Hello Chief Marx,

We have the CQI call at 2 p.m. ET, and we can discuss the training plan right after we finish reviewing the four cases. I hope it works for you.

Thanks,
Swati

Hello Dr. Elias,

Since March 27th, we have had 3 dispatch and 3 field activations. 50% of patients were RightSite Addressed (Ambulance did not roll to ER):

1. Two patients (1 field and 1 dispatch) were treated via Urgent care appointment
2. One field patient went to ER in an ambulance
3. One field patient was sent to ER in non-emergency transport
4. Two dispatch patients were sent back to JFRD (Requested EMS Response)

Please let me know if you can join the upcoming call on 4/10 at 2 PM ET or if you'd prefer to skip this week.

Please let me know your preference.

Thanks,

Swati

Hello Dr. Elias,

Since May 19th, we have had two dispatch and three field activations. **100% of patients were RightSite Addressed (ambulance did not roll to ER)**:

- Two field patients treated via telehealth
- One field and one dispatch patients were sent to UCC for follow-up
- One dispatch patient was sent to the ER in non-emergency transport

Please let me know if you can join the upcoming call on 6/5 at 2 PM ET or if you'd prefer to skip this week.

Please let me know your preference.

Hello Dr. Elias,

Since May 5th, we have had one dispatch and two field activations. 100% of patients were RightSite Addressed (ambulance did not roll to ER):

- One field patient treated via telehealth
- One field patient was sent to ER in non-emergency transport
- One dispatch patient was sent to ER in non-emergency transport

Please let me know if you can join the upcoming call on 5/22 at 2 PM ET or if you'd prefer to skip this week.

Please let me know your preference.

Dr. Elias,

It was great to meet you on our call last week. I look forward to growing our volume of calls in Jacksonville so that we can make a substantial impact on health outcomes and resource utilization in your city.

Below is my contact info. Looking forward to working together to closing healthcare gaps in Jacksonville.

Best,
Natasha

Chip,

After talking with a few dispatchers, they seem a little uncertain about the Alpha and Omega call types for the different protocols. We'll need to conduct some training to help people feel comfortable. Since we are still pre-alerting

Good afternoon,

Thanks again for taking the time to meet with Bryan and myself in Jacksonville over the last couple of days. I thought the conversations were really productive, and I'm excited about where we're headed together.

I know you guys have a few things to work on internally this week, and the goal is to start putting the plan into action next week. We didn't lock in a date, but I told our Care Team we'd likely see volume start to pick up on Monday, August 18. If that's off, just let me know so I can update everyone.

In the meantime, I'll connect with our Partner Success team and put together a plan to re-engage field personnel. I'm hoping we can carve out a few minutes in Thursday's meeting to talk about next steps for the field.

expansion.

I’m available to meet in person on Monday, August 11th, and also have time on Tuesday and Wednesday if we need a little more time or if it would be helpful to engage with others.

I’ve got some flexibility that week, so if the 11th isn’t ideal, feel free to suggest another date that works better for you.

Let me know what works best, and I'll get it on the calendar.

Best,

Chip

Chief Marx and Dr. Elias,

Thanks again for taking the time to meet with us last week to talk through the RightSite expansion.

I'm available to meet in person on Monday, August 11th, and also have time on Tuesday and Wednesday if we need a little more time or if it would be helpful to engage with others.

I've got some flexibility that week, so if the 11th isn't ideal, feel free to suggest another date that works better for you.

Let me know what works best, and I'll get it on the calendar.

Best,

Chip

> Hello Chief Marx and Dr. Elias,

Thank you for taking the time yesterday to discuss the RightSite expansion. We sincerely appreciate your collaboration and leadership as we move this work forward.

As a follow-up, I've attached the proposed action plan, including the recommended EMD codes for RightSite in Dispatch and the leaderboard. (Lt. James Davis is by far the top user of RightSite).

Chip and other team members plan to be in Jacksonville on August 11. They will be available over the next few days to meet in person, review the plan, make any necessary updates, and support the next steps across dispatch and field operations.

Please let us know if you require any further information. Have a great weekend!

Regards,
Swati

Good afternoon,

Thanks again for taking the time to meet with Bryan and myself in Jacksonville over the last couple of days. I thought the conversations were really productive, and I'm excited about where we're headed together.

I know you guys have a few things to work on internally this week, and the goal is to start putting the plan into action next week. We didn't lock in a date, but I told our Care Team we'd likely see volume start to pick up on Monday, August 18. If that's off, just let me know so I can update everyone.

In the meantime, I'll connect with our Partner Success team and put together a plan to re-engage field personnel. I'm hoping we can carve out a few minutes in Thursday's meeting to talk about next steps for the field.

Chief Marx and Dr. Elias,

Thanks again for taking the time to meet with us last week to talk through the RightSite expansion.

I'm available to meet in person on Monday, August 11th, and also have time on Tuesday and Wednesday if we need a little more time or if it would be helpful to engage with others.

I've got some flexibility that week, so if the 11th isn't ideal, feel free to suggest another date that works better for you.

Let me know what works best, and I'll get it on the calendar.

Best,

Chip

Chip and other team members plan to be in Jacksonville on August 11. They will be available over the next few days to meet in person, review the plan, make any necessary updates, and support the next steps across dispatch and field operations.

Please let us know if you require any further information. Have a great weekend!

I have looked at those recommended EMD codes and believe we can adopt them for JFRD. There were just a few questions I had about some of them, mostly logistical. We can discuss them next Tuesday and hopefully be able to include Natasha remotely.

Hello Chief Marx and Dr. Elias,

Thank you for taking the time yesterday to discuss the RightSite expansion. We sincerely appreciate your collaboration and leadership as we move this work forward.

As a follow-up, I've attached the proposed action plan, including the recommended EMD codes for RightSite in Dispatch and the leaderboard. (Lt. James Davis is by far the top user of RightSite).

Chip and other team members plan to be in Jacksonville on August 11. They will be available over the next few days to meet in person, review the plan, make any necessary updates, and support the next steps across dispatch and field operations.

Please let us know if you require any further information. Have a great weekend!

Chip,

Are you able to meet in the morning of 8/12 around 0900? Dr. Elias and I have a hospital meeting at 11:30 and would need to leave around 11. I'll check with our new chiefs in administration and see if they would like to meet with you as well. Dr. Elias and I have been reviewing the determinant codes list that was sent and will be prepared to discuss those at our meeting. Please let me know if you think we'll need more than 2 hours and.

Chief Marx and Dr. Elias,

Thanks again for taking the time to meet with us last week to talk through the RightSite expansion.

I'm available to meet in person on Monday, August 11th, and also have time on Tuesday and Wednesday if we need a little more time or if it would be helpful to engage with others.

I've got some flexibility that week, so if the 11th isn't ideal, feel free to suggest another date that works better for you.

Let me know what works best, and I'll get it on the calendar.

Best,

Chip

Team,

I am wide open on the 12th, except between 11-1. The morning meeting will be productive, and if you want to visit stations, or just continue the discussion in the afternoon, let me know.

Brad Elias, M.D.
Medical Director
Jacksonville Fire Rescue Department
515 N. Julia Street
Jacksonville, Fl

Chip,

Are you able to meet in the morning of 8/12 around 0900? Dr. Elias and I have a hospital meeting at 11:30 and would need to leave around 11. I'll check with our new chiefs in administration and see if they would like to meet with you as well. Dr. Elias and I have been reviewing the determinant codes list that was sent and will be prepared to discuss those at our meeting. Please let me know if you think we'll need more than 2 hours and.

Best Regards,

J. Brien Marx
Asst. Chief of Communications &
Special Projects

Chief Marx and Dr. Elias,

Thanks again for taking the time to meet with us last week to talk through the RightSite expansion.

I'm available to meet in person on Monday, August 11th, and also have time on Tuesday and Wednesday if we need a little more time or if it would be helpful to engage with others.

I've got some flexibility that week, so if the 11th isn't ideal, feel free to suggest another date that works better for you.

Let me know what works best, and I'll get it on the calendar.

Best,

Chip

> Chief Marx and Dr. Elias,

Thanks again for taking the time to meet with us last week to talk through the RightSite expansion.

I'm available to meet in person on Monday, August 11th, and also have time on Tuesday and Wednesday if we need a little more time or if it would be helpful to engage with others.

I've got some flexibility that week, so if the 11th isn't ideal, feel free to suggest another date that works better for you.

Let me know what works best, and I'll get it on the calendar.

Best,

Chip

Dr. Elias and Chief Marx,

I'll be there for the meeting and I look forward to it. Happy to answer any questions you have so we can work together to make sure this is a successful roll out. Have a great week.

Best,
Natasha

Chief Marx and Dr. Elias,

We are available on the 12th at 0900 and look forward to the conversation. We are open to continuing the discussion in the afternoon or heading out into the field if that works for you. Either option is fine.

Spending some time in the comm center would also be valuable if we can include that in our time in Jacksonville. We can be available on Monday August 11th, or Wednesday August 13th to observe comm center operations if that works for you and your team.

I'll go ahead and send a calendar invite out to the group for Tuesday shortly. Please confirm 515 N. Julia Street is the meeting location.

Best,
Chip

Chief Marx and Dr. Elias,

Thanks again for taking the time to meet with us last week to talk through the RightSite expansion.

I'm available to meet in person on Monday, August 11th, and also have time on Tuesday and Wednesday if we need a little more time or if it would be helpful to engage with others.

I've got some flexibility that week, so if the 11th isn't ideal, feel free to suggest another date that works better for you.

Let me know what works best, and I'll get it on the calendar.

Best,

Chip

Chip,

After talking with a few dispatchers, they seem a little uncertain about the Alpha and Omega call types for the different protocols. We'll need to conduct some training to help them feel comfortable. We have a couple of people who do not pre-alert for testing purposes. I've talked with 2 of them to explain the new additions and they are comfortable with them. The process may be a little slower than expected.

Good afternoon,

Thanks again for taking the time to meet with Bryan and myself in Jacksonville over the last couple of days. I thought the conversations were really productive, and I'm excited about where we're headed together.

I know you guys have a few things to work on internally this week, and the goal is to start putting the plan into action next week. We didn't lock in a date, but I told our Care Team we'd likely see volume start to pick up on Monday, August 18. If that's off, just let me know so I can update everyone.

In the meantime, I'll connect with our Partner Success team and put together a plan to re-engage field personnel. I'm hoping we can carve out a few minutes in Thursday's meeting to talk about next steps for the field.

Good morning,

I know we're meeting at 515 Julia St. tomorrow, but I wanted to confirm if that's also the address for the communications center. Bryan and I are planning to arrive at 1300 today. If the address is different, please let me know.

Good morning Swati,
We are set to begin. I'm not sure how quickly the assigned rescue units will start out of the gates, I'm certain it will be a slow transition at first. I will be in touch with you periodically. We look forward to seeing how the community responds to your services.

Good morning,

Here is the list of situations where we do not require transport:

Non-transport situations

The following situations will not require transportation of the patient to the hospital by Rescue:
(Complete signed AMA or non-emergency/non-transport refusal when appropriate).

- Situations where no emergency exists
- Injuries of a superficial or minor nature
- Situations where transport would endanger the safety of rescue crew members
- Patients, otherwise stable, who require transport to a mental health resource or Detox facility
- Situations where patient requests private provider or private vehicle transportation
- DOS victims will not be transported
- Patients who refuse transport

I will get you the names of the urgent cares later today.

Thx

Hello Chief,

Thank you very much for your and your team's time today! Your team was very engaged and seemed eager to try RightSite services.

Please let me know if we did not answer any of the questions or if you need details on anything that we did not cover today. Also, please let me know if there is anything you would like us to change/add for Day 2/Day 3 training, your feedback is very valuable to us!

Couple of things:

1. Can you please send me a list of conditions when EMS declines transport, a few were mentioned on the call today, but if you have a list, it will be helpful for us to be aware of.
2. It was mentioned that in certain rescue unit areas, there are some preferred urgent care/care providers that your crew works with, can you please send me that information? I want to make sure we utilize your crew's experience to provide best care to the patients.

Thanks again for your help! We are looking forward to this partnership!

Regards,
Swati

- Situations where patient requests private provider or private vehicle transportation
- DOS victims will not be transported
- Patients who refuse transport

I will get you the names of the urgent cares later today.

Swati,

Thank You! This will be very useful. I only need to data per month, so hopefully this will make it a little easier on your end.

Dispatch is fine. FRCC is just a habit for me. Fire Rescue Communication Center.

Good Morning Chief,

Yes, I can provide a summary report with separate charts for field and dispatch. Additionally, I will also provide a case-level report with incident numbers for dispatch activations. I will work on this today and send you the reports ASAP.

One question: Do you prefer to have "FRCC" on the dashboard rather than "Dispatch"? And, please pardon my ignorance, what is the full form of FRCC? Please let me know.

On Wed, Feb 12, 2025 at 8:26 AM Marx, James - FRRS <JMarx@coj.net> wrote:

Good morning,

Would it be possible for you to start providing the data for monthly totals like you have it in the attachment? We would need the data separated between field activations, FRCC activations and to include the JFRD Incident Number? This will allow us to validate CAD and we'll be able to compare the numbers to our data. The calls that are generated from FRCC does not generate a report which makes it difficult to find the calls that we send to RS. Only limited people have access the ProQA to run that data as well. This will make our life so much easier!

FYI: I'm going to be out of town tomorrow but will try to logon to the meeting.

Hello Everyone,

Please see the attached JFRD reports and slide deck with patient details through 3/20/2024.

1. **JFRD-totals-2024.03.20.pdf**
2. **JFRD-positive-outcomes-dashboard-2024-03-20.pdf -** Positive outcomes dashboard with EMS crew outcomes analysis
3. **JFRD Weekly Meeting slide deck-2024-03-22.pdf**

Agenda for tomorrow's call:

- Review last week's numbers
- Brainstorm ideas to increase adoption

Have a nice evening!

Regards,
Swati

Hello Chief,

Here is the JFRD Dashboard and list of cases from dispatch. The case-level report has all the cases until 1/31/2025. I will send these monthly with the prior month's data at the start of the new month. Please let me know if you need any additional information.

Thanks,
Swati

Good Morning Chief,

Yes, I can provide a summary report with separate charts for field and dispatch. Additionally, I will also provide a case-level report with incident numbers for dispatch activations. I will work on this today and send you the reports ASAP.

One question: Do you prefer to have "FRCC" on the dashboard rather than "Dispatch"? And, please pardon my ignorance, what is the full form of FRCC? Please let me know.

> Good morning,
>
> Would it be possible for you to start providing the data for monthly totals like you have it in the attachment? We would need the data separated between field activations, FRCC activations and to include the JFRD Incident Number? This will allow us to validate CAD and we'll be able to compare the numbers to our data. The calls that are generated from FRCC does not generate a

report which makes it difficult to find the calls that we send to RS. Only limited people have access the ProQA to run that data as well. This will make our life so much easier!

FYI: I'm going to be out of town tomorrow but will try to logon to the meeting.

Swati,

I found a few discrepancies with the incident numbers that are highlighted in yellow. I've listed what the discrepancy is as well. Could you please review the incident numbers and let me know what you find. I am hoping it's a typo or something simple.

Thank You,

Brien

Hello Chief,

Here is the list of incident numbers for 14 dispatch calls since inception. For one refusal, we did not capture the incident #.

165381: This call was in Nov. and JFRD transported
177019
177737
177797: JFRD transported
179241
179415
180003
181075
181081
656: JFRD transported
2765
3933
4402
6079: CAD notes state that R/S contacted, but EMS response was requested. It doesn't say if the caller or R.S. requested EMS response.

I will send you details about the new functionality for the field soon.

Hello Chief,

Here are my updates on the four discrepancies:

165381: This call was in Nov. and JFRD transported: Yes, this call was in Nov by Matt (our first call), and the patient outcome on our side was "Requested EMS Response", so the outcome on your side is accurate
177797: JFRD transported: Correct; patient outcome on our side was "Requested EMS Response," so the outcome on your side is accurate
656: JFRD transported: This was a patient refusal on our side (they refused RS Telehealth), so the outcome on your side is accurate
6079: CAD notes state that R/S contacted, but EMS response was requested. It doesn't say if the caller or R.S. requested EMS response: RightSite Requested an EMS Response after the doctor's evaluation of the patient's condition

Please let me know if you have any additional questions or need additional information.

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good morning Sheri and Happy Monday…!
Bobby Stein has requested a meeting with Karen, Chief Powers, Dr. Jamo Rubin, and himself hoping for the week of the Nov. 20th.

Dr. Rubin owns RightSite Health, a 9-1-1 telehealth provider currently in use with JFRD and other departments across the country.
Bobby wants to make an introduction and allow Chief Powers and Jamo the opportunity to explain the benefits and functionality of the program and how it aligns with the Mayor's community health priorities.

I've copied Jamo and Andrea, who can help align their (Bobby & Jamo) calendars.
I do not need to be in the meeting, rather I'm just helping connect the group while Chief Powers is out.

Thank you ma’am,

Kurtis Wilson

Sheri,

Thank you. As we coordinated, Bobby had a 2-2:30 pm critical meeting scheduled for November 21st, so I'm hopeful everyone will be able to accommodate a time after 2:30 pm EST.

Much appreciation to everyone.

Good morning Sheri and Happy Monday…!
Bobby Stein has requested a meeting with Karen, Chief Powers, Dr. Jamo Rubin, and himself hoping for the week of the Nov. 20th.

Dr. Rubin owns RightSite Health, a 9-1-1 telehealth provider currently in use with JFRD and other departments across the country.
Bobby wants to make an introduction and allow Chief Powers and Jamo the opportunity to explain the benefits and functionality of the program and how it aligns with the Mayor's

community health priorities.

I've copied Jamo and Andrea, who can help align their (Bobby & Jamo) calendars.
I do not need to be in the meeting, rather I'm just helping connect the group while Chief Powers is out.

Thank you ma'am,

Kurtis Wilson

You don't often get email from sheriw@coj.net. Learn why this is important

Caution: This is an external email and may be malicious. Please take care when clicking links or opening attachments.

Kurt—Karen has a lot of flexibility on the afternoon of Tues., 11/21, after 1:30 pm. She has asked that Executive Director of Health Programs Lynn Sherman be included as she works closely with our Chief Health Officer. Also copied is Tina Thompson for assistance with Chief Powers' calendar.

Please let me know what time Dr. Rubin and Mr. Stein prefer.

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good morning Sheri and Happy Monday…!
Bobby Stein has requested a meeting with Karen, Chief Powers, Dr. Jamo Rubin, and himself hoping for the week of the Nov. 20th.

Dr. Rubin owns RightSite Health, a 9-1-1 telehealth provider currently in use with JFRD and other departments across the country. Bobby wants to make an introduction and allow Chief Powers and Jamo the opportunity to explain the benefits and functionality of the program and how it aligns with the Mayor's community health priorities.

I've copied Jamo and Andrea, who can help align their (Bobby & Jamo) calendars.
I do not need to be in the meeting, rather I'm just helping connect the group while Chief Powers is out.

Thank you ma'am,
Kurtis Wilson

Good morning Sheri and Happy Monday…!
Bobby Stein has requested a meeting with Karen, Chief Powers, Dr. Jamo Rubin, and himself hoping for the week of the Nov. 20th.

Dr. Rubin owns RightSite Health, a 9-1-1 telehealth provider currently in use with JFRD and other departments across the country.
Bobby wants to make an introduction and allow Chief Powers and Jamo the opportunity to explain the benefits and functionality of the program and how it aligns with the Mayor's community health priorities.

I've copied Jamo and Andrea, who can help align their (Bobby & Jamo) calendars.
I do not need to be in the meeting, rather I'm just helping connect the group while Chief Powers is out.

Thank you ma’am,

Kurtis Wilson

Hi Sheri,

Jamo Rubin has confirmed to me that he's also available **2:45-3:45 on Nov 21st** which is now the earliest for Bobby. I believe this timing works for everyone.

Thank you for your patience while we coordinated.

Best,
Andrea

Hello Dr. Elias,

Perfect timing! I was in the process of identifying the cases for this week's call. Since our last call (2/13), we have had five dispatch activations. 100% of patients were RightSite Addressed (Ambulance did not roll):

1. Three patients were treated via Telehealth
2. Two patients were sent to ER - No ambulance

Please let me know if you'd prefer to skip Thursday's meeting and meet in two weeks, or if we should proceed with the meeting.

Thanks,
Swati

Thank you so much Lynn for getting us all together to explore how we all can collaborate together to help the Jacksonville community.

Jenny/Lynn - Will it be ok for us to meet remotely some time before the holidays to understand the referral model of JAX Care Connect that you mentioned today, so I can do some pre-work of mapping out workflows before our in-person meeting? Please let me know your thoughts.

I will send out RightSite's availability for in-person meeting in January soon so we all can plan accordingly.

Looking forward to working together with you all on this initiative.

Regards,
Swati

Hello Dr. Joshi,

Yes will do...I will include everyone on this email chain

I apologize, I didn't mean to exclude anyone and was just trying to be cognizant about everyone's time. So sorry about that.

Will send out some options today for the session.

Regards,
Swati

Good Morning Jenny,

Happy Friday! Thank you for meeting with me to help understand the process for referrals and intake at JaxCareConnect. I will work with you to schedule time before 12/20.

Have a great day everyone!

Regards,
Swati

Good Morning Jenny,

Happy Friday! Thank you for meeting with me to help understand the process for referrals and intake at JaxCareConnect. I will work with you to schedule time before 12/20.

Have a great day everyone!

Regards,

Swati

Hello All,

It was a pleasure to meet you all today and it was nice to see Chief Blanton and Dr. Elias again.

Thank you so much Lynn for getting us all together to explore how we all can collaborate together to help the Jacksonville community.

Jenny/Lynn - Will it be ok for us to meet remotely some time before the holidays to understand the referral model of JAX Care Connect that you mentioned today, so I can do some pre-work of mapping out workflows before our in-person meeting? Please let me know your thoughts.

I will send out RightSite's availability for in-person meeting in January soon so we all can plan accordingly.

Looking forward to working together with you all on this initiative.

Regards,

Swati

Hello All,

It was a pleasure to meet you all today and it was nice to see Chief Blanton and Dr. Elias again.

Thank you so much Lynn for getting us all together to explore how we all can collaborate together to help the Jacksonville community.

Jenny/Lynn - Will it be ok for us to meet remotely some time before the holidays to understand the referral model of JAX Care Connect that you mentioned today, so I can do some pre-work of mapping out workflows before our in-person meeting? Please let me know your thoughts.

I will send out RightSite's availability for in-person meeting in January soon so we all can plan accordingly.

Looking forward to working together with you all on this initiative.

Regards,

Swati

Hello All,

It was a pleasure to meet you all today and it was nice to see Chief Blanton and Dr. Elias again.

Thank you so much Lynn for getting us all together to explore how we all can collaborate together to help the Jacksonville community.

Jenny/Lynn - Will it be ok for us to meet remotely some time before the holidays to understand the referral model of JAX Care Connect that you mentioned today, so I can do some pre-work of mapping out workflows before our in-person meeting? Please let me know your thoughts.

I will send out RightSite's availability for in-person meeting in January soon so we all can plan accordingly.

Looking forward to working together with you all on this initiative.

Regards,

Swati

Hello All,

It was a pleasure to meet you all today and it was nice to see Chief Blanton and Dr. Elias again.

Thank you so much Lynn for getting us all together to explore how we all can collaborate together to help the Jacksonville community.

Jenny/Lynn - Will it be ok for us to meet remotely some time before the holidays to understand the referral model of JAX Care Connect that you mentioned today, so I can do some pre-work of mapping out workflows before our in-person meeting? Please let me know your thoughts.

I will send out RightSite's availability for in-person meeting in January soon so we all can plan accordingly.

Looking forward to working together with you all on this initiative.

Regards,
Swati

As we prepare on our side, I have a few questions:

- It would be helpful to learn more about Sunil and Angel. Can you point me to a LinkedIn or other bio page?
  https://www.linkedin.com/in/sunil-joshi-988406119/
  https://www.linkedin.com/in/angelastrain/
  https://www.linkedin.com/in/jenny-o-donnell-nefl/

- What points do you think would be most helpful for us to cover?
  They would be most interested in how your program works.

- Should we include someone from JFRD if they are available?
  Yes! I will send the invite to Chief Powers also.

Thanks,

Jamo

Subject: Meeting with RiteSite Telehealth for Non-Emergency Patients
When: Thursday, December 7, 2023 12:30 PM-1:30 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Microsoft Teams Meeting

Angel, Jenny, and Jamo,

Thank you for agreeing to have a virtual conversation about RiteSite and possible engagement.

Sunil and I are looking forward to it. I've attached a slide deck for you to look over before the meeting.

Thanks,

Lynn

Lynn,

We are looking froward to this and thank you for gathering this group.

As we prepare on our side, I have a few questions:

- It would be helpful to learn more about Sunil and Angel. Can you point me to a LinkedIn or other bio page?
- What points do you think would be most helpful for us to cover?
- Should we include someone from JFRD if they are available?

Thanks,

Jamo

Lynn,

We are looking froward to this and thank you for gathering this group.

As we prepare on our side, I have a few questions:

- It would be helpful to learn more about Sunil and Angel. Can you point me to a LinkedIn or other bio page?

https://www.linkedin.com/in/sunil-joshi-988406119/
https://www.linkedin.com/in/angelastrain/
https://www.linkedin.com/in/jenny-o-donnell-nefl/

- What points do you think would be most helpful for us to cover?
  They would be most interested in how your program works.
- Should we include someone from JFRD if they are available?
  Yes! I will send the invite to Chief Powers also.

Thanks,

Jamo

Hello Dr. Joshi,

Yes will do...I will include everyone on this email chain

I apologize, I didn't mean to exclude anyone and was just trying to be cognizant about everyone's time. So sorry about that.

Will send out some options today for the session.

Regards,
Swati

Hello All,

It was a pleasure to meet you all today and it was nice to see Chief Blanton and Dr. Elias again.

Thank you so much Lynn for getting us all together to explore how we all can collaborate together to help the Jacksonville community.

Jenny/Lynn - Will it be ok for us to meet remotely some time before the holidays to understand the referral model of JAX Care Connect that you mentioned today, so I can do some pre-work of mapping out workflows before our in-person meeting? Please let me know your thoughts.

I will send out RightSite's availability for in-person meeting in January soon so we all can plan accordingly.

Looking forward to working together with you all on this initiative.

Good Morning Dr. Elias,

Thanks for sharing your availability. We already have a CQI call scheduled for Thursday, July 31st at 2 PM ET; can we use that time to discuss RightSite utilization instead?

Please let me know if that still works for you, and I will add a couple more folks from the RightSite team.

Thanks,

Swati

Hi Brad,

Yes, we're eager to visit with you about expanding access to RightSite. Can you suggest a few times next week that work?

Jamo

Hi Dr Elias,

Please hold July 30th at 1ET and I'll make sure that fits schedules on our end.

Back to you shortly,

Thank you,

Jamo

Sorry for not getting back sooner, just a few different tasks going on here this past week at headquarters.

I will check my schedule tomorrow and provide some dates and times.

We will find a way to get the utilization back up.

Hello Dr. Elias,

Jamo is okay to repurpose the CQI call this week.

I can send you the details of the two cases after our last CQI call, where we requested EMS response or the patient went to the ER via ambulance, by email, or we can discuss those cases in our next CQI call. Please let me know your thoughts.

Thanks,
Swati

Good Morning Dr. Elias,

Thanks for letting us know. I will cancel the clinical call for tomorrow as we do not have any new calls/ patients to discuss since last week.

We all can connect in the AM operations call tomorrow.

Regards,

Swati

Subject: Meetings Tomorrow

Good morning,

Couple of conflicting meetings tomorrow have developed. I will try to be on the 9am. In the afternoon I am speaking at one of our hospital's Trauma Survivors Day celebrations. We can move the clinical call to Friday morning at 9am if that works.

Brad Elias, M.D.
Medical Director
Jacksonville Fire Rescue Department

Good Morning Dr. Elias,

Thanks for letting us know. I will cancel the clinical call for tomorrow as we do not have any new calls/ patients to discuss since last week.

We all can connect in the AM operations call tomorrow.

Regards,

Swati

Jamo,

I agree we should extend the current trail period by 90 days so that JFRD can obtain a better data set to properly assess RightSite's avoidable ER visit navigation program. In an effort to increase the volume, JFRD will be expanding the number of rescue units currently evaluating the program.

Thanks,

Keith Powers

Chief Powers,

We want to request a 90-day extension to RightSite's current 90-day trial period. We don't believe there has been sufficient volume to evaluate the program's effectiveness in the current period. We believe this additional time will provide enough data to properly assess the effectiveness of RightSite's avoidable ER visit navigation program.

I hope you will support this request.

Thank you,

Jamo

Chief Powers,

We want to request a 90-day extension to RightSite's current 90-day trial period. We don't believe there has been sufficient volume to evaluate the program's effectiveness in the current period. We believe this additional time will provide enough data to properly assess the effectiveness of RightSite's avoidable ER visit navigation program.

I hope you will support this request.

Thank you,

Jamo

Mr. Rubin,

Jason Gabriel will be providing to you for your signature an updated indemnification agreement reflecting that the term of the agreement applies to any mutually agreed upon extensions. As soon as we have this executed agreement, we can begin the next trial period. I have copied Jason with this email.

Thanks so much,

Subject: RE: MoU City of Jacksonville | RightSite Health

Jamo,

I agree we should extend the current trail period by 90 days so that JFRD can obtain a better data set to properly assess RightSite's avoidable ER visit navigation program. In an effort to increase the volume, JFRD will be expanding the number of rescue units currently evaluating the program.

Thanks,

Keith Powers
Director/Fire Chief
Jacksonville Fire/Rescue Department
515 N. Julia Street
Jacksonville, Fl. 32202

Chief Powers,

We want to request a 90-day extension to RightSite's current 90-day trial period. We don't believe there has been sufficient volume to evaluate the program's effectiveness in the current period. We believe this additional time will provide enough data to properly assess the effectiveness of RightSite's avoidable ER visit navigation program.

I hope you will support this request.

Thank you,

Jamo

Chief Powers,

We want to request a 90-day extension to RightSite's current 90-day trial period. We don't believe there has been sufficient volume to evaluate the program's effectiveness in the current period. We believe this additional time will provide enough data to properly assess the effectiveness of RightSite's avoidable ER visit navigation program.

I hope you will support this request.

Thank you,

Jamo

Jamo,

I agree we should extend the current trail period by 90 days so that JFRD can obtain a better data set to properly assess RightSite's avoidable ER visit navigation program. In an effort to increase the volume, JFRD will be expanding the number of rescue units currently evaluating the program.

Mr. Rubin,

Jason Gabriel will be providing to you for your signature an updated indemnification agreement reflecting that the term of the agreement applies to any mutually agreed upon extensions. As soon as we have this executed agreement, we can begin the next trial period. I have copied Jason with this email.

Thanks so much,

Dear Chief Marx,

Great talking with you today. Attached is the updated script that we hope will provide dispatchers and field personnel with clear and respectful language to position RightSite as a reliable option for patients. The priority is to ensure the messaging is straightforward, patient-centric, and effective in fostering trust among all involved parties.

Please let me know if you have any questions or if we can help with any training on the scripting.

Thanks!

Stacey

Hello Dr. Elias,

We have a conflict at 3 pm ET on Nov 21st, but we are available at 4:30 PM ET. We can also meet on the 22nd at 11:30 AM ET.

If none of these options work for you, I can look for options the following week before Thanksgiving, or we can meet at our scheduled time in the week of 12/2.

Please let me know.

Hello Dr. Elias,

We have a conflict at 3 pm ET on Nov 21st, but we are available at 4:30 PM ET. We can also meet on the 22nd at 11:30 AM ET.

If none of these options work for you, I can look for options the following week before Thanksgiving, or we can meet at our scheduled time in the week of 12/2.

Please let me know.

Thanks,
Swati

Hi Lynn,

We're looking forward to our call tomorrow at 12:30 ET. I did want you to know that there is a chance we may have to reschedule. Our first grandbaby is due, and she's a few days late - the action could happen any minute! I'll keep you posted if good news happens but wanted to give you a heads up.

Thanks, and look forward to meeting your team.

Jamo

Hi Chief,

Palm Beach County Fire/Rescue reached out to us to learn more about RightSite and for a contact at JFRD. Would you mind if I gave them your contact info?

The person who reached out was:

Lauren Young Work, LCSW
Medical Social Work & MIH Coordinator
Palm Beach County Fire Rescue

Thank you!

Hello Brandice!

I have a quick question about your center's headsets. We talked about them a bit but I'm not finding anything similar. I should have taken a photo! Any information you can provide on the make, model, usage, etc. would be wildly helpful.

Thanks so much!

Kristeen

I think the total for the entire department - that might help us size the potential impact of the RightSite program at scale.

Thanks!

Thanks, Brien. We have a few ideas that we'll share with you after Thanksgiving.

By the way, we had a great meeting with Karen Bowling (CAO) at the Mayor's office yesterday with Keith. I'm sure he'll update you, but the highlight is that they are excited about the program and are eager for JFRD to expand the service with RightSite. What that means and how we do that is I'm sure a conversation that Keith will tee up with all of us soon.

Hope you and your family have a great Thanksgiving!

Jamo

Hi Brien,

We're doing some homework of the dispatch opportunity before we meet with you all.

Can you remind me - is the card system you all use ProQA/Priority?

Thanks!

Subject: RE: reporting and touching base
Date: Wednesday, January 31, 2024 12:45:00 PM

Weekly is fine. Unfortunately, Tuesdays seem to be a challenge for me as that appears to be when much of our critical care training is taking place.

I was able to go over the slide deck and review the runs.

Brad

Dr. Elias,

I missed seeing you on the check-in on Monday.

We have offered to meet more regularly than the weekly meetings that currently exist with the larger group. Do you still want to set that up? It can be anything that works best for you! Daily check-ins are common with our partners, and I would happily accommodate that with you if you would like.

Thanks,
Mene

Jamo,

After our meeting yesterday with Chief Blanton, Chief Guthrie, and Dr. Elias FRCC is working on a process to make this work. Are you available Tuesday, October 29th for a demo for us to show you and JFRD administration what this process will look like? We should be able to do it via google meet or in person if you choose to come. We're hoping to be able to do this around 10am.

Swati,

As we discussed on the phone the reason for the 2 missing weeks of data was due to the query errored out with the database join for the PROQA which only provided the EMD/PROQA code. I removed that database join and instead wrote a script to extract the EMD/PROQA code from a long string in the column (Pro)"QAsummary" in my initial tests it was pulling a lot of duplicates, but once I plugged the script into my query it worked a lot better resulting in only 1 duplicate each week and it wasn't necessarily a duplicate because the EMD/PROQA code was actually changed. I have rerun both of the missing weeks and you should have received them. Let me know if that is sufficient for you. Thank you very much for offering to help look at and edit my script.

> Swati,
>
> As we discussed on the phone the reason for the 2 missing weeks of data was due to the query errored out with the database join for the PROQA which only provided the EMD/PROQA code. I removed that database join and instead wrote a script to extract the EMD/PROQA code from a long string in the column (Pro)"QAsummary" in my initial tests it was pulling a lot of duplicates, but once I plugged the script into my query it worked a lot better resulting in only 1 duplicate each week and it wasn't necessarily a duplicate because the EMD/PROQA code was actually changed. I have rerun both of the missing weeks and you should have received them. Let me know if that is sufficient for you. Thank you very much for offering to help look at and edit my script.

Thanks, Michael.

I noticed that we missed this report for the dates of 9/6 to 9/19. When you have a chance, could you please send the data for those missing dates?

Thanks,

Swati

Swati,

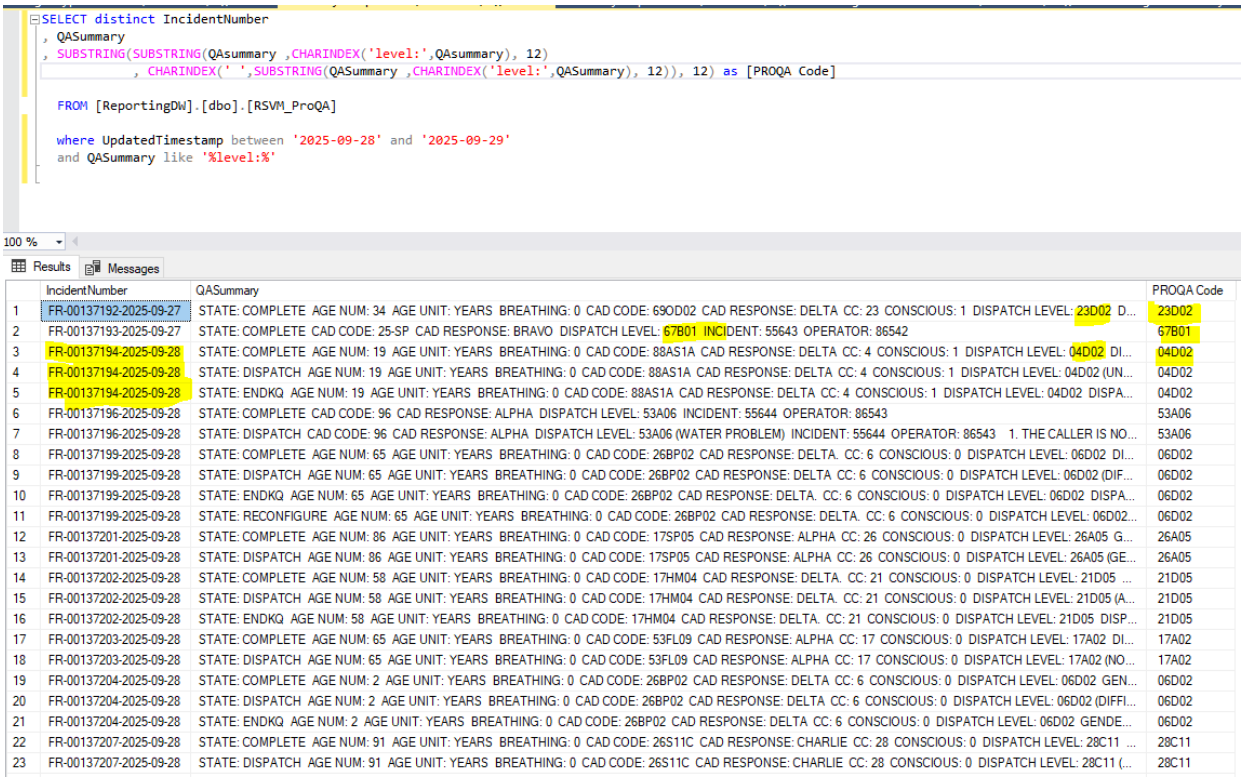
Here is the part of the query that I'm trying to get only the PROQA /EMD code called "Dispatch level:" in the QAsummary column. I managed to isolate only the 5 digit code needed but I can't seem to get only one instance so I have multiple duplicates.

```
SELECT distinct IncidentNumber
, QASummary
, SUBSTRING(SUBSTRING(QAsummary ,CHARINDEX('level:',QAsummary), 12)
                                , CHARINDEX(' ',SUBSTRING(QASummary ,CHARINDEX('level:',QASummary), 12)), 12) as
[PROQA Code]

  FROM [ReportingDW].[dbo].[RSVM_ProQA]

  where UpdatedTimestamp between '2025-09-28' and '2025-09-29'
  and QASummary like '%level:%'
```



100 %

I ran the new code and it wasn't that bad only 1 instance of a duplicate for 9/13-9/20.

Thanks for any guidance on getting rid of any duplicates.

V/r

Thanks, Michael.

I noticed that we missed this report for the dates of 9/6 to 9/19. When you have a chance, could you please send the data for those missing dates?

Thanks,
Swati

Swati,

As we discussed on the phone the reason for the 2 missing weeks of data was due to the query errored out with the database join for the PROQA which only provided the EMD/PROQA code. I removed that database join and instead wrote a script to extract the EMD/PROQA code from a long string in the column (Pro)"QAsummary" in my initial tests it was pulling a lot of duplicates, but once I plugged the script into my query it worked a lot better resulting in only 1 duplicate each week and it wasn't necessarily a duplicate because the EMD/PROQA code was actually changed. I have rerun both of the missing weeks and you should have received them. Let me know if that is sufficient for you. Thank you very much for offering to help look at and edit my script.

V/r

Swati,

Attached is our training schedule for Jan. 16th-21st. We are projecting 27 rescues over 6 days. We hope to training approximately 162 people, this is subject to change due to personnel schedules. The training will be at JFRD HQ on the 5th floor. Please let me know if you have any questions, I'm sure we'll be in contact before then.

Right Site Training.docx

Swati,

Attached is our training schedule for Jan. 16th-21st. We are projecting 27 rescues over 6 days. We hope to training approximately 162 people, this is subject to change due to personnel schedules. The training will be at JFRD HQ on the 5th floor. Please let me know if you have any questions, I'm sure we'll be in contact before then.

Kind Regards,

Brien Marx

Hi Karen –

As we discussed yesterday, wanted to get on your calendar along with Dr. Jamo Rubin to hopefully finalize discussions regarding Rightsite's EMS Telehealth partnership with JFRD/COJ.

In addition to Chief Powers it would be productive to have Dr. Brad Elias and Dr. Sunil Joshi there as well.

Could you let us know some times that you and your team are available to meet at City Hall the week of April 1? We will make ourselves available at your convenience.

Thank you so much,

-Jason G.

Hi Karen –

As we discussed yesterday, wanted to get on your calendar along with Dr. Jamo Rubin to hopefully finalize discussions regarding Rightsite's EMS Telehealth partnership with JFRD/COJ.

In addition to Chief Powers it would be productive to have Dr. Brad Elias and Dr. Sunil Joshi there as well.

Could you let us know some times that you and your team are available to meet at City Hall the week of April 1? We will make ourselves available at your convenience.

Thank you so much,

-Jason G.

Subject: RE: RightSite - Update note
Date: Friday, August 25, 2023 11:23:00 AM

Good morning,

I wanted to give you an update towards improving our progress with Right Site.

- I have trained 4 additional people this week. These individuals have been specifically selected and have all agreed to use Right Site when possible.
- I still have a couple more people to meet with that I was not able to meet with this week.
- Capt. Keeney is still reviewing all calls for the selected rescues, and he has reached out to some of the individuals as well. He also put together a folder with all documentation and information for our responders.

The 4 individuals are:
Jennifer Parramore
Corey Nail
Charmaine (Charlie) Felguth
Harry Hutchens

We did make test calls so they can see the process and know what to suspect.

If you would like to talk about anything, please let me know. I know it's short notice, but I have time this afternoon or almost anytime Monday the 28th.

Kind Regards,

Brien

Chief Marx,

Can we set up standing weekly calls to review progress, troubleshoot issues, and get feedback for improving RightSite's work? What's the best way to schedule this call, and who should we include?

On that call, we can discuss these items:

- Identify a JFRD trusted advisor (like off-duty EMS crew) that RightSite hires to circulate with the stations, answering questions and doing test calls
- Ask Dr. Elias to Include more non-emergent codes on the “good fit for RightSite” list (our medical director is contacting Dr. Elias today about this)
- Work with Captain Bernard to generate run reports we can use to measure how often EMS crews are taking advantage of RightSite when appropriate
- Sending continuous communications from the fire chief, EMS section chief, medical director, and shift supervisors to the front line about RightSite (what is it, why are we doing it, what impact will it have you as a firefighter and for the patient, and what happens to JFRD if we don’t solve for non-emergent runs)
- Changing habits is hard, and while calling RightSite might be an obvious choice, it’s still a change of routine for the EMS crews. Utilizing change management best practices will help JFRD EMS crews remember to call RightSite

Thank you for your time on this. We are convinced that our JFRD + RightSite partnership will be another “first” JFRD brings to Florida communities.

Jamo,

I talked with Chief Blanton last night and we are going to hand pick a few more officers and educate them on Right Site. Hope, this will generate more opportunity for Right Site.

- I'm not sure if we can recommend any JFRD member to become a trusted advisor with Right Site. Our ethics department would have to review this and determine if this would be acceptable.
- Dr. Elias is responsible for determining which call types he feels comfortable with for JFRD to initiate RS. He and Dr. Mene will need to work that out.
- Currently, our CAD does not have a list of codes specifically for non-emergent calls. Every medical call we respond to is in emergency status. This may be difficult to achieve. Capt. Keeney is reviewing every call that R-21, 28, 44 and 72 are responding on to determine if the patient would be a good fit for RS. Currently we've not had very many opportunities. We do not always have a trained person working in those positions. I do know that one of our officers had 2 possible opportunities, but one was on a weekend and the other was after 7pm.
- I cannot answer for Chief Blanton or Chief Powers asking them to send out continuous communication to the responders, you will need to contact them directly. I can tell you that we are doing what we can to encourage the individuals to try and use RS.

  I will look at my calendar to see if I have availability next week. I'm in the process of implementing a fire dispatch protocol and that project is very time consuming, along with other responsibilities.

Chief Marx,

Can we set up standing weekly calls to review progress, troubleshoot issues, and get feedback for improving RightSite's work? What's the best way to schedule this call, and who should we include?

On that call, we can discuss these items:

- Identify a JFRD trusted advisor (like off-duty EMS crew) that RightSite hires to circulate with the stations, answering questions and doing test calls

- Ask Dr. Elias to Include more non-emergent codes on the “good fit for RightSite” list (our medical director is contacting Dr. Elias today about this)
- Work with Captain Bernard to generate run reports we can use to measure how often EMS crews are taking advantage of RightSite when appropriate
- Sending continuous communications from the fire chief, EMS section chief, medical director, and shift supervisors to the front line about RightSite (what is it, why are we doing it, what impact will it have you as a firefighter and for the patient, and what happens to JFRD if we don’t solve for non-emergent runs)
- Changing habits is hard, and while calling RightSite might be an obvious choice, it’s still a change of routine for the EMS crews. Utilizing change management best practices will help JFRD EMS crews remember to call RightSite

Thank you for your time on this. We are convinced that our JFRD + RightSite partnership will be another “first” JFRD brings to Florida communities.

Thanks, Brien. This is great news! If you think it would be helpful for us to spend time with those 4 let me know. Spending a few minutes in a conversation with the Navigators and the ER MDs might really bring things into focus for them and how they help others begin to use the service.

How's Monday 8/28 at 9 or at 10 ET for a call?

Thanks again. Have a great weekend,

Jamo

Hello Dr. Elias!

Thanks for reaching out. Mobility is a tricky one but something we don't typically like to exclude completely. The reason for this is if we can help the patient without them having to leave their home, it's better for everyone. So, if they are not mobile but don't need transport, we are still a great option. Ultimately, we would prefer to give it a try whenever we can!

Let me know if you want to discuss it further. I appreciate your partnership!

Kristeen

Good morning -

I was considering including these two scripts after our conversation last week Chief Marx - it gives them more than one for their comfort level:

1.
2.
3. “One option we have right now is to connect you with an ER doctor immediately, without
4. waiting for transport. I’ll talk with the doctor’s assistant first, then the doctor will join you right away. Would you like to take advantage of that while it’s available?”
5.
6.
7.
8.
9.
10. “I want to make sure you get the care you need as quickly as possible. In your case,
11. a good option is for me to connect you with an ER doctor right now by video or phone. I’ll first speak with the doctor’s assistant so you don’t have to repeat yourself. What do you think about starting there?”
12.

If those sound OK to you, the cheatsheet is ready. Let me know your thoughts!

Chief Marx and Dr. Elias,

Kristeen is working on updating the "Cheat Sheets" for JFRD. The following codes are the ones I took note of during our August meeting that were flagged as not RightSite eligible. Please review and confirm.

- 2A02I
- 2A02M
- 17A01E
- 17A01G
- 17A01P
- 17A02E
- 17A02G
- 17A02P
- 17A03A
- 17A03G

If you've got an updated list of Alpha and Omega calls that are not RightSite eligible that is different from what is listed above please let me know.

Best,

Kristeen,

After looking at this a little closer we all decided that no Alpha's for protocol 2 would be acceptable. Herre is a list of our approved determinant codes for reference.

- **ALPHA Determinant Codes for protocols: 1, 3, 5, 7, 10, 11, 13, 14, 16, 19, 20, 21, 26, 27, 30,**
- **All OMEGA Determinant Codes for protocol: 26**

Sorry for the mix up!

Brien

Good morning -

I was considering including these two scripts after our conversation last week Chief Marx - it gives them more than one for their comfort level:

1.
2.
3. “One option we have right now is to connect you with an ER doctor immediately, without
4. waiting for transport. I’ll talk with the doctor’s assistant first, then the doctor will join you right away. Would you like to take advantage of that while it’s available?”
5.
6.
7.
8.
9.

10. “I want to make sure you get the care you need as quickly as possible. In your case,
11. a good option is for me to connect you with an ER doctor right now by video or phone. I’ll first speak with the doctor’s assistant so you don’t have to repeat yourself. What do you think about starting there?”
12.

If those sound OK to you, the cheatsheet is ready. Let me know your thoughts!

Chief Marx and Dr. Elias,

Kristeen is working on updating the "Cheat Sheets" for JFRD. The following codes are the ones I took note of during our August meeting that were flagged as not RightSite eligible. Please review and confirm.

- 2A02I
- 2A02M
- 17A01E
- 17A01G

17A01P
- 17A02E
- 17A02G
- 17A02P
- 17A03A
- 17A03G

If you've got an updated list of Alpha and Omega calls that are not RightSite eligible that is different from what is listed above please let me know.

Best,

Do we want to mention something about mobility challenges in the exclusion criteria for the cheat sheet?

That seems to have been an area of difficulty with some of the usage in the past.

Thank you for helping us get this project moving.

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Chief Marx and Dr. Elias,

Kristeen is working on updating the "Cheat Sheets" for JFRD. The following codes are the ones I took note of during our August meeting that were flagged as not RightSite eligible. Please review and confirm.

- 2A02I
- 2A02M
- 17A01E
- 17A01G
- 17A01P
- 17A02E
- 17A02G
- 17A02P
- 17A03A
- 17A03G

If you've got an updated list of Alpha and Omega calls that are not RightSite eligible that is different from what is listed above please let me know.

Best,

Good morning -

I was considering including these two scripts after our conversation last week Chief Marx - it gives them more than one for their comfort level:

1. "One option we have right now is to connect you with an ER doctor immediately, without waiting for transport. I'll talk with the doctor's assistant first, then the doctor will join you right away. Would you like to take advantage of that while it's available?"

2. "I want to make sure you get the care you need as quickly as possible. In your case, a good option is for me to connect you with an ER doctor right now by video or phone. I'll first speak with the doctor's assistant so you don't have to repeat yourself. What do you think about starting there?"

If those sound OK to you, the cheatsheet is ready. Let me know your thoughts!

Do we want to mention something about mobility challenges in the exclusion criteria for the cheat sheet?

That seems to have been an area of difficulty with some of the usage in the past.

Thank you for helping us get this project moving.

Chief Marx and Dr. Elias,

Kristeen is working on updating the "Cheat Sheets" for JFRD. The following codes are the ones I took note of during our August meeting that were flagged as not RightSite eligible. Please review and confirm.

- 2A02I
- 2A02M
- 17A01E
- 17A01G
- 17A01P
- 17A02E
- 17A02G
- 17A02P
- 17A03A
- 17A03G

If you've got an updated list of Alpha and Omega calls that are not RightSite eligible that is different from what is listed above please let me know.

Best,

After showing these options to our call takers, it seems like most people like different ones, but here are the 2 most popular ones:

“I can connect you with an ER doctor right now on video or phone. First, we’ll talk to the doctor’s assistant so they can get your information. Then the doctor will join right away. How does that sound to you?”

Or

“You can talk with an ER doctor right now by video or phone. First, we’ll speak with the doctor’s assistant, so the doctor has your information. What do you think about talking with the doctor right away?”

Good morning -

I was considering including these two scripts after our conversation last week Chief Marx - it gives them more than one for their comfort level:

1.
2.
3. “One option we have right now is to connect you with an ER doctor immediately, without
4. waiting for transport. I’ll talk with the doctor’s assistant first, then the doctor will join you right away. Would you like to take advantage of that while it’s available?”
5.
6.
7.
8.
9.
10. “I want to make sure you get the care you need as quickly as possible. In your case,
11. a good option is for me to connect you with an ER doctor right now by video or phone. I’ll first speak with the doctor’s assistant so you don’t have to repeat yourself. What do you think about starting there?”
12.

If those sound OK to you, the cheatsheet is ready. Let me know your thoughts!

Kristeen

Chief Marx and Dr. Elias,

Kristeen is working on updating the "Cheat Sheets" for JFRD. The following codes are the ones I took note of during our August meeting that were flagged as not RightSite eligible. Please review and confirm.

- 2A02I
- 2A02M
- 17A01E
- 17A01G
- 17A01P
- 17A02E
- 17A02G
- 17A02P
- 17A03A
- 17A03G

If you've got an updated list of Alpha and Omega calls that are not RightSite eligible that is different from what is listed above please let me know.

Best,

Hello Dr. Elias!

Thanks for reaching out. Mobility is a tricky one but something we don't typically like to exclude completely. The reason for this is if we can help the patient without them having to leave their home, it's better for everyone. So, if they are not mobile but don't need transport, we are still a great option. Ultimately, we would prefer to give it a try whenever we can!

Let me know if you want to discuss it further. I appreciate your partnership!

Kristeen

Good morning -

I was considering including these two scripts after our conversation last week Chief Marx - it gives them more than one for their comfort level:

1.
2.
3. “One option we have right now is to connect you with an ER doctor immediately, without
4. waiting for transport. I’ll talk with the doctor’s assistant first, then the doctor will join you right away. Would you like to take advantage of that while it’s available?”
5.
6.
7.
8.
9.
10. “I want to make sure you get the care you need as quickly as possible. In your case,
11. a good option is for me to connect you with an ER doctor right now by video or phone. I’ll first speak with the doctor’s assistant so you don’t have to repeat yourself. What do you think about starting there?”
12.

If those sound OK to you, the cheatsheet is ready. Let me know your thoughts!

Kristeen,

After looking at this a little closer we all decided that no Alpha's for protocol 2 would be acceptable. Herre is a list of our approved determinant codes for reference.

- **ALPHA Determinant Codes for protocols: 1, 3, 5, 7, 10, 11, 13, 14, 16, 19, 20, 21, 26, 27, 30,**
- **All OMEGA Determinant Codes for protocol: 26**

Sorry for the mix up!

Brien

Good morning -

I was considering including these two scripts after our conversation last week Chief Marx - it gives them more than one for their comfort level:

1.

2.

3. “One option we have right now is to connect you with an ER doctor immediately, without
4. waiting for transport. I’ll talk with the doctor’s assistant first, then the doctor will join you right away. Would you like to take advantage of that while it’s available?”
5.
6.
7.
8.
9.
10. “I want to make sure you get the care you need as quickly as possible. In your case,
11. a good option is for me to connect you with an ER doctor right now by video or phone. I’ll first speak with the doctor’s assistant so you don’t have to repeat yourself. What do you think about starting there?”
12.

If those sound OK to you, the cheatsheet is ready. Let me know your thoughts!

Kristeen

These are correct and not eligible for RS. Here is a list of RS appropriate determinant codes for FRCC:

ALPHA Determinant Codes for protocols: 1, 3, 5, 7, 10, 11, 13, 14, 16, 19, 20, 21, 26, 27, 30

All OMEGA Determinant Codes for protocol: 26

Chief Marx and Dr. Elias,

Kristeen is working on updating the "Cheat Sheets" for JFRD. The following codes are the ones I took note of during our August meeting that were flagged as not RightSite eligible. Please review and confirm.

- 2A02I
- 2A02M
- 17A01E
- 17A01G
- 17A01P
- 17A02E
- 17A02G
- 17A02P
- 17A03A
- 17A03G

If you've got an updated list of Alpha and Omega calls that are not RightSite eligible that is different from what is listed above please let me know.

Best,

Jason,

Thanks – we don't need an original from you – a PDF signed copy is fine.

I have made the edit to the insurance provision – just emailed Kevin Collier in Risk to confirm your letter works, and when he confirms I'll circulate an execution copy.

Thanks much,

Hi Reece - Sounds good, we are having it executed and we will send to you for execution by the City. Just a couple of things: (1) Do you need an original signature and if so, is one sufficient or do you need more than one signed copy? Otherwise Jamo will be signing, scanning and emailing back to us. (2) I think the exhibit with the standard City provisions needs one tweak to reflect the fact that the City is now accepting the $250,000 policy rather than the $1,000,000 one. I provided Kevin et al with the insurance letter etc.

Please let me know.

Thank you, Jason G.

Jason,

Good morning – we've got the award and here's the last draft contract I sent.

I think we are squared away now (if nothing is needed from Risk on your client's end) and you all can sign.

When signed, please return PDF to me and I will route to mayor, then circulate fully executed copies.

Thanks!

Jason,

Good morning – I think we should be squared away now. I changed policy limits for auto liability to $250,000 on page 14, with footnote explanation on Page 15.

If this looks okay, I think it's ready for Jamo to sign and then return to me via PDF so I may route to mayor for counter signature.

I will then circulate final fully executed version.

Good afternoon,

We will definitely include these points. I've already had some initial conversations with Kristeen and the partner success team about timelines for the training. I'll update the group in our scheduled meeting next week so we can compare schedules/availability and start locking in plans for field re-engagement/training.

Good Morning Chief Marx,

Attached is a Good Fit/Not a Good Fit list. This document gives examples of the kinds of chief complaints that are a good fit and those that are not a good fit for RightSite.

I thought it might be helpful for you to see.

Please let me know if you need additional information.

Thanks,
Swati

Chief Marx,

This handout is just an FYI for you and was already shared with Captain Keeney and Chief Blanton. It's just a handout to help the front line crews get a feel for what's RightSite appropriate and what's not, and was an idea started by another EMS transport agency as a training piece. These conditions all lay over your non-emergent codes.

Thanks for sharing with Dr. Elias, and hopefully he'll find the handout a good tool for helping the crews know when to activate RightSite. But if he's got questions or comments, please let me know.

Thanks,
Swati

Good Morning Chief Marx,

Attached is a Good Fit/Not a Good Fit list. This document gives examples of the kinds of chief complaints that are a good fit and those that are not a good fit for RightSite.

I thought it might be helpful for you to see.

Please let me know if you need additional information.

Thanks,

Swati

Good Afternoon Dr. Elias,

Since March 12th, we have had 6 dispatch activations. 67% of patients were RightSite Addressed (Ambulance did not roll to ER):

1. Two patients were treated via Telehealth
2. One patient was treated at Urgent Care
3. One patient was sent to ER in non-emergency transport
4. One patient refused RS services
5. One patient was sent back to JFRD (Requested EMS Response)

Please let me know if you can join the upcoming call on 3/27 at 2 PM ET or if you'd prefer to skip this week.

Please let me know your preference.

Thanks,

Swati

I do not believe we captured the incident number as this originated in the field.

I will confirm.

I have asked for a daily report out to you for the first two weeks. We can evaluate if we want to keep the daily or work off the weekly at that point.

Today's patient was unhoused with chronic knee pain. He had no cell which is why there was an extended on-scene time but we successfully mitigated with an urgent care visit today.

Ok Kristeen, I'm officially off the phone for the day. I didn't get any calls that qualified for a transfer. Hopefully better luck tomorrow!

Hi Matt!

Thanks for your reply - I apologize for the confusion. I was under the impression test calls were going to be done prior to the go live, to test lines, scripts, etc. I'm happy to meet with you at 10am ET to review the slides, answer any questions, and start receiving calls! I do have a few questions, to ensure we're on the same page and the first calls go as smoothly as possible.

Looking forward to meeting you this morning!

Hello Matt!

Thanks so much for jumping in and taking care of our first test calls with JFRD Dispatch! We're looking forward to a fabulous partnership with you and your teams. My name is Kristeen Pierce and I will be your training contact and assistant for all your training needs. Before we begin, we would like to offer some scheduling for Monday, so we are all fully prepared.

Chief Marx mentioned you would be doing a test call before working with an active caller on the line - that's great! I would like to suggest that we plan the test call, so that you and I can be the people working through all the steps necessary to make our first live call a success. Here's the schedule I would like to recommend:

- Please complete your test call between 9:30am & 9:45am Eastern. I will answer the call and we will walk through the entire process.
- At 10am Eastern we can meet for a quick training run through (I will send an invitation with a Zoom link for all that would like to join) to answer any remaining questions we might have from the test call.
- From that time on, let's see if we can get 1-2 live calls completed in real time. I will make sure my navigation team is aware and ready to take your calls.
- Let's then meet one more time, to talk about the experience with live calls you experienced. (I will send another zoom invitation) We've found from experience just about anything can happen with a patient on the phone! This will be a quick check-in, to see if any of our processes need to be adjusted. I will schedule it for

4:30pm Eastern. Hopefully at least one call has come through by that time. We can always adjust our calls if needed.

Thanks again for helping us make this a success! Looking forward to working with you and making an impact in the Jacksonville community with our partnership.

Here's the schedule I would like to recommend:

- Please complete your test call between 9:30am & 9:45am Eastern. I will answer the call and we will walk through the entire process.
- At 10am Eastern we can meet for a quick training run through (I will send an invitation with a Zoom link for all that would like to join) to answer any remaining questions we might have from the test call.
- From that time on, let's see if we can get 1-2 live calls completed in real time. I will make sure my navigation team is aware and ready to take your calls.
- Let's then meet one more time, to talk about the experience with live calls you experienced. (I will send another zoom invitation) We've found from experience just about anything can happen with a patient on the phone! This will be a quick check-in, to see if any of our processes need to be adjusted. I will schedule it for 4:30pm Eastern. Hopefully at least one call has come through by that time. We can always adjust our calls if needed.

Thanks again for helping us make this a success! Looking forward to working with you and making an impact in the Jacksonville community with our partnership.

Ok, that sounds good to me. I told Chief Marx I was willing to help however he needed me. But I wasn't briefed on any test calls. I'm not sure what he was wanting for that. Haven't received any test call instructions etc. I'm happy to do them, just need a heads up on what you need me to do. I can certainly call the number to test the line if you would like. And i have the script that was given to me:

"I'll escalate your call to an ER doctor to help you immediately by video or phone. First, we'll speak with the doctor's assistant. I need to share some important information with them, and then they will connect you with the doctor right away."

Just let me know what you have in mind.

Hi Matt!

Thanks for your reply - I apologize for the confusion. I was under the impression test calls were going to be done prior to the go live, to test lines, scripts, etc. I'm happy to meet with you at 10am ET to review the slides, answer any questions, and start receiving calls! I do have a few questions, to ensure we're on the same page and the first calls go as smoothly as possible.

Looking forward to meeting you this morning!

Hello Matt!

Thanks so much for jumping in and taking care of our first test calls with JFRD Dispatch! We're looking forward to a fabulous partnership with you and your teams. My name is Kristeen Pierce and I will be your training contact and assistant for all your training needs. Before we begin, we would like to offer some scheduling for Monday, so we are all fully prepared.

Chief Marx mentioned you would be doing a test call before working with an active caller on the line - that's great! I would like to suggest that we plan the test call, so that you and I can be the people working through all the steps necessary to make our first live call a success. Here's the schedule I would like to recommend:

- Please complete your test call between 9:30am & 9:45am Eastern. I will answer the call and we will walk through the entire process.
- At 10am Eastern we can meet for a quick training run through (I will send an invitation with a Zoom link for all that would like to join) to answer any remaining questions we might have from the test call.

Hello Chief Marx,

The phone number that call takers can use to activate RightSite is **(904) 441-1357**. Below is the suggested language JFRD call takers can use when introducing RightSite to patients:

I'll escalate your call to an ER doctor to help you immediately by video or phone. First, we'll speak with the doctor's assistant. I need to share some important information with them, and then they will connect you with the doctor right away.

We're thrilled about dispatch implementation, and we're here to support the success of this partnership every step of the way!

If you need further information or clarification, please don't hesitate to reach out. We can also review and discuss this during tomorrow's CQI call.

Best regards,

Swati

Jamo,

I talked with Matt who performed the demo, he feels comfortable with the process. If you can get me a phone number and wording for us to use, he can begin testing the process Monday, November 25th. This will give him the opportunity to identify if the process we currently plan to use is sufficient or if we need to make any adjustments before training everyone else.

I know the team is looking forward to coming out next week. However, given that we are also working on some data to prepare for a meeting with Chief Powers and Dr. Elias, I think it might be better to postpone next week's trip, and reschedule when we can be there for both the dispatch conversation and the field training.

Does that make sense?

Thanks,

Jamo

Jamo, Here is a copy of our CAD Code list. We do not have a file that has both CAD codes and what the correlating determinant codes are. As you can see the list is quite extensive.

I think we should reschedule as soon as we can review the signal/CAD code file. When do you think you'll be able to send that to us?

Dr. Elias,

During Tuesday's biweekly operations meeting with Swati and Kristeen, we discussed coordinating a visit from Right Site in late August or early September to provide refresher training and training for field personnel who haven't yet received it.

One option is to hold training sessions at the fire stations. Once Right Site confirms their availability, I'll ensure we have a clear plan in place to support their training needs.

Dr. Elias,

During Tuesday's biweekly operations meeting with Swati and Kristeen, we discussed coordinating a visit from Right Site in late August or early September to provide refresher training and training for field personnel who haven't yet received it.

One option is to hold training sessions at the fire stations. Once Right Site confirms their availability, I'll ensure we have a clear plan in place to support their training needs.

Respectfully,

J. Brien Marx
Asst. Chief of Communications &
Special Projects

Subject: RightSite Utilization

Good afternoon,

I would like to convene a group of us to see if there are ways to improve the referral rate for RightSite. We can discuss expanding the potential call types in dispatch and consider additional training of the field personnel.

Hi Kristeen,

I have spoken with Chief Marx and we will be making plans for me to be at HQ during your visit next week. I will need to discuss my schedule with my team on Monday then I can let you all know more about my exact availability.

I look forward to seeing you,

Dasha

Hello Dasha!

Jared and I will be in town next week to visit the Comm center and some of the fire stations. I would love to find a time to talk with you about how you feel it's going in Dispatch and what we might need to offer from a training perspective. We will be there Tuesday March 4th and Wednesday March 5th, all day both days. I have already reached out to Chief Marx about visiting stations and he is working on the schedule for us. Please let me know if either day works for you and if so, what times you are available. We will coordinate with both you and Chief Marx to use our time most wisely.

Looking forward to catching up!

Hi Kristeen, Dasha will be in FRCC to assist you on Tuesday and Wednesday and Capt. Keeney will assist Jared for fire station visits. I see your list of people, however there's no way to guarantee that they will be working that day. Does Jared want to visit with people who've been using RS or would he rather visit people who've received the training but not using it? I have a list of stations where it's not been used very much. Just let me know what direction you want to go. Brien

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good afternoon Chief Marx!

We have been looking through our data and have come up with a list of folks to visit. Here's what we have found:

- Rescue 65 has 3 people who have called - Corey Nail (7 times), Terry McClain (3 times), Jeff Burton (1 time).
- Rescue 33 has 3 people who have called - Lt James Davis (20 times), Jonathan Ortiz (2 times), Carlos Daniels (1 time).
- Rescue 18 has two people who have called - Jesse Modican (7 times) and Jacob Thibidaut (1 time)
- Rescue 17 has two people who have called - Ronald Gill (5 times) and Matthew Griggs (2 times).
- Rescue 24 had two people who have called - Rachel Miller (4 times) and Chad Pontree (1 time)

That's the top 5 stations that have called us so far. However, there are two of the folks listed above who work for multiple Rescues, so I don't know if the Rescue numbers are correct. The two on our lists that work for multiple services are

- Lt. James Davis - He's called with 27, 33, 36 & 61
- Ronald Gill - He's called with 10 & 17.

I'm open to suggestions for the visits, so please let us know your ideas and

preferences. We are flexible!

I would also like to reach out to Dasha before we arrive. She was an integral part of our training Dispatch sessions and I would like to send her a list of Call Taker/Dispatcher names who have called multiple times. I would like to sit in Dispatch more than once (maybe AM an PM) to talk to more than one shift and would love for Dasha to be a part of any or all of it. Please let me know your thoughts, Chief Marx.

Thanks for hosting us! We're looking forward to our visit.

Kristeen

Good Afternoon Lynn,

Wishing you a very Happy New Year! Wanted to keep you updated with activities on our side with regards to JFRD. We are gearing up to be on-site in the week of 1/15 to train all 63 rescue units of JFRD. We are not sure of the final dates and training times yet and will keep you posted.

I will work with the JAXCare Connect team too when I have confirmation on dates for the followup session. I will share the draft workflow with the entire group early next week for everyone's review and feedback prior to our next meeting.

Looking forward to seeing you and the team in person in a couple of weeks.

Have a nice weekend!

Regards,

Swati

Hello Lynn,

No worries at all, Jenny told us that you know the JAXCareConnect work already that she shared with us yesterday.

I will share the workflow/next steps with you and the team soon.

One other item that we need to work on is to schedule an in-person meeting in JAX in early January to tie all loose ends and get this going. Please let me know your thoughts on this.

Regards,

Swati

Good Afternoon Lynn,

Wishing you a very Happy New Year! Wanted to keep you updated with activities on our side with regards to JFRD. We are gearing up to be on-site in the week of 1/15 to train all 63 rescue units of JFRD. We are not sure of the final dates and training times yet and will keep you posted.

I will work with the JAXCare Connect team too when I have confirmation on dates for the followup session. I will share the draft workflow with the entire group early next week for everyone's review and feedback prior to our next meeting.

Looking forward to seeing you and the team in person in a couple of weeks.

Have a nice weekend!

Regards,
Swati

Training Time: 3 sessions each day at: 9:30 AM, 12:30 PM and 3 PM

Also, with such a tight schedule next week, we might not be able to meet in person to talk about JAXCare Connect with the team. I am confirming with Jamo on this and will keep the team posted on next steps.

Please let me know if you have any questions or need any additional information.

Thanks,
Swati

Training Time: 3 sessions each day at: 9:30 AM, 12:30 PM and 3 PM

Also, with such a tight schedule next week, we might not be able to meet in person to talk about JAXCare Connect with the team. I am confirming with Jamo on this and will keep the team posted on next steps.

Please let me know if you have any questions or need any additional information.

our side with regards to JFRD. We are gearing up to be on-site in the week of 1/15 to train all 63 rescue units of JFRD. We are not sure of the final dates and training times yet and will keep you posted.

I will work with the JAXCare Connect team too when I have confirmation on dates for the followup session. I will share the draft workflow with the entire group early next week for everyone's review and feedback prior to our next meeting.

Looking forward to seeing you and the team in person in a couple of weeks.

Have a nice weekend!

Good Afternoon Lynn,

Wishing you a very Happy New Year! Wanted to keep you updated with activities on our side with regards to JFRD. We are gearing up to be on-site in the week of 1/15 to train all 63 rescue units of JFRD. We are not sure of the final dates and training times yet and will keep you posted.

I will work with the JAXCare Connect team too when I have confirmation on dates for the followup session. I will share the draft workflow with the entire group early next week for everyone's review and feedback prior to our next meeting.

Looking forward to seeing you and the team in person in a couple of weeks.

Have a nice weekend!

Regards,

Swati

Training Time: 3 sessions each day at: 9:30 AM, 12:30 PM and 3 PM

Also, with such a tight schedule next week, we might not be able to meet in person to talk about JAXCare Connect with the team. I am confirming with Jamo on this and will keep the team posted on next steps.

Please let me know if you have any questions or need any additional information.

Good Morning Lynn,

I think the JAXCareConnect team should be present as I am hoping we will review the final workflow, tie all loose ends and move closer towards implementation in January.

Please let me know your thoughts on the plan...

Appreciate your help!!

Hello Lynn and Dr. Joshi,

I just got confirmation on the exact training schedule. And, Chief Marx is excited for you both to attend JFRD training in person. Please let me know which session(s) you will be attending.

Training Location:
Jacksonville Fire & Rescue Department
515 N Julia St
Jacksonville, FL 32202

Training Dates: 1/16 - 1/21 (Tue-Sun)
Training Time: 3 sessions each day at: 9:30 AM, 12:30 PM and 3 PM

Also, with such a tight schedule next week, we might not be able to meet in person to talk about JAXCare Connect with the team. I am confirming with Jamo on this and will keep the team posted on next steps.

Please let me know if you have any questions or need any additional information.

Thanks,
Swati

Hi Swati,

Thanks for circling back!

I did not want to be a participant in the entire training. I only want to observe a portion of the training. Of the days and times listed, I am only available at 3:00 on 1/17. Will that work?

Kind regards,

Lynn

Hello Lynn,

Are you and Dr. Joshi able to join the call with Jenny/JAX Care Connect now...just checking?

Regards,
Swati

Hi Swati,

Thanks for circling back!

I did not want to be a participant in the entire training. I only want to observe a portion of the training. Of the days and times listed, I am only available at 3:00 on 1/17. Will that work?

Kind regards,

Lynn

Good Afternoon Lynn,

Wishing you a very Happy New Year! Wanted to keep you updated with activities on our side with regards to JFRD. We are gearing up to be on-site in the week of 1/15 to train all 63 rescue units of JFRD. We are not sure of the final dates and training times yet and will keep you posted.

I will work with the JAXCare Connect team too when I have confirmation on dates for the followup session. I will share the draft workflow with the entire group early next week for everyone's review and feedback prior to our next meeting.

Looking forward to seeing you and the team in person in a couple of weeks.

Have a nice weekend!

Hello Lynn and Dr. Joshi,

I just got confirmation on the exact training schedule. And, Chief Marx is excited for you both to attend JFRD training in person. Please let me know which session(s) you will be attending.

Training Location:
Jacksonville Fire & Rescue Department
515 N Julia St
Jacksonville, FL 32202

Training Dates: 1/16 - 1/21 (Tue-Sun)
Training Time: 3 sessions each day at: 9:30 AM, 12:30 PM and 3 PM

Also, with such a tight schedule next week, we might not be able to meet in person to talk about JAXCare Connect with the team. I am confirming with Jamo on this and will keep the team posted on next steps.

Please let me know if you have any questions or need any additional information.

Thanks,
Swati

Hello Lynn,

No worries at all, Jenny told us that you know the JAXCareConnect work already that she shared with us yesterday.

I will share the workflow/next steps with you and the team soon.

One other item that we need to work on is to schedule an in-person meeting in JAX in early January to tie all loose ends and get this going. Please let me know your thoughts on this.

Regards,

Swati

Good Morning Lynn,

I think the JAXCareConnect team should be present as I am hoping we will review the final workflow, tie all loose ends and move closer towards implementation in January.

Please let me know your thoughts on the plan...

Appreciate your help!!

Regards,
Swati

Hello Lynn,

No worries at all, Jenny told us that you know the JAXCareConnect work already that she shared with us yesterday.

I will share the workflow/next steps with you and the team soon.

One other item that we need to work on is to schedule an in-person meeting in JAX in early January to tie all loose ends and get this going. Please let me know your thoughts on this.

Hello Lynn,

No worries at all, Jenny told us that you know the JAXCareConnect work already that she shared with us yesterday.

I will share the workflow/next steps with you and the team soon.

One other item that we need to work on is to schedule an in-person meeting in JAX in early January to tie all loose ends and get this going. Please let me know your thoughts on this.

Regards,
Swati

Good Afternoon Lynn,

Wishing you a very Happy New Year! Wanted to keep you updated with activities on our side with regards to JFRD. We are gearing up to be on-site in the week of 1/15 to train all 63 rescue units of JFRD. We are not sure of the final dates and training times yet and will keep you posted.

I will work with the JAXCare Connect team too when I have confirmation on dates for the followup session. I will share the draft workflow with the entire group early next week for everyone's review and feedback prior to our next meeting.

Looking forward to seeing you and the team in person in a couple of weeks.

Have a nice weekend!

Good Morning All,

Happy Monday!

We had a very productive week in JAX and trained 144 JFRD EMS clinicians last week. Sessions were very engaging and we have already received 8 patient calls from JFRD.

Unfortunately, we could not meet in person to finalize the JAXCareConnect/RightSite referral workflow in-person. Here are some options, please let me know if any of these work for you all and I will schedule a followup session for us to review and finalize the process.

1. 1/26 - Friday, 10a - 1p ET
2. 1/29 - Monday, 10a - 11a ET
3. 1/29 - Monday, 12p - 2p ET
4. 1/30 - Tuesday, 12p - 2p ET
5. 1/31 - Wednesday, 11a - 2p ET

Draft referral workflow is attached.

Please let me know if you have any questions or need any additional information.

Thanks,

Swati

Hello Jenny,

Training sessions are going well, thanks for asking! Lynn is able to come down to JFRD to observe a session today.

Let me ask Lynn if any of the two times you suggested work for her and Dr. Joshi and I can plan to be there.

Did the updated workflow look ok to you?

Regards,

Swati

Hello Everyone,

Please review the updated JAXCareConnect/RightSite referral workflow based on conversation with Jenny earlier this week. Thanks Jenny, for answering all open questions!

The RightSite team is in JAX next week from Tuesday to Sunday to conduct training sessions for 27 rescue units of JFRD. Please let us know of a day/time next week that works for you all to meet in person to review/finalize the referral workflow.

Looking forward to seeing you all in JAX next week.

Thanks and have a nice weekend!

Regards,

Swati

> Hello Everyone,

Wishing you all a very Happy New Year!

Based on our conversations in December, we have created a draft workflow for patient handoff between all partners. All the questions/open items are listed in red in the attached PDF.

Also, the RightSite team will be in JAX next week (still working on final dates) and will keep you all posted if we can find time to meet in person.

Please review the attached workflow and let me know your thoughts. Looking forward to your feedback!

Hello Everyone,

Please review the updated JAXCareConnect/RightSite referral workflow based on conversation with Jenny earlier this week. Thanks Jenny, for answering all open questions!

The RightSite team is in JAX next week from Tuesday to Sunday to conduct training sessions for 27 rescue units of JFRD. Please let us know of a day/time next week that works for you all to meet in person to review/finalize the referral workflow.

Looking forward to seeing you all in JAX next week.

Thanks and have a nice weekend!

Regards,
Swati

Hello Jenny,

Training sessions are going well, thanks for asking! Lynn is able to come down to JFRD to observe a session today.

Let me ask Lynn if any of the two times you suggested work for her and Dr. Joshi and I can plan to be there.

Did the updated workflow look ok to you?

Regards,

Swati

Good Morning All,

Happy Monday!

We had a very productive week in JAX and trained 144 JFRD EMS clinicians last week. Sessions were very engaging and we have already received 8 patient calls from JFRD.

Unfortunately, we could not meet in person to finalize the JAXCareConnect/RightSite referral workflow in-person. Here are some options, please let me know if any of these work for you all and I will schedule a followup session for us to review and finalize the process.

1. 1/26 - Friday, 10a - 1p ET
2. 1/29 - Monday, 10a - 11a ET
3. 1/29 - Monday, 12p - 2p ET
4. 1/30 - Tuesday, 12p - 2p ET
5. 1/31 - Wednesday, 11a - 2p ET

Draft referral workflow is attached.

Please let me know if you have any questions or need any additional information.

Thanks,

Swati

Hello Jenny,

Training sessions are going well, thanks for asking! Lynn is able to come down to JFRD to observe a session today.

Let me ask Lynn if any of the two times you suggested work for her and Dr. Joshi and I can plan to be there.

Did the updated workflow look ok to you?

Regards,

Swati

Hello Everyone,

Please review the updated JAXCareConnect/RightSite referral workflow based on conversation with Jenny earlier this week. Thanks Jenny, for answering all open questions!

The RightSite team is in JAX next week from Tuesday to Sunday to conduct training sessions for 27 rescue units of JFRD. Please let us know of a day/time next week that works for you all to meet in person to review/finalize the referral workflow.

Looking forward to seeing you all in JAX next week.

Thanks and have a nice weekend!

Regards,

Swati

Good Morning All,

Happy Monday!

We had a very productive week in JAX and trained 144 JFRD EMS clinicians last week. Sessions were very engaging and we have already received 8 patient calls from JFRD.

Unfortunately, we could not meet in person to finalize the JAXCareConnect/RightSite referral workflow in-person. Here are some options, please let me know if any of these work for you all and I will schedule a followup session for us to review and finalize the process.

1. 1/26 - Friday, 10a - 1p ET

2. 1/29 - Monday, 10a - 11a ET
3. 1/29 - Monday, 12p - 2p ET
4. 1/30 - Tuesday, 12p - 2p ET
5. 1/31 - Wednesday, 11a - 2p ET

Draft referral workflow is attached.

Please let me know if you have any questions or need any additional information.

Thanks,
Swati

Hello Everyone,

Please review the updated JAXCareConnect/RightSite referral workflow based on conversation with Jenny earlier this week. Thanks Jenny, for answering all open questions!

The RightSite team is in JAX next week from Tuesday to Sunday to conduct training sessions for 27 rescue units of JFRD. Please let us know of a day/time next week that works for you all to meet in person to review/finalize the referral workflow.

Looking forward to seeing you all in JAX next week.

Thanks and have a nice weekend!

Regards,

Swati

Good Morning All,

Happy Monday!

We had a very productive week in JAX and trained 144 JFRD EMS clinicians last week. Sessions were very engaging and we have already received 8 patient calls from JFRD.

Unfortunately, we could not meet in person to finalize the JAXCareConnect/RightSite referral workflow in-person. Here are some options, please let me know if any of these work for you all and I will schedule a followup session for us to review and finalize the process.

1. 1/26 - Friday, 10a - 1p ET
2. 1/29 - Monday, 10a - 11a ET
3. 1/29 - Monday, 12p - 2p ET
4. 1/30 - Tuesday, 12p - 2p ET
5. 1/31 - Wednesday, 11a - 2p ET

Draft referral workflow is attached.

Please let me know if you have any questions or need any additional information.

Thanks,

Swati

Hello Jenny,

Training sessions are going well, thanks for asking! Lynn is able to come down to JFRD to observe a session today.

Let me ask Lynn if any of the two times you suggested work for her and Dr. Joshi and I can plan to be there.

Did the updated workflow look ok to you?

Regards,

Swati

Hello Everyone,

Wishing you all a very Happy New Year!

Based on our conversations in December, we have created a draft workflow for patient handoff between all partners. All the questions/open items are listed in red in the attached PDF.

Also, the RightSite team will be in JAX next week (still working on final dates) and will keep you all posted if we can find time to meet in person.

Please review the attached workflow and let me know your thoughts. Looking forward to your feedback!

Thanks Jenny, for walking us through the JAXCareConnect processes and other pertinent details. It was an engaging discussion as we explored the possibilities of referrals from RightSite to JAXCareConnect.

As a next step, RightSite will put together a workflow/hand off process and share with you all for feedback and further discussion, prior to the next meeting in early January in JAX.

Thanks Angela, for sharing data reports with us. Appreciate it!

Wishing you all a wonderful holiday season and we will be in touch regarding next steps.

Hello Everyone,

Wishing you all a very Happy New Year!

Based on our conversations in December, we have created a draft workflow for patient handoff between all partners. All the questions/open items are listed in red in the attached PDF.

Also, the RightSite team will be in JAX next week (still working on final dates) and will keep you all posted if we can find time to meet in person.

Please review the attached workflow and let me know your thoughts. Looking forward to your feedback!

Regards,
Swati

pertinent details. It was an engaging discussion as we explored the possibilities of referrals from RightSite to JAXCareConnect.

As a next step, RightSite will put together a workflow/hand off process and share with you all for feedback and further discussion, prior to the next meeting in early January in JAX.

Thanks Angela, for sharing data reports with us. Appreciate it!

Wishing you all a wonderful holiday season and we will be in touch regarding next steps.

Best Regards,
Swati

JAXCare Connect RightSite Referral Process - 1.22.2024.pdf

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Morning All,

Happy Monday!

We had a very productive week in JAX and trained 144 JFRD EMS clinicians last week. Sessions were very engaging and we have already received 8 patient calls from JFRD.

Unfortunately, we could not meet in person to finalize the JAXCareConnect/RightSite referral workflow in-person. Here are some options, please let me know if any of these work for you all and I will schedule a followup session for us to review and finalize the process.

1. 1/26 - Friday, 10a - 1p ET
2. 1/29 - Monday, 10a - 11a ET
3. 1/29 - Monday, 12p - 2p ET
4. 1/30 - Tuesday, 12p - 2p ET
5. 1/31 - Wednesday, 11a - 2p ET

Draft referral workflow is attached.

Please let me know if you have any questions or need any additional information.

Thanks,

Swati

Hello Jenny,

Training sessions are going well, thanks for asking! Lynn is able to come down to JFRD to observe a session today.

Let me ask Lynn if any of the two times you suggested work for her and Dr. Joshi and I can plan to be there.

Did the updated workflow look ok to you?

Regards,

Swati

Hello Everyone,

Please review the updated JAXCareConnect/RightSite referral workflow based on conversation with Jenny earlier this week. Thanks Jenny, for answering all open questions!

The RightSite team is in JAX next week from Tuesday to Sunday to conduct training sessions for 27 rescue units of JFRD. Please let us know of a day/time next week that works for you all to meet in person to review/finalize the referral workflow.

Looking forward to seeing you all in JAX next week.

Thanks and have a nice weekend!

Hello Jenny,

Training sessions are going well, thanks for asking! Lynn is able to come down to JFRD to observe a session today.

Let me ask Lynn if any of the two times you suggested work for her and Dr. Joshi and I can plan to be there.

Did the updated workflow look ok to you?

Regards,

Swati

Hi Swati! I am sorry for my late response. I hope your training sessions are going well! The only availability I would have this week is tomorrow January 18th at 2 pm and Friday the 19th 11 am to 1:30 pm. Angela is fully booked this week.

If something works, please let me know.

Thank you,

Jenny O'Donnell

Hello Everyone,

Please review the updated JAXCareConnect/RightSite referral workflow based on conversation with Jenny earlier this week. Thanks Jenny, for answering all open questions!

The RightSite team is in JAX next week from Tuesday to Sunday to conduct training sessions for 27 rescue units of JFRD. Please let us know of a day/time next week that works for you all to meet in person to review/finalize the referral workflow.

Looking forward to seeing you all in JAX next week.

Thanks and have a nice weekend!

Regards,

Swati

Hello Everyone,

Wishing you all a very Happy New Year!

Based on our conversations in December, we have created a draft workflow for patient handoff between all partners. All the questions/open items are listed in red in the attached PDF.

Also, the RightSite team will be in JAX next week (still working on final dates) and will keep you all posted if we can find time to meet in person.

Please review the attached workflow and let me know your thoughts. Looking forward to your feedback!

Regards,

Swati

No worries, Lynn.

I will look for days/times for next week for all of us to meet remotely and finalize the referral process.

Thanks and have a nice evening!

Regards,
Swati

Hello Jenny,

Training sessions are going well, thanks for asking! Lynn is able to come down to JFRD to observe a session today.

Let me ask Lynn if any of the two times you suggested work for her and Dr. Joshi and I can plan to be there.

Did the updated workflow look ok to you?

Regards,

Swati

Hello Everyone,

Please review the updated JAXCareConnect/RightSite referral workflow based on conversation with Jenny earlier this week. Thanks Jenny, for answering all open questions!

The RightSite team is in JAX next week from Tuesday to Sunday to conduct training sessions for 27 rescue units of JFRD. Please let us know of a day/time next week that works for you all to meet in person to review/finalize the referral workflow.

Looking forward to seeing you all in JAX next week.

Thanks and have a nice weekend!

Hello Everyone,

Wishing you all a very Happy New Year!

Based on our conversations in December, we have created a draft workflow for patient handoff between all partners. All the questions/open items are listed in red in the attached PDF.

Also, the RightSite team will be in JAX next week (still working on final dates) and will keep you all posted if we can find time to meet in person.

Please review the attached workflow and let me know your thoughts. Looking forward to your feedback!

Hello Jenny,

Training sessions are going well, thanks for asking! Lynn is able to come down to JFRD to observe a session today.

Let me ask Lynn if any of the two times you suggested work for her and Dr. Joshi and I can plan to be there.

Did the updated workflow look ok to you?

Regards,

Swati

Hello Everyone,

Please review the updated JAXCareConnect/RightSite referral workflow based on conversation with Jenny earlier this week. Thanks Jenny, for answering all open questions!

The RightSite team is in JAX next week from Tuesday to Sunday to conduct training sessions for 27 rescue units of JFRD. Please let us know of a day/time next week that works for you all to meet in person to review/finalize the referral workflow.

Looking forward to seeing you all in JAX next week.

Thanks and have a nice weekend!

Regards,
Swati

Hello Everyone,

Wishing you all a very Happy New Year!

Based on our conversations in December, we have created a draft workflow for patient handoff between all partners. All the questions/open items are listed in red in the attached PDF.

Also, the RightSite team will be in JAX next week (still working on final dates) and will keep you all posted if we can find time to meet in person.

Please review the attached workflow and let me know your thoughts. Looking forward to your feedback!

Regards,
Swati

Hello Everyone,

Wishing you all a very Happy New Year!

Based on our conversations in December, we have created a draft workflow for patient handoff between all partners. All the questions/open items are listed in red in the attached PDF.

Also, the RightSite team will be in JAX next week (still working on final dates) and will keep you all posted if we can find time to meet in person.

Please review the attached workflow and let me know your thoughts. Looking forward to your feedback!

Regards,
Swati

Thanks Angela, for sharing data reports with us. Appreciate it!

Wishing you all a wonderful holiday season and we will be in touch regarding next steps.

Best Regards,
Swati

Hello Everyone,

Please review the updated JAXCareConnect/RightSite referral workflow based on conversation with Jenny earlier this week. Thanks Jenny, for answering all open questions!

The RightSite team is in JAX next week from Tuesday to Sunday to conduct training sessions for 27 rescue units of JFRD. Please let us know of a day/time next week that works for you all to meet in person to review/finalize the referral workflow.

Looking forward to seeing you all in JAX next week.

Thanks and have a nice weekend!

Regards,
Swati

Hello Jenny,

I think it will be beneficial if we can address some of these questions and I can update the workflow based on the responses before the meeting. I am open on Thursday this week from 11 AM - 1 PM CT, if that works for you and your team, I can schedule a quick call to discuss these. Please let me know your thoughts.

Thanks,
Swati

Hello Everyone,

Wishing you all a very Happy New Year!

Based on our conversations in December, we have created a draft workflow for patient handoff between all partners. All the questions/open items are listed in red in the attached PDF.

Also, the RightSite team will be in JAX next week (still working on final dates) and will keep you all posted if we can find time to meet in person.

Please review the attached workflow and let me know your thoughts. Looking forward to your feedback!

Regards,

Swati

I am glad that it went well!

Sorry we missed it. We had a meeting with the grants and lobbying team to discuss some potential ways to get state or federal support for some of our projects!

Let us know how we can assist you all going forward.

Happy Holidays everyone!

Hello All,

Thank you so much for your time today, we missed you Lynn and Dr. Joshi.

Thanks Jenny, for walking us through the JAXCareConnect processes and other pertinent details. It was an engaging discussion as we explored the possibilities of referrals from RightSite to JAXCareConnect.

As a next step, RightSite will put together a workflow/hand off process and share with you all for feedback and further discussion, prior to the next meeting in early January in JAX.

Thanks Angela, for sharing data reports with us. Appreciate it!

Wishing you all a wonderful holiday season and we will be in touch regarding next steps.

Thank you so much for your time today, we missed you Lynn and Dr. Joshi.

Thanks Jenny, for walking us through the JAXCareConnect processes and other pertinent details. It was an engaging discussion as we explored the possibilities of referrals from RightSite to JAXCareConnect.

As a next step, RightSite will put together a workflow/hand off process and share with you all for feedback and further discussion, prior to the next meeting in early January in JAX.

Thanks Angela, for sharing data reports with us. Appreciate it!

Wishing you all a wonderful holiday season and we will be in touch regarding next steps.

Best Regards,

Swati

Thank you all! I thought the conversation went well and I am excited to meet in January. Sunil and Lynn, we figured you all were in a meeting and totally understand. I am attaching the presentation from yesterday and the link below to our JaxCareConnect Client Referral link for agencies/partners. Please let me know if any other data would be helpful as we move forward.

https://jaxcareconnect.org/client-referral-form/

Wishing you all a safe and happy holiday season and new year!

I am glad that it went well!

Sorry we missed it. We had a meeting with the grants and lobbying team to discuss some potential ways to get state or federal support for some of our projects!

Let us know how we can assist you all going forward.

Happy Holidays everyone!

Hello Everyone,

Wishing you all a very Happy New Year!

Based on our conversations in December, we have created a draft workflow for patient handoff between all partners. All the questions/open items are listed in red in the attached PDF.

Also, the RightSite team will be in JAX next week (still working on final dates) and will keep you all posted if we can find time to meet in person.

Please review the attached workflow and let me know your thoughts. Looking forward to your feedback!

Hello All,

Thank you so much for your time today, we missed you Lynn and Dr. Joshi.

Thanks Jenny, for walking us through the JAXCareConnect processes and other pertinent details. It was an engaging discussion as we explored the possibilities of referrals from RightSite to JAXCareConnect.

As a next step, RightSite will put together a workflow/hand off process and share with you all for feedback and further discussion, prior to the next meeting in early January in JAX.

Thanks Angela, for sharing data reports with us. Appreciate it!

Wishing you all a wonderful holiday season and we will be in touch regarding next steps.

Best Regards,
Swati

I am glad that it went well!

Sorry we missed it. We had a meeting with the grants and lobbying team to discuss some potential ways to get state or federal support for some of our projects!

Let us know how we can assist you all going forward.

Happy Holidays everyone!

I am glad that it went well!

Sorry we missed it. We had a meeting with the grants and lobbying team to discuss some potential ways to get state or federal support for some of our projects!

Let us know how we can assist you all going forward.

Happy Holidays everyone!
Sunil

Hello All,

Thank you so much for your time today, we missed you Lynn and Dr. Joshi.

Thanks Jenny, for walking us through the JAXCareConnect processes and other pertinent details. It was an engaging discussion as we explored the possibilities of referrals from RightSite to JAXCareConnect.

As a next step, RightSite will put together a workflow/hand off process and share with you all for feedback and further discussion, prior to the next meeting in early January in JAX.

Thanks Angela, for sharing data reports with us. Appreciate it!

Wishing you all a wonderful holiday season and we will be in touch regarding next steps.

Best Regards,
Swati

Hello Lynn,

Do any of the below days/times work for you and Dr. Joshi? Please let me know

1. 1/29 - Monday, 12:30p - 2p ET
2. 1/31 - Wednesday, 12p - 2p ET

Regards,

Swati

> Good Morning All,
>
> Happy Monday!

We had a very productive week in JAX and trained 144 JFRD EMS clinicians last week. Sessions were very engaging and we have already received 8 patient calls from JFRD.

Unfortunately, we could not meet in person to finalize the JAXCareConnect/RightSite referral workflow in-person. Here are some options, please let me know if any of these work for you all and I will schedule a followup session for us to review and finalize the process.

1. 1/26 - Friday, 10a - 1p ET
2. 1/29 - Monday, 10a - 11a ET
3. 1/29 - Monday, 12p - 2p ET
4. 1/30 - Tuesday, 12p - 2p ET
5. 1/31 - Wednesday, 11a - 2p ET

Draft referral workflow is attached.

Please let me know if you have any questions or need any additional information.

Thanks,

Swati

Hello Jenny,

Training sessions are going well, thanks for asking! Lynn is able to come down to JFRD to observe a session today.

Let me ask Lynn if any of the two times you suggested work for her and Dr. Joshi and I can plan to be there.

Did the updated workflow look ok to you?

Regards,

Swati

Subject: RightSite/JFRD calls - One question

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good Morning Dasha,

I hope you and your family had a wonderful holiday. Since the training, we have had a steady input of calls from JFRD —seven calls this week (one from the field)!

I noticed that Kassidy had called us three times in the last three days and provided us with 17SP10 as the determinant code instead of 26 Alphas and Omegas. I don't want to discourage her from calling RightSite, but I wanted to make sure that she is doing the step of finding the right determinant code in ProQA. It might be as simple as her not providing the right code to the navigators. Can you please check?

Please let me know if you need any additional information from me.

Thanks,
Swati

Jared,

Thank you for the information. JFRD is doing our best to increase the volume while still meeting the other needs. Could you please add the time the call was made? I've identified some issues with our reporting system not being 100% reliable with our query process. By adding the time will make it much easier for us to find these reports with our reporting system.

Thank You,

Brien

Hi Chief Marx,

Thank you for your time on Tuesday to review the partnership data after the long week of training. We are excited to see this data and share with you for review and feedback. This data has been updated with dates as requested and will be provided in our weekly call going forward.

It is encouraging that we are continuing to see your team utilization RightSite as the week has progressed.

Please let me know if you have any questions. Dr. Demestihas will be reaching out to Dr. Elias to discuss clinical cases.

Best regards,

Jared

Good Morning Chief Marx and Dr. Elias,

Due to internal conflicts, we have shifted the time of our call by 30 minutes. Hope it works for you or please let us know and we can reschedule it to another day/time.

Regards,

Swati

Swati,

We can try Tuesdays at 11, but I cannot guarantee that I'll always be able to attend. Late morning tends to be a busy time and I may not always be able to break away. I'll certainly keep you updated.

Kind Regards,

J. Brien Marx

Good Morning Brien,

Just wanted to touch base with you regarding the current time of our Monday meetings.

Will it be ok with you to move our weekly meeting to any time after 10 AM ET on any day of the week that works best for you?

Some suggestions from our side: Tuesdays 11 AM ET or Fridays 2 PM

Please let me know your thoughts and I can reschedule accordingly.

Appreciate your flexibility!

Thanks,
Swati

Good afternoon,

I wanted to share a quick update on scripting and our plans for Field Re-Engagement. Stacey and Natasha have drafted an updated script, and we'd like to review it with you during our scheduled meeting on Tuesday, Sept 2.

I'm also planning a trip to Jacksonville the week of Sept 8 to go over field training/re-engagement logistics, connect with a few end users who have worked with RightSite in the field, and cover anything else you feel would be helpful. I'm looking at Sept 9 and 10 for those visits.

Please let me know if those dates work on your end.

I'm going to cancel this afternoons meeting.

Maybe we can add it the agenda next Thursday for the medical review.

Will you let Elias know we are canceling today?

Chip

I'm going to cancel this afternoons meeting.

Maybe we can add it the agenda next Thursday for the medical review.

Will you let Elias know we are canceling today?

Chip

Hello Chief,

Thanks so much for sending the list, I will log them. I remember you had mentioned that there would be about 34 or so from 6 rescue units. Will we need another set of training sessions to accommodate them? We can discuss it as part of our call on Monday.

Looking forward to talking to you on Monday. Have a nice weekend.

Regards,
Swati

Good Morning Brien,

Hope you had a nice weekend. Jamo is also not able to meet today at 9 AM ET. Does 9 AM ET Tuesday or Wednesday this week work for you? I can schedule to another day if that works better.

Please let me know.

Thanks,
Swati

Hello all!

Attached are the slides and the one sheet we went over today during our call. Thanks so much for your input and help! Here's what we would like you to add to these documents:

- Update the three slides in yellow (we will remove the color once you've added your content) with the needed screenshots and bullet points you would like the Call Takers to know. Create as many additional slides as you feel it takes.

- Update the one sheet with your bulleted steps in three areas:
  - What to do when the patient accepts
  - What to do when the patient declines
  - What happens when we call back (canceling off the board or EMS response)

If you have any questions, please don't hesitate to reach out. Looking forward to next week!

Good Afternoon Capt. Linton,

Yes, 10 AM ET on Tuesday works for us. I will send out the invite shortly.

Thanks again for all your help!

Regards,
Swati

Good morning,

Training will be at Julia location. They'll be returning here either tomorrow morning or evening.

Brien

Good morning Chief,

Hope you had a nice weekend. Capt. Linton told us that the call taker crew was operating out of a temporary location and was planning to move back to Julia Street address yesterday, with a slight possibility that it may not happen.

Please let me know if the training location is Julia Street or another location so we can plan delivery of food for Wednesday and Thursday training.

Looking forward to the training!

Regards,

Swati

Dr. Elias, Chiefs Marx and Blanton,

Thank you for driving to Atlanta and meeting with our friends at AFRD and Grady EMS. I appreciate the time away from your duties and hope it was well spent.

While Atlanta faces different challenges than Jacksonville, the strain on EMS and the city due to non-emergent 911 calls for primary care is a common pain shared by all communities. I hope you saw how we are helping making a difference in Atlanta.

We look forward to reconnecting soon to discuss our next steps in Jacksonville.

Thanks again,

Jamo

Chief Marx,

I'm sure you heard the good news! We had a successful call yesterday from Lt. Beth Harkins/Unit 28 about a patient who tripped over his dog, injuring his elbow. JFRD activated RightSite, and we navigated the patient to urgent care visits (Avencina Medical) vs. a trip to the ER, including providing round-trip Lyft transportation. Exciting!

I also have an update and a request.

Extended Hours: Please let your crews know that starting today, we are extending hours to 11 pm ET, M - F, including holidays. We will be open on Labor Day. We have some flyers to remind your crews about the extended hours and bag tags you might consider using on the medic bags. That's a simple reminder to the crews: "Want to talk to an ER doc right now?" Swati will send you samples to see if you think those will be useful.

Update RightSite Browser Shortcut on JFRD Toughbooks: Can you please ask the crews or JFRD IT to check the RightSite URL link on the Toughbooks? We may have loaded a generic shortcut/URL that keeps the RightSite Navigators from knowing that the call is coming specifically from JFRD. Here is the correct URL assigned to JFRD.

Good Morning Chief Marx,

Attached is a flyer that Capt. Keeney can distribute amongst the crew (and add it to their folder) to remind them about RightSite extended hours (new hours: 7 am - 11 pm ET Mon- Fri).

It is a one-pager, to be printed front and back and includes 4 methods that they can use to activate RightSite (with QR code and phone number). It has a handy "great fit/good fit" list to call RightSite and also includes some FAQs that crew/patients might have.

I will be mailing these and bag tags but thought in the meantime you can use this soft copy for distribution.

Also, a friendly reminder: RightSite is open on Labor Day.

Please let me know if you have any questions or need any additional information.

Regards,
Swati

We have some flyers to remind your crews about the extended hours and bag tags you might consider using on the medic bags. That's a simple reminder to the crews: "Want to talk to an ER doc right now?" Swati will send you samples to see if you think those will be useful.

Update RightSite Browser Shortcut on JFRD Toughbooks: Can you please ask the crews or JFRD IT to check the RightSite URL link on the Toughbooks? We may have loaded a generic shortcut/URL that keeps the RightSite Navigators from knowing that the call is coming specifically from JFRD. Here is the correct URL assigned to JFRD.

Good Morning Chief Marx,

Attached is a flyer that Capt. Keeney can distribute amongst the crew (and add it to their folder) to remind them about RightSite extended hours (new hours: 7 am - 11 pm ET Mon-Fri).

It is a one-pager, to be printed front and back and includes 4 methods that they can use to activate RightSite (with QR code and phone number). It has a handy "great fit/good fit" list to call RightSite and also includes some FAQs that crew/patients might have.

I will be mailing these and bag tags but thought in the meantime you can use this soft copy for distribution.

Also, a friendly reminder: RightSite is open on Labor Day.

Please let me know if you have any questions or need any additional information.

Regards,
Swati

Chief Marx,

I'm sure you heard the good news! We had a successful call yesterday from Lt. Beth Harkins/Unit 28 about a patient who tripped over his dog, injuring his elbow. JFRD activated RightSite, and we navigated the patient to urgent care visits (Avencina Medical) vs. a trip to the ER, including providing round-trip Lyft transportation. Exciting!

I also have an update and a request.

Extended Hours: Please let your crews know that starting today, we are extending hours to 11 pm ET, M - F, including holidays. We will be open on Labor Day. We have some flyers to remind your crews about the extended hours and bag tags you might consider using on the medic bags. That's a simple reminder to the crews: "Want to talk to an ER doc right now?" Swati will send you samples to see if you think those will be useful.

Update RightSite Browser Shortcut on JFRD Toughbooks: Can you please ask the crews or JFRD IT to check the RightSite URL link on the Toughbooks? Chief,

This is great news, and Steve it's a pleasure to meet you.

Steve, do you have any time next week after Tuesday when I might be able to give you a call?

Hope everyone has a good weekend,

Jamo

> I'm excited to share some recent changes with Right Site that will make reaching out to them even easier and more efficient! There's a new feature now available when using the

patient's phone to initiate a call, streamlining the process for non-emergent inquiries.

Right Site has always been a fantastic resource, and with these updates, it's only going to get better for both you and our patients. The attached PDF provides all the details you need to get up to speed with these changes.

If you're interested in learning more about Right Site or have any questions, feel free to reach out to me anytime. I'm happy to provide more in-depth information!

Let's continue working together to make sure our patients get the best care possible.

Best regards,

Good afternoon and happy Monday!

As Swati previously mentioned, we have a new feature for using the patient's phone when activating RightSite. We have created a one page document (front and back) to show the field teams how to activate on their device or how to activate on a patient's device. The PDF is attached for your review. I think you'll find it so easy, there's no training necessary!

I would be happy to laminate them and send them your way - just let me know how many to send.

Also, I would like to offer a quick visit in the coming weeks, to sit with the 911 communications center and maybe go to a fire station or two. We can talk about how it's going and their experiences with the new feature overall.

Looking forward to hearing from you! Thanks Chief Marx.

Hello Chief Marx!

Thanks again for your patience. We are scheduled to arrive the evening of March 3rd, to be ready for visits all day on the 4th and 5th. We fly out the morning of the 6th. We can talk specifics as the dates approach but hopefully this gives you a better idea of what to plan. Jared will be with me and we would love to visit the dispatch center and any fire stations you feel would be beneficial.

Looking forward to it!

Subject: Using the patient's device - New functionality and documentation

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Good afternoon and happy Monday!

As Swati previously mentioned, we have a new feature for using the patient's phone when activating RightSite. We have created a one page document (front and back) to show the field teams how to activate on their device or how to activate on a patient's device. The PDF is attached for your review. I think you'll find it so easy, there's no training necessary!

I would be happy to laminate them and send them your way - just let me know how many to send.

Also, I would like to offer a quick visit in the coming weeks, to sit with the 911 communications center and maybe go to a fire station or two. We can talk about how it's going and their experiences with the new feature overall.

Looking forward to hearing from you! Thanks Chief Marx.

Dr. Elias,

I missed seeing you on the check-in on Monday.

We have offered to meet more regularly than the weekly meetings that currently exist with the larger group. Do you still want to set that up? It can be anything that works best for you! Daily check-ins are common with our partners, and I would happily accommodate that with you if you would like.

Thanks,
Mene

Jamo,

After our meting yesterday we are working on a process to make this work. Are you available Tuesday, October 29th for a demo for us to show you and JFRD administration what this process will look like? We should be able to do it via google meet or in person if you choose to come. We're hoping to be able to do this around 10am.

Subject:	Right Site Implementation for Alpha and Omega Call Types
Date:	Friday, November 22, 2024 1:49:06 PM
Attachments:	image001.png Priority Determinant Codes for Right Site.docx FRCC.RightSite Policy.docx

---

Matt,
Starting Monday, November 25th, I would like you to begin using Right Site for the approved Alpha and Omega call types. I need you to evaluate this process and provide feedback so we can make any necessary adjustments before training the rest of the center. I understand this is short notice, but I am confident in your ability to excel.
Please meet with Lt. Hinton to explain the Right Site process, as he is not familiar with the project. Additionally, ensure that your shift understands what the pseudo Right Site units are and the appropriate actions to take when a pseudo Right Site unit appears in the pending queue. At this time, you are the only person authorized to use this system.
A.K. will be adding the Right Site number to the phone system: 904-441-1357. Below is the script you will need to read to the caller. If the caller does not understand, explain that you can connect them with a doctor over the phone instead of dispatching JFRD units. If the caller declines to use Right Site, please make a detailed note in CAD.

I'll escalate your call to an ER doctor to help you immediately by video or phone. First, we'll speak with the doctor's assistant. I need to share some important information with them, and then they will connect you with the doctor right away.

Remember this is for first party callers only! I've attached a copy of the FRCC Right Site Policy and approved determinant codes.

Thank You,

J. Brien Marx

Swati,

Attached is our training schedule for Jan. 16th-21st. We are projecting 27 rescues over 6 days. We hope to training approximately 162 people, this is subject to change due to personnel schedules. The training will be at JFRD HQ on the 5th floor. Please let me know if you have any questions, I'm sure we'll be in contact before then.

Hi Karen –

As we discussed yesterday, wanted to get on your calendar along with Dr. Jamo Rubin to hopefully finalize discussions regarding Rightsite's EMS Telehealth partnership with JFRD/COJ.

In addition to Chief Powers it would be productive to have Dr. Brad Elias and Dr. Sunil Joshi there as well.

Could you let us know some times that you and your team are available to meet at City Hall the week of April 1? We will make ourselves available at your convenience.

Thank you so much,

-Jason G.

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Chief Marx,

Can we set up standing weekly calls to review progress, troubleshoot issues, and get feedback for improving RightSite's work? What's the best way to schedule this call, and who should we include?

On that call, we can discuss these items:

- Identify a JFRD trusted advisor (like off-duty EMS crew) that RightSite hires to circulate with the stations, answering questions and doing test calls
- Ask Dr. Elias to Include more non-emergent codes on the "good fit for RightSite" list (our medical director is contacting Dr. Elias today about this)
- Work with Captain Bernard to generate run reports we can use to measure how often EMS crews are taking advantage of RightSite when appropriate
- Sending continuous communications from the fire chief, EMS section chief, medical director, and shift supervisors to the front line about RightSite (what is it, why are we doing it, what impact will it have you as a firefighter and for the patient, and what happens to JFRD if we don't solve for non-emergent runs)
- Changing habits is hard, and while calling RightSite might be an obvious choice, it's still a change of routine for the EMS crews. Utilizing change management best practices will help JFRD EMS crews remember to call RightSite

Thank you for your time on this. We are convinced that our JFRD + RightSite partnership will be another "first" JFRD brings to Florida communities.

Date: Monday, September 22, 2025 10:18:28 AM

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Chief Marx and Dr. Elias,

Kristeen is working on updating the "Cheat Sheets" for JFRD. The following codes are the ones I took note of during our August meeting that were flagged as not RightSite eligible. Please review and confirm.

- 2A02I
- 2A02M
- 17A01E
- 17A01G
- 17A01P
- 17A02E
- 17A02G
- 17A02P
- 17A03A
- 17A03G

If you've got an updated list of Alpha and Omega calls that are not RightSite eligible that is different from what is listed above please let me know.

Best,

--

Subject: RightSite Field Training
Date: Friday, August 22, 2025 10:15:00 AM

Jamo,

Chief Marx and I were talking about the field training, and we agree that as long as the patient does not have a condition that falls into the mandatory transport requirement, RightSite can be utilized. I believe this will further open up more potential field activations for RightSite.

We also want to encourage the field activation of RightSite for the frequent callers that would benefit from the navigation services provided by RightSite.

Hopefully, these points can be highlighted in the upcoming training. I will try to present for at least some of these sessions for further emphasis.

Karen and Lynn,

Thank you again for your time last week and interest in RightSite's service for non-emergent 911/EMS callers. We are excited about the partnership with JFRD and improving medical and social care for the Jacksonville community.

Lynn, as promised, here's a copy of the deck we brought to the meeting.

We also look forward to meeting with Jax Care Connect and its partners. Please let us know what the next steps are to get that scheduled.

Hope you all had a great Thanksgiving holiday,

As Hurricane Milton approaches, we want to remind JFRD crews that RightSite Health remains fully available to support your teams throughout the storm.

RightSite will ensure continuity of care for non-emergency patients, reducing unnecessary transports and alleviating pressure on hospitals and EMS during this critical time.

By utilizing RightSite, JFRD can maintain focus on urgent responses while still providing the most appropriate care through real time video encounters with RightSite's Board Certified Emergency Physicians.

Stay safe, and remember that RightSite is here to help you manage patient needs Monday-Friday 7 AM-11 PM EST.

Brien,

As a follow up and for you to share with Dr. Elias, Chief Powers or others, here are two documents that address diversion rates in Atlanta as a reference, and the "Good Fit" list used by our partner EMS Medical Directors for their field and PSAP teams. It's a high level guide to a non-emergent inclusion/exclusion list.

I hope this information is helpful Please let me know if you'd like to discuss in more detail, or would like additional information.

Thanks,

Jamo

Subject:	RightSite test call & go live plans for Monday, November 25th
Date:	Sunday, November 24, 2024 1:37:15 PM

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Hello Matt!

Thanks so much for jumping in and taking care of our first test calls with JFRD Dispatch! We're looking forward to a fabulous partnership with you and your teams. My name is Kristeen Pierce and I will be your training contact and assistant for all your training needs. Before we begin, we would like to offer some scheduling for Monday, so we are all fully prepared.

Chief Marx mentioned you would be doing a test call before working with an active caller on the line - that's great! I would like to suggest that we plan the test call, so that you and I can be the people working through all the steps necessary to make our first live call a success. Here's the schedule I would like to recommend:

- Please complete your test call between 9:30am & 9:45am Eastern. I will answer the call and we will walk through the entire process.
- At 10am Eastern we can meet for a quick training run through (I will send an invitation with a Zoom link for all that would like to join) to answer any remaining questions we might have from the test call.
- From that time on, let's see if we can get 1-2 live calls completed in real time. I will make sure my navigation team is aware and ready to take your calls.
- Let's then meet one more time, to talk about the experience with live calls you experienced. (I will send another zoom invitation) We've found from experience just about anything can happen with a patient on the phone! This will be a quick check-in, to see if any of our processes need to be adjusted. I will schedule it for 4:30pm Eastern. Hopefully at least one call has come through by that time. We can always adjust our calls if needed.

Thanks again for helping us make this a success! Looking forward to working with you and making an impact in the Jacksonville community with our partnership.

Brien,

I know the team is looking forward to coming out next week. However, given that we are also working on some data to prepare for a meeting with Chief Powers and Dr. Elias, I think it might be better to postpone next week's trip, and reschedule when we can be there for both the dispatch conversation and the field training.

Does that make sense?

Thanks,

Jamo

Hello Dasha!

Jared and I will be in town next week to visit the Comm center and some of the fire stations. I would love to find a time to talk with you about how you feel it's going in Dispatch and what we might need to offer from a training perspective. We will be there Tuesday March 4th and Wednesday March 5th, all day both days. I have already reached out to Chief Marx about visiting stations and he is working on the schedule for us. Please let me know if either day works for you and if so, what times you are available. We will coordinate with both you and Chief Marx to use our time most wisely.

Looking forward to catching up!

Good afternoon Chief Marx!

We have been looking through our data and have come up with a list of folks to visit. Here's what we have found:

- Rescue 65 has 3 people who have called - Corey Nail (7 times), Terry McClain (3 times), Jeff Burton (1 time).
- Rescue 33 has 3 people who have called - Lt James Davis (20 times), Jonathan Ortiz (2 times), Carlos Daniels (1 time).
- Rescue 18 has two people who have called - Jesse Modican (7 times) and Jacob Thibidaut (1 time)
- Rescue 17 has two people who have called - Ronald Gill (5 times) and Matthew Griggs (2 times).
- Rescue 24 had two people who have called - Rachel Miller (4 times) and Chad Pontree (1 time)

That's the top 5 stations that have called us so far. However, there are two of the folks listed above who work for multiple Rescues, so I don't know if the Rescue numbers are correct. The two on our lists that work for multiple services are

- Lt. James Davis - He's called with 27, 33, 36 & 61
- Ronald Gill - He's called with 10 & 17.

I'm open to suggestions for the visits, so please let us know your ideas and preferences. We are flexible!

I would also like to reach out to Dasha before we arrive. She was an integral part of our training Dispatch sessions and I would like to send her a list of Call Taker/Dispatcher names who have called multiple times. I would like to sit in Dispatch more than once (maybe AM an PM) to talk to more than one shift and would love for Dasha to be a part of any or all of it. Please let me know your thoughts, Chief Marx.

Thanks for hosting us! We're looking forward to our visit.

Kristeen

Michael, it was great meeting you last week, and I hope you had an enjoyable weekend. Attached, you will find the RightSite Weekly Data template. Our goal is to utilize this data to optimize our provision of services and to keep you and your leadership informed of the system and the status of the program. We are hoping to have the data template completed on a weekly basis and forwarded to us so we can do some analysis, looking at efficiency and effectiveness.

I have also attached Swati Swani, who will be doing much of the processing and report building. She is a wealth of knowledge, and we are lucky to have her on the team. If you have any questions or concerns about the template or definitions of what we are seeking, or if we can be of any assistance, please do not hesitate to reach out. Thank you for your time in helping us develop these reports and data sets.

Respectfully,

Bryan Norris

Good Morning Dasha,

I hope you and your family had a wonderful holiday. Since the training, we have had a steady input of calls from JFRD —seven calls this week (one from the field)!

I noticed that Kassidy had called us three times in the last three days and provided us with 17SP10 as the determinant code instead of 26 Alphas and Omegas. I don't want to discourage her from calling RightSite, but I wanted to make sure that she is doing the step of finding the right determinant code in ProQA. It might be as simple as her not providing the right code to the navigators. Can you please check?

Please let me know if you need any additional information from me.

Thanks,
Swati

Hi Chief Marx,

Thank you for your time on Tuesday to review the partnership data after the long week of training. We are excited to see this data and share with you for review and feedback. This data has been updated with dates as requested and will be provided in our weekly call going forward.

It is encouraging that we are continuing to see your team utilization RightSite as the week has progressed.

Please let me know if you have any questions. Dr. Demestihas will be reaching out to Dr. Elias to discuss clinical cases.

Best regards,

Jared

Good Afternoon All,

Hope you all had an enjoyable Christmas!

RightSite will be fully operational on both New Year's Eve and New Year's Day, ensuring uninterrupted care for your patients.

Attached is the flyer for New Year's Eve and New Year's Day. Please distribute to your crews that are working the holiday.

Regards,
RightSite Team

Can we move this to later today? I'm worried I may not be finished with an earlier commitment - 4p EST is best or we can look at times for tomorrow?--

Good afternoon,

I wanted to share a quick update on scripting and our plans for Field Re-Engagement. Stacey and Natasha have drafted an updated script, and we'd like to review it with you during our scheduled meeting on Tuesday, Sept 2.

I'm also planning a trip to Jacksonville the week of Sept 8 to go over field training/re-engagement logistics, connect with a few end users who have worked with RightSite in the field, and cover anything else you feel would be helpful. I'm looking at Sept 9 and 10 for those visits.

Please let me know if those dates work on your end.

Hello Chief Marx,

JFRD Summary Dashboard and list of cases are attached. The case-level report has all the cases for February 2025 activations. Please let me know if you need any additional information.

Thank you for sending us the list of CAD signal codes—I really appreciate it! When you have a moment, could you please let me know if you'll be able to share the mapping with the determinant codes as well?

Thanks,
Swati

Hello all!

Attached are the slides and the one sheet we went over today during our call. Thanks so much for your input and help! Here's what we would like you to add to these documents:

- Update the three slides in yellow (we will remove the color once you've added your content) with the needed screenshots and bullet points you would like the Call Takers to know. Create as many additional slides as you feel it takes.

- Update the one sheet with your bulleted steps in three areas:
  - What to do when the patient accepts
  - What to do when the patient declines
  - What happens when we call back (canceling off the board or EMS response)

If you have any questions, please don't hesitate to reach out. Looking forward to next week!

Dr. Elias, Chiefs Marx and Blanton,

Thank you for driving to Atlanta and meeting with our friends at AFRD and Grady EMS. I appreciate the time away from your duties and hope it was well spent.

While Atlanta faces different challenges than Jacksonville, the strain on EMS and the city due to non-emergent 911 calls for primary care is a common pain shared by all communities. I hope you saw how we are helping making a difference in Atlanta.

We look forward to reconnecting soon to discuss our next steps in Jacksonville.

Thanks again,

Jamo

Jared,

I think the Tuesday meetings came off my calendar.
Can you resend a recurring invite?

Swati,

I've had something come up on Tuesday that conflicts with our meeting. Is there any way we can move the meeting to the morning sometime?

Kind Regards,

Brien Marx

Subject: Update - and our first successful call!
Date: Wednesday, August 30, 2023 10:47:16 AM

EXTERNAL EMAIL: This email originated from a non-COJ email address. Do not click any links or open any attachments unless you trust the sender and know the content is safe.

Chief Marx,

I'm sure you heard the good news! We had a successful call yesterday from Lt. Beth Harkins/Unit 28 about a patient who tripped over his dog, injuring his elbow. JFRD activated RightSite, and we navigated the patient to urgent care visits (Avencina Medical) vs. a trip to the ER, including providing round-trip Lyft transportation. Exciting!

I also have an update and a request.

Extended Hours: Please let your crews know that starting today, we are extending hours to 11 pm ET, M - F, including holidays. We will be open on Labor Day. We have some flyers to remind your crews about the extended hours and bag tags you might consider using on the medic bags. That's a simple reminder to the crews: "Want to talk to an ER doc right now?" Swati will send you samples to see if you think those will be useful.

Update RightSite Browser Shortcut on JFRD Toughbooks: Can you please ask the crews or JFRD IT to check the RightSite URL link on the Toughbooks? We may have loaded a generic shortcut/URL that keeps the RightSite Navigators from knowing that the call is coming specifically from JFRD. Here is the correct URL assigned to JFRD.

URL: https://ems.rightsitehealth.com/org/7X9K48HIN6YTCIKBOTMK

Thanks!

Jamo

Chief Marx,

Hope you enjoyed the Labor Day weekend.

Just wanted to follow up and share information on calls we've had so far. There have been three, initiated by Capt. Perrotta, Lt. Harkins and Lt. Lundy. Release times have averaged 12 minutes. Two patients were sent to urgent care, and one to the ER.

Also, on one follow up call, the patient said they were unhappy with the service and we'd like permission to reach out to Lt. Harkins to learn more about the call. Would she be willing to talk to us? We don't have her contact information if she agrees.

Thanks, and look forward to talking soon.

Jamo

Jamo,

From our discussion earlier this week, I may have found someone interested in working for Right Site. His name is Steve Huber, he's a retired Battalion Chief with JFRD rescue division. He's very knowledgeable with our policies and procedures and is highly respected with our current responders. I've copied Steve on this email and hope we can all connect very soon.

Hope you have a great weekend!

Subject: Updates to Right Site for Better Patient Support!

All,

I'm excited to share some recent changes with Right Site that will make reaching out to them even easier and more efficient! There's a new feature now available when using the patient's phone to initiate a call, streamlining the process for non-emergent inquiries.

Right Site has always been a fantastic resource, and with these updates, it's only going to get better for both you and our patients. The attached PDF provides all the details you need to get up to speed with these changes.

If you're interested in learning more about Right Site or have any questions, feel free to reach out to me anytime. I'm happy to provide more in-depth information!

Let's continue working together to make sure our patients get the best care possible.

Best regards,

Brien Marx

Good afternoon and happy Monday!

As Swati previously mentioned, we have a new feature for using the patient's phone when activating RightSite. We have created a one page document (front and back) to show the field teams how to activate on their device or how to activate on a patient's device. The PDF is attached for your review. I think you'll find it so easy, there's no training necessary!

I would be happy to laminate them and send them your way - just let me know how many to send.

Also, I would like to offer a quick visit in the coming weeks, to sit with the 911 communications center and maybe go to a fire station or two. We can talk about how it's going and their experiences with the new feature overall.

Looking forward to hearing from you! Thanks Chief Marx.

Kristeen
