

Jacksonville Tree Commission

Wednesday April 16, 2025, 9:30 AM
Ed Ball Building, 10th Floor, Conference Room 5
and Zoom Webinar

Commissioners: Curtis Hart, Chair
Susan Fraser
Chris Miller
Nina Sickler
William Burke, Vice Chair
Alden Howell

Advisors: Jonathan Colburn
Shannon MacGillis
Jose Regueiro
Justin Gearhart

Staff: Joe Rainey

AGENDA

Order of Agenda is Subject to Change

- 1. Call to Order - Chair**
- 2. Roll Call and Verification of Quorum – Chair**
- 3. Submittal of Speaker's Cards – Chair**
 - a) A raised hand icon will be acknowledged by the Chair.
 - b) For those attending in person, paper speakers' cards will be available.
- 4. Public Comment:**
- 5. Action Items:**
 - a) Approval of Minutes March 19, 2025 – Chair
 - b) Level 3 Project Proposal
 - i. UNF
 - c) Level 2 Project Proposal
 - i. Beaver Dam Rd Pond – Justin Gearhart
 - ii. Glorianne Drive – Justin Gearhart

6. Reports:

- a)** Financial Report for Ordinance Tree Fund (15304), Charter Tree Fund (15305) and BJP (Attachment D) – Jose Regueiro
- b)** Fund Status of 630-CITY, Remove & Replace and Level 2 Programs (Attachment E) – Justin Gearhart
- c)** Status of Level 2 Tree Projects (Attachment F) – Justin Gearhart
- d)** Parks Department Project Update – Kathleen McGovern/Jill Enz
- e)** UFMP Update/Tree Commission Urban Forest Management Plan Workshop --Valerie Feinberg
 - i. May 16th workshop with Tree Commission
- f)** Task Force Update

7. New Business:

- i. Money for Appropriation

8. Old Business:

- 9. Adjournment** – Next meeting May 21,2025, 9:30am-11:30am as a Hybrid/Webinar meeting in Ed Ball Building, 10th Floor, Public Works Office, conference room 5.

Jacksonville Tree Commission

Minutes

Wednesday March 19, 2025, - 9:30 AM

Via Zoom Platform & In Person

[Recording of Meeting can be obtained by sending request to
Joe Rainey [jrainey@coj.net]

For approval April 16, 2025

Commissioners:

Curtis L. Hart, Chair (Council Appointee; 2021-0033-A)
Susan Fraser (Council Appointee; 2022-0063-A)
Vacant (Mayor Appointee; 2023-0696-A)
William Burke (Mayor Appointee; 2023-0695-A)
Alden Howell (Council Appointee; 2024-0388-A)
Chris Miller, Council Liaison
Nina Sickler, Director of Public Works

Advisors:

Jonathan Colburn - Urban Forestry Manager
Justin Gearhart - City Arborist
Shannon MacGillis - Office of General Counsel
Jose Regueiro - Accounting

Staff: Joe Rainey

1. Call to Order

Conducted by Chair

2. Roll Call and Verification of Quorum

Conducted by Chair, Commissioners present:

Curtis Hart, Chair
Susan Fraser
William Burke
Alden Howell
Chris Miller
Nina Sickler

Quorum present (4, in person): yes

3. Call for Public Speakers (online & card):

- a) **Lisa Grubba (Public Speaker) Greenscape** Informed the Tree Commission to "The Great Tree Give Away and Paper Recycle Day" event on January 18th 2025 went well distributing trees faster than any previous year. New community education programs for urban forestry being developed.

- b) **John Nooney - (Public Speaker)** Describes his concerns with trespassing police citation on Jacksonville University property (seeking pardon), and river access. Continues to be troubled regarding use of his 2.5 acre lot by Pottsbury Creek, and adjacent FEMA house still undemolished.

Action Items:

1. Prior Meeting Minutes.

Issue: The minutes from February 19, 2025, APPROVED

Motion: Approve, as presented.

Moved by: Susan Fraser

Second: William Burke

Vote: February minutes approved, unanimous.

2. Level 2 Project Proposal(s):

- i. Neptune Beach Phase 1 - Justin Gearhart

Motion: Approve, as presented.

Moved by: Nina Sickler

Second: Chris Miller

Vote: approved as presented, unanimous

[NOTE: Item taken out of order, see below:

"Financial Report: Jose Regueiro: item 3 section a".]

- ii. Pearl Street - Justin Gearhart

Motion: Approve, PENDING CORRECT CHECKLIST.

Moved by: William Burke

Second: Chris Miller

Discussion- Fraser: questions regarding Japanese Blueberries.

Vote: approved (pending corrected check list), unanimous

- iii. Windy Hills - Kathleen McGovern

Motion: Approve, as presented.

Moved by: Alden Howell

Second: William Burke

Discussion: Concerns over multiple pricing re 1 vs 2 year pricing along with multiple vender quotes. Pricing is currently based on active contracts.

Justin Gearhart/ Mike Zaffroni: related to overall contracts and contract terms, benefit of unit pricing and umbrella contract to speed up individual projects; warranty contracts 90d, 1yr, 2yr; City has ability to bid out any particular project, example: Gold Star. The best choice for warranty may be site specific.

Hart: expressed desire for competitive pricing.

Marsha Ray Wellington: Has concerns the park did not have trees included in original project plans and would like to have the additional trees expedited for upcoming use and events; time is of essence due to upcoming events at park.

Vote: approved as presented, unanimous

Request for action/follow-up- Add to next agenda discuss pricing options for future projects to make bid/quote competitive.

iv. Oceanway Park - Kathleen McGovern

Motion: Approve, as presented.

Moved by: Nina Sickler

Second: William Burke

Vote: approved as presented, unanimous

v. Terrace Park - Kathleen McGovern

Motion: Approve, as presented.

Moved by: William Burke

Second: Nina Sickler

Vote: approved as presented, unanimous

vi. Riverview - Kathleen McGovern

Motion: Approve, without Peach trees until a maintenance plan has been presented funded by Parks.

Moved by: Nina Sickler

Second: William Burke

Discussion- question regarding maintenance regarding peach-bearing trees; **Fraser/Sickler** issue of Parks department plan for maintenance. **Marsha Ray Wellington-** the community would present a maintenance plan

Vote: approved, as moved- without Peach trees until a maintenance plan has been presented funded by Parks, **unanimous**

vii. District 10 - Kathleen McGovern

Motion: Approve, as presented.

Moved by: William Burke

Second: Nina Sickler

Discussion- cost regarding remove & replace; pear trees died; grind stumps.

Vote: approved as presented, **unanimous**

3. Financial Report: Jose Regueiro [taken out of order]:

Noted: Item 3,a discussed in section 2 under action items

a. Combined revenues: Combined Revenues for Fiscal YTD are +on-year. Combined Expenses for Fiscal YTD are \$1.70M compared to \$2.77M on Feb-24. A decrease of \$1 .073M year-on-year. Combined Revenues for Feb-25 were \$631K compared to \$852.2K for Feb-24, a decrease of \$221 .25K. Meanwhile, expenses were \$546.6K and \$305.6K on Feb-25 and Feb-24, respectively. Total unallocated funds were \$23.13M for Feb-25.

Discussion: How money is accounted for and/or transferred between accounts specifically for the year 2022 financials. Details on how funds are collected and applied and set asides for affordable housing, additional arborist and landscape architect among other programs in relation to tree funds and new legislation.

[NOTED: Parks update out of order; Item 5, below.]

b. Fund Status: Justin Gearhart: Total funds not appropriated \$32.02M. Remaining in the three pools in public works \$1.28M. For 630-City \$2.11M. For level 2 \$3.36M and Level 3 \$2.36M.

Total obligated funds \$3.58M as of March, 2025

(See Details on PGs 25-47 of January Agenda)

4. Status of Level 2: Justin Gerhart, Kathleen McGovern:

- Northwest Parks-Complete/off warranty
- Hollywood-Fletcher- Complete/off warranty
- Jarboe Park- Complete/off warranty
- Touchton Park- on warranty
- Backridge Park- on warranty
- Black Island Hammock- on warranty
- Maxville Park- on warranty
- Atlantic Blvd- on warranty

No Motion/ No Vote.

5. Parks Department Project Update:

[NOTE: Parks update provided out of order after Item 3,a]

- Glynlea Park is 80% Complete
- Greenland Park is 80% Complete
- McGirts Restoration is 10% In Progress with consultant portion of work
- Scheduling: Julington Durbin, Genovar, Walter Anderson

No Motion/ No Vote.

(See Details on PGs 48-51 of February Agenda)

6. UFMP Update: Valerie Feinberg: UFMP has provided the Davie Consulting contract and scope of services to the General Council for distribution to Commission Members.

Outreach has begun, starting good conversations at CPAC meetings. Northwest showed great interest in new trees and UFMP observed the need for trees in the northwest CPAC. States Tree Commission has an opportunity to expand tree planting through community engagement and education as resources allow.

Materials and details of presentations are being made available to be added to the taskforce resource library.

DISCUSSION:

Sickler: When are the next and final deliverables or dates expected to be available?

Feinberg/ Fraser/ discussion regarding deliverables; want to have a logical place where relevant information can be easily found and accessible.

Nancy Powell: would like larger participation, including larger invitation for participation; concerns there is no strategic plan other than to spend tree fund money.

Sickler: question regarding UFMP process; timing.

Motion- Fraser: Have Davie Consultants return and present dates, and details of project to provide scope and timeframe for tree commission and set expectations. As last meeting did not provide coherent insight.

Feinberg [point of information] the number of meetings are set by contract and consultants are not local or on site; but will try to work something out.

Vote: approved as moved, unanimous

7. New Business

A. Money For Appropriations: Gearhart: Overview of past projects and allocations regarding appropriations. Discussion of funds. As of 2022 two-year appropriations had been requested by at the time council member Salem for "larger appropriations and lower legislation." Details and timeline on how funds were allocated and distributed over time through the Tree Commission. Funding requests with explanations put forward to Commission.

Request for action/follow-up- Produce specific documentation and workable condensed numbers to discuss for next meeting. Along with break down of level 2 (Remove and Replace) expenditures to correlate with produced document.

No motion; no vote.

B. Taskforce Update- Fraser: next meeting will be an open forum discussion, with contributing invested parties in attendance. Open invite. Date: March 20

C. Mike Zaffroni (Liberty Landscape Supply): 630-City tree planting programs; commending the program to plant trees in the right-of-ways; should be better promoted. Tampa as comparison, only 4 types of trees offered.

Justin Gearhart: the requests ebb & flow.

Hart: how to promote it.

Powell: asked about 100-tree challenge [Justin Gearhart provided background and plan for 100-tree challenge]

(See Details on PGs 52-60 of January Agenda)

END OF MEETING 11:41 AM

Project Title: UNF Tree Planting Project**Staff Review by: Justin Gearhart****Applicant: The Public Trust Environmental Legal Institute of Florida Inc.****Review Date: 4/10/2025****Application Submittal Date: 3/10/2025**

A	DESIGN REVIEW	Yes	Yes w/ Conditions	No
A1	The selection of each tree species is appropriate for the site conditions found at each planting location.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
A2	The placement and spacing of trees are appropriate for the species selected.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
A3	Proposed tree species are on the “Tree Commission Approved Tree Planting List.”	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
A4	Project emphasizes shade trees. If non-shade trees are proposed and exceed 50% of the total trees proposed for the site, the additional use of non-shade trees must be justified.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
A5	Palms are 25% or less of the total number of trees being planted. If palms exceed 25% of the total trees, the additional use of palms versus the use of other trees must be justified.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
A6	The locations of proposed trees do not interfere with utilities, drainage, pavement, structures, or required sight lines.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
A7	The project includes incidental landscaping. If yes, the applicant must justify the reasons for the inclusion of incidental landscaping.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
A8	The Schematic Planting Plan is complete: drawn to scale clearly showing a plant schedule and the location of existing and proposed trees.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Comments: A4: Only 39% shade vs 61% non-shade A5: Palms are 12%			

B	COST REVIEW	Yes	Yes w/ Conditions	No
B1	The administrative costs are reasonable.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
B2	Design Consultant fees are reasonable.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
B3	Construction costs are reasonable.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
B4	The irrigation costs are reasonable.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
B5	The overall benefits of the selected trees outweigh the cost of the species of trees selected.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Comments: B1: Admin Costs- \$18,000 B2: Design costs- \$28,976.75 B3: Construction cost- \$320,000 B4: No irrigation costs			

C	MAINTENANCE AND IMPACTS REVIEW	Yes	Yes w/ Conditions	No
C1	Low maintenance plants are utilized, that will require minimum maintenance after the mandatory maintenance done by the Applicant.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
C2	The location of plant material and irrigation will have a minimum adverse impact, over time, on infrastructure such as sidewalks, roads, and utilities	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Comments: 			

D	PUBLIC BENEFITS REVIEW	Yes	Yes w/ Conditions	No
D1	The proposed species of trees will be beneficial to the City's tree canopy.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
D2	The Project provides a significant benefit to the neighborhood, Council District, or City.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
D3	The Project is in a high visibility area.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
D4	Project engages the community through volunteers, education or other public engagement.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
D5	The Project is aesthetically pleasing.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
D6	The Project will enhance a blighted area.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
	Comments: D4: Volunteer scope is limited D6: UNF is not blighted			

E	PLAN-IT GEO OBJECTIVE CRITERIA REVIEW. Staff will utilize the Plan-It Geo Web Tool to evaluate the ranking of the proposed planting site based upon the following criteria. The ranking is not based upon the schematic design but rather on the ranking of the census track where the project is located.			
E1	Percentage of Census Track covered by Urban Tree Canopy:	60%		
		Rank of Census Track		
E2	Stormwater Benefits:	102	of	488
E3	Urban Heat Island:	454	of	488
E4	Socio-Economic Benefits:	470	of	488
E5	Overall equally weighted criteria:.	484	of	488

PUBLIC TRUST

Environmental Legal Institute of Florida

Greetings:

On behalf of the Board of Directors and members of the Public Trust, it is my pleasure to enclose our attached application. The Public Trust is bound to fulfill the commitments made in the application. I (John November) will act as the key contact between the City and the applicant. My email address is John@publictrustlaw.org and my phone number is 904-525-3042. Our mailing address is 2029 3rd Street N Jacksonville Beach, FL, 32250. Our FEID Number is 13-4300363. The Duval County Property Appraiser's Number for UNF is 173970-0405 and the address is 1 UNF Dr., Jacksonville, FL 32224.

I look forward to working with the City on this project and future planting projects to help develop a more robust canopy on public properties throughout Jacksonville.

Respectfully Submitted,

John November
Executive Director & General Counsel

JACKSONVILLE TREE COMMISSION'S
Level 3
TREE PLANTING PROGRAM

Application

See the Level 3 “Application Instructions and Process Guide,” (“Guide”) available on the Tree Commission’s website, for guidance for completing this Application. Definitions used in this Application and in the Level 3 Agreement are located in the Agreement.

1. Project Name: UNF Tree Planting Project
2. Applicant Name: The Public Trust Environmental Legal Institute of Florida Inc.
3. Key Contact Person: John November

- a. Phone Number: 904-525-3042
- b. Email Address: john@publictrustlaw.org
- c. Mailing Address: 2029 Third Street N, Jacksonville Beach, FL, 32250

4. Has the Applicant been a recipient of funds from the Tree Protection and Related Expenses Trust Fund (“Tree Trust Fund”) for past tree planting projects? Yes
5. If yes, list each project completed in the last 3 years and currently in progress.

Sulzbacher Village (Completed)

Naval Station Mayport (In Progress)

If yes, list past projects not successfully completed.

Huguenot Memorial Park

If yes, has the Applicant submitted all the required documentation now due from currently funded projects? Yes

6. Has the Applicant ever been on the Council Auditor's Non-Compliance List? No

7. Project Partner Organizations, Businesses or other collaborating Entities:

N/A

8. Name of City Department or Public Agency having jurisdiction over Project Site.

University of North Florida

Has the Applicant gained approval from the City Department or Public Agency to plant trees on the Project site?

Yes.

9. Name of City Council District and City Council Member where the project is located.

Council District 13, City Council Member: Will Lahnen

Have you shared information about the Project with the City of Jacksonville's District Council representative in writing? Yes

10. Anticipated number of volunteers participating in planting project and describe activities: We may have up to 10 volunteers participating in helping organize and support the ribbon-cutting ceremony at University of Florida at the conclusion of the installation of trees.

11. Other Project Funding Sources: List known and anticipated funding from other sources for this Project.

None

Funding Source

Amount

Funds Collected or Committed?

12. Project Summary: Provide in the space below a discussion of the Project: Include the purposes of the Project; the socio-economic benefits, public benefits, environmental benefits, the project contribution to the tree canopy, and the rationale for the selected tree species and their location.

Use no more than one page:

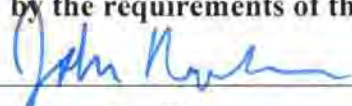

This project is intended to create enhanced tree canopy, shade, and other important ecological services at University of North Florida in southeast Duval County. This project will benefit Duval County residents that live on campus and go to school at UNF, as well as the many visitors that enter University of North Florida that will benefit from a more robust tree canopy. This project will create wildlife habitat and these trees will improve the appearance of University of North Florida. Substantial consultation with University of North Florida and City of

Jacksonville staff has resulted in a schematic design with five planting locations throughout the campus. No existing trees will be removed because of the planting project and there is no new irrigation system proposed for the project although some of the trees will benefit from existing irrigation. This project will include a ribbon-cutting that will include some educational programming connected with the ceremony. This project will require a 1-Year Warranty from the landscape contractor planting the trees that includes routine watering for establishment.

**JACKSONVILLE TREE COMMISSION'S
LEVEL 3 TREE PLANTING PROGRAM AFFIDAVIT FORM**

BEFORE ME, the undersigned authority, personally appeared John November, who was sworn and says:

1. My name is John November and I am the Executive Director of the Public Trust Environmental legal Institute of Florida, Inc. a Florida non-for-profit corporation ("Applicant") and I have personal knowledge of the matters stated herein.
2. The Applicant is an Eligible Applicant, as defined in the Jacksonville Tree Commission's Level 3 Tree Planting Program Instructions document.
3. The Applicant is in compliance with the terms of all existing City agreements to which it is a party.
4. The Applicant is in compliance and will comply with all federal, state, local laws, rules, regulations and ordinances, as the same may exist from time to time, applicable to it.
5. If the application is approved for funding, the Applicant will execute a Grant Agreement between the City of Jacksonville and the Applicant, in substantially the same form as the Grant Agreement provided on the Tree Commission's webpage of the Public Works Department of the City of Jacksonville.
6. **The Applicant is familiar with the Jacksonville Tree Commission's Level 3 Tree Planting Agreement including all the information and duties, and if chosen for funding will abide by the requirements of the Agreement.**

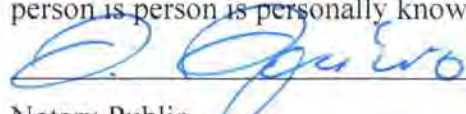

Signature of Affiant

Print Name: John November

UNF UNIVERSITY of
NORTH FLORIDA

Exhibit A-2. Narrative Project Scope - Naval Station Mayport Tree Planting

This project is intended to create enhanced tree canopy, shade, and other important ecological services at the University of North Florida (UNF) in Duval County. This project will benefit the over 16,000 students that attend and 1,800 employees that work at the university, as well as the many visitors, clubs, and organizations that use UNF throughout the year that will benefit from a more robust tree canopy. This project will create wildlife habitat and these trees will improve the appearance of UNF. Substantial consultation with UNF and City of Jacksonville staff has resulted in a schematic design with five planting locations throughout the university grounds. No existing trees will be removed because of the planting project and there is no new irrigation system proposed for the project (some of the trees planted will benefit from existing irrigation). This project will include a ribbon-cutting that will include some educational programming connected with the ceremony. This project will require a 1-Year Warranty from the landscape contractor planting the trees and includes routine watering for establishment.

The Public Trust staff will administer the planting project and provide managerial support. We will not have any volunteers participating in the actual planting or maintenance of the trees although volunteers may participate in the ribbon-cutting ceremony and educational activities associated with the ribbon-cutting ceremony. The Public Trust has engaged Sarah Dark from the Coteleur & Hearing Landscape Architecture firm to act as Project Manager on this project and Coteleur & Hearing will be the Landscape Architects for the project. Per the requirements of Sec. 255.20, Florida Statutes, Sec. 287.055, Florida Statutes, and Chapter 126, Jacksonville Ordinance Code the Public Trust shall not be required to select the Landscape Architect through a competitive bid qualification process because the aggregate of the design fees will not come close to exceeding \$35,000 and the construction cost will be under \$325,000. We will not know the identity of the landscape contractor until after we put the project out for bid after the project grant agreement has been executed and bids have been reviewed.

The site plan illustrates a large parking area with multiple rows of stalls. Tree placement is indicated by various symbols: blue circles for larger trees, green circles for smaller ones, and orange squares for specific plantings. The plan includes labels for "EXISTING STREET LIGHT, TYP" at two locations and "LIMIT OF CLEAR SIGHT" along the perimeter roads. Street names include "SOUTH ENTRANCE DRIVE", "NORTH ENTRANCE ROAD", and "N ENTRANCE RD". A note specifies a "300' LIMIT OF CLEAR SIGHT (30 MPH)" near the bottom left corner.

Exhibit B- University of North Florida Project Performance Schedule:

- a) Upon approval of the Public Trust's Application to the Tree Commission, this project shall be submitted to MBRC for approval.
- b) The Public Trust will finalize the contract agreement with the City of Jacksonville.
- c) The Public Trust and Cotleur & Hearing will finalize the design for the preparation of construction documents within 60 days of the City and the Public Trust's agreement being executed.
- d) The Public Trust will put this project out for solicitation of bids within 30 days of the completion of the construction documents by Cotleur and Hearing.
- e) The Public Trust will receive bids within 30 days of sending the project out for bid to at least three qualified landscape contractors.
- f) The Public Trust will select the qualified low bidder, make a project award, and finalize the contract agreement with the Landscape Contractor within 30 days of contractor selection.
- g) The landscape contractor will complete the installation of the trees and the Public Trust will provide initial acceptance within 180 days of the planting contract being finalized with the landscape contractor.
- h) Maintenance of the trees by the landscape contractor will be performed for a period of one year after initial acceptance if not extended to cover warranty of replacement trees.
- i) The Public Trust will coordinate the inspection of trees every 6 months, in coordination with the City of Jacksonville staff, and will make maintenance payments to the landscape contractor upon completion of each inspection until the maintenance period has concluded.

Exhibit C. University of North Florida Project Budget

The estimated administrative/project management fees for both the Public Trust and Cotleur & Hearing are enclosed as separate spreadsheets as Exhibit C(a) and Exhibit C(b). The total project construction estimate is included on the spreadsheet under Exhibit C(c). These spreadsheets include an accounting of the services rendered up until the time the application is being considered by the Tree Commission and the services and hours projected to be worked by both the Public Trust and Cotleur & Hearing after the application has been approved.

The total admin costs for the Public Trust are projected to be \$17,238.00. It is highly possible that actual administrative fees incurred will be less than this amount however we built in some time additional to what we expect to take administering the project for any potential unforeseen complications that may arise. The proposed total not-to-exceed for the project is \$18,000.00 for the Public Trust's services.

Cotleur & Hearing's total projected design and project management fees are projected to be \$26,282.75 for the entire project. The proposed total not-to-exceed for the project is \$28,976.75 for Cotleur & Hearing's services.

We received construction estimates from landscape contractors to get a firm handle on the likely installation and maintenance costs. The total estimated cost for the installation of the trees (including a 1-year warranty on all trees being planted) is projected to be \$295,037 and will probably end up being less. The proposed not to-to-exceed for the construction/installation of trees for the project is proposed to be \$320,000.00. During the time before the pre-project scope approval meeting, the Public Trust provided numerous services including gathering general support for the project from the University of North Florida and its horticulturist/landscape designer developing an understanding of the planting areas that would benefit from the planting. This also included multiple site visits and coordinating the scope submittal to the City of Jacksonville. Cotleur & Hearing participated in the site visits, helped develop the project scope submittal, and coordinated changes to the plan with the Public Trust. The Public Trust expended hours that are not eligible for compensation as they were spent prior to the project scope was approved by City staff. The Public Trust spent \$420.00 covering Cotleur & Hearing's design time (3.75 hours) spent before the project scope was approved by City staff and also covered the time spent by the Public Trust developing the project.

During the conceptual and schematic planning phase, the Public Trust provided numerous services including helping refine the conceptual plan by coordinating between the University of North Florida staff, identifying and providing design specifications and utilities, taking an additional site visit, and coordinating with City of Jacksonville staff. Cotleur & Hearing participated in the second site visit, helped develop the conceptual and schematic site plan submittals, and coordinated changes to the plan with the Public Trust. Cotleur & Hearing also created the schematic planting plans in AutoCAD. The schematic planting plan identifies the proposed tree locations, sizes, and quantities. A total of 5 planting areas have been identified at University of North Florida and "sight lines" were added to alleviate any potential driving safety concerns.

During the application phase, the Public Trust led the development of all aspects and

exhibits for the project application. This included gathering cost estimates for the cost of installation and maintenance for the project's trees. Cotleur & Hearing has collaborated and will continue to collaborate with the Public Trust to provide the necessary documentation for the Application phase of the project as it pertains to landscape architectural services, cost estimation, project performance and management and will collaborate on creating and delivering a presentation for the planting project to the Tree Commission.

The Public Trust and Cotleur & Hearing will prepare the bid documents (tree planting plans and construction specifications) incorporating the requirements of the approved Application and the Level 3 Project Agreement and will solicit bids from at least 3 qualified and experienced landscape contractors. The Public Trust will then enter into an agreement with the landscape contractor to install and maintain the trees for a period of 1 year. The Public Trust and Cotleur & Hearing will ensure the quality of the trees being planted, be present during and after installation, monitor construction, and maintenance during the tree establishment/warranty period, inspect each of the sites every 6 months and upon completion of the warranty period, submits reports to City staff and the landscape contractor, coordinate payments with the City and review the landscape contractor's invoices. Cotleur & Hearing and the Public Trust will inspect the completed work and provide certification letters for each completed planting area. The landscape architecture team at Cotleur & Hearing are also providing additional services for the project. This includes graphic design assistance by Michala Stewart for the conceptual design and the project application/presentation. Landscape Architects Nicole Plunkett and Don Hearing may provide project oversight and the signing/sealing of construction drawings, and Certified Landscape Inspector Gregg Byrick may provide assistance in reviewing the quality of trees planted and the health of trees during the warranty period.

Exhibit D. Project Team

A. List of People and Entities Involved with the Project

1. Cotleur & Hearing Architecture firm has been engaged as the Landscape Architect for the project.
2. Sarah Dark, of Cotleur and Hearing, shall be the Project Manager.
3. The Public Trust will support the Sarah Dark in the management of the project and will provide legal and administrative support as well.

B. Roles, Responsibilities and Tasks:

1. Cotleur & Hearing Architecture firm has been engaged as the Landscape Architect for the project to prepare conceptual plans, schematic plans, and construction drawings.
2. Sarah Dark will be the Project Manager and coordinate the preparation of the construction drawings, will review the Public Trust's creation of the bid documents, will review bid documents, and will provide oversight of construction and maintenance. Sarah Dark will provide professional project management quality assurance for the design, construction, maintenance, and warranty of the project.
3. John November Esq. (Executive Director & General Counsel) and Romy Vann (Conservation Director) of the Public Trust will coordinate with Sarah Dark to coordinate the preparation of the construction drawings, will prepare the bid documents, will support Sarah Dark and the City's review of bid documents and selection of a landscape contractor, and will support Sarah Dark in her oversight of construction and maintenance. John November shall coordinate the execution of the contract agreements with the City of Jacksonville and the landscape contractor. John November will be the main point of contact to act as a liaison between the University of North Florida, the City of Jacksonville, and the landscape contractor. John November and Romy Vann will provide general administrative support including billing to the City, coordination of inspections, and general coordination with all parties involved.

Contribution Deductibility:
YES
Advance Ruling Ending Date:
DECEMBER 31, 2009

Dear Applicant:

We are pleased to inform you that upon review of your application for tax exempt status we have determined that you are exempt from Federal income tax under section 501(c)(3) of the Internal Revenue Code. Contributions to you are deductible under section 170 of the Code. You are also qualified to receive tax deductible bequests, devises, transfers or gifts under section 2055, 2106 or 2522 of the Code. Because this letter could help resolve any questions regarding your exempt status, you should keep it in your permanent records.

Organizations exempt under section 501(c)(3) of the Code are further classified as either public charities or private foundations. During your advance ruling period, you will be treated as a public charity. Your advance ruling period begins with the effective date of your exemption and ends with advance ruling ending date shown in the heading of the letter.

Shortly before the end of your advance ruling period, we will send you Form 8734, Support Schedule for Advance Ruling Period. You will have 90 days after the end of your advance ruling period to return the completed form. We will then notify you, in writing, about your public charity status.

Please see enclosed Information for Exempt Organizations Under Section 501(c)(3) for some helpful information about your responsibilities as an exempt organization.

Jacksonville Environmental Group: City Settlement A Win For Tree Canopy

By LINDSEY KILBRIDE • JUL 27, 2017

CREDIT JENNIFER COCHRAN / FLICKR

A Jacksonville environmental nonprofit says its recent settlement with the city is a win for foliage and government transparency.

The Public Trust Environmental Legal Institute filed [suit](#) two years ago claiming a special tree fund wasn't being spent on trees.

Exhibit F

CORPORATE RESOLUTION CERTIFICATION

The undersigned, Secretary of The Public Trust Environmental Legal Institute of Florida, Inc., a Florida 501 c 3 nonprofit corporation ("*Corporation*"), does hereby certify that the following Resolutions were adopted by the Board of Directors of the Corporation on October 30, 2024:

RESOLVED THAT John November, the Executive Director of the Corporation ("*Authority*") is hereby authorized and empowered to execute on behalf of the Corporation any and all Agreements between the City of Jacksonville, Florida ("*City*") and the Corporation for the purpose of receiving funds from the City for a tree planting project related to the Jacksonville Tree Commission's Level 3 Community Organization Tree Planting Program ("*Project*"), and to execute any and all documents necessary in connection with the Project.

FURTHER RESOLVED THAT in addition to and without limiting the foregoing, that the Authority of the Corporation be, and hereby is, authorized to take, or cause to be taken, such further action, and to execute and deliver, or cause to be delivered, for and in the name and on behalf of the Corporation, all such instruments and documents as the Authority may deem appropriate in order to effectuate the Grant Agreement and any documents or instruments executed in the accomplishment of any action or actions authorized as stated herein shall be deemed to be conclusive approval thereof by this Corporation and the binding act and obligation of this Corporation.

DATED: February 20, 2025

Patricia Dodson
CORPORATE SECRETARY

AUTHORIZATION TO PLANT TREES

On the 21 day of February, the Applicant, The Public Trust for Conservation, submitted an application for the Jacksonville Tree Commission's Level 3 Community Organization Tree Planting Program ("Application") to plant trees on the following property, located at: University of North Florida ("UNF") campus, RE #: _____ (attach an additional sheet if necessary) ("Property").

The Property is public land in Duval County and is owned or controlled by (e.g. City, State of Florida, United States, Independent Agency of the City of Jacksonville, or other public entity) The University of North Florida Board of Trustees and is a (e.g. right of way, park, school) state university campus managed by the following public entity (e.g. Parks & Recreation, Public Works, Development Services Division, School Board, Superintendent). The University of North Florida Board of Trustees, a public body corporate.

I, Scott Bennett, as the (position) Vice President, in the (department and division) Administration & Finance, UNF, have reviewed the Application and I have the authority to authorize the Project to be conducted on the Property in the event the Project is approved.

This Authorization is limited to the Application as submitted on the above referenced date. This authorization does not bind the City to award funds from the Tree Protection and Related Expenses Trust Fund and this Authorization is subject to revocation should the Application materially change from the date of submission.

Beaver Dam Road Pond Level 2

Scope of Work

Description:

A tree planting project has been requested for planting around the pond and right of way of Beaver Dam Road. This project will take place in City Council District 13 and includes the planting of a variety of trees that will serve as an aesthetic improvement and a heat reduction purpose. In addition, these plantings will help to filter and slow down stormwater runoff before reaching the city's stormwater management infrastructure. This project includes the planting of 50 total trees, with no tree removals necessary. To see a map of the planting plan, please see: <https://pg-cloud.com/JacksonvilleFL/?scenario=Beaver-Dam-Road-Pond>. All trees will be planted on public right of way areas within Duval County.

Approximate location of planting project within Duval County.

LEVEL 2 COMMUNITY ORGANIZATION TREE PLANTING PROGRAM

The form below provides individual citizens and organizations with the opportunity to suggest a location for a tree planting project within Duval County that proposes to use funds from the City of Jacksonville Tree Protection and Related Expenses Trust Fund. If a citizen or organization is interested in suggesting a planting location for the City to implement, then use this form.

Requirements to utilize this program:

1. The location of the proposed planting must be:
 - a. In Duval County; and
 - b. On public property, such as a road right-of-way; a local, state or national park; Duval County School Board property, etc.

Complete the following information below:

1. Name/title of project: Beaver Dam Road Pond
2. Legal name of organization/citizen making suggestion:
Justin Gearhart/PWML
3. Organization or citizen mailing address:
609 Saint Johns Bluff Rd N, Jacksonville Florida 32225
4. Contact phone number: (904) 255-4327
Contact e-mail: Jgearhart@coj.net
5. Location/address of planting project:
Beaver dam Rd/district 13
6. Has project information been shared with the Council Member of the district? yes
7. Rationale for project (include information about the public benefit of the project):
Improve pond area and road. To improve aesthetics and canopy for the city.
8. Description of project:
Planting 50 trees along the pond and road right of way.

If a citizen/organization is interested in proposing a project that they want to administer and implement, a more comprehensive application (Level 3) can be found at the following link: <http://www.coj.net/departments/public-works/tree-commission>.

To Be Completed By City of Jacksonville/Public Works Staff Only

Glorianne Drive Level 2 Tree Planting

Scope of Work

Description:

A tree planting project has been requested for planting in the median of Glorianne Drive. This project will take place in City Council District 5 and includes the planting of a variety of trees that will serve as an aesthetic improvement and a heat reduction purpose. In addition, these plantings will help to filter and slow down stormwater runoff before reaching the city's stormwater management infrastructure. This project includes the planting of 5 total trees, with no tree removals necessary. To see a map of the planting plan, please see: <https://pg-cloud.com/JacksonvilleFL/?scenario=Glorianne-Drive-Level-2>. All trees will be planted on public right of way areas within Duval County.

Approximate location of planting project within Duval County.

LEVEL 2 COMMUNITY ORGANIZATION TREE PLANTING PROGRAM

The form below provides individual citizens and organizations with the opportunity to suggest a location for a tree planting project within Duval County that proposes to use funds from the City of Jacksonville Tree Protection and Related Expenses Trust Fund. If a citizen or organization is interested in suggesting a planting location for the City to implement, then use this form.

Requirements to utilize this program:

1. The location of the proposed planting must be:
 - a. In Duval County; and
 - b. On public property, such as a road right-of-way; a local, state or national park; Duval County School Board property, etc.

Complete the following information below:

1. Name/title of project: Glorianne Drive Level 2
2. Legal name of organization/citizen making suggestion:
Justin Gearhart/PWML
3. Organization or citizen mailing address:
609 Saint Johns Bluff Rd N, Jacksonville Florida 32225
4. Contact phone number: (904) 255-4327
Contact e-mail: Jgearhart@coj.net
5. Location/address of planting project:
Glorianne Drive/District 5
6. Has project information been shared with the Council Member of the district? yes
7. Rationale for project (include information about the public benefit of the project):
Improve canopy and aesthetics of the road entering neighborhood.
8. Description of project:
Planting 5 trees in the median of Glorianne Rd.

If a citizen/organization is interested in proposing a project that they want to administer and implement, a more comprehensive application (Level 3) can be found at the following link: <http://www.coj.net/departments/public-works/tree-commission>.

To Be Completed By City of Jacksonville/Public Works Staff Only

Project Title:

Gloriane Drive level 2

Total number of trees to be removed

0

☒ Project is to be planted on Public Land

☒ Project is located in Duval County

Activity		Complete
1	The species of trees are appropriately located.	J6
2	The number and placement of trees is appropriate.	J6
3	Trees being planted are approved pursuant to the 'Tree Commission Approved Tree Planting List'.	J6
4	Shade Trees are preferred; if non-shade trees are proposed, the use is appropriated/acceptable.	J6
5	Less than 25% of the total species of trees being planted are palms.	J6
6	The planting will not interfere with utilities or sight line requirements.	J6
7	The project does not include incidental landscaping. If so, the applicant must justify the reason for its inclusion.	J6
8	Construction required? Yes <input checked="" type="checkbox"/> No <input checked="" type="checkbox"/> If yes, are costs reasonable?	J6
9	Irrigation installed? Yes <input checked="" type="checkbox"/> No <input checked="" type="checkbox"/> If yes, are costs reasonable?	J6
10	The cost of the species of trees selected do not outweigh the benefits of the trees.	J6
11	Low maintenance plants are utilized.	J6
12	Location of plant material and irrigation (if applicable) has minimum adverse impact over time on infrastructure such as walks and roads.	J6
13	Species of trees being planted are beneficial to the City's tree canopy.	J6
14	The project provides unique benefit to the neighborhood, Council District, or City.	J6
15	The project has been reviewed with and meets the needs of the requesting entity.	J6
16	The Councilmember has been notified of the project.	J6

The City of Jacksonville has two separate laws that provide protection for certain trees and require mitigation for damage or removal of certain trees caused by the process of land development. Mitigation is required either through planting or replanting of a calculated amount of mitigation trees or through making a specified payment into the Tree Protection and Related Expenses Trust Fund codified by Sec. 111.760, Ordinance Code. These laws are Article 25 of the Charter of the City of Jacksonville and Chapter 656, Part 12, Subparts A & B of the Ordinance Code. Each provision has specific criteria for what is characterized as a "protected tree" and thus would require replacing through the development process of a site, or if a replacement is not made, how the "mitigation fee" is calculated for removal of trees without replacement. The mitigation fee that is paid by developers who are unable to replace the trees destroyed during construction, as required by both provisions, is placed in the Tree Protection and Related Expenses Trust Fund. Moreover, funds received from application of the Charter are held in Fund 15305 and funds received from application of the Ordinance Code are held in the Fund 15304.

Jacksonville Tree Commission

Peach Tree Maintenance - Riverview Park

Season:	Winter - January-March (Dormant)	Spring - April- June	Summer - July - September	Fall - October - December
Maintenance Recommended:	Pruning (see UF-IFAS Guide) Fertilize (March, 12-4-8)*	Thinning (Remove excess fruit) Harvesting Fertilize (May, 12-4-8)* Monitor for Pests	Postharvest Fruit Removal Light Pruning Fertilize (July 12-4-8)* Monitor for Pests Weed Control	Weed control Fertilize (October, optional) Monitor for Pests

Irrigation: Water newly planted trees every time the top 2 inches of the soil is dry to the touch. That may be everyday, every other day or even only a few times a week depending on weather and soil conditions. Make sure to pay close attention to watering in the first few months after planting and for established trees water once to twice a week should be sufficient. UF-IFAS UFIFAS recommends 2-3 gallons of water per inch of diameter of trunk at each watering

*fertilizer should contain micronutrients, esp. zinc.

Figure 1. Example of a typical peach tree growth stages between January and December in central Florida. Yellow broken arrows indicate fertilizer application timing, pruning, and defoliation practices.

Training and Pruning Florida Peaches, Nectarines, and Plums¹

Ali Sarkhosh and James Ferguson²

Fruit from Florida's early maturing peach, nectarine, and Japanese plum cultivars mature in April and May. However, after the fruit is harvested, trees grow vigorously until about November. Trees must therefore be pruned annually to enhance tree growth, reduce fruit thinning costs, and adjust crop load for the following season. During the first two to three years after planting, young trees are trained to develop a branching system or tree canopy that will later support a well distributed crop. Mature, producing trees from about three to ten years of age are usually pruned when dormant (December to February) and during the late spring and summer (May to August). Although each tree will grow differently with few trees being perfectly symmetrical, the overall goal for peaches and nectarines is to develop an open center or vase-shaped tree with a spreading but upright growth habit (Figure 1) and to train Japanese plums that would typically grow very upright to a somewhat spreading pattern (Figure 2). Written for both homeowners and commercial growers, this publication explains concepts underlying recommended tree training and pruning practices.

Planting and Training Young Trees

Planting

Florida stone fruit (peaches, nectarines, and plums) are usually budded onto peach rootstock in May and June and sold as dormant nursery trees for planting the following December to January. Bare root trees grown in field nurseries are harvested during the winter months and should be planted as soon as possible to prevent roots from drying out. When bare root trees are wrapped in moist sphagnum moss and tightly wrapped in black plastic and tied well, they can also be stored temporarily in coolers maintained at about 32°F until planted. Nurseries are now also producing stone fruit trees in containers, enabling growers and homeowners to plant stone fruit trees year round. Containerized trees may become root bound, so be sure to loosen the root ball by removing some soil and roots before planting to improve contact of roots with soil and stimulate new root growth (Figure 3).

Dormant trees, bare root or containerized, planted in the winter can establish root systems early in the year and usually grow better than trees planted later that year. Although dormant trees do not have high water demands, watering trees at planting will keep roots moist. Note that red-leaved ‘Flordaguard’ peach rootstock with improved nematode resistance is the only stone fruit rootstock recommended by the University of Florida.

Figure 3. Containerized peach tree in a 3-gallon container ready for planting. Remove some soil from roots to improve root contact with field soil.

Pruning at Planting

Nursery trees with trunks less than $\frac{3}{8}$ inch in diameter usually have no lateral branches and can be cut back 18 to 24 inches above ground level. Primary or scaffold branches will develop six to ten inches below this cut. These scaffold branches need to be developed low to make pruning, thinning, and fruit harvesting operations easily accessible from the ground or scaffold branches high enough to allow for management practices like weed management, fertilization, and irrigation line maintenance. Nursery trees with greater than a $\frac{1}{2}$ inch diameter may have already developed lateral branches. Using pruning shears, remove most of these branches, leaving three to five branches that are evenly spaced in a north, south, east, and west direction. Depending on the length and vigor of the remaining lateral branches, cut them back two to three inches or closer to the trunk to stimulate vigorous lateral growth. During the first spring and summer, trees should be managed to produce as much vegetative growth as possible, with major pruning left to the winter months when the trees are dormant. However, new plantings can be pruned lightly during the summer without reducing leaf surface area much. Some growers pinch off undesirable branches and remove vigorous branches that may divert growth away from the scaffold branches. During the second and third summers, undesirable branches can be pruned from peaches and nectarines, and excessive growth from the top of plum trees topped or cut.

First Year Dormant Pruning

By the end of the first year, a number of potentially primary or scaffold branches will have grown on peaches and nectarines. During the first year dormant pruning, the task is to select branches that will develop into the main structural branches for a tree with an open center or vase shape (Figure 4).

Figure 4. During year 1 dormant pruning, four major scaffold limbs have been selected to form the open center canopy.

Credits: UF/IFAS

If this has not been done already, select three to four limbs evenly spaced around the trunk at about a 45-degrees angle from the trunk and about six inches apart vertically. Prune back these branches two to three feet from the crotch of the tree, the areas from which the scaffold branches emerged.

Leave small shoots along these branches to provide sunburn protection for the scaffold limbs and to possibly produce early fruit. Remove excessively vigorous branches that could interfere with the growth of the scaffold branches.

Plums tend to grow more upright than peaches and nectarines and branch more densely, requiring a different pruning strategy. Florida plums can be grown with either an open center or with a modified central leader system. Select exterior branches that grow laterally and remove most interior branches. Spreader sticks and branch weights are sometimes used to widen branch angles of plum scaffold branches. Another approach requires pruning all branches to about twelve inches from the trunk, with subsequent dense growth naturally forcing some exterior branches to grow laterally. Dense interior branches can be removed later.

Second Year and Later Dormant Pruning

During the second dormant season for peaches and nectarines select two to three vigorous lateral branches growing outward from each of the primary scaffold branches. Avoid selecting lateral branches situated on top of each other. Remove other branches and cut back the secondary lateral branches about 20 to 36 inches from the primary scaffold branches. Leave some small branches and twigs, especially on the north and east side of the tree, to provide some shade for the scaffold branches (Figure 5).

Figure 5. During year 2 dormant pruning, secondary branches have been selected to position fruiting branches around the circumference of the tree, before pruning (left) after pruning (right).

Credits: M. Olmstead, UF/IFAS

The same basic pruning methods are used in the third and fourth dormant seasons as peaches and nectarines are pruned to an upright but lateral canopy with an open center having three to four primary scaffold limbs branching out to five or six secondary branches and smaller twigs four to five feet above ground (Figures 6). Maintaining an open center in this way will allow light penetration throughout the canopy to stimulate the production of new fruiting wood, improve fruit quality, and enable workers to pick fruit without ladders. Summer pruning mature trees can open the canopy to light and improve tree vigor and fruit quality. When summer pruning, leave some leafy twigs to prevent sunburn on the scaffold limbs. These twigs can be removed later to restrict their vertical growth (Figures 7 and 8). Cutting back the tree at manageable, the height of 6–8 feet, can be done either by hand pruner or disc pruning or cutter bars machines (Figures 9).

Other tree training systems like the perpendicular V, with one scaffold limb perpendicular to the row, have been used in other states. In Georgia, perpendicular V systems planted at a 6- to 8-foot-in-row spacing and 20 feet between

rows (363 to 272 trees per acre) produce higher yields per acre earlier than open center trees planted at a 20 × 20 feet spacing. However, at maturity yields for trees planted in the perpendicular V system were similar to yields for open center trees at a conventional spacing.

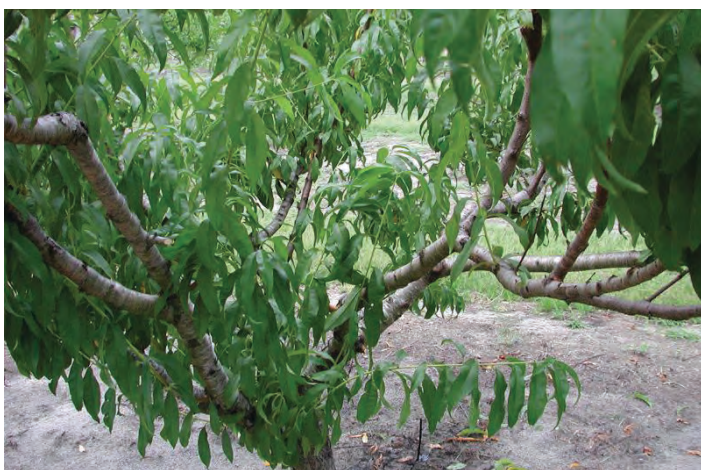

Figure 8. Summer pruning can expose the tree center to light but leave some leafy twigs to prevent sunburn of scaffold limbs.
Credits: UF/IFAS

Figure 9. Cutting back the tree at a manageable height (6–8ft) using a disc pruning.
Credits: D. Huff

When dormant pruning, open access to the interior canopy for fruit thinning later in the season need to be considered during the pruning cuts. Note that plums grown in Florida develop such densely branching canopies that the interior of the tree must also be dormant pruned to allow light penetration.

Vertical growth for Florida stone fruit trees should not exceed seven to eight feet to allow easy harvest from pickers working from the ground without ladders. When trees are planted on single or double row beds in flatwoods soils, tree height should be lower to facilitate fruit harvest for pickers harvesting fruit from the sloping side of the bed or the ditch or swale side of the tree. When large branches are removed, make a cut about ½ inch from the trunk or limb from which the pruned branch is removed. To avoid splitting the bark, undercut the branch about ⅓ of the way and finish the cut from the top.

Piles of pruned wood left in the orchard can harbor pests and plant pathogens and should be removed from the orchard (Figure 10).

Figure 10. Pruning's left in the orchard can harbor pests and diseases.
Credits: UF/IFAS

Time of Pruning

Tree condition, cultivar, geographic location, and history of past spring freezes should be considered when determining the best time for pruning. Stone fruit trees must drop their leaves before they enter dormancy. Given our variable weather during November and December, trees in some areas, mainly south-central Florida, will retain their leaves. Growers commonly spray zinc sulfate during this time to defoliate trees. Zinc sulfate is “hot” enough to cause leaf drop and can also add zinc to the soil. Defoliating trees in early November winter can ensure that dormant oil sprays for scale control can penetrate branch crotches and other protected areas where scales overwinter. It is also easier to see where trees should be pruned.

When training young trees, consider that pruning cuts will affect later canopy development, so do not make drastic cuts. Maintaining an open center for mature trees allows more leeway in making pruning decisions. When growing cultivars with a range of chilling hours, prune the lowest chilling cultivars first because they will break dormancy earlier than higher chill cultivars.

Although dormant pruning has advantages, growers in more northern areas without freeze protection sometimes wait until the middle of March to prune, even though trees may be in full bloom (Figure 11).

Figure 11. Peach trees pruned in an open center system in February during bloom.

Relationship of Pruning to Fruit Production

peaches and nectarines bear fruit in the spring on one-year-old wood (wood grown during the previous spring, summer, and fall). Japanese plums bear fruit primarily on lateral branches or spurs that are two years old or older and secondarily on one-year-old wood like peaches and nectarines. These differences in fruit bearing patterns affect

pruning practices. For example, peaches and nectarines should be dormant pruned to position new fruiting wood within the canopy and around the outer perimeter of the tree.

In California where fresh plums are grown on 40,000 acres in 2006, most but not all new spur growth is usually removed during dormant pruning; 20% to 40% of spurs older than one year are left to produce crops the following spring; and less productive spurs older than three to four years are removed. In this way, fruiting wood can be renewed annually to maintain production (Figure 12).

Figure 12. Plum tree spurs on which the majority of fruit are produced. Credits: UF/IFAS

Keynotes in Subtropical Stone Fruit Pruning and Training

- Always keep the tree to a manageable height by topping or cutting off (recommend to be done in summer pruning by disc pruner).
- Old fruiting branches should not allow to be developed inside the tree canopy.
- Always remove old fruit and dead shoots.
- Always remove strong water shoot grown inside the canopy, If not required as replacement wood, weak water shoot can be kept to reduce the limb sunburn.
- Always remove all the growth including suckers within 20 inches of the ground.
- Always remove the secondary laterals that are competing with the scaffold.
- To eliminate some flower buds remove some laterals or tip lateral over 15 inches by cutting them off about $\frac{1}{3}$.

April 2025 Tree Commission ask for Appropriations

What did we spend in Ordinance/BJP for Remove and Replace since 04/01/2024:

(09/27/2023 08:56 PM)

Theres an old rotten oak tree just past 4584 Yerkes on the same side (right) at the dead end on city property.Its pretty rotten, the city came out a few years ago and took out one right next to it. Not sure why they didn't take them both down. (I called about both at the time). The one tree fell on my neighbors property. The remaining tree is dying and just worried about kids playing out there etc...Thanks Loraine904 7161074
