**RE: REQUEST FOR PROPOSALS – RFP NO. P-21-21  
RFP FOR COUNTYWIDE PROGRAM MANAGEMENT SERVICES FOR RESURFACING  
AND SIDEWALK CONSTRUCTION**

Please take appropriate action to issue the attached Request for Proposals (RFP) for subject professional services.

The following information is furnished as required by the Ordinance Code and Procurement Department Regulations:

1. The general purpose of these services is stated in the accompanying RFP.
2. The objective of this request is to make available professional services as stated in the RFP.
3. The services shall be performed in accordance with negotiated time schedules.
4. The estimated cost for these services is \$2,000,000.
5. These services will not duplicate prior or existing work.
6. There are no current or prior services directly related to this request.
7. Coordination has been completed between the pertinent Divisions of the Department of Public Works for proper utilization of these services.
8. The Department of Public Works does not have the in house capabilities to provide these services.

9. A subcommittee composed of Bill Joyce, P. E., Operations Director, Department of Public Works, 255-8762; and Steven D. Long, Jr, P. E., Chief, Right of Way and Stormwater Maintenance Division, 255-4283; is assigned to review submittals for this RFP.
10. Internal Services administrative costs should be charged to Account No. PWGM011AD.
11. Funding will be identified at the time purchase orders are issued for these services.
12. All firms who have expressed an interest in furnishing Professional Architectural and Engineering Services as detailed in the RFP should be mailed a notice of this RFP.
13. The subcommittee members assigned to this RFP have read and understand the Procurement Manual dated March 2017.
14. Three (3) weeks is believed to be sufficient time for interested parties to respond to this RFP.

We certify the contents of this memorandum are correct and true to the best of our knowledge.

SUBJECT: P-44-19 Professional Design Services for Ricker Road Reconstruction from Morse Avenue to Old Middleburg Road

The Engineering Division has negotiated with the consultant selected for Professional Design Services for Ricker Road Reconstruction from Morse Avenue to Old Middleburg Road, resulting in the attached Scope of Services, Exhibit A and Contract Fee Schedule, Exhibit B. JSEB firms to be utilized to meet the 20% Participation Percentage Plan for this contract are detailed on a separate attachment.

Accordingly, this is to recommend that the City of Jacksonville enter into a contract with The Haskell Company for Professional Design Services for Ricker Road Reconstruction from Morse Avenue to Old Middleburg Road, that includes the attached Scope of Services Identified as Exhibit "A" and Fee Schedule Identified as Exhibit "B", to provide a lump sum amount for Design Services in the amount of \$904,088.69 and a not to exceed limit for Survey in the amount of \$101,750.00, with a maximum indebtedness to the City in the amount of \$1,005,838.69 and with an expiration date of Project Completion. All other terms and conditions are as provided in the RFP and the City's standard contract language.

Re: Ricker Road Reconstruction  
P-44-19  
Scope and Fee Negotiations  
Professional Design Services

Mr. David Hahn, P.E.  
City of Jacksonville Public Works  
Engineering Design Section  
214 North Hogan Street, Floor 10  
Jacksonville, Florida 32202

Dear Mr. Hahn:

We are pleased to present this Scope and Fee for Professional Design Services for the proposed **Ricker Road Reconstruction** project for the City of Jacksonville (COJ). This letter sets forth the cost of various services to proceed with negotiations. The professional design services are as follows:

#### **General Tasks**

This Activity consists of all effort needed as the Prime Consultant to manage and coordinate all contract documents, memos and transmittals associated with the design phase of the project. The project duration is assumed to span 18-months. Total effort for this activity is **172 hours**. See Haskell's Activity 3: General Tasks for detailed information.

#### **Roadway Analysis**

##### Services

This phase of the work provides those items necessary to confirm and update the vertical and horizontal alignments associated with the 2008 design. The scope of work involves the following:

- Recreating the master horizontal geometry along with minor updates to curbing, sidewalks and ancillary features to current City and State Standards. The design team will utilize much of the original design as needed.
- Cross slope correction through the milling and resurfacing limits.
- Recreating the master vertical alignment for the reconstruction limits. Much of widening limits will be reused. However much of the reconstruction limits will have to be reestablished due to multiple violations of current grading standards.
- Traffic control analysis will have to be redesigned. The layout shown in the 2008 plans cannot be built due to changes in the traffic control devices. The majority of this effort will re-evaluate drop-off protection, shoulder treatment, pedestrian access, business access and intermittent detours for nighttime closures.
- Field visits, survey inventory and coordination meetings.

Total effort for this activity is **1144 hours**. See Haskell's Activity 4: Roadway Analysis for detailed information.

Mr. David Hahn PE, City of Jacksonville  
Professional Design Services  
April 19, 2021  
Page 2

**Roadway Plans**

This phase of the work provides those items necessary to reproduce the construction plans and documents. Total effort for this activity is **764 hours**. See Haskell's Activity 5: Roadway Plans for detailed information.

**Drainage Plans**

This phase of the work provides those items necessary to assist GAI in producing cross sections for the drainage structure sheets. GAI will be responsible for the remaining drainage design, permitting and coordination. Total effort for this activity is **61 hours**. See Haskell's Activity 6b: Drainage Plans for detailed information.

**Miscellaneous Structures**

This phase of work provides items associated with the structural design of the signal assemblies at the intersections of 118<sup>th</sup> Street and Wheat Rd and modifications at Old Middleburg Rd. The signal at 103<sup>rd</sup> Street will be excepted out. Total effort for this activity is **149 hours**. See Haskell's Activities 9 & 18 for detailed information.

**Miscellaneous Signing and Pavement Marking Analysis**

This phase of work provides items associated with only updating the 2008 design to current City, FDOT and MUTCD standards. Much of this effort will consist of cataloging signage descriptions and calculating quantities. Total effort for this activity is **90 hours**. See Haskell's Activity 19: Signing and Pavement Marking Analysis for detailed information.

**Miscellaneous Signing and Pavement Marking Plans**

This phase of work provides items associated with reproducing the plan set. Much of this effort will consist of relabeling station and offsets. Total effort for this activity is **43 hours**. See Haskell's Activity 20: Signing and Pavement Marking Plans.

(Note: Items to be provided by the City include: 2008 Specification Package, original survey files or digital terrain model of the corridor, right-of-way acquisition descriptions; Detailed breakdown of hours and rates are included)

Mara Scott, Corporate Licensing Coordinator  
THE HASKELL COMPANY  
111 Riverside Avenue  
Jacksonville, Florida 32202

Dear Ms. Scott:

The Florida Department of Transportation has reviewed your application for prequalification package and determined that the data submitted is adequate to technically prequalify your firm for the following types of work:

- Group 3       - Highway Design - Roadway
  - 3.1       - Minor Highway Design
  - 3.2       - Major Highway Design
  - 3.3       - Controlled Access Highway Design
- Group 4       - Highway Design - Bridges
  - 4.1.1     - Miscellaneous Structures
  - 4.1.2     - Minor Bridge Design
  - 4.2.2     - Major Bridge Design - Steel
- Group 6       - Traffic Engineering and Operations Studies
  - 6.1       - Traffic Engineering Studies
  - 6.2       - Traffic Signal Timing
- Group 7       - Traffic Operations Design
  - 7.1       - Signing, Pavement Marking and Channelization
- Group 14      - Architect
- Group 15      - Landscape Architect

Your firm is now technically prequalified with the Department for Professional Services in the above referenced work types. The overhead audit has been accepted, and your firm may pursue projects in the referenced work types with fees of any dollar amount. This status shall be valid until June 30, 2021 for contracting purposes.

## Approved Rates

Home/ Branch Overhead	Premium Overtime	Reimburse Actual Expenses	Home Direct Expense
165.54%	Reimbursed	No	6.92%

Per Title 23, U.S. Code 112, there are restrictions on sharing indirect cost rates. Refer to Code for additional information.

SUBJECT: P-39-16 JS#2 Construction Management/Inspection Services for ADA Curb Ramp Construction Contract 9577-01 PO# 600591-20-021 Amendment 4

Projects that have been assigned to date have almost reached the previously approved maximum indebtedness and there are a number of additional projects that cannot be assigned until the upper limit is raised. There is no rate increase associated with this amendment. This project has been designated under the Equal Business Opportunity Program as a Set Aside.

Accordingly, this is to recommend that Contract # 9577-01, originally executed December 14, 2016 between the City of Jacksonville and Construction and Engineering Services Consultants, Inc., (aka CES Consultants, Inc.) for Construction Management/Inspection Services for ADA Curb Ramp Construction, be amended to increase the maximum indebtedness by \$1,500,000.00, to a new maximum of \$7,500,000.00 and extend the contract expiration date by 6 months to April 14, 2022, with all other terms and conditions of the Agreement remaining unchanged.

Funding for this project should be as follows:

SUBJECT: P-55-17 CEI Services for Riverplace Boulevard Roadway and Streetscape  
Improvements Contract 9759-01 Amendment 2

Construction delays due to unforeseen conditions, design modifications and weather have extended the construction completion date beyond the original estimated hours for CEI services, which are required thru construction completion. Negotiations have resulted attached Contract Fee Schedule, Exhibit D to extend these services. JSEB goals of 20% will continue to be met. There is no rate increase associated with this amendment.

Accordingly, this is to recommend that Contract 9759-01, originally executed March 14, 2018, between the City and CSI Geo, Inc. for CEI Services for Riverplace Boulevard Roadway and Streetscape Improvements be amended to incorporate the attached Contract Fee Schedule, Exhibit D, to increase the not to exceed limit for Construction Engineering and Inspection Services by \$62,499.72 to a new limit of \$553,998.75; thereby increasing the maximum indebtedness by \$62,499.72 to a new maximum of \$553,998.75. All other terms and conditions are as provided in the RFP and the City's standard contract language.

Re: American Government Services Corporation

Dear Ms. Baker:

I have completed my review of the information provided by Tammy Mehl on behalf of American Government Services Corporation ("AGS") and have concluded that AGS is a qualified, interested, and available source for the category of Abstracts and Title Insurance Services only with respect to Title Insurance Services. I recommend that AGS be added to the list maintained pursuant to Section 126.308(b).

Please contact me with any questions.

Sincerely,

Jim McCain  
Assistant General Counsel
