**JACKSONVILLE CITY COUNCIL  
RESEARCH DIVISION**

**OPIOID EPIDEMIC SPECIAL COMMITTEE MEETING MINUTES**

**November 20, 2018**

**3:30 p.m.**

**Lynwood Roberts Room  
First Floor, City Hall  
117 W. Duval Street**

**Topic:** Opioid Epidemic Special Committee

**Attendance:** Council Members Bill Gulliford (Chairman), Tommy Hazouri, Greg Anderson and Jim Love; Colleen Hampsey – Council Research Division; Paige Johnston – Office of General Counsel; Carol Harper – ECA District 13; Chief Mark Rowley- Jacksonville Fire and Rescue Department

See attached sign-in sheet for additional attendees.

**Convened:** 3:33 pm

Councilman Gulliford convened the meeting and asked for introductions. Mr. Gulliford described proposed legislation which will establish an opioid treatment trust fund to receive private donations to be allocated to various community programs.

Rico Bodin, Gateway, spoke briefly about the Project Save Lives program. There are currently negotiations occurring to expand the program to additional hospitals. Chief Mark Rowley, JFRD, provided an update on opioid overdose responses, which are on a downward trend, as indicated on the graph distributed. JFRD Narcan usage in overdose responses in 2018 has decreased by 29 percent. Anecdotally, Chief Rowley noted that some of the overdose patients JFRD respond to have already received nasal Narcan, indicating that there is an increase in public access to the medication. Chief Rowley also told a personal story of being off duty but on hand when a man overdosed in a restaurant bathroom. Fortunately, he had Narcan with him that he had purchased privately and was able to save the man. JFRD recently applied and was approved for a Substance Abuse and Mental Health Services Administration (SAMHSA) grant which will provide funds for Narcan and educational outreach. The SAMHSA grant award is \$1.4 million over four years.

Ron Lendvay, Jacksonville Sheriff's Office, spoke about the enforcement side of the opioid epidemic. There have been increases in arrests and seizures, which may just be attributed to greater focus by the narcotics division rather than drug supply volume.

Tiffany Safi, Office of General Counsel, provided an update on the City's litigation against opioid producing pharmaceutical companies. There is currently a moratorium preventing the case from reverting to state court, but Ms. Safi is appealing to have the case remanded.

The discussion was then opened for informal public comment and several attendees spoke to the committee. Several attendees spoke about concerns for the medically assisted treatment (MAT) drugs simply replacing one addiction for another. Other attendees mentioned the problem with treatment center capacity and the risks associated with turning away individuals who are seeking help but for whom there are no spaces available. One attendee lamented the lack of treatment available through the Department of Corrections for those who need it after an arrest.

With no further business, Councilman Gulliford adjourned the meeting.

**Adjourned:** 4:33 pm

# CITY OF JACKSONVILLE OPIOID PILOT PROJECT STATUS REPORT

November 16, 2018

## PROJECT MANAGEMENT TEAM

NAME	ORGANIZATION	AREA OF RESPONSIBILITY
David Castleman	Jacksonville Fire and Rescue	Contract Administration
Dr. Raymond Pomm	Gateway Community Services	Program Developer and Medical Director
Dr. Huson Gilberstadt	St. Vincent's Medical Center – Riverside	Chief Clinical Officer
Courtney Robinson	Gateway Community Services	Lead Care Coordinator
Rico Bodin	Gateway Community Services	Recovery Peer Specialist Coordinator
Sarah Kim	Gateway Community Services	Data Collection
Lori Bilello	UF Health	Research, Analysis and Evaluation

## PROJECT OBJECTIVE

The purpose of the Opioid Epidemic Pilot Project dubbed "Project Save Lives" is to establish a program within Duval County that provides specialized, coordinated and seamless services for the treatment of opioid addiction and misuse, thereby reducing dependence on opioid drugs. The targeted services are provided by healthcare providers and include, but are not limited to stabilization and treatment for withdraw, connection to a peer, medication assisted therapy and seamless transfer to residential and/or outpatient treatment. The program and its services are currently provided through a partnership with the City of Jacksonville, Gateway Community Services, UF Health and St. Vincent's Health System.

## PROJECT STATUS

Project Save Lives began on November 16, 2017. Below is the latest update through October 31, 2018:

DESCRIPTION	COUNT
<b>TOTAL PATIENTS ELIGIBLE FOR PROGRAM PARTICIPATION</b>	<b>232</b>
EXPIRED PRIOR TO SERVICES	9
REFUSED ALL SERVICES (Includes hospital ICU patients and AMA's)	66
<b>ACCEPTED RECOVERY PEER SERVICES FROM ED INITIALLY</b>	<b>157</b>
DECLINED FOLLOW-UP or LOST (i.e., no phone services, relocated, death, etc.)	42
<b>TOTAL PARTICIPANTS ACTIVELY ENGAGED</b>	<b>115</b>
INITIAL TRADITIONAL (RESIDENTIAL/OUTPATIENT + PEER SERVICES)	47
PEER SUPPORT SERVICES ONLY	68

According to Medical Examiner's data, no patients have died due to an overdose after entering the Project Save Lives program.

Office (904) 630-7055  
E-Mail: DavidS@coj.net

515 N. Julia Street  
Jacksonville Fire and Rescue  
Jacksonville, FL 32202

### PROJECT EXTENSION AND LEGISLATION

The opioid epidemic program has been extended through September 30, 2019 with a line item appropriation in the City's FY 2018/19 budget (Ordinance 2018-0504). This appropriation will allow services to be expanded to three additional hospitals for a total of seven emergency departments. Legislation has also been introduced to provide an additional \$100,000.00 to the program to cover the rising cost of medications used to treat and combat opioid addiction. This amount is the equivalent of unused opioid epidemic program funding that was not carried forward into FY 2018/19.

### PROJECT EXPANSION

In the very near future, Project Save Lives will be bringing its services into both Park West ER and Memorial Hospital ER. Signed contracts from both HCA/Park West and Memorial Hospital have been submitted to the City and are in process of obtaining necessary approval and signatures. This expansion will significantly increase the access to recovery services for overdose patients in Jacksonville's Westside and Southside communities.

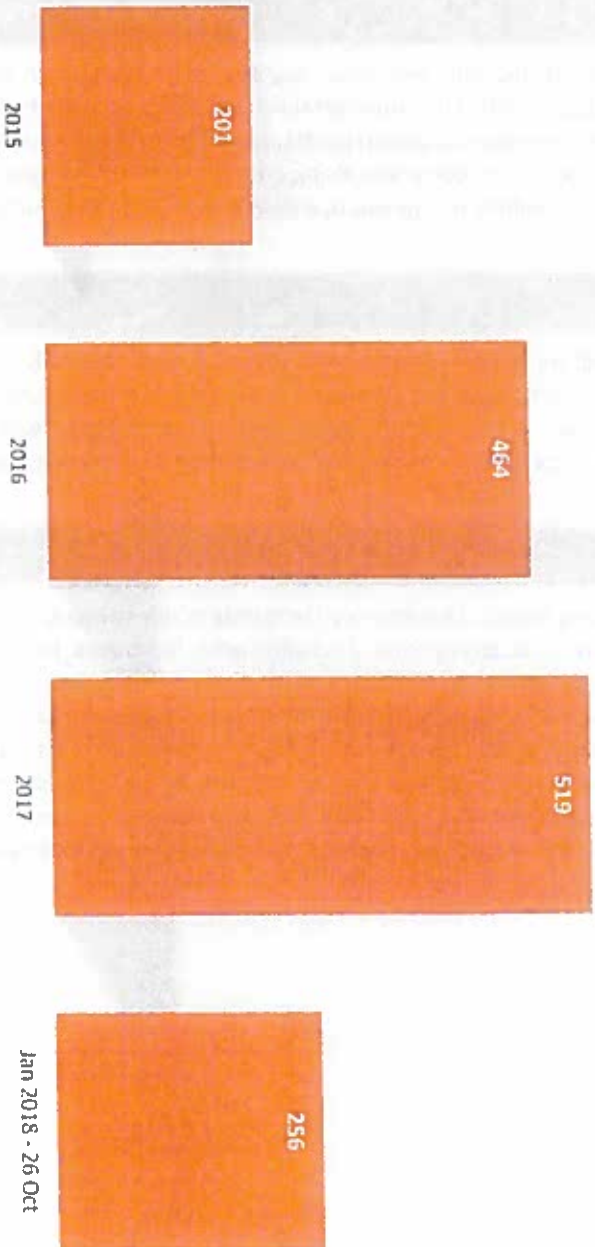

### PROJECT OPERATIONS

When overdose patients arrive at a participating hospital Emergency Department, lifesaving stabilization is the priority. Once stabilized, patients are met by a Recovery Peer Specialist who is housed in the emergency department. The Recovery Peer Specialist works alongside the team of physicians and nurses to further aid in the treatment of withdrawal and offer specialized residential and/or outpatient services. Patients who elect to participate are provided transportation with the Peer Specialist directly to Gateway Community Center. Patients who elect not to participate in immediate residential services are offered nasal Naloxone at no cost and closely followed by their Peer following discharge. This continued follow up and connection to their Peer allows patients to enter treatment at a later date, which may include participating in an intensive outpatient program or residential treatment.

DSC/mr

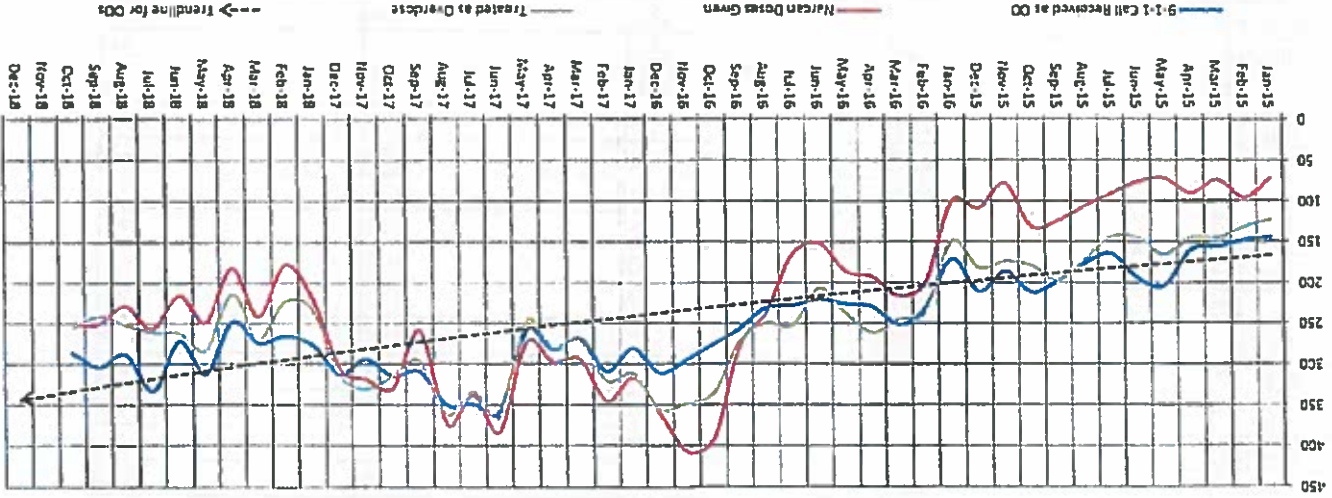

Please note: Florida has a very broad public records law. Most written communications to or from government officials regarding government business are public records and may be subject to public disclosure upon request.
