FIVE YEAR CAPITAL IMPROVEMENT PLAN

FIVE-YEAR CAPITAL IMPROVEMENT PLAN

INTRODUCTION

The Capital Improvement Plan (CIP) is a multi-year forecast of major capital buildings, infrastructure, and other needs. The City of Jacksonville has adopted in Jacksonville Municipal Code Chapter 106, Part 1 Section 106.109 Capital Improvement Funding a “Five-Year Capital Improvements Plan that is designed to be financially feasible and provides the funding source and amount of funding for the capital costs of each project, and the funding source and amount of funding for the anticipated post-construction operation costs of each project”. The Five-Year Capital Improvements Plan shall be filed and approved each fiscal year concurrently with the annual budget.

The adopted Capital Improvement Plan (CIP) for a five-year period beginning October 1, 2025, through the fiscal year ending September 30, 2030, includes location, funding and expenses for projects with current fiscal year appropriations.

The CIP incorporates needs identified in the Capital Improvements Element (CIE) required under the Growth Management Act of 1985. The CIE focuses on anticipated infrastructure requirements based on service level standards and the land use plan adopted by the City Council to prevent deficiencies in level of services.

In addition to the needs identified in the CIE, the CIP includes other improvements not covered by the Growth Management Act such as Public Safety, Targeted Economic Development, Public Facilities (primarily public buildings), and Environmental factors.

Capital projects are budgeted on an “all years” basis, an accounting practice used for funds that may need to carry over from one fiscal year to the next for a defined purpose such as funding a specific capital project or a grant.

PROCESS

Chapter 122 of the Jacksonville Municipal Code requires that the CIP be prepared annually by the City of Jacksonville’s Finance Department through submittals received from various City departments, independent authorities, and agencies.

Departments complete a CIP request form with detailed project information and use a standardized matrix to score projects prior to submitting them to the Finance Department. The projects are then reviewed by the Departments of Public Works, Planning & Development, and Finance for reasonableness related to costs, operating budget and level of service impact. The Mayor’s Budget Review Committee (MBRC) makes the final recommendation of projects for the Mayor’s review and approval. The City Council then receives the Mayor’s Proposed Five-Year CIP with the Proposed Annual Budget in July. Once adopted by the City Council the first fiscal year of the CIP becomes the city’s Capital Improvement Budget for that year.

A typical capital project is planned and executed in the following phases:

Engineering & Design: These are costs incurred by the City to design a project in accordance with the scope of work set forth in the development phase. This includes professional consultant fees, legal and technical documentation, constructability review, data collection, advertising, assessment of alternatives related to project design, construction management services, and bid reviews.

Land Acquisition & Site Preparation: These costs are incurred by the City for the purchase of land, easements and right-of-way. This also includes purchase price, surveys, appraisals, environmental audit, permitting, legal costs, maps, charts, aerial photography, and other costs such as wetlands restoration.

Construction: This includes costs incurred by the City for all construction-related tasks required to place a project in service. This includes project construction contracts, professional and technical assistance, advertising, legal and technical documentation, costs, inspections, testing, and permitting.

Capital Equipment: This includes costs incurred by the City for all capital equipment related to the needs of the specific facility/project. This includes public safety, telecommunications and AV equipment.

Per Chapter 122, Part 6, Ordinance Code:

Capital Improvement Project. Excluded from the term and definition of Capital Improvement shall be all Community Redevelopment Area Projects. Capital Improvement Project *means* a planned undertaking of the City or an independent agency that leads to the acquisition, construction, or extension of the useful life of capital assets. Capital assets include things such as land, buildings, parks, streets, utilities, and other items of value from which the community derives benefit. To constitute a capital improvement project, the project must:

- 1 Have a total cost greater than \$100,000 and a useful life of more than ten years,
- 2 Be a one-time outlay, which is non-recurring in nature.
- 3 Add to, enhance the value of, or extend the life of the City's physical assets.
- 4 Major equipment purchases must be associated with a Capital Improvement Project and must meet the criteria in item 1 above to be included as a Capital Improvement Project.

Any project which meets the definition of a Capital Improvement Project must be included in the Capital Improvement Plan, regardless of funding source.

Excluded from the definition of Capital Improvement Projects are:

- i. City vehicular equipment purchases. Fleet appropriations are to be considered within the Operating Budget.
- ii. Expenditures for maintenance supplies and materials or replacement items which shall be budgeted as operating items.
- iii. Purchases involving ongoing debt service or lease/purchase costs which shall be budgeted in the Operating Budget.
- iv. All routine resurfacing of streets, recurring annual items and routine maintenance and repair.

(b) **Capital Improvement Plan**. The Capital Improvement Plan (CIP) is a comprehensive five-year plan of proposed capital improvement projects, intended to identify and balance the capital needs of the community within the fiscal capabilities and limitations of the city budget. It is a significant element of the annual budget process and intended to be binding on future years to fulfill the purposes set forth above. While the CIP is updated annually and subject to change as emergencies arise or projects are delayed by circumstances beyond our control, the annual focus primarily will be on the fifth year of the plan as new projects are added. The first year of the plan is the basis for actual appropriations authorized by the City Council for capital projects when adopting the Annual Budget. The remaining four years establish priorities for future capital improvement projects.

(c) **Capital Improvement Plan Budget**. Capital Improvement Plan Budget shall be submitted annually with the City Annual Budget and is the first year of the Capital Improvement Plan. The required elements of the Capital Improvement Plan Budget are set forth in Section 122.603(b), Ordinance Code.

ADOPTED FIVE-YEAR CIP

The adopted CIP contains 205 updated and/or new projects at \$1,773,816,009 for the next five years. This reflects a continued investment to provide for health, safety and quality of life for our citizens. To assist in balancing and prioritizing needs across the City, departments identify projects by one of the following "Program Areas."

Drainage - Project that improves drainage conditions and reduces flooding

Environment/Quality of Life - Project that would promote or improve the environment for the citizens of Jacksonville (e.g. water treatment plants)

Parks - Project with buildings, grounds and/or recreational facilities within the park boundaries, also including the Preservation Project

Public Facilities – Project for facilities designated for primarily citizen use and includes facilities such as the county courthouse, arena and baseball park

Public Safety - Project relating to public safety including facilities

Roads/Infrastructure/Transportation – Project dedicated to expanding and widening roads; interchanges, overpasses and intersection improvements; and also includes road resurfacing, sidewalks/bike paths, as well as landscaping/tree planting along road improvement projects

Targeted Economic Development – Project is used to stimulate growth and revitalization by providing grants and loans for infrastructure, public improvements, and project development

CAPITAL PROJECTS OPERATING IMPACT

The CIP is an integral element of the City's budgeting process. The cost of operating new or expanded facilities or infrastructure can be significant and will be included in the operating budget in the fiscal year when the assets become operational. In addition, the future operating impacts are incorporated into the five-year forecast that accompanies the Budget. More information can be found on the individual project sheets contained in this section on expenditures and operating impact related to each project.

CAPTIAL GIFTS TO THE CITY

In 2024 legislation (2024-046-E) was passed to amend various sections in Ordinance Code Chapter 106 – Budget and Accounting Code – and Chapter 113 – Gifts to the City – to limit the use of monetary or non-monetary in-kind gifts or donations to the City for capital improvement projects or other purposes without City Council appropriation. Sec. 106.441 was amended to provide that the Mayor and the City Council are authorized to accept monetary or non-monetary (in-kind services) gifts, bequests and donations to the City. The amendment provides that no gift, donation, in-kind service or other donation, regardless of the amount, may be used to “alter, demolish, relocate, transform or in any way modify any City-owned or managed property, object, thing or anything else of substance without prior Council approval and appropriation.”

Chapter 113 was amended to add reference to procedures for the receipt of donations of in-kind goods or services for which the fair market value of the donation exceeds or is less than \$500,000, both of which contain a requirement that all in-kind donations shall be accepted only through resolution or (in certain cases where necessary due to conditional terms) ordinance approved by the Council.

RECURRING ANNUAL CAPITAL MAINTENANCE

The CIP annually includes various appropriations which meet and/or exceed all the required minimums set forth via 2015-428-E for recurring capital maintenance needs. A detailed list of those projects and adopted appropriations can be found in the following pages contained in this section.

FUNDING

The CIP is the city's financially feasible plan of capital projects. It includes project costs and schedules over a five-year period to meet the infrastructure needs of the City of Jacksonville and additional State of Florida growth management mandates.

The adopted FY25/26 Capital Improvement Plan (CIP) totals nearly \$685 million dollars for 151 projects. The FY2026-2030 adopted Capital Improvement Plan focuses efforts on repair and maintenance of city infrastructure needs, facilities and parks.

Project Title	Fire Station #67 - New	Council District(s)	10	Est. Completion Date	2027
Project Location	Fredericksburg Ave. and Sibbald Rd.	Project Number	011192	Capital Maint. Category	None
Department	Fire and Rescue	Mayor's Priority	Public Safety	APP/Vertical Construction	Yes
Program Area	Public Safety	Urban Core	No	Est. Useful Life	50 years

Description or Scope

The project is the construction and staffing of a new fire station in the Fredericksburg Ave. and Sibbald Rd. area. A new Fire Engine and Rescue unit is included in this enhancement.

Justification

This project includes determining the proper location near Fredericksburg and Sibbald Rd. area, and subsequent purchase of a suitable property for the construction and staffing of a JFRD fire station. Build new Fire Station 67 as identified in the City's 2012 2016 Capital Improvement Program and Tri Data report to reduce response times for fire and EMS runs.

Project Title	Fire Station #77 - New	Council District(s)	12	Est. Completion Date	2029

Department	Fire and Rescue	Mayor's Priority	Public Safety	APP/Vertical Construction	Yes
Program Area	Public Safety	Urban Core	No	Est. Useful Life	50 years

Description or Scope

This project is the construction and staffing of Fire Station #77. The new station will be staffed with an ALS engine company, an ALS ladder company, an ALS rescue unit, a tanker and a suppression district chief.

Justification

The 10,000 acre development where Fire Station 77 will be located is extreme western Duval County. The development will include thousands of homes, commercial businesses, schools and a hospital. The majority of this development is in an area that is rated an ISO Class 10. Projections show this is becoming one of the fastest growing areas of the county and the area demonstrates a need for adequate fire and EMS protection. Response times in areas of the development fall outside of NFPA 1710 recommendations. Constructing a fire station within this area will ensure response times are 8 minutes (480 seconds) or less 90 percent of the time in accordance with NFPA 171 standards. In the PUD, the developer has set aside a 2.5 acre parcel for fire station construction.

Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	No	Est. Useful Life	25 years

Description or Scope

Reconstructing 2nd Avenue North from 20th Street to the Boat Ramp. Improvements will result in a safer roadway section which includes constructing a City Standard roadway section, stormwatertreatment facilities and new bridge.

Justification

The existing roadway section and alignment needs to be brought up to current design standards. Additionally the roadway section is susceptible to seasonal high tide flooding and will be raised.

Project Title	Acree Road Bridge Replacement	Council District(s)	8	Est. Completion Date	2024
Project Location	Acree Road	Project Number	002213	Capital Maint. Category	Maint., Upgrade and Replace
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	No	Est. Useful Life	30 years

Description or Scope

Replacement of three timber bridges on Acree Road near the Duval County line.

Justification

The bridges are designated as Structurally Deficient by the FDOT and require replacement. Emergency maintenance and bridge closures in the past few years have shown these bridges to be near the end of their useful life.

Description or Scope

This allocation funds the construction of new sidewalks in accordance with the Pedestrian Safety Improvement Program criteria throughout Jacksonville on Orange Picker Road. Funding will be used for installation of new sidewalks that will help to address pedestrian safety and mobility issues. Project includes the construction of sidewalks from Orange Picker to Flynn Road.

Justification

Jacksonville is ranked highest for pedestrian fatalities among most populous cities in America. Improved sidewalks and ADA ramps will provide safer and more efficient pedestrian movement throughout Jacksonville. The new sidewalks and ADA compliant sidewalks will encourage companies to locate in Jacksonville.

Description or Scope

This allocation funds county-wide enhancements to City bridges. The enhancements are focused on City bridge improvements to ensure appropriate transportation operations throughout Jacksonville. The Public Works Department has developed a prioritization process to identify the most necessary needs. This project will also provide a funding source to address emergency repairs when necessary due to a bridge failure or traffic accident(s). The scope of any specific bridge project funded within a CRA boundary shall be clearly defined at the time of identification of such project. This scope clarification is applicable to funds remaining from prior year, as well as current year appropriations, and future year budgeted funding.

Justification

Adequately maintaining the City's bridge structures is a very important component of ensuring that our City's infrastructure is safe and reliable for the citizens of Jacksonville. The CIP scope clarification is necessary to avoid conflict with CRA projects.

Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core		Est. Useful Life	20 years

Description or Scope

This allocation funds county-wide enhancements to City intersections. The enhancements are focused on City intersection capacity and safety improvements to ensure appropriate transportation operations throughout Jacksonville. The Public Works Department has developed a prioritization process to identify the most necessary needs. The scope of any specific intersection project funded within a CRA boundary shall be clearly defined at the time of identification of such project. This scope clarification is applicable to funds remaining from prior year, as well as current year appropriations, and future year budgeted funding.

Justification

Locations experiencing noticeable volumes of crashes may be improved with corrective measures that will mitigate targeted crash types and crash/conflict contributing factors. The work is usually minor and improvement plans are selected based on anticipated reduction in crashes or elimination of factors that contribute to crashes. It provides flexibility to address unforeseen needs rapidly, since the funding is already in place. The CIP scope clarification is necessary to avoid conflict with CRA projects.

Project Title	Emerald Trail - Hogan Street Connector	Council District(s)	Downtown Project	Est. Completion Date	2024
Project Location	Hogan Street	Project Number	010395	Capital Maint. Category	None
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	No	Est. Useful Life	

Description or Scope

Hogan Street Connector provides a missing connection between the Hogan's Creek Greenway trail and the Northbank Riverwalk trail. The proposed trail begins on the northern end at Hogan's Creek, and interacts with the Florida State College at Jacksonville (FSCJ) campus , and continues on the West side of Hogan Street with a dedicated cycle track and enhanced sidewalk, hardscape and landscape excluding those improvements at the Forsyth and Adams intersections contained in the current CRA project for Forsyth and Adams Streets . Trail amenities such as benches, signage, etc. are included in the project however within the boundaries of Downtown, art installations are not included within the project scope. This scope clarification is applicable to funds remaining from prior year, as well as current year appropriations, and future year budgeted funding.

Justification

Provides direct connection through Downtown Jacksonville Connects two existing trail corridors - the Northbank Riverwalk and the Hogan's Creek Greenway. The CIP scope clarification is necessary to avoid conflict with CRA projects.

Project Title	Firestone Rd - Wheat Rd Intersection Improvements	Council District(s)	14	Est. Completion Date	FY26
Project Location	Firestone Rd & Wheat Rd	Project Number	010396	Capital Maint. Category	None
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	No	Est. Useful Life	25 years

Description or Scope

Install traffic signal, pedestrian crossings, and drainage improvements on intersection approaches.

Justification

This intersection was identified in the Bicycle/Pedestrian Master Plan as needing pedestrian crossing enhancements. During evaluation it was determined that signal warrants are met and a full signalwith pedestrian crossings would be safer and more efficient. Piping of approx. 100' of ditch and overhead utility conflicts contribute to the higher cost estimate.

Project Title	Hamilton St Box Culvert Extension/Sidewalk Connection	Council District(s)	7	Est. Completion Date	TBD
Project Location	Hamilton Street	Project Number	011200	Capital Maint. Category	Sidewalk - New
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	No	Est. Useful Life	15 years

Description or Scope

This allocation funds the extension of an existing box culvert and construction of new sidewalk in accordance with the Pedestrian Safety Improvement Program criteria throughout Jacksonville. Funding will be used for installation of new sidewalk to complete missing gaps that will help to address pedestrian safety and mobility issues.

Justification

Improved sidewalks will provide safer and more efficient pedestrian movement throughout Jacksonville.

Project Title	Hardscape - County Wide Maintenance & Repair	Council District(s)	Countywide	Est. Completion Date	Ongoing
Project Location	Countywide	Project Number	001255	Capital Maint. Category	Roadway Safety - Pedestrian C
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core		Est. Useful Life	10 years

Description or Scope

This allocation funds countywide repairs to the City's existing Hardscape features. These features include items found within the right-of-way that are considered to be specialty, including but not limited to: sidewalk pavers, textured crosswalks, stamped/colored asphalts, etc. The repairs are focused on system restoration to ensure that all components function in accordance with their intended purpose. The funding is projected to be used for continuing maintenance contract services. The scope of any specific project funded within a CRA boundary shall be clearly defined at the time of identification of such project. This scope clarification is applicable to funds remaining from prior year, as well as current year appropriations, and future year budgeted funding.

Justification

The City of Jacksonville currently has a backlog in hardscape repairs which could result in liability for citizen injuries. Improved paver sidewalks and crosswalk repairs will provide safer and more efficient pedestrian movement throughout Jacksonville. The CIP scope clarification is necessary to avoid conflict with CRA projects.

Description or Scope
The major outfall ditch conveyance channel would be modified to return the channel to its original capacity. Outfall ditch banks will be armored(where needed) to protect against future erosion.

Justification
Clearing and restoring the outfall ditch channel width and removing vegetative overgrowth will reestablish and maintain outfall capacity.

Project Title	Lobrano Court Drainage Improvements	Council District(s)	6	Est. Completion Date	2028
Project Location	Lobrano Court	Project Number		Capital Maint. Category	Drainage System Rehabilitatio
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	No	Est. Useful Life	15 years

Description or Scope

Project will repair damaged curb and gutter and driveways on Lobrano Court. The base material under the curb and gutter and asphalt is proposed to be recycled concrete aggregate. The modified base material will protect the curb and gutter and each driveway for a longer life expectancy.

Justification

The existing curb and gutter has been damaged by the high-water table. My Jax issue CARE 2013-5008860. Currently ranked #8 on the City's DSR ranking list.

Project Title	Main Street Bridge Pedestrian Ramp	Council District(s)	7	Est. Completion Date	TBD
Project Location	Main Street Bridge	Project Number	011201	Capital Maint. Category	None
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	Yes	Est. Useful Life	25 years

Description or Scope

This project will enable and create a pedestrian ramp from the Main Street Bridge to the Riverwalk. This project expands upon the vehicle access ramp removal from Independent Dr. to the Main Street Bridge performed by FDOT by removing remaining bridge portions on the west side of the Main Street Bridge and completing other pedestrian infrastructure improvements along this portion of the Main Street Bridge. This scope clarification is applicable to funds remaining from prior year, as well as current year appropriations, and future year budgeted funding.

Justification

FDOT is removing the south bound on ramp to the Main Street Bridge. The new pedestrian ramp will encourage development at the Riverfront Plaza Site. The CIP scope clarification is necessary to avoid conflict with CRA projects.

Description or Scope

This project will resurface, install raised medians, add bike lanes from Atlantic Blvd to Trednick Parkway, install dual EB left-turn lanes and NB receiving lanes at St. Johns Bluff Rd. Construct 1.1 miles of new sidewalk on Monument Rd from Regency Sq Blvd N to Lee Rd and 900 ft of sidewalk from Atlantic Blvd to Monument Rd as well as reconfigure the lane assignments at Trednick Parkway.

Justification

Recommended by the 2020 TPO Corridor Study for Monument Road from Atlantic Blvd to St. Johns Bluff Road to reduce delay and improve safety.

Project Title	Northbank Riverwalk - Northbank Bulkhead	Council District(s)	Downtown Project	Est. Completion Date	Beyond 5th Year
Project Location	Northbank Riverwalk in Downtown	Project Number	001032	Capital Maint. Category	Maint., Upgrade and Replace
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	Yes	Est. Useful Life	25 years

Description or Scope

Our continuous inspection of the Northbank Riverwalk indicates a need to begin phasing the entire replacement of the bulkhead beginning at the Acosta Bridge through Metropolitan Park. Replacement of the bulkhead may require removal and replacement, or repairs to, the adjacent existing Riverwalk and funds may be used to construct new Riverwalk segments adjacent to new bulkhead sections. There is approximately 7,070 linear feet of bulkhead (including 1,400 linear feet at Met Park) and it is estimated that the complete replacement cost will be over \$31 million. Our plan is to phase the replacement over time. The scope does not include enhancements to the existing Riverwalk unless in conjunction with Bulkhead replacement. This scope clarification is applicable to prior year, as well as current year appropriations, and future year budgeted funding.

Justification

Replacement of this deteriorating bulkhead will reduce on-going maintenance costs and eliminate potential liabilities assigned to the City. Future years' funding will be required to continue the effort of completing this replacement task and ongoing City maintenance. The CIP scope clarification is necessary to avoid conflict with CRA projects.

Project Title	Overhead Pedestrian Signal – Duval Station Road	Council District(s)	8	Est. Completion Date	
Project Location	711 Duval Station Road	Project Number	011203	Capital Maint. Category	None
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	No	Est. Useful Life	25 years

Description or Scope

There are at least 100+ high school and middle school students crossing Duval Station Rd every day. At the 4 lane approach there are sight distance concerns. To enhance the safety of this crossing, an overhead high intensity activated crosswalk is needed. The HAWK also known as a PHB (Pedestrian Hybrid Beacon) is expected to improve safety while minimizing vehicular delay.

Justification

Jacksonville is consistently listed as one of the most dangerous cities for pedestrians. This project will improve pedestrian safety.

Description or Scope

Construction of a safe pedestrian crossing, (HAWK), for students walking to A. Phillip Randolph Academy on Golfair Blvd.

Justification

There is no safe crossing location on Golfair Blvd. for students walking to school. The school resource officer currently controls traffic to let students cross -the officer is not always available. Golfair is a busy 4 lane road with high speeds. The crossing was requested by the school.

Project Title	Penman Road Complete Street	Council District(s)	13	Est. Completion Date	Beyond 2025
Project Location	Penman Road	Project Number	010111	Capital Maint. Category	Roadway Safety - Pedestrian C
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	No	Est. Useful Life	15 years

Description or Scope

Complete a "Complete Streets" study for Penman (Atlantic to Beach Blvd) which will address intersection, pedestrian and bicycle needs and improvements.

Justification

All three Beaches communities: Atlantic Beach, Neptune Beach and Jacksonville Beach have passed resolutions asking the City of Jacksonville to make Penman Road safer for pedestrians by pursuing complete streets projects.

Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	No	Est. Useful Life	15 years

Description or Scope

This allocation funds the construction of new sidewalks in accordance with the Pedestrian Safety Improvement Program criteria throughout Jacksonville on Plummer Grant Road. Funding will be used for installation of new sidewalks that will help to address pedestrian safety and mobility issues. Project includes the construction of sidewalks from Old St. Augustine Road to Julington Creek Road.

Justification

Jacksonville is ranked highest for pedestrian fatalities among most populous cities in America. Improved sidewalks and ADA ramps will provide safer and more efficient pedestrian movement throughout Jacksonville. The new sidewalks and ADA compliant sidewalks will encourage companies to locate in Jacksonville.

Description or Scope

This allocation funds countywide railroad crossing maintenance. The City has long standing agreements with the major railroad companies that place the maintenance and repair cost of railroad crossings on the City. By agreement, the City has to have funds available at all times to pay for any work that may be deemed necessary by the railroads.

Justification

The City of Jacksonville has to be able to fulfill the obligation of the agreements in place with the railroads. The crossing improvements are safety related and are performed by the railroads.

Description or Scope

It is important for public infrastructure to be adaptive to changing environmental conditions, it will be important to assess the ability of existing infrastructure to withstand current and future stresses, and to plan for the infrastructure's rehabilitation, relocation and/or replacement. In addition, public access to resilient related information and data assist with community engagement.

Justification

It will be critical that new capital infrastructure to be made so that the infrastructure is located and engineered/designed to withstand climate risks expected over the lifetime of the asset.

Project Title	Roadway Resurfacing - Roadway Resurfacing	Council District(s)	Countywide	Est. Completion Date	Ongoing
Project Location	Countywide	Project Number	001024	Capital Maint. Category	Roadway Resurfacing
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core		Est. Useful Life	25 years

Description or Scope

This allocation funds resurfacing of City roads throughout Jacksonville. The City is responsible for approximately 3,682 miles of paved centerline roadway. Resurfacing includes full milling and resurfacing, micro-surfacing and rejuvenation of City roadways. All of these treatments extend the lifespan of existing city roadways. Program Management Services for the Pavement Management program are also included in this project. A portion of this project is being funded by Community Development Block Grant (CDBG) grant funding. The scope of any specific resurfacing project funded within a CRA boundary shall be clearly defined at the time of identification of such project. This scope clarification is applicable to funds remaining from prior year, as well as current year appropriations, and future year budgeted funding.

Justification

The improved resurfaced roadways will provide safer and more efficient transportation throughout Jacksonville. The project will decrease operating budget in future years and maintenance efforts that will be required on the resurfaced roadways will be reduced resulting in cost savings for maintenance. Also the improved resurfaced roadways will result in lower damage claims for vehicles due to problems with the deteriorated roadway surface such as potholes. The resurfaced roadways will encourage companies to locate to Jacksonville. The CIP scope clarification is necessary to avoid conflict with CRA projects.

Department	Public Works	Mayor's Priority	Public Safety	APP/Vertical Construction	No

Description or Scope

Improve existing pedestrian crossings and install pedestrian crossing at unmarked sites on City right of way. Some locations may require pavement markings and signage and other locations may require Rectangular Rapid Flashing Beacons (RRFB).

Justification

The City is currently ranked high in pedestrian fatalities. Mid-block crossings and unmarked crossings pose a challenge to elementary and middle school age children as well as seniors. Site prioritization recognizes the need for pedestrian crossings at elementary and middle school student walkways and at senior living areas with bus stops.

Department	Public Works	Mayor's Priority	Public Safety	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core		Est. Useful Life	6 - 10 years

Description or Scope

This project supports the Traffic Engineering Division's county-wide effort to re-stripe and re-sign deficient roadways. Additional efforts include signal repair and replacement or enhancement of traffic signal equipment.

Justification

Roadways that lack or are missing lane lines/lane control markings (arrows, etc.) are difficult to traverse with opposing traffic. Drivers are exposed to side swipe and off set head on collisions. Turns and curves are critical segments that require clear lane delineation. Repair of signalized intersections is critical in providing traffic control during weekday peak periods. Signs are replaced as reflectivity is reduced. Regulatory signs and school zones are critical locations. Signs useful life: 10 years, Signal useful life: 8 years, Striping useful life: 6 years.

Project Title	San Mateo Elementary School Sidewalk	Council District(s)	2	Est. Completion Date	TBD
Project Location	600 Baisden Road	Project Number	010806	Capital Maint. Category	Roadway Safety - Pedestrian C
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	No	Est. Useful Life	25 years

Description or Scope

Construct sidewalk along the north side of Eastport Road from Main Street to Charlie Road and construct sidewalk on Emuness Road from Renne Drive North to Eastport Road thus creating a continuous sidewalk between residential areas and apartment complexes on Eastport Road all the way to San Mateo Elementary School. Additionally, add crosswalks and a flashing school zone to aid students crossing Eastport Road as they walk to the school.

Justification

The Duval School Safety Committee has identified this walking path currently in use by elementary school students, to be in need of sidewalk to fill a gap in the sidewalk network. A flashing school zone is also needed to provide a safe path across Eastport Road, which is posted at 35 MPH.

Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	No	Est. Useful Life	50 years

Description or Scope

Install three check valves in existing storm pipes to prevent high tide from the intracoastal back-flowing up the pipes and flooding the neighborhood.

Justification

High tides from the intracoastal are causing flooding in the neighborhood and into some houses. A check valve would solve the flooding from the tides, but flooding could potentially still occur during large storm events.

Project Title	Sidewalk Construction - New	Council District(s)	Countywide	Est. Completion Date	Ongoing
Project Location	Countywide	Project Number	001305	Capital Maint. Category	Sidewalk - New
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core		Est. Useful Life	25 years

Description or Scope

This allocation funds the construction of new sidewalks in accordance with the Pedestrian Safety Improvement Program criteria throughout Jacksonville. Funding will be used for installation of new sidewalks to complete missing gaps that will help to address pedestrian safety and mobility issues. The scope of any specific project funded within a CRA boundary shall be clearly defined at the time of identification of such project. This scope clarification is applicable to funds remaining from prior year, as well as current year appropriations, and future year budgeted funding.

Justification

Improved sidewalks and ADA ramps will provide safer and more efficient pedestrian movement throughout Jacksonville. The new sidewalks and ADA compliant sidewalks will encourage companies to locate to Jacksonville. The CIP scope clarification is necessary to avoid conflict with CRA projects.

Description or Scope
Construction and repair of existing Sidewalks and curbs. The scope of any specific sidewalk or curb project funded within a CRA boundary shall be clearly defined at the time of identification of such project. This scope clarification is applicable to funds remaining from prior year, as well as current year appropriations, and future year budgeted funding.

Justification
The City of Jacksonville currently has a very large backlog in sidewalk repairs which could result in liability for citizen injuries. Improved sidewalks and ADA ramps will provide safer and more efficient pedestrian movement throughout Jacksonville. The repaired and new sidewalks and ADA compliant sidewalks will encourage companies to locate to Jacksonville. The CIP scope clarification is necessary to avoid conflict with CRA projects.

Project Title	St Johns River - St Johns River Bulkhead, Assess & Restore	Council District(s)	Countywide	Est. Completion Date	Ongoing
Project Location	Countywide	Project Number	001218	Capital Maint. Category	Maint., Upgrade and Replace
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core		Est. Useful Life	50 years

Description or Scope

This funds inspection/repair/replacement of the City's countywide bulkhead assets. Previous years' funding has been utilized to inventory and assess 557 Structures throughout Jacksonville. They have been assessed as being either in excellent, good, poor, or failing conditions to allow for a prioritization of improvement. Previous years' allocations have also funded the repair/replacement of the highest priority structures (those identified as Failure & Poor condition - 86 Structures) and continual funding supports ongoing inspections in order to update the project prioritization list and address the next group of highest priority structures.

Justification

Extending bulkhead life and/or replacement of deteriorated bulkheads will reduce on going maintenance costs and eliminate potential liabilities assigned to the City. Future years' funding will be required to continue the effort of maintaining the City's bulkhead infrastructure.

Project Title	Starratt Road Sidewalk Improvements	Council District(s)	8	Est. Completion Date	2026
Project Location	Starratt Road	Project Number	010811	Capital Maint. Category	Sidewalk - Repair
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	No	Est. Useful Life	

Description or Scope

Starratt Road west of Duval Station Road is a two lane section of paved roadway having one eastbound and one westbound lane of traffic. There is a 5.5' wide sidewalk along the south side of the road separated by a 3' grass buffer. A double box culvert crosses the roadway approximately 500' east of the intersection with Duval Station Road. Recent development north of the road has increased the need for a sidewalk within the north right of way and the box culvert creates a restriction to such a sidewalk.

Justification

Extensions to the existing box culverts will provide room to construct a new 6' wide sidewalk on the north side of Starratt Road and widen the existing 5.5' sidewalk on the south side of Starratt Road to 6' wide. The design will reduce the risk to pedestrians attempting to traverse east/west on the north side of the road by providing traffic railings between the pedestrians and traffic and pedestrian railings across the Dunn Creek where there currently are none.

Project Title	Sunbeam Road Underdrain Replacement Project – Phase 2	Council District(s)	5	Est. Completion Date	TBD
Project Location	Sunbeam Road	Project Number		Capital Maint. Category	Drainage System Rehabilitatio
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	No	Est. Useful Life	25 years

Description or Scope

Replace the existing underdrain and any failing roadway elements for a segment of Sunbeam Rd that is roughly 600 LF.

Justification

The existing underdrains in Sunbeam Rd. are failing. This is causing portions of the roadway, sidewalk, and curb to sink and become uneven.

Description or Scope

Build 1 mile of sidewalk on the south side of Townsend Rd. Design will be finished Fall 2024. Ready for construction January 2025.

Justification

High pedestrian crashes and fatalities. No sidewalks exist. More pedestrian crashes than 98% of city roads. 2 fatalities. 2 wheelchair crashes. Impossible to use shoulder because of deep ditches. Children walking, disabled pedestrians, high ridership JTA stop, mobile home parks, convenience stores. Jacksonville is one of the 10 most dangerous cities for pedestrians.

Description or Scope

The project is a Countywide project to help alleviate traffic. This funding will be used to calm traffic in areas throughout the county where speed humps and other traffic calming devices can be implemented.

Justification

Traffic calming in desired neighborhoods to slow motorized traffic, enhance safe pedestrian crossings and help position parked vehicles away from corners to provide better sight distance. This project will install curb extensions, shorten pedestrian crossing distances and provide area for landscaping.

Project Title	Traffic Signal –NEW –Dunn Ave. and Braddock Rd.	Council District(s)	8	Est. Completion Date	
Project Location	Dunn Ave. and Braddock Rd.	Project Number	011064	Capital Maint. Category	None
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	
Program Area	Roads / Infrastructure / Transportation	Urban Core		Est. Useful Life	25 years

Description or Scope

Install a new signal and turn lanes at either the intersection of Dunn Ave. and Braddock rd. or the intersection of Dunn Ave. and Rolling River Blvd., which ever location is determined to be most beneficial. Dunn Ave. is an FDOT road, however, FDOT may not have funding for this project.

Justification

A signal is warranted based on the existing traffic volumes. A signal will help reduce severe crashes and reduce delay for traffic on the minor road.

Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core		Est. Useful Life	20 years

Description or Scope

The project will provide communications to the traffic signals along selected City arterials. A communication link to a traffic signal controller will allow for remote assessment of signal issues, provide automated warning for power outages, allow for video capability, and remote real time observation of the intersection and corridor.

Justification

A communication link to a traffic signal controller will allow for remote assessment of signal issues, provide automated warning for power outages, allow for video capability, and remote real time observation of the intersection and corridor. Fiber communications will allow for a more rapid assessment and reduced labor costs.

Description or Scope

The purpose of this project is to provide funding for signalization of intersections. When the Traffic Engineering Division deems that an intersection meets the criteria for signalization, these funds will provide the resources to design and install the necessary traffic signals.

Justification

Traffic Engineering Division deems that an intersection meets the criteria for signalization and these funds are needed for the installation.

Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core		Est. Useful Life	

Description or Scope

Countywide effort to provide funding for lighting projects. The scope of any specific project funded within a CRA boundary shall be clearly defined at the time of identification of such project. Traffic street lights for Forsyth and Adams included in the CRA project are expressly excluded. This scope clarification is applicable to funds remaining from prior year, as well as current year appropriations, and future year budgeted funding.

Justification

Rust prevention. The CIP scope clarification is necessary to avoid conflict with CRA projects.

Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	No	Est. Useful Life	15 years

Description or Scope
This allocation funds the construction of new sidewalks in accordance with the Pedestrian Safety Improvement Program criteria throughout Jacksonville on Trout River Blvd. Funding will be used for installation of new sidewalks that will help to address pedestrian safety and mobility issues. Project includes the construction of sidewalks from Old Kings Road to New Kings Road (Approximately 3,300 ft) and includes a railroad pedestrian crossing.

Justification
Jacksonville is ranked highest for pedestrian fatalities among most populous cities in America. Improved sidewalks and ADA ramps will provide safer and more efficient pedestrian movement throughout Jacksonville. The new sidewalks and ADA compliant sidewalks will encourage companies to locate in Jacksonville.

Project Title	Waterville Rd Drainage Lawsuit Settlement	Council District(s)	2	Est. Completion Date	
Project Location	Waterville Rd	Project Number	011227	Capital Maint. Category	None
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	No	Est. Useful Life	

Description or Scope

The project addresses recurring drainage and pavement failures on and near Waterville Road on Black Hammock Island, adjacent to a designated City conservation area. The work includes reconstruction of approximately 100 feet of failed roadway, installation of a concrete drainage swale with turndown edges and riprap outfall protection, regrading of shoulders to reestablish positive drainage, and full sod restoration. Additional scope includes dewatering, erosion control, and maintenance of traffic.

Justification

The project is intended to eliminate localized flooding, restore safe vehicular access, reduce long-term maintenance needs, and prevent erosion impacts to adjacent environmentally sensitive lands.

Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	No	Est. Useful Life	

Description or Scope

Widening of Lane Avenue North from 5th to 12th Street. The intent is to take it from two lanes to five lanes. This project includes engineering, permitting, right-of-way acquisition and construction.

Justification

This will relieve traffic congestion and safety issues due to the increase of tractor trailer traffic in the area.

Project Title	Jax Ash Site Pollution Remediation	Council District(s)	7, 10	Est. Completion Date	Beyond 5 Years
Project Location	Lonnie Miller, 5th and Cleveland, Forest Street, Browns Du	Project Number	000564	Capital Maint. Category	None
Department	Public Works	Mayor's Priority	Health	APP/Vertical Construction	No
Program Area	Environmental / Quality of Life	Urban Core	No	Est. Useful Life	30 years

Description or Scope

The ash remediation program is a Superfund Site composed of four areas of the City where municipal solid waste was burned in an incinerator as a method of treatment to render the material inert prior to disposal. The incinerator ash was deposited in areas of Jacksonville in the early to mid 1900's and consists of approximately 3,700+ sites in four areas: Browns Dump, Forest Street, 5th and Cleveland and Lonnie Miller. Due to the inefficient technology of the time, the solid waste materials were not rendered inert and resulted to contain elevated levels of heavy metals and poly nuclear aromatic hydrocarbons above federal regulatory levels. The approved remediation method is to excavate the upper two feet of soil, replace with clean backfill, place institutional and engineering controls on the parcel. The ash is used as daily cover for the Trail Ridge Landfill. The program is overseen by the EPA and administered by the Solid Waste Division.

Justification

EPA Consent Order, court ordered legal action called a Record of Decision.

Description or Scope

This project will replace the flat roof sections with an upgraded single-ply system that will protect the facility from leaks and water intrusion.

Justification

The flat roof sections are currently experiencing leaks in multiple areas. Repairing the leaks and damages caused is becoming more and more difficult due to the age and condition of the roof. The current flat roof sections have exceeded their useful life and needs replacing.

Description or Scope
This project identifies funds to replace the existing electrical and mechanical equipment for all of the passenger elevators.

Justification
The electrical and mechanical equipment are original to the facility and past it's useful life. Replacement parts is quickly becoming obsolete. The elevators are a critical and essential function of the daily use of the facility and a requirement for public safety and compliance.

Project Title	Fleet Management-Maintenance and Upgrades	Council District(s)	COJ Building	Est. Completion Date	TBD
Project Location	2581 Commonwealth Ave	Project Number	008973	Capital Maint. Category	Facilities Capital Maintenance
Department	Public Works	Mayor's Priority	Other/Maintenance	APP/Vertical Construction	No
Program Area	Public Facilities	Urban Core	No	Est. Useful Life	10 - 20 years

Description or Scope

This is an old facility and the materials used to construct the building are increasingly difficult to repair due to the age. The funds will be used to: Install a TPO roofing system on the main building and the office to prevent water from entering the facility. Additionally funds will be used to mill, resurface and restripe the existing parking lot. This project will include the Superior Street fueling station design and installation of 3-20,000 gallon above ground storage tanks, piping, new dispensers and canopy.

Justification

One of the most important systems of this facility is the building envelope which keeps moisture out while protecting the emergency vehicles, apparatus, and equipment in this 100,000sf warehouse building. The metal roof panels are showing signs of water intrusion and are in need of repair. Additionally, the goal of this project is to increase the safety of the parking lot for the clients and staff of the facility. Any delays to the project will increase the amount of time that Fleet Management operates using a parking lot that is no longer as safe as it should be for pedestrian and vehicle traffic.

Project Title	Florida Theatre - Facility Improvements	Council District(s)	Downtown Project	Est. Completion Date	FY28
Project Location	128 E Forsyth Street	Project Number	008966	Capital Maint. Category	Facilities Capital Maintenance
Department	Public Works	Mayor's Priority	Arts, Culture, and Enter	APP/Vertical Construction	No
Program Area	Public Facilities	Urban Core	No	Est. Useful Life	

Description or Scope

Funds for this project will be used for upgrading the stage lighting system, sound system, digital projection system, assistive listening system, theatre seating, repairs and restoration to the plaster and paint in the auditorium, replacing the HVAC system, restoring the marquee and canopy, improvements to the bathrooms, roof replacement, elevator upgrades and flooring repairs. This funding reflects the City's 50% partnership with the Florida Theater Performing Arts Center, Inc. (FTPAC). FTPAC will be contributing the remaining 50% for a total partnership contribution of \$5M over the 5 year period.

Justification

The equipment, fixtures, systems and building components are original to the facility and past it's useful life. Furthermore these repairs/upgrades will allow the theatre to meet the needs and demands of today's market and be sustainable with it's operations.

Department	Public Works	Mayor's Priority		APP/Vertical Construction	No
Program Area	Public Facilities	Urban Core	No	Est. Useful Life	25 years

Description or Scope

Provide construction services to complete scope of work to include: Construction of approx. 175 feet of walls to divide hallways from working / cubicle areas. (Walls are being added to increase staff safety and separate public access from private work areas.) Furnish and installation of doors/frames/hardware as per 50% construction drawings. Electrical work as per 50% construction drawings, to include relocating of hallway lighting / switching, exitlighting, etc. Access control at 21 doors as 50% construction drawings, to include supplemental controllers / boards to handle new drops. New base cabinets / sink of approx. 8' at second floor board room. (This is required due to safety measures that restrict access to private staff areas. It ensures ongoing water access for individuals using the board room for public meetings, rentals, and emergency operations.) Conversion of (2) printer rooms to offices, to include demolition of existing casework, patch/paint at removed casework, lower electrical

Justification

It has been determined the KHA building is not currently a secure space for staff, as outside individuals are able to roam freely among staff areas once they are past the entry checkpoint. These improvements are necessary to increase building safety, preserve access to essential amenities, and ensure continued use of the space for public meetings and emergency operations if needed.

Project Title	Medical Examiner Facility - 04	Council District(s)	7	Est. Completion Date	
Project Location	881 Golfair Blvd	Project Number	006237	Capital Maint. Category	None
Department	Public Works	Mayor's Priority	Other/Maintenance	APP/Vertical Construction	Yes
Program Area	Public Facilities	Urban Core		Est. Useful Life	30 years

Description or Scope

The District 4 Medical Examiner's Office building was originally constructed in 1968 as a single story building. There was a one story addition to the original building. Subsequently, in 1994 the City of Jacksonville accomplished a renovation of the existing building together with a secondary story addition and a build of the decomposition autopsy building.

Justification

The District 4 MEO has outgrown the space. As the population within the jurisdiction of the MEO continues to grow, the need for autopsy services increases proportionally. The current space allocation is very restrictive in providing both services and staff workspace. Jacksonville is ranked in the top 10 fastest growing metro areas in the nation according to the latest Census information. The existing medical examiner's operating facility was not designed to accommodate a mass fatality situation. The maximum number of bodies that can be accommodated is 45. During the past six months, the MEO has been at capacity several times for normal/workload/processing space.

Description or Scope
Funds existing roofing contract that allows for roofing repairs and maintenance to all COJ roofs experiencing leaks.

Justification
The importance of having funding in place for this project protects the building's envelope, one of the most critical building components. If this project is not funded, minor issues in the building's envelope could grow into a much larger concern very quickly making a facility uninhabitable.

Description or Scope

Installation of a shade structure at the Veterans Memorial Wall to provide a barrier from the elements/weather for when events are being held at the Wall.

Justification

Currently there is not a shade/element protection barrier at the Veterans Memorial Wall. Events held at the Wall are open to the sunshine and rain. A shade structure would provide a barrier from the elements/weather for those attending events held at the Wall.

Description or Scope

This project focuses on the cleanup of the City owned parcel that is located immediately south of the Burke Street Regional Stormwater pond where a former dump from the early 1920-40's that was discovered during the construction of the pond. The City assessed the stormwater pond area to remediate the dump foot print that was located within the boundaries of the pond. During the assessment, contamination was discovered on the adjacent City owned parcel located to the south of the pond site along the west bank of McCoy's Creek.

Justification

Municipal incinerator ash was discovered on the Burke Street Pond site after an investigation mandated by the FDEP that was evaluating neighborhood children in the Hollybrooke Apartments across McCoy's Creek. During the subsequent cleanup of the ash materials surrounding the former pond, a historical dump was encountered on the new stormwater pond facility's southern bank. Subsequent source removal and assessment of the new stormwater facility identified additional ash deposits on the City owned property located to the south of the new stormwater pond site. The FDEP identified the City as the responsible party for the cleanup of the site.

Description or Scope
This allocation funds countywide improvements to the City's stormwater drainage system. The improvements are focused on system restoration to ensure that all components function in accordance with their intended purpose. Components such as failed drainage lines and structures make up the majority of these improvements. The funding is projected to be used for continuing maintenance contract services.

Justification
The improved drainage systems will allow the system components to function in accordance with their intended purpose and reduce flooding throughout Jacksonville.

Project Title	Hopkins Creek Regional Stormwater Improvements	Council District(s)	13	Est. Completion Date	TBD
Project Location	Hopkins Creek at Florida Blvd and Forest Ave	Project Number	010814	Capital Maint. Category	Drainage System Rehabilitatio
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Drainage	Urban Core	No	Est. Useful Life	25 years

Description or Scope

Replacement of undersized culverts at Florida Blvd, primary ingress and egress routes for all three Beaches communities with Florida Boulevard being one of the primary transportation corridors for eastern Duval County. The Engineering and Design phase will consider options for raising the roads and improving the hydraulic capacity of Hopkins Creek at the existing culvert crossings.

Justification

The existing culverts were constructed by the City of Jacksonville in 2004. With sea level rise and more intense storm events, overtopping at these locations will become more frequent creating a safety hazard and impacting pedestrian and vehicle connectivity for Duval County residents. These culverts also create a bottleneck in the regional drainage system, contributing to inundation of properties in both Atlantic Beach and Neptune Beach. the culverts must be replaced in conjunction with each other in order to relieve upstream flooding.

Description or Scope
The City of Jacksonville has 209 miles of major outfall ditches. The outfall drain major drainage basins throughout the county. Proactive restoration is needed to ensure these outfalls can help to minimize flooding during major storm events.

Justification
Proactive restoration/cleaning of major outfall ditches helps to minimize flooding and damage to properties during major storm events.

Project Title	Underdrain Replacements	Council District(s)	Countywide	Est. Completion Date	Ongoing
Project Location	Countywide	Project Number	009017	Capital Maint. Category	Drainage System Rehabilitatio
Department	Public Works	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Drainage	Urban Core		Est. Useful Life	15 years

Description or Scope

Underdrain is a drainage system installed under a road to collect and transport subsurface groundwater. These buried conduits are usually wrapped in geotextile fabric which allow water to enter the underdrain while keeping sediments out. Underdrain is installed to keep the groundwater (protect) from coming in contact with the roadway subgrade and base.

Justification

After many years of operating underdrain systems loose their effectiveness by becoming clogged and no longer capture groundwater. Once this occurs the roadway useful life becomes compromised and shorted.

Project Location	To be determined	Project Number		Capital Maint. Category	None
Department	Public Libraries	Mayor's Priority	Arts, Culture, and Enter	APP/Vertical Construction	Yes
Program Area	Public Facilities	Urban Core	No	Est. Useful Life	50 years

Description or Scope

Replace the Bill Brinton Murray Hill Branch Library with a new 20,000 square foot library in the same area. The new library would focus on serving children and teen's as well as adult learners, and provide career services. For children and teens, the space would be literacy and reading focused. Programs offered free by the library teach people how to read, how to apply for work, provide employment resources, teach computer skills and resume writing, and support student learning.

Justification

This building is beyond its useful life as determined in the Library's Capacity Plan. The building is situated on 0.54 acres, was opened in 1968 with a renovation executed in 2004 as part of BJP. The 6361sf of space is inefficient to operate as a library. Currently there are 13 parking spaces in the lot and 11 on Edgewood Avenue which do not meet the minimum standard of one space per 250 building gross square footage of building. The building has inadequate staff workspace, aging bathrooms and insufficient power /data for computer demands. The mechanical room is inadequate for the housed equipment. The building does not appear feasible, given the small size of the site and the limited on-site parking.

Project Title	Dallas Graham Branch Replacement	Council District(s)	7	Est. Completion Date	TBD
Project Location	To be determined	Project Number		Capital Maint. Category	None
Department	Public Libraries	Mayor's Priority	Arts, Culture, and Enter	APP/Vertical Construction	Yes
Program Area	Public Facilities	Urban Core	No	Est. Useful Life	50 years

Description or Scope

Replace the Dallas Graham Branch Library with a new 25,000 square foot library in the same area. The new library would focus on serving children and teen's as well as adult learners. For children and teens, the space would be literacy and reading focused. Programs offered free by the library teach people how to read, how to apply for work, provide employment resources, teach computer skills and resume writing, and support student learning.

Justification

This building is well beyond its useful life as determined in the Library's Capacity Plan. The building is situated on 0.83 acres and was opened in 1965 with a renovation in 2004 as part of BJP. The 7079sf of space is inefficient to operate as a library. The building has inadequate staff workspace, aging bathrooms and insufficient power and data for computer demands. Expandability: Enclosing Garden 120 would be the easiest means to gain additional interior space. Additions to the north and/or the west also appear feasible, but would require using at least portions of the parking lot for such future horizontal expansion.

Project Title	Renovation of Beaches Branch Library	Council District(s)	13	Est. Completion Date	
Project Location	600 3rd Street, Neptune Beach FL 32266	Project Number	010997	Capital Maint. Category	Facilities Capital Maintenance
Department	Public Libraries	Mayor's Priority	Arts, Culture, and Enter	APP/Vertical Construction	No
Program Area	Public Facilities	Urban Core	No	Est. Useful Life	30 years

Description or Scope

Libraries today are changing from places where people consume information and obtain knowledge to places where they create information and put knowledge to work. The renovation of the 24,606sf library includes: children's area, teens area, additional study/conference spaces, security cameras, new furnishings, and associated electrical upgrades. Due to outdated systems this library is not operating efficiently, both in physical systems and in set up for children, teens, entrepreneurs and seniors. There are persistent issues in functionality of the building that would be corrected in the renovation.

Justification

The Beaches Branch Library opened in 1986 and has an interior layout that is not suitable for a library of the 21st century. Use of libraries has changed in the past 30 years requiring library layouts to change significantly. There are many non-cosmetic issues such as inadequate power and data infrastructure to serve the needs of the current users. There is much wasted space inside and outside the building. The Beaches Branch Library is a vital resource in this community, heavily used but no longer meets the needs of the community.

Project Title	Cecil Mega Site Rail Spur	Council District(s)	12	Est. Completion Date	
Project Location	Cecil Commerce Center	Project Number	010668	Capital Maint. Category	None
Department	Office of Economic Development	Mayor's Priority	Economy	APP/Vertical Construction	No
Program Area	Roads / Infrastructure / Transportation	Urban Core	No	Est. Useful Life	

Description or Scope

Construction of a new, 3-mile rail spur into the 600-acre City-owned Mega Site, at Cecil Commerce Center. The project would include clearing of vegetation and installation of rail spur and needed drainage infrastructure. The rail spur right-of-way is all owned by the City of Jacksonville. The new rail spur would be partially constructed on the former rail bed utilized by the U.S. Navy, when they occupied the former NAS Cecil Field.

Justification

The City successfully applied for and was awarded a Florida Job Growth Grant Fund Public Infrastructure Grant in the amount of \$5.5 million. Cecil Commerce Center is a master planned 6000-acre industrial park owned by the City of Jacksonville. The Cecil Commerce Center is located in a City-designated Distressed Area and Federal Empowerment Zone. The construction of the new rail spur will allow the City to better market the 600-acre tract of land, located at Cecil Commerce Center. The subject parcel has been certified as a "Mega Site" by McCallum Sweeney, an industry leader in industrial development assessments. CSX has had the Cecil Mega Site on their "Select Site" list, which helps with marketing the site to large industrial users that need rail access to a Class 1 rail line. The total project cost is estimated at \$8 million, with \$5.5 million DEO grant and \$2.5 million City contribution.

Department	Parks, Recreation & Community Services	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Parks / Preservation Land / Wetland	Urban Core	No	Est. Useful Life	20 years

Description or Scope

This project is a countywide project intended to be used for maintenance, upgrades, and repairs associated with existing parks in Duval county. Projects such as fencing replacement, playground replacement, gym floor surfacing, field renovation, restroom renovations, safety lighting, trail repairs, and drainage improvements. The scope of any specific park project funded within a CRA boundary shall be clearly defined at the time of identification of such project. This scope clarification is applicable to funds remaining from prior year, as well as current year appropriations, and future year budgeted funding.

Justification

This project is a countywide project intended to be used for maintenance, upgrades, and repairs associated with existing parks in Duval County. Projects such as fencing replacement, playground replacement, gym floor surfacing, field renovation, restroom renovations, safety lighting, trail repairs, and drainage improvements. The CIP scope clarification is necessary to avoid conflict with CRA projects.

Project Title	Fuller Warren Bridge Park	Council District(s)	5	Est. Completion Date	2028
Project Location	between Baptist and Nemours	Project Number	010987	Capital Maint. Category	None
Department	Parks, Recreation & Community Services	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Parks / Preservation Land / Wetland	Urban Core	Yes	Est. Useful Life	25 years

Description or Scope
Development of park space between Baptist Medical Center and Nemours Children's Hospital. This project will design and install park and sensory playground equipment, hardscape, and landscape under the Fuller Warren Bridge between the riverfront and Palm Avenue and may include adult fitness equipment. This project replaces and includes the Fuller Warren Bridge Node project. This scope clarification is applicable to funds remaining from prior year, as well as current year appropriations, and future year budgeted funding.

Justification
This is needed to continue to provide excellent recreational facilities to the citizens. The CIP scope clarification is necessary to avoid conflict with CRA projects.

Project Title	Huguenot Park	Council District(s)	2	Est. Completion Date	
Project Location	10980 Heckscher Dr	Project Number	000935	Capital Maint. Category	None
Department	Parks, Recreation & Community Services	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Parks / Preservation Land / Wetland	Urban Core	No	Est. Useful Life	

Description or Scope
Build new entry road and entrance office buildings in areas of higher elevation in the park.

Justification
The existing road next to the St. John's River is being eroded and cannot be maintained based on storms, dredging and adjacent erosion. The new road location is more resilient and will not erode. The new road will also be longer and alleviate weekend traffic congestion on Hecksher Drive. The existing office building floods several times a year; moving it out of the floodplain will result in less electrical, mold, safety and structural concerns.

Description or Scope

This project will provide funding to study concept hardscape and greenscape, design and site prep work in conjunction with Downtown Investment Authority needed at 2 West Independent Drive for future development of two developable sites. This project provides funding to design and construct a destination riverfront park at the former Jacksonville Landing site in conjunction with a Downtown Investment Authority CRA private development project. Design of the restaurant at Hogan Street and design and construction of any restaurant on the development pad at Hogan on the riverfront is excluded from the scope of this project. This scope clarification is applicable to funds remaining from prior year, as well as current year appropriations, and future year budgeted funding.

Justification

To provide additional public uses for this river front property. The CIP scope clarification is necessary to avoid conflict with CRA projects.

Description or Scope

This project will provide funding to design a new park at the approximately 9-acre riverfront park bounded by Catherine Street, Bay Street, and Hogan's Creek which is governed by Florida Recreation Development Assistance Program restrictions. In addition, this project will provide construction funding for that park as well as the recreational park components, including the pier removals and improvements, designed by the CRA on the adjacent unrestricted lands. This scope clarification is applicable to funds remaining from prior year, as well as current year appropriations, and future year budgeted funding.

Justification

Provide park space and revitalization to downtown. The CIP scope clarification is necessary to avoid conflict with CRA projects.

Description or Scope

The stadium project is for the substantial renovations that will take place during the next few years on the City owned professional football stadium. The project will include but not limited to design,preconstruction planning, engineering and on site construction.

Justification

The renovations are necessary to retain Jacksonville's National Football Team and to continue to host the Florida Georgia game, Tax Slayer Bowl, and many other future stadium events. The last major renovation to the City stadium was 30 years ago during the early 1990's.

Department	ASM	Mayor's Priority	Arts, Culture, and Enter	APP/Vertical Construction	No
Program Area	Public Facilities	Urban Core	No	Est. Useful Life	20 years

Description or Scope

Hardware and software installations and upgrades. This will cover needed engineering, technical support, and all facets of design and installation for a BAS.

Justification

The BAS (Building Automation System) is the brain of any building. Upgrades and additions to the system help the operators keep the HVAC, new chillers, and lighting systems in optimal working order. When full integration is accomplished between the BAS and contemporary equipment, substantial energy savings will be the result. This is essential to providing a comfortable patron and tenant experience.

Description or Scope

Building wide projects, repairs and replacements such as Building Automation, boilers, chillers, building signage & graphics, concrete repairs, cooling towers, data infrastructure, digital signage, door replacements, electrical equipment, elevator and escalator modernization, exposed structural steel, food service development, food service equipment replacements, glass, lighting retrofits, misc. mechanical equipment replacements, parking lot resealing, plumbing equipment replacements, pumps, motors, roof replacements, exterior video signage, VFD's and water heaters.

Justification

Majority of major building systems are from 1986. Units are running ineffectively and inefficiently and have exceeded their useful life. Replacement will provide energy savings opportunities and improve guest satisfaction while visiting the venue.

Description or Scope
Replacement of concourse floor.

Justification
The arena has started the first portion of this project with stripping the existing floor and grinding down the surface. The flooring in the arena was original to the building and this upgrade will prove to be more health conscious, modern, and easier to maintain.

Description or Scope

Replacement and update to aging switches, routers, firewalls, WiFi and servers.

Justification

Tech equipment has a useful life of 5-7 years and a full updating is overdue. This equipment is critical to the continued operation of the CCTV, BAS, digital signage, and WI-FI. This updated equipment will better serve both internal and external customers.

Department	ASM	Mayor's Priority	Arts, Culture, and Enter	APP/Vertical Construction	No
Program Area	Public Facilities	Urban Core	No	Est. Useful Life	20 years

Description or Scope

Modernizing and upgrading the elevators to ensure vertical transportation is efficient, safe, and up to standards. This will consist of a new and updated operations panel, alarms, safety gates, flooring, and finishes for the freight elevator

Justification

The freight elevator is the only supporting vertical transportation that supports show load in/out. Due to the age and inefficiency of this elevator it poses a risk to the PAC, incoming shows, and patrons if it were to experience a complication.

Description or Scope
Update and upgrade the fire detection and alarm system. This would include hardware and software throughout the building that supports this life safety feature.

Justification
The current fire detection system, although still code compliant, is 26 years old and outdated. Both the hardware and software are no longer manufacturer supported. Replacement of the system will require update to detection and alarm devices throughout the building to bring the entire system up to contemporary standards.

Description or Scope

Replace finishes such as flooring, walls, ceilings, toilet partitions, upholstery and fixtures in main concourses, meeting rooms, ballrooms, public restrooms and general spaces throughout.

Justification

General age of spaces (over 30 years old) have original finishes. New finishes will increase guest experience, generating a positive experience for our clients and make the venues more attractive when competing against alternate local venues.

Department	ASM	Mayor's Priority	Arts, Culture, and Enter	APP/Vertical Construction	No
Program Area	Public Facilities	Urban Core	No	Est. Useful Life	20 years

Description or Scope

This will be a construction project to properly fix the rake, slope, and angles of the Moran Theater floor. This consist of removal of all chairs and seated places, demolition of the current flooring, regrading the floor and new carpetry and finishes associated with this project.

Justification

The rake in the floor of the Moran Theatre prove to be disadvantageous for patrons with seasonal seats or premium selections. The rake has a gradual decline followed by a dip in the center and proceeds into a gradual incline. This disturbs the sightlines for shows, introduces sound quality issues, as well as causes issues for seat replacements.

Description or Scope

Replacement and upgrade of all seated areas in the Moran Theater.

Justification

The seating dates back to the 1995 renovation and are beyond their useful life. The fabric shows extreme wear and is separating from the seat in some instances. The comfort level is compromised as evidenced by documented customer complaint.

Department	ASM	Mayor's Priority	Arts, Culture, and Enter	APP/Vertical Construction	No
Program Area	Public Facilities	Urban Core	No	Est. Useful Life	25 years

Description or Scope

Repair, replace, retrofit, and reline all plumbing systems throughout the Performing Arts Center. This scope covers everything needed from gauges, switches, piping, rework, rerouting and removal and replacement for all things necessary to make the sanitation, plumbing, and sewage efficient throughout the building. This also includes a polymer relining of the compromised sanitary line.

Justification

This line currently is deteriorated and has to be jetted on a weekly basis. This is due to the plumbing being original to the building and made of unlined galvanized steel, clay, and cast iron – a practice that has proven to be outdated.

Description or Scope

Installation of variable frequency drives and pumps.

Justification

A VFD is used for speed control for any electric motor. Newer, more efficient pumps, combined with VFD's are other components of an upgraded HVAC system. Aging equipment will not function at the necessary level to optimize modern HVAC plant.

Description or Scope

Replacements, upgrades, updates, and installations throughout the venue. This includes the addition and modernization of the restroom facilities encompassing everything from floor to ceiling for the spaces internal and external to restroom to improve flow, capacity, service, and functionality.

Justification

Modern and updated restroom facilities in general have become a staple focus for patrons, tenants, and staff who visit public spaces due to the pandemic of COVID 19. The restrooms at the Arena have not been updated since the 90's and house open concept urinal use, manual flushing systems, manual sinks, lighting challenges, and overall satisfaction. This project will be a much needed improvement to address hygiene and cosmetic concerns of the public and internal staff.

Department	ASM	Mayor's Priority	Arts, Culture, and Enter	APP/Vertical Construction	No
Program Area	Public Facilities	Urban Core	No	Est. Useful Life	

Description or Scope

Building wide projects, repairs and replacements such as building automation, concrete repairs, digital signage, door replacements, electrical equipment, exposed structural steel, food service equipment replacements, interior finishes, lighting retrofits, misc. mechanical equipment replacements, parking lot resealing, plumbing equipment replacements, pumps, motors, roof replacements, exterior video signage, stage finishes, stage sound and lights, water heaters and waterproofing.

Justification

Units are running ineffectively and inefficiently and will have exceeded their useful life at time of scheduled replacements. Replacements will provide energy savings opportunities and improve guest satisfaction while visiting the venue.

Description or Scope

Replacement of seats in general seating areas and throughout the concourse.

Justification

Excessive wear and tear is beginning to show on the seats. There are continuous and extensive repairs that are constantly needed which impacts the overall patron experience during events. This will be a phased approach to a full seat replacement across the ballpark.

Description or Scope

This project focuses on the cleanup of various contaminated sites throughout the city. These dump sites are subject to a Memorandum of Understanding between the City of Jacksonville and the Florida Department of Environmental Protection to assess and remediate unlined dumps and any other contaminated sites the City owns or is designated as the Principal Responsible Party of cleanup. Examples of locations include the Imeson Landfill, Hema Road, Linden Avenue, Burke Street Pond and Springfield Park.

Justification

Sites are being assessed and/or remediated according to FDEP and/or EPA regulatory requirements.

Description or Scope

This project is a group of parcels located along the Ribault River across from the Gold Merit/Pope Place project the City is currently conducting remediation on. The project consists of one City owned parcel of approximately 20-acres in size and 15 private parcels where solid waste and other contaminated debris was dumped.

Justification

The project is a old dump site that was discovered during the assessment of the Gold Merit Pope Place project that is located directly across the Ribault River from the Hema Road Site. The GMPP site is one of the dump sites that was part of the MOU with the FDEP for identifying, ranking, assessing and eventually cleanup of the uncontrolled dumps sites located across Duval County. The City entered into a Consent Decree OGC Number 16-1452 with the FDEP to assess and remediate the site. The site assessment has been completed, the FDEP as reviewed and approved the assessment and the opinion of probable cost of cleanup has been prepared by the environmental consultant. The City intends to bid this project in FY24-25 as a design build project since a significant portion of the debris lies within the 100 flood plain that would allow consultants considerable leeway in determining how to remediate the site without releasing impacted sediments and soils into the Ribault River.

Description or Scope

This project is the continuation of the Burke Street Pond assessment and cleanup pursuant to the consent Decree OGC Case Number 00-1899 between the City and the Florida Department of Environmental Protection. The pond area and all associated assessment work have been remediated and cleared by the FDEP. The Consent Decree stipulates the City is required to continue the assessment and if necessary, the cleanup of the immediately adjacent parcel to the south of the pond site.

Justification

The Site assessment and cleanup is being conducted in accordance with the requirements of OGC Case Number 00-1899 between the City and the FDEP. The site requires cleanup due to exceedances of heavy metals in both soils and groundwater and poly nuclear aromatic carbons in soils. Additionally significant amounts of buried solid waste debris including incinerator ash materials have been found and mapped across the site to depths at least 10-feet below grade and piled above grade surface to heights of 10-15 feet. The proposed McCoy's Creek Flood plain enhancement project for the north branch runs through the property, and as such, that project cannot proceed until the HollybrookePark site is assessed and remediated. A cleanup grant from NOAA greater than \$5 million for the creek portion of the McCoy's Creek project has been received by the City's partner, Groundwork Jacksonville, and as such, that project funding is in jeopardy until this site is completed.

Description or Scope

This project focuses on the assessment and remediation of petroleum impacted soils and sediments discovered within the McCoy's Creek flood plain improvement project. During excavation activities for the flood plain improvement project, spoil materials were transported to an off-site borrow pit located off MIA-POW Parkway. The owner of the borrow pit informed the City that a fish kill at the borrow pit prompted them to have their environmental consultant collect soils samples of the borrow materials from the McCoy's Creek project. Petroleum, pesticides and PCBs were detected in the sample test results with several contaminant parameters above the Soil Cleanup Target Levels Cleanup levels that requires the owner/operator of the site to notify the FDEP of a discharge under Chapter 62-781, Florida Administrative Codes. Subsequent testing of additional spoil materials and the soils within the area of the McCoy's Creek project footprint found similar contaminant parameters and

Justification

Based on the test results, a Discharge Notification was sent to the FDEP and the FDEP has assigned a facility ID# to the site. Assessment and cleanup will be required. This area is critical path item for excavation for the flood plain improvement project.

Project Title	Trail Ridge Landfill Const & Expansion - Trail Ridge Landfill	Council District(s)	12	Est. Completion Date	Beyond 5th Year
Project Location	5110 US Highway 301 S	Project Number	001404	Capital Maint. Category	None
Department	Solid Waste Disposal	Mayor's Priority	Health	APP/Vertical Construction	No
Program Area	Environmental / Quality of Life	Urban Core	No	Est. Useful Life	33 years

Description or Scope

This project focuses on the design and permitting for the next five years of the landfill expansion that coincides with the 20-year solid waste operation permit the City received from the Florida Department of Environmental Protection. Following the 20 year CIP schedule that is based on the actual operating conditions at the facility, the construction schedule overlaps year to year for design and permitting, followed by construction and operation and then closure for the lower terraces of the landfill as the disposal units are vertically and horizontally filled with waste and parts of the landfill reach terminal permitted elevations. The construction and closure sequence proceeds from south to north. The closure design for 50-acres that spans the Disposal Units 1-5 into Disposal Unit 6 is on-going. Disposal Unit 7 has been constructed and is in progress of being filled with waste. One-half of the 50-acre closure will be done in FY24-25 and the remaining acreage will be closed in FY25-26.

Justification

The landfill serves as the only source of cost-effective disposal of Class 1 waste in Duval County and by Ordinance 386, Class 1 waste must go to the Class 1 landfill owned by the City. The FDEP permit requires a sequential design, permitting, disposal operations and closure for the expansion area.

Description or Scope

This allocation funds countywide improvements to the City's stormwater drainage system. The improvements are focused on system restoration to ensure that all components function in accordance with their intended purpose. Components such as failed drainage lines and structures make up the majority of these improvements. The funding is projected to be used for continuing maintenance contract services.

Justification

The improved drainage systems will allow the system components to function in accordance with their intended purpose and reduce flooding throughout Jacksonville.

Program Area	Drainage	Urban Core	Yes	Est. Useful Life	20 years

Description or Scope

This project will design and implement a stormwater treatment plan for Hogan's Creek to help address the creek's water quality and lack of treatment. This would also help to decrease fecal coliform contamination and promote recreational access and utilization. This system could include the use of "flexflow" to protect downstream public health and improve aquatic biology in Hogan's Creek and potentially the St. Johns River.

Justification

Protect downstream public health and improve aquatic biology in Hogan's Creek and potentially the St. Johns River.

Description or Scope
This project aims to resolve localized drainage issues at the intersection of Plantation Drive and Floral Bluff Road, where water and sediment accumulate due to a low-lying, bowl-shaped area. With no nearby storm drainage infrastructure available, and surrounding terrain—except for the westward slope toward the river—being significantly higher, the project will explore solutions to improve drainage and mitigate recurring issues.

Justification
This project was initiated in response to My Jax issue #231116-001120 and is currently on the City's DSR Priority Ranking list.

Description or Scope

This allocation funds engineering studies that will evaluate various potential drainage projects throughout the City to determine which ones have cost effective solutions, define what the solutions are, identify what issues will need to be resolved and prepare project cost estimates.

Justification

Public Works has prepared a prioritized listing of drainage/flooding issues that need to be addressed. Feasibility studies can determine if a drainage problem has a cost effective solution and provide a scope and cost.

Project Title	Stormwater Pump Stations - Capital Maintenance	Council District(s)	Countywide	Est. Completion Date	Ongoing
Project Location	Countywide	Project Number	008976	Capital Maint. Category	Drainage System Rehabilitatio
Department	Storm Water Services	Mayor's Priority	Infrastructure	APP/Vertical Construction	No
Program Area	Drainage	Urban Core		Est. Useful Life	10 years

Description or Scope

This allocation funds countywide stormwater pump replacements and capital maintenance. The City currently has 12 pump stations countywide. Each pump station has multiple pumps present with some pump stations having as many as 4 pumps present. The funding is projected to be used for the replacement of deteriorated pumps and capital maintenance and repair as needed.

Justification

The City of Jacksonville utilizes pump stations countywide. The pumps have to be operable to keep the pump stations working. The pump stations convey stormwater and prevent flooding.
