SINGLE SOURCE REQUEST

Pursuant to the City of Jacksonville Procurement Code § 126.206 & § 126.312, when requesting a purchase from a Supplier subject to the referenced sections, please complete this form to justify your request and submit to Procurement with applicable attachments

PROVIDE A SUMMARY OF THE SCOPE OF GOODS/SERVICES TO BE PROVIDED; IDENTIFY EACH ITEM, COMPONENT OR SERVICE BEING PROCURED (ATTACH QUOTE/PROPOSAL):

Purchase (105) Motorola APX6000 portable radios with accessories from Motorola Solutions Inc. for Jacksonville Fire & Rescue Department personnel. ITD request permission to trade-in (105) End of Life Motorola radios to be properly destroyed by Motorola Solutions.

PROVIDE A DETAILED JUSTIFICATION AS TO WHY THE REQUESTED GOODS/SERVICES CAN ONLY BE EFFICIENTLY AND EFFECTIVELY PROCURED THROUGH THE RECOMMENDED SINGLE SOURCE PROVIDER:

The Motorola APX6000 two-way radio is fully compatible with the current City of Jacksonville Motorola radio network. Motorola radios is the approved/supported radio currently being used by the Jacksonville Sheriff, Fire Department, General Government Agencies, JEA,JAA,JTA, Duval County School Board PD, Neptune and Atlantic Beach PD, and UNFPD.

ASSERT THAT YOU HAVE RESEARCHED THE AVAILABILITY OF THE REQUESTED GOODS/SERVICES FROM OTHER SOURCES IN APPLICABLE MARKETS AND HAVE DISCUSSED AND EVALUATED THE SAME WITH COJ'S PROCUREMENT AND EBO DIVISIONS:

See attached memorandum from vendor. Management has researched the ability to needed goods and/or services from the other vendors and confirmed that Motorola Solution Inc. is the only vendor able to provide the required services for the P25 system.

Subject: Fiscal '20 - '21 FCRS APX Device Purchases

Dear Ken:

Motorola Solutions, Inc. is pleased to have the opportunity to provide the City of Jacksonville a proposal to refresh a portion of the First Coast Radio System (FCRS) devices for Public Safety and Service. As we evaluated configuration settings for these devices, we considered the features available with your ongoing public safety technology initiatives; ASTRO® 25 RELEASE 7.17, PremierOne™ CAD, and CommandCentral Aware (RTCC). APX™ Devices combined with these solutions allow the following optional system features to be utilized:

- ASTRO 25 Outdoor GPS Location can track the location of your personnel through the integrated GPS in your APX device. We are including 1000 device licenses.
- Location on Push-To-Talk (PTT) allows an APX™ radio to send satellite-based location to a mapping application while involved in a voice call on every PTT. Location on PTT enables dispatchers to continue to view a radio user's updated location in near real time when accurate information is needed most, during emergency calls and periods of high voice traffic, for faster emergency response. Location updates are sent over the voice channel continuously during each voice transmission, during group calls or emergency calls. Location on PTT can be sent in addition to cadence-based, distance-based, or manual location updates already being sent over the data channel. Network upgrades included and 1000 device licenses.
- Customer Programming Software Radio Management simplifies APX™ radio configuration and management, saving you time and money while ensuring your users can accomplish their mission without interruption. Included up to 1000 device licenses.
- Integrated Wi-Fi And Data Connectivity allows for updating your radio fleet software more efficiently without interrupting voice communications or waiting for idle radios. Up to 20 WiFi Networks can be provisioned in the radio so that users can seamlessly receive radio software updates at facility Wi-Fi access points or in the field via WiFi hot spots. Included for all APX6000 devices proposed.
- PremierOne CAD Automatic Resource Location (ARL) helps agencies improve response times, efficiently allocate resources and better inform first responders. PremierOne CAD's highly customizable user interface offers quick access to information via a true location-based, Esri standard GIS map. This powerful GPS-aided resource management tool displays the location and identity of APX devices enabling a more efficient and coordinated response while further supporting officer safety. Included up to 1000 device licenses.

- CommandCentral Aware Inform Geospatial Event Mapping will be able to map Sheriff's Office APX6000 devices along with Camera locations, CAD incidents, open-source data alerts, and sensors can be visualized on the Inform mapping display. Network upgrades included and 1000 device licenses.

Therefore, in addition to the APX devices proposed, we are INCLUDING the necessary FCRS network upgrades to accommodate the above features at no additional cost for these devices. We know that our technologies work better together and we want the City of Jacksonville to be able to realize this benefit now rather than later.

In response to your inquiry concerning alternate sourcing for the APX™ digital two way radios under consideration for purchase. This product is distributed to the end user exclusively through Motorola's direct sales force. These products are not available through the Motorola dealer/reseller network.

This proposal consists of this cover letter along with the individual agency device quotes. This proposal shall remain valid through December 11, 2020. Motorola Solutions would be pleased to address any questions the City may have regarding the proposal. Questions can be directed to your Motorola Solutions Account Executive, Michelle Poole, at (904)814-9938.

Sincerely,

Motorola Solutions, Inc.
