SUBJECT: **CITYWIDE DEBRIS MANAGEMENT SERVICES**

BID # **ESC-0135-17** OPEN DATE: **05/17/2017**

COMPETITIVE SEALED PROPOSAL EVALUATION COMMITTEE

KIND AND BASIS OF CONTRACT:
CONSTRUCTION SERVICES- INITIAL TERM EXECUTION OF CONTRACT FOR FOUR (4) YEARS, WITH TWO (2) TWO (2) YEAR RENEWAL OPTIONS

AGENCY: **DEPARTMENT OF PUBLIC WORKS**

BASIS OF AWARD: **EVALUATION CRITERIA**

NUMBER OF BIDS INVITED: 9 NUMBER RECEIVED: 4 OTHER: 0

SUMMARY OF BIDS AND RECOMMENDED ACTIONS:

The City received four (4) proposals for evaluation for subject project and found all four (4) to be responsive, interested, qualified and available to provide the services required by the RFP. The proposals were evaluated using the criteria outlined in the competitive sealed proposals for the subject RFP. The ranking of the four (4) proposals and scores (Listed below):

1) J.B. Coxwell Contracting, Inc. – 107.40
2) D & J Enterprises, Inc. – 105.00
3) Ceres Environmental Services, Inc. – 91.18
4) DRC Emergency Services- 89.80

Recommend approval of award to J.B. Coxwell Contracting, Inc., as receiving the highest score in accordance with the evaluation and ranking above. Period of Service will be four (4) years from execution date of contract with two (2) two (2) year renewal options. To be executed by formal contract through Office of General Counsel, no funds will be encumbered at this time and will be processed by individual Purchase Orders using the account number set up at time of the emergency.

SUBJECT: **ESC-0135-17 Citywide Emergency Debris Management Services Award Recommendation**

The city received four (4) proposals for evaluation for the subject project and found all four (4) to be responsive, interested, qualified and available to provide the services required by the RFP.

The proposals were evaluated using the criteria outlined in the competitive sealed proposals for the subject RFP (see attached matrix.) After reviewing the four (4) submitted proposals, the following companies qualifications were ranked as listed below.

Rank	*Company*	*Score*
1	J. B. Coxwell Contracting, Inc.	107.40
2	D & J Enterprises, Inc.	105.00
3	Ceres Environmental Services, Inc.	91.18
4	DRC Emergency Services	89.80

Accordingly, the Public Works Department recommends approval of award to the highest ranking bidder, J. B. Coxwell Contracting, Inc. for Citywide Emergency Debris Management Services. The contract will not encumber any funds. Funds will be encumbered by purchase order(s) using the account number set up at the time of the emergency.

Attachment B– Evaluation Matrix

The evaluations will be based upon the following criteria, and Contractors are requested to provide, as a minimum, the information listed under each criterion. **Failure to provide adequate information on any criterion will result in lower scores and could result in rejection of the proposal as non-responsive.** The response to each of the criterion will be evaluated relative to the other responses received and will be awarded a maximum possible score as listed for each of the criteria respectively. Contractors are encouraged to arrange their responses in a format that will offer ready review and evaluation of each criterion.

I. Company's Experience (15 points)

This section should provide information on the **Contractor**'s historical background and experience on disaster recovery projects including the **Contractor**'s previous experience with proposed joint ventures and key **sub-Contractors**. The **Contractor**'s background should include: the number of years that the company has been in existence; the number of years the **Contractor** has been involved with disaster recovery and debris removal; the organization of the disaster recovery team; and the **Contractor**'s history and experience working with the proposed joint venture or major sub-Contractor on disaster recovery and debris removal.

The **Contractor** should document a thorough understanding of the elements affecting the removal and processing of mixed debris following a disaster event. The experience and expertise of contract managers and key personnel should be discussed.

The **Contractor** should document their ability to establish and operate multiple temporary debris processing sites throughout the **City** where collected debris may be sorted, screened for soil, recycled, ground, mulched, burned, or otherwise segregated for transport and disposal at a designated facility within the City. The **Contractor**'s disclosure should include their knowledge of the regulations affecting the removal, processing and disposal of mixed debris.
The **Contractor** should document their expertise and experience in assessing, removing, and disposing of specialty debris including, bio-hazardous wastes, dead animals, and hazardous stumps.

The **Contractor** should document their expertise and experience in demolition of structures, and debris removal from private property (Right-of-Entry Programs) and publicly owned property (other than Rights-of-Way).

The **Contractor** should document their expertise and experience in assisting governmental entities in providing community relations including the company's ability to create audio/visual presentations and fact sheets.

II. Resources and Availability (15 Points)

Availability of the contract managers and key personnel must be identified. **Sub-Contractors** shall be identified and the intended scope of their work detailed. The types and quantities of recovery equipment must be identified. The **Contractor** must clearly identify that equipment owned by the **Contractor** separately from the equipment available from other sources. The **City**

expects personnel, **sub-Contractors** and equipment identified in the proposal response to be available for work to complete services identified under this solicitation. The **City** further expects that the identified equipment will be sufficiently maintained so as to be available to operate in a safe and reliable manner. The Contractor must provide a list of current emergency response contracts with other organizations.

The **Contractor** must provide reasonable assurance that the identified personnel will be available to work on future projects. The **Contractor** must provide reasonable assurance that all equipment identified for disaster recovery will be available and are not contractually obligated to other projects (e.g. residential collection contracts, solid waste transfer contracts, or other disaster debris removal contracts.) The **Contractor** shall provide a list of all contractual obligations for similar disaster recovery services and provide reasonable assurance that such contracts will not interfere with or preclude the **Contractor** from responding to the **City** with the **Contractor**'s full force of manpower and equipment. The **Contractor** shall disclosure future contractual obligations throughout the term of the contract and provides reasonable assurance that such obligations will not preclude the **Contractor** from meeting its obligations under this RFP.

The **Contractor** must include a mobilization/operation plan that outlines the **Contractor**'s mobilization/ operation procedures following a disaster event. Any supplemental plans or operating procedures referenced in proposal must be submitted with your proposal. This outline should include a breakdown of the time required to perform each mobilization task including the time required to mobilize the **Contractor**'s forces, time to establish an on-site emergency response and communication center, time to mobilize recovery equipment, time to establish Temporary Debris Storage and Reduction Sites (TDS), and the time required to mobilize **sub-Contractor's**. The mobilization/operation plan shall include a breakdown of the manpower and equipment that will be assembled during each phase of the **Contractor's** response. The response should meet the following minimum standards:

- Provide hourly rental rates for Contractor owned/leased equipment and personnel. While these rates will not be considered as part of the base bid, they will be considered in the grading of Section Resources and Availability. They may also be used to establish payment for contract related work, including, but not limited to, the cut and toss operation, debris removal from Parks, and TDS preparation, etc.

The operation plan for the TDS shall describe the operations expected – materials handling, reduction, storage, recycling operations, equipment maintenance, etc. The **Contractor** shall include provisions for air curtain burning.

A description of the on-site emergency response and communication center must be provided including the type of communication employed by the **Contractor** and the **Contractor**'s ability to interface with the **CITY**'s emergency response equipment

III. Project Management (5 Points)

The **Contractor** should describe the organizational structure, **Contractor** assigned liaison officer, plans to meet with the City at the location and times specified, and "chain of command" of the **Contractor**'s response team and the project management methods that are most appropriate to perform the contract services outlined in Section 4. The discussion should include: methods for communicating with team members and **City** emergency management staff, protocols for team work assignments, data management and project tracking methodologies and capabilities, schedule controls, and any other appropriate management considerations. The **Contractor** should also discuss the **Contractor**'s staffing and ability to supervise multiple clean-up crews and **sub-Contractor.** This discussion should include the **Contractor**'s project management methods that ensure the quality of the work being performed by the **Contractor**'s crews and **sub-Contractors.**

Contractor shall provide a comprehensive description of their proposed quality control plan. The description shall include, as a minimum, the **Contractor**'s quality control organization and its authority, the **Contractor**'s overview of the tasks to be inspected, reports and methods of inspections.

IV. Past Performance (15 Points)

The **City** will verify past performance by contacting the client references provided.
The **Contractor** must list a minimum of four (4) separate and verifiable disaster recovery events and their associated clients. Clients listed must be for completed work on disaster recovery projects or debris removal and processing projects.

At least three of the client references shall be for a disaster recovery project performed for a public or governmental agency. At least three of the client references shall be for disaster recovery project performed as the lead **Contractor**. Confidential clients shall not be included. Information on each client shall be provided in the following format:

- Project/Event Title
- Client name, address and telephone number
- Contact Person and telephone number
- Location of project (if different than above)
- Project term
- Performance period
- Approximate fee for service
- Brief description of project

Contractor shall complete a Contractor questionnaire (Attachment I) this will also be considered in the evaluation of this section.

V. Financial Responsibility (15 Points)

Describe form of business, i.e., proprietorship, partnership, corporation; years in business; changes in ownership; bank reference(s); past, present, pending and/or threatened legal proceedings within any forum; to include the following for the purpose of demonstrating financial responsibility. Failure to provide all listed information and documentation will result in score less than maximum for this criterion:

Financial Reports - Provide the following information.

Financial Statements

- Audited financial statements for the last two (2) years
- Audited financial statements of the applicant's parent company for the past two (2) years.
- Audited financial statements of any and all co-applicants partners for the past two (2) years.
- Interim quarterly financial statements to date subsequent to the last financial audit.

Litigation

- List of litigation, past, pending and threatened to applicant and relevant associated corporate entities
- Actual and/or potential financial impact
- Indicate whether applicant has ever filed bankruptcy and describe the circumstances.

Debt Information

- Covenant tests required in conjunction with existing loan agreement/s
- Certification from the company's chief financial officer that, as of the date of such certification, no events of default have occurred or are continuing under the terms of the company's outstanding debt.

Other

- The successful bidder understands and agrees to provide to the City the above listed documents, statements and reports on an annual basis. These documents, statements and report shall be provided within 90 days following the end of the bidder's fiscal year. The City` reserves the right to request interim quarterly financial reports.

VI. Documentation/Safety and Environmental Considerations (5 Points)

Basis of awarding points in this criterion shall be made on the firm's experience providing daily, accurate documentation of operational results in order to most easily obtain the maximum FEMA reimbursement possible; demonstrating their passion for safety for their employees and protection of the environment; and providing a list of Contractor owned equipment.

In writing, describe how your firm has successfully assisted your clients to manage the flow of paperwork, necessary to obtain the maximum FEMA reimbursement.

Describe the safety/environmental training that employees are required to take, including identifying employees with specific certifications recognized by state/federal agencies, and discuss your safety record.

Indicate awareness of local/state jurisdictional agency requirements as related to the construction industry and the environment; e.g., in relation to running temporary debris site operations.

Provide a listing of equipment that is Contractor owned, and the ability to obtain leased equipment; discuss ability to keep equipment operational that is leased or owned (equipment maintenance plan).

Failure to provide all listed information and documentation will result in a score less than maximum for this criterion.

VII. <u>Unit Cost of Debris Management</u> (65 Points)

The **Contractor** submitting the lowest cost to the City as determined by the Total Base Bid listed on Form 1 Price Sheet shall receive the maximum number of points. Each sub-sequentially higher cost shall be divided into the lowest cost received and the product will be multiplied by the maximum points to render points
