Licensed contractors complete the Spec 4 tab on the BID Permit
COMPLETE ALL SECTIONS

Address:	Permit Number: B / /	Wind Speed:	MPH
• • • • • • • • • • • • • • • • • • • •	B = Protected by woods or structures for min. 1500 FT. ater for 5000 Ft located within 600 FT of the water's edg		D = Exposed to open terrain or
FLORIDA PRODUCT APPROVAL: <u>HTTP://FLORIDABUIL</u>	LDING.ORG		
WIND SPEED:_FBC R301.2 (4) EXPOSURE CATEGORY	: FBC R301.2.1.4		

COJ ORDINANCE 320.103 - The Florida Building Code (FBC) also requires each municipality to set the location of the wind speed demarcation lines by ordinance using recognizable physical landmarks. At the south end of Duval County, the demarcation line shall start in the middle of the St. Johns River at the south end of Duval County, run north up the center of the St. Johns River to the intersection of the St. Johns River and Interstate 95 on the Fuller Warren Bridge, then proceed north along Interstate 95 to the northern Duval County line.

For Risk Category II structures as set forth in the Florida Building Code, the wind speed west of the demarcation line shall be 125 miles per hour and east of the demarcation line 130 miles per hour.
