RE: **Justification for Online Training Certification & Continuing Education Management System**

Jacksonville Fire & Rescue Department (JFRD) has been using Target Solutions to track online training and certification requirements. The current contract bid SC # 0260-17 is scheduled to expire on November 2, 2020. JFRD is requesting to continue to use Target Solutions as a single source vendor for fiscal year 2021. Previous attempts to formally bid these system requirements have resulted in companies responding who cannot meet the required specifications nor had the capability to handle even most of our needs.

We have several events this year which we depend on their accuracy and record management of training records. Target Solutions meets the Insurance Service Office (ISO) requirements which, JFRD will be audited during the next 3 months. On December 1, 2020, all JFRD EMT/Paramedic licenses will expire, and Target Solutions is the current format used to track CEU credits in the approved reporting format.

Target Solutions is organizationally accredited through CAPCE, the Commission on Accreditation for Pre-Hospital Continuing Education and features the capability of training subjects such as NFPA and Occupational Safety and Health Administration, which is required to meet the Insurance Service Office (ISO) requirements for the department and will be used for the upcoming ISO audit.

An attempt to move to a new system prior to the completion of these two events will cause undue hardship for the department.

If you have any questions or need additional information regarding this request, please contact Gail McCormick at 997-4947.

REQUESTING AGENCY (DEPT./DIVISION): JFRD Training Academy/TA

FUNDING SOURCE: JFRD Training Academy/TA

BRIEF DESCRIPTION OF GOODS/SERVICES:

Renew contract with Target Solutions

AMOUNT OF PROJECT (attach quote): $110,781.00

PROVIDE A SUMMARY OF THE SCOPE OF GOODS/SERVICES TO BE PROVIDED; IDENTIFY EACH ITEM, COMPONENT OR SERVICE BEING PROCURED (ATTACH QUOTE/PROPOSAL):

Target Solutions offers more than 50 hours of training for fire departments, including 250 hours of accredited EMS continuing education courses. TS also features NFPA 1001, NFPA 1021, NFPA 1410, NFPA 1500, as well as OSHA training required for the training the department. TS is also the format being used to tract the Insurance Service Office (ISO) training with its activities builders, credentials manager, ISO Training tracker, file center and its capability of generating reports that will be required for the upcoming ISO audit.

PROVIDE A DETAILED JUSTIFICATION AS TO WHY THE REQUESTED GOODS/SERVICES CAN ONLY BE EFFICIENTLY AND EFFECTIVELY PROCURED THROUGH THE RECOMMENDED SINGLE SOURCE PROVIDER:

At this time, there is not another company that has all the capabilities for training that TS has and all of our records are housed inside TS currently. December 1, 2020 is also the renewal for EMT/Paramedic licenses and all of our continuing education courses has been assigned and completed in Target Solutions and we would lose access to all of those courses should we go with another vendor.

ASSERT THAT YOU HAVE RESEARCHED THE AVAILABILITY OF THE REQUESTED GOODS/SERVICES FROM OTHER SOURCES IN APPLICABLE MARKETS AND HAVE DISCUSSED AND EVALUATED THE SAME WITH COJ'S PROCUREMENT AND EBO DIVISIONS:

In 2015, we attempted to put TS out to bid, however, all the other bidders could not provide the same services that TS had to offer. TS has the capability of uploading certificates, offer training that is already built in and approved through the State of Florida. We would lose all the data that has been uploaded into TS. It is critical that we maintain our relationship with TS at this time due to the risk of losing our training that has been tracked since the ISO re-rate could cost Jacksonville tax payers 40 million dollars with we lose our ISO rating of 1.
