Date:	Tuesday, April 2, 2024 4:48:12 PM

Rita and Jason,

After our meeting with the Administration today, I was instructed to get a permanent Administrative Award put into place with RIghtSite Health. Can the two of you connect and complete this process? Let me now if you need any assistance from me or my team.

Jamo/Dr. Elias,

Please work together to begin training the entire department (suppression and rescue) and we need to draft a JFRD policy for OGC to review. Also, I need both of you to work together on looking at our dispatch protocol to see how we can implement this process into the 911 center.

Team,

Once the Administrative Award is signed and sufficient training is completed, we want to conduct an aggressive media campaign to educate the public on the new JFRD telemedicine program.

Thanks for all the assistance with this very important project!

Keith Powers

Rita –

Attached is the proposed draft Rightsite / COJ contract we discussed previously. As you will see I tried to format into the standard COJ form, to the extent you need to insert the standard COJ terms and conditions such as public records

statement etc, there's a place in Exhibit C to do so as "additional terms." Please let me know if you have any questions or concerns. Look forward to finalizing this with COJ.

Thanks very much,

-Jason G.

Good morning,

I will not be able to attend our meeting on Monday, I'll be out of town on vacation. I will be back the following week.

Capt. Keeney is working on finding rescues and personnel to receive the Right Site training. I know the week after next is Thanksgiving, so we may need to wait until after Thanksgiving to start any training. Lets plan on tentative training for 11/27-11/29. I'll let you know the exact dates as soon as I'm able to commit. Thank you for your understanding and patience.

Respectfully,

Brien Marx

Good Morning Gentlemen,
Looking for a 15 minute window in your schedules to coordinate a quick call. Can you both please provide dates/times in your schedules for the next few days and I can take a look at Jason's calendar and find a mutual date/time.

I will also send around a calendar appointment with call-in instructions.

Thank you!

Chief Powers,

We heard the great news yesterday that the mayor's office enthusiastically approved the launch of RightSite! We couldn't be more excited.

We are ready to go. Please let us know who we should contact for planning next steps.

Thanks again for all your support. This will be a big success for JFRD, the city, and especially for those citizens that we are all going to help.

From: Jamo Rubin
To: Powers, Keith - FROD
Subject: Adding call volume in dispatch
Date: Monday, March 17, 2025 6:26:34 PM

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Chief Powers,

Thanks for your patience as we analyzed the differences between JFRD and Grady's non-emergent dispatch codes. Here's what we found.

In addition to the one signal code (Sick Person) Dr. Elias approved for dispatch to offer RightSite to non-emergent callers, we identified 14 more JFRD signal codes that match Grady's non-emergent CAD codes—codes they use to activate RightSite and redirect more non-emergent patients away from unnecessary ER visits and costs.

If JFRD Dispatch adds these 14 signal codes, it should drive significantly more call volume to RightSite, cut unnecessary ambulance runs, and connect more non-emergent patients to better, less expensive care and follow-up outside the ER.

If you need specific information, please let me know.

Thanks,

Jamo

Good Afternoon Chief Marx,

We put together a list of a few items that we can discuss in our Monday call.

RightSite Updates:

1. Updates on 4th call

JFRD Updates:

1. Follow up with Dr. Elias on RightSite eligibility criteria
2. Follow up with Lt. Beth Harkins on 2nd patient call
3. Follow up with Capt. Keeney on feedback on bag tags/distribution

Please let me know if I am missing anything.

Have a nice weekend!

Subject: Agenda for JFRD/RightSite Monday (10/23) Touchbase
Date: Friday, October 20, 2023 4:35:52 PM

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Hello Brien,

Here's a list of agenda items for our Monday call.

RightSite Updates:

1. RightSite/Steve next steps updates

JFRD Updates:

1. Updates on new Chief
2. Additional training needs

Please let me know if I am missing anything.

Have a nice weekend!

Thanks,
Swati

Hello Brien,

Hope you are having a nice weekend. Here's the agenda for tomorrow's call. Please let me know if you want to add/change anything.

RightSite Updates:

1. Realignment on expansion

JFRD Updates:

1. Updates on new Chief
2. Continuation from last week's discussion: Psychiatric Facility: Name of the facility and contact person we can work with

Thanks,
Swati

Hello Brien,

Here's our agenda for Monday's meeting. Wanted to send it to you prior to the holiday weekend.

1. Update from the meeting with Mayor and Chief on 11/21
2. Plan for expansion to additional stations
3. Discuss possibility of expansion into Dispatch

Wishing you and your family a very happy Thanksgiving! Thank you for all your support, hope you have a nice weekend!

---

Jamo,

Here is a list of CAD codes and response codes from Priority Dispatch for protocol 26 Sick Person in P.D.

I'm also attaching a complete list of our CAD codes, unfortunately do not have a matching code for P.D. I'll try and work on getting the list updated but as you'll see there's over 300 CAD codes.

Here are all the Delta's, Charlie's, Alpha's and Omega's CAD codes from Protocol 26 "Sick Person".

- O 2 Boils
  - Cursor Priority: 1
  - Response/Type: Omega
  - CAD Code: 17SP17
  - Suffixes
- O 3 Bumps (non-traumatic)
  - Cursor Priority: 2
  - Response/Type: Omega
  - CAD Code: 17SP18
  - Suffixes
- O 4 Can't sleep
  - Cursor Priority: 3
  - Response/Type: Omega
  - CAD Code: 17SP19
  - Suffixes
- O 5 Can't urinate (without abdominal pain)
  - Cursor Priority: 4
  - Response/Type: Omega
  - CAD Code: 17SP20
  - Suffixes
- O 6 Catheter (urinary – in/out without
  - Cursor Priority: 5
  - Response/Type: Omega
  - CAD Code: 17SP21

Jamo,

I'm working on getting a list of our CAD codes to send to you. Unfortunately, I don't have a list of the CAD codes and how they pair to the determinant codes in P.D. I do have someone trying to work on trying to put a list together for you though.

Brien

Good morning, Brien. I've had a conflict come up during our call this morning but hope you and Swati can go over the agenda. If you have some time today/tomorrow for a quick call, I'd like to update you on the meeting last week Keith and I had with the City (the follow up email is below).

Karen (CAO) and Lynn (Exec Dir of Health Programs for CoJ) were both very excited and supportive of Keith expanding the program. The next steps are for us to get together with Keith and create specific next steps. I'll reach out to him today to see how he wants to approach that.

Hope you had a great Thanksgiving!

Swati,

We're excited to begin our training next week. I have a few questions and data requests so that I have something to gauge with what Right Site is seeing in other departments. This information will also help us to determine what staffing may be required to meet potential demands.

1. I know you said that Right Site is in San Antonio Fire/Rescue dispatch and Grady. Are you working in any other 911 EMS Communication Centers? If so, which departments.
2. How many calls are being referred from each dispatch center on a daily basis?
3. How long does it take from when the phone is answered until the dispatcher is able to hang up?
4. How many referrals that you receive from a dispatch center that RS escalates the call back to the dispatch center for 911 responders to transport the patient?
5. Can you send me a name and contact info for someone in San Antonio Dispatch? I would like to hear from them what is working for them or possibly what isn't working. I'm hoping they can help us

Date: Friday, December 22, 2023 10:38:00 AM

Good morning Jamo,

As we are trying to further increase the utilization of RiteSite, I think I can be an even greater advocate with more supporting data.

Can I get a list of all the current fire departments using RiteSite and their Medical Director contact?

Are you able to provide agency data from some of the fire departments?

Specifically, numbers of patient encounters, patients provided treatment from physician (Rx only), patients arranged for transport to alternative destinations, patients turned back over to Fire/Rescue for ED transport.

Thank you,

Brad

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Chief,

Here's a summary of our service. Please let us know if this is the format you had in mind.

Jamo

RightSite Health, Inc. offers Fire Departments and Emergency Medical Services (EMS) a cutting-edge system that enables on-scene emergency room (ER) telehealth consultations and social determinants of health (SDOH) navigation. RightSite's service allows EMS providers to address non-emergent patient needs and overcome barriers to care while still at the incident site. By facilitating real-time telehealth assessments and facilitating tailored patient support, RightSite Health helps reduce unnecessary ambulance dispatches and transports, optimizing patient care outcomes directly from the scene.

- **EMS On-Scene Activation**: Upon arriving at a non-emergent 911 call, EMS crews connect to the RightSite Connect platform via a smartphone or internet-enabled device to initiate a telehealth visit.
- **Telehealth Assessment**: A RightSite ER Physician and Navigator assess the patient via telehealth to confirm the condition's non-emergency status.
- **Further Care Coordination**: If additional care is necessary, the Navigator schedules an appointment with an appropriate in-network, non-emergency provider at a clinic or the patient's home.
- **Transportation Arrangements**: The Navigator can also organize on-demand, non-ambulance transportation for the patient if required.

Direct Activation by 911 Dispatch: RightSite can be activated directly by 911 dispatch to ensure patients with low-acuity needs receive suitable care outside the ER, preventing unnecessary EMS dispatch.

- **Follow-Up Care**: Regardless of the care pathway (ambulatory or ER), a RightSite Navigator conducts a follow-up check-in the next day.

- **Culturally Relevant Communication**: Navigators are trained in culturally relevant and empathic communication, addressing patients' daily challenges and providing personalized guidance.

- **SDOH-Based Navigation**: Navigators offer navigation based on social determinants of health, including prescription assistance, referrals to health plan programs, and identifying root causes of avoidable ER visits.

- **Sharing Insights and Creating Solutions**: RightSite shares insights about patients' health challenges with their primary care provider or case manager, leading to the development of actionable solutions in real-time.

- **Cost to Agency:** EMS agencies incur no fees for accessing the RightSite service. RightSite is a medical provider and billing is handled in accordance with RightSite health plan contracts.

Jamo,

Hope moving to all alpha and omega call types for RightSite will be a positive development !!

On another note, do you have the contact info for the Grady EMS Chief we met? I have a question about their mobile stroke unit protocols.

Hi Dasha!

As promised, here is the word document with content for emails. It includes a "template" for before training (for you to use in the future) and several others to send each week, to keep RightSite top of mind as they are learning to implement us into their process. The video links are pasted in as well, so it's easy to use.

Please let me know if you have any questions. Thank you!

Kristeen

Good Morning Jamo and the RightSite Team,

We are looking forward to the Atlanta/Emory trip.

Our plan is to travel on July 10th, and we will be ready to meet everyone at 8am on July 11th.

Hopefully we can meet all the appropriate Emory and Atlanta Fire personnel that day and learn how best to incorporate RightSite into our operations.

I am sure we will exchange more details regarding the meetings in the next couple of weeks.

Dr. Elias,

I was informed that there will be more training at JFRD this week. We are hosting a virtual training and even though I won't be in Jacksonville I still wanted to see if you still had any questions or concerns.

Happy to hop on a call to discuss if needed!

Dr. Elias,

I'm connecting you to our CMO, Dr. Mene Demestihas, who's also an EM physician. We're looking at the run data for last week to understand which of those calls would be appropriate to offer a RightSite on-scene Telehealth visit to the patient.

I've asked Mene to schedule a call with you at your earliest convenience.

Thanks,

Jamo

To: Jamo Rubin; Swati Swani
Subject: FW: Question for Capt Keeney
Date: Tuesday, November 21, 2023 3:48:00 PM
Attachments: image001.png

Jamo,

I received an email from Capt. Bernard who compiles our data for JFRD. The ePCR system we use does not have a robust data query which makes data collection difficult. In our reporting system we do not have many of the criteria in our system, so we're unable to find that data. Example: Med Refill, we do not have that entered in our reporting system, so we don't have that data. I've forwarded the email I received from Capt. Bernard.

I know this is not what you're wanting to hear, but this is what we have. Let me know if you have any questions.

Respectfully,

Brien

Chief,

There is no way to query Dr. Elias's list of "Appropriate for Referral" for right site.

- Med Refill Does not exist in Epro
- Dental pain/fracture Does not exist in Epro
- Stable illness (sinusitis, pharyngitis, bronchitis, earaches, conjunctivitis, etc.) Does not exist in Epro
- Simple UTI, not pyelonephritis (no fever or flank pain) Does not exist in Epro
- Extremity injuries without deformity There is a "trauma extremity injuries", but no way to exclude deformity
- Mild hypertension (systolic _s180, diastolic _s110) There is a Hypertension and I might be able to create a query to include vitals with BP < 180/110 *
- Mild hyperglycemia <200 There is a hyperglycemia and I might be able to create a query to include vitals with BGL < 200 *
- Abrasions There is a "Trauma Minor Injuries" not sure I can weed it out to only include Abrasions
- Isolated rashes without fever and stable vitals Does not exist in Epro

Respectfully,

Captain Michael Bernard

I think the total for the entire department - that might help us size the potential impact of the RightSite program at scale.

Thanks!

Jamo

Hi Chief,

I know you've been out of town for a few days, so wanted to resend this and see if you have any questions?

Thanks,

Jamo

Begin forwarded message:

From: Jamo Rubin <jamo.rubin@rightsitehealth.com>
Subject: Adding call volume in dispatch
Date: March 17, 2025 at 5:26:17 PM CDT
To: Keith Keith - Powers <kpowers@coj.net>

Chief Powers,

Thanks for your patience as we analyzed the differences between JFRD and Grady's non-emergent dispatch codes. Here's what we found.

In addition to the one signal code (Sick Person) Dr. Elias approved for dispatch to offer RightSite to non-emergent callers, we identified 14 more JFRD signal codes that match Grady's non-emergent CAD codes—codes they use to activate RightSite and redirect more non-emergent patients away from unnecessary ER visits and costs.

If JFRD Dispatch adds these 14 signal codes, it should drive significantly more call volume to RightSite, cut unnecessary ambulance runs, and connect more non-emergent patients to better, less expensive care and follow-up outside the ER.

If you need specific information, please let me know.

Thanks,

Jamo

Hi Chief Marx,

Thank you for your time on Tuesday to review the partnership data after the long week of training. We are excited to see this data and share with you for review and feedback. This data has been updated with dates as requested and will be provided in our weekly call going forward.

It is encouraging that we are continuing to see your team utilization RightSite as the week has progressed.

Please let me know if you have any questions. Dr. Demestihas will be reaching out to Dr. Elias to discuss clinical cases.

Best regards,
~~~~

Jared

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good morning Brien,

When launching RightSite's service, it's to have a "trusted advisor" visit the stations to reinforce awareness of RightSite and why it's good for them, for JFRD, and for the community. These trusted advisors also make test calls at the station with the crews, making crews more comfortable with the experience of using RightSite and having a doc come online on-demand.

If you think the idea of a trusted advisor would work, are there any firefighters you recommend to help us with this training? We'd happily pay them for hours they work outside their scheduled shifts.

Thanks for your consideration,

Jamo

Hello All,

Will any of these days/times work for you all for us to meet for an hour to understand the process for referrals and intake at JaxCareConnect. All times are in ET.

December 13th, Wednesday: 10:30 am - 12 pm or 3:30 pm - 4:30 pm
Dec 14th, Thursday: 10 am -11 am or 12 pm - 1 pm or 3 pm - 4 pm
Dec 15th, Friday: 11 am - 12 pm

I can look for times on 18th and 19th the following week if none of these work.

Thanks so much!

Regards,
Swati

Hello Chief Marx,

Could you please share Matt's contact information for Monday's testing? It would greatly help us coordinate effectively.
Two of our navigation leads will handle JFRD's test calls. They are ready to walk Matt through the process and answer any questions he may have.

Unfortunately, I will be unavailable on Monday, but Kristeen will serve as Matt's point of contact for any questions or support he might need. I've copied Kristeen on this email, so feel free to share her contact information with Matt.

Wishing you a very happy Thanksgiving! Hope you have a nice family time with your daughter and granddaughter!

Regards,
Swati

Good Morning Chief Marx,

I hope you had a wonderful Thanksgiving with your family!

I wanted to follow up on the dispatch implementation progress from last week. On 11/25, Kristeen and Matt met to review the process and the critical information exchange during handoffs. Since then, we received one call from Matt on 11/26, which involved sending the patient back for EMS response.

We'd like to schedule a 30-minute touch base this week to discuss the next steps. Below are some proposed times; please let me know if any of these work for you or suggest alternative times, and I'll be happy to coordinate:

- **Tuesday, 12/3:** 10:30 am - 11:00 am ET
- **Wednesday, 12/4:** 12:00 pm - 3:00 pm ET

Looking forward to hearing from you.

Best regards,

Swati

Subject: JFRD Dispatch/RightSite Training dates
Date: Tuesday, December 3, 2024 4:57:00 PM

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Hello Chief Marx,

We plan to be in JAX during the week of **12/16** and will conduct training sessions for both day and night shift crews on **Tuesday, 12/17, and Wednesday, 12/18**. A detailed training plan will be shared in the next couple of days, but we wanted to send out these dates now so you can add them to your calendar.

Regarding the patient seen on **12/26**, he was non-ambulatory, had been vomiting for the past two days, reported severe weakness, and was unable to walk. Given the conditions, it was not feasible to transport them via rideshare; hence, we requested an EMS response.

Please let me know if you have any questions or need additional details.

Thanks, and have a nice evening!

Swati

Subject: JFRD EMS Crew Roster
Date: Wednesday, March 13, 2024 11:28:31 AM
Attachments: JFRD Roster File.xlsx

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Morning Chief Marx,

We are planning to load all the names of EMS crew members so that our navigators do not have to type in the complete name at the time of the call; the system can auto-populate names and navigators just need to confirm with the crew in the call. This is an effort to reduce the call time as much as possible.

I am using the training roster to type in the names and other information. Please see attached a sample training roster from January training and the spreadsheet that I am creating. Items highlighted in yellow are the ones that I have doubts about based on my ability to read handwriting.

I want to make sure if this is the only way to create a list or if you have a list that you can share with us. We can load all the EMS crew names (even if they have not been trained yet).

Please let me know your thoughts.

Thanks,
Swati

Subject:	JFRD Telemedicine Policy
Date:	Wednesday, April 3, 2024 1:35:06 PM

Good Afternoon RightSite Team,

Exciting times ahead as we continue to expand the RightSite utilization!

After the meeting yesterday, it is clear our initial priority is to finalize a JFRD policy incorporating the concept of telemedicine and especially the use of RightSite by our JFRD field personnel for the treatment and disposition of non-emergent patients.

We have heard of your successful partnerships with the fire departments in Atlanta and San Antonio. Re-creating policies is inefficient and delays the operational goal, especially when there is a proven model, so I am asking the RightSite team to provide me with the protocols or a contact from the departments in those cities. I am also especially interested the San Antonio Fire Department dispatch protocols, describing how calls are routed to the RightSite providers. JFRD already has a working draft policy, but I think input from current users of RightSite will help make our document more functional to meet the demands and expectations of all involved.

I know we are all eager to get these protocols and polices completed, and then proceed into the department wide training in a timely manner. It would be appreciated if I can receive this requested information by next week, so we can have the JFRD policy ready for Chief Powers to review as soon as possible.

Best,

Brad Elias MD
Medical Director
Jacksonville Fire Rescue Department

After the meeting yesterday, it is clear our initial priority is to finalize a JFRD policy incorporating the concept of telemedicine and especially the use of RightSite by our JFRD field personnel for the treatment and disposition of non-emergent patients.

We have heard of your successful partnerships with the fire departments in Atlanta and San Antonio. Re-creating policies is inefficient and delays the operational goal, especially when there is a proven model, so I am asking the RightSite team to provide me with the protocols or a contact from the departments in those cities. I am also especially interested the San Antonio Fire Department dispatch protocols, describing how calls are routed to the RightSite providers. JFRD already has a working draft policy, but I think input from current users of RightSite will help make our document more functional to meet the demands and expectations of all involved.

I know we are all eager to get these protocols and polices completed, and then proceed into the department wide training in a timely manner. It would be appreciated if I can receive this requested information by next week, so we can have the JFRD policy ready for Chief Powers to review as soon as possible.

Best,

Brad Elias MD
Medical Director
Jacksonville Fire Rescue Department

Good Morning Chief Marx,

Hope all is well. Wanted to give you a heads up that you will be receiving the following in mail today. Can you please see that these get to Capt. Keeney for distribution to EMS Clinicians.

Hope these bag tags and extended hours brochures are handy for EMS clinicians and are daily reminders to responders to activate RightSite, when appropriate.

1. 50 of the yellow badges/bag tags with couplers/key rings
2. 50 Badge Buddies, with couplers/key rings
3. 50 Extended hours communication

Appreciate your help!

Hello Dr. Elias,

Here are the activation details that we discussed on the call:

Activations Summary for the reporting period: (1/17/2025 - 2/10/2025): *11 JFRD calls (6 field and 5 dispatch) with the following patient outcomes:*

> ***Alternate Site + ER no ambulance - Patient mitigated/ambulance did not roll = 8 out of 11 => 73%***

- ***Dispatch***
  - *1 Telehealth*
  - *2 Request EMS Response*
  - *1 Urgent Care*
  - *1 Refusal*
- ***Field***
  - *5 telehealth*
  - *1 ER no EMS*

Please let me know if you need additional information.

Thanks,
Swati

Hi Chief Marx,

I'm following up alongside Swati to see if you have a chance to generate these reports for us (see below). The first few days and weeks of an implementation like this are critical to get buy-in from the EMS crews - both top-down and bottom-up reinforcement are so important.

Thank you for your help, and any advice you can offer along the way as we launch RightSite with JFRD.

> Hello Chief Marx,
>
> Hope you had a nice weekend.
>
> Chief Blanton mentioned reaching out to you for any JFRD data request and

wanted to touch base with you regarding the data we received from Captain Michael Bernard when we were at JAX in June.

We would like to request the following additional data:

1. **Daily Run report:** Data for 4 stations (R21, R28, R44 and R72) by incident type code clustered by emergent and non-emergent incident codes (Refer file 2 for codes) for the runs from the day before. RightSite will fill in pertinent information of patient outcomes for every call we receive from rescue units for each of those runs. We will be reviewing these in detail with you and your team in weekly meetings.
2. **Historical data**: (Similar to File 1): Add R28 And R72 runs and cluster the daily runs by emergent and non emergent codes

Please refer to the two files are attached in the email below:

1. File 1 - RightSite Data R21 and R44
2. File 2 - Incident Codes for RightSite

Please let me know if you need additional information. Looking forward to working with you.

Hello Chief Marx,

Hope you had a nice weekend.

Chief Blanton asked us to reach out to you for any JFRD data we might need. As we launch today, it would be helpful for us to work together using the following information:

- **Daily Run report:** Daily run report for 4 stations (R21, R28, R44 and R72) by emergent and non-emergent incident type codes. RightSite will use this file to return back EMS crew use and patient outcomes for every call we receive, and review this report with you and your team in weekly meetings.
- **Historical data**: It would be helpful to have a baseline of emergent and non-emergent runs. Could you re-run the report below for R28 And R72 to include emergent and non emergent codes? Please see the attachment for reference that we received back in June.

Please let me know if you need additional information. Looking forward to working with you.

Hello JFRD Team,

We know the current weather conditions are challenging throughout the country, with hospital diversions, urgent care closures, and challenging road conditions. RightSite is **extending hours** to help.

Stay Safe and Activate RightSite to reduce the severe weather challenges for your crews and non-emergent patients

Here's how we're ready to assist you:

- **OPEN SATURDAY:** January 11th, 7:00 AM to 3:00 PM

RightSite is committed to providing the care and services your community needs during this severe weather event. If you have questions or require assistance, please feel free to contact us.

Stay safe, and thank you for trusting us as your partner.

Best regards,

RightSite Team

Good Morning Chief Blanton,

We all are very excited to start working with 4 JFRD Rescue Units and are eager to receive calls from them starting today.

As discussed last week, we understand that the decision to use RightSite happens at the individual level, and some folks will take more time than others to adopt our service.

Two key ingredients in promoting the use of RightSite are:

1. Active and visible communication from leadership throughout the transition process to EMS clinicians who will be using RightSite.

2. Consistent encouragement, role modeling, and troubleshooting from the supervisors to promote the use of RightSite

Here are a couple of FAQs that you can use in your communication with Rescue Units to kick off the go-live day:

Q1: How does RightSite work?

A: If you have a patient who does not need to go to the ER, RightSite offers on-demand access to an ER doctor through telehealth as well as navigation to non-ER care that includes non-ambulance transportation.

Your patient gets care faster at a lower cost, bypassing the long ER wait times.
RightSite navigator follows up the next day to see how the patient is doing to ensure they got the care they needed.

RightSite will free you up for true emergencies so you can save more lives, help you get back to the station, back to post, or get off on time for the end of your shift.

Q2: Are there costs for RightSite Services?

A: There is no cost to patients today. Patients will be responsible for the normal copays or deductibles if they end up going to urgent care or PCPs, which will be substantially lower than

those associated with an emergency room visit. If your patient does not have insurance or needs financial assistance, RightSite can help you.

Also, please pass along the attached list of great/good fits for RightSite that we covered in the training sessions to all the EMS Clinicians for a quick reference during their runs.

We will start working with Capt. Keeney to identify and implement techniques of Change Management in the coming week and keep you posted.

Please let me know if you have any ideas on how we can help you and your supervisors to reinforce RightSite adoption and have a great start to the 90-day trial period.

Appreciate your help and guidance!

Thank you,

Swati

Hello Dr. Elias,

Thanks so much for your time today. Will it be possible for you to provide me with an estimated number of calls/day that could be RightSite eligible (non-emergent patients) under the proposed clinical criteria? It will help us tremendously for planning purposes.

Appreciate your help!

Good Morning Chief Marx,

Hope all is well at your end. Can you please let me know the current approx. yearly call volume out of JFRD dispatch (**not** based on the codes that Dr. Elias has finalized for RightSite).

We need it for our staffing purposes only.

Thanks,
Swati

Good Morning Chief Marx,

I hope the Hurricane in JAX isn't causing too much disruption on your end. I wanted to update you that we received another activation from JFRD yesterday, and the patient was treated via a RightSite Telehealth Visit.

This brings the total to 4 JFRD activations for the month.

- 75% (3 patients) of the patients were treated in non-ER locations
- 25% (1 patient) was sent to ER in a rideshare

Please let us know if there's anything we can do to assist during this hurricane situation.

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Hello Chief Marx,

As discussed yesterday, an updated good-fit list is attached. We added a fourth exclusion criterion: The patient does not require an EMS Response, to cover the use case where patients calling 911 do not have a medical complaint.

Please let us know if you want us to make any other changes to help with your communication with the crew.

Also, please send us the case number of the patient you discussed yesterday for a longer close loop time, as mentioned by your supervisor.

Thanks for your help, and have a wonderful weekend!

Hello All,

Thanks for your time today. Please review the meeting notes/next steps from today's call and let me know if I have missed/misstated anything.

1. Reports Review: **Next Steps:** RightSite will add suggested new metrics
    1. Add insurance data for JFRD patients in the summary report
    2. Add the patient's urgent care data
2. Follow up with Lt. Donte Williams about his experience with RightSite. He seemed a little frustrated and we want to make sure we address his concerns right away. **Next Steps**: Jared will work with Chief Marx to address this.
3. Targeting early March for next training sessions
4. The slide deck and summary report are attached.

Next Call: 2/15/2024 at 1:30 PM ET

Hello All,

Thanks for your time today. Please review the meeting notes and next steps below:

1. Reports Review:
    1. Payor mix distribution: After volume increases, RightSite will add metrics to show the age distribution of patients with commercial insurance.
    2. Home health options for patients who are not ambulatory: RightSite works with Emcara Health, an attributed provider for Florida Blue patients who provide home health services.
    3. **Next Steps**: Dr. Elias will include RightSite in conversations with hospitals in the JAX area, as deemed fit.
2. JAX Care Connect Update:
    1. Duval Safety Net Collaborative.
    2. Patients are followed for one year - provides medical homes and addresses patient's SDOH needs.
    3. RightSite will refer all patients (age 18 and above, Duval County residents, need a medical home, uninsured) to JAX Care Connect irrespective of patient outcome (sent to ER or alternate site).
    4. Children of uninsured parents are also helped by JAX Care Connect.
3. Increase RightSite adoption strategies:
    1. RightSite should consider single-day visits on different shift days.
    2. **Next Steps:** RightSite to work with Chief Marx regarding the re-training schedule.
    3. **Next Steps**: Chief Marx to connect RightSite with district/shift Chiefs to help with RightSite reinforcement.
    4. **Next Steps**: Dr. Elias to touch base with frequent users of RightSite to close the loop.
    5. **Next Steps**: Dr. Elias and Mene to revisit the RightSite inclusion criteria as the volume picks up.
    6. Constant touchpoints from JFRD leadership help with EMS crew's behavior/habit changes for activating RightSite:
        1. **Next Steps:** RightSite to send email templates utilized in other markets by a Medical Director that Dr. Elias can use to communicate with the JFRD EMS crew.
4. The slide deck and summary report are attached.

Hello All,

Thanks for your time today. Please review the meeting notes and next steps below:

1. Reports Review:
    1. The new metrics and format look great.
    2. There was one call from JFRD this week; there have been 3 days of B shift (currently leading in activating RightSite) with no call volume in the past week.
    3. JFRD experienced a low volume of 911 calls last week but nothing significant to impact calls to RightSite for non-emergent patients.
    4. Chief Marx shared a JAX transportation resource that can transport patients requiring wheelchairs and stretchers. **Next Steps:** RightSite will research and add to our resources list.
2. Increase RightSite adoption strategies:
    1. **Next Steps:** Jared will work on a training/reinforcement/in-person presence strategy and share it with the team in next week's meeting.
    2. Constant touchpoints from JFRD leadership help with the EMS crew's behavior/habit changes for activating RightSite:
        1. **Next Steps:** Jared will send an email template to Dr. Elias that can be used to communicate with the JFRD EMS crew.
3. RightSite References: **Next Steps:** Jared will send details to Chief Marx
4. The slide deck and summary report are attached.

Hello All,

Thanks for your time today. Please review the meeting notes and next steps below:

1. Reports Review:
    1. 3 calls last week
    2. Reviewed new dashboard: JFRD Positive Outcomes (see attached)
    3. Reviewed new JFRD handout (see attached)
2. Increase RightSite adoption strategies:
    1. **Next Steps:** Jared is visiting JFRD next week and will visit rescue units along with Chief Marx
3. The slide deck and summary report are attached.

Next Call: 3/14/2024 at 1:30 PM ET

Please let us know if you have any questions or need additional information.

Regards,
Swati

Hello All,

Thanks for your time today. We appreciate all your feedback to increase adoption and improve processes!

Please review the meeting notes and next steps below:

1. Jared's field visit:
    1. Jared met with the crew who have activated RightSite in the past and also who have never called.
    2. He received overall positive feedback from the crew on patient care and processes.
    3. Rescue 14 and 52 were reluctant to call RightSIte as their service area is 2 minutes away from the ER.
    4. Some crew think that it is hard to find patients that fit JFRD's clinical criteria to call RightSite.
    5. It is hard for the crew to remember which day of the week it is and if RightSite can be called or not.
2. Reports Review:
    1. One call last week; two calls total after Jared's field visit
    2. **Next Steps:** Dr. Elias and Mene will review 2 calls/episodes: 4635 and 4722 in the next weekly call
3. Ideas to increase adoption:
    1. Chief Marx sent out an email to almost 160 EMS crews (who have been trained) encouraging them to activate RightSite for non-emergent patients and requesting feedback. 8 folks have responded to date.
    2. There were 144K 911 calls to JFRD last year and approximately 93K were transported. We should explore the possibility of activating RightSite for non-transports.
    3. Interviewing front-line users, a combination of high users like Corey and Rachel and some new and young paramedics who are reluctant to call RightSite.

Next Call: 3/28/2024 at 1:30 PM ET

Please let us know if you have any questions or need additional information.

Have a nice weekend!

Regards,
Swati

Hello All,

Thanks for your time today. Please review the meeting notes and next steps below:

1. Updates from the JAX meeting on 4/2/2024:
    1. **Next steps:** RightSite will share policy examples from TX and ATL partners this week for JFRD to incorporate, as appropriate.
    2. Future training will be held at fire stations instead of JFRD headquarters.
    3. RightSite will consider expanding hours of operation as the volume of JFRD calls to RightSite increases.
    4. Discussed high-level workflow of calls coming from JFRD Dispatch to RightSite. A detailed workflow discussion will be held at the time of implementation into dispatch.
2. Reports Review: One call this week
3. Changing the format of weekly calls: Separate calls for operations and Clinical review
    1. Operations weekly meeting (time will be changed to AM after discussing in next week's call): These meetings will focus on business review, summary call reports, change management, optimization of existing processes, and expansion plans.
    2. Clinical Review Meeting (CQI): These will be scheduled at a cadence of twice a month. These meetings will focus on discussing patient-level outcomes and clinical process improvements. Mandatory Attendees: Mene and Dr. Elias
4. The summary report is attached

Next Call: 4/11/2024 at 1:30 PM ET

Hello All,

Thanks for your time today. Please review the meeting notes and next steps below and let me know if I have missed or misstated anything:

1. Finalizing JFRD telemedicine policy for field activations:
    1. RightSite has shared Grady EMS information with Dr. Elias. **Next Steps**: JFRD policy will be drafted and sent for Chief Power's review.
    2. **Next Steps**: Train all Rescue and Suppression units with emphasis on making the EMS crew comfortable towards activating RightSite for non-emergent patients.
    3. **Call Volume Goals**: These were discussed today and a successful JFRD/RightSite partnership will have:
        1. 15-20 calls/day on the low side
        2. 65-75 calls/day on the high end
2. Reports Review: Two calls this week
3. Changing the format of weekly calls: Separate calls for operations and Clinical review
    1. Operations weekly meeting scheduled for Thursday @ 9 am ET. These meetings will focus on business reviews, summary call reports, change management, optimization of existing processes, and expansion plans.
    2. Clinical Review (CQI) weekly meetings are scheduled for Thursday @ 1:30 pm ET. These meetings will focus on discussing patient-level outcomes and clinical process improvements.
4. The summary report is attached.

Next Operations Call: 4/18/2024 at 9 AM ET
Next Clinical/CQI call: 4/18/2024 at 1:30 PM ET

Please let us know if you have any questions or need additional information.

Hello Chief,

Thanks for your time today. Here is the summary data for field and dispatch activations:

Time Period: Dec'24 - Current Date

Dispatch: 12 activations (9-Dec, 3-Jan)
Patient Outcomes: 50% RightSite Addressed (ambulance did not roll)

- 4 - Alternate Site
- 2 - ER - non-emergency Transport
- 4 - Requested EMS Response
- 2 - Patient Refusals

Average EMS Release Time: 3 minutes
Average Close Loop Time: 23 minutes

Field: 12 activations (8-Dec, 4-Jan)
Patient Outcomes: 83% RightSite Addressed (ambulance did not roll)

- 7 - Alternate Site
- 3 - ER - Non Emergent Transport
- 2 - ER - Ambulance

Average EMS Release Time: 13 minutes

Please let me know if I have missed anything.

Have a nice evening!

Good Morning Dr. Elias,

Hope you had a wonderful Christmas!

Since our last CQI meeting, we've received 12 JFRD calls (three field and nine dispatch).

Please let me know if you can join the upcoming call on 1/2 at 2 PM ET or if you'd prefer to skip this week.

Please let me know your preference.

Thanks,

Swati

Hello Dr. Elias,

Since March 27th, we have had 3 dispatch and 3 field activations. 50% of patients were RightSite Addressed (Ambulance did not roll to ER):

1. Two patients (1 field and 1 dispatch) were treated via Urgent care appointment
2. One field patient went to ER in an ambulance
3. One field patient was sent to ER in non-emergency transport
4. Two dispatch patients were sent back to JFRD (Requested EMS Response)

Please let me know if you can join the upcoming call on 4/10 at 2 PM ET or if you'd prefer to skip this week.

Please let me know your preference.

Hello Chief Marx and Dr. Elias,

Thank you for taking the time yesterday to discuss the RightSite expansion. We sincerely appreciate your collaboration and leadership as we move this work forward.

As a follow-up, I've attached the proposed action plan, including the recommended EMD codes for RightSite in Dispatch and the leaderboard. (Lt. James Davis is by far the top user of RightSite).

Chip and other team members plan to be in Jacksonville on August 11. They will be available over the next few days to meet in person, review the plan, make any necessary updates, and support the next steps across dispatch and field operations.

Please let us know if you require any further information. Have a great weekend!

Good Afternoon Capt. Keeney,

This is Swati from RightSite. Chief Blanton mentioned that you will be my point of contact for day to day operations. Very nice to meet you virtually during virtual training sessions.

I hope your team is all geared up to give us a call on Monday starting 7 am to 7 pm EST.

As we go live on Monday, would it be possible for us to meet on Monday to touch base? Please let me know and I will schedule time accordingly.

Looking forward to working with you, have a nice weekend!

Hello Chief,

Thank you very much for your and your team's time today! Your team was very engaged and seemed eager to try RightSite services.

Please let me know if we did not answer any of the questions or if you need details on anything that we did not cover today. Also, please let me know if there is anything you would like us to change/add for Day 2/Day 3 training, your feedback is very valuable to us!

Couple of things:

1. Can you please send me a list of conditions when EMS declines transport, a few were mentioned on the call today, but if you have a list, it will be helpful for us to be aware of.
2. It was mentioned that in certain rescue unit areas, there are some preferred urgent care/care providers that your crew works with, can you please send me that information? I want to make sure we utilize your crew's experience to provide best care to the patients.

Thanks again for your help! We are looking forward to this partnership!

Hello Chief,

Here is the list of incident numbers for 14 dispatch calls since inception. For one refusal, we did not capture the incident #.

165381
177019
177737
177797
179241
179415
180003
181075
181081
656
2765
3933
4402
6079

I will send you details about the new functionality for the field soon.

Good morning Sheri and Happy Monday…!
Bobby Stein has requested a meeting with Karen, Chief Powers, Dr. Jamo Rubin, and himself hoping for the week of the Nov. 20th.

Dr. Rubin owns RightSite Health, a 9-1-1 telehealth provider currently in use with JFRD and other departments across the country.
Bobby wants to make an introduction and allow Chief Powers and Jamo the opportunity to explain the benefits and functionality of the program and how it aligns with the Mayor's community health priorities.

I've copied Jamo and Andrea, who can help align their (Bobby & Jamo) calendars.
I do not need to be in the meeting, rather I'm just helping connect the group while Chief Powers is out.

Thank you ma'am,
Kurtis Wilson

Chief Powers,

We want to request a 90-day extension to RightSite's current 90-day trial period. We don't believe there has been sufficient volume to evaluate the program's effectiveness in the current period. We believe this additional time will provide enough data to properly assess the effectiveness of RightSite's avoidable ER visit navigation program.

I hope you will support this request.

Thank you,

Jamo

Hi Chief,

If you have the time, we're ready to visit with Nassau and Baker County EMS to see if RightSite would help them with their non-emergent 911 callers.

Would you be able to make introductions for us?

Thank you!

Jamo

Dear Chief Marx,

Great talking with you today. Attached is the updated script that we hope will provide dispatchers and field personnel with clear and respectful language to position RightSite as a reliable option for patients. The priority is to ensure the messaging is straightforward, patient-centric, and effective in fostering trust among all involved parties.

Please let me know if you have any questions or if we can help with any training on the scripting.

Thanks!

Stacey

Hi Chief,

Thanks again for making time for last week's meeting with Andrea and Lynn Sherman.

What are the next steps that we can help with for the JFRD expansion, both in the field and possibly in dispatch?

Hi Lynn,

We're looking forward to our call tomorrow at 12:30 ET. I did want you to know that there is a chance we may have to reschedule. Our first grandbaby is due, and she's a few days late - the action could happen any minute! I'll keep you posted if good news happens but wanted to give you a heads up.

Thanks, and look forward to meeting your team.

Good morning,

I am sorry for my late response, we had a busy afternoon and I was out of office a few days after we had our conversation. I wanted to touch base with you and let you know not only the information of how to propose change but to let you know it is all done via their website. Here is the link to the proposal for change and a link to their contact information. The proposal for change would be under MPDS (Medical Priority Dispatch System), I hope this information helps you.

Proposal for change link: https://www.emergencydispatch.org/what-we-do/proposal-for-change
Contact information link: https://www.emergencydispatch.org/who-we-are/contact-us

Some helpful information we are currently under program version Paramount for Medical 5.1.1.38
Protocol Logic Version MPDS 13.3.157

Have a wonderful 4th of July holiday!
Please let me know if I can be of any further assistance,

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Brien,

Is there a chance that we could get Capt Keeney to identify what percent of EMS runs match Dr. Elias's list? Our experience is that 25-50% of the runs match the non-emergent list our other EMS medical directors use, and it would be a good comparison to run for Dr. Elias's list.

Thanks!

Jamo

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)

- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?

- Who will be our primary contact for data exchange?

- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot

- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Regards,

Swati

Chief Powers,

We heard the great news yesterday that the mayor's office enthusiastically approved the launch of RightSite! We couldn't be more excited.

We are ready to go. Please let us know who we should contact for planning next steps.

Thanks again for all your support. This will be a big success for JFRD, the city, and especially for those citizens that we are all going to help.

Good afternoon again,

Do the RightSite practitioners that we'll be utilizing in this trial possess Florida licenses? If not, have they registered with the Department of Health, as described in this link: Telehealth (flhealthsource.gov)?

Thank you,

Since we are adding new Rescues, we thought of mailing additional badge buddies. (We had left some badge buddies with Chief Marx when we were onsite in June). We can ship those tomorrow, if that works for you and your team.

Mailing address:
JFRD HQ (515 N. Julia St.) or we can mail to individual Rescue stations? Please let me know your thoughts.

Thanks,
Swati

Good Afternoon Chief Blanton,

Regarding training sessions, will Aug 2nd thru Aug 4th (Wednesday - Friday) next week from 9:30 - 11:30 AM EST work for you all? Please let us know.

We appreciate everyone's support and are looking forward to working with you all.

Regards,

Swati

I think just a virtual training session would suffice. If you can identify 3 consecutive days sometime in the next two weeks or so, I'll schedule the personnel to attend.

Following that training session, we'd be ready to go live.

Chief Powers,

We heard the great news yesterday that the mayor's office enthusiastically approved the launch of RightSite! We couldn't be more excited.

We are ready to go. Please let us know who we should contact for planning next steps.

Thanks again for all your support. This will be a big success for JFRD, the city, and especially for those citizens that we are all going to help.

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)
- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?
- Who will be our primary contact for data exchange?
- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot
- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Regards,
Swati

Chief Powers,

We heard the great news yesterday that the mayor's office enthusiastically approved the launch of RightSite! We couldn't be more excited.

We are ready to go. Please let us know who we should contact for planning next steps.

Thanks again for all your support. This will be a big success for JFRD, the city, and especially for those citizens that we are all

going to help.

Jamo

That will also be Captain Nathan Keeney. I'll introduce him to your group in the training session Wednesday morning.

If you're needing something down with them before then, I'll take care of it.

Hello Chief Blanton,

Thanks so much for sending this information. I am sending an invite to connect tomorrow at 3 pm est to talk about communication cadence and change management.

One quick question: Please let me know the the contact person to coordinate the badge buddies for your various crews at each station.

Regards,
Swati

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)
- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?
- Who will be our primary contact for data exchange?
- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot
- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Regards,
Swati

Subject: Re: Activating RightSite

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)
- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?
- Who will be our primary contact for data exchange?
- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot
- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Regards,
Swati

Chief Powers,

We heard the great news yesterday that the mayor's office enthusiastically approved the launch of RightSite! We couldn't be more excited.

We are ready to go. Please let us know who we should contact for planning next steps.

Thanks again for all your support. This will be a big success for JFRD, the city, and especially for those citizens that we are all going to help.

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)
- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?
- Who will be our primary contact for data exchange?
- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot
- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Chief Powers,

We heard the great news yesterday that the mayor's office enthusiastically approved the launch of RightSite! We couldn't be more excited.

We are ready to go. Please let us know who we should contact for planning next steps.

Thanks again for all your support. This will be a big success for JFRD, the city, and especially for those citizens that we are all going to help.

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)

- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?
- Who will be our primary contact for data exchange?
- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot
- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Regards,
Swati

Jamo,

Chief Blanton will be the JFRD POC. Please have your team coordinate with him.

Thanks,
Keith

Chief Powers,

We heard the great news yesterday that the mayor's office enthusiastically approved the launch of RightSite! We couldn't be more excited.

We are ready to go. Please let us know who we should contact for planning next steps.

Thanks again for all your support. This will be a big success for JFRD, the city, and especially for those citizens that we are all going to help.

Jamo

Good afternoon, Swani,

For the training Aug. 2-4, the attendees will be the crews of R21, R28, R44, and R72. The hope is that by adding the 2 additional Rescues, we'll always have at least 2 or 3 trained crews on-duty each day of the 90-day trial period.

JFRD Rescue Units Participating in RightSite Trial		
A	B	C
Rescue 28		
Lt. Elizabeth Harkins - Para - 75131	Lt. Jamie Dunlap - Para - 76260	Capt. Christopher Perrotta - Para - 67093
Eng. Betsy Kirshbaum - Para - 82805	Eng. Todd Kirshbaum - Para - 82812	Eng. Lawrence Wolfe - Para - 79732
Rescue 72		
Capt. Ryan Smith - Para - 31136	Lt. Jeff Lundy - Para - 75148	Lt. Matthew Williams - Para - 73812
Eng. Caleb Mele - EMT - 83825	Eng. Jared Glassberg - Para - 80470	Eng. Reiner Ferrer - EMT - 83814
Rescue 21		
VACANT	Capt. Justin Summey - Para - 67756	Lt. David West - Para - 76881
Eng. Jake Mcintosh - EMT - 83007	Eng. Kyle Distin - EMT - 78697	Eng Jordan Lambert - EMT - 83874
Rescue 44		
Lt. David Valiente - Para - 73803	VACANT	Capt. Bernard Stewart - Para - 73804
Eng. Kyle Paquette - Para - 81258	Eng. Garrett Adamson - EMT - 83193	Eng. Charles Crosby - Para - 45520
Rescue 107 (Shift Supervisor, Non-Transport)		
Chief Tracy Hooten - Para - 11909	Chief Andrew Cox - Para - 11927	Chief Howard Davidson - Para - 11601

Capt. Nathan Keeney (Nkeeney@coj.net) will be your primary contact for day-to-day operational questions. He's currently not up to speed but he'll be attending all three training sessions this week.

Chief Brien Marx (JMarx@coj.net) will be your primary contact for data exchange.

Regarding a meeting with me, I'll make myself available tomorrow. Just send me a meeting invite.

Thank you,

Jake Blanton

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)
- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?

- Who will be our primary contact for data exchange?
- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot
- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Regards,
Swati

Good afternoon, Swani,

For the training Aug. 2-4, the attendees will be the crews of R21, R28, R44, and R72. The hope is that by adding the 2 additional Rescues, we'll always have at least 2 or 3 trained crews on-duty each day of the 90-day trial period.

JFRD Rescue Units Participating in RightSite Trial		
A	B	C
Rescue 28		
Lt. Elizabeth Harkins - Para - 75131	Lt. Jamie Dunlap - Para - 76260	Capt. Christopher Perrotta - Para - 67093
Eng. Betsy Kirshbaum - Para - 82805	Eng. Todd Kirshbaum - Para - 82812	Eng. Lawrence Wolfe - Para - 79732
Rescue 72		
Capt. Ryan Smith - Para - 31136	Lt. Jeff Lundy - Para - 75148	Lt. Matthew Williams - Para - 73812
Eng. Caleb Mele - EMT - 83825	Eng. Jared Glassberg - Para - 80470	Eng. Reiner Ferrer - EMT - 83814
Rescue 21		
VACANT	Capt. Justin Summey - Para - 67756	Lt. David West - Para - 76881
Eng. Jake Mcintosh - EMT - 83007	Eng. Kyle Distin - EMT - 78697	Eng Jordan Lambert - EMT - 83874
Rescue 44		
Lt. David Valiente - Para - 73803	VACANT	Capt. Bernard Stewart - Para - 73804
Eng. Kyle Paquette - Para - 81258	Eng. Garrett Adamson - EMT - 83193	Eng. Charles Crosby - Para - 45520
Rescue 107 (Shift Supervisor, Non-Transport)		
Chief Tracy Hooten - Para - 11909	Chief Andrew Cox - Para - 11927	Chief Howard Davidson - Para - 11601

Capt. Nathan Keeney (Nkeeney@coj.net) will be your primary contact for day-to-day operational questions. He's currently not up to speed but he'll be attending all three training sessions this week.

Chief Brien Marx (JMarx@coj.net) will be your primary contact for data exchange.

Regarding a meeting with me, I'll make myself available tomorrow. Just send me a meeting invite.

Thank you,

Jake Blanton

Subject: Re: Activating RightSite

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)
- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?

- Who will be our primary contact for data exchange?
- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot
- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Regards,
Swati

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)
- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?

- Who will be our primary contact for data exchange?
- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot
- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Regards,
Swati

Chief Powers,

We heard the great news yesterday that the mayor's office enthusiastically approved the launch of RightSite! We couldn't be more excited.

We are ready to go. Please let us know who we should contact for planning next steps.

Thanks again for all your support. This will be a big success for JFRD, the city, and especially for those citizens that we are all going to help.

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)

- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?

- Who will be our primary contact for data exchange?

- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot

- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Chief Powers,

We heard the great news yesterday that the mayor's office enthusiastically approved the launch of RightSite! We couldn't be more excited.

We are ready to go. Please let us know who we should contact for planning next steps.

Thanks again for all your support. This will be a big success for JFRD, the city, and especially for those citizens that we are all going to help.

Good afternoon, Swani,

For the training Aug. 2-4, the attendees will be the crews of R21, R28, R44, and R72. The hope is that by adding the 2 additional Rescues, we'll always have at least 2 or 3 trained crews on-duty each day of the 90-day trial period.

JFRD Rescue Units Participating in RightSite Trial		
A	B	C
Rescue 28		
Lt. Elizabeth Harkins - Para - 75131	Lt. Jamie Dunlap - Para - 76260	Capt. Christopher Perrotta - Para - 67093
Eng. Betsy Kirshbaum - Para - 82805	Eng. Todd Kirshbaum - Para - 82812	Eng. Lawrence Wolfe - Para - 79732
Rescue 72		
Capt. Ryan Smith - Para - 31136	Lt. Jeff Lundy - Para - 75148	Lt. Matthew Williams - Para - 73812
Eng. Caleb Mele - EMT - 83825	Eng. Jared Glassberg - Para - 80470	Eng. Reiner Ferrer - EMT - 83814
Rescue 21		
VACANT	Capt. Justin Summey - Para - 67756	Lt. David West - Para - 76881
Eng. Jake Mcintosh - EMT - 83007	Eng. Kyle Distin - EMT - 78697	Eng Jordan Lambert - EMT - 83874
Rescue 44		
Lt. David Valiente - Para - 73803	VACANT	Capt. Bernard Stewart - Para - 73804
Eng. Kyle Paquette - Para - 81258	Eng. Garrett Adamson - EMT - 83193	Eng. Charles Crosby - Para - 45520
Rescue 107 (Shift Supervisor, Non-Transport)		
Chief Tracy Hooten - Para - 11909	Chief Andrew Cox - Para - 11927	Chief Howard Davidson - Para - 11601

Capt. Nathan Keeney (Nkeeney@coj.net) will be your primary contact for day-to-day operational questions. He's currently not up to speed but he'll be attending all three training sessions this week.

Chief Brien Marx (JMarx@coj.net) will be your primary contact for data exchange.

Regarding a meeting with me, I'll make myself available tomorrow. Just send me a meeting invite.

Thank you,

Jake Blanton

Subject: Re: Activating RightSite

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)
- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?

- Who will be our primary contact for data exchange?
- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot
- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Regards,
Swati

Chief Powers,

We heard the great news yesterday that the mayor's office enthusiastically approved the launch of RightSite! We couldn't be more excited.

We are ready to go. Please let us know who we should contact for planning next steps.

Thanks again for all your support. This will be a big success for JFRD, the city, and especially for those citizens that we are all going to help.

Good afternoon, Swani,

For the training Aug. 2-4, the attendees will be the crews of R21, R28, R44, and R72. The hope is that by adding the 2 additional Rescues, we'll always have at least 2 or 3 trained crews on-duty each day of the 90-day trial period.

JFRD Rescue Units Participating in RightSite Trial		
A	B	C
Rescue 28		
Lt. Elizabeth Harkins - Para - 75131	Lt. Jamie Dunlap - Para - 76260	Capt. Christopher Perrotta - Para - 67093
Eng. Betsy Kirshbaum - Para - 82805	Eng. Todd Kirshbaum - Para - 82812	Eng. Lawrence Wolfe - Para - 79732
Rescue 72		
Capt. Ryan Smith - Para - 31136	Lt. Jeff Lundy - Para - 75148	Lt. Matthew Williams - Para - 73812
Eng. Caleb Mele - EMT - 83825	Eng. Jared Glassberg - Para - 80470	Eng. Reiner Ferrer - EMT - 83814
Rescue 21		
VACANT	Capt. Justin Summey - Para - 67756	Lt. David West - Para - 76881
Eng. Jake Mcintosh - EMT - 83007	Eng. Kyle Distin - EMT - 78697	Eng Jordan Lambert - EMT - 83874
Rescue 44		
Lt. David Valiente - Para - 73803	VACANT	Capt. Bernard Stewart - Para - 73804
Eng. Kyle Paquette - Para - 81258	Eng. Garrett Adamson - EMT - 83193	Eng. Charles Crosby - Para - 45520
Rescue 107 (Shift Supervisor, Non-Transport)		
Chief Tracy Hooten - Para - 11909	Chief Andrew Cox - Para - 11927	Chief Howard Davidson - Para - 11601

Capt. Nathan Keeney (Nkeeney@coj.net) will be your primary contact for day-to-day operational questions. He's currently not up to speed but he'll be attending all three training sessions this week.

Chief Brien Marx (JMarx@coj.net) will be your primary contact for data exchange.

Regarding a meeting with me, I'll make myself available tomorrow. Just send me a meeting invite.

Thank you,

Jake Blanton
Chief of Rescue

Subject: Re: Activating RightSite

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)
- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?

- Who will be our primary contact for data exchange?
- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot
- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Regards,
Swati

Good afternoon, Swani,

For the training Aug. 2-4, the attendees will primarily be the crews of Rescue 28 and 72. The hope is that by adding these 2 Rescues, we'll always have at least 2 or 3 crews on-duty each day of the 90-day trial period.

The plan is for Rescues 21, 28, 44, and 72 to participate in this trial, but only when there's a paramedic on-board the unit that has previously received the necessary training.

JFRD Rescue Units Participating in RightSite Trial		
A	B	C
Rescue 28		
Lt. Eizabeth Harkins - Para - 75131	Lt. Jamie Dunlap - Para - 76260	Capt. Christopher Perrota - Para - 67093
Eng. Betsy Kirshbaum - Para - 82805	Eng. Todd Kirshbaum - Para - 82812	Eng. Lawrence Wolfe - Para - 79732
Rescue 72		
Capt. Ryan Smith - Para - 31136	Lt. Jeff Lundy - Para - 75148	Lt. Matthew Williams - Para - 73812
Eng. Caleb Mele - EMT - 83825	Eng. Jared Glassberg - Para - 80470	Eng. Reiner Ferrer - EMT - 83814
Rescue 21		
VACANT	Capt. Justin Summey - Para - 67756	Lt. David West - Para - 76881
Eng. Jake Mcintosh - EMT - 83007	Eng. Kyle Distin - EMT - 78697	Eng Jordan Lambert - EMT - 83874

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)
- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?
- Who will be our primary contact for data exchange?
- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot

- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Regards,
Swati

Chief Powers,

We heard the great news yesterday that the mayor's office enthusiastically approved the launch of RightSite! We couldn't be more excited.

We are ready to go. Please let us know who we should contact for planning next steps.

Thanks again for all your support. This will be a big success for JFRD, the city, and especially for those citizens that we are all going to help.

Good afternoon Jamo,

During the training session you conducted a few weeks back, a few of the members that are normally assigned to Rescue 21 and Rescue 44 were off. Also, I now have two officer vacancies at those same rescue units.

Prior to going live with this 90-day trial, I'd like to get several more of our personnel trained on the system. This would help ensure we have at least a couple Rescue units able to use the system on a daily basis.

I think just a virtual training session would suffice. If you can identify 3 consecutive days sometime in the next two weeks or so, I'll schedule the personnel to attend.

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)

- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?

- Who will be our primary contact for data exchange?

- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot

- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Regards,

Swati

Good Afternoon Chief Blanton,

Regarding training sessions, will Aug 2nd thru Aug 4th (Wednesday - Friday) next week from 9:30 - 11:30 AM EST work for you all? Please let us know.

We appreciate everyone's support and are looking forward to working with you all.

I think just a virtual training session would suffice. If you can identify 3 consecutive days sometime in the next two weeks or so, I'll schedule the personnel to attend.

Following that training session, we'd be ready to go live.

Good afternoon Jamo,

During the training session you conducted a few weeks back, a few of the members that are normally assigned to Rescue 21 and Rescue 44 were off. Also, I now have two officer vacancies at those same rescue units.

Prior to going live with this 90-day trial, I'd like to get several more of our personnel trained on the system. This would help ensure we have at least a couple Rescue units able to use the system on a daily basis.

I think just a virtual training session would suffice. If you can identify 3 consecutive days sometime in the next two weeks or so, I'll schedule the personnel to attend.

Good afternoon Jamo,

During the training session you conducted a few weeks back, a few of the members that are normally assigned to Rescue 21 and Rescue 44 were off. Also, I now have two officer vacancies at those same rescue units.

Prior to going live with this 90-day trial, I'd like to get several more of our personnel trained on the system. This would help ensure we have at least a couple Rescue units able to use the system on a daily basis.

I think just a virtual training session would suffice. If you can identify 3 consecutive days sometime in the next two weeks or so, I'll schedule the personnel to attend.

Following that training session, we'd be ready to go live.

Thank you,

Jake Blanton
Chief of Rescue
Jacksonville Fire & Rescue Department

Rita,

As you can see, we have approval for the three month trail. Do we have all the necessary legal pieces in place to proceed?

Jamo,

Chief Blanton will be the JFRD POC. Please have your team coordinate with him.

Thanks,
Keith

Rita,

As you can see, we have approval for the three month trail. Do we have all the necessary legal pieces in place to proceed?

Jamo,

Chief Blanton will be the JFRD POC. Please have your team coordinate with him.

Thanks,

Keith

Chief Powers,

We heard the great news yesterday that the mayor's office enthusiastically approved the launch of RightSite! We couldn't be more excited.

We are ready to go. Please let us know who we should contact for planning next steps.

Thanks again for all your support. This will be a big success for JFRD, the city, and especially for those citizens that we are all going to help.

Good afternoon Jamo,

During the training session you conducted a few weeks back, a few of the members that are normally assigned to Rescue 21 and Rescue 44 were off. Also, I now have two officer vacancies at those same rescue units.

Prior to going live with this 90-day trial, I'd like to get several more of our personnel trained on the system. This would help ensure we have at least a couple Rescue units able to use the system on a daily basis.

I think just a virtual training session would suffice. If you can identify 3 consecutive days sometime in the next two weeks or so, I'll schedule the personnel to attend.

Following that training session, we'd be ready to go live.

Thank you,

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)

- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?

- Who will be our primary contact for data exchange?

- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot

- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Regards,

Swati

Chief Powers,

We heard the great news yesterday that the mayor's office enthusiastically approved the launch of RightSite! We couldn't be more excited.

We are ready to go. Please let us know who we should contact for planning next steps.

Thanks again for all your support. This will be a big success for JFRD, the city, and especially for those citizens that we are all going to help.

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)
- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?
- Who will be our primary contact for data exchange?
- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot
- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Regards,
Swati

Chief Powers,

We heard the great news yesterday that the mayor's office enthusiastically approved the launch of RightSite! We couldn't be more excited.

We are ready to go. Please let us know who we should contact for planning next steps.

Thanks again for all your support. This will be a big success for JFRD, the city, and especially for those citizens that we are all going to help.

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)
- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?
- Who will be our primary contact for data exchange?
- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot
- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Regards,
Swati

Chief Blanton,

The Mayors office approved us to move forward with the three month trial of RightSite. Please get with Jamo's team and figure out an implementation plan.

Rita,

As you can see, we have approval for the three month trail. Do we have all the necessary legal pieces in place to proceed?

Jamo,

Chief Blanton will be the JFRD POC. Please have your team coordinate with him.

Thanks,

Keith

Chief Powers,

We heard the great news yesterday that the mayor's office enthusiastically approved the launch of RightSite! We couldn't be more excited.

We are ready to go. Please let us know who we should contact for planning next steps.

Thanks again for all your support. This will be a big success for JFRD, the city, and especially for those citizens that we are all going to help.

Chief Powers,

We heard the great news yesterday that the mayor's office enthusiastically approved the launch of RightSite! We couldn't be more excited.

We are ready to go. Please let us know who we should contact for planning next steps.

Thanks again for all your support. This will be a big success for JFRD, the city, and especially for those citizens that we are all going to help.

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)
- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?
- Who will be our primary contact for data exchange?
- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot
- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Regards,
Swati

Chief Powers,

We heard the great news yesterday that the mayor's office enthusiastically approved the launch of RightSite! We couldn't be more excited.

We are ready to go. Please let us know who we should contact for planning next steps.

Thanks again for all your support. This will be a big success for JFRD, the city, and especially for those citizens that we are all

going to help.

Hello Chief,

Thank you so much for meeting with Stacey and I today. We will also plan to meet with Capt. Nathan Keeney soon to develop and execute Change Management Plan.

Also, wanted to let you know that a packet with RightSite badge buddies has been mailed out with attention - Chief Marx and will reach JFRD at 10 AM tomorrow.

Looking forward to the training session tomorrow.

Subject: Re: Activating RightSite

Good Morning Chief Blanton,

Thanks for confirming the training dates, I will send out the meeting invites for 3 virtual training sessions (Aug 2 - 4, 9:30 - 11:30 AM) shortly. Please make sure everyone has a ToughBook and internet connectivity so we can do test calls at the end of training.

As part of RightSite's activation plan, here are a few open items:

Aug 2-4 Training Sessions

- Please send a list of attendees and their roles (EMS Clinicians, Shift Supervisor, etc)

- Are there others that you think should be trained or informed about the RightSite pilot?

Pilot Period

- Who will be our primary contact during the pilot for day-to-day questions and feedback?

- Who will be our primary contact for data exchange?

- Our CMO, Dr. Demestihas, will reach out to Dr. Elias to make sure Dr. Elias has Dr. D's contact information in case there are any clinical questions or feedback during the pilot

- Communications with the EMS Clinicians will be essential for the pilot's success. To that end, can we schedule a call with you asap to make sure we understand JFRD's current communication cadences with your Fire and EMS teams? Please let us know a few convenient times on your end.

Thanks again, and we are looking forward to working together,

Regards,

Hi Chief,

I know you've been out of town for a few days, so wanted to resend this and see if you have any questions?

Thanks,

Jamo

Begin forwarded message:

From: Jamo Rubin <jamo.rubin@rightsitehealth.com>
Subject: Adding call volume in dispatch
Date: March 17, 2025 at 5:26:17 PM CDT
To: Keith Keith - Powers <kpowers@coj.net>

Chief Powers,

Thanks for your patience as we analyzed the differences between JFRD and Grady's non-emergent dispatch codes. Here's what we found.

In addition to the one signal code (Sick Person) Dr. Elias approved for dispatch to offer RightSite to non-emergent

callers, we identified 14 more JFRD signal codes that match Grady's non-emergent CAD codes—codes they use to activate RightSite and redirect more non-emergent patients away from unnecessary ER visits and costs.

If JFRD Dispatch adds these 14 signal codes, it should drive significantly more call volume to RightSite, cut unnecessary ambulance runs, and connect more non-emergent patients to better, less expensive care and follow-up outside the ER.

If you need specific information, please let me know.

Thanks,

Jamo

Hi Chief,

I know you've been out of town for a few days, so wanted to resend this and see if you have any questions?

Thanks,

Jamo

Begin forwarded message:

From: Jamo Rubin <jamo.rubin@rightsitehealth.com>
Subject: Adding call volume in dispatch
Date: March 17, 2025 at 5:26:17 PM CDT
To: Keith Keith - Powers <kpowers@coj.net>

Chief Powers,

Thanks for your patience as we analyzed the differences between JFRD and Grady’s non-emergent dispatch codes. Here's what we found.

In addition to the one signal code (Sick Person) Dr. Elias approved for dispatch to offer RightSite to non-emergent callers, we identified 14 more JFRD signal codes that match Grady’s non-emergent CAD codes—codes they use to activate RightSite and redirect more non-emergent patients away from unnecessary ER visits and costs.

If JFRD Dispatch adds these 14 signal codes, it should drive significantly more call volume to RightSite, cut unnecessary ambulance runs, and connect more non-emergent patients to better, less expensive care and follow-up outside the ER.

If you need specific information, please let me know.

Thanks,

Jamo

Hello Chief Marx,

Here's a list of agenda items for our Monday call.

RightSite Updates:

1. Review attached case highlight

JFRD Updates:

1. Training of 2 new EMS Clinicians
2. Follow up on Capt. Keeney's involvement in the pilot call analysis work

Please let me know if I am missing anything.

Have a nice weekend!

Swati,

Here is our approved Right Site referral list:
Med refill
Dental pain/fracture
Stable illness (Sinusitis, pharyngitis, bronchitis, earaches, conjunctivitis, etc.)
Simple UTI, not pyelonephritis (no fever or flank pain)
Extremity injuries without deformity
Mild HTN (Systolic less than 180, diastolic less than 110)
Mild Hyperglycemia <200
Abrasions
Isolated rashes without fever and stable vital signs

I hope this information proves to be helpful.

Brien

Hello Brien,

Here's our agenda for Monday's meeting. Wanted to send it to you prior to the holiday weekend.

1. Update from the meeting with Mayor and Chief on 11/21
2. Plan for expansion to additional stations
3. Discuss possibility of expansion into Dispatch

Wishing you and your family a very happy Thanksgiving! Thank you for all your support, hope you have a nice weekend!

Jamo,

My schedule is clear. I could meet today between 1 and 2 PM EST, tomorrow morning between 9 and 11AM EST.
Let me know if any of these times works for you.

Brien

Good morning, Brien. I've had a conflict come up during our call this morning but hope you and Swati can go over the agenda. If you have some time today/tomorrow for a quick call, I'd like to update you on the meeting last week Keith and I had with the City (the follow up email is below).

Karen (CAO) and Lynn (Exec Dir of Health Programs for CoJ) were both very excited and supportive of Keith expanding the program. The next steps are for us to get together with Keith and create specific next steps. I'll reach out to him today to see how he wants to approach that.

Hope you had a great Thanksgiving!

Karen and Lynn,

Thank you again for your time last week and interest in RightSite's service for non-emergent 911/EMS callers. We are excited about the partnership with JFRD and improving medical and social care for the Jacksonville community.

Lynn, as promised, here's a copy of the deck we brought to the meeting.

We also look forward to meeting with Jax Care Connect and its partners. Please let us know what the next steps are to get that scheduled.

Hope you all had a great Thanksgiving holiday,

Jamo

Good morning,

We have a lot of trees and wires down. We're in the process of getting assessments of the city to see if we have any significant impacts. JFRD is pretty much normal business, very few medical calls fortunately.

Hi Brien,

Just thought I'd check in to see how things are going in Dispatch? If a quick call is easier, let me know.

Hope all is well,

Jamo

From: Marx, James - FRRS
To: Jamo Rubin
Subject: RE: Checking In
Date: Monday, August 12, 2024 4:35:00 PM

Jamo,

I have a meeting tomorrow with Dr. Elias to go over the RS appropriate protocol list to make some changes that will work better for us. Once we have the list updated I'll send it to you.

Brien

Jamo,

We're moving forward. Dr. Elias has sent us his approved RS call types. We're working on how to add this information so the call taker will know when to offer RS to the caller. Our situation is a lot different than Grady even though we both use Priority Dispatch. The difference is that we have our internal plain text codes that we've used for years, and we match them to Priority Dispatch codes.

Jamo,

We're moving forward. Dr. Elias has sent us his approved RS call types. We're working on how to add this information so the call taker will know when to offer RS to the caller. Our situation is a lot different than Grady even though we both use Priority Dispatch. The difference is that we have our internal plain text codes that we've used for years and we match them to Priority Dispatch codes. We also have to figure out how to not dispatch calls before we have the information that the call is RS approved just to offer the option to the caller. These are only a few of the challenges we have to figure out.

This is an EXTERNAL email! STOP, ASSESS, and VERIFY

Rita and Jason,

After our meeting with the Administration today, I was instructed to get a permanent Administrative Award put into place with RIghtSite Health. Can the two of you connect and complete this process? Let me now if you need any assistance from me or my team.

Jamo/Dr. Elias,

Please work together to begin training the entire department (suppression and rescue) and we need to draft a JFRD policy for OGC to review. Also, I need both of you to work on looking at our dispatch protocol to see how we can implement this process into the 911 center.

Team,

Once the Administrative Award is signed and sufficient training is completed, we want to conduct an aggressive media campaign to educate the public on the new JFRD telemedicine program.

Thanks for all the assistance with this very important project!

Rita –

Attached is the proposed draft Rightsite / COJ contract we discussed previously. As you will see I tried to format into the standard COJ form, to the extent you need to insert the standard COJ terms and conditions such as public records statement etc, there's a place in Exhibit C to do so as "additional terms." Please let me know if you have any questions or concerns. Look forward to finalizing this with COJ.

Thanks very much,

-Jason G.

Rita –

Attached is the proposed draft Rightsite / COJ contract we discussed previously. As you will see I tried to format into the standard COJ form, to the extent you need to insert the standard COJ terms and conditions such as public records statement etc, there's a place in Exhibit C to do so as "additional terms." Please let me know if you have any questions or concerns. Look forward to finalizing this with COJ.

Thanks very much,

-Jason G.

Rita and Jason,

After our meeting with the Administration today, I was instructed to get a permanent Administrative Award put into place with RIghtSite Health. Can the two of you connect and complete this process? Let me now if you need any assistance from me or my team.

Jamo/Dr. Elias,

Please work together to begin training the entire department (suppression and rescue) and we need to draft a JFRD policy for OGC to review. Also, I need both of you to work on looking at our dispatch protocol to see how we can implement this process into the 911 center.

Team,

Once the Administrative Award is signed and sufficient training is completed, we want to conduct an aggressive media campaign to educate the public on the new JFRD telemedicine program.

Thanks for all the assistance with this very important project!

After our meeting with the Administration today, I was instructed to get a permanent Administrative Award put into place with RIghtSite Health. Can the two of you connect and complete this process? Let me now if you need any assistance from me or my team.

Jamo/Dr. Elias,

Please work together to begin training the entire department (suppression and rescue) and we need to draft a JFRD policy for OGC to review. Also, I need both of you to work on looking at our dispatch protocol to see how we can implement this process into the 911 center.

Team,

Once the Administrative Award is signed and sufficient training is completed, we want to conduct an aggressive media campaign to educate the public on the new JFRD telemedicine program.

Thanks for all the assistance with this very important project!

Rita –

Attached is the proposed draft Rightsite / COJ contract we discussed previously. As you will see I tried to format into

the standard COJ form, to the extent you need to insert the standard COJ terms and conditions such as public records statement etc, there's a place in Exhibit C to do so as "additional terms." Please let me know if you have any questions or concerns. Look forward to finalizing this with COJ.

Thanks very much,

-Jason G.

Hello Chief Marx,

Please see my responses below in blue.

1. I know you said that Right Site is in San Antonio Fire/Rescue dispatch and Grady. Are you working in any other 911 EMS Communication Centers or any other fire departments? If so, which departments. **We are also working with two other dispatch centers in GA**
2. How many calls are being referred from each dispatch center or fire department on a daily basis? **San Antonio and Grady are sending 10 - 25 calls/day**
3. How long does it take from when the phone is answered by RS until the dispatcher is able to hang up? **The average release time for dispatch calls is 2 minutes**
4. How many referrals that you receive from a dispatch center that RS is escalates the call back to the dispatch center for 911 responders to transport the patient? **About 15% of dispatch calls are sent back to EMS to escalate for a field visit**
5. Can you send me a name and contact info for someone in San Antonio Dispatch? I would like to hear from them what is working for them or possibly what isn't working. **Of course - let me find the name and availability of the best person for you to talk to**

Looking forward to the training next week!

Dr. Elias,

It looks like we will be in town the week of January 15th to continue training JFRD. Let's set up a time that works best for you to meet while we are there and discuss how we can work together. Are there any days or times that work best for you?

I've attached a copy of one of our partner's data reports that I think will most closely represent what you can expect to see from our team. We will work with you to tailor the views to represent what you think is most important to you and your service.

Looking forward to working with you,
Mene

Yes
My office is there at 515.
I will come to where the training is and get you.

Brad

Please put me down for the afternoon of the 18th! Whatever works best for you, 3p EST and later works well for me but I can move things around if you want to meet earlier.

Do you have anyone you know who will be in Austin this week for NAEMSP? I know you said you wouldn't be able to go, but if you have any fellow Florida medical directors that you think would like to meet with me I am here this week.

Thank you,

Mene

As we are trying to further increase the utilization of RiteSite, I think I can be an even greater advocate with more supporting data.

Can I get a list of all the current fire departments using RiteSite and their Medical Director contact?

Are you able to provide agency data from some of the fire departments?

Specifically, numbers of patient encounters, patients provided treatment from physician (Rx only), patients arranged for transport to alternative destinations, patients turned back over to Fire/Rescue for ED transport.

Thank you,

Brad

Hi Brad,

Hope you and your family had a Merry Christmas.

We're excited about working with you to increase JFRD's use of RightSite. I've asked Dr. Mene Demestihas, our medical director, and Jared Oscarson, who heads up our EMS team (both copied here) to reach out and review the items in your email below.

Also, are you going to NAEMSP in Austin January 8-13? We'll be there along with many of our EMS medical director clients. We're scheduling a few dinners and would love including you if you'll be attending.

Thanks again for all your help, and look forward to seeing you in Jacksonville soon.

Please put me down for the afternoon of the 18th! Whatever works best for you, 3p EST and later works well for me but I can move things around if you want to meet earlier.

Do you have anyone you know who will be in Austin this week for NAEMSP? I know you said you wouldn't be able to go, but if you have any fellow Florida medical directors that you think would like to meet with me I am here this week.

Thank you,

Dr. Elias,

It looks like we will be in town the week of January 15th to continue training JFRD. Let's set up a time that works best for you to meet while we are there and discuss how we can work together. Are there any days or times that work best for you?

I've attached a copy of one of our partner's data reports that I think will most closely represent what you can expect to see from our team. We will work with you to tailor the views to represent what you think is most important to you and your service.

Looking forward to working with you,
Mene

Dr. Elias,

I was informed that there will be more training at JFRD this week. We are hosting a virtual training and even though I won't be in Jacksonville I still wanted to see if you still had any questions or concerns.

Happy to hop on a call to discuss if needed!

~Mene

Good afternoon,

I talked with Chief Blanton about this earlier, we would like to get Captain Keeney more involved. My plan is to talk with him today and have him encourage the responders to try and utilize Right Site. I will also reach out to the responders and encourage them as well. When I have more detailed information, I'll let you know.

Good morning Brien,

When launching RightSite's service, it's to have a "trusted advisor" visit the stations to reinforce awareness of RightSite and why it's good for them, for JFRD, and for the community. These trusted advisors also make test calls at the station with the crews, making crews more comfortable with the experience of using RightSite and having a doc come online on-demand.

If you think the idea of a trusted advisor would work, are there any firefighters you recommend to help us with this training? We'd happily pay them for hours they work outside their scheduled shifts.

Thanks for your consideration,

Jamo

Thanks Jenny.

A 45 minutes review of the referral process will give us a great start to create workflows/processes to review/confirm during the in-person meeting in the new year.

I will send out the meeting invite shortly. Appreciate every one collaborating on finalizing the meeting time, this is usually the hardest thing :)

Thanks Jenny and Lynn for sending me your availability for this week. Unfortunately, there are no overlapping days/times for this week.

Does any time work for you both on Monday, December 18th? The only time I am not available on Monday is from 11 am - 12 pm. Please let me know your availability and hopefully we have an hour of overlapping times.

Hello All,

Will any of these days/times work for you all for us to meet for an hour to understand the process for referrals and intake at JaxCareConnect. All times are in ET.

December 13th, Wednesday: 10:30 am - 12 pm or 3:30 pm - 4:30 pm

Dec 14th, Thursday: 10 am -11 am or 12 pm - 1 pm or 3 pm - 4 pm

Dec 15th, Friday: 11 am - 12 pm

I can look for times on 18th and 19th the following week if none of these work.

Thanks so much!

Does any time work for you both on Monday, December 18th? The only time I am not available on Monday is from 11 am - 12 pm. Please let me know your availability and hopefully we have an hour of overlapping times.

Thanks,
Swati

Thanks Jenny.

A 45 minutes review of the referral process will give us a great start to create workflows/processes to review/confirm during the in-person meeting in the new year.

I will send out the meeting invite shortly. Appreciate every one collaborating on finalizing the meeting time, this is usually the hardest thing :)

Does any time work for you both on Monday, December 18th? The only time I am not available on Monday is from 11 am - 12 pm. Please let me know your availability and hopefully we have an hour of overlapping times.

Thanks,
Swati

Dec 15th, Friday: 11 am - 12 pm

I can look for times on 18th and 19th the following week if none of these work.

Thanks so much!

Regards,
Swati

Good Morning Chief Marx,

I will move the meeting to tomorrow or Thursday at the same time for this week and future weeks, That will work out for Dr. Elias too as Tuesdays do not work for him either.

Regards,
Swati

Subject: Re: JFRD CAD signal codes/determinant codes in priority dispatch mapping
Date: Friday, February 28, 2025 10:31:01 AM

Good morning, I have a list of CAD codes I can send, but we do not have a list that matches determinant codes. We are working on trying to match them up. We have over 900 CAD codes which will make it very difficult and time consuming to do. I'm off today so I'll send the CAD code list Monday.

Good Morning Chief Marx,

Just following up to see if there are any updates on the CAD signal codes/determinant codes in priority dispatch mapping. Please let me know when you have a chance.

Thanks again for all your help!

Regards,
Swati

Swati, Matt will make at least one test call before going live, I'm unable to provide a time right now. I'll call the center in the morning and talk with Matt and Lt. Hinton and try and get a time he can make the call. Matt will need to explain the process to his shift and I'm not sure how long that will take. I'll provide any updates I receive. With my previous experience I'm confident that Matt will be able to make a test call after a video call with Kristeen and begin live calls shortly after.

Hello Chief Marx,

Thank you for providing the phone number.
Based on today's discussion on the CQI call, our understanding was that Matt would be sending test calls to RightSite's test environment on Monday. However, after reviewing your email, it seems you are suggesting we go live with the approved determinant codes, involving one call taker and JFRD transferring a real patient to RightSite.
Before going live, I will schedule a video call with Matt, Lt. Hinton, and Kristeen on Monday morning to review the process and ensure all necessary information is aligned.

We can meet as early as Matt and Lt. Hinton can meet on Monday morning. Please let us know the time, and I will schedule it accordingly.

Thanks,

Swati

> Hello Chief Marx,

Could you please share Matt's contact information for Monday's testing? It would greatly help us coordinate effectively.

Two of our navigation leads will handle JFRD's test calls. They are ready to walk Matt through the process and answer any questions he may have.

Unfortunately, I will be unavailable on Monday, but Kristeen will serve as Matt's point of contact for any questions or support he might need. I've copied Kristeen on this email, so feel free to share her contact information with Matt.

Wishing you a very happy Thanksgiving! Hope you have a nice family time with your daughter and granddaughter!

Regards,

Swati

Good Morning Chief Marx,

I hope you had a wonderful Thanksgiving with your family!

I wanted to follow up on the dispatch implementation progress from last week. On 11/25, Kristeen and Matt met to review the process and the critical information exchange during handoffs. Since then, we received one call from Matt on 11/26, which involved sending the patient back for EMS response.

We'd like to schedule a 30-minute touch base this week to discuss the next steps. Below are some proposed times; please let me know if any of these work for you or suggest alternative times, and I'll be happy to coordinate:

- **Tuesday, 12/3:** 10:30 am - 11:00 am ET
- **Wednesday, 12/4:** 12:00 pm - 3:00 pm ET

Looking forward to hearing from you.

Best regards,

Swati

Subject: RE: JFRD Dispatch/RightSite Training dates
Date: Thursday, December 5, 2024 11:00:00 AM
Attachments: image001.png

Swati,

We will not be asking or requiring anyone to come in off duty for training, we would have to pay them overtime. I don't think we need training on Tuesday. The hours between 0600 and 0930-1000 is generally our busiest times in the center, so training between those hours will not work. Generally, between 1700-2000 is another busy time. I think we could try to begin the training in the morning around 0930 and in the evening around 1900. We must have at least 7 people working the center during the day shift and 6 people during the night shift. Depending on what our staffing levels are these days will determine how many people we can train at a time. This is what I think the training times need to be.

Wednesday day shift training between 0930 and 1630
Wednesday night shift between 1900 until completed.
Thursday day shift 1030 and 1700 (the day shift works 1000-1800 on Thursdays) Training would need to be finished around 1700.
Thursday night shift 1900 until completed.

Brien

Good Morning Chief,

We have put together a proposed training schedule, assuming shift changes between Wednesday and Thursday. I wanted to send this before the CQI meeting so we can update it based on your recommendations.

	Tuesday, 12/17	Wednesday, 12/18	Thursday, 12/19
AM SHIFT 1	Training After Shift	Onsite Support 7am - 5pm	

PM SHIFT 1		Training Before/During Shift Onsite Support until 11pm	
AM SHIFT 2			Training Before/During Shift Onsite Support 7am - 5pm
PM SHIFT 2			Training Before/During Shift Onsite Support until 11pm

Talk to you soon.

Regards,
Swati

Hello Chief Marx,

We plan to be in JAX during the week of **12/16** and will conduct training sessions for both day and night shift crews on **Tuesday, 12/17, and Wednesday, 12/18**. A detailed training plan will be shared in the next couple of days, but we wanted to send out these dates now so you can add them to your calendar.

Regarding the patient seen on **12/26**, he was non-ambulatory, had been vomiting for the past two days, reported severe weakness, and was unable to walk. Given the conditions, it was not feasible to transport them via rideshare; hence, we requested an EMS response.

Please let me know if you have any questions or need additional details.

Thanks, and have a nice evening!

Good Morning Chief,

We have put together a proposed training schedule, assuming shift changes between Wednesday and Thursday. I wanted to send this before the CQI meeting so we can update it based on your recommendations.

	Tuesday, 12/17	Wednesday, 12/18	Thursday, 12/19
AM SHIFT 1	Training After Shift	Onsite Support 7am - 5pm	
PM SHIFT 1		Training Before/During Shift Onsite Support until 11pm	
AM SHIFT 2			Training Before/During Shift Onsite Support 7am - 5pm
PM SHIFT 2			Training Before/During Shift Onsite Support until 11pm

Talk to you soon.

Regards,
Swati

Swati,

We will not be asking or requiring anyone to come in off duty for training, we would have to pay them overtime. I don't think we need training on Tuesday. The hours between 0600 and 0930-1000 is generally our busiest times in the center, so training between those hours will not work. Generally, between 1700-2000 is another busy time. I think we could try to begin the training in the morning around 0930 and in the evening around 1900. We must have at least 7 people working the center during the day shift and 6 people during the night shift. Depending on what our staffing levels are during the training hours will determine how many people we can train at a time. This is what I think will work for the training times based on our current staffing numbers and everyone coming to work that day.

Wednesday day shift training between 0930 and 1630
Wednesday night shift between 1900 until completed.
Thursday day shift 1030-1700 (the day shift works 1000-1800 on Thursdays)
Thursday night shift 1900 until completed.

Thanks, Chief! This is very helpful!

One follow-up question: What changes often - The rescue unit crew is assigned to or their shift? or both?

We are not loading shift information into our system. Want to make sure if we should not load/auto-populate rescue either and confirm the rescue unit with them when they call.

I apologize for so many emails today.

Hello Chief,

We can load the entire crew list and add a note for the crew in the platform who have had the training. I can use the training roster to flag them for training instead of typing in their full name.

As the new crew is trained, we can update the training note in the system. I think this will be the most efficient way, in my opinion.

Is there a lot of effort on your part to pull the entire list for us? If it's a lot of effort, then I can put in the time to type in all the names of the personnel who have been trained from the training roster and send you another list to update where I have doubts, if that works better for you. Please let me know your thoughts.

Thanks so much for brainstorming this with me, appreciate your help.

> Swati,

I reviewed the spreadsheet and made any correction necessary. I do have a question. If we give you all the names of rescue personnel how will you be able to determine if the caller has received the training? If there is no way to determine that, what are your thoughts on only entering the names of the people who have received the training. That way when someone calls, and their name does not come up you would know that person most likely has not received the training. Just an idea.

Good Morning Chief Marx,

We are planning to load all the names of EMS crew members so that our navigators do not have to type in the complete name at the time of the call; the system can auto-populate names and navigators just need to confirm with the crew in the call. This is an effort to reduce the call time as much as possible.

I am using the training roster to type in the names and other information. Please see attached a sample training roster from January training and the spreadsheet that I am creating. Items highlighted in yellow are the ones that I have doubts about based on my ability to read handwriting.

I want to make sure if this is the only way to create a list or if you have a list that you can share with us. We can load all the EMS crew names (even if they have not been trained yet).

Please let me know your thoughts.

Thanks,

Swati

Swati,

Here is the most current roster. Please keep in mind this is frequently changing and will be very difficult to keep you updated as the roster changes.

Hello Chief,

We can load the entire crew list and add a note for the crew in the platform who have had the training. I can use the training roster to flag them for training instead of typing in their full name.

As the new crew is trained, we can update the training note in the system. I think this will be the most efficient way, in my opinion.

Is there a lot of effort on your part to pull the entire list for us? If it's a lot of effort, then I can put in the time to type in all the names of the personnel who have been trained from the training roster and send you another list to update where I have doubts, if that works better for you. Please let me know your thoughts.

Thanks so much for brainstorming this with me, appreciate your help.

People leave the rescue division, people get promoted and entered into rescue division. It will be helpful that your not tracking them by rescue unit or shift.

Thanks, Chief! This is very helpful!

One follow-up question: What changes often - The rescue unit crew is assigned to or their shift? or both?

We are not loading shift information into our system. Want to make sure if we should not load/auto-populate rescue either and confirm the rescue unit with them when they call.

I apologize for so many emails today.

I reached out to Dr Kumar. She texted me and we will chat tomorrow.

Our team is revising the JFRD policy and hope to present it to Chief Powers soon.

Then we can begin arranging the RightSite training for all the stations.

Dr Elias,

I'm happy to help.

Attached is Grady's protocol for RightSite use in the field. Their transport service is similar in scope and size to JFRD's. I'm also including the

standard MPDS integration with RightSite. Dr. Lekshmi Kumar is the contact for Grady EMS for medical direction, and I'd be happy to connect you if that will be helpful.

San Antonio Fire/EMS's dispatch protocols with RightSite are not a good reference for JFRD as SAFD dispatch staff only with paramedics. However, SAFD's OMD is Dr. CJ Winckler, and I'd be happy to connect you with him, as he has been very involved in the successful SAFD/RightSite relationship.

Let me know if I have missed anything that would keep you from moving forward with your work to complete the JFRD protocols next week. Feel free to contact me via cell for any further assistance.

Good Afternoon RightSite Team,

Exciting times ahead as we continue to expand the RightSite utilization!

After the meeting yesterday, it is clear our initial priority is to finalize a JFRD policy incorporating the concept of telemedicine and especially the use of RightSite by our JFRD field personnel for the treatment and disposition of non-emergent patients.

We have heard of your successful partnerships with the fire departments in Atlanta and San Antonio. Re-creating policies is inefficient and delays the operational goal, especially when there is a proven model, so I am asking the RightSite team to provide me with the protocols or a contact from the departments in those cities. I am also especially interested the San Antonio Fire Department dispatch protocols, describing how calls are routed to the RightSite providers. JFRD already has a working draft policy, but I think input from current users of RightSite will help make our document more functional to meet the demands and expectations of all involved.

I know we are all eager to get these protocols and polices completed, and then proceed into the department wide training in a timely manner. It would be appreciated if I can receive this requested information by next week, so we can have the JFRD policy ready for Chief Powers to review as soon as possible.

Best,

Good Afternoon RightSite Team,

Exciting times ahead as we continue to expand the RightSite utilization!

After the meeting yesterday, it is clear our initial priority is to finalize a JFRD policy incorporating the concept of telemedicine and especially the use of RightSite by our JFRD field personnel for the treatment and disposition of non-emergent patients.

We have heard of your successful partnerships with the fire departments in Atlanta and San Antonio. Re-creating policies is inefficient and delays the operational goal, especially when there is a proven model, so I am asking the RightSite team to provide me with the protocols or a contact from the departments in those cities. I am also especially interested the San Antonio Fire Department dispatch protocols, describing how calls are routed to the RightSite providers. JFRD already has a working draft policy, but I think input from current users of RightSite will help make our document more functional to meet the demands and expectations of all involved.

I know we are all eager to get these protocols and polices completed, and then proceed into the department wide training in a timely manner. It would be appreciated if I can receive this requested information by next week, so we can have the JFRD policy ready for Chief Powers to review as soon as possible.

Best,

Brad Elias MD
Medical Director
Jacksonville Fire Rescue Department

I reached out to Dr Kumar. She texted me and we will chat tomorrow.

Our team is revising the JFRD policy and hope to present it to Chief Powers soon.

Then we can begin arranging the RightSite training for all the stations.

Dr Elias,

I'm happy to help.

Attached is Grady's protocol for RightSite use in the field. Their transport service is similar in scope and size to JFRD's. I'm also including the

standard MPDS integration with RightSite. Dr. Lekshmi Kumar is the contact for Grady EMS for medical direction, and I'd be happy to connect you if that will be helpful.

San Antonio Fire/EMS's dispatch protocols with RightSite are not a good reference for JFRD as SAFD dispatch staff only with paramedics. However, SAFD's OMD is Dr. CJ Winckler, and I'd be happy to connect you with him, as he has been very involved in the successful SAFD/RightSite relationship.

Let me know if I have missed anything that would keep you from moving forward with your work to complete the JFRD protocols next week. Feel free to contact me via cell for any further assistance.

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Dr Elias,

I'm happy to help.

Attached is Grady's protocol for RightSite use in the field. Their transport service is similar in scope and size to JFRD's. I'm also including the standard MPDS integration with RightSite. Dr. Lekshmi Kumar is the contact for Grady EMS for medical direction, and I'd be happy to connect you if that will be helpful.

San Antonio Fire/EMS's dispatch protocols with RightSite are not a good reference for JFRD as SAFD dispatch staff only with paramedics. However, SAFD's OMD is Dr. CJ Winckler, and I'd be happy to connect you with him, as he has been very involved in the successful SAFD/RightSite relationship.

Let me know if I have missed anything that would keep you from moving forward with your work to complete the JFRD protocols next week. Feel free to contact me via cell for any further assistance.

>
> We have heard of your successful partnerships with the fire departments in Atlanta and San Antonio. Re-creating policies is inefficient and delays the operational goal, especially when there is a proven model, so I am asking the RightSite team to provide me with the protocols or a contact from the departments in those cities. I am also especially interested the San Antonio Fire Department dispatch protocols,

describing how calls are routed to the RightSite providers. JFRD already has a working draft policy, but I think input from current users of RightSite will help make our document more functional to meet the demands and expectations of all involved.

I know we are all eager to get these protocols and polices completed, and then proceed into the department wide training in a timely manner. It would be appreciated if I can receive this requested information by next week, so we can have the JFRD policy ready for Chief Powers to review as soon as possible.

Best,

Brad Elias MD

Medical Director

Jacksonville Fire Rescue Department

I would be happy to set up a call with your team, RightSite, and Dr Winckler's team.

That would be an exploration call with their dispatch model, and we will be present to help with the context of why a paramedic dispatch center would be different from what we know about your civilian call-taker model at JFRD.

In the meantime, how can we focus on the Grady field application as a way to assist in your priority to finalize the JFRD Telemedicine Policy?

Dr Elias,

I'm happy to help.

Attached is Grady's protocol for RightSite use in the field. Their transport service is similar in scope and size to JFRD's. I'm also including the standard MPDS integration with RightSite. Dr. Lekshmi Kumar is the contact for Grady EMS for medical direction, and I'd be happy to connect you if that will be helpful.

San Antonio Fire/EMS's dispatch protocols with RightSite are not a good reference for JFRD as SAFD dispatch staff only with paramedics. However, SAFD's OMD is Dr. CJ Winckler, and I'd be happy to connect you with him, as he has been very involved in the successful SAFD/RightSite relationship.

Let me know if I have missed anything that would keep you from moving forward with your work to complete the JFRD protocols next week. Feel free to contact me via cell for any further assistance.

Good Afternoon RightSite Team,

Exciting times ahead as we continue to expand the RightSite utilization!

After the meeting yesterday, it is clear our initial priority is to finalize a JFRD policy incorporating the concept of telemedicine and especially the use of RightSite by our JFRD field personnel for the treatment and disposition of non-emergent patients.

We have heard of your successful partnerships with the fire departments in Atlanta and San Antonio. Re-creating policies is inefficient and delays the operational goal, especially when there is a proven model, so I am asking the RightSite team to provide me with the protocols or a contact from the departments in those cities. I am also especially interested the San Antonio Fire Department dispatch protocols, describing how calls are routed to the RightSite providers. JFRD already has a working draft policy, but I think input from current users of RightSite will help make our document more functional to meet the demands and expectations of all involved.

I know we are all eager to get these protocols and polices completed, and then proceed into the department wide training in a timely manner. It would be appreciated if I can receive this requested information by next week, so we can have the JFRD policy ready for Chief Powers to review as soon as possible.

Best,

Brad Elias MD
Medical Director
Jacksonville Fire Rescue Department

I would be happy to set up a call with your team, RightSite, and Dr Winckler's team.

That would be an exploration call with their dispatch model, and we will be present to help with the context of why a paramedic dispatch center would be different from what we know about your civilian call-taker model at JFRD.

In the meantime, how can we focus on the Grady field application as a way to assist in your priority to finalize the JFRD Telemedicine Policy?

Good Afternoon RightSite Team,

Exciting times ahead as we continue to expand the RightSite utilization!

After the meeting yesterday, it is clear our initial priority is to finalize a JFRD policy incorporating the concept of telemedicine and especially the use of RightSite by our JFRD field personnel for the treatment and disposition of non-emergent patients.

We have heard of your successful partnerships with the fire departments in Atlanta and San Antonio. Re-creating policies is inefficient and delays the operational goal, especially when there is a proven model, so I am asking the RightSite team to provide me with the protocols or a contact from the departments in those cities. I am also especially interested the San Antonio Fire Department dispatch protocols, describing how calls are routed to the RightSite providers. JFRD already has a working draft policy, but I think input from current users of RightSite will help make our document more functional to meet the demands and expectations of all involved.

I know we are all eager to get these protocols and polices completed, and then proceed into the department wide training in a timely manner. It would be appreciated if I can receive this requested information by next week, so we can have the JFRD policy ready for Chief Powers to review as soon as possible.

Best,

Brad Elias MD
Medical Director
Jacksonville Fire Rescue Department

That would be an exploration call with their dispatch model, and we will be present to help with the context of why a paramedic dispatch center would be different from what we know about your civilian call-taker model at JFRD.

In the meantime, how can we focus on the Grady field application as a way to assist in your priority to finalize the JFRD Telemedicine Policy?

Dr Elias,

I'm happy to help.

Attached is Grady's protocol for RightSite use in the field. Their transport service is similar in scope and size to JFRD's. I'm also including the standard MPDS integration with RightSite. Dr. Lekshmi Kumar is the contact for Grady EMS for medical direction, and I'd be happy to connect you if that will be helpful.

San Antonio Fire/EMS's dispatch protocols with RightSite are not a good reference for JFRD as SAFD dispatch staff only with paramedics. However, SAFD's OMD is Dr. CJ Winckler, and I'd be happy to connect you with him, as he has been very involved in the successful SAFD/RightSite relationship.

Let me know if I have missed anything that would keep you from moving forward with your work to complete the JFRD protocols next week. Feel free to contact me via cell for any further assistance.

Capt. Linton,

Everything looks great. Can you add that when a call is referred to RS the call taker needs to make a note in CAD, or if the caller does not want to use RS to make a noted stating the caller either didn't want to use it or they refused it? They should add any pertinent details in CAD. This will help us have better documentation for these calls

Thanks Chief Marx!

Capt. Linton, would it be appropriate to add that step in the workflow you created? Mentioning notes of why or why not a transfer is made? Are there other spots you feel it should be added?

I'm working on the final versions as we speak for print. I'm happy to add it in all sections you feel are best.

Chief,

Thanks for the quick response. This Friday is great for me as well. I will get a calendar invite out for 1/5/2024 @ 10:30 AM.

Best regards,

Jared

> Good Morning Chief Blanton,

Thanks you Swati for the introduction. It is a pleasure to meet you virtually.

Our team been diligently enhancing the current training strategies and has a couple questions before finalizing the onsite training plan for the 63 JFRD rescue units.

I believe that a quick discussion with you would be incredibly beneficial to ensure that we are all aligned on the objectives and logistics of the training program.
We can review the dates and details of the plan, ensuring a smooth and effective training.

Please let me know your availability for a quick call, and we can send the calendar invite out to you.

Looking forward to working with you and the team!

Best regards,

Good morning, Jamo and Swati,

We are open to training more personnel, possible our entire Rescue Division, to the RightSite trial. If you can identify 6 days where your team is able conduct the training, we should be able to create a schedule to capture all 63 Rescues.

Thank you,

Jake Blanton

Good Morning Chief Blanton,

Thanks you Swati for the introduction. It is a pleasure to meet you virtually.

Our team been diligently enhancing the current training strategies and has a couple questions before finalizing the onsite training plan for the 63 JFRD rescue units.

I believe that a quick discussion with you would be incredibly beneficial to ensure that we are all aligned on the objectives and logistics of the training program.
We can review the dates and details of the plan, ensuring a smooth and effective training.

Please let me know your availability for a quick call, and we can send the calendar invite out to you.

Looking forward to working with you and the team!

Best regards,

Jared Oscarson, NRP, FACPE

Good morning, Jamo and Swati,

We are open to training more personnel, possible our entire Rescue Division, to the RightSite trial. If you can identify 6 days where your team is able conduct the training, we should be able to create a schedule to capture all 63 Rescues.

Thank you,

Jake Blanton

Chief,

Thanks for the quick response. This Friday is great for me as well. I will get a calendar invite out for 1/5/2024 @ 10:30 AM.

Best regards,

Jared

> Good Morning Chief Blanton,

Thanks you Swati for the introduction. It is a pleasure to meet you virtually.

Our team been diligently enhancing the current training strategies and has a couple questions before finalizing the onsite training plan for the 63 JFRD rescue units.

I believe that a quick discussion with you would be incredibly beneficial to ensure that we are all aligned on the objectives and logistics of the training program.
We can review the dates and details of the plan, ensuring a smooth and effective training.

Please let me know your availability for a quick call, and we can send the calendar invite out to you.

Looking forward to working with you and the team!

Hi Dr. Elias,

This is great news! Looking forward to catching up. Since we will be near lunch time is there a spot where you would like to meet?

Best regards,

Jared

Let's see where you guys are around that time tomorrow.

Preferably somewhere near downtown. Brien can text me.

Morning Chief,

I am planning to be in Jacksonville 3/12-3/14. Planning to arrive on Monday night and depart Thursday late evening.

Looking forward to seeing everyone.

Best regards,

Jared

Good Afternoon Chief Marx,

Thanks for checking with Lt. Harkins and helping with getting materials distributed.

I noticed you mentioned the meeting on Monday at 08:00, just wanted to make sure that you have the meeting for 9 AM ET / 8 AM CT on your calendar.

If you prefer 8 AM ET, I can move the time accordingly. Please let me know.

Thanks,
Swati

Good Morning Chief Marx,

Hope all is well. Wanted to give you a heads up that you will be receiving the following in mail today. Can you please see that these get to Capt. Keeney for distribution to EMS Clinicians.

Hope these bag tags and extended hours brochures are handy for EMS clinicians and are daily reminders to responders to activate RightSite, when appropriate.

1. 50 of the yellow badges/bag tags with couplers/key rings
2. 50 Badge Buddies, with couplers/key rings
3. 50 Extended hours communication

Appreciate your help!

Regards,

Swati

Good Afternoon Chief Marx,

Hope you had a fantastic start to the new year!

Jamo and I would like to schedule a brief call with you to touch base on the Dispatch post-implementation progress. Please let me know which of the proposed days and times work best for you, and I'll set it up accordingly.

Tuesday, 1/7: 3 - 3:30 pm ET
Wednesday, 1/8: 11 - 11:30 am ET
Thursday, 1/9: 2:30 - 3:30 pm ET

Thanks,
Swati

Good Morning Chief,

We have a conflict at 3 PM ET. Will 3:30 PM ET work for you tomorrow? Please let us know.

Thanks,

Swati

Hello Chief,

Does this print better? I split it into two pages. If not, I can split it into four pages, just let me know. Thanks!

Regards,
Swati

Hello Chief,

Thank you for meeting with us today. The dashboard we reviewed today is attached; we thought it might be helpful when you meet with Chief Golden tomorrow.

Please let me know if you need any additional information for the new Chief.

Thanks,

Swati

Swati,

I'm wanting to print the dashboard document that you sent. When I try to do that it only shows as 1 page. Is there a way you can send me the information where I can print the document?

Thank You,

Brien

Hello Capt. Bernard,

Thanks for sending this data. We had a question on 8/7 through 8/13 data set:

- How is JFRD defining non emergent calls that are candidates to activate RightSite? Is this represented by the non-EMR column in the spreadsheet? Please let us know your thoughts on this.

Thanks for your help on this!

Regards,
Swati

Hello Chief Marx,

Hope you had a nice weekend.

Chief Blanton asked us to reach out to you for any JFRD data we might need. As we launch today, it would be helpful for us to work together using the following information:

- **Daily Run report:** Daily run report for 4 stations (R21, R28, R44 and R72) by emergent and non-emergent incident type codes. RightSite will use this file to return back EMS crew use and patient outcomes for every call we receive, and review this report with you and your team in weekly meetings.

- **Historical data**: It would be helpful to have a baseline of emergent and non-emergent runs. Could you re-run the report below for R28 And R72 to include emergent and non emergent codes? Please see the attachment for reference that we received back in June.

Please let me know if you need additional information. Looking forward to working with you.

Regards,

Swati

Swati,

I unfortunately have not been privy to any of the discussions involving RightSite Health. I do not know what we are defining as "non-emergent" as far as care and treatment are concerned. Chief Marx do you know if/what is being used to define what non-emergent calls are appropriate for RightSite? The data that I provided shows what our response is (FIRE, EMS, Non-Emergent). The list of signals provided and corresponding emergent / non emergent designation is what I had assumed would be appropriate if using signals, however if that is going used to define non-emergent calls Chief Marx should review it and send to Dr. Elias and Chief Blanton for approval. That being said, it would be my opinion to not use signals but rather the "Nature of call ON SCENE". As often times the type of call "signal" used in dispatch ends up being different then what is actually presented on scene. For instance, the call may be dispatched as sick person nausea, but when we get on scene the person has nausea because they are having a MI. Or conversely the call could be dispatched as chest pain, but upon arrival the reason for the chest pain is due to a cough for 3 days. For these reasons I would recommend using data from our ePCR the nature of call on scene. But again that is up to Dr. Elias and Chief Blanton to define non-emergent calls that would be appropriate for RightSite.

Respectfully,

Captain Michael Bernard

Hello Chief Marx,

Hope you had a nice weekend.

Chief Blanton asked us to reach out to you for any JFRD data we might need. As we launch today, it would be helpful for us to work together using the following information:

-

Daily Run report: Daily run report for 4 stations (R21, R28, R44 and R72) by emergent and non-emergent incident type codes. RightSite will use this file to return back EMS crew use and patient outcomes for every call we receive, and review this report with you and your team in weekly meetings.

- **Historical data**: It would be helpful to have a baseline of emergent and non-emergent runs. Could you re-run the report below for R28 And R72 to include emergent and non emergent codes? Please see the attachment for reference that we received back in June.

Please let me know if you need additional information. Looking forward to working with you.

Regards,
Swati

Good afternoon, Swati,

We're working on getting the data together for you. I should have something for you by Thursday at the latest. My apologizes for not responding soon. It's been a busy week. From looking at the calls yesterday It does not appear that an opportunity for Right Site was presented. Just to help provide a little reassurance the crews understand Right Site is available for them currently. If you have any questions or concerns, please give me a call.

Respectfully,

Hello Capt. Bernard,

Thanks for sending this data. We had a question on 8/7 through 8/13 data set:

- How is JFRD defining non emergent calls that are candidates to activate RightSite? Is this represented by the non-EMR column in the spreadsheet? Please let us know your thoughts on this.

Thanks for your help on this!

Hello Chief Marx,

Hope you had a nice weekend.

Chief Blanton asked us to reach out to you for any JFRD data we might need. As we launch today, it would be helpful for us to work together using the following information:

- **Daily Run report:** Daily run report for 4 stations (R21, R28, R44 and R72) by emergent and non-emergent incident type codes. RightSite will use this file to return back EMS crew use and patient outcomes for every call we receive, and review this report with you and your team in weekly meetings.

- **Historical data**: It would be helpful to have a baseline of emergent and non-emergent runs. Could you re-run the report below for R28 And R72 to include emergent and non emergent codes? Please see the attachment for reference that we received back in June.

Please let me know if you need additional information. Looking forward to working with you.

Swati,

I unfortunately have not been privy to any of the discussions involving RightSite Health. I do not know what we are defining as "non-emergent" as far as care and treatment are concerned. Chief Marx do you know if/what is being used to define what non-emergent calls are appropriate for RightSite? The data that I provided shows what our response is (FIRE, EMS, Non-Emergent). The list of signals provided and corresponding emergent / non emergent designation is what I had assumed would be appropriate if using signals, however if that is going used to define non-emergent calls Chief Marx should review it and send to Dr. Elias and Chief Blanton for approval. That being said, it would be my opinion to not use signals but rather the "Nature of call ON SCENE". As often times the type of call "signal" used in dispatch ends up being different then what is actually presented on scene. For instance, the call may be dispatched as sick person nausea, but when we get on scene the person has nausea because they are having a MI. Or conversely the call could be dispatched as chest pain, but upon arrival the reason for the chest pain is due to a cough for 3 days. For these reasons I would recommend using data from our ePCR the nature of call on scene. But again that is up to Dr. Elias and Chief Blanton to define non-emergent calls that would be appropriate for RightSite.

Respectfully,

Captain Michael Bernard

Hello Capt. Bernard,

Thanks for sending this data. We had a question on 8/7 through 8/13 data set:

- How is JFRD defining non emergent calls that are candidates to activate RightSite? Is this represented by the non-EMR column in the spreadsheet? Please let us know your thoughts on this.

Thanks for your help on this!

Regards,
Swati

Hello Chief Marx,

Hope you had a nice weekend.

Chief Blanton asked us to reach out to you for any JFRD data we might need. As we launch today, it would be helpful for us to work together using the following information:

- **Daily Run report:** Daily run report for 4 stations (R21, R28, R44 and R72) by emergent and non-emergent incident type codes. RightSite will use this file to return back EMS crew use and patient outcomes for every call we receive, and review this report with you and your team in weekly meetings.
- **Historical data**: It would be helpful to have a baseline of emergent and non-emergent runs. Could you re-run the report below for R28 And R72 to include emergent and non emergent codes? Please see the attachment for reference that we received back in June.

Please let me know if you need additional information. Looking forward to working with you.

Regards,
Swati

Thanks for the note, Capt Keeney.

I appreciate you checking in with us as feedback in this early stage will allow us to make adjustments to help accelerate the launch.

Changing habits is never easy. The new habit is just asking non-emergent patients “would you like to talk to an ER doc right now, or go to the ER instead?"

Adding to that is the active and visible leadership from supervisors and chiefs in communicating what RightSite is, why it’s good for JFRD as an organization and also for the crews, and what happens if JFRD doesn’t solve for the overwhelming amount of non-emergent 911 callers.

I’m going to have Swati send you answers to those questions so you and your team can begin to talk to these points early and often.

Thanks again for all your support!

Hi Chief Blanton and Captain Keeney,

I'm following up alongside Swati to see if you can begin your communications with the EMS crews, as Swati suggested below, with a few ideas you can copy/paste. If that's helpful, we can share a handful of draft emails for you to use in your continuing communications.

The first few days and weeks of implementing RightSite are critical to getting buy-in from the EMS crews. Top-down and bottom-up communication and reinforcement are so important.

Captain Keeney, please let us know when we can schedule our meetings with you. Twice a week as we launch (for a few weeks) is ideal - and then we can move to weekly.

Thank you both for your help and any advice you can offer as we launch RightSite with JFRD.

Here are a couple of FAQs that you can use in your communication with Rescue Units to kick off the go-live day:

Q1: How does RightSite work?

A: If you have a patient who does not need to go to the ER, RightSite offers on-demand access to an ER doctor through telehealth as well as navigation to non-ER care that includes non-ambulance transportation.

Your patient gets care faster at a lower cost, bypassing the long ER wait times.
RightSite navigator follows up the next day to see how the patient is doing to ensure they got the care they needed.

RightSite will free you up for true emergencies so you can save more lives, help you get back to the station, back to post, or get off on time for the end of your shift.

Q2: Are there costs for RightSite Services?

A: There is no cost to patients today. Patients will be responsible for the normal copays or deductibles if they end up going to urgent care or PCPs, which will be substantially lower than those associated with an emergency room visit. If your patient does not have insurance or needs financial assistance, RightSite can help you.

Also, please pass along the attached list of great/good fits for RightSite that we covered in the training sessions to all the EMS Clinicians for a quick reference during their runs.

We will start working with Capt. Keeney to identify and implement techniques of Change Management in the coming week and keep you posted.

Please let me know if you have any ideas on how we can help you and your supervisors to reinforce RightSite adoption and have a great start to the 90-day trial period.

Appreciate your help and guidance!

Hello Capt Keeney,

Here are the answers to some questions that you can send out to the EMS crew and remind them that RightSite navigators are **problem solvers**; when in doubt as to whether call RightSite or not, give us a call, and navigators and physicians will work with JFRD EMS to send your patients to the right site of care.

Q1: Why is it good for JFRD as an organization to use RightSite?

- *We need a solution to free up our rescue units for real emergencies. With RightSite, we can hand off non-emergent patients who call 911 but don't need to go to the ER.*
- *We chose RightSite because they're a telehealth provider that can help us with 911 diversions and follow up with patients to get the things so they won't resort to calling 911 for their non-emergency care.*
- *RightSite combines telehealth with an ER doctor and a navigation team to help handle the logistics of finding other clinical and social resources for these patients.*
- *With a navigation team focused on the social aspect of healthcare, RightSite provides a long-term solution for patients, not just a quick fix.*

Q2: Why is it good for JFRD EMS crews to use RightSite?
A: RightSite will free you up for true emergencies so you can save more lives, help you get back to the station, back to post, or get off on time for the end of your shift.

Q3: What happens if JFRD doesn't solve for the overwhelming amount of non-emergent 911 callers?

- *Our population is growing, and our rescue units are tied up and not available for true emergencies; this current state will only worsen.*
- *Our emergency system will become even more clogged if we don't find another option.*
- *The stress and lack of work-life balance is tough on everyone now and will worsen if we don't take action.*

Q4: How does RightSite work?
A: If you have a patient who does not need to go to the ER, RightSite offers on-demand access to an ER doctor through telehealth and navigation to non-ER care, including non-ambulance transportation. Your patient gets care faster at a lower cost, bypassing the long ER wait times. RightSite navigator follows up the next day to see how the patient is doing to ensure they get the care they need.

Q5: Are there costs for RightSite Services?
A: There is no cost to patients today. Patients will be responsible for the normal copays or deductibles if they end up going to urgent care or PCPs, which will be substantially lower than those associated with an emergency room visit. If your patient does not have insurance or needs financial assistance, RightSite can help you.

One request, please send me the names of EMS clinicians who attended training sessions on Aug 2-4. Picture of your sign-in sheet will work too!

Please let me know if you need additional information or want to touch base on a call this week, and I will schedule one for us.

Hi Chief Blanton and Captain Keeney,

I'm following up alongside Swati to see if you can begin your communications with the EMS crews, as Swati suggested below, with a few ideas you can copy/paste. If that's helpful, we can share a handful of draft emails for you to use in your continuing communications.

The first few days and weeks of implementing RightSite are critical to getting buy-in from the EMS crews. Top-down and bottom-up communication and reinforcement are so important.

Captain Keeney, please let us know when we can schedule our meetings with you. Twice a week as we launch (for a few weeks) is ideal - and then we can move to weekly.

Thank you both for your help and any advice you can offer as we launch RightSite with JFRD.

Good Morning Chief Blanton,

We all are very excited to start working with 4 JFRD Rescue Units and are eager to receive calls from them starting today.

As discussed last week, we understand that the decision to use RightSite happens at the individual level, and some folks will take more time than others to adopt our service.

Two key ingredients in promoting the use of RightSite are:

1. Active and visible communication from leadership throughout the transition process to EMS clinicians who will be using RightSite.

2. Consistent encouragement, role modeling, and troubleshooting from the supervisors to promote the use of RightSite

Here are a couple of FAQs that you can use in your communication with Rescue Units to kick off the go-live day:

Q1: How does RightSite work?

A: If you have a patient who does not need to go to the ER, RightSite offers on-demand access to an ER doctor through telehealth as well as navigation to non-ER care that includes non-ambulance transportation.

Your patient gets care faster at a lower cost, bypassing the long ER wait times.
RightSite navigator follows up the next day to see how the patient is doing to ensure they got the care they needed.

RightSite will free you up for true emergencies so you can save more lives, help you get back to the station, back to post, or get off on time for the end of your shift.

Q2: Are there costs for RightSite Services?

A: There is no cost to patients today. Patients will be responsible for the normal copays or deductibles if they end up going to urgent care or PCPs, which will be substantially lower than those associated with an emergency room visit. If your patient does not have insurance or needs financial assistance, RightSite can help you.

Also, please pass along the attached list of great/good fits for RightSite that we covered in the training sessions to all the EMS Clinicians for a quick reference during their runs.

We will start working with Capt. Keeney to identify and implement techniques of Change Management in the coming week and keep you posted.

Please let me know if you have any ideas on how we can help you and your supervisors to reinforce RightSite adoption and have a great start to the 90-day trial period.

Appreciate your help and guidance!

Thank you,

Swati

Good afternoon,

Here is a list of our CAD codes that match the determinant codes. We do not have a CAD code for the last part of the list because we do not have any Omega responses for those call types. We also do not override Priority Dispatch recommendations. Hope you find this information useful.

Good Morning Chief Marx,

I hope the Hurricane in JAX isn't causing too much disruption on your end. I wanted to update you that we received another activation from JFRD yesterday, and the patient was treated via a RightSite Telehealth Visit.

This brings the total to 4 JFRD activations for the month.

- 75% (3 patients) of the patients were treated in non-ER locations
- 25% (1 patient) was sent to ER in a rideshare

Please let us know if there's anything we can do to assist during this hurricane situation.

Good Morning Capt Keeney,

We appreciate all your efforts to organize RightSite talking points in a binder for the crew; this easy reference and constant communication will go a long way in changing EMS crew habits to call RS for non-acuity cases.

In the meantime, if any other questions come up when you meet with the crew, please send it our way and we can help with the response. We are here to help with anything that can take the load off from your plate and help with successful adoption.

And, thanks for sending the roster. Chief Blanton had mentioned a need for additional training for the crew who were not able to attend the training sessions last week. Please let me know and we can schedule accordingly.

Looking forward to a successful engagement!

Hello Capt Keeney,

Here are the answers to some questions that you can send out to the EMS crew and remind them that RightSite navigators are **problem solvers**; when in doubt as to whether call RightSite or not, give us a call, and navigators and physicians will work with JFRD EMS to send your patients to the right site of care.

Q1: Why is it good for JFRD as an organization to use RightSite?

- *We need a solution to free up our rescue units for real emergencies. With RightSite, we can hand off non-emergent patients who call 911 but don't need to go to the ER.*
- *We chose RightSite because they're a telehealth provider that can help us with 911 diversions and follow up with patients to get the things so they won't resort to calling 911 for their non-emergency care.*
- *RightSite combines telehealth with an ER doctor and a navigation team to help handle the logistics of finding other clinical and social resources for these patients.*
- *With a navigation team focused on the social aspect of healthcare, RightSite provides a long-term solution for patients, not just a quick fix.*

Q2: Why is it good for JFRD EMS crews to use RightSite?
A: RightSite will free you up for true emergencies so you can save more lives, help you get back to the station, back to post, or get off on time for the end of your shift.

Q3: What happens if JFRD doesn't solve for the overwhelming amount of non-emergent 911 callers?

- *Our population is growing, and our rescue units are tied up and not available for true emergencies; this current state will only worsen.*
- *Our emergency system will become even more clogged if we don't find another option.*
- *The stress and lack of work-life balance is tough on everyone now and will worsen if we don't take action.*

Q4: How does RightSite work?
A: If you have a patient who does not need to go to the ER, RightSite offers on-demand access to an ER doctor through telehealth and navigation to non-ER care, including non-ambulance transportation. Your patient gets care faster at a lower cost, bypassing the long ER wait times. RightSite navigator follows up the next day to see how the patient is doing to ensure they get the care they need.

Q5: Are there costs for RightSite Services?
A: There is no cost to patients today. Patients will be responsible for the normal copays or deductibles if they end up going to urgent care or PCPs, which will be substantially lower than those

associated with an emergency room visit. If your patient does not have insurance or needs financial assistance, RightSite can help you.

One request, please send me the names of EMS clinicians who attended training sessions on Aug 2-4. Picture of your sign-in sheet will work too!

Please let me know if you need additional information or want to touch base on a call this week, and I will schedule one for us.

A: There is no cost to patients today. Patients will be responsible for the normal copays or deductibles if they end up going to urgent care or PCPs, which will be substantially lower than those associated with an emergency room visit. If your patient does not have insurance or needs financial assistance, RightSite can help you.

Also, please pass along the attached list of great/good fits for RightSite that we covered in the training sessions to all the EMS Clinicians for a quick reference during their runs.

We will start working with Capt. Keeney to identify and implement techniques of Change Management in the coming week and keep you posted.

Please let me know if you have any ideas on how we can help you and

your supervisors to reinforce RightSite adoption and have a great start to the 90-day trial period.

Appreciate your help and guidance!

Thank you,

Swati

Good Morning Capt Keeney,

We appreciate all your efforts to organize RightSite talking points in a binder for the crew; this easy reference and constant communication will go a long way in changing EMS crew habits to call RS for non-acuity cases.

In the meantime, if any other questions come up when you meet with the crew, please send it our way and we can help with the response. We are here to help with anything that can take the load off from your plate and help with successful adoption.

And, thanks for sending the roster. Chief Blanton had mentioned a need for additional training for the crew who were not able to attend the training sessions last week. Please let me know and we can schedule accordingly.

Looking forward to a successful engagement!

Regards,
Swati

Hello Capt Keeney,

Here are the answers to some questions that you can send out to the EMS crew and remind them that RightSite navigators are **problem solvers**; when in doubt as to whether call RightSite or not, give us a call, and navigators and physicians will work with JFRD EMS to send your patients to the right site of care.

Q1: Why is it good for JFRD as an organization to use RightSite?

- *We need a solution to free up our rescue units for real emergencies. With RightSite, we can hand off non-emergent patients who call 911 but don't need to go to the ER.*
- *We chose RightSite because they're a telehealth provider that can help us with 911 diversions and follow up with patients to get the things so they won't resort to calling 911 for their non-emergency care.*
- *RightSite combines telehealth with an ER doctor and a navigation team to help handle the logistics of finding other clinical and social resources for these patients.*
- *With a navigation team focused on the social aspect of healthcare, RightSite provides a long-term solution for patients, not just a quick fix.*

Q2: Why is it good for JFRD EMS crews to use RightSite?
A: RightSite will free you up for true emergencies so you can save more lives, help you get back to the station, back to post, or get off on time for the end of your shift.

Q3: What happens if JFRD doesn't solve for the overwhelming amount of non-emergent 911 callers?

- *Our population is growing, and our rescue units are tied up and not available for true emergencies; this current state will only worsen.*
- *Our emergency system will become even more clogged if we don't find another option.*
- *The stress and lack of work-life balance is tough on everyone now and will worsen if we don't take action.*

Q4: How does RightSite work?
A: If you have a patient who does not need to go to the ER, RightSite offers on-demand access to an ER doctor through telehealth and navigation to non-ER care, including non-ambulance transportation. Your patient gets care faster at a lower cost, bypassing the long ER wait times. RightSite navigator follows up the next day to see how the patient is doing to ensure they get the care they need.

Q5: Are there costs for RightSite Services?
A: There is no cost to patients today. Patients will be responsible for the normal copays or deductibles if they end up going to urgent care or PCPs, which will be substantially lower than those

associated with an emergency room visit. If your patient does not have insurance or needs financial assistance, RightSite can help you.

One request, please send me the names of EMS clinicians who attended training sessions on Aug 2-4. Picture of your sign-in sheet will work too!

Please let me know if you need additional information or want to touch base on a call this week, and I will schedule one for us.

Hi Chief Blanton and Captain Keeney,

I'm following up alongside Swati to see if you can begin your communications with the EMS crews, as Swati suggested below, with a few ideas you can copy/paste. If that's helpful, we can share a handful of draft emails for you to use in your continuing communications.

The first few days and weeks of implementing RightSite are critical to getting buy-in from the EMS crews. Top-down and bottom-up communication and reinforcement are so important.

Captain Keeney, please let us know when we can schedule our meetings with you. Twice a week as we launch (for a few weeks) is ideal - and then we can move to weekly.

Thank you both for your help and any advice you can offer as we launch RightSite with JFRD.

Good Morning Chief Blanton,

We all are very excited to start working with 4 JFRD Rescue Units and

are eager to receive calls from them starting today.

As discussed last week, we understand that the decision to use RightSite happens at the individual level, and some folks will take more time than others to adopt our service.

Two key ingredients in promoting the use of RightSite are:

1. Active and visible communication from leadership throughout the transition process to EMS clinicians who will be using RightSite.

2. Consistent encouragement, role modeling, and troubleshooting from the supervisors to promote the use of RightSite

Here are a couple of FAQs that you can use in your communication with Rescue Units to kick off the go-live day:

Q1: How does RightSite work?

A: If you have a patient who does not need to go to the ER, RightSite offers on-demand access to an ER doctor through telehealth as well as navigation to non-ER care that includes non-ambulance transportation.

Your patient gets care faster at a lower cost, bypassing the long ER wait times.
RightSite navigator follows up the next day to see how the patient is doing to ensure they got the care they needed.

RightSite will free you up for true emergencies so you can save more lives, help you get back to the station, back to post, or get off on time for the end of your shift.

Q2: Are there costs for RightSite Services?

A: There is no cost to patients today. Patients will be responsible for the normal copays or deductibles if they end up going to urgent care or PCPs, which will be substantially lower than those associated with an emergency room visit. If your patient does not have insurance or needs financial assistance, RightSite can help you.

We will start working with Capt. Keeney to identify and implement techniques of Change Management in the coming week and keep you posted.

Please let me know if you have any ideas on how we can help you and your supervisors to reinforce RightSite adoption and have a great start to the 90-day trial period.

Appreciate your help and guidance!

Thank you,

Swati

Cc: Blanton, Jake; Marx, James
Subject: Re: JFRD/RightSite - UNIT ROSTER
Date: Thursday, August 10, 2023 9:24:58 AM
Attachments: JFRD (RIGHSITE) ROSTER.pdf

Good morning Swati / Jamo,

Your "questions / answers" page was well received, thank you. Above you will find the JFRD UNIT roster as requested. As I mentioned a couple days ago, it will take some time to transition the crews and educate the masses. I am monitoring the appointed units and their runs daily. I have created a formatted binder with all of the important points and benefits of RightSite Services. I have distributed them to all designated crews / units for their reference.

We look forward to successfully engaging the community with this opportunity.

Best regards,

Capt. N. Keeney

Hello Capt Keeney,

Here are the answers to some questions that you can send out to the EMS crew and remind them that RightSite navigators are **problem solvers**; when in doubt as to whether call RightSite or not, give us a call, and navigators and physicians will work with JFRD EMS to send your patients to the right site of care.

Q1: Why is it good for JFRD as an organization to use RightSite?

- *We need a solution to free up our rescue units for real emergencies. With RightSite, we can hand off non-emergent patients who call 911 but don't need to go to the ER.*
- *We chose RightSite because they're a telehealth provider that can help us with 911 diversions and follow up with patients to get the things so they won't resort to calling 911 for their non-emergency care.*
- *RightSite combines telehealth with an ER doctor and a navigation team to help handle the logistics of finding other clinical and social resources for these patients.*
- *With a navigation team focused on the social aspect of healthcare, RightSite provides a long-term solution for patients, not just a quick fix.*

Q2: Why is it good for JFRD EMS crews to use RightSite?

A: RightSite will free you up for true emergencies so you can save more lives, help you get back to the station, back to post, or get off on time for the end of your shift.

Q3: What happens if JFRD doesn't solve for the overwhelming amount of non-emergent 911 callers?

- *Our population is growing, and our rescue units are tied up and not available for true emergencies; this current state will only worsen.*
- *Our emergency system will become even more clogged if we don't find another option.*
- *The stress and lack of work-life balance is tough on everyone now and will worsen if we don't take action.*

Q4: How does RightSite work?
A: If you have a patient who does not need to go to the ER, RightSite offers on-demand access to an ER doctor through telehealth and navigation to non-ER care, including non-ambulance transportation. Your patient gets care faster at a lower cost, bypassing the long ER wait times. RightSite navigator follows up the next day to see how the patient is doing to ensure they get the care they need.

Q5: Are there costs for RightSite Services?
A: There is no cost to patients today. Patients will be responsible for the normal copays or deductibles if they end up going to urgent care or PCPs, which will be substantially lower than those associated with an emergency room visit. If your patient does not have insurance or needs financial assistance, RightSite can help you.

One request, please send me the names of EMS clinicians who attended training sessions on Aug 2-4. Picture of your sign-in sheet will work too!

Please let me know if you need additional information or want to touch base on a call this week, and I will schedule one for us.

Regards,
Swati

what RightSite is, why it's good for JFRD as an organization and also for the crews, and what happens if JFRD doesn't solve for the overwhelming amount of non-emergent 911 callers.

I'm going to have Swati send you answers to those questions so you and your team can begin to talk to these points early and often.

Thanks again for all your support!

Captain Keeney, please let us know when we can schedule our meetings with you. Twice a week as we launch (for a few weeks) is ideal - and then we can move to weekly.

Thank you both for your help and any advice you can offer as we launch RightSite with JFRD.

On Aug 7, 2023, at 5:42 AM, Swati Swani <swati.swani@rightsitehealth.com> wrote:

Good Morning Chief Blanton,

We all are very excited to start working with 4 JFRD Rescue Units and are eager to receive calls from them starting today.

As discussed last week, we understand that the decision to use RightSite happens at the individual level, and some folks will take more time than others to adopt our service.

Two key ingredients in promoting the use of RightSite are:

1. Active and visible communication from leadership throughout the transition process to EMS clinicians who will be using RightSite.

2. Consistent encouragement, role modeling, and troubleshooting from the supervisors to promote the use of RightSite

Here are a couple of FAQs that you can use in your communication with Rescue Units to kick off the go-live day:

Q1: How does RightSite work?

A: If you have a patient who does not need to go to the ER, RightSite offers on-demand access to an ER doctor through telehealth as well as navigation to non-ER care that includes non-ambulance transportation.

Your patient gets care faster at a lower cost, bypassing the long ER wait times.
RightSite navigator follows up the next day to see how the patient is doing to ensure they got the care they needed.

RightSite will free you up for true emergencies so you can save more lives, help you get back to the station, back to post, or get off on time for the end of your shift.

Q2: Are there costs for RightSite Services?

A: There is no cost to patients today. Patients will be responsible for the normal copays or deductibles if they end up going to urgent care or PCPs, which will be substantially lower than those associated with an emergency room visit. If your patient does not have insurance or needs financial assistance, RightSite can help you.

Also, please pass along the attached list of great/good fits for RightSite that we covered in the training sessions to all the EMS Clinicians for a quick reference during their runs.

We will start working with Capt. Keeney to identify and implement techniques of Change Management in the coming week and keep you posted.

Please let me know if you have any ideas on how we can help you and your supervisors to reinforce RightSite adoption and have a great start to the 90-day trial period.

Appreciate your help and guidance!

Good Morning Capt Keeney,

We appreciate all your efforts to organize RightSite talking points in a binder for the crew; this easy reference and constant communication will go a long way in changing EMS crew habits to call RS for non-acuity cases.

In the meantime, if any other questions come up when you meet with the crew, please send it our way and we can help with the response. We are here to help with anything that can take the load off from your plate and help with successful adoption.

And, thanks for sending the roster. Chief Blanton had mentioned a need for additional training for the crew who were not able to attend the training sessions last week. Please let me know and we can schedule accordingly.

Looking forward to a successful engagement!

Good Morning Chief,

No worries at all. We will be mailing handouts and pens to your office address (the one we have used before) to reach you on Monday.

Thanks again for all your help and let me know if you need any other material for your crew to distribute next week.

Regards,
Swati

Hello All,

Thanks for your time today. Please review the meeting notes and next steps below:

1. Reports Review: No calls this week; last call from JFRD on 3/20
2. Case Review: Dr. Elias and Dr. Mene reviewed 2 episodes for patient outcomes and clinical processes: 4635 and 4722
3. **Next Steps:** Onsite meeting with Jamo, JFRD team, and the Mayor's office on 4/2
4. The slide deck is attached

Next Call: 4/4/2024 at 1:30 PM ET

Please let us know if you have any questions or need additional information.

Happy Easter and have a nice weekend!

Hello All,

Thanks for your time today. Please review the meeting notes and next steps below:

1. Updates from the JAX meeting on 4/2/2024:
    1. **Next steps:** RightSite will share policy examples from TX and ATL partners this week for JFRD to incorporate, as appropriate.
    2. Future training will be held at fire stations instead of JFRD headquarters.
    3. RightSite will consider expanding hours of operation as the volume of JFRD calls to RightSite increases.
    4. Discussed high-level workflow of calls coming from JFRD Dispatch to RightSite. A detailed workflow discussion will be held at the time of implementation into dispatch.
2. Reports Review: One call this week
3. Changing the format of weekly calls: Separate calls for operations and Clinical review
    1. Operations weekly meeting (time will be changed to AM after discussing in next week's call): These meetings will focus on business review, summary call reports, change management, optimization of existing processes, and expansion plans.
    2. Clinical Review Meeting (CQI): These will be scheduled at a cadence of twice a month. These meetings will focus on discussing patient-level outcomes and clinical process improvements. Mandatory Attendees: Mene and Dr. Elias
4. The summary report is attached

Next Call: 4/11/2024 at 1:30 PM ET

Please let us know if you have any questions or need additional information.

Hello All,

Thanks for your time today. Please review the meeting notes and next steps below:

1. Updates from the JAX meeting on 4/2/2024:
    1. **Next steps:** RightSite will share policy examples from TX and ATL partners this week for JFRD to incorporate, as appropriate.
    2. Future training will be held at fire stations instead of JFRD headquarters.
    3. RightSite will consider expanding hours of operation as the volume of JFRD calls to RightSite increases.
    4. Discussed high-level workflow of calls coming from JFRD Dispatch to RightSite. A detailed workflow discussion will be held at the time of implementation into dispatch.
2. Reports Review: One call this week
3. Changing the format of weekly calls: Separate calls for operations and Clinical review
    1. Operations weekly meeting (time will be changed to AM after discussing in next week's call): These meetings will focus on business review, summary call reports, change management, optimization of existing processes, and expansion plans.
    2. Clinical Review Meeting (CQI): These will be scheduled at a cadence of twice a month. These meetings will focus on discussing patient-level outcomes and clinical process improvements. Mandatory Attendees: Mene and Dr. Elias
4. The summary report is attached

Next Call: 4/11/2024 at 1:30 PM ET

Please let us know if you have any questions or need additional information.

Hello All,

Thanks for your time today. Please review the meeting notes and next steps below and let me know if I have missed or misstated anything:

1. **Operations Meeting**:
    1. JFRD telemedicine policy for field activations:
        1. Dr. Elias is finalizing the JFRD telemedicine policy for field activations. It will be reviewed by the JFRD team next week. **Next Steps**: JFRD policy will be shared with the RightSite team.
        2. **Next Steps**: Train all Rescue and Suppression units in May with emphasis on making the EMS crew comfortable towards activating RightSite for non-emergent patients.
    2. Reports Review: Two calls last week and one call today. The summary report is attached.
    3. Preferred providers Urgent Care in JAX: **Next Steps**: Dr. Elias will provide a point of contact to RightSite from Baptist to onboard urgent care part of the Baptist health system.
2. **Clinical CQI Meeting**:
    1. Reviewed three cases for continuous quality improvement of services for patients between the two organizations.

Next Operations Call: 4/25/2024 at 9 AM ET
Next Clinical CQI call: 4/25/2024 at 1:30 PM ET

Please let us know if you have any questions or need additional information.

Regards,
Swati

Hello Chief,

Thanks for your time today. Here is the summary data for field and dispatch activations:

Time Period: Dec'24 - Current Date

Dispatch: 12 activations (9-Dec, 3-Jan)
Patient Outcomes: 50% RightSite Addressed (ambulance did not roll)

- 4 - Alternate Site
- 2 - ER - non-emergency Transport
- 4 - Requested EMS Response
- 2 - Patient Refusals

Average EMS Release Time: 3 minutes
Average Close Loop Time: 23 minutes

Field: 12 activations (8-Dec, 4-Jan)
Patient Outcomes: 83% RightSite Addressed (ambulance did not roll)

- 7 - Alternate Site
- 3 - ER - Non Emergent Transport

- 2 - ER - Ambulance

Average EMS Release Time: 13 minutes

Please let me know if I have missed anything.

Have a nice evening!

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Hello Chief Marx,

Below are the details of navigation and call back for the patient:

The patient used a walker, and her husband noted that she could get into a vehicle with his assistance. RightSite physician recommended, and the patient agreed, to an urgent care appointment for further in-person assessment of her wrist and possible X-ray. RightSite Navigator scheduled a UC appointment and a rideshare to the UC appointment. **RightSite Navigator called back JFRD dispatch to close the loop within 20 minutes of the initial call.**

After sending her the Lyft ride and the driver canceling, the navigator called back the patient, and her daughter answered and stated that the patient was in a wheelchair and was having issues getting in the car. Now, the patient didn't want to get in the Lyft because she was scared she would fall down and hurt herself, so they requested an Ambulance to the ER. **RightSite Navigator called back at 12:41 PM ET (3 hours after the initial call) to escalate to JFRD Dispatch.**

Please let us know if you have any concerns or need additional details. Mene can discuss this case further during the CQI call on Thursday if needed.

Since our last CQI meeting, we've received 9 JFRD calls (four field and five dispatch) with the following patient outcomes:

- 1 dispatch patient sent back as Requested EMS Response
- 3 patients sent to ER in a rideshare (2 field, 1 dispatch)
- 1 dispatch patient refused
- 4 patients treated via RightSite Telehealth (2 field, 2 dispatch)

Please let me know if you can join the upcoming call on 1/16 at 2 PM ET or if you'd prefer to skip this week.

Please let me know your preference.

Hello Dr. Elais,

Thanks for confirming; I have rescheduled the meeting for this week and have sent the updated meeting invite for 2:30 P.M. ET.

Talk to you all on Thursday.

Regards,
Swati

Since our last CQI meeting, we've received 9 JFRD calls (four field and five dispatch) with the following patient outcomes:

- 1 dispatch patient sent back as Requested EMS Response
- 3 patients sent to ER in a rideshare (2 field, 1 dispatch)
- 1 dispatch patient refused
- 4 patients treated via RightSite Telehealth (2 field, 2 dispatch)

Please let me know if you can join the upcoming call on 1/16 at 2 PM ET or if you'd prefer to skip this week.

Please let me know your preference.

Sadly, there is another JFRD funeral tomorrow.

Let's just meet again on the scheduled Feb 13th call.

Brad

Hello Chief Marx and Dr. Elias,

Thanks for letting me know, I will cancel the CQI call for Thursday.

I am attaching a draft of the Dispatch implementation plan and we would like to schedule a call with you and your team to review it and also add tentative dates to the timeline. Please let me know if any of the below days/times work for you all during the week of 11/11, and I will schedule a 45-minute meeting.

11/11, Monday: 12 - 2 PM EST

11/12, Tuesday: 1 - 3 PM EST

11/13, Wednesday: 1 - 2 PM EST

Thanks,

Swati

> Good Morning Dr. Elias and Chief Marx,

We've received three JFRD calls since our last CQI meeting. Please let me know if you'll be able to join the upcoming CQI call on 11/7 at 2 PM ET, or if you'd prefer to skip this week.

We're also finalizing the JFRD dispatch implementation plan. If the team is available for Thursday's call, we can review it together; otherwise, we can schedule a separate session to go over it in detail.

Please let me know your preference.

Hello Chief Marx and Dr. Elias,

Thanks for letting me know, I will cancel the CQI call for Thursday.

I am attaching a draft of the Dispatch implementation plan and we would like to schedule a call with you and your team to review it and also add tentative dates to the timeline. Please let me know if any of the below days/times work for you all during the week of 11/11, and I will schedule a 45-minute meeting.

11/11, Monday: 12 - 2 PM EST

11/12, Tuesday: 1 - 3 PM EST

11/13, Wednesday: 1 - 2 PM EST

Thanks,

Swati

> Good Morning Dr. Elias and Chief Marx,

We've received three JFRD calls since our last CQI meeting. Please let me know if you'll be able to join the upcoming CQI call on 11/7 at 2 PM ET, or if you'd prefer to skip this week.

We're also finalizing the JFRD dispatch implementation plan. If the team is available for Thursday's call, we can review it together; otherwise, we can schedule a separate session to go over it in detail.

Please let me know your preference.

Thanks,

Swati

Hello Chief Marx and Dr. Elias,

Thanks for letting me know, I will cancel the CQI call for Thursday.

I am attaching a draft of the Dispatch implementation plan and we would like to schedule a call with you and your team to review it and also add tentative dates to the timeline. Please let me know if any of the below days/times work for you all during the week of 11/11, and I will schedule a 45-minute meeting.

11/11, Monday: 12 - 2 PM EST

11/12, Tuesday: 1 - 3 PM EST

11/13, Wednesday: 1 - 2 PM EST

Thanks,

Swati

Good Morning Dr. Elias and Chief Marx,

We've received three JFRD calls since our last CQI meeting. Please let me know if you'll be able to join the upcoming CQI call on 11/7 at 2 PM ET, or if you'd prefer to skip this week.

We're also finalizing the JFRD dispatch implementation plan. If the team is available for Thursday's call, we can review it together; otherwise, we can schedule a separate session to go over it in detail.

Please let me know your preference.

Thanks,
Swati

Hello Dr. Elias and Chief Marx,

Happy Friday!

We have a request: Could we please reschedule our meeting on the 12th to 1:30 p.m. ET instead of 1:00 p.m. to review the dispatch implementation plan? Please let me know if that works for you all.

Regards,
Swati

Hello Chief Marx and Dr. Elias,

Thanks for letting me know, I will cancel the CQI call for Thursday.

I am attaching a draft of the Dispatch implementation plan and we would like to schedule a call with you and your team to review it and also add tentative dates to the timeline. Please let me know if any of the below days/times work for you all during the week of 11/11, and I will schedule a 45-minute meeting.

11/11, Monday: 12 - 2 PM EST

11/12, Tuesday: 1 - 3 PM EST

11/13, Wednesday: 1 - 2 PM EST

Thanks,

Swati

> Hello Chief Marx and Dr. Elias,

Thanks for letting me know, I will cancel the CQI call for Thursday.

I am attaching a draft of the Dispatch implementation plan and we would like to schedule a call with you and your team to review it and also add tentative dates to the timeline. Please let me know if any of the below days/times work for you all during the week of 11/11, and I will schedule a 45-minute meeting.

11/11, Monday: 12 - 2 PM EST

11/12, Tuesday: 1 - 3 PM EST

11/13, Wednesday: 1 - 2 PM EST

Thanks,

Swati

Good Morning Dr. Elias and Chief Marx,

We've received three JFRD calls since our last CQI meeting. Please let me know if you'll be able to join the upcoming CQI call on 11/7 at 2 PM ET, or if you'd prefer to skip this week.

We're also finalizing the JFRD dispatch implementation plan. If the team is available for Thursday's call, we can review it together; otherwise, we can schedule a separate session to go over it in detail.

Please let me know your preference.

Thanks,

Swati

Hello Chief Marx and Dr. Elias,

Thanks for letting me know, I will cancel the CQI call for Thursday.

I am attaching a draft of the Dispatch implementation plan and we would like to schedule a call with you and your team to review it and also add tentative dates to the timeline. Please let me know if any of the below days/times work for you all during the week of 11/11, and I will schedule a 45-minute meeting.

11/11, Monday: 12 - 2 PM EST

11/12, Tuesday: 1 - 3 PM EST

11/13, Wednesday: 1 - 2 PM EST

Thanks,

Swati

Hello Chief Marx and Dr. Elias,

Thanks for letting me know, I will cancel the CQI call for Thursday.

I am attaching a draft of the Dispatch implementation plan and we would like to schedule a call with you and your team to review it and also add tentative dates to the timeline. Please let me know if any of the below days/times work for you all during the week of 11/11, and I will schedule a 45-minute meeting.

11/11, Monday: 12 - 2 PM EST

11/12, Tuesday: 1 - 3 PM EST

11/13, Wednesday: 1 - 2 PM EST

Thanks,

Swati

> Good Morning Dr. Elias and Chief Marx,

We've received three JFRD calls since our last CQI meeting. Please let me know if you'll be able to join the upcoming CQI call on 11/7 at 2 PM ET, or if you'd prefer to skip this week.

We're also finalizing the JFRD dispatch implementation plan. If the team is available for Thursday's call, we can review it together; otherwise, we can schedule a separate session to go over it in detail.

Please let me know your preference.

Thanks,

Swati

Hello Chief Marx and Dr. Elias,

Thanks for letting me know, I will cancel the CQI call for Thursday.

I am attaching a draft of the Dispatch implementation plan and we would like to schedule a call with you and your team to review it and also add tentative dates to the timeline. Please let me know if any of the below days/times work for you all during the week of 11/11, and I will schedule a 45-minute meeting.

11/11, Monday: 12 - 2 PM EST

11/12, Tuesday: 1 - 3 PM EST

11/13, Wednesday: 1 - 2 PM EST

Thanks,

Swati

We're also finalizing the JFRD dispatch implementation plan. If the team is available for Thursday's call, we can review it together; otherwise, we can schedule a separate session to go over it in detail.

Please let me know your preference.

Thanks,

Swati

We've received three JFRD calls since our last CQI meeting. Please let me know if you'll be able to join the upcoming CQI call on 11/7 at 2 PM ET, or if you'd prefer to skip this week.

We're also finalizing the JFRD dispatch implementation plan. If the team is available for Thursday's call, we can review it together; otherwise, we can schedule a separate session to go over it in detail.

Please let me know your preference.

Hello Chief Marx,

We have the CQI call at 2 p.m. ET, and we can discuss the training plan right after we finish reviewing the four cases. I hope it works for you.

Thanks,
Swati
