Re: Request for Continuation of In-Jail Corrections Program Services

Dear Ms. McMillan:

River Region Human Services, Inc. hereby formally requests the continuation of the public private partnership inaugurated in 1991 to provide substance abuse and dependency services within the Duval County Jail system. This continuance is for the second year of the five-year agreement on P-58-17.

National, state and our own local outcome studies have consistently demonstrated the effectiveness and efficiency of providing rehabilitation services to offenders. Consultants who have reviewed these services have each complimented the usually high level of cooperation and collaboration between the City of Jacksonville, the Jacksonville Sheriff's Office, and River Region Human Services. This concerted effort also works to reduce recidivism within the court and jails, and improves public health.

This request is congruent with the Mayor's strategic plan for the City of Jacksonville to reduce criminal activity in order to make our community a safe place to live, work, and raise a family. Jail-based substance abuse treatment services strengthen the families within our community, thereby positively affecting both neighborhoods and schools.

They also increase overall public safety by reducing criminal involvement, thereby improving Jacksonville's living, working, and recreational environments. In addition, these services reduce criminal recidivism by providing cost-effective, in-jail substance abuse treatment services within the Duval County Correctional System.

Sincerely,

Kenneth Arnold, MBA, CAP
Chief Operating Officer
