SUBJECT: DEMOLITION OF THREE TOWNHOME PROPERTIES- 4504 NORTH KEN KNIGHT DRIVE; 7036 EAST KEN KNIGHT DRIVE; 4633 NORTH KEN KNIGHT DRIVE

BID #: JCF-0077-19 **OPEN DATE:** 01/09/19

GENERAL GOVERNMENT AWARDS COMMITTEE

KIND AND BASIS OF CONTRACT: CONSTRUCTION FIXED- JSEB SET-ASIDE

AGENCY: MUNICIPAL CODE

BASIS OF AWARD: TOTAL BASE BID (ITEMS 1-3) TO THE LOWEST RESPONSIVE, RESPONSIBLE BIDDER

NUMBER OF BIDS INVITED: (4) **NUMBER RECEIVED:** (2) **OTHER** (0)

SUMMARY OF BIDS AND RECOMMENDED ACTIONS:
Subject bid was awarded to ERS Corp, on 01/24/19 in the amount of $85,500.00; Item #2 amount was $28,500.00 which included $1,000.00 cost of asbestos survey as required by bid specifications. The performed asbestos survey requires an asbestos abatement be performed prior to demolition. In accordance with the specifications, the awarded contractor solicited three quotes for asbestos abatement from the following companies:

1) Darcco - $3,500.00; 2) ELS Abatement & Construction – $6,200.00, and; 3) Jensafe – $7,900.00

Recommend approval to increase award for Item #2 to ERS Corp, in the amount of $3,500.00 for the asbestos abatement. Total revised award amount for Item #2 not-to-exceed $32,300.00.

The award to be funded by account: ERCC1L2CP-03410 to be executed by Purchase Order/Change Order.

RE: Remove Asbestos Containing Materials at 7036 Ken Knight Drive East.

We are pleased to provide this quote for your consideration on the project as referenced above.

Scope of Work

- Mobilize all equipment and materials to site listed above.
- Removal of drywall system (white with star pattern/popcorn texture) ceiling.
- Removal is from a 2-story structure.
- The wet method will be utilized for the removal of asbestos containing materials.
- All ACM debris will be disposed of at and approved landfill.
- Employees will use personal protective equipment.
- All work will be performed during normal working hours.

The total cost of this project will be Seven Thousand Nine Hundred Dollars ($7,900.00).

CLARIFICATIONS:

1. Our proposal includes two (2) million dollar, per occurrence, one-million-dollar umbrella, per aggregate liability insurance coverage.
2. Work to be completed under current Federal, State, and Local agency regulation, which includes the filing of all notification and permits. Permit fees will be an additional charge, if applicable.

3. Asbestos material removed from the job site will be disposed of in an EPA authorized landfill and the disposal receipt provided to the customer.
4. Customer to provide access for asbestos contractor's vehicles and equipment near the immediate work area.
5. Ten working day notification is required / is not required / will be determined by Duval County Regulatory and Environmental, Air Quality Division.
6. This proposal is based upon 1 mobilization to the project site.
7. Customer to provide water and electric to job site.
8. Customer the responsible for any items saved prior to Asbestos Abatement.
9. Not responsible for damages during abatement.

We appreciate the opportunity to provide this quote to you on this project and look forward to working with you. If you have any questions or require further assistance, please do not hesitate to call me at (904) 695-1424.

Sincerely,

_____ _____

Jacksonville, Florida 32202

Reference: One (1) Two Story Structure – Asbestos Demolition Survey
7036 Ken Knight Drive East
Jacksonville, Florida – JON 6787

Dear Mr. Anderson:

Pursuant to your request an Asbestos Demolition Survey has been performed at the above location for the purpose of identifying asbestos that needs to be removed prior to the planned demolition of the structure. The purpose of the investigation was to visually identify homogenous materials that need to have bulk samples obtained for analysis to determine the presence of Asbestos Containing Building Materials with in the structure. The scope of this survey was limited to the referenced two story structure in Jacksonville, Florida. The building was inspected for demolition. The facility has one two story structure for demolition, which is constructed with period building materials. There were two (2) suspected materials that were sampled for Polarized Light Microscopy (PLM) analysis. Based on the visual inspection, it was evident that National Emission Standard for Hazardous Air Pollutants (NESHAP) 40 CFR Part 61 regulated Asbestos Material was found to be present at the facility. The scope of work for this survey included sampling and analysis of suspect homogenous building materials. The asbestos demolition inspection process was initiated on March 20, 2019. Materials must contain greater than 1% asbestos to be regulated. The following recommendations are provided for the materials that were found to contain Asbestos Fibers within the referenced structure.

RECOMMENDATIONS

Recommended response actions have been selected for all Asbestos Containing Materials identified by this survey within the facility. Recommendations for response actions, where arrived at, are stated as follows:

FRIABLE ASBESTOS CONTAINING MATERIALS

Friable Asbestos Material means any material containing more than one (1%) percent asbestos, that when dry can be crumbled, pulverized or reduced to powder by hand pressure.

(904) 665-0100 (904) 612-1456 • MOBILE (904) 665-0101 • FAX

Friable Asbestos Material was found in the following area:

None.

The above material is considered friable and must be removed by a Certified Florida Asbestos Abatement Contractor prior to any disturbance caused by renovation or demolition of the referenced structure.

CATEGORY I, NON-FRIABLE ASBESTOS MATERIAL

None.

CATEGORY II, NON-FRIABLE ASBESTOS MATERIAL

HM-1 Drywall System – White w/ Star Pattern/Popcorn Texture [2% Chrysotile Asbestos]

NONREGULATED BY NESHAP; REGULATED BY OSHA

None.

The preceding materials are considered a Category I or II Non-Friable Material and therefore, under normal circumstances, the Category I material does not need not be removed prior to demolition, because generally these materials do not release significant amounts of Asbestos Fibers, even when damaged.

Category I material must be kept wet to prevent the release of fibers during demolition. The Category I asbestos waste must be placed in a permitted asbestos landfill in accordance with FDEP regulations. Friable asbestos and Category II material must be removed prior to demolition or renovation of the structure. Yet, in the event removal is deemed necessary as a part of renovation all Asbestos Containing Material should be removed by a Florida Licensed Asbestos Contractor. The building materials identified in this asbestos renovation survey were in good condition to significantly damaged at the time of the inspection. The material condition can change over time and will degrade with exposure to water, air movement, physical damage, weather and chemical exposure.

The structure has an address of, 7036 Ken Knight Drive East, Jacksonville, Florida. The facility was at one time a residential home. The facility has one two story structure for demolition.
