Increases in the indexes for shelter, food, airline fares, and new vehicles were the largest contributors to the seasonally adjusted all items increase. The food index rose 0.9 percent over the month as the food at home index rose 1.0 percent. The energy index declined in April after rising in recent months. The index for gasoline fell 6.1 percent over the month, offsetting increases in the indexes for natural gas and electricity.

The index for all items less food and energy rose 0.6 percent in April following a 0.3-percent advance in March. Along with indexes for shelter, airline fares, and new vehicles, the indexes for medical care, recreation, and household furnishings and operations all increased in April. The indexes for apparel, communication, and used cars and trucks all declined over the month.

The all items index increased 8.3 percent for the 12 months ending April, a smaller increase than the 8.5-percent figure for the period ending in March. The all items less food and energy index rose 6.2 percent over the last 12 months. The energy index rose 30.3 percent over the last year, and the food index increased 9.4 percent, the largest 12-month increase since the period ending April 1981.
