## Public Works Engineering and Construction Management - RFP and RFQ Advertisement Forecast

## October, November, December 2025

Architectural and Engineering Services for Miscellaneous Park Improvements – Annual Contract West	Professional Engineering design, permitting, and all other professional services needed for bidding and construction of Miscellaneous Park Improvements – Annual Contract West. Typical improvements include restrooms, playscapes, sports fields, parking lots, landscaping, trails, and lighting. This annual contract will support multiple locations of new and existing parks needing improvements.
As-Needed Professional Design Services for Public Works Projects	Professional Engineering design, permitting, and all other professional services needed for bidding and construction of Public Works projects. Services will be provided on an as-needed or "on-call" basis and may include engineering, architecture, surveying and mapping, right of way acquisition, program management, landscape architecture, land planning, and utility design.
CEI Services for Angel Lakes Drainage Improvements	Professional Construction Engineering and Inspection services which are required for constructability reviews, contract administration, inspection, and materials sampling and testing for the construction of the Angel Lakes Drainage Improvements project. The project extends approximately 2 miles along V.C. Johnson Road and Angel Lake Drive West from Dunn Avenue to the end of Angel Lake Drive West and includes ditch filling, culvert replacement, swales with inlets, and new sidewalks.
CEI Services for Hartley Road Widening	Professional Construction Engineering and Inspection services which are required for constructability reviews, contract administration, inspection, and materials sampling and testing for the construction of the Hartley Road Widening project. The improvements extend along Hartley Road from Old St. Augustine Road to SR 13 and will include the addition of travel lanes, roadway lighting, bicycle and pedestrian improvements, and associated stormwater and drainage upgrades.
CEI Services for Shindler Drive Improvments	Professional Construction Engineering and Inspection services which are required for constructability reviews, contract administration, inspection, and materials sampling and testing for the construction of the Shindler Drive Improvements project. The project extends along Shindler Drive from Collins Road to 103rd Street (approximately 3 miles) and includes roadway widening, drainage improvements, sidewalk construction, and utility coordination.

Design Build Marine Services - Annual Contract	Furnishing all labor, materials, and equipment; and performing all operations necessary for the construction of marine infrastructure projects under a citywide design-build annual contract. Work may include new construction, repairs, or replacements of docks, bulkheads, piers, and related shoreline structures at multiple waterfront locations throughout Jacksonville.	
Professional Design Services for Drainage System Rehabilitation Projects (South and East Areas)	Professional Engineering design, permitting, and all other professional services needed for bidding and construction of drainage system rehabilitation projects in the South and East areas of Jacksonville. These projects will vary in size and location but typically involve evaluation and replacement of stormwater pipes, culverts, and other conveyance systems within the City right-of-way.	
Professional Engineering Services for Roadway/Intersection/Parking (Annual)	Professional Engineering design, permitting, and all other professional services needed for bidding and construction of roadway, intersection, and parking improvement projects. Services may include conceptual studies, final design, permitting, utility coordination, public involvement, and preparation of plans, specifications, and estimates for City and FDOT compliance.

Architectural and Engineering Services for Miscellaneous Park Improvements – Annual Contract North	Professional Engineering design, permitting, and all other professional services needed for bidding and construction of Miscellaneous Park Improvements – Annual Contract North. Typical improvements include restrooms, playscapes, sports fields, parking lots, landscaping, trails, and lighting. This annual contract will support multiple locations of new and existing parks needing improvements.	
CEI Services for 11th and 12th Street Connector	Professional Construction Engineering and Inspection services required for constructability reviews, contract administration, inspection, and testing for the new connector road between 11th Street and 12th Street. The project extends from North Davis Street east to Boulevard and includes paving, drainage, a bridge, sidewalks, and utility coordination.	
CEI Services for Chaffee Road Improvements & Chaffee Road South Widening	Professional Construction Engineering and Inspection services required for constructability reviews, contract administration, inspection, and testing. The Chaffee Road Improvements extend from Beaver Street to Old Plank Road (1.25 miles) and include resurfacing, paved shoulders, sidewalks, signalization, and a multi-use path. The South Widening extends from Normandy Boulevard to I-10 (2.7 miles) and widens the corridor from two lanes to a divided four-lane section with sidewalks and a multi-use path.	

CEI Services for First Responder Hurricane Safe Room	Professional Construction Engineering and Inspection services required for contract administration, inspection, and testing for the construction of the First Responder Hurricane Safe Room. The project includes an approximately 25,000 square foot emergency structure built to FEMA P-361 criteria, along with utilities, site work, and a stormwater pond.
CEI Services for Sports Fields at New Fairgrounds	Professional Construction Engineering and Inspection services which are required for constructability reviews, contract administration, inspection, and materials sampling and testing for the construction of sports fields at the New Fairgrounds. The project will support athletic facilities development at the new site location.
CEI Services for Veterans Memorial Wall Improvements	Professional Construction Engineering and Inspection services required for constructability reviews, contract administration, inspection, and testing for improvements at the Veterans Memorial Wall. The project includes a permanent shade structure over the seating area with lighting, fans, PA system, flame feature, and associated landscaping.

The information provided reflects planned activities and is subject to change. To discuss any project(s) with Public Works Staff, contact Donna Seetram Holder at SeetramD@coj.net or 904-255-8762 to schedule an appointment. Meetings must be held prior to the Procurement Solicitation Silence Period.
