APPLICATION FOR CREDIT: NPDES INDUSTRIAL STORMWATER PERMIT [2%]

FORM 9 – Page 2 of 2

The Florida Department of Environmental Protection (FDEP), on behalf of the U.S. Environmental Protection Agency (EPA), requires certain types of industry to obtain and comply with a National Pollutant Discharge Elimination System (NPDES) Industrial Stormwater Permit to manage and monitor stormwater runoff from industrial sites.

When an NPDES Industrial Stormwater Permit issued to a non-residential customer requires the specified industry to conduct water quality monitoring, they may be eligible for a 2% credit, if:

- Water quality testing results are consistently at least 10% below their permit required discharge limits during each sampling event;
- Copies of the water quality test results are available for review by the city; and
- Industry is in compliance with all permit requirements.

Applications may be submitted to:

Jacksonville Stormwater Utility Credits
214 N. Hogan Street, 10th Fl.
Jacksonville, FL 32202

E-mail to stormwater@coj.net
(Be sure to include all supporting
documentation with your e-mail)

The Chief Engineer or his designee(s) will review all applications and render a decision prior to the submittal of the final non-ad valorem assessment roll. Denied applicants may appeal to the Director of the Jacksonville Stormwater Utility (currently the Director of Public Works). Visit www.coj.net/cityfees or call 630-CITY (2489) for details.
