**APPLICATION FOR CREDIT: PERMITTED STORMWATER POND [30%]
FORM 5 – Page 2 of 2**

This application may be used to apply for a 30% credit on a property that is served by a stormwater pond/system that has received an Environmental Resource Permit (ERP) from the St. Johns River Water Management District (SJRWMD) or that was permitted by the Florida Department of Environmental Protection [formerly known as Department of Environmental Regulation].

The pond must have been certified by a professional engineer that it was built to meet all applicable design criteria for water quality and/or volume control, and the parcel(s) identified for credit must be within the service area of the permitted facility. Not every pond qualifies for credit; true stormwater ponds meet specific regulatory criteria for water quality treatment and volume (flood) control.

This is a one-time application. As long as the permitted stormwater facility functions as it was designed, this fee credit will be granted at 30% and remain in effect for each subsequent billing cycle. However, if the city finds that the stormwater facility is not operating as engineered/permitted to attenuate additional flow(s) and/or improve water quality, the city will revoke all credits awarded to every property associated with the application. To regain the credit, the applicant must submit proof that the system has been re-certified by a Professional Engineer.

The following conditions *are not* grounds for awarding credit:

- Properties that drain to natural waterways
- Properties served by sewer or septic, or piped water or well
- Properties that have a large amount of undeveloped or unimproved area
- Ponds constructed without a permit

Applications may be submitted to:

Jacksonville Stormwater Utility Credits
214 N. Hogan Street, 10th Fl.
Jacksonville, FL 32202

E-mail to stormwater@coj.net
(Be sure to attach supporting documents)

The Chief Engineer or his designee(s) will approve or deny applications. Denied applicants may appeal to the Director of the Jacksonville Stormwater Utility (currently the Director of Public Works). To receive credit for the current year, the application must be received no later than March 31 of the following year. Visit www.coj.net/cityfees or call 630-CITY (2489) for additional details.

Terms and Conditions

- The applicant must be listed as an owner of the property(ies) for which a credit is sought, or otherwise be an appointed representative of the owner or owners (e.g. Homeowners Association president) legally authorized to act on behalf of the owner. The applicant must be the signatory of the application.
- Applications submitted with insufficient supporting documentation will be considered based on the best information available to the city. It is solely the applicant's responsibility to ensure that appropriate and sufficient documentation is provided to support the request for credit. The city is not responsible for maintaining ERP information for private developments.
