Based on the Design Criteria Package (DCP) developed by City engineers, the Department of Public Works, in accordance with Design/Build CDB-0008-16, Contract 8150-15 has completed negotiations with Acon Construction Co., Inc., to provide limited design to support construction of the site portion as drawn and permitted. Construction above the site will include partial portions of the marine work and a restroom building and pavilion. Negotiations have resulted in the GMP amount of $2,775,006.40, which includes $40,000 in contingency, as indicated on the attached Scope & Fee Summary, Exhibit II-1 and allowing for the completion of the work within 210 days from notice to proceed. JSEB goals of 10% continue to be met with this amendment.

Accordingly, this is to recommend that Contract #8150-15, originally executed March 28, 2016, between the City and Acon Construction Co., Inc. for Design-Build Services- Active and Passive Parks, be amended to incorporate the attached Scope and Fee Summary, Exhibit II-1 for the Half Moon Island Park Improvements for the GMP amount of $2,775,006.40, known as Amendment 34A.

Attention: Mr. William Joyce, P.E.,
Engineering and Construction Management
Reference: Half Moon Island Park Value Engineered Proposal
DB Contract #8150-15

Mr. Joyce,

We are pleased to provide this proposal for the work on the subject project under the guidelines of the referenced contract.

The scope of this project is to provide limited design to support construction of portions of the plans provided via email from Robert Scott on 3-4-2019. This proposal limits the amount of work to be performed based on negotiations between City and ACON to complete the site portion as drawn and permitted while performing partial portions of the marine work. Also added are elements of Alternate 1 to include a restroom building and pavilion. The restroom requires well and septic which are also included in this proposal. The specific work and specifications used are contained in the attached breakouts for specific scopes. ACON will meet City Standards and stay within permitting requirements already in place for the project. ACON Engineers will provide assistance in ensuring compliance. All materials provided will meet ACON requirements as negotiated with COJ and will meet the intent of original designs provided for Value Engineering. Limits and substitutions were made to original designs strictly for budgetary reasons.

Our Guaranteed Maximum Price (GMP) for this project as stated is $2,775,006.40.

The Guaranteed Completion Date (GCD) will be 210 days from Notice to Proceed for Substantial Completion.

Breakdowns follow this letter. Please contact me if you have any questions or need further information.
Sincerely,

Frank Anderson
Construction Manager

Randy,
I have to VE this project...we plan to delete the floating dock at shore and replace with a wood structure, gangway and then floating docks like everywhere else

The City's Designer has permitted already, so we need to just put in a wood pier with gangway (we can match the one in the project)

Would a $20k allowance for you be enough to make those few changes?

Frank,

Please review the attached plans.

The City would like to discuss value-engineering the scope of work into a project that we have the budget to build.

We would issue an amendment to your current Design-Build contract.
Some of the funding is from a FIND grant that will expire at the end of September 2019 so we need to move quickly.

Thank you,
