FIVE YEAR CAPITAL IMPROVEMENT PLAN

FIVE-YEAR CAPITAL IMPROVEMENT PLAN

INTRODUCTION

The Capital Improvement Plan (CIP) is a multi-year forecast of major capital buildings, infrastructure, and other needs. The City of Jacksonville has adopted in Jacksonville Municipal Code Chapter 106, Part 1 Section 106.109 Capital Improvement Funding a "Five-Year Capital Improvements Plan that is designed to be financially feasible and provides the funding source and amount of funding for the capital costs of each project, and the funding source and amount of funding for the anticipated post-construction operation costs of each project". The Five-Year Capital Improvements Plan shall be filed and approved each fiscal year concurrently with the annual budget.

The adopted Capital Improvement Plan (CIP) for a five-year period beginning October 1, 2018 through the fiscal year ending September 30, 2023 includes location, funding and expenses for projects with current fiscal year appropriations.

The CIP incorporates needs identified in the Capital Improvements Element (CIE) required under the Growth Management Act of 1985. The CIE focuses on anticipated infrastructure requirements based on service level standards and the land use plan adopted by the City Council to prevent deficiencies in level of services.

In addition to the needs identified in the CIE, the CIP includes other improvements not covered by the Growth Management Act such as Public Safety, Targeted Economic Development, Public Facilities (primarily public buildings), and Environmental factors.

Capital projects are budgeted on an "all years" basis, an accounting practice used for funds that may need to carry over from one fiscal year to the next for a defined purpose such as funding a specific capital project or a grant.

On July 1, 2005, SB360 referred to as the "pay-as-you-grow system" took effect. It requires that the City must have committed funding sources to finance CIP projects for the first three years, and committed or planned funding sources for years four and five. Committed funding means funding based on expected revenues from an existing revenue source, {i.e. tax revenues and bonds}, versus planned revenue, which relies on a source that is not currently available to the local government. The definition of financial feasibility in sect. 163.3164(32), F.S., distinguishes between "currently available", or "committed" and "planned" funding sources.

PROCESS

Chapter 122 of the Jacksonville Municipal Code requires that the CIP be prepared annually by the City of Jacksonville's Finance Department through submittals received from various City departments, independent authorities, and agencies.

Departments complete a CIP request form with detailed project information and use a standardized matrix to score projects prior to submitting them to the Finance Department. The projects are then reviewed by the Departments of Public Works, Planning & Development, and Finance for reasonableness related to costs, operating budget and level of service impact. The Mayor's Budget Review Committee (MBRC) makes the final recommendation of projects for the Mayor's review and approval. The City Council then receives the Mayor's Proposed Five-Year CIP with the Proposed Annual Budget in July. Once adopted by the City Council the first fiscal year of the CIP becomes the city's Capital Improvement Budget for that year.

A typical capital project is planned and executed in the following phases:

Design & Engineering: These are costs incurred by the City to design a project in accordance with the scope of work set forth in the development phase. This includes professional consultant fees, legal and technical documentation, constructability review, data collection, advertising, assessment of alternatives related to project design, construction management services, and bid reviews.

Land Acquisition & Site Preparation: These costs are incurred by the City for the purchase of land, easements and right-of-way. This also includes purchase price, surveys, appraisals, environmental audit, permitting, legal costs, maps, charts, aerial photography, and other costs such as wetlands restoration.

Construction: This includes costs incurred by the City for all construction related tasks required to place a project in service. This includes project construction contracts, professional and technical assistance, advertising, legal and technical documentation, costs, inspections, testing, and permitting.

Capital Equipment: This includes costs incurred by the City for all capital equipment related to the needs of the specific facility/project. This includes public safety, telecommunications and AV equipment.

Misc. Equipment & Furnishings: This includes costs incurred by the City for the purchase of appliances, furniture, lockers, flagpoles, toilet accessories and lighting fixtures.

Art in Public Places: Ordinance 96-1105-677 created a new Part 9, Chapter 126, concerning public art. All vertical construction projects have a percentage of their construction cost transferred to the Art in Public Places Trust Fund. These funds are used to implement a City-wide plan for the creation and placement of artworks as developed and administered by the Art in Public Places Commission.

Per Chapter 122, Part 6, Ordinance Code:

Capital Improvement Project. Excluded from the term and definition of Capital Improvement shall be all Community Redevelopment Area Projects. Capital Improvement Project *means* a planned undertaking of the City or an independent agency that leads to the acquisition, construction, or extension of the useful life of capital assets. Capital assets include things such as land, buildings, parks, streets, utilities, and other items of value from which the community derives benefit. To constitute a capital improvement project, the project must:

- 1 Have a total cost greater than \$100,000 and a useful life of more than ten years,
- 2 Be a one-time outlay, which is non-recurring in nature.
- 3 Add to, enhance the value of, or extend the life of the City's physical assets.
- 4 Major equipment purchases must be associated with a Capital Improvement Project and must meet the criteria in item 1 above in order to be included as a Capital Improvement Project.

Any project which meets the definition of a Capital Improvement Project must be included in the Capital Improvement Plan, regardless of funding source.

Excluded from the definition of Capital Improvement Projects are:

- i. City vehicular equipment purchases. Fleet appropriations are to be considered within the Operating Budget.
- ii. Expenditures for maintenance supplies and materials or replacement items which shall be budgeted as operating items.
- iii. Purchases involving ongoing debt service or lease/purchase costs which shall be budgeted in the Operating Budget.
- iv. All routine resurfacing of streets, recurring annual items and routine maintenance and repair.

(b) **Capital Improvement Plan**. The Capital Improvement Plan (CIP) is a comprehensive five-year plan of proposed capital improvement projects, intended to identify and balance the capital needs of the community within the fiscal capabilities and limitations of the city budget. It is a significant element of the annual budget process and intended to be binding on future years in order to fulfill the purposes set forth above. While the CIP is updated annually and subject to change as emergencies arise or projects are delayed by circumstances beyond our control, the annual focus primarily will be on the fifth year of the plan as new projects are added. The first year of the plan is the basis for actual appropriations authorized by the City Council for capital projects when adopting the Annual Budget. The remaining four years establish priorities for future capital improvement projects.

(c) **Capital Improvement Plan Budget**. Capital Improvement Plan Budget shall be submitted annually with the City Annual Budget and is the first year of the Capital Improvement Plan. The required elements of the Capital Improvement Plan Budget are set forth in Section 122.603(b), Ordinance Code.

ADOPTED FIVE-YEAR CIP

The CIP contains 237 updated and/or new projects at \$1,444,573,330 for the next five years and beyond. This reflects a continued investment to provide for the health, safety and quality of life for our citizens. To assist in balancing and prioritizing needs across the City, departments identify projects by one of the following "Program Areas."

Drainage - Project that improves drainage conditions and reduces flooding

Environment/Quality of Life - Project that would promote or improve the environment for the citizens of Jacksonville (e.g. water treatment plants)

Parks - Project with buildings, grounds and/or recreational facilities within the park boundaries, also including the Preservation Project

Public Facilities – Project for facilities designated for primarily citizen use and includes facilities such as the county courthouse, arena and baseball park

Public Safety - Project relating to public safety including facilities

Roads/Infrastructure/Transportation – Project dedicated to expanding and widening roads; interchanges, overpasses and intersection improvements; and also includes road resurfacing, sidewalks/bike paths, as well as landscaping/tree planting along road improvement projects

Targeted Economic Development – Project is used to stimulate growth and revitalization by providing grants and loans for infrastructure, public improvements, and project development

CAPITAL PROJECTS OPERATING IMPACT

The CIP is an integral element of the City's budgeting process. The cost of operating new or expanded facilities or infrastructure can be significant and will be included in the operating budget in the fiscal year the asset becomes operational. In addition, the future operating impacts are incorporated into the five-year forecast that accompanies the Budget. More information can be found on the individual project sheets contained in this section on expenditures and operating impact related to each project.

FUNDING

The CIP is the city's financially feasible plan of capital projects. It includes project costs and schedules over a five-year period to meet the infrastructure needs of the City of Jacksonville and additional State of Florida growth management mandates.

The adopted FY18/19 Capital Improvement Plan (CIP) totals more than \$146.6 million dollars for 124 projects. In an effort to reduce the City's overall debt obligations, the FY2019-2023 adopted Capital Improvement Plan focuses efforts on repair and maintenance of city facilities while funding projects with as much pay-go (current revenue) as possible. In total, \$40.8 million is to fund projects with current available cash/grants while the \$105.8 million remaining is debt funded and will be used for compliance under the Americans with Disabilities Act for sidewalks, public buildings, parks, improvements associated with UF Health, McCoys Creek, the Jacksonville Zoo, the continued expansion of the Trail Ridge Landfill as well as various other projects.

General Government Capital Improvement Projects

Dept	Project Name	FY 18-19
FR	Fire Station #61 (Temporary)	\$200,000.00
FR	Fire Station #65 (new)	\$2,500,000.00

SD	Environmental Compliance - Countywide	\$700,000.00

Recurring maintenance of the City of Jacksonville's infrastructure is annually funded via the Capital Improvement Plan (CIP). The following page outlines the suggested minimums and targets as set forth in Municipal Code as well as a breakdown for how those minimums were met through funding in the fiscal year 2018/19 CIP.

In addition, pages following the comparison chart for recurring maintenance provide information on the various funding sources assigned to each project as adopted by the Mayor for fiscal year 2018/19 and beyond.

Project Title	Fire Station #61 (Temporary)
Project Location	Argyle Forest and Old Middleburg Rd
Department	Fire and Rescue
Program Area	Public Safety
Description or Scope	
The project is the construction and staffing of a temporary fire station facility in the Argyle Forest Blvd and Old Middleburg Rd area. The land for this project has already been acquired by the City of Jacksonville.	

Justification	
This need was identified in Phase I of the Public Protection Class Rate Reduction Study per Section 421.103. The area is beyond 5 road miles of the nearest fire station and is a Class 10 ISO area with residents paying higher homeowner's insurance. In order to meet ISO requirements in this area and improve the ISO rating, a new Station is needed. Placing a rescue unit here will reduce the avg response times to 8 minutes or less 90% of the time in accordance with the National Fire Protection Agency (NFPA) 1710 Standard. Currently, the closest rescue units' avg response times are 9 minutes 10 seconds.

Project Title	Fire Station #65 (new)
Project Location	Atlantic Blvd & St. Johns Bluff
Department	Fire and Rescue
Program Area	Public Safety
Description or Scope	<p>The project is the construction and staffing of a new fire station in the Atlantic and St. Johns Bluff community. A new Fire Engine and Rescue unit is included in this enhancement. Art in Public Places allocation for FY18/19 is \$7,500.00</p>

Justification

This project includes determining the proper location near Atlantic and St. Johns Bluff area, and subsequent purchase of a suitable property for the construction and staffing of a JFRD fire station. Build new Fire Station 65 as identified in the City's 2012-2016 Capital Improvement Program and Tri Data reports to reduce response times for fire and EMS runs.

Project Title	Fire Station #47 (new)
Project Location	Vicinity of Ethel Road
Department	Fire and Rescue
Program Area	Public Safety

Description or Scope

The project includes determining the proper location and subsequent purchase of a suitable property for the construction and staffing of a new JFRD Fire Station #47. Station would include an engine and a rescue unit.

Council District(s)	7
Project No	FR0019
Ordinance No	2008-656
BT No	

Justification

Homeowners within five road miles of the new fire station could see their insurance premiums reduced by as much as one half to two thirds. For the 626 homeowners affected this could mean more than \$1,064,200 in annual savings by way of lower insurance premiums. The old fire station is currently being used by ISO corrections and is inside a secure fence location. Optimally the station would be relocated to maximize ISO ratings to the community. This improvement will satisfy ISO requirements in an area of the county where there is currently no recognized fire protection. The need for this new fire station was identified in Phase I of the Public Protection Class Rate Reduction Study conducted by a private consultant in accordance with Section 421.103, Fire and Rescue Capital Study.

Project Title	Fire Station #17 Replacement
Project Location	710 Huron Street
Department	Fire and Rescue
Program Area	Public Safety
Description or Scope	Replace old Fire Station #17 located at 710 Huron Street. Replacement will include adding space for a new rescue unit and additional space for fire training, community programming and a voting precinct. The existing area will be cleared and turned into green space. A new Rescue unit is included in this enhancement. APP Allocation is slated to be \$33,750

Justification

The current Station was built in 1950 and has serious mold and design issues. This was recommended in the TriData Report and the City's 2012-2016 Capital Improvement Program.

Project Title	Fire Station #45 Relocation
Project Location	Sawpit Road
Department	Fire and Rescue
Program Area	Public Safety

Description or Scope

The project is for the construction of a new fire station south of the current location on Sawpit Road. Personnel and equipment for existing engine, rescue unit and tanker would be transferred to the new location. The land on which the existing fire station is located was donated and would revert back to the original donor. An Engine and Rescue are currently located at this Station. APP allocation is slated to be \$33,750

Justification

The new fire station was identified in Phase I of the Public Protection Class Rate Reduction Study conducted in accordance with Section 421.103. A new station must be built to provide fire suppression coverage that meets ISO requirements for areas west of Black Hammock Island. Homes built upon areas along Cedar Point Road and Boney Road have no ISO recognized fire protection. The current location is too far north and too close to the county line and does not efficiently cover a 5 road mile area per ISO requirement. Homeowners currently in this PPC 10 area could see their insurance premiums reduced by one half to two thirds when the fire station is built.

Project Title	Fire Station #25 Replacement		
Project Location	5423 Manor Drive		
Department	Fire and Rescue		
Program Area	Public Safety		
Description or Scope	Replace old Fire Station #25 located at 5423 Manor Drive. An Engine and Rescue unit are currently located at this Station. APP allocation is stated to be \$33,750		

Justification

The Station was built in 1960 and has serious mold and design issues. This was recommended in the TriData and the City's 2012-2016 Capital Improvement Program. The current Station has become antiquated due to modern fire apparatus size. It also does not meet current ADA, female separation and code requirements.

Project Title	Fire Station #36 Replacement
Project Location	New Kings Rd. and Edgewood Avenue
Department	Fire and Rescue
Program Area	Public Safety
Description or Scope	Relocate and replace old Fire Station #36 to the area of New Kings Rd. and Edgewood Avenue. An Engine and Rescue are currently located at this Station. APP allocation is slated to be \$33,750

Justification

The current Station is located in a residential neighborhood and should be moved to the area of New Kings and Edgewood Ave. It was built in 1975 and has serious mold and design issues. This was recommended in the TriData Report and the City's 2012-2016 Capital Improvement Program. The current station has become antiquated due to modern fire apparatus size. It also does not meet current ADA, female separation and code requirements.

Project Title	Fire Station #66 (new)
Project Location	Merrill Rd. and Hartsfield
Department	Fire and Rescue
Program Area	Public Safety
Description or Scope	<p>The project is the construction and staffing of a new fire station in the Merrill Rd. and Hartsfield community. A new Fire Engine and Rescue unit is included in this enhancement. APP allocation is slated to be \$33,750</p>

Justification	This project includes determining the proper location near Merrill Rd. and Hartsfield area, and subsequent purchase of a suitable property for the construction and staffing of a JFRD fire station. Build new Fire Station 65 as identified in the City's 2012-2016 Capital Improvement Program and Tri Data report to reduce response times for fire and EMS runs.

Project Title	Fire Station #12 Replacement
Project Location	3408 Atlantic Blvd.
Department	Fire and Rescue
Program Area	Public Safety
Description or Scope	Replace old Fire Station #12. A Squad is currently located at this Station. The current station will be demolished and the new facility will be built on the existing parcel of land. APP Allocation is slated to be \$33,750

Justification	
The current station was built in 1954 and has serious mold and design issues. This replacement was recommended in the TriData report and the 2012-2016 COJ Capital Improvement Program. The current station has become antiquated due to modern fire apparatus size. It also does not meet current ADA, female separation and code requirements.

Project Title	Marine Fire Station (new)		
Project Location	Southern Duval County (Mandarin/Julington Creek/NAS Jax are		
Department	Fire and Rescue		
Program Area	Public Safety		
Description or Scope	This project includes determining the proper location and subsequent purchase of a suitable property for the construction of a JFRD Marine Fire Station to be located in southern Duval County. APP allocation is slated to be \$33,750		

Justification

To provide effective full-time marine coverage in the waterways of southern Jacksonville, including Mandarin, NAS Jax, Buckman Bridge and Julington Creek. Current response time from the closest full-time staffed marine unit in Metropolitan Park is approx. 25 minutes to the Mandarin/Buckman Bridge area.

Project Title	Roadway Resurfacing	Council District(s)	County-wide	Project Comp Date	Ongoing
Project Location	County-wide	Project No	PW0070 01	Dpt Ranking	1
Department	Public Works	Ordinance No		Pj ID	23
Program Area	Roads / Infrastructure / Transportation	BT No		Useful Life	25 years

Description or Scope

This allocation funds resurfacing of City roads throughout Jacksonville. The City is responsible for approximately 3,682 miles of paved centerline roadway. Resurfacing includes full milling and resurfacing, micro-surfacing and rejuvenation of City roadways. All of these treatments extend the lifespan of existing city roadways. Program Management Services for the Pavement Management program are also included in this project. A portion of this project is being funded by Community Development Block Grant (CDBG) grant funding.

Justification

The improved resurfaced roadways will provide safer and more efficient transportation throughout Jacksonville. The project will decrease operating budget in future years and maintenance efforts that will be required on the resurfaced roadways will be reduced resulting in cost savings for maintenance. Also the improved resurfaced roadways will result in lower damage claims for vehicles due to problems with the deteriorated roadway surface such as potholes. The resurfaced roadways will encourage companies to locate to Jacksonville.

Project Title	Sidewalk/Curb Construction and Repair
Project Location	County-wide
Department	Public Works
Program Area	Roads / Infrastructure / Transportation
Description or Scope	
This allocation funds the repair of existing deteriorated/damaged sidewalks throughout Jacksonville. This includes repairs to hazardous sidewalks by removing and replacing sidewalk panels and by horizontal cutting. This effort helps to address pedestrian safety and mobility issues.	

Justification	
The City of Jacksonville currently has a very large backlog in sidewalk repairs which could result in liability for citizen injuries. Improved sidewalks and ADA ramps will provide safer and more efficient pedestrian movement throughout Jacksonville. The repaired and new sidewalks and ADA compliant sidewalks will encourage companies to locate to Jacksonville.

Project Title	Hardscape - Countywide	Council District(s)	County-wide	Project Comp Date	Ongoing
Project Location	County-wide	Project No	PW0674 01	Dpt Ranking	6
Department	Public Works	Ordinance No	2007 - 813	Pj ID	25
Program Area	Roads / Infrastructure / Transportation	BT No		Useful Life	10 years

Description or Scope

This allocation funds countywide repairs to the City's existing Hardscape features. These features include items found within the right-of-way that are considered to be specialty, including but not limited to: sidewalk pavers, textured crosswalks, stamped/colored asphalt, etc. The repairs are focused on system restoration to ensure that all components function in accordance with their intended purpose. The funding is projected to be used for continuing maintenance contract services.

Justification

The City of Jacksonville currently has a backlog in hardscape repairs which could result in liability for citizen injuries. Improved paver sidewalks and crosswalk repairs will provide safer and more efficient pedestrian movement throughout Jacksonville.

Project Title	Roadway Safety Project - Pedestrian Crossings
Project Location	County-wide
Department	Public Works
Program Area	Roads / Infrastructure / Transportation
Description or Scope	<p>Improve existing pedestrian crossings and install pedestrian crossing at unmarked sites on City right of way. Some locations may require pavement markings and signage and other locations may require Rectangular Rapid Flashing Beacons (RRFB).</p>

Justification

The City is currently ranked high in pedestrian fatalities. Mid-block crossings and unmarked crossings pose a challenge to elementary and middle school age children as well as seniors. Site prioritization recognizes the need for pedestrian crossings at elementary and middle school student walkways and at senior living areas with bus stops.

Project Title	Phoenix Area Pedestrian Safety Improvements
Project Location	Urban Core; Phoenix neighborhood
Department	Public Works
Program Area	Roads / Infrastructure / Transportation
Description or Scope	<p>This project will fill the numerous gaps in the sidewalk network of the Phoenix neighborhood and make any repairs to existing sidewalks that are necessary. The project scope also includes ADA compliance and striping of new crosswalks.</p>

Justification

This low-income neighborhood has significant gaps in its sidewalk network. There are a number of elderly and/or disabled residents who use mobility devices to walk, and need quality pedestrian infrastructure. This project was the #1 Priority Strategic Neighborhood Action Program for Pedestrians (SNAPP) in the 2017 Bicycle/Pedestrian Plan.

Project Title	Cntywd Intersection Imp & Bridge Rehab - Intersections	Council District(s)	County-wide
Project Location	County-wide	Project No	PW0381 03
Department	Public Works	Ordinance No	2015 - 504
Program Area	Roads / Infrastructure / Transportation	BT No	

Description or Scope

This allocation funds county-wide enhancements to City intersections. The enhancements are focused on City intersection safety and capacity improvements to mitigate hazardous conditions and enhance roadway traffic flow and operations throughout Jacksonville. The Public Works Department has developed a prioritization process to identify sites that require mitigation of safety issues and sites with persistent capacity issues.

Justification

Locations experiencing noticeable volumes of crashes may be improved with corrective measures that will mitigate targeted crash types and crash/conflict contributing factors. The work is usually minor and improvement plans are selected based on anticipated reduction in crashes or elimination of factors that contribute to crashes. It provides flexibility to address unforeseen needs rapidly, since the funding is already in place.

Project Title	Hodges Blvd at Glenn Kernan Intersection Improvements				
Project Location					
Department	Public Works				
Program Area	Roads / Infrastructure / Transportation				
Description or Scope	Study, design and construct intersection improvements that may include added turn lanes, turn lane extensions and signal modifications.				

Justification	
This intersection is experiencing routine congestion and shoulder erosion due to left turn storage lanes overflowing onto the grassed shoulder. Study is needed to determine detailed scope.

Project Title	Merrill Rd and Townsend Blvd Intersection Improvements				
Project Location	Intersection of Merrill Rd and Townsend Blvd				
Department	Public Works				
Program Area	Roads / Infrastructure / Transportation				
Description or Scope					
Justification	<p>This project will improve the intersection which has one of the City's highest vehicle accident rates. The intersection will be improved with a concrete curb median added to eliminate cross-lane movements. Access driveways will be eliminated that are too close to the intersection. The traffic signal system will be replaced with a current standard installation.</p>

Project Title	Soutel/Moncrief Intersection Improvements					
Project Location	Soutel Drive and Moncrief Road					
Department	Public Works					
Program Area	Roads / Infrastructure / Transportation					
Description or Scope						
This project will improve the traffic flow and operations at this signalized intersection. The intersection capacity will be improved with lane addition to one block of Moncrief Rd W and modification to the traffic signals that will allow for concurrent Moncrief Rd W left turn phasing.						

Justification

Improving this intersection will provide a safer traffic environment and eliminate a major source of congestion and delays. The new signal controls will allow for a more efficient control of traffic through the intersection.

Project Title	San Clerc Road Pedestrian Bridges
Project Location	
Department	Public Works
Program Area	Roads / Infrastructure / Transportation
Description or Scope	<p>Two existing wooden pedestrian bridges along San Clerc Road are not passable. The pedestrian project will replace the bridge deck structure while leaving the existing pilings. Both are currently closed.</p>

Justification

This is a life safety issue for the adjacent neighborhoods.

Project Title	Ribault Scenic Drive Bridge Repair
Project Location	
Department	Public Works
Program Area	Roads / Infrastructure / Transportation
Description or Scope	
An existing bridge on Ribault Scenic Drive over Long Branch Creek is in need of repair. The bridge is currently in good structural condition and is ranked 105 on the Bridge Priority list. The repairs needed are related to settling of the west side approach slab. The settling is causing storm water run off to be directed onto adjacent private property. The run off is flooding the resident's garage. Initiated by CARE 2017-5015922	

Justification
Failure to correct the situation will result in increased liability to the City and will continue to damage a resident's property.

Project Transfer from PW0381-02

Project Title		Acree Road Bridge Replacement	
Project Location		Council District(s)	7
Department	Public Works	Project No	PW0862 01
Program Area	Roads / Infrastructure / Transportation	Ordinance No	
BT No		Useful Life	30 years

Description or Scope

Acree Road has three wooden bridges. Two of three existing wooden bridges on Acree Road over Thomas Creek are structurally deficient. Repairs were made and weight limitation were placed on the bridges following a prompt corrective action notice from FDOT following Hurricane Matthew. This project will design, construct and replace all three bridges.

Justification

All bridges need to be replaced. The wooden bridges will continue to need repairs and will eventual need to be closed again for repairs.

Description or Scope

Maintenance project. This is a 100' long two lane bridge located on Yellow Bluff Road just south of Deese Road. This bridge is a concrete deck supported on timber piles. CARE notifications from the public have requested the guardrails that have been damaged by traffic be repaired. Upon review, the FDOT bridge report issued on July of 2016, it was noted that there are recommendations to repair several additional maintenance items. These items have been included in this project.

Justification

Although this bridge is not considered in a category that would make it failure sensitive, there are many items that do require attention to keep it in good operating order and to prolong its life expectancy. This bridge currently carries an average of 2,700 daily trips and a detour around it is approximately 3.8 miles should any of the unresolved maintenance items lead to closure.

Project Title	Plymouth Street Bridge
Project Location	
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Description or Scope

Double box culvert bridge located on Plymouth Street just west of US 17 in the Murray Hill area. Traffic flow in the area would be severely compromised should the existing structure suffer a significant failure. Plymouth Street currently carries an average of 8,000 daily trips.

Justification

Plymouth Street is a high-traffic access road that runs between US 17 and Lenox Avenue. Traffic flow in the area would be severely compromised should the existing structure suffer a significant failure. Plymouth Street currently carries an average of 8,000 daily trips.

Description or Scope

This is an 400' long two lane concrete bridge located on Collins Road Between US 17 and Blanding Blvd. The FDOT recently issued a Significant Deficiency Advisory that requires attention. The advisory recommended replacement of both approach slabs that are sinking and the Scour Critical conditions need to be addressed per a Phase IV Scour Evaluation.

Justification

Collins Road is a high-traffic access road that runs between US 17 and Blanding Boulevard. Traffic flow in the area would be severely compromised should the existing structure suffer a significant failure. Collins Road currently carries an average of 17,200 daily trips.

Department	Public Works	Ordinance No		Pj ID	33
Program Area	Roads / Infrastructure / Transportation	BT No		Useful Life	50 years

Description or Scope

This is an 80' long two lane concrete bridge located on 5th Street between Ellis Road and Edgewood Avenue North. The most recent FDOT evaluation noted that the bridge is Structurally Deficient and is load rated and needs to be replaced. The timber piles upon which the bridge deck is resting are in seriously degraded condition.

Justification

5th Street is a high-traffic access road that runs between Ellis Road and Edgewood Avenue North. Traffic flow in the area would be severely compromised should the existing structure suffer a significant failure. 5th Street currently carries an average of 6,701 daily trips.

Project Title	River Road Bridge
Project Location	
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Description or Scope

This is an 52' long two lane concrete bridge located on River Road over the canal that connects The St. Johns River to Marco Lake. The FDOT recently issued a Significant Deficiency Advisory that requires attention. The advisory recommended repairs to the end bent slope protection and filling the voids under the approach slabs on both approaches.

Justification

River Road serves a community in San Marco area that would be impacted if through traffic were interrupted. Repair contractors in the area following Hurricane Irma have resulted in cramped driving conditions that would be exacerbated by the need to navigate driveways to turn around and leave the area. River Road currently carries an average of 651 daily trips.

Project Title	San Pablo Road Bridge Repairs
Project Location	San Pablo Road between JTB and Beach Blvd
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Description or Scope

The San Pablo Road Bridges were constructed in 2001. This project covers a series of two bridges in each direction for a total of four bridge structures. Construction is a concrete single span on concrete abutments. All structures have similar construction and are experiencing similar problems to various degrees. There is substantial settlement of all approach slabs and pavement leading to the structures. The four bridge structures are not distressed. A Prompt Corrective Advisory letter from FDOT requires immediate corrective action, which will consist of stabilizing the approach slabs. The pavement will be milled and repaved to provide a smooth transition over each bridge.

Justification

Significant settlement has occurred for all four bridge approach slabs. The differential slopes create a traffic hazard for vehicles traveling at the speed limit. Faster vehicles can actually leave the road surface as the settled areas act as a launching pad making the vehicles go airborne. Ambulances traveling to the Mayo Clinic actually slow down prior to crossing these settled areas.

Project Title	Cedar Point Road Bridges	Council District(s)	2	Project Comp Date	September 2021
Project Location	Cedar Point Road (Bridges located near Boney Rd & Gate Rd)	Project No	PW0792 01	Dpt Ranking	26
Department	Public Works	Ordinance No		Pj ID	41
Program Area	Roads / Infrastructure / Transportation	BT No		Useful Life	50 years

Description or Scope

Two bridges located on this road are functionally obsolete, 724129 and 724130, due to the bridge parapets being non-standard and the bridge deck being too narrow. The scope is to add an additional deck beam on either side of both bridges. This will require extending the abutment pier to support the new beam. The new span will support adding an FDOT approved parapet. Both bridges will receive a new guardrail system and abutment improvements. Miscellaneous repairs will be performed to eliminate any structural deficiencies.

Justification

Both bridges have been deemed functionally obsolete.

Project Title	McCoy's Creek New Pedestrian Bridge	Council District(s)	9	Project Comp Date	
Project Location	Between I-95 and St Johns River	Project No	TBD	Dpt Ranking	33
Department	Public Works	Ordinance No		Pri ID	377
Program Area	Roads / Infrastructure / Transportation	BT No		Useful Life	50 years
Description or Scope	New pedestrian bridge over McCoy's Creek providing connectivity from the north side of the creek to the Brooklyn redevelopment area.				
Justification	The area is currently under-going redevelopment and pedestrian connectivity is needed over McCoy's Creek to connect new multi-trail north of creek to neighborhoods.

Project Title	Traffic Signalization - Countywide				
Project Location	County-wide				
Department	Public Works				
Program Area	Roads / Infrastructure / Transportation				
Description or Scope	The purpose of this project is to provide funding for signalization of intersections. When the Traffic Engineering Division deems that an intersection meets the criteria for signalization, these funds will provide the resources to design and install the necessary traffic signals.				
Justification					
Funding Sources	Total	FY 18-19	FY 19-20	FY 20-21	FY 21-22

Project Title	Traffic Signalization - Enhancements				
Project Location	County-wide	Council District(s)	County-wide	Project Comp Date	Ongoing
Department	Public Works	Project No	PW0235 02	Dpt Ranking	35
Program Area	Roads / Infrastructure / Transportation	Ordinance No		Pj ID	79
Description or Scope	Calculate the traffic signal clearance periods for each approach of City traffic signals and program the information into the traffic signal controller.				
Justification	Traffic signal clearance periods are the yellow and all-red indications. Most of the City traffic signals do not have the required calculated clearance periods. Approaching speeds or speed limits, centerline grade, driver reaction time and intersection crossing width are factors included in determination of clearance periods. Clearance periods that are too short or too long generate safety issues at signalized intersections.

Project Title	Downtown Network Switches Replacement
Project Location	Downtown
Department	Public Works
Program Area	Roads / Infrastructure / Transportation
Description or Scope	Replace outdated fiber optic network switches.

Justification	
Network switches are fiber optic connections. There are 110 network switches in the downtown area that have reached or exceeded their life expectancy and are starting to fail. They need to be replaced. Network switch failure results in lost communication to the traffic signal controller (computer). Lost communication to a signalized intersection will reset the program to a default plan that will be different from the adjacent traffic signals, provide no alarms such as failures or flash mode, will not receive timing updates and lose synchronization. Each intersection has a network switch. The estimated cost of switches in the downtown area is \$132,000 (\$1,200 per piece).

Project Title	Traffic Signalization - Fiber Optic
Project Location	Countywide
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Description or Scope

The project will provide communications to the traffic signals along selected City arterials. A communication link to a traffic signal controller will allow for remote assessment of signal issues, provide automated warning for power outages, allow for video capability, and remote real time observation of the intersection and corridor.

Justification

A communication link to a traffic signal controller will allow for remote assessment of signal issues, provide automated warning for power outages, allow for video capability, and remote real time observation of the intersection and corridor. Fiber communications will allow for a more rapid assessment and reduced labor costs.

Project Title	Crosswalk Countdown Heads		
Project Location			
Department	Public Works		
Program Area	Roads / Infrastructure / Transportation		
Description or Scope	FDOT Grant to install Countdown Pedestrian Signal Heads to enhance safety.		

Justification

Countdown pedestrian signal heads are a proven, cost effective devices for making pedestrian signal more understandable to the public. Pedestrian use and compliance is increased because it is very clear how much time is available to cross the road.

Project Title	Roadway Sign Stripe and Signal	Council District(s)	County-wide	Project Comp Date	Ongoing
Project Location	County-wide	Dpt Ranking	44		
Department	Public Works	Pj ID	75		
Program Area	Roads / Infrastructure / Transportation	Useful Life	6 - 10 years		
Description or Scope					
This project supports the Traffic Engineering Division's county-wide effort to re-stripe and re-sign deficient roadways. Additional efforts include signal repair and replacement or enhancement of traffic signal equipment.					

Justification	Roadways that lack or are missing lane lines/lane control markings (arrows, etc.) are difficult to traverse with opposing traffic. Drivers are exposed to side swipe and off-set head on collisions. Turns and curves are critical segments that require clear lane delineation. Repair of signalized intersections is critical in providing traffic control during weekday peak periods. Signs are replaced as reflectivity is reduced. Regulatory signs and school zones are critical locations. Signs useful life: 10 years, Signal useful life: 8 years, Striping useful life: 6 years.

Project Title	Railroad Crossings
Project Location	County-wide
Department	Public Works
Program Area	Roads / Infrastructure / Transportation
Description or Scope	

Justification

This allocation funds countywide railroad crossing maintenance. The City has long standing agreements with the major railroad companies that place the maintenance and repair cost of railroad crossings on the City. By agreement, the City has to have funds available at all times to pay for any work that may be deemed necessary by the railroads.

Justification	
The City of Jacksonville has to be able to fulfill the obligation of the agreements in place with the railroads. The crossing improvements are safety related and are performed by the railroads.

Project Title	Railroad Quiet Zone Match	Council District(s)	Countywide	Project Comp Date																																																																	
Project Location		Project No	PW0868 01	Dpt Ranking	45																																																																
Department	Public Works	Ordinance No		Prij ID	397																																																																
Program Area	Roads / Infrastructure / Transportation	BT No		Useful Life																																																																	
Description or Scope	Matching funds to help permitting, design and construction of Supplemental Safety Measures (SSMs) at railroad crossings required in order to implement Railroad Quiet Zone. These funds are to be used as a 50/50 match with privately raised funds.	Justification	Trains and train noise (especially train horns) has increased over the years. Residents have asked the City to establish a Quiet Zone that will greatly reduce the need for trains to blow their horns as they approach crossing. Project Title	Countywide Bulkhead - Assessment, Repair and Replacement	Council District(s)	County-wide	Project Comp Date	Ongoing				
Project Location	County-wide	Project No	PW0781 01	Dpt Ranking	46				
Department	Public Works	Ordinance No	2015 - 504	Pri ID	80				
Program Area	Roads / Infrastructure / Transportation	BT No		Useful Life	50 years				
Description or Scope	This funds inspection/repair/replacement of the City's countywide bulkhead assets not limited to the St. Johns River. Funding will be used to evaluate and address failing bulkheads. Citywide bulkhead replacement (failures and poor countywide bulkheads).	Justification	Bulkheads are necessary in order to prevent the erosion and loss of public and private property. Bulkheads also contribute to the prevention of unwanted sediment and pollutants entering our surface waters. Where structures are adjacent or in close proximity to the bulkheads, their stability often relies upon the bulkhead and its effect upon the stability of the foundation and underlying soil. Project Title	Northbank Bulkhead	Council District(s)	7 & 9	Project Comp Date	Beyond 5th year
Project Location	Northbank Riverwalk in Downtown	Project No	PW0076 01	Dpt Ranking	47
Department	Public Works	Ordinance No		Pj ID	37
Program Area	Roads / Infrastructure / Transportation	BT No		Useful Life	25 years

Description or Scope

Our continuous inspection of the Northbank Riverwalk (previously in 2006 and recently in 2010) indicates a need to begin phasing the entire replacement of the bulkhead. There is approximately 7,070 linear feet of bulkhead (including 1,400 linear feet at Met Park) and it is estimated that the complete replacement cost will be over \$31 million. Our plan is to phase the replacement over time. The FY18/19 funding will be for the approx. 645 ft of bulkhead adjacent to the Times Union Center for Performing Arts.

Justification

Replacement of this deteriorating bulkhead will reduce on-going maintenance costs and eliminate potential liabilities assigned to the City. Future years' funding will be required to continue the effort of completing this replacement task and ongoing City maintenance.

	Project Title	St. Johns River Bulkhead, Assess/Restore	Project Comp Date	Ongoing
	Project Location	County-wide	Dpt Ranking	48
	Department	Public Works	Pri ID	31
	Program Area	Roads / Infrastructure / Transportation	Useful Life	50 years

Description or Scope

This funds inspection/repair/replacement of the City's countywide bulkhead assets. Previous years' funding has been utilized to inventory and assess 557 Structures throughout Jacksonville. They have been assessed as being either in excellent, good, poor, or failing conditions to allow for a prioritization of improvement. Previous years' allocations have also funded the repair/replacement of the highest priority structures (those identified as Failure & Poor condition - 86 Structures) and continual funding supports ongoing inspections in order to update the project prioritization list and address the next group of highest priority structures.

Justification

Extending bulkhead life and/or replacement of deteriorated bulkheads will reduce on-going maintenance costs and eliminate potential liabilities assigned to the City. Future years' funding will be required to continue the effort of maintaining the City's bulkhead infrastructure.

Project Title	Willowbranch Creek Bulkhead Replacement	Council District(s)	14	Project Comp Date	September 2020
Project Location	Willow Branch Creek running from Sydney Street to the St John	Project No	PW0835 01	Dpt Ranking	49
Department	Public Works	Ordinance No		Prij ID	36
Program Area	Roads / Infrastructure / Transportation	BT No		Useful Life	50 years

Description or Scope

This project will design and construct a replacement bulkhead for The Willowbranch Park. The bulkheads were constructed many decades ago using simple CMU construction. Many areas are failing, some spots have failed. The channel has been degraded and eroding. This project will correct these deficiencies with a new bulkhead, upgrading the safety of pedestrian crossovers, ensuring ADA compliance with the crossings, landscaping, and correcting improper drainage connections.

Justification

The creek has been channeledized as part of the Willowbranch Park. The bulkheads were constructed many decades ago using simple CMU construction. Many areas are failing, some spots have failed. The channel has been degraded and eroding. This project will correct these deficiencies with a new bulkhead, upgrading the safety of pedestrian crossovers, ensuring ADA compliance with the crossings, landscaping, and correcting improper drainage connections.

Project Title	McCoy's Creek Channel Improvements/Restoration
Project Location	
Department	Public Works
Program Area	Roads / Infrastructure / Transportation
Description or Scope	Drainage improvement project including channel improvements to McCloys Creek between Hollybrook and Myrtle Avenue.

Justification	
The existing connection of McCoy's Creek isolates and denies access to the creek limiting public access and recreational opportunity. The area floods frequently from both rainfall and storm event due to restricted flow of the creek.

Project Title		McCoy's Creek Bank Bulkhead Restoration	
Project Location		Council District(s)	9
Department	Public Works	Project No	PW0512 07
Program Area	Roads / Infrastructure / Transportation	Ordinance No	
BT No		Useful Life	30 years

Description or Scope

The bulkheads along McCoy's Creek are in poor and deteriorating condition that has numerous areas of exposed ash materials behind the bulkheads that come into contact with the waters of the creek. Project evaluates, repairs, and/or replaces bulkheads as needed to prevent ash material exposure to the waters of the creek. Some excavation of ash materials would be required with standard disposal protocols.

Justification

Failing bulkheads along this creek not only create flooding issues and continue to erode from storm events but also pose an environmental risk due to adjacent ash sites.

Project Title	McCoy's Creek Outfall Improvements with Riverwalk	Council District(s)	9	Project Comp Date	
Project Location	McCoy's Creek at St Johns River	Project No	TBD	Dpt Ranking	52
Department	Public Works	Ordinance No		Pri ID	376
Program Area	Roads / Infrastructure / Transportation	BT No		Useful Life	25 years
Description or Scope	Stormwater improvement from Myrtle to the outfall as well as opening up the mouth of McCoy's Creek to support access to the creek, and improved recreational opportunity associated with McCoy's Creek.				
Justification	The existing connection of McCoy's Creek isolates and denies access to the creek limiting public access and recreational opportunity. This segment restricts flow and floods during storm events and the project will remove 40 structures from the flood hazard and increase economic value.

Project Title	Myrtle Avenue Stormwater Pump Replacement
Project Location	
Department	Public Works
Program Area	Roads / Infrastructure / Transportation
Description or Scope	<p>The existing stormwater pump station which serves the Myrtle Street underpass has failed. A temporary fix has been made but the 50 year old pump station needs to be rebuilt.</p>

Justification

If the temporary system fails the underpass at Myrtle Street becomes impassable. This is only one of a few pedestrian pathways from the adjacent neighborhood and the downtown area.

Project Title		Park Street Road Diet
Project Location	Forest Street to Stonewall Street	
Department	Public Works	
Program Area	Roads / Infrastructure / Transportation	

Description or Scope

This project provides modifications to existing roadway infrastructure from Forest Street to Stonewall Street within the Brooklyn Neighborhood to enhance pedestrian and bicycle connectivity and improve vehicular safety. Improvements include adding a two-way protected bike lane, on street parking, expanded sidewalk areas, reduced roadway widths for safer pedestrian crossings and the addition of street trees.

Justification

The design intent for Park Street will provide a more multi-modal street within the urban core linking the Regional Transportation Center with the Five Points and Riverside neighborhoods. Enhanced pedestrian experiences will also promote economic development along the corridor.

Project Title	Chaffee Road	Council District(s)	12	Project Comp Date	Beyond 2021
Project Location	Chaffee Road from Normandy Blvd to I-10	Project No	PW0780 01	Dpt Ranking	57
Department	Public Works	Ordinance No	2008 - 555	Pj ID	45
Program Area	Roads / Infrastructure / Transportation	BT No		Useful Life	30 years
Description or Scope					
Design & Construction to widen Chaffee Road from 2 lanes to 4 lanes with medians and auxiliary turn lanes from Normandy Blvd to I-10.					

Justification	Residential and Commercial development along Chaffee Road from Normandy Boulevard to Crystal Springs Road is rapidly increasing. Road and traffic control improvements are needed to provide a roadway that provides for the safe movement of traffic, bicyclists and pedestrians within this corridor.

Project Title	Soutel Drive Road Diet	Project Comp Date	2020
Project Location	Soutel Drive from New Kings Rd to Lem Turner Rd	Dpt Ranking	58
Department	Public Works	Prij ID	229
Program Area	Roads / Infrastructure / Transportation	Useful Life	

Description or Scope

Design and construction of Soutel Drive road diet, bike lanes, and sidewalk improvements. Road diet will turn 4-lane section into a 3-lane section with bike lanes. Pedestrian improvements will include fixing broken sidewalks, ADA curb ramps, striping crosswalks, pedestrian refuge islands, and Rectangular Rapid Flashing Beacons.

Justification

This is a low-volume road in a low-income area with a significant amount of biking and walking, as well as a large number of severe and fatal bike/ped crashes. Adding bicycle facilities will improve safety for bicyclists, and adding a center turn lane will create an opportunity for pedestrian refuge islands at crossings. This type of 3-lane configuration is also safer for motorists, as it provides a place for left-turning vehicles to wait for oncoming traffic.

Project Title	Rogero Road - Roundabout
Project Location	Rogero and Arlington Rd Intersection
Department	Public Works
Program Area	Roads / Infrastructure / Transportation
Description or Scope	Design and Construction of a roundabout at the intersection of Rogero Road and Arlington Road.

Justification

Neighborhood Association has requested a roundabout at the Arlington Road/Rogero Road Intersection. Traffic Engineering is having an Operational Analysis Study prepared to determine if a roundabout is warranted.

	Project Title	Five Points Project - Improvements	Council District(s)	14	Project Comp Date	Beyond 2021
	Project Location	Five Points	Project No	PW0502 01	Dpt Ranking	63
	Department	Public Works	Ordinance No		Pj ID	39
	Program Area	Roads / Infrastructure / Transportation	BT No		Useful Life	20 years

Description or Scope

This project provides modifications to existing roadway infrastructure within the Five Points area to enhance pedestrian utilization and improve vehicular safety. Within this area the improvements will impact: Park Street, Post Street, Margaret Street, Lomax Street, Oak Street and Herschel Street. Improvements include turning Lomax Street into a one-way eastbound street, expanded sidewalk areas, reduced roadway widths for safer pedestrian crossings and the retention of the historic beacon that sits at the heart of the Five Points Intersection.

Justification

The plan for functional and aesthetic improvements in the Five Points area is intended to advance the goal of Riverside Avondale Preservation for making the area the safest and most walkable neighborhood in Florida.

Project Title	Millers Creek Dredge - Spec Dist Match
Project Location	Public Works
Department	Roads / Infrastructure / Transportation
Program Area	

Description or Scope

This funding will be used to match funding from The Millers Creek Special District up to 12.5% of the cost for design, engineering and dredging of Millers Creek. Dredging of this waterway could include, in addition to dredging to deepen the channel and restore navigability of the waterway: disposal of dredged material, riprap or bulkhead improvements installed along public (but not private) riparian or littoral shoreline, such channel markers and navigational buoys as may be required by law, ecosystem restoration components, and systems placed within the boundaries designed to prevent or reduce the rate of siltation including traps, swales, ponds and vegetative barriers.

Justification

This special district has an established assessment and adopted budget to fund the majority of the costs of dredging Millers Creek. The City through other established programs provides 12.5% of the cost of neighborhood dredging projects or more in the case of FIND projects. The maintenance and restoration of navigable waterways within the City is in the public interest to preserve and enhance property values, recreational opportunities, and the ecosystem of our waterways.

Council District(s)	9
Project No	TBD
Ordinance No	
BT No	

Description or Scope

This project focuses on the cleanup of the City owned parcel that is located immediately south of the Burke Street Regional Stormwater pond where a former dump from the early 1920-40's that was discovered during the construction of the pond. The City assessed the stormwater pond area to remediate the dump foot print that was located within the boundaries of the pond. During the assessment, contamination was discovered on the adjacent City owned parcel located to the south of the pond site along the west bank of McCoy's Creek.

Justification

Municipal incinerator ash was discovered on the Burke Street Pond site after an investigation mandated by the FDEP that was evaluating neighborhood children in the Hollybrooke Apartments across McCloys Creek. During the subsequent cleanup of the ash materials surrounding the former pond, a historical dump was encountered on the new stormwater pond facility's southern bank. Subsequent source removal and assessment of the new stormwater facility identified additional ash deposits on the City owned property located to the south of the new stormwater pond site. The FDEP identified the City as the responsible party for the cleanup of the site.

Project Title		JAX ASH - McCloys Creek Buffer to Creek Bank
Project Location		
Department	Public Works	
Program Area	Environmental / Quality of Life	

Description or Scope

The approved remediation method is to excavate the upper two feet of soil, replace with clean backfill, place institutional and engineering controls on the parcel. The ash is used as daily cover for the Trail Ridge Landfill. The program is overseen by the EPA and administered by the Solid Waste Division. The un-resolved method of creek bank restoration left approximately 3,000 feet of 20-30 wide strips along both sides of the creek bank were left for future remediation.

Justification

The ash remediation program is composed of four areas of the City where municipal solid waste was burned in an incinerator as a method of treatment to render the material inert prior to disposal. The incinerator ash was deposited in areas of Jacksonville in the early to mid 1900's and consists of approximately 3,700+ sites in four areas: Browns Dump, Forest Street, 5th and Cleveland and Lonnie Miller. Due to the inefficient technology of the time, the SW materials were not rendered inert and as a result contain elevated levels of heavy metals and PAHs above federal regulatory levels. EPA Consent Order, court ordered legal action called a Record of Decision.

Project Title	JAX ASH - McCloys Creek Standard Remediation
Project Location	
Department	Public Works
Program Area	Environmental / Quality of Life

Description or Scope

The approved remediation method is to excavate the upper two feet of soil, replace with clean backfill, place institutional and engineering controls on the parcel. The ash is used as daily cover for the Trail Ridge Landfill. The program is overseen by the EPA and administered by the Solid Waste Division. There are approximately 15 parcels in the Forest Street Incinerator area and along McCloys Creek that require remediation.

Justification

The ash remediation program is a Superfund Site composed of four areas of the City where municipal solid waste was burned in an incinerator as a method of treatment to render the material inert prior to disposal. The incinerator ash was deposited in areas of Jacksonville in the early to mid 1900's and consists of approximately 3,700+ sites in four areas: Browns Dump, Forest Street, 5th and Cleveland and Lonnie Miller. Due to the inefficient technology of the time, the SW materials were not rendered inert and as a result contain elevated levels of heavy metals and PAHs above federal regulatory levels. EPA Consent Order, court ordered legal action called a Record of Decision.

Project Title	JAX Ash Site Pollution Remediation	Council District(s)	7, 8, 9, 10	Project Comp Date	September 2021
Project Location	Lonnie Miller, 5th and Cleveland, Forest Street, Browns Dump	Project No	ERR00201	Dpt Ranking	76
Department	Public Works	Ordinance No		Pri ID	97
Program Area	Environmental / Quality of Life	BT No		Useful Life	30 years

Description or Scope

The ash remediation program is a Superfund Site composed of four areas of the City where municipal solid waste was burned in an incinerator as a method of treatment to render the material inert prior to disposal. The incinerator ash was deposited in areas of Jacksonville in the early to mid 1900's and consists of approximately 3,700+ sites in four areas: Browns Dump, Forest Street, 5th and Cleveland and Lonnie Miller. Due to the inefficient technology of the time, the solid waste materials were not rendered inert and resulted to contain elevated levels of heavy metals and poly nuclear aromatic hydrocarbons above federal regulatory levels. The approved remediation method is to excavate the upper two feet of soil, replace with clean backfill, place institutional and engineering controls on the parcel. The ash is used as daily cover for the Trail Ridge Landfill. The program is overseen by the Solid Waste Division.

Justification

EPA Consent Order, court ordered legal action called a Record of Decision.

Project Title	8th Street - I-95 to Blvd Landscaping/Tree Planting				
Project Location	I-95 to Blvd	Council District(s)	7	Project Comp Date	TBD
Department	Public Works	Project No		Dpt Ranking	84
Program Area	Environmental / Quality of Life	Ordinance No		Pj ID	89
Description or Scope	The project scope is design and construction of streetscape improvements along 8th Street from I-95 to Jefferson Street. Landscaping, tree planting & hardscape improvements (brick pavers, irrigation, historic lighting, benches, etc.) within the existing 8th Street right-of-way to match the recently completed streetscape improvements on Jefferson Street between 8th Street and 10th Street.				
Justification	This is one of three projects identified to enhance the Shands Hospital area. The other two projects are the Jefferson St hardscape project (completed) and the 11th and 12th St. connector (not yet completed).

Project Title	Downtown Pocket Parks	Council District(s)	7	Project Comp Date	TBD
Project Location	Downtown	Dpt Ranking	85	Pj ID	90
Department	Public Works	Ordinance No		Useful Life	15-30 years
Program Area	Environmental / Quality of Life	BT No			

Description or Scope

Landscape renovation of 10 Downtown Pocket Parks and medians: Riverside Ave Median (bet Peninsular Pl and Edison Av), Water Street Median (bet Broad St and Pearl St), Water St Pocket Park, Main Library Pocket Park, Howard's Island, Sister City Park, State/Union/Liberty median. and Broad Street Pocket Park, Independent Drive/Main Street Bridge Ramp, Jessie Smith Pocket Park.

Justification

The downtown pocket parks and medians are highly visible green spaces within the downtown area that have deteriorated because of lack of proper funding for maintenance. These green spaces now require major renovations to make them again attractive assets for the downtown area.

Project Title	Corridors of Significance	Council District(s)	various	Project Comp Date	TBD		
Project Location	various	Dpt Ranking	86	Dpt	91		
Department	Public Works	Pri ID		Ordinance No			
Program Area	Environmental / Quality of Life	BT No		Useful Life	15-30 years		
Description or Scope	This funding will be used to renovate the landscaping at medians on the following corridors: Main St, Roosevelt Blvd, Monument Rd and Wonderwood Dr.						
Justification	The landscaping at each of these heavily traveled roadways is in very poor condition which presents a poor visual impression to the public. A major landscape renovation is now needed to reestablish an attractive setting for the traveler.

Project Title	Median Beautification
Project Location	Countywide
Department	Public Works
Program Area	Environmental / Quality of Life
Description or Scope	<p>Renovation of landscape and irrigation on various street medians throughout Jacksonville that are in poor condition. Examples of these are Water Street medians (Broad St. to Hogan St.) and Riverside Ave. medians (Gilmore St. to Rossell St.)</p>

Justification

Medians throughout Jacksonville are highly visible green spaces and many have deteriorated over the years from lack of proper funding for maintenance. Projects now require major renovations to make them again attractive features. In the above examples both were landscaped over 20 years ago.

Project Title	Tillie Fowler Regional Park Septic System Replacement				
Project Location	7000 Roosevelt Blvd	Council District(s)	14	Project Comp Date	
Department	Public Works	Project No	PW0877 01	Dpt Ranking	90
Program Area	Public Facilities	Ordinance No		Prij ID	399
Description or Scope	Replacement of two septic systems that supports facility operations. The drain-fields has to be relocated due to large trees and overgrowth as well as the dosing tanks replaced and relocated.	BT No		Useful Life	20 years
Justification	The septic system is a critical part of the infrastructure and essential to the daily operations of the facility. It is imperative this system is repaired for both public and city use. Failure to do so may result in complete failure of the systems and loss of use to the facility.

Project Title	Pretrial Detention Facility - Maintenance and Upgrades							
Project Location	500 E Adams St	Council District(s)	7	Project Comp Date	Beyond 2021			
Department	Public Works	Project No	PW0565 02	Dpt Ranking	92			
Program Area	Public Facilities	Ordinance No	2012 - 433	Pj ID	58			
BT No		Useful Life	Varies					
Description or Scope	<p>The facility and its infrastructure are over 20 years old. Additionally this facility experiences heavy use on a daily basis, as such the wear and tear tends to be greater than that of a traditional government facility. Major issues which will be addressed with these funds are: Re-piping of the sanitary and domestic water lines, repair of the concrete stairs and shower pans (showers are leaking from floor to floor), replacement and upgrading of dorm lights and exit lights, a phased in replacement of the chillers and HVAC units, repair of the concrete eyebrows at three facades on the exterior of the building, and replacement of pneumatic HVAC controls.</p>							
Justification	<p>It is vital that we properly maintain this facility since it is an integral part of maintaining public safety.</p>

Ordinance No	2005 - 211	
BT No		

Description or Scope

The facility and its infrastructure experience a high amount of wear and tear on a daily basis due to the high number of employees working in the building. These funds will be used for the following: replacement of all sanitary sewer lines throughout the facility, repair and upgrade of interior and garage elevators, phased in rebuild/replacement of air handling units, and replacement of the cooling tower used to provide chilled water to the air conditioning units.

Justification

These projects will increase the safety and reliability of the major components of this building.

Program Area	Public Facilities					
Description or Scope						
This project identifies and evaluates the buildings HVAC system, cooling tower, building controls, lighting, windows and building envelope for opportunities to reduce its energy usage and may include equipment purchases.						

Justification	
The HVAC systems, equipment, lighting, windows and controls are original to the facility and past its useful life. Cost of repairs are increasing and the equipment is obsolete driving the energy usage of the building above expectations.

Project Title	Police Memorial Building - Maintenance and Upgrades					
Project Location	501 E Bay St					
Department	Public Works					
Program Area	Public Facilities					
Description or Scope	Council District(s)	7	Project No	PW0078 06	Ordinance No	BT No
Justification	<p>The facility and its infrastructure are over 30 years old. Additionally this facility experiences heavy use on a daily basis, as such the wear and tear tends to be greater than that of a traditional government facility. Major issues which will be addressed with these funds are: phased in replacement of all air handling units, replacement of the backup chiller for the 911 call center, replacement of the HVAC controls with a building automation system, and replacement of the cooling tower used to provide chilled water to the air handlers which air condition the facility.</p>

Project Title	Main Library - Partial Roof Replacement				
Project Location	303 N Laura St	Council District(s)	7	Project Comp Date	September 2020
Department	Public Works	Project No	PL0009 08	Dpt Ranking	102
Program Area	Public Facilities	Ordinance No		Pj ID	69
Description or Scope	This project will replace portions of the flat roof of the main library.	BT No		Useful Life	20 years
Justification	The built-up roof system is showing extensive wear due to the renovations that have taken place on and around the roof. One of the most important systems of this facility is the building envelope which keeps moisture out while protecting the library's inventory of historical and general collections in this building.

Project Title	Yates Building - Maintenance and Upgrades	Council District(s)	7	Project Comp Date	September 2021
Project Location	231 E Forsyth St	Project No	PW0749 03	Dpt Ranking	103
Department	Public Works	Ordinance No		Pri ID	61
Program Area	Public Facilities	BT No		Useful Life	12 - 20 years
Description or Scope	The facility and its infrastructure are nearly 30 years old. Major issues which will be addressed with these funds are: phased in replacement of the Variable Air Volume (VAV) boxes, phased in replacement of the rooftop air conditioning units, replacement of four 30-ton AON units, and waterproofing the east and west wings of the building.				
Justification	The facility's HVAC system is nearly 30 years old. The MAUs have been determined to only have approximately 5% estimated life remaining, the RTUs have been determined to need a planned replacement program, and the VAVs have been determined to only have less than 10% estimated life remaining. Additionally, water infiltration is causing structural and cosmetic damage which can potentially lead to biological growth.

Project Title	Traffic Engineering Facility Improvements					
Project Location	1007 Superior Street					
Department	Public Works					
Program Area	Public Facilities					
Description or Scope	<p>Build a 50' x 100' metal building for a signal warehouse on the Traffic Engineering compound to provide storage space for signal equipment and other electronic equipment such as fiber optic components and Rapid Rectangular Flashing Beacons.</p>					
Justification	<p>Currently electronic equipment is stored outdoors reducing its useful life. Crews pre-assemble signal components outdoors before transporting to the job site. An assembly and fabrication area inside a warehouse will increase productivity, the quality of work and the lifespan of our electronic signal and sign devices.</p>

Project Title	Yates Building - Parking Garage Enhancements	Council District(s)	7	Project Comp Date	September 2021			
Project Location	211 E Adams St	Project No	PW0749 04 (TB	Dpt Ranking	105			
Department	Public Works	Ordinance No	2013 - 213	Pri ID	62			
Program Area	Public Facilities	BT No		Useful Life	12 years			
Description or Scope	Upgrade inefficient lighting to LED, also included ADA improvements. Upgrading of the light fixtures to LED will provide enhanced lighting throughout the night, this will increase visibility as vehicles drive through the garage and it will also enhance the safety of the facility as well. Additionally, ADA improvements will bring this facility into compliance with ADA standards.	Justification	Current structure is dark, unsecure, and does not meet ADA requirements.	Funding Sources

Project Title	Comm Transition Cntr - Maintenance & Upgrades
Project Location	451 Catherine St
Department	Public Works
Program Area	Public Facilities
Description or Scope	
The funding will be used for: Recaulking of all joints on the exterior of all the buildings and recoating the exterior of all buildings to keep moisture out while protecting the tilt-up panels and window frames. Additionally funds will be used for replacement and upgrades to the dorm lights in the facility in order to increase visibility and security.	

Justification	
Cost of completing necessary repairs will continue to increase with delays due to additional damage done to the building and its contents as a result of water intrusion. Also, delays in renovations to the dorm lighting will contribute to a less secure environment for the facility residents and the staff.

Project Title	Fleet Management - Maintenance and Upgrades
Project Location	2581 Commonwealth Ave
Department	Public Works
Program Area	Public Facilities
Description or Scope	<p>Justification</p> <p>This is an old facility and the materials used to construct the building are increasingly difficult to repair due to the age. The funds will be used to: install a TPO roofing system on the main building and the office to prevent water from entering the facility. Additionally funds will be used to mill, resurface and restripe the existing parking lot.</p>

Justification

One of the most important systems of this facility is the building envelope which keeps moisture out while protecting the emergency vehicles, apparatus, and equipment in this 100,000sf warehouse building. The metal roof panels are showing signs of water intrusion and are in need of repair. Additionally, the goal of this project is to increase the safety of the parking lot for the clients and staff of the facility. Any delays to the project will increase the amount of time that Fleet Management operates using a parking lot that is no longer as safe as it should be for pedestrian and vehicle traffic.

Project Title	ARC Jacksonville, Inc. - Roof Replacement
Project Location	1050 N Davis St
Department	Public Works
Program Area	Public Facilities
Description or Scope	Remove existing roof system and replace with a TPO system to prevent water from entering the facility through the roof.

Justification

The roof on the ARC Duval facility is currently experiencing leaks in multiple areas. Repairing the leaks and the damage caused by the leaks is becoming more and more difficult due to the age and condition of the roof. The roofing material has more than exceeded its useful life and needs replacing.

Project Title	Duval County Health Dept. - Maintenance and Upgrades				
Project Location	515 W 6th St				
Department	Public Works				
Program Area	Public Facilities				
Description or Scope	This funding will be used to : mill, resurface and restripe existing parking lot of the Duval County Health facility located at 515 W 6th St.				
Justification	The goal of this project is to increase the safety of the parking lot for the clients and staff of the facility. Any delays to this project will increase the amount of time the Central Health facility operates using a parking lot that is no longer as safe as it should be for pedestrian or vehicle traffic.

Project Title	Medical Examiner Facility
Project Location	
Department	Public Works
Program Area	Public Facilities

Description or Scope

The District 4 Medical Examiner's Office building was originally constructed in 1968 as a single story building. There was a one story addition to the original building. Subsequently, in 1994 the City of Jacksonville accomplished a renovation of the existing building together with a secondary story addition and a build of the decomposition autopsy building.

Justification

The District 4 MEO has outgrown the space. As the population within the jurisdiction of the MEO continues to grow, the need for autopsy services increases proportionally. The current space allocation is very restrictive in providing both services and staff workspace. Jacksonville is ranked in the top 10 fastest growing metro areas in the nation according to the latest Census information. The existing medical examiner's operating facility was not designed to accommodate a mass fatality situation. The maximum number of bodies that can be accommodated is 45. During the past six months, the MEO has been at capacity several times fo normal/workload/processing space.

Project Title	Landscape Renovations at Jax Public Library
Project Location	Webb Wescottett, Bradham Brooks & Regency Libraries
Department	Public Works
Program Area	Public Facilities

Description or Scope

This funding will be used for landscape renovations at the following libraries: Charles Webb Wesconnett, Bradham Brooks, and the Regency Square library. The landscaping at each of these heavily used libraries is in poor condition caused by overuse and an inadequate budget for maintenance, which now presents a poor visual impression to the public. The existing landscaping at the Webb Library is over 38 years old, 23 years old at the Bradham Brooks Library, and 16 years old at the Regency Library. A major landscape renovation is now needed to reestablish an attractive setting for the library user and to insure compliance with the landscape code

Project Title	Urban Core Renewal/ 21st Century Urban Libraries
Project Location	Myrtle Avenue at 16th Street - 2 blks north of current library
Department	Public Libraries
Program Area	Public Facilities

Description or Scope

This project will address gaps in service experienced by residents served by Brentwood, Brown Eastside, Dallas Graham and Westbrook libraries, identifying needs, assessing capabilities and defining future facility features. The assessment will include heavy involvement by each of the communities served by the four libraries, and the resulting report will guide the Library's future CIP investment requests for the Urban Core, while also outlining other available financing alternatives for such projects.

Justification

The report will define changes needed to enable the libraries in these neighborhoods to deepen their reach as community anchor institutions, jumpstarting redevelopment, acting as economic catalysts, and enhancing the quality of life for residents of all ages. The study will provide a path to design technologically advanced libraries that will help bridge the digital divide and ensure that all students, workers and business owners -- regardless of ZIP code -- have an equal opportunity for educational and economic success.

Project Title	Brentwood Branch Replacement
Project Location	To be Determined
Department	Public Libraries
Program Area	Public Facilities

Description or Scope

To replace the Brentwood Branch Library with a new 20,000 SF library in the same area. The new library would focus on serving children and teens as well as adult learners, and provide career services. The building would be sustainably constructed for energy savings. For adults an e-classroom would be a pivotal area of the building providing free training and classes. For children and teens, the space would be STEAM focused. Programs offered free by the library teach people how to apply for work, provide employment resources, teach computer skills and resume writing, and support student learning.

Justification

This building is well beyond its useful life as was determined in the library's Capacity Plan. It was opened in 1930 as a movie theater and converted into a library in 1961. The unique layout has a multi story/mezzanine which is inefficient and expensive to operate as a library. The building also has asbestos flooring, wood rot inside the walls from long term water damage, aging bathrooms that are not able to be fully cleaned, inefficient staff spaces, inefficient HVAC, and insufficient power and data for computer demands.

Project Title	Oceanway Branch Library
Project Location	Unknown
Department	Public Libraries
Program Area	Public Facilities

Description or Scope

Construct a 30,000sf library complete with library materials, computers, children's area, teen area, community meeting rooms, study rooms, computer labs, wireless internet, and drive up book drop. The Oceanway area is as an underserved area for JPL. The projected usage of this location would be 300,000 visits per year. Other than the lockers at the Oceanway Community Center, the closest library (Highlands Branch) to this area is over 10 miles away. The initial cost is for the purchase of the land in this area while good locations for a library remain available. Art in Public Places allocation for FY18/19 is \$3,750.00

Justification

This area serves the third largest Naval fleet concentration in the United States – Mayport, and the major economic engine of the City – JAXPORT. This area is expected to grow 35% in the next 10 years. The Oceanway Branch Library would promote job growth and enhance the quality of life, support economic development and job creation. A library is also an educational hub for homework, study and life-long learning that is in demand by the constituents of NE Jacksonville. This is a fast growing segment of Jacksonville which has no convenient access to library services.

Project Title	Renovation of Beaches Branch Library
Project Location	600 3rd Street, Neptune Beach FL 32266
Department	Public Libraries
Program Area	Public Facilities

Description or Scope

Libraries of today are changing from places where people consume information and obtain knowledge to places where they create information and put knowledge to work. The renovation of the 24,606sf library includes: children's area, teens area, additional study/conference spaces, security cameras, new furnishings, and associated electrical upgrades. Due to older outdated systems this library is not operating efficiently, both in its physical systems and in its set up for children, teens, entrepreneurs, and seniors. There are persistent issues in the functionality of the building that would be corrected in the renovation.

Justification

The Beaches Branch Library opened in 1986 and has an interior layout that is not suitable for a library of the 21st century. Use of libraries has changed in the past 30 years requiring library layouts to change significantly. There are many non-cosmetic issues such as inadequate power and data infrastructure to serve the needs of the current users. There is much wasted space inside and outside the building. The Beaches Branch Library is a vital resource in this community, heavily used but no longer meets the needs of the community.

Project Title	Police Memorial Building	Council District(s) TBD	Project Comp Date TBD
Project Location	TBD	Dpt Ranking	1
Department	Office of Sheriff	Pri ID	178
Program Area	Public Facilities	Useful Life	TBD

Description or Scope

Develop a plan for the creation and construction of a new Police Memorial Building. The need for 365,353 square feet of space that will enable growth of the Sheriff's Office building which houses administrative staff for all departments along with the Department of Police Services, Department of Personnel and Professional Standards, Investigations Division, Community Affairs & Special Events Division and Compliance Section. This request is for new construction, but consideration should be given to purchasing or leasing a property as well – based upon the needs of the Sheriff's Office and City officials' preference.

Justification

The Police Memorial Building currently has 200,084 Square Feet of useable office space, excluding the comm center. Over the past 20 years, JSO has had an annual growth of approx 1.65% and are currently beyond maximum capacity. Based on growth rate, if the new facility were to be built with a 40 year life expectancy, additional square footage would be needed. The proposed building would be approx 365,353 sq ft, to include the current needs, additional space to accomodate future growth, and space to accomodate maintenance areas, which usually take about 10% of the usable office space and includes HVAC, electrical, plumbing and house keeping.

Project Title	3,000 Bed Pretrial Detention Facility (replacement of existing facility)	Council District(s)	7	Project Comp Date	TBD
Project Location	4727 Lannie Rd. Jacksonville, FL 32218	Dpt Ranking	2	Dpt Ranking	2
Department	Office of Sheriff	Pri ID	175	Pri ID	175
Program Area	Public Facilities	Useful Life	TBD	Useful Life	TBD
Description or Scope	A 3,000 bed detention facility with the primary purpose of holding offenders who stay incarcerated past their initial court date, county sentenced or awaiting transfer to the state or other systems. This facility would house pretrial and post sentence offenders, and would take the place of the current Pretrial Detention Facility.				
Justification	This facility may be necessary due to the location, age and condition of the John E. Goode, Pretrial Detention Facility. It is recommended to keep costs down that this facility be built on property currently owned by the city, and be used to consolidate and replace existing structures at the Montgomery Correctional Center that will also be nearing the end of functional life by 2020. The cost provided is an estimate based on available comparables.

Project Title	Homeland Security Narcotics & Vice Building
Project Location	TBD
Department	Office of Sheriff
Program Area	Public Facilities

Description or Scope

Purchase a larger building to replace 711 N. Liberty Street and house all squads of the Homeland Security/Narcotics & Vice Division. The square footage would be between 60,000 and 70,000. '711' is 41.5K sqft (add 4200 sqft for the warehouse offices). A potential/example property has been identified for purchase: The Interstate North Office Center @ 435 Clark Rd: A stand-alone 6-story office building with 64.6K sqft. The building would need HVAC, security, electrical, structural and cosmetic work to build-to-suit and be in code compliance which could cost an additional \$1M.

Justification

711 North Liberty is full and unable to house the whole HS/NV Division. Five additional HS/NV squads have to work from other locations. There is not ample parking and no room for future growth. The cost is negotiable, but a realtor's estimate of \$1.5M was given. It is in an isolated location, backs up to I95 with close to 300 parking spaces on property which is sufficient for all of HS/NV Division with room for future growth. Even with the cost of repairs and modernization, this property is priced low enough that a total price of \$2.5M would still be less expensive than a normal 5-year lease at \$10 to \$15 a sqft for buildings like this in Jacksonville.

Project Title	Academy Firing Range storage lease building				
Project Location	TBD	Council District(s)	TBD	Project Comp Date	Beyond 2021
Department	Office of Sheriff	Project No		Dpt Ranking	5
Program Area	Public Facilities	Ordinance No		Pj ID	179
Description or Scope	Academy Firing Range 8,540 sq. ft. pre-engineered classroom, storage lease building and driver skid training track.	BT No		Useful Life	TBD
Justification	The construction of the second Academy Firing Range classroom and storage lease building will further facilitate the training and recruitment of newly hired employees. Additionally, this location can serve as a backup command location during emergency hurricane related response situations.

Project Title	Interior Finishes- Prime Osborn Convention Center				
Project Location	Prime Osborn Convention Center				
Department	SMG				
Program Area	Public Facilities				
Description or Scope	Replace finishes such as flooring, walls, ceilings, toilet partitions, upholstery and fixtures in main concourses, meeting rooms, ballrooms, public restrooms and general spaces throughout.				
Justification	General age of spaces (over 30 years old) have original finishes. New finishes will increase guest experience, generating a positive experience for our clients and make the venues more attractive when competing against alternate local venues.

Project Title	Building Systems - Prime Osborn Convention Center	Project Comp Date	Ongoing
Project Location	Prime Osborn Convention Center	Dpt Ranking	3
Department	SMG	Pj ID	181
Program Area	Public Facilities	Useful Life	

Description or Scope

Building wide projects, repairs and replacements such as Building Automation, boilers, chillers, building signage & graphics, concrete repairs, cooling towers, data infrastructure, digital signage, door replacements, electrical equipment, elevator and escalator modernization, exposed structural steel, food service development, food service equipment replacements, glass, lighting retrofits, misc. mechanical equipment replacements, parking lot reselling, plumbing equipment replacements, pumps, motors, roof replacements, exterior video signage, VFD's and water heaters.

Justification

Majority of major building systems are from 1986. Units are running ineffectively and inefficiently and have exceeded their useful life. Replacement will provide energy savings opportunities and improve guest satisfaction while visiting the venue.

Project No	PR0658 01
Ordinance No	
BT No	

Description or Scope

The project would complete the design and construction of a new community center for the Mayport Community and replace a rapidly deteriorating doublewide trailer currently being used for that purpose. Additionally it would fund multi-use parking improvements immediately across Ocean Street, on an empty lot adjacent to David Wayne Park. Additionally the re-siting of the community center will allow better utilization and increased space for the parking for the highly utilized Michael B. Scanlon Mayport Boat Ramp. There will be no additional operating costs since there is an existing facility.

Justification

Art in Public Places allocation for FY17/18 is \$1,500.00 and for FY18/19 \$15,000.00

Project Title	Johnston Island Acquisition				
Project Location	Intracoastal Waterway/Under Atlantic Blvd Bridge				
Department	Parks, Recreation & Community Services				
Program Area	Parks / Preservation Land / Wetland				
Description or Scope	Acquisition of Johnston Island with the Intracoastal Waterway under the Atlantic Blvd Bridge for future public recreational use. Acquisition would be dependent upon equal funding (\$562,000) by the City of Atlantic Beach and the ability to secure a FIND grant for 25% of the cost.				
Justification	Activation of Waterways by creating a public recreational destination in a popular area.

Project Title	Mayport Docks
Project Location	Parks, Recreation & Community Services
Department	Parks / Preservation Land / Wetland
Program Area	

Description or Scope

Update and completion of Village Master Plan that will determine desired dock locations. Design/permit and construct boat docks along the available 1300' shoreline of continuous, riverfront property in Mayport that is now owned by the City. The new docks are intended to provide mooring area for commercial fishing vessels, research vessels and recreational fishing boats. The City will pursue agreements with local fishermen, shrimpers, charter fishing captains, etc. to utilize a portion of these docks in an effort to reactivate the working waterfront in Mayport.

Project Title	McCoy's Creek Kayak Launch Sites (3)
Project Location	
Department	Parks, Recreation & Community Services
Program Area	Parks / Preservation Land / Wetland

Description or Scope

As part of the efforts to restore McCoy's Creek and improve the linear park and roads along its course, this specific project would provide funding to design, permit and construct up to three separate kayak launches along the creek. These launches would provide public water access for non-motorized, hand-launched vessels. The site characteristics at the selected locations will dictate whether the shoreline can be used for launching or if a floating structure will be necessary to provide water access.

Project Title	Hanna Park 1 - Playground	Council District(s)	13	Project Comp Date	SUMMER 2019		
Project Location	500 Wonderwood Dr. 32233	Project No	PR0653 03	Dpt Ranking	22		
Department	Parks, Recreation & Community Services	Ordinance No		Pj ID	122		
Program Area	Parks / Preservation Land / Wetland	BT No		Useful Life	15		
Description or Scope	There are two playground areas within the lake picnic area and one additional playground in the campground. This project would replace the playgrounds with new, accessible equipment with nature-based themes.						
Justification	All of these facilities are in poor condition, outdated and not ADA compliant. Hanna Park is a revenue generating operation that attracts tourists / campers from outside the region as well as being a favorite destination for local citizens. The park has not benefitted from any major capital improvements in recent years and needs to remain competitive with other regional beach parks and campgrounds of similar magnitude and entry fees such as Little Talbot Island State Park, Fort Clinch State Park and Anastasia State Park.

Project Title	Hanna Park 3 - Campground Restroom Renovations		
Project Location	500 Wonderwood Drive 32233	Council District(s)	13
Department	Parks, Recreation & Community Services	Project No	PR0653 05
Program Area	Parks / Preservation Land / Wetland	Ordinance No	
Description or Scope	Renovate (3) existing campground restrooms / bath houses to make them ADA compliant	BT No	

Justification

The campground restrooms at Hanna Park are in poor condition and need a complete renovation. Hanna Park is a revenue generating operation that attracts tourists / campers from outside the region as well as being a favorite destination for local citizens. The park has not benefitted from any major capital improvements in recent years and needs to remain competitive with other regional beach parks and campgrounds of similar magnitude and entry fees such as Little Talbot Island State Park, Fort Clinch State Park and Anastasia State Park.

Project Title	Hanna Park 4 - Boardwalks		
Project Location	500 Wonderwood Drive 32233		
Department	Parks, Recreation & Community Services		
Program Area	Parks / Preservation Land / Wetland		
Description or Scope	Hanna Park 4 - Beach Access Boardwalks		

Justification

The beach access boardwalks are starting to deteriorate due to the harsh environment and need to be replaced on a phased approach starting with the worst two boardwalks. This project initiates a plan to ensure public beach access at this very popular park and provides an opportunity to upgrade the accessibility of the boardwalks to meet ADA requirements. Hanna Park is a revenue generating operation that attracts tourists / campers from outside the region as well as being a favorite destination for local citizens. The park has not benefitted from any major capital improvements in recent years and needs to remain competitive with other regional beach parks and campgrounds of similar magnitude and entry fees such as Little Talbot Island State Park, Fort Clinch State Park and Anastasia State Park

Project Title	Hanna Park - Amphitheatre				
Project Location	500 Wonderwood Road				
Department	Parks, Recreation & Community Services				
Program Area	Parks / Preservation Land / Wetland				
Description or Scope	The Hanna Park Amphitheatre is in disrepair with a leaking roof and rusting beams and posts. The project would restore the amphitheater and create a more wilderness based space for naturalists to give presentations and for groups to meet.				
Justification

Project Title		Main Street Dog Park	Project Comp Date
Project Location	325 Main Street N	Dpt Ranking	28
Department	Parks, Recreation & Community Services	Prj ID	337
Program Area	Parks / Preservation Land / Wetland	Useful Life	

Description or Scope

Main Street Park will become a central location for the increasing downtown dog owning community. The improvements will include fence, gates, change the turf to appropriate dog park synthetic turf and change some of the walkway layouts to promote a better use of the park space. Additionally there will be irrigation, water fountains and other park amenities.

Justification

To provide recreational space for the dog owning community downtown.

Project Title	Scott Park - Construct Baseball Facility w/ ADA Restrooms and	Council District(s)	10	Project Comp Date	SUMMER 2020		
Project Location	2745 Hamilton Circle 32209	Project No	TBD	Dpt Ranking	29		
Department	Parks, Recreation & Community Services	Ordinance No		Pj ID	141		
Program Area	Parks / Preservation Land / Wetland	BT No		Useful Life	30		
Description or Scope	Scott Park - construct a baseball facility which would include two fields, 15 parking spaces and concession area with ADA restrooms						
Justification	Council District 10 does not currently have a baseball facility for the community, which hinders the growth of the popular sport among minority youth. Providing this facility will help the sport grow among minorities and give an alternative to football in the area.

Project Location	9000 Ivey Road 32216	Council District(s)	04	Project Comp Date	Beyond 2021
Department	Parks, Recreation & Community Services	Project No	TBD	Dpt Ranking	30
Program Area	Parks / Preservation Land / Wetland	Ordinance No		Pj ID	153
Description or Scope	Ivey Road Park - Design & Develop per the Master Plan	BT No		Useful Life	30
Justification	Ivey Road Park needs to be designed & developed into a new park per the Master Plan. The park would eliminate the sand pit issue on Ivey Road which has caused the community many issues in recent years.

Project Title	Sheffield Park - Soccer Fields
Project Location	3659 New Berlin Road 32226
Department	Parks, Recreation & Community Services
Program Area	Parks / Preservation Land / Wetland
Description or Scope	Construction of new multi-use fields and additional parking

Justification	
Soccer is becoming increasingly popular with youth and adults in Duval county and surrounding areas, but there isn't a facility close to the William F. Sheffield Park area for constituents to utilize. The current athletic association (Oceanway Sports) manages this area of the park and would take care of field maintenance and preparation for games

Project Title	Palmetto Leaves Rgnl Park - Construct Sports Fields		
Project Location	5720 Greenland Road 32257		
Department	Parks, Recreation & Community Services		
Program Area	Parks / Preservation Land / Wetland		
Description or Scope	Palmetto Leaves Regional Park - Engineer & construct sports fields that consists of 3 rectangular fields, an ADA restroom facility, ADA sidewalks and concession stand		

Justification

There exists an increased demand for multi-use sports fields in Council District 06 and surrounding areas, with only Losco Park (2 fields) and Greenland Park (2 fields) offering multi-use fields in the immediate service area. The addition of multi-use fields to Palmetto Leaves Regional Park would provide additional opportunities for constituents in the most southern end of the City and further advance the master plan of the park.

Project Title	Seaton Creek Historic Preserve	Council District(s)	07	Project Comp Date	Beyond 2021
Project Location	2145 Arnold Road 32218	Project No	PR0666 01	Dpt Ranking	33
Department	Parks, Recreation & Community Services	Ordinance No		Pj ID	149
Program Area	Parks / Preservation Land / Wetland	BT No		Useful Life	30
Description or Scope	Seaton Creek Historic Preserve - Design and construct an access road through the preserve to the isolated portion of the park, construct picnic pavilions, restroom area, parking and kayak launch				
Justification	Seaton Creek Historic Preserve - the City's newest preservation property, needs an improved road to provide management access and future public use to an isolated portion of the park. This attractive, waterfront area of the park will include the next phase of park development for day-use visitation including picnic pavilions, restroom, parking and kayak launch

Project Title	Blue Cypress Pool Demo & Replacement	Council District(s)	01	Project Comp Date	SUMMER 2020		
Project Location	4012 University Blvd. North 32277	Project No	PR0093 10	Dpt Ranking	40		
Department	Parks, Recreation & Community Services	Ordinance No		Pj ID	123		
Program Area	Parks / Preservation Land / Wetland	BT No		Useful Life	30		
Description or Scope	Pool Construction - Demo existing pool to develop new facility						
Justification	Blue Cypress Pool is located at Blue Cypress Park and Community Center. The pool has been closed for several years and has now become a breeding ground for mosquitoes and an eyesore for this beautiful neighborhood park. Reconstruction of this pool would increase the utilization of the entire park

Project Title	Jacksonville Baldwin Rail Trail - Repave Trail						
Project Location	849 N Center Street 32234						
Department	Parks, Recreation & Community Services						
Program Area	Parks / Preservation Land / Wetland						
Description or Scope	<p>Jacksonville Baldwin Rail Trail - 14.5 miles of maintenance: repave existing trail [5 miles - \$425K], replace asphalt trail [9.5 miles - \$60K], tree encroachment [14.5 miles - \$72.5K] removal and restriping lines & wording / signage [\$5K]</p>						
Justification	<p>This 14.5-mile paved recreational trail is very popular with walkers, runners, bicyclists, skaters and other non-motorized use. Due to the beloved tree canopy that shades most of the trail corridor, the trail has experienced extensive damage from expanding roots which has resulted in regular patching/repair efforts, as the maintenance budget allows. In order to ensure long-term safety and condition of the trail, the entire trail needs to be repaved, shoulders repaired and select trees removed.</p>

Project Title	Cecil Conserv Corridor - D/B Trail Ext Pope Duval Park
Project Location	5366 Acres of Preservation Land 32221
Department	Parks, Recreation & Community Services
Program Area	Parks / Preservation Land / Wetland
Description or Scope	Cecil Conservation Corridor - Design/build the extension of the Cecil multi-use trail to Pope Duval Park

Justification

The vision for the Cecil Recreation Trail is to provide a paved, multi-use trail corridor from the Cecil Field Recreation Complex/Equestrian Facility to the Jacksonville-Baldwin Rail Trail. The next phase of this project would take the existing trail approximately 4 miles north to Pope Duval Park

Description or Scope									
Project Title	Knights Lane (DSR) -Capital Improvement								
Project Location		Council District(s)	4						
Department	Storm Water Services	Project No	TBD						
Program Area	Drainage	Ordinance No							
Description or Scope		The design and construction of a paved ditch along the north side of Knights Lane North from Sam Road to approximately Knights Lane East (Approximately 500 feet).							
Justification		The banks of the existing ditch are experiencing serious erosion that increases sedimentation downstream and will eventually undermine the roadway. Also, vegetation growth is impacting the drainage capacity of the ditch.

Project Title	Romilly Drive (DSR) -Capital Improvement	Council District(s)	10	Project Comp Date	
Project Location		Project No	TBD	Dpt Ranking	
Department	Storm Water Services	Ordinance No		Pri ID	354
Program Area	Drainage	BT No		Useful Life	50 years
Description or Scope	The existing drainage infrastructure is failing near 6442 Romilly Drive, due to high ground water. This project proposes to remove and replace the curb and gutter, and storm drain pipes.				
Justification	Reduced flooding of the roadway which will improve neighborhood access.

Project Title		Alimacani Trail (DSR) -Capital Improvement						
Project Location								
Department	Storm Water Services							
Program Area	Drainage							
Description or Scope		<p>The Alimacani Trail project is proposed to alleviate stormwater flooding along Alimacani Trail. This project was developed in response to CARE 2016-127947. The proposed system will add stormwater pipe and inlet drainage system along Alimacani Trail for approximately 1000 linear feet from Hidden Creek Drive to the end of the cul-de-sac on Alimacani Trail.</p>						
Justification		<p>Alleviate street flooding along Alimacani Trail.</p>

Project Title	Via Valencia (DSR) -Capital Improvement
Project Location	
Department	Storm Water Services
Program Area	Drainage
Description or Scope	<p>The Via Valencia ditch and embankment repair project is proposed to repair an established City of Jacksonsville right of way drainage ditch and embankment. Erosion of the existing ditch is within close proximity to existing residential homes.</p>

Justification

If not corrected serious erosion will impact existing residential properties. Increases in sedimentation downstream will negatively impacting the drainage capacity of the ditch.

Project Title	Drainage System Rehabilitation - Capital Improvements						
Project Location	County-wide						
Department	Storm Water Services						
Program Area	Drainage						
Description or Scope	This project will help fund design and major fixes, under \$100,000, to the City's drainage system. Once designs are complete, funds in this project may also be used to fund specific drainage projects which exceed \$100,000.						
Justification	This is a continuous requirement to design and construct projects that are beyond the capability of the Maintenance Division to correct. Projects are local in nature and at a relatively low cost. The backlog of issues is approaching 120 projects at an estimated cost of \$24M.

Project Title	Drainage System Rehabilitation - Capital Maintenance						
Project Location	County-wide						
Department	Storm Water Services						
Program Area	Drainage						
Description or Scope	<p>This allocation funds countywide improvements to the City's stormwater drainage system. The improvements are focused on system restoration to ensure that all components function in accordance with their intended purpose. Components such as failed drainage lines and structures make up the majority of these improvements. The funding is projected to be used for continuing maintenance contract services.</p>						
Justification	<p>The improved drainage systems will allow the system components to function in accordance with their intended purpose and reduce flooding throughout Jacksonville.</p>

Project Title	Stormwater Pump Stations - Capital Maintenance	Council District(s)	County-wide	Project Comp Date	Ongoing			
Project Location	County-wide	Project No	PW0798 01	Dpt Ranking				
Department	Storm Water Services	Ordinance No		Pri ID	189			
Program Area	Drainage	BT No		Useful Life	10 years			
Description or Scope	This allocation funds countywide stormwater pump replacements and capital maintenance. The City currently has 12 pump stations countywide. Each pump station has multiple pumps present with some pump stations having as many as 4 pumps present. The funding is projected to be used for the replacement of deteriorated pumps and capital maintenance and repair as needed.	Justification	The City of Jacksonvillle utilizes pump stations countywide. The pumps have to be operable to keep the pump stations working. The pump stations convey stormwater and prevent flooding.	Funding Sources

Project Title	Stormwater Project Development and Feasibility Studies
Project Location	County-wide
Department	Storm Water Services
Program Area	Drainage
Description or Scope	
This allocation funds engineering studies that will evaluate various potential drainage projects throughout the City to determine which ones have cost effective solutions, identify what issues will need to be resolved and prepare project cost estimates.	

Justification

Public Works has prepared a prioritized listing of drainage/flooding issues that need to be addressed. Feasibility studies can determine if a drainage problem has a cost effective solution and provide a scope and cost. *** PW0554 - 01 "DRAINAGE PRIORITIZE/DEV IMP CITYWIDE" has had \$100K available since January of 2005. This could be an appropriate funding source for this project.

Project Title	LaSalle Street Outfall	Council District(s)	5	Project Comp Date	September 2021			
Project Location	LaSalle Street near San Marco Square	Project No	PW0708 01	Dpt Ranking				
Department	Storm Water Services	Ordinance No	2009 - 512	Pri ID	193			
Program Area	Drainage	BT No		Useful Life	20 years			
Description or Scope	Project will provide drainage improvements in the San Marco Area to alleviate roadway flooding caused by heavy rainfall and high tides. A pump station would be required to accomplish flood reduction benefits in this area of San Marco. COJ is pursuing real estate acquisition to support a potential pump station site.	Justification	Pump Station would reduce the frequency and severity of flooding.	Funding Sources

Project Title		Dunn / Caney (Sapp Road Wet Detention)						
Project Location	Caney Branch Creek							
Department	Storm Water Services							
Program Area	Drainage							
Description or Scope								
The intent of this project is to improve water quality by improving approximately 1,000 ft. of channel conveyance in Caney Branch Creek and installing a 7.5 acre wet detention facility for water quality treatment. This project will contribute to the pollutant load reduction required by the Lower St Johns River (LSJR) Basin management Action Plan (BMAP) and NPDES permit requirements. (Project CN-1A in MSMP)								
Justification								
Surface water quality impairments and legal requirements to meet the BMAP obligations require the City to execute stormwater projects to meet pollutant load reduction goals.

Project Title	Arlington/Pottsburg (Bowden & Belfort) Pond
Project Location	Pottsburg Creek Basin
Department	Storm Water Services
Program Area	Drainage

Description or Scope

The intent of this project is to improve water quality by retrofitting and assuming responsibility for an existing 10 acre offline wet detention facility at the intersection of Belfort Road and Bowden Road. This project will contribute to the pollutant load reduction required by the Lower St. Johns River (LSJR) Basin management Action Plan (BMAP) and NPDES permit requirements. (Project PC-6A in MSMP)

Justification

Surface water quality impairments and legal requirements to meet the BMAP obligations require the City to execute stormwater projects to meet pollutant load reduction goals.

Project Title	Wills Branch Maintenance Dredge	Council District(s)	10	Project Comp Date	Beyond 5th year
Project Location	Bakersfield Dr. (Old Middleburg Rd to London Towne Ln)	Project No		Dpt Ranking	
Department	Storm Water Services	Ordinance No		Pri ID	204
Program Area	Drainage	BT No		Useful Life	6 years
Description or Scope	Maintenance dredging of Wills Branch Creek to remove sediment build up from Old Middleburg Road to approximately 6,000 linear feet downstream.				
Justification	In accordance with our agreement (executed November 25, 1996) with the U.S. Army Corps of Engineers (USACOE), the City is required to maintain the bank armoring and channel improvements constructed by them in 1999 and completed April of 2000. Continued siltation of the channel requires maintenance dredging every 7 to 9 years to restore the Wills Branch channel to the original COE depths to minimize house flooding. The last dredge of the channel was done in FY 2009.

Description or Scope		This project will design and implement a stormwater treatment plan for Hogan's Creek to help address the creek's water quality and lack of treatment. This would also help to decrease fecal coliform contamination and promote recreational access and utilization. This system could include the use of "flexflow" to protect downstream public health and improve aquatic biology in Hogan's Creek and potentially the St. Johns River.

Description or Scope

Trail Ridge & North Duval Municipal Landfills generate a significant amount of leachate that requires disposal. Leachate is collected in storage tanks, transported by tanker truck to JEA's Buckman St Wastewater Treatment Plant and is causing permit exceedances where JEA is requiring the City to pay higher disposal fees to compensate for the added work to keep the facility in compliance. Construction of an evaporator unit using the landfill gas generated by the expansion area for leachate disposal will provide an off-set to the ever increasing leachate disposal costs.

Justification

Leachate transport runs almost non-stop Monday-Friday from Trail Ridge and 4 to 5 times per week from North Landfill. Leachate disposal costs have increased from \$80,000 per year to over \$1,000,000 per year and JEA has indicated the disposal cost will increase within the next several years. Currently there are no plans for utilizing the landfill gas that will be generated by the expansion area other than flaring. Use of the landfill gas for leachate disposal will also reduce operational costs for running another flare at the facility.

Project Title	Trail Ridge Landfill Expansion
Project Location	5110 US Highway 301, Baldwin, FL 32234
Department	Solid Waste Disposal
Program Area	Environmental / Quality of Life

Description or Scope

Trail Ridge Landfill has only 4 years of air space left for the disposal of solid waste, with 18 months of operational air space. The site has approximately 977 acres of which 400 are occupied by existing landfill footprint and supporting infrastructure. The remaining 577 acres are located to the north of the current disposal hill. The landfill expansion into this 577 acre area will provide landfill capacity to Duval County residents at the current lowest feasible disposal cost for approximately 33 years of capacity. The expansion of the existing hill to the north into the first disposal unit along the north face of the current hill will capture a "valley" and provide \$150 million in new revenue to the City for the first 5-10 years of operations. The hill is approaching the time frame when there will be no space available for the placement of the ash materials the City is required to dispose of per the Consent Decree with US EPA. Loss of the hill as the disposal site due to capacity constraints would result in an increased cost of \$15-\$20,000,000 to the ash program.

Justification

It is critical to have continuum funding to avoid mobilization and de-mobilization costs, and disruption of solid waste disposal capacity since the current hill will run out of usable space during the anticipated full construction time frame for all infrastructure and ancillary facilities for the expansion project.

Project Title	Environmental Compliance - Countywide
Project Location	County-wide
Department	Solid Waste Disposal
Program Area	Environmental / Quality of Life

Description or Scope

This project focuses on the cleanup of various contaminated sites throughout the city. These dump sites are subject to a Memorandum of Understanding between the City of Jacksonville and the Florida Department of Environmental Protection to assess and remediate unlined dumps and any other contaminated sites the City owns or is designated as the Principal Responsible Party of cleanup. Examples of locations include the Imeson Landfill, Hema Road, Linden Avenue, Burke Street Pond and Confederate Park.

Justification

Sites are being remediated pursuant to MOU with City of Jacksonville and FDEP. The lawsuit for the Confederate Park Site will be settled this year and we must have funding for remediation construction pursuant to the FDEP Consent Decree. Additionally, the assessments for Imeson Landfill, Crystal Springs, Linden Avenue, Nevada-Greeland and Owens Avenue Landfills will be completed in the near future and remediation will be required to commence this FY due to FDEP consent orders. Imeson LF - \$1,750,000, Crystal Springs \$1,000,000, Linden Avenue \$1,000,000, Nevada-Greeland \$2,500,000 and Owens Avenue \$1,000,000 leaves \$4,500,000 for Confederate Park. Hema Road which was discovered during the assessment of Gold Merit/Pope Place site will require additional funding.
