

IRRIGATION

SAVE MONEY AND CREATE HEALTHIER LANDSCAPES WITH EFFICIENT WATERING

Florida's water is running out, but Jacksonville residents can help save our supply. Follow the landscape irrigation schedule outlined in Ordinance Chapter 366.

WATER EFFICIENTLY

Often, rainfall may provide enough irrigation for your lawn and plants. Only irrigate when your lawn shows signs of stress from lack of water. When the leaf blades begin to fold in half, the lawn turns a bluish-gray color, or footprints linger, it may be time to water. Follow these tips to save water and money:

- ④ Water your lawn and plants only when you know they need it or show signs of stress.
- ④ Use a rain gauge or moisture sensor so you will know if rainfall has done the job.
- ④ Install a drip or micro-spray system in your plant beds. They use water more efficiently than traditional spray heads.
- ④ Install an automatic rain shutoff device to avoid watering when it's raining.
- ④ Stop overwatering! Overwatered grass has short roots that make it harder to survive pest attacks, disease and drought.

Efficient watering will help you save money, conserve water, and create a healthier landscape.

In accordance with Ordinance Chapter 366 (Groundwater and surface Water Resource Management) Part 5 (Water Conservation and Landscape Irrigation) all Jacksonville residents, businesses, and utilities must follow these requirements:

MARCH-NOVEMBER (DAYLIGHT SAVINGS TIME)

- ④ No watering from 10 a.m. to 4 p.m.
- ④ Odd numbered addresses, those ending with N-Z, or locations with no address may water on Wednesday and Saturday
- ④ Even numbered addresses or those ending with A-M may water on Thursday and Sunday
- ④ Non-residential addresses may water on Tuesday and Friday
- ④ Apply $\frac{3}{4}$ inch or less of water one time per week

NOVEMBER-MARCH (STANDARD TIME)

- ④ No watering from 10 a.m. to 4 p.m.
- ④ Odd numbered addresses, those ending with N-Z, or locations with no address may water on Saturday
- ④ Even numbered addresses or those ending with A-M may water on Sunday
- ④ Non-residential addresses may water only on Tuesday
- ④ Apply $\frac{3}{4}$ inch or less of water one time per week
