Good Afternoon David,

Please forward to the appropriate parties.

The table was populated with the end of July PPI as Richard had mentioned in his previous email. Please note as well that the models that were unavailable were listed as NA, for pricing purposes. When the 2023 pricing is made available and GM releases Government the ability to order and apply for concessions, we will provide those models at that time.

Thank you!

Starke Motorcars dba Duval Chevrolet is unable to supply the following models contained in contract sc-284-21 for the balance of the 2022 model year due to manufacturer's cutoff occurring abruptly prior to mid September 2021:

1. 1500 series trucks [Item 3, 4]
2. 2500 series trucks [Item 3, 4]
3. 3500 series trucks [Item 3, 4]
4. Tahoe, all series [item 7,8]

Since vendor/ OEM price increases impact the options and base vehicle pricing, Duval Chevrolet is unable to extend the remaining available items without a substantial price increase on the base vehicle bid and every option line contained therein.

Since this requires a complete revision and timing is of the essence, Duval Chevrolet is willing to accept the City's request for extension for the additional year if each option line item and base vehicle price is escalated at 7.8% for Specification/ Items: [1, 2, 5, 9, 11, 12, 13] matching the July ending Price producers index found reflected here: www.bls.gov.
