THE CHAIRMAN: Welcome, everyone. Thanks again for your patience.

This is the March 26, 2025, meeting of the Jacksonville Historic Preservation Commission.

Just to go through some housekeeping before we get started, if you plan on speaking today on an item, please make sure you have filled out a speaker's card and the COA or the item number that you plan to speak to.

If the meeting runs for two hours, we'll take a break every two hours. We'll let you know about that and when we're going to reconvene.

And then we ask that you silence your cell phones, that you keep personal conversations at a low, and that no -- no outbreaks in the audience, but wait for your turn to come and speak.

When you do speak, you see the timer. Each speaker has three minutes to speak or to present their case, including the applicants.

So I think that's it. Let's get started. Do I hear a motion regarding the meeting Diane M. Tropia, Inc.

meeting minutes from February 22nd, 2025, have been approved.

Okay. So the first order of business we have on the agenda, under A, presentations -- a presentation by Commissioner Hoff regarding the Demolition By Neglect Task Force. We're waiting for some copies to arrive, so we're going to push that a little bit until they get here. We'll go ahead and read off the deferred items, Section B.

hopefully to our next meeting. 5

Then the consent agenda items. The items on the consent agenda, I'm going to read all of them for you. Number 1 is COA-25-31977 at

THE CHAIRMAN: No? All right. Then I will entertain a motion.

3 COMMISSIONER HOFF: Through the Chair, I want to request that COA-25-31817 for 4

5 1504 Barrs Street be discussed, so removed from 6 consent.

THE CHAIRMAN: Can I -- could you elaborate on why?

COMMISSIONER HOFF: Yeah --

10 MS. LOPERA: So through the Chair to the Commission, so if you just want to pull that 11

item from the consent agenda, if someone wants 12

to remove -- to move the remainder of the 13

consent agenda and approve that, then we can 14 15 discuss that pulled item.

THE CHAIRMAN: Okay. That sounds like the quickest way to get there.

So let's go ahead and we'll pull 18

COA-25-31817 at 1504 Barrs Street, and I'll 19 20

entertain a motion regarding the remaining 21 consent agenda items.

COMMISSIONER GREGORY: Motion to approve 22 the amended consent agenda. 23

2 All those in favor?

COMMISSION MEMBERS: Aye.

4 THE CHAIRMAN: Opposed?

COMMISSION MEMBERS: (No response.)

THE CHAIRMAN: So let it be known that the consent agenda items have been approved.

8 Now we'll speak to COA-25-31817 at 9 1504 Barrs Street. I'll open the public

10 hearing and hear a report from staff.

11 MS. FIGUEROA: COA-25-31817, located at 12 1504 Barrs Street, seeks to replace an existing

4-foot-tall wood cap and trim fence on a 13

14 contributing property located in the Riverside

Avondale Historic District. 15

The subject property is a corner lot and 16 17 currently has 4-foot-tall wood cap and trim fencing in the secondary front yard along the 18 19 right side and rear property lines. Presently, a backyard swimming pool is under construction 20 that was administratively approved under

21

22 COA-24-31267.

Under COA-24-31943, the applicant was also

administratively approved to install a 24

25 4-foot-tall metal picket fence in the required Diane M. Tropia, Inc.

MadamCourtReporter.com

8

front yard and portions of the secondary front yard and left side yard.

3 The applicant is proposing to replace the 4-foot-tall wood cap and trim fence with new 4 6-foot-tall wood cap and trim fencing in the 5

same location to conceal their swimming pool 6

from vehicle and pedestrian traffic. 7

8 Staff conducted a site visit from the sidewalk on January 30th, 2025, and noted that 9 10 the backyard is small in size, and the pool is

readily visible by vehicle and pedestrian 11

12 traffic along the Park Street side of the 13 property.

Park Street is primary a thoroughfare for 14 15 vehicle traffic in this area of the

16 neighborhood. This roadway is classified as a 17 collector street, according to the City's

Functional Highway Classification map of the 18

Comprehensive Plan. The public right-of-way is 19 20 uniquely large here.

21 Staff is recommending approval with 22 conditions.

THE CHAIRMAN: Thank you.

24 Any questions for staff?

COMMISSIONER HOFF: Through the Chair, so 25 Diane M. Tropia, Inc.

> Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300 MadamCourtReporter.com

9

I know that corner properties are sort of unique in that you have two very visible 3 facades, I guess, for lack of a better word, 4 and there are fencing guidelines that go along 5 with that. And the fencing guidelines, I 6 believe, call for what's already there, which 7 is a relatively low fence. So I understand 8 that they are requesting the 6-foot fence for 9 privacy reasons. 10

And I guess my question for staff is -you know, there are many different corner lots,
and typically they are not approved for 6-foot
fencing. Could you speak to why you -- why you
thought that it would be appropriate in this
case?

MS. FIGUEROA: Through the Chair, so for this property specifically, because it has the swimming pool and the applicant is seeking privacy reasons, we looked into the design guidelines, specifically the section on setting, and it said that fences should not obscure significant features. So with this structure, its foundation is pretty high. You can still see the split level, shake shingle,

and lap siding, as well as the veranda, and

2 That's what we can approve of.

COMMISSIONER HOFF: Okay. And do you knowif the -- so the property line directly abuts

12

5 the sidewalk, with no space in between? Is

6 that --

7 MS. FIGUEROA: Based on this property8 survey, it does appear that it abuts the9 sidewalk.

11 staff?

14 Is the applicant here?

And then lastly, we coordinated with the Current Planning Division, who regulates the Zoning Code, and this 6-foot-tall fence does adhere to the Zoning Code. We don't believe that it changes the relationship of the subject structures or site to the surrounding area, because the fence will be in the same location.

It's still recessed behind the primary front wall plane of the home, and it will not negatively impact the streetscape along Park Street due to its large setback from the street.

14 COMMISSIONER HOFF: Okay.

15 My other question regarding the fence 16 would be, I guess, the exact location of the fence. Looking at the photos, it appears that 17 the current 4-foot fence is a foot or two set 18 back from the sidewalk. And I didn't really 19 20 see a detailed site plan of where the new fence 21 would go, if that would go directly up to the 22 sidewalk or if it would go exactly where the new fence is -- or exactly where the existing 23 24 fence is right now.

MS. FIGUEROA: Sure. Through the Chair,

THE CHAIRMAN: You'll have three --

MS. ALLEN: Okay.

13 THE CHAIRMAN: -- three minutes to state

14 your case about --

15 MS. ALLEN: Perfect.

So the reason why we're applying for a 6-foot-tall fence versus a 4-foot-tall fence is

18 the walkway. As you can see here, the sidewalk

19 is literally right on the other side of that

20 fence. If you stand in the backyard, I'm only

21 5 foot tall, and I often will -- it's this --

22 this is the distance (indicating), really, from

23 about right here from the pool into the

24 sidewalk. So when you're walking on the

25 sidewalk, you're literally right there.

13 There is a concern from a liability perspective that somebody could easily just hop right over that fence and drown themselves. So not only do I have a 12-year-old daughter and, you know, it's like a privacy situation, but also, quite honestly, I don't even think I can get insurance with a 4-foot-tall fence, given how public it is right there on that walkway.

We are also -- on that Park side of the street, so if you look at -- the image that you're looking at there, where it says, Park Street, that is a business. There is also a business on the corner, and then a business right across from us on Barrs Street. So we're surrounded, three sides, by businesses.

And if you -- yes. Keep scrolling through, if you could, and you'll see where --I believe our -- so that's just standing on the sidewalk, that picture right there. That's not elevation of any measure, you're just looking -- you know, if you were walking by, going to Ram, that's what -- that's what it looks like. It's that close and that accessible to anybody to be able to jump over

and have access to that pool. And that's a

Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

MadamCourtReporter.com

14

huge concern, being right there, and it's very pedestrian heavy.

And then also, from a business perspective, they can see right into our backyard because they are up on a little bit of an elevation. So there's a business there. That's Autumn Village. That's a retirement home. We've got an orthopedics. There is an oral surgeon's office right across from the pool location.

So those are my reasoning behind wanting to have a 6-foot-tall fence versus the 4-foot. The 4-foot that is there now is absolutely dilapidated and needs to be replaced regardless, and that's why I wanted to go in the 6 foot tall direction.

Of course I want privacy, being a homeowner. Of course. But besides that, I am very concerned that anyone can just hop right in that backyard. I converse daily with people on the other side of that fence. They're like, "Oh, it's looking good," you know, because they can see everything that is going on, which is fine, but if they so chose to come in, they could.

COMMISSIONER MORGAN: Second.

19 THE CHAIRMAN: Discussion?

COMMISSIONER HOFF: Yeah. So through the 20

21 Chair, I can relate to the applicant. I also

22 live on a corner lot in a historic district

23 with young children and, you know, in -- I just

think that, you know, if you buy on a corner 24

25 lot, you know that you are sacrificing some

Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

MadamCourtReporter.com

degree of privacy, and I would just not be in

favor of approving a 6-foot fence directly 3 abutting the sidewalk for, you know, privacy

purposes. That's -- that's my viewpoint.

THE CHAIRMAN: Commissioner Hoff, the applicant also stated a concern about safety, not just visual privacy. What about that comment from the applicant?

9 COMMISSIONER HOFF: Safety, yeah. So 10 typically, 6-foot fences, if, you know, they

are -- if they are approved on the front --11 12 which I know this is not technically the front,

13 but given that it's a corner lot, you kind of

have two fronts -- they are wrought iron or 14

15 aluminum, to have that transparency and avoid

16 kind of the walled effect that a 6-foot 17

nontransparent fence directly up to the edge of the sidewalk makes. And that's why, you know, 18

19 usually, they are not approved.

> So I understand the desire for privacy. I've seen that addressed in a number of

22 different ways, i.e., landscaping, so that's --

I just don't feel like the request for privacy 23 kind of rises to the level of making an 24

25 exception in this context.

COMMISSIONER GREGORY: I agree with staff's comments here regarding the elevation of the house. You can see in some of these photos here, it appears that the foundation is, you know, higher than what is typical, so having a taller fence wouldn't necessarily hurt the elevation or visual appeal from the street.

And just not even from a privacy consideration, but just from a traffic and the amount of bystanders passing by this house, there are three businesses adjacent to this property and a little more foot traffic than maybe your typical residential house, so I think that's a consideration we need to consider as well.

COMMISSIONER MORGAN: Through the Chair, I agree that it's kind of -- for me, I'm feeling a little torn about it. And I know that, you know, the regulation for a fence around a pool is 4 feet by law, so in the eyes of the State, that's safe. But I -- here's where I'm going to vary a little bit, is that I feel that the fabric is not as residential with these commercial properties around there, and

Commissioner Hoff on the Demolition By Neglect 7 8 Task Force Final Report.

19

20

COMMISSIONER HOFF: Thank you.

10 All right. Let's get started here. So --11 let's see what you see. Okay. So you're going 12 to see the same version up there, I guess.

Okay. So what the Commission has before it is the Task Force on Demolition by Neglect Final Report. Chair Montoya created this task force back on September 10th of last year to examine the phenomenon of demolition by neglect.

I'm not going to go over the full report word for word. I am told by staff that it will be available on the City's Historic Preservation web page sooner than later, but I will touch on some of the highlights, I guess.

So the Commission -- not the Commission, 24 25 the Task Force consisted of myself as chair,

Montoya, along with a couple of invited subject

matter exerts, that was Michael Haskins, the

executive director of SPAR, and Shannon 5

Blankinship, the executive director of RAP. In 6

addition, a variety of City staff, including 7

8 the City staff up here before you now, spent a

lot of time and energy on this report. 9

10 So I'm just going to go over some of the highlights here.

11 12 Demolition by neglect can be described as

the abandonment of a building or structure by 13 the owner, resulting in such a state of 14 15 deterioration that its self-destruction is 16 inevitable, or where demolition of the building

17 or structure to remove a safety hazard is a 18 likely result.

We spent about five months researching this topic, we met ten different times in a public meeting, and we examined both the current ordinances and policies in place now, along with a number of different municipalities as well, both here in the state and outside of

the state as well. Diane M. Tropia, Inc.

MadamCourtReporter.com

something that's more even. It's already a little different, is kind of how I feel, and I 3 would be inclined to approve the COA. 4 THE CHAIRMAN: So just to clarify, 5 Commissioner Morgan, if it were residential next to residential next to residential, then 6 7 it would be kind of a barrier-making thing, 8 that is more objectionable to you; is that what 9 vou're stating? COMMISSIONER MORGAN: I think so.

therefore, it -- it's not like we're breaking

10 11 THE CHAIRMAN: Are there any other

Financial penalties, such as fines and liens on historic properties, are often inadequate to address demolition by neglect. The fines and liens are often ignored by the property owner and eventually reduced, making them ineffective. Just as an example, since 1998, there have been about \$196,440,890 in fines, and only 0.22 percent of that has been paid. That's \$431,000 and some change. So almost 200 million versus about \$430,000.

Strategic use of foreclosure by the municipality has been a -- has been a piece of what has worked in other municipalities. Other helpful tools that we found are having an objective criteria to determine when a property is threatened by demolition by neglect; robust community engagement to educate and support the value of historic preservation; regular communication between the relevant City departments is very important, and it has not

> Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300 MadamCourtReporter.com

many, many, many ways to reduce the prevalence of demolition by neglect. These were our priority recommendations.

Municipal Code Compliance will create and maintain a list of properties which have fines and liens related to maintenance deficiencies which are located within the locally designated historic districts or are a locally designated landmark. By maintaining a list of these properties, we should be able to better track and potentially identify properties that are more vulnerable.

So, for example, if a property is on this list that has had violations due to a caved-in roof for five years, right, that could be a property that is at higher risk. And currently, Municipal Code Compliance has all of this information, but it hasn't been used in

The second priority recommendation is for the Historic Preservation staff, Municipal Code Compliance, and a representative from this Commission to create a -- objective criteria for demolition by neglect in the form of a

scored matrix. So we could take that list and Diane M. Tropia, Inc.

22

happened as much to date, but hopefully it will be moving forward; and also, having some kind of a nonprofit entity to receive previously foreclosed upon properties as an alternative to demolition by neglect.

Although there are many, many parts of Jacksonville and many older neighborhoods that could potentially benefit from some type of an intervention with demolition by neglect, our target focus was the locally designated historic districts and locally designated landmarks. So that would include Riverside, Avondale, St. Johns Quarter, Springfield, and then the locally designated landmarks that we do have here.

Thankfully, we found that the City of Jacksonville has existing ordinances that if fully utilized would significantly reduce the occurrence and negative impacts of demolition by neglect.

Could we -- yeah. Could we go to the next slide there?

So that is the same house that was on the previous slide. That has been renovated. So we -- as you might imagine, there are

> Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300 MadamCourtReporter.com

then use the matrix to help determine which properties we think could rise to that level.

In addition, we felt that Municipal Code Compliance, Historic Preservation, the Building Inspection Division, and the HPC chair or their designee should meet to discuss this list of properties and what the strategy is to prevent them from going into demolition by neglect.

Importantly, one of our priority recommendations is for the City to exercise their existing authority to foreclose on properties that have outstanding liens, to strategically foreclose on properties within locally designated historic districts and locally designated landmarks which meet the criteria of being endangered by neglect. The last time, I believe, a locally designated historic property has been foreclosed on to prevent demolition would be 2014, when the Bostwick building was then transformed into the

Cowford Chophouse. Ideally, the City would partner with organizations to dispose of these historic properties that have been foreclosed upon and not disposed of at auction. There are a Diane M. Tropia, Inc.

We have medium-term recommendations which we deemed as -- should be initiated within a year or less. There are ten of those. And then we have long-term recommendations which we deemed should be initiated within two years, more or less.

And I don't want to take up a ton of time reading through all of these. A couple of highlights would be -- one of the medium-term recommendations we have is that the City will establish a process to add nuisance and demolition liens to the non ad valorem tax assessment rolls. This will close loopholes that allow negligent property owners to reduce their liens and will require timely payment and property neglect [sic].

Currently, the total lien interest accumulated is more than the original liens themselves. So this would basically call the issue on an annual basis for work that has already been done, having the property owners pay for that. Since 1998, there have been just Diane M. Tropia, Inc.

So that's a lot of information, and I only went over about 25 percent of it. So again, you should be able to find this online soon.

7 And I just want to thank the fellow 8 commissioners and the City staff that spent a 9 lot of their time researching, talking to 10 people in the community, and putting this 11 report together, so check that out.

So that is my presentation.

13 THE CHAIRMAN: Thank you, Commissioner 14 Hoff.

COMMISSIONER HOFF: You're welcome. THE CHAIRMAN: It's been an excellent job that you have done putting this together and gathering everyone together to help as well.

19 Thank you for taking the time to listen to 20 that. I know, as Commissioner Hoff said, it 21 was a lot of information, and it's only a sort 22 of smidgen of what's in the entire report, but 23 one of the take-aways -- there's a couple of 24 take-aways, but I just want to say to you --25 and I apologize, but it's because you're Diane M. over a million dollars of liens issued, and only about 6 percent of those liens have been collected.

And then, lastly, one of our four long-term recommendations is that the City will provide more personnel to both the Historic Preservation section here and Municipal Code Compliance to fulfill their roles in preventing demolition by neglect, addressing blight concerns, and supporting Historic Preservation. The demand on the Historic Preservation staff is only going up, as is the demand on the Municipal Code Compliance staff as well.

Just for example, Municipal Code Compliance has roughly the same number of enforcement agents as it did in 2013, while the population has grown here in Jacksonville about 20 percent. So the staffing levels have not kept pace.

20 So once you are able to go online and 21 access the full report, you'll see other information in there too, some helpful maps. 22 There's a lot of sourced studies that show the 23 24 economic return on investment for historic 25 preservation, and there's a very, very helpful Diane M. here -- you're here because you're involved in

some way with a historic structure in our city

that's in a historic district. And so the 3

optimist in me has to believe that you also

want to save those structures, that you don't 5

want to see them eventually demolished or torn 6

down or replaced with something else.

And so when this report goes online and there gets -- hopefully, we get some more traction with it with the City and things start to happen, we also want to count on you, like the other citizens who participated in this to help us with getting data, gathering

14 information, who weren't on the task force, but 15 they're just citizens like you who come here

for meetings to support projects and to speak

16 17 out against demolitions of structures that

could be saved.

19 So, you know, I ask you to consider 20 supporting this, because we believe that our 21 historic structures aren't just about 22 buildings. It's about -- it's a part of the

DNA of our community, the DNA of Jacksonville. 23

All right. Let's continue with the agenda. We'll move to Item D, Previously Deferred Items to Be Heard. I'll read through

8 the list, and then we'll start with the first 9 one.

10 Number 1 is COA-24-31169 at 2351 Riverside 11 Avenue. Number 2 is COA-24-31566 at 12 1427 Pinegrove Street [sic]. Number 3 is 13 COA-24-30543 at 361 -- I'm sorry, 3671 Richmond

So we'll start with Number 1, COA-24-31169 15 at 2351 Riverside Avenue. 16

I'll open the public hearing and hear a report from staff.

MR. WELLS: All right. Thank you.

20 So this is application COA-24-31169 for 21 the property located at 2351 Riverside Avenue.

22 This is a request to replace the historic metal

23 shingles with light gray composition shingles.

24 So this property is a contributing 25 residential structure within the Riverside

1 do ask that the applicant submit, basically, 2 for other roof replacement materials associated with metal. So these could be 5V crimp, 3 standing seam design, as well as just a metal shingle to metal shingle (microphone failure). 5

31

32

6 In accordance with our design guidelines 7 too, it states that deteriorated architectural 8 features shall be repaired, rather than replaced, wherever possible. And in the event 10 replacement is necessary, the new materials 11 shall match the materials being replaced in

12 composition, design, color, texture, and other 13 visual qualities.

14 And while the applicant has made an effort 15 to propose a replacement product that mimics 16 the color and the composition, we do find that the composition shingles in itself does not 17 18 meet the design and the texture of a metal 19 shingle on this particular property.

So based on that and the strict letter of our design guidelines and our Ordinance Code, we are recommending denial for this COA.

THE CHAIRMAN: Thank you, Arimus. 23

Do we have questions for staff? 24

Avondale Historic District. Metal roofs in

2 this historic district are rare and treated

3 with more sensitivity when reviewing

appropriate replacement materials due to the 4

contribution they have to the District's

architectural diversity.

Again, this structure is a two-story frame vernacular residence with Queen Anne influence.

9 Staff should note that Oueen Anne structures

10 within the district itself, in accordance with

the design guidelines, they do have key 11

12 characteristics of having a variety of

13 different materials. Roof materials include

asbestos shingles, composition shingles, as 14

15 well as sheet metal and embossed metal.

But nonetheless, this is based on the Sanborn maps for this property, the primary structure has had a metal shingled roof at the

time of the survey. Staff doesn't have any 19

20 other evidence to -- to basically state that

21 there has been any other alternative material

on the roof since its construction. 22

Again, because the Riverside Avondale

24 district treats metal roofs with rare 25

sensitivity and a greater level of scrutiny, we Diane M. Tropia, Inc.

This building -- this roof was put on, I believe, in -- when the building was constructed in 1919. It is a beautiful old roof, but we have neighbors on each side -because all of them were probably built similarly together -- that have since been able to replace their roofs with architectural shinales.

They are beautiful. I brought pictures, if you would like to see them. But they keep the integrity of the area, and they're affordable, and so we have to take that into consideration.

So what I'm asking with deepest respect is that you allow us to move forward with a gray architectural shingle roof with peel-and-stick underneath it and do the repairs we need to, and be able to do it cost effectively.

I think that's all I have, unless you have questions for me. I -- like I said, I do have pictures of the neighbors if you wish to see, but happy to answer any questions you have.

metal roofs in these historic communities, regardless of the cost, unfortunately.

3 COMMISSIONER HOFF: Through the Chair, I would echo Commissioner Gregory's comments. 4

5 You know, I'm also aware of the cost issue;

however, if it is a legitimate cost issue, 6

7 there is an economic hardship process you can

And so, you know, as a -- from a preservation eye, I know that staff spoke about the things that would be approved, but I wonder about -- like, I wonder about a roof like this being approved to have -- to be replaced with,

24 25 like, a V crimp roof. Because, to me, the

replaced with metal shingle, but there's -- you know, there's approved alternatives that I think we also have to consider.

But I agree, idealistically, that would be (microphone failure).

COMMISSIONER GREGORY: Through the Chair, I would say that the main concern here would be more the material of the composition shingle versus the metal. I'm not going to necessarily pontificate on what version of metal roof we would approve, a shingle versus V crimp or, you know, standing seam, but more of a material issue.

THE CHAIRMAN: Okay.

15 All right. Any other -- Commissioner 16 Love.

COMMISSIONER LOVE: I would concur that the metal shingle roof is a very distinct look. You know, I understand the whole cost issue. For that reason, you don't see a lot of metal shingle roofs in the neighborhoods. But when it is present, I think it is really, really prevalent, really substantial to the overall character of the neighborhood.

I just -- personally, despite the fact Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

do another site visit to inspect the condition of the siding and reason with the applicant on 3 some alternatives, or just to see if we could get additional evidence.

> 5 And so staff conducted a site visit on March 6th. We met with the contractor there 6 7 and we proposed -- we proposed two different 8 suggestions for them. First one, procuring

9 some type of WDO report to identify the

10 presence of any wood destroying organisms that might be present on the siding, and secondly, 11

to do -- to, basically, test out an 12

13 inconspicuous area of the shake shingles and --14 basically, take it off from the structure, try

15 to repair it, remove the paint, and see how

16 much effort -- or how durable the shake

shingles would be. 17 18

So after that, the applicant has provided us with a home inspection report that's 19 20 included within the book package itself in the 21 latter few pages. And if I can -- I may, I

will read a few excerpts from the home 22 inspection report. 23

This is on Page 7 of 11 of the home inspection report. It does talk about cedar wear damage. And one note from the report -and this is on Page 8 of 11 -- it does talk about how cedar siding panels have wear and damage in various locations and the shakes are ready for maintenance/replacement.

Cedar shakes, again, are prone to curling, cracking, insects, and loosening knots in the siding that fall out and leave holes, but -however, the condition of the shakes cannot be fully determined until old paint is removed.

So while we appreciate the applicant providing this home inspection report, it does fall short of indicating any necessity for wholesale siding replacement. As such, we do stand by our original report, which was to deny the recommendation for wholesale siding replacement.

1 the -- the age of the home, it's -- this is a 92-year-old product. It's more than brittle. 2

It's years and years and years of paint. We've

ideal conditions is 40 years. It's 92 years old. We're -- you know, you've eventually got to give up the ghost. 3

So with that being said, my recommendation 4 5 is for -- to do a Hardie board replacement in

the same dimensions that's on the house. It's 6

7 historically been -- I've done plenty of

8 historical homes all throughout the state of

Florida, numerous in fact, and I can

10 guarantee -- we just finished a home that was

built that's actually one year older than this 11 subject property in Jacksonville Beach. We

12 managed to duplicate it identically. And so 13

that's where we would like to -- the wholesale 14

15 siding would be the better course of action

16 here.

17 It's just -- the product is just too old to work with, even trying to refinish it. You 18 can try to burn it off. Because it's old lead 19 20 paint, you can try to burn it off, but there

21 you've got the consideration that it's old,

brittle cedar siding. And -- because the true 22 craftsmen of the -- back in the day, that's how 23

24 they would have reconditioned, to get the old

25 paint off some -- but it's true -- it's too Diane M. Tropia, Inc.

25 THE CHAIRMAN: Discussion?

46 COMMISSIONER HOFF: Through the Chair, so I also identified Page 7 and 8 of the WDO

report as having some helpful information that

says the -- deterioration noted on some siding 4

5 in various areas, replacement of all

damaged/deteriorated siding is recommended. 6

And of course, on Page 8, it mentions that the condition of the shakes can't really be determined until the paint is removed.

So it doesn't sound like, from the inspection, that wholesale replacement was recommended. And from staff's visit, they also share that recommendation.

So I would -- I would -- if the alternative -- if the applicant is asking to do wholesale replacement with Hardie board, then I would not be in support of that, based on what we have before us.

COMMISSIONER GREGORY: Through the Chair, I would echo what Commissioner Hoff stated there. This inspection report doesn't give us any new information that would tell us that wholesale replacement would be needed, more

just spot repairs. I understand what the applicant is saying Diane M. Tropia, Inc.

1 regarding difficulty finding exactly matching materials. I think that can probably be handled through milling. It may be just not a 3 product readily available on shelves. 4

5 But from -- this is not new information from last time that would change my opinion to 6 7 recommend a wholesale replacement. I think 8 it's still just in need of spot repairs of the 9 cedar shingles.

THE CHAIRMAN: Any other discussion? COMMISSIONER LOVE: Based on the information that I see, I mean, I am pretty much in agreement with the two commissioners who have already spoken on it. I concur.

THE CHAIRMAN: So I'll try not to pontificate, but I want to ask a question about this, because in our Tuesday call when we go over the agenda, we had a discussion about this. And when I look at -- when I look at a building like this, where clearly it's in need of, at the very least, repair and repainting -but as the applicant alluded to, the age of the shingles tells me, based on the way they have been treated over the years, there are going to be -- more and more shingles are going to be

Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

MadamCourtReporter.com

48

47

needed -- that are going to need to be 1 2 replaced. 3

And so as a homeowner, when I look at those images and I think about selective repair and repainting, and more selective repair and repainting, and more selective repair and repainting, I wonder about the expense of that as a homeowner, because of the water intrusion that might occur or the other things that are going to occur. Because we know what kind of sheathing is underneath these old buildings. It's not ZIP, right?

And so I just -- I want to throw that out there as something to again consider because, ultimately, it's about saving the buildings, not -- I don't think it's about hanging on to a deteriorating shingle until the very last minute. This is my opinion. And so I just wonder about that because of the expense of such a thing, selectively, selectively, selectively that eventually replaces them all, as opposed to replacing them all.

22 And we had discussions about the tipping point for that, the way that we look at windows, right, wholesale replacement of Diane M. Tropia, Inc.

windows, there has to -- there's a tipping
point of percentage before we agree to that -or before staff recommends that, and then we
vote on it.

And so I just wonder if there's any consideration of the Commission in this regard. And I'm really -- I am a -- I am pro preservation. Do not misinterpret what I'm saying. But I'm looking at the inevitability of a situation like this, and I wonder about the letter of the law and the design guidelines and what that entails.

That was still pontificating, right? That was too long. I'm sorry.

COMMISSIONER MORGAN: To the Chair, I tend to agree in the longevity of what this looks like; however, if we're looking at minimal parts right now being impacted, it's hard to look at it as an entire system.

We reviewed a COA recently regarding siding as well, and that's where we kind of arrived -- you know, we've got to take it all apart and put it back together. But at that point even, we were discussing different sides of the building and which actually needed to be Diane M. Tropia, Inc.

And I agree with a lot of what you're saying, but I don't know that we have the situation here to really consider that.

THE CHAIRMAN: I understand. But part of me bringing this up is -- I'm not hearing anything I don't expect to hear, but I think this bears further discussion about the guidelines and the way we look at things holistically.

The one statement in the report that says (microphone failure) -- it says deteriorated things can't be replaced. Right? And so there's an idea in my mind about when pressure washing ensues and paint is removed, there's going to be a lot more shingles that are deteriorated, that are broken than there are necessarily right now because they are being held by paint.

And so I guess that's a question for staff, too. Under the repair of the things, as they're prepping it for paint and they're trying to repair and replace, there's more getting broken. More and more are going to get replaced, right, if they are broken?

Diane M. Tropia, Inc.

MR. WELLS: More and more will have to be replaced if they're broken during the work to repair the shingles. So that will just have to be something that's dealt with when the work ensues.

The CHAIRMAN: That's the limit of what I had to say, if no one else has anything to -
COMMISSIONER HOFF: Through the Chair, so some additional pontification. You know, all wood siding is going to fail at some point. So the only question is, at what time do you -- at what time do you replace it?

THE CHAIRMAN: Exactly. Yeah. That's my

THE CHAIRMAN: Exactly. Yeah. That's my question.

15 COMMISSIONER HOFF: In my opinion, I would 16 be more open to additional replacement other 17 than kind of spot replacement if there was a 18 different replacement material planned. So --19 but I'll just -- I --

THE CHAIRMAN: I understand. That, though, to me, is similar to the previous discussion about -- with metal roofing. There are approved materials, and this is one, in this case, that they are proposing to use.

your other alternative would be to apply for a new COA that basically states that you would like to repair the siding or you could ask for a partial replacement, so scattered replacement where there is indication of damage.

MR. CRANE: With all due respect, I mean, working with such an old product like that is -- we start doing demo on that, it's going to -- it's going to just keep on expanding. It's horribly, horribly hard to work with.

THE CHAIRMAN: I hear you, Mr. Crane. I hear your words. There's been a ruling and a vote on the COA, though, and so I think this has to be something taken up with staff as a new application because this has been voted on.

recommending a WDO report to you last time, and

not to -- this home inspection report is good

6 and it's valuable information in here, but a

WDO report would typically -- they put little 7

8 dots where each little item of rot is or

termite activity. And, generally, they have

photos and a sketch of the property indicating 10

11 where these items are, and that would be --12 maybe provide a little more detail to where

these items are instead of just general 13

14 statements from the report that we have here.

MR. CRANE: Okay. So more damning evidence.

17 COMMISSIONER GREGORY: We have to go on evidence, you know, of damage. We believe you 18 that there is some damage there, but from the 19 evidence that we're given here in this report, 20

21 it doesn't recommend wholesale replacement. 22 Staff -- the staff has not recommended

wholesale replacement and we don't have 23

additional evidence to say that wholesale 24

the -- like, percentages of things that you've 18

seen needing to be replaced versus what's able

20 to be saved. Do you understand?

Like, if there's a thousand shingles and nine hundred of them need to be replaced, right? That -- you need a more compelling

argument for us. That was part of our 24

MR. CRANE: And then -- but to your credit 1 to where you said there becomes a tipping level 3 of just how much you keep on doing and doing and doing, and --4

The property owner labeled three pictures with incorrect addresses. The correct addresses are 3663 Richmond Street, 3577 Richmond Street, and 1837 Avondale Circle.

The property owner provided a picture of an existing single-car driveway at 3663 Richmond Street, which is the adjacent single-family property to the east.

The property owner provided a picture of a multifamily structure at 3623 and 3625 Hedrick Street, which has two single-car driveways.

One property, 3733 Pine Street, has a U-shaped concrete driveway installed before 1998, when the Riverside Avondale Historic District was locally designated. Under COA-24-30928, JHPC approved with conditions for replacing the existing driveway with a downsized U-shaped driveway made of brick pavers.

average distance between the subject property and these seven properties is 1,132 feet.

MR. WELLS: So just to add to that, too, for the commissioners, just so you know, the applicant has provided those pictures of those surrounding properties within the district. That's included in the book itself, as well as staff's driveway analysis. That's included in the latter pages of this particular item, so --

With that said -- I mean, given the additional properties, staff did our research, we provided that information, again, in the book. However, we do stand by our original recommendation which is to preserve the existing footprint of the driveway.

THE CHAIRMAN: Thank you.

Are there any questions for staff at this time?

COMMISSIONER GREGORY: Yes. Through the Chair, so you guys -- excuse me -- staff would like to keep the existing driveway layout as it is and the homeowner is still requesting the proposed plan that has essentially an attachment to the driveway, we'll call it, to the left that goes straight to the front door?

MS. FIGUEROA: Through the Chair, so with this application, the property owner originally submitted the site plan that you see on your screen here. It didn't meet our requirements for being legible and labeling all materials and dimensions, so then they resubmitted

14 another site plan.15 If you can keep scrolling, Arimus, down.

Okay. Well, they didn't provide that one, but there was another one. Again, it didn't meet our requirements, and so the site plan that is in the original staff report and book is the one that you would be reviewing.

I would ask your consideration for approving the plan as written. And if -failure to approve it as written, we can leave the situation currently as it is, which is clearly a drag on the neighborhood, or if you really want to consider the lengthwise plan, sure, I can do that too.

So we have a report from staff to approve with conditions. There are four conditions listed. And then we've heard from the 23 applicant, so I'll entertain a motion. 24

Is there anyone else here to speak to this COA?

5 THE CHAIRMAN: No? We'll close the public hearing and entertain a motion. 6

COMMISSIONER GREGORY: In the interest of starting discussion on it, I'll get us going, motion to approve with staff conditions,

10 COA-24-30543, at 3671 Richmond Street. COMMISSIONER MORGAN: Second. 11

12 THE CHAIRMAN: Discussion?

COMMISSIONER HOFF: Through the Chair, so 13 my main -- both Commissioner Gregory and the 14

15 applicant brought up a second design, I guess,

16 that was submitted that would hypothetically

17 provide a parking area that's more parallel to the road and keep a -- keep the parking further

18 away from the front of the house. So because

19 20 it's been brought up, that would seem more

21 preferable to me at this time because it is

keeping the vehicles further away from the 22

front of the contributing structure. 23

Those are my thoughts. 24

> COMMISSIONER GREGORY: Through the Chair, Diane M. Tropia, Inc.

> > Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

MadamCourtReporter.com

1 to add to what Commissioner Hoff said there,

the design as shown on Page 526, where there's more of the lengthwise pad there, seems to me 3

67

68

more in character with the photos that the

homeowner provided -- room for parking that 5 6 other -- has been added to other neighboring

7 properties.

8 I don't see anything as similar to what the homeowner is proposing on 525 --(indecipherable) the design on 526, but I see 10

11 multiple areas where there is a parallel

12 parking pad built in front of the house that is 13 not -- end up with the cars' orientation -- it

14 looks like they're driving into the front door.

I think that's more in character with the 15 16 neighborhood. If that's amenable to the homeowner, I would consider that as an 17 18 amendment to the motion. That would, I believe, solve some of the safety issues 19 related to parking and traffic congestion as 20 21 well, while keeping with the historic character 22 of the home and the neighborhood.

THE CHAIRMAN: So just to clarify, Commissioner Gregory, are you stating that you

are amenable to the site plan on the screen? Diane M. Tropia, Inc.

Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

MadamCourtReporter.com

COMMISSIONER GREGORY: Yes. 1

> 2 Page 526 is a site plan that seems more 3 similar to other designs that have been

approved in the neighborhood previously. 4

5 THE CHAIRMAN: So effectively allowing parallel parking on the -- on the (microphone 6 7 failure) --

8 COMMISSIONER GREGORY: Yes, the city --9 THE CHAIRMAN: -- the city right-of-way?

10 Sorry, city right-of-way.

And is that also what you're stating, 11

12 Commissioner Hoff?

COMMISSIONER HOFF: Out of the two options 13 that have been presented, this is the one that 14

15 keeps the -- that does not widen the existing

16 driveway necessarily, and it keeps the vehicle 17

further back from the front side of the house, so that's what seems more in line in my 18

perspective. 19

20 THE CHAIRMAN: Okay. So just to be clear, 21 there are four conditions that we are -- the

motion that was made that we're discussing 22 23

right now -- that we're discussing right now --24 I apologize, everyone. I'm a little under the

weather -- that the new driveway and apron Diane M. Tropia, Inc.

shall be in the same dimensions of the existing driveway and apron; pavers will have a rectangular shape -- with some detail there --3 4 the location of the wall shall be substantially consistent with the submitted site plan dated 5 6 December 2nd, 2024, which is not that plan; and 7 then the wall installation will be consistent

with the fencing and wall guidelines. So the motion on the table right now is to approve the conditions. And so the things that you're suggesting are amending the conditions, and I just want -- I want all the commissioners to be clear about that. And then if this is what we're going to discuss, we're going to discuss it, but that's not what we're voting on right now. We're discussing right now --

9 I just think it -- I mean, it reduces the 10 available street parking. There may be some things that maybe outside of our purview that 11 12

13 MR. DAVIS: Well, right now it's too 14 narrow to park on the street at all, so there

15 is no on-street --

> MR. DAVIS: There is no on-street parking now because it's too narrow for two cars to pass if there's someone on the street, so that -- this particular portion of Richmond Street, as I said, it's only 15 feet wide

23 THE CHAIRMAN: Question for staff. 24

it. They can't -- I can't see any dimensions, I don't think they can either, so it's not really a viable site plan.

And I don't know if the owners are even amenable to you considering it or not. They've already rejected it, so --

But in the course of deliberations, if you're leaning towards denying what they've requested -- which is essentially the motion on the table because the conditions say you can only have a driveway in the current width of the current driveway.

So if you're leaning towards denying what they're asking for, maybe you can talk with the owner about potentially doing something different, but keep in mind the site plan is not legible and has not been analyzed by staff.

COMMISSIONER GREGORY: Through the Chair, thank you for that analysis.

Diane M. Tropia, Inc.

20 I guess -- suppose an option would be 21 possibly another deferral, if we wanted to go 22 that route.

If the homeowner was amenable to this site 23 24 plan that's on the screen currently -- could I 25 have the homeowner to please come up and

5 COMMISSIONER GREGORY: Just to the homeowner, I mean, the site plan that you're 6

being viable to be used right now, but --

we'll -- can discuss it from here, because I

7 proposing that you would prefer does not appear

8 to meet the criteria. And we're looking at

this other site plan that's on the screen right 10 now from Page 526. Is that something that is

11 viable for you and something you want to

pursue?

13 MR. DAVIS: That site plan would be 14 absolutely fine, just -- we'd like to get some approval for something. Again, what I've 15 already submitted was the less -- oh, it seems

16 like the less invasive site plan because it 17

18 would involve less brick. Here, we're talking 19

about making the entire apron of the driveway 20 now. Instead of 10 feet wide, you're

21 stretching it to about -- we have the plans

22 here, but that's 10 feet wide, about 30 feet

23 long. So it was just more square footage, but

I'm happy to do it that way if that's the 24

25 preference of the committee. And I have a --

MS. LOPERA: Oh, no, to the Chair, it's a perfectly legitimate question.

MR. WELLS: To the Chair, I'm going to be honest with you. It's hard for me to read it. It's not very legible, nor is it to scale, so I can't offer you a preliminary opinion on it --

THE CHAIRMAN: So then a follow-up question. Is there an example -- and I'm familiar with the project that Commissioner Morgan is referring to. A bit different kind of contextual situation in the neighborhood, but the location of this house in regards to the -- to the adjacent properties and -- I'm just looking at the -- like, to the river, basically, and what's across the street from it.

Are there other examples of similar things Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300 MadamCourtReporter.com

things here, it doesn't set a precedent, per 1

se. Not to -- no pun intended, but we're going down a road that we need to think about as we

75

76

discuss this because this -- as Commissioner

5 Morgan had stated, in another historic district

6 this kind of activity of parking in the crow

was very much opposed to by the community and 7 8 not -- ultimately, I think they were asked to

9 remove it, so --

COMMISSIONER MORGAN: I --

11 THE CHAIRMAN: -- that's -- I may not be 12 remembering that correctly, so I -- I'm just

trying to -- I'm not trying to direct the 13

14 conversation in a certain point of view. I

15 just want you to be aware of -- I think there's 16 some gravity here to this that -- what you're 17

talking about. 18

COMMISSIONER MORGAN: To the Chair, I just want to -- and to the homeowner, I think there's limited things that you can do in the city right-of-way, and they can be gone tomorrow is my understanding, so there's just some other things that you may want to consider

23 24 before delving into this strategy.

like this along this street where there's off-grade parking that has been approved by the -- or is that -- you can't answer that?

I'm trying to situate myself in the context of this discourse.

MR. WELLS: Through the Chair, before I comment, can you just clarify? You said off-grade parking along that block or --

THE CHAIRMAN: Well, effectively, that -what that drawing is showing, as the applicant is stating, that the -- the road -- the current road is too narrow for there to be parallel parking. Have there been other situations like this where this kind of parking on the crow that is effectively creating parallel

15 16 parking and executed with -- with approval of 17 HPC, to our knowledge?

MR. WELLS: To the Chair, I'll say in the last three years, no, you have not -- the Commission has not granted any approvals for parking in the right-of-way.

22 THE CHAIRMAN: And then -- thank you. To the Commission -- to fellow 23 24 commissioners, I'm asking these questions

because although the rule -- when we vote on Diane M. Tropia, Inc.

speak to that? 1 2

THE CHAIRMAN: Yes.

MS. LOPERA: So, yeah, if you all approve 3 the design of this here today, the owner would 4

5 still need to get a right-of-way permit, and

that would go through that permitting process. 6

7 And if they fail to get that right-of-way

permit, they wouldn't -- they'd be back here 8 with some kind of minor modification to the

10 design or maybe something completely new, I

11 don't know.

12 THE CHAIRMAN: And you have to understand 13 that -- say you do go through that process, you

do get approval for that, it can be removed, or 14 15 if works need to be done or things needs to

16 be -- things need to happen, that it needs to

be removed, you know, there's a -- I think 17

there's a certain amount of risk involved in 18 19 that, yeah.

20 MR. DAVIS: With respect to the committee 21 and the chairman, yes, this is in the city

right-of-way. That can -- you know, things can 22 always change. I'm just asking about some --23

24 this is a very basic landscaping plan. We're

not going to be here for a thousand years, but what I would say is we're trying to make the driveway apron look better and be more 3 4 functional. And if five years from now the City of Jacksonville decides they're going to 5 6 widen Richmond Street to 60 feet wide, 7 everything gets blown up, I don't think that's 8 going to happen.

THE CHAIRMAN: And with all due respect, I understand your position. I understand the nature of this project that you're applying for, but we have a set of design guidelines that are aimed at preserving the fabric of our neighborhoods. And these places weren't built with the -- when we had [sic] the vehicles that we have now. So I'm -- we're trying to find a way to facilitate --

have all agreed to this, they all like it, and everyone thinks it'll look better than what we've got. That's all.

COMMISSIONER MORGAN: Through the Chair, with all due respect, they're not going to be the same neighbors forever.

7 It's not a personal decision; it's a 8 community. It's not relative to specific 9 people.

10 MR. DAVIS: So --

COMMISSIONER MORGAN: The people that lived in that community a hundred years ago aren't still living there. It's --

MR. DAVIS: Right, so it should serve 14 15 those that live there now.

THE CHAIRMAN: So more -- if there aren't any more questions for the applicant right now, we need to continue the discussion, and then we can call the applicant back up if -- if there's another question.

20 21 COMMISSIONER GREGORY: Through the Chair, 22 I guess I'd like to hear from the applicant on 23

24 You know, would you like us to make a 25 decision on the approval with the conditions Diane M. Tropia, Inc.

MR. DAVIS: I --

5 COMMISSIONER GREGORY: I mean, that's 6 really -- we'd like to work with you here to 7 try to get something to work out. We don't 8 want to approve something that you have no 9 intention of doing, you know?

MR. DAVIS: Well, I would like it to be approved with the amended condition, that we can have some space for parking, whether it be horizontal or vertical to the existing street that's just enough space for one car. That's all I need.

And, again, I've submitted those plans. I've got the original blueprints here from the landscape architects. I'll -- I would like to do this with as few steps as possible. And if I have to defer and submit more plans, we'll defer and submit more plans.

COMMISSIONER GREGORY: Yeah. The difficult part is that we haven't seen the plans and -- for -- the one's vou're holding are, I'm sure, good, but staff hasn't had a

chance to review them, so we would have a hard time voting on that today, I guess, is the best way to put that, unfortunately. 3

THE CHAIRMAN: Yeah, I think that -- I think that the -- the motion on the table to approve the conditions recommended by staff are not where you're interested in going. I think Commissioner Gregory made a -- he stated that verv well, so I --

10 In my mind, I think we need to -- if this is the plan that you're amenable to pursuing, 11 12 then I think we should -- you should defer and review it with staff in a -- as part of the 13 process. Not deciding that here. I don't 14 15 think we can decide that here. I think we --16 there needs to be more discussion.

(Whereupon, a brief recess was taken.)

THE CHAIRMAN: Thanks, everybody.

We're going to go ahead and get started.

9 Next on the agenda are the COAs. We have two COAs today. The first one is COA-25-31914 at 10

11 3520 Richmond Street. The second one is

COA-25-31976 at 2238 Ernest Street.

Some of you were having trouble hearing in the first part of our session. Is this better? Is this better?

Thank you for telling us. I really appreciate that.

So let's get started with CO- -- the first one, COA-25-31914 at 3520 Richmond Street. We'll open the public hearing and hear a report from staff.

MR. ARSENAULT: Thank you.

To the Commission, COA-25-31914, for the property located at 3520 Richmond Street, seeks to construct a two-story residence with a rear

Diane M. Tropia, Inc.

Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300 MadamCourtReporter.com

1 inferior in scale to the primary roof form and 2 are, therefore, also consistent.

The proposed elevations show that the left 3 garage will have dormers on either side of the

83

84

garage's roof. Staff believes that the presence and scale of these dormers is

inconsistent with the roof form of the 7

R structure and roof forms throughout the

district. As such, staff has conditioned it so 10 that the garages will have gable roof forms.

11 The proposed design, as conditioned, is 12 consistent with Section 107.306(m)(8) as it does not detract from any historic 13 14 architectural elements located on the property or found throughout the Riverside Avondale 15

The design guidelines for the Riverside Avondale Historic District recommend that new construction avoid imitating a historical style or period of architecture with a few exceptions. The proposed residence displays elements of multiple architectural styles but does not imitate a particular historical style or period of architecture. 24

> Although staff is supportive of the Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300 MadamCourtReporter.com

82

patio and pool, repair and paint the existing perimeter wall, and install a new driveway and parking area.

The subject property currently is devoid of any existing structures. Nearby structures are primarily two-story, unpainted, masonry brick structures with Colonial Revival architectural elements.

As designed, the main section of the structure consists of a cross-gable roof, and the attached garages consist of gable roofs with extend eaves.

The left garage is designed with two dormers, which give the garage the appearance of a cross-gable roof.

The primary materials of this structure include shingles for most of the roof, a primarily brick exterior, horizontal lap siding, and metal windows.

20 The design is consistent with Section 21 307.106(m)(4). The cross-gable perimeter roof form is compatible with the roof forms within 22 the district. The hipped roof on the patio and 23 the flat roof extension on the rear of the 24 second floor are non-street-visible and 25

Diane M. Tropia, Inc.

Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300 MadamCourtReporter.com

applicant's scope of work, we do have concerns

as stated about the gables on the left garage, and, as such, we have conditioned Number 9,

that the garage shall not have a cross-gable

design. This would allow the applicant to 5

either diminish the scale of the dormers to 6

7 make them more inferior to the primary form and

8 give more the appearance of dormers and not a cross-gable roof. 9

Staff finds the proposed COA consistent and compatible with the design guidelines and the Ordinance Code criteria. As such, we

13 forward to you a recommendation for approval with the conditions noted in the report. 14

THE CHAIRMAN: Thank you.

16 Do we have any questions for staff?

17 COMMISSIONER GREGORY: Yes. Through the

18 Chair, I just want to get clarification on the brick wall. I'm just trying to understand what 19

20 the application is requesting versus what the

21 conditions are. Are you -- one of your

22 conditions is okay with painting the brick 23

24 MR. ARSENAULT: So it has been 25 conditioned, specifically Condition Number 19, Diane M. Tropia, Inc.

to allow painting only of the CMU block wall. This is in a non-street-visible location to the rear side of the property, which has been 3 4 graffitied. That has been allowed to -- is recommended to be painted; however, the 5 6 existing brick, our recommendation is to 7 repair, not paint.

And the architect of design is Julia Starr Sanford. She did a similar home at 36 Richmond 2 Avenue [sic] several years ago, and this is a -- kind of a similar concept. She did win a 4 preservation award for that in 2019, so we're very excited to have the opportunity to do another new home on this street.

87

88

But it's basically a vernacular design with some classical influences. It does have a few contemporary stamps on it, just so you'll know that it's new. We're trying to, you know, maintain the setbacks.

There was a 1949 kind of Mid Century home on that site. It was not contributing to the district, so it was removed without a COA. That was prior to these owners buying it. So when they purchased it, all that was remaining were the -- the CMU walls on the side and the brick wall on the front with gates. I think that was more for security, but, again, we didn't knock down the original home, so we're not really sure what was involved with that, but we are trying to keep the setback with the rest of the homes on the street and where the previous home was.

17 Good afternoon.

I'm a planner and -- a former historic 18 preservation planner from the City of Orlando, 19

20 so thank you for what you do.

We are the architecture firm designing this new home for the Harden family. They could not be here today. They had -- actually had another board meeting, so I'm representing

25 them.

We're trying to keep the driveway layout.

You know, it's kind of a circular drive coming

3 off the street. It does share an access

easement with the neighbors, so we didn't want 4

to disrupt that. So you'll see that we're 5

maintaining that. 6

We were fine with most of the conditions 7 in there. They did want a -- kind of a larger 8 dormer on that garage. I think that was the --10 maybe the issue that staff brought up. They like that it gives that room more space and

11 12 makes it more usable without having to increase

the size of the footprint of the garage. So 13 that was something we hoped we could get a 14

15 little discussion and input from the board on, 16

on an appropriate size for that dormer.

17 And then our only other, really, issue was with the wall. We've gone back and forth of 18 it. I'm not sure that wall -- if the house 19 20 wasn't contributing -- I think the owners felt

21 like the wall wasn't contributing, so I think

they were surprised that they were being 22

required to maintain the brick aspect of that 23 wall. 24 25

standards, it's -- you can see from the pictures, it's -- it's deteriorated in some places and it has an aluminum topper on it, so 3 4 we really -- kind of open on the wall, kind of would like some input from the board. I don't 5 6 know that we are really tied to a design. I 7 think they would mostly just like to paint the 8 wall or do something to kind of bring it up to 9 modern standards.

I think their thought in preserving it was less for historic value and more for sustainability. If they could do an adaptive reuse of the wall and have it compatible with the new design, that would be our preference.

THE CHAIRMAN: Thank you.

Do we have any questions for the 19 20 applicant?

COMMISSIONER GREGORY: Yes. You said maybe there's some opposition to a couple of the conditions. What were the numbers of the conditions that they wanted to see changed or 25 removed?

MS. GALLAGHER: The dormer.

I don't think it was as much in opposition 2 3 as, you know, maybe some clarification on it. Like, the dormer that we show right now, I 4

think it's -- it's kind of a full four dormer. 5

It's about 6 feet high and 13 feet wide. So 6

when you say "scale it down," how much? And is

there a percentage or -- you know, if the board

can give us input -- I think --

You aren't going to really see this from the street. When I looked at other dormers on that street, it's hard to even see them they're so far back, but there are other houses with longer dormers. Again, the house we did, I think the dormer was about 20 feet long. So maybe just some clarification on what scaling down the dormer means, if you can apply a number to that.

And then just some direction on the wall. If you think that -- like I said, it wasn't contributing to the house. If the house wasn't contributing, why is the wall contributing?

And, like I said, we're open. We can investigate it a little more, get a conservator

to -- to look at the brick, but I think the

Diane M. Tropia, Inc.

Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

MadamCourtReporter.com

1 owner's preference would be to do some painting on it, just to kind of bring it up to a modern, fresher look and have it coordinate more with 4 the house.

So I don't know that we're opposed to the conditions. We just would just like a little more input on them, clarification.

THE CHAIRMAN: Thank you.

COMMISSIONER HOFF: Second.

THE CHAIRMAN: Discussion?

3 COMMISSIONER GREGORY: Through the Chair,

I didn't -- I can't see where the dormer

question is on the conditions here, so I'm not

really sure -- I don't know if staff has any 6 7

input on that.

8 MR. WELLS: This is a -- through the Chair 9 to Commissioner Gregory, the applicant is

10 referring to Condition Number 6, and it's

actually -- I take that back. Not Condition 6. 11

12 This is Condition 9. My apologies.

COMMISSIONER GREGORY: And for Condition 13

Number 9, if you can scroll to Page 542. Is 14

15 that what you're referring to in the top right

16 corner there?

17 MR. ARSENAULT: To Commissioner Gregory, 18 that is correct.

COMMISSIONER GREGORY: Okay.

19 20 THE CHAIRMAN: And then a question for 21 staff. In your discussion with the applicant,

was there a recommendation for a different kind 22

of dormer there? Because it's saying that it's 23

not a cross-gable design. But are you saying 24

25 no dormer or just make it differently?

1 MR. ARSENAULT: Staff's analysis was 2 initially that the dormer, compared to the massing and design of typical dormers 3 4 throughout the district, is essentially larger than what you would see. The specifics on how 5 6 much we would like to see it diminished or 7 removed entirely, we would leave up to the 8 Commission. However, we just believed it was 9 too, essentially, wide and tall compared to the 10 garage structure.

But the applicant and owner would like to use that room as a space. And so having the larger dormer provides access to more room on the interior, and that was the main objection.

THE CHAIRMAN: Would staff be opposed to creating another gable end over the garage door with windows in it?

MR. WELLS: To the Chair, can you clarify where this additional gable would go?

THE CHAIRMAN: Like that (indicating.) MR. ARSENAULT: To the Chair, we believe that if the window matched the general massing and scale of the windows throughout the rest of the structure, that could be a potential option.

> Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300 MadamCourtReporter.com

1 essentially, we're trying to scale it down to 2 match similar windows that are approved on the 3 same elevation or --

95

96

4 MS. GALLAGHER: It's hard to talk about 5 design without seeing a picture, but, yeah, I 6 did -- I did ask the architects this morning to bring the height down, like, a foot. And I do 7 8 have a rendering I could pass out. I didn't 9 know if that would maybe help give you a 10 visual.

And, like I said, we're -- we're fine with scaling it down. We just wanted more of a quantitative -- not a -- I'm assuming it's not a major redesign, it's just scaling down for appropriateness, so a foot, 10 percent? Is it something we need to -- we can just coordinate with staff on in terms of the scale or -- can I pass out the picture I have?

THE CHAIRMAN: Sure.

COMMISSIONER MORGAN: Through the Chair, just as a general comment, I think that the -the dormer, to me, I think, traditionally, in a historic home, would not be to the floor. And I think, like, the height of it is kind of throwing me off.

> Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300 MadamCourtReporter.com

94

THE CHAIRMAN: So just to clarify, there are -- you're not saying no windows into the attic space over the garage, just that the portions of it need to (microphone failure)? MR. ARSENAULT: Correct.

THE CHAIRMAN: I'm so sorry, everyone. They're saying that -- they're not saying no to the dormer or space over the garage, obviously, but the proportions of the dormer being different rather than (microphone failure).

COMMISSIONER GREGORY: It looks to be that -- it's the large bank of windows there is the issue. It needs to be a more similar design to what's on that same facade there on the main part of the house, it looks like. I think that's kind of what -- the door design guidelines, what they're referring to there.

MR. ARSENAULT: That's correct. 19 20 COMMISSIONER GREGORY: In fact, I'll 21 clarify for you. I mean, as currently conditioned -- is for the cross-gable design 22 and those windows to be -- follow the door 23 design guidelines, and that would -- I don't 24 25 see a reason to change that condition if -- if,

> Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300 MadamCourtReporter.com

To the applicant, is that dormer window 1 open to the floor of the second story space or

3 is it just providing sunlight in? 4

MS. GALLAGHER: It's pretty close to the floor level there. It's proposed right now to be a workout gym, and they just were trying to

get more light in and have it feel more open. COMMISSIONER MORGAN: Do you understand

9 what I'm saying, though? How, generally, it's 10 like a chair and -- I think that might just be what's throwing it off. It's the -- number 11

12 one, it's almost as big as the garage door.

It's kind of centered on the roof but not 13

relative to any of the other apertures. And I 14

15 think, again, just traditionally, the bottom of 16 that window would be higher along the roof line

17 because it would be more at a seated height than at the floor. 18

19 And, again, I'm not saying you have to do 20 that. I'm just trying to see what they might 21 be picking at that looks a little different.

MS. GALLAGHER: And, like I said, we're open to suggestions and redesign, and it's not a major element.

The plan that I gave you, we revised it to Diane M. Tropia, Inc.

Commissioner Morgan, the wall was constructed around the same time as the previous home. It was noncontributing; however, according to the 3 4 design guidelines, we typically don't recommend painting unpainted masonry. And, in this case, 5 6 that's what we have.

The reason that we permitted the -- or recommended approval of painting the CMU block is because it's not necessarily really considered a historic material. It's non-street-visible and it's been graffitied over, whereas the brick is within repair and has not been previously painted.

this goes down, so I'll spare everyone. 11

But I did bring these shingles

(indicating), so -- I have a little PTSD. I do 13

lawn maintenance also in Riverside, Avondale, 14

15 and Murray Hill. After any storm, this is what

16 I see as a lawn man (indicating). This is what

17 I see on my house.

Asphalt shingles are terrible for wind.

They actually -- it all is about this glue 19

20 right here (indicating), because the shingles

21 are set up so that it -- just a little bit of

22 wind gets up and deteriorates them and destroys

23 the whole thing.

24 So the initial design of asphalt shingles 25 and composite shingle is absolutely -- it fails

The glue -- as you see, they use glue. It glues onto the little pebbles. The pebbles is in the tar, the asphalt, so having -- imagine gluing something onto sand or rocks. It is a very, very terrible process.

And, excuse me, I've been doing lawn man for the last five to ten years, so I'm -- I see only the pragmatic problems and I don't understand the -- the big picture y'all do.

So I'm going to save all this, but if y'all look at that first picture y'all showed -- I have a quote saying, "This information leads the staff to believe that the historic roofing material in this structure has always been composition shingle and it is a character-defining feature."

Can anyone see the roof material in that first picture? Because I couldn't. So as our roof was getting issues with every storm, I couldn't just go and look at my roof. Ours and two other houses, the roofs actually start higher than a lot of the roofs around. So, for instance, if I'm in my house, I can see the Diane M. Tropia, Inc.

roofs of the houses next to me. If I'm in their house, I cannot see my roof because it starts so high. Do you all know what I'm saying?

So what I'm trying to say is, I do agree that it was a composition shingle. The Sanborn map might be imperfect. I don't see any pictures from y'all, so I'm just going to trust y'all that it's always been composition shingle, but I will say, I think y'all made up the fact that it is a character-defining feature. And y'all even say, the staff believes this to be the case, so that is where I want to really put my weight on -- onto this, because I really think --

So when we're having issues, for me to look at my roof, to not go up on it, I would have to go two houses to my right or left and look at it with binoculars. And there wasn't even trees in the way.

So, again, I do believe it was a composition roof. I believe technology has given us something better. I think the people who lived in our neighborhoods at the time would -- wanted us to stay with the spirit of Diane M. Tropia, Inc.

COMMISSIONER LOVE: I think -- I understand the concerns from a practical standpoint, from a standpoint of pragmatism,

what the gentleman here has said. That being

said, I think it's -- it's hard to overlook the 5 facts of the metal roofs in the neighborhood 6

7 being kind of a rarity and an important

8 consideration to the overall fabric of the 9 neighborhood.

I also understand and appreciate the lack of visibility of the roof. It does look like that it may be visible from -- on certain angles on the street, just from a Google Street

COMMISSIONER LOVE: So in order to maintain the established fabric of the neighborhood, I would support denial, unfortunately.

COMMISSIONER GREGORY: Through the Chair, I don't see any information in this application that would lead me to go beyond the historic guidelines that are already in place and that staff has recommended.

THE CHAIRMAN: Any other discussion? COMMISSION MEMBERS: (No response.) THE CHAIRMAN: Is there any comment about

the -- the applicant's representative makes a good point about the insurance situation right now and those kinds -- those kinds of issues in regard -- the insurance issues that were mentioned by the applicant, does anyone have any comments about that? I just want to bring that up again.

21 COMMISSIONER GREGORY: I can speak to -- a 22 little bit, the insurance thing, that insurance is a -- is a problem in the state of Florida, 23 but when you have a new roof put on, have 24 25 25-year architectural shingles, for example, if Diane M. Tropia, Inc.

114

the insurance company comes -- if they demand a

new roof, you can get a report from a licensed

3 roofer or home inspector to say that the roof

has five years or more of remaining life and 4

5 you cannot be denied insurance because of -- at

that point. So if you put on a new roof, an 6

7 architectural shingle roof -- and,

8 realistically, you may have 20 years of

liability [sic] of that, if not more, depending 9

10 on how it weathers -- every roof weathers a 11

little differently.

12

13

14

15

16

So, I mean, a metal roof would last longer, I agree, but you would actually run into the same issue with insurance because after 15 years they're going to want to see that it has remaining life and you'll have to

17 get it inspected again. THE CHAIRMAN: And then question for 18 staff. You know, the three-tab shingle that's 19

20 shown in the photographs that -- the

21 existing -- the existing three-tab shingle

that's shown in the photographs, one of the --22

the acceptable replacement shingles are 23

similar, three-tab shingles, but it -- I think 24

it also said the architectural shingle, right? 25

Which has a bit more depth to it and it's 1 2 thicker. It's a thicker, heavier shingle.

MR. BLANTON: I can't hear you.

4 THE CHAIRMAN: You can't hear me? Sorry.

115

116

Well -- and so a question. When that kind

6 of -- moving from -- a bit away from the

7 existing three-tab shingle to the architectural

8 shingle, would other -- would metal shingles -there's some new products out now that don't

look like silver metal roofs, that look like 10

11 shingles, but are -- has there been any

12 consideration by staff about those kinds of 13

shingles.

14 MR. WELLS: Well -- through the Chair to 15 Commissioner -- well, to the Chair, yes, we did throw that out as an option to the applicant, 16 to try to mimic the composition shingles with a 17 18 metal shingle replacement product, but from my 19 understanding the applicant did not want to pursue that route. 20

THE CHAIRMAN: Okay.

All right. I have no other discussion.

23 Is there any other discussion?

COMMISSION MEMBERS: (No response.) 24

The scope of work includes the 2 installation of a 4-foot-tall vinyl fence and a 3 4 6-foot-tall vinyl fence. The fence extends from the southwest corner of the property to 5 6 the southeast corner of the property with gates 7 on either side.

Staff conducted a site visit to examine the fence on February 7th, 2025. Staff noted that the height of the fence conforms to the fencing and wall guidelines; however, the material of the fence, vinyl, is considered an inappropriate street-visible material.

The Historic Preservation guidelines for the Springfield Historic District reference Standard 2 of the Secretary of Interior standards for rehabilitation which refer to the historic character of a property being retained and preserved amid the alteration of features or spaces.

The applicant's scope of work has installed a fence of incompatible material in street-visible locations on the property.

The Historic Preservation guidelines also specifically recommend the use of 4-foot Diane M. Tropia, Inc.

vertical wooden fencing in street-visible locations, especially along or in front of the primary structure. The fence that has been installed is primarily 6 feet in height and is made of vinyl.

Staff noted that the sections of fencing in the backyard which are not street visible can be approved administratively; however, the sections of fencing on the outside east and west elevations, which are street-visible locations, require review by the Jacksonville Historic Preservation Commission.

Staff finds the proposed COA inconsistent and incompatible with the design guidelines and the Ordinance Code criteria. As such, we forward to you a recommendation for denial with the following corrective actions: Fencing shall be consistent with the fencing and wall quidelines.

My property is a quadruplex, located on a corner lot at the very edge of the historic

11 can't really see at all. I think it's quite

12 attractive and it -- it's nice for cleaning,

and so it has a number of practical aspects to

14 it that I think are very positive.

15 I've built -- I've done a number of houses 16 in Springfield from scratch, and another -- and

17 in other areas around the country, really nice.

18 And I recently built handmade historic doors on19 the Jacksonville Brotherhood of Firefighters

But anyway, they wanted some doors, like

number of houses and redone them from scratch.
Mike Trautmann and I -- we -- some of you

3 know Mike -- did a number of houses together.

And the -- one of my main points is that, over time, everything changes. We are a

6 beautiful historic neighborhood, but there are

7 other historic neighborhoods and areas in

8 Florida that have PVC fences everywhere, like

9 Key West. Key West certainly is at least as

10 nice as Springfield. It's a little bit of a

11 joke.

So my point being is that, people do change policies, which you guys have also done in the past. There's Hardiboard on historic

15 homes all over Springfield. Some builders only

use Hardiboard on the houses, and that is aproduct that is fairly -- has very little

18 detail. It's very -- it's very pedestrian.

We had approved -- the Historic Commission approved this latticework that we did a number of years ago in PVC. It just doesn't make any sense to put some wood somewhere that within a couple of years rot.

One of the pictures you showed up there showed her new fence and my fence next to it.

6 money and a poor investment. Why not let 7 people invest their money in the beautiful 8

A number of -- you know, the -- just several aspects of a home and [sic] make sense. Like skirt boards around a house, who cares if that's wood? That should be plastic. Water table around the house, that should be plastic, vinyl. The -- lattice, vinyl.

And fences in some situations that are not highly visible, why not just let the people have the vinyl? They can wash it down. It will last 20, 30 years, instead of having -- in 20 years she'll put at least two wood fences up, and they just don't look that good. And also, they often crack off under the wind, and you see them leaning over all the time.

So I -- my point is that the wood fences are actually a negative, whereas these fence -and I think Key West is a strong argument for Diane M. Tropia, Inc.

doesn't age the same way. It doesn't appear

127

the same way. And I think that it's important that we are consistent with upholding the

guideline standards when it comes to material. 5 6

I will also note that it is visible from the street, especially Perry, so it's not 100 percent in the backyard where no one can see it. It is visible from the road and the sidewalk.

So those are my comments.

THE CHAIRMAN: Any other discussion? COMMISSIONER MORGAN: I have a general 14 question about fencing, because we see this a lot and I feel bad, you know, that it's done, and here we are -- you are required to pull a permit for fencing, right?

COMMISSIONER MORGAN: Thank you.

THE CHAIRMAN: Question for staff.

When I look at the -- I'm just trying 8 to -- I'm thinking in my mind about a couple of

10 things, because this has already been -- this

work has already been executed without the COA, 11

so things have been paid for and installed, and 12 13 I'm not unaware of the gravity of that.

there are sort of three individual spaces on 19 20 the rear of the house that I'm assuming also

1 vinyl fencing be replaced or can the owner/applicant replace the one -- the two gated panels and the extension that is visible 3 4 from Perry Street?

MR. ARSENAULT: To the Chair, staff's 5 6 recommendation is for the fence to be 7 consistent with the fencing and wall 8 guidelines. So whether that is removal of the 9 entire fence or the replacement of the street-visible sections which, like you said, 10 11 are the two gate sections and the extending 12 part, with something more compatible, as long 13 as, you know, it's consistent with the fencing and wall quidelines, that's what we are 14 requesting. 15

THE CHAIRMAN: Thank you.

So I'm -- you know, I'm thinking about the 17 fact that it's a 6-foot fence. You're not 18 19 going to able to -- if it is replaced with a 20 paneled wood fence, you're not going to be able 21 to see on the interior of it, and I would --22 it's my opinion that we could at least allow 23 the applicant to keep the interior pieces that aren't visible to save the applicant some 24 25

money, but -- I'm putting that out for Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

COMMISSIONER MORGAN: To the Chair, I would not be opposed to that as a strategy to reduce costs for replacement.

COMMISSIONER HOFF: Through the Chair, so we did talk earlier in this meeting about how cost is not a factor when making these decisions and that if someone has a legitimate economic hardship, there's a process for that.

And I don't know if this would ever be approved from the staff (microphone failure) --MS. TRIMMER: Every time you turn your head, we lose you entirely.

COMMISSIONER HOFF: If we are looking at -- if we are supposed to be looking at this like a brand-new COA, which we have been provided guidance that we are, then I think that that makes the process more clear.

You know, I, too, have sympathy for work that's already been done, but there's also the responsibility by the property owners to know what guidelines there are for the property.

So those are my thoughts.

THE CHAIRMAN: And then just a final 24 25 question from me for the commissioners, is

> Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203

there any consideration for this structure not 1 2 being contributing in this discussion?

And I'm not making an opinion either way, 3 but I'm -- I just want to -- does this matter to any of you or is -- are we, as Commissioner 5

6 Hoff has stated very well -- I mean -- and I understand the design guidelines that -- we 7 8

adhere to the design guidelines.

COMMISSIONER GREGORY: Through the Chair, 10 I would say that, in this case, with it being noncontributing, it doesn't really change the 12 fencing guidelines that we have to follow. And if this was a new COA, I don't think we would 13 14 be approving a vinyl fence.

Much like a previous COA we just reviewed today, even when that fence was on a noncontributing property, we were still trying to preserve the historic character and nature of the neighborhood which that fence provided and this fence should be providing if this was a new COA for us to look at.

COMMISSIONER MORGAN: To the Chair, just an additional thought, you know, I wonder -- I agree with your thoughts. I also agree with Commissioner Hoff in that this needs to be

> Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

looked -- considered as if it's a new COA and the work has not been completed.

3 I wonder, then, if we were to approve the perimeter of the fence -- and, I mean, it may 4 be worth asking if she even wants to save any, 5 if we were to do that. 6

But I think that if the perimeter fence were an approved material, really the dividing pieces would not fall under a COA at all, I guess, in her backyard.

THE CHAIRMAN: Yeah, my thinking is those aren't really fences.

13 COMMISSIONER MORGAN: Yeah. That's kind of what I'm thinking, but it may be good to see 14 15 if she even wants to look at that before we 16 make a modification. 17

THE CHAIRMAN: I would say that that would be something -- I think that the -- I think the recommendations can stand the way they are, we can vote on them, if there's no more discussion, and that can be taken up as a sort

21 22 of discussion about whether that's a fence or not, like a --23

24 Legal, do you have an opinion?

MS. LOPERA: About what? Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

133

THE CHAIRMAN: I wouldn't call those two pieces in the middle a fence, like a -- but I think that's -- that's my opinion.

MR. WELLS: Yeah. To the Chair, I mean, you would need a COA to install any type of fencing, even if it's a partition, like the one that's depicted in the site plan here.

8 In order to conform with the fencing and 9 wall guidelines, as we're recommending as far as a corrective action here, it would be to 10 just, essentially, conceal the inappropriate 11 12 material with an appropriate material.

13 THE CHAIRMAN: I understand. Thank you.

14 Any more discussion?

COMMISSIONER MORGAN: To the Chair, regarding the noncontributing structure, I think in the instances of fence, where they're going to be connecting to other adjacent properties, that's where it may get a little stickier. There's an image of it connecting to an approved fence, kind of.

THE CHAIRMAN: Right.

COMMISSIONER MORGAN: I think that's where 23

24 it gets off track. 25

3 just to note, too, from the fencing and wall

guidelines, they don't contemplate for 4

5 contributing versus a noncontributing

structure. So just to hypothetically state 6

7 that this is a new construction property, we

MS. FIGUEROA: This COA, located at 3712 22

St. Johns Avenue, is for after-the-fact 23

replacement of wood Dutch lap siding on a 24

1 Avondale Historic District.

2 Built in 1920, the subject property consists of a one-story bungalow home, 3

4 characterized by its shingle gable roof, wood

Dutch lap siding exterior, and an open front 5

6 porch.

21

22

23

11

14

16

7 As proposed, the applicant is seeking to 8 replace wood Dutch lap siding on the left side elevation with wood T-111 vertical panel siding. According to the applicant, the Dutch 10 11 lap siding on the left side elevation was 12 rotted and they installed T-111 vertical siding

13 to match portions of vertical siding on two 14 additions. 15 Staff recommends reinstalling the wood

16 Dutch lap siding on the left side elevation and are open to it also being installed on the 17

small front addition located on the right side 18

so the street-visible sides match. 19 T-111 siding is only on the nonhistoric 20

addition constructed in the 1980s, which was prior to the local designation of this historic district.

Staff researched past COAs and found that 24 25 the previous property owner was approved with

conditions by the JHPC under COA-08-436 for wholesale siding replacement with Hardie Dutch 3 lap siding and for other alterations.

From the pictures submitted by the 4 5 applicant, it appears the previous property

owner did not complete the siding work and, 6

therefore, the variety of siding materials 7 8 remain on the home.

9 Staff is recommending to deny this 10 application.

THE REPORTER: Thank you.

MR. CLELAND: All right. Thank you.

The left side was seeing extensive wood rot, you can see here from the pictures, so much so that the neighbor that I actually think reported us was telling us that the previous owners had just cheaped out on the house over the years, continued to paint, continued to paint, and that was essentially what was holding up a part of this house.

When we swapped out some air conditioning inside, we were doing some vent work up top, prior to pressure washing, the guy's hand went through the siding. It was, I guess, kind of a blessing because the siding was removed and there was no wallboard, there's no insulation, there was cloth wiring. It was a mess. It gave us the opportunity to put it back together.

> Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300 MadamCourtReporter.com

> > 138

If your recommendation is to do the Dutch on the left side, I'm okay with that, to go ahead and put it back, to make it look like the existing contributing, but I do have an issue with the recommendation on the right side as that was done, what we estimate would be in the '80s, under one of those permits.

It was all done prior to this homeowner making the purchase. So if we were to open up that can of worms and say, hey, the right side, previously done by somebody else -- you know, why is this homeowner responsible for that? If that was potentially done after the Commission took some type of jurisdiction, I think in '98, then I think that would be on Historic for not policing it, and I don't think it should be the responsibility of this owner to spend

additional money to do anything on the right side of the home.

I do think that, yes, T-111 is not consistent with contributing. It was -- came out in the '60s, but the whole right side of the house has T-111. Now the whole left side of the house, visible from the street, does.

> The back half of the house addition, done Diane M. Tropia, Inc.

in the '80s, does have T-111 that is visible

from the street. So on the left there is a

consistent siding all the way down. But if

you'd like to do the left, we can gladly do the

Dutch, but I don't believe the right is

6 something that we should have to do considering 7

it was done previously, before this owner, and 8

it was an area we never touched.

9 MR. WELLS: If I -- through the Chair to 10 the Commission, so with that -- in light of the 11 applicant's testimony here -- so the -- if he's 12 on board with Condition Number 1, so installing 13 wood Dutch lap siding on the east elevation, 14 staff is in agreement to striking the remaining 15 provisions of that condition, so the right side 16 elevation.

MR. CLELAND: Thank you.

THE CHAIRMAN: Thank you.

19 Are you agreeable to that?

MR. CLELAND: I am.

21 THE CHAIRMAN: Okay. Then --

22 MR. WELLS: That would be -- yeah, I think everything else you would be in agreement with, 23

THE CHAIRMAN: Right.

MS. LOPERA: The recommendation was 7 denial, so this was, like, corrective actions. 8

But if they're in agreement with it, what staff is saying is that they're -- I think -you can correct me if I'm wrong, but that they 12 would be amenable to approve with conditions.

THE CHAIRMAN: Okay. So we can go ahead 13 and vote on the motion that we have and then 14 15 they can revise it later or do we need to 16 revise them?

Sunny bought this house in '22, and it had siding over the existing side, you know, the original siding, on the left, right, and on the back. So buying that, you know, he was under the impression that he could replace that siding.

And he had to go through extensive work to get asbestos removal, you know, and get the permit, and finally got the permit for the siding, and it -- you know, it wasn't until we were removing that siding that, you know, we kind of caught that there was no COA. You know, they didn't explain it. He's -- he lives out of state. He was trying to move into this house. He wasn't familiar with the area.

So we caught it, you know, and we called, and Brittany has been very helpful, but with that, you know, he doesn't now really want to move into the house because the sid- -- it's about 75, 85 percent that has to be fixed, because it might look good, but until you put

Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

your fingers -- it goes -- the wood is just rotted, and there's no sheathing behind it, so -- you don't have, you know, any CDX, you don't have any Tyvek, so he's worried about

You know, so these are -- you know, these are the factors that -- you know, had he known that, you know, there was the original siding underneath and this would be a thing, you know,

mold and water and, you know, and his health to

I don't think he would have even purchased.

And then -- that -- that's the argument, as well as, well, someone else was able to put that siding on, and then the -- you know, the new house on the corner that was just built, they had to replicate these houses, the same exact house, but they were allowed to use the Hardie lap, which is, you know, the fiber cement, which, you know, lasts forever. It's, you know, really safe for a house.

So, you know, that's -- that's really my argument for him as, you know, he really -he's really, really concerned about the

integrity of the house. You know, I'm, you know, retired in the

medical field, and I can tell you -- I 1

completely agree with him, because I've been on

147

site myself, and there's -- there's literally 3

no sheathing behind, you know, this little 4

5 Dutch lapping. There's nothing. And it's --

6 it's really rotted, you know.

7 I understand the front was already 8 original, and that, you know, we can -- by all 9 means, because it's, you know, street view,

where you could see the front. You know, I 10

11 think that's, you know, more than fair as far

12 as leaving that, but the sides and the back

13 that were already covered with new siding at

14 some point, that's where, you know, it's

really, you know, the argument as far as can we 15

16 please, you know, change it for the integrity

of this house to save it. You know, that's 17

18 really what it comes down to.

19 Thank you. That's all I have to say.

MS. OLANDESI: He planned, yes. Yes. 1 2

COMMISSIONER MORGAN: Okay.

3 MS. OLANDESI: He's a GC. He's a builder.

He actually builds beautiful homes in Seattle 4

5 and -- and him and his partner bought a house

6 not too far away, so they appreciate the

7 historic, you know -- and he, you know, wants

8 to, you know, keep the historic -- he's just --

had he known -- you know, we took that siding

10 off. There was siding there. It was fiber

11 cement siding there, you know, and it's just --

12 it's really rotted. I mean, you could go --

13 you could put your hand and go through the

14 house.

15

16

COMMISSIONER MORGAN: I guess my question is, what is the adversity to going back with an

original siding to match? 17 MS. OLANDESI: So the original siding 18

that's there, you know, it -- you're talking 19

20 about at least -- over 75, 85 percent that would have to be replaced, plus there's no

21 sheathing underneath it. So the one -- the 22

part that you would salvage, there's no 23

24 sheathing or Tyvek wrap to protect the home

25 from water damage, from mold that do come in.

COMMISSIONER MORGAN: Second. 19

20 THE CHAIRMAN: Discussion?

21 COMMISSIONER HOFF: Through the Chair, so

based on the staff's observation, I think I 22

would need, as has been mentioned earlier in 23

this meeting, more evidence to approve 24

25 wholesale siding replacement.

Diane M. Tropia, Inc.

Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

MadamCourtReporter.com

Right now I don't think we have any of that, so if we had a WDO report that indicated that need, then that could be persuasive, or others may have thoughts of their own.

151

152

5 COMMISSIONER GREGORY: Through the Chair, 6 I would echo what Commissioner Hoff mentioned. We don't -- there's not enough evidence here to 7 8 go against the staff recommendation that the

9 siding is repairable.

10 Having worked on this thing before, like, 11 you can find this siding and you can repair it 12 with similar wood. And if staff's 13 recommendation is that it is not beyond repair 14 and wholesale replacement is not recommended, 15 then I don't have any other evidence to go in a 16 different direction.

And what -- kind of what we're telling you, the applicant, is we need some sort of professional evidence that it is beyond repair.

20 MS. OLANDESI: Okay. So do I -- do I 21 request to come back and bring -- you know, 22 bring everything that you guys need?

23 THE CHAIRMAN: Are you asking if you can defer and gather -- are you asking if you can 24

THE CHAIRMAN: All right. 6

MS. OLANDESI: Thank you so much. 7

8 THE CHAIRMAN: Thank you.

And so we'll let it be known that 9

10 MMA-25-31892 at 1135 Walnut Street has been

deferred for the April 23rd Historic 11

12 Preservation meeting.

13 Thank you.

MS. OLANDESI: Thank you so much.

15 THE CHAIRMAN: All right. So we'll move 16 on to the second item, MMA-24-31415, 2963 Olga

Place. We'll open the public hearing and hear 17 18

a report from staff.

MS. FIGUEROA: MMA-24-31415 seeks to 19 20 install a driveway and apron on an interior lot

21 within the Riverside Avondale Historic

District. The applicant was previously 22

approved by the Commission under COA-24-30487 23

to construct a two-story home. They are now 24

poured concrete driveway and a poured apronmeasuring 22-and-a-half feet wide at thestreet.

Additionally, the applicant proposes to
install a new portion of sidewalk made of
hexagonal pavers, and staff can approve that
administratively.

The existing poured concrete driveways along the block may have been installed prior to the local designation of the Riverside

Avondale Historic District in 1998 or may have been installed without obtaining a COA.

Staff is recommending approval with conditions, to meet the widths and materials in the 2025 COA Matrix.

16 THE CHAIRMAN: Thank you.

17 Are there any questions for staff?

5 We'll start with the demo delay, DD-25-03,

6 at 1324 Bridier Street.

MR. WELLS: Thank you, Mr. Chair.

8 So, again, this is DD-25-03 for the

9 demolition of a contributing structure at 1324

10 Bridier Street.

So this property is a one-story

12 residential structure located within the

13 Eastside National Register Historic District.

14 Because this structure is contributing to the

15 National Register District, any demolition

16 activity requires a review by the Historic

17 Preservation Commission per our Ordinance Code.

So, essentially speaking, the Commission

must review and take action on such requestsfor demolitions after a completed demolition

21 application is received by the Department, and

22 the Commission has three options they can

23 pursue.

So they can pursue -- they can approve the demolition permit application. And just note,

The second option is to deny the demolition permit. And if the Commission votes to deny the demolition permit, it shall issue an advisory recommendation to the City Council on the structure's landmark status using our Code criteria for landmarking for -- in general. This advisory recommendation shall be issued at the next Commission meeting.

And a third option you can take is to defer action, which means that -- if you defer action, you do have to act within 60 days or the demolition request is considered granted.

So because -- if you do decide to deny the demolition permit application, you have -- then you have to do the advisory recommendation to the Commission based on a landmark status. Staff found it prudent to just go ahead and evaluate the application based on landmarking criteria. And so what we found is that it meets three of the seven criteria.

> Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300 MadamCourtReporter.com

Jacksonville. 1

> The second criteria focuses on it having distinguishing characteristics of an architectural style that's valuable for the study of a period. Because this property is a frame vernacular home, frame vernacular homes are important because they represent vanishing examples of how rural and lay builders utilized simple and time-tested construction principles.

159

160

And the third criteria focuses on the suitability for preservation or restoration. Again, utilizing this criterion, we've -- we tried to find evidence of significant exterior alterations that have negatively impacted character-defining features.

And in this particular context, the building is vacant, but the exterior of the structure appears to be in decent condition, not having any evidence of exterior deterioration -- or significant exterior deterioration. The structure has been reasonably maintained over the years. And according to archival records, the building has been altered over time, including removal of the windows, removal of the doors, and possible

> Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300 MadamCourtReporter.com

158

Again, this structure is a one-story residential building with frame vernacular style influences. Originally constructed as a residential dwelling, the structure can be characterized by its rectangular shaped plan, two connected gable roofs, exterior stucco finish, rectangular attic vents, and a concrete foundation. And the fenestration is symmetrical; however, it is boarded up.

This property, according to its -- at least its Florida Master Site File, was constructed in 1911. However, staff did have some discrepancy errors and we're not even sure if this structure is original to the site as it does not appear on the original Sanborn map for 1913, nor does it appear in the 1950s Sanborn maps. So staff suspects that it may have been relocated to its present location between the 1950s and the '60s.

So, again, we found that it met three of the seven criteria, the first one being that it's located within the Historic Eastside National Historic District. The community is significant for its association with the early residential suburban development in

> Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300 MadamCourtReporter.com

relocation of the structure to its present day location. Nonetheless, through proper

stabilization, mold remediation, and 3

rehabilitation, staff finds that the structure 4

5 may be reasonably restored.

However, we do note that this property, it can only achieve three of the seven landmarking criteria, so, therefore, the Department recommends that the Commission approve the 10 demolition permit application for 1324 Bridier Street and not pursue local landmark 12 designation.

THE CHAIRMAN: Thank you.

Do you have any questions for staff?

COMMISSIONER HOFF: Through the Chair to staff, what's the last known use of the

16 property? Do you know? 17

MR. WELLS: Through the Chair to

Commissioner Hoff, I'll have to research that, 19

20 but the last known use that I know was

21 residential, but I think, if anything -- it was

tied to the next-door structure because it used 22

to be a church, so, if anything, it was a 23

residential caretaker house. 24

13 I am here on behalf of the Jacksonville Community Land Trust. I'm the vice president. 14 Our executive director is on spring break, so 15

16 you get me. 17

A brief history on this property: It was actually taken by the City by tax deed sale back in 2020 and sat vacant for all of the time

that the City owned it. There were numerous, 20 21 ongoing, repeated complaints by the

22

neighborhood to the City about the property and

23 the status of it and the ongoing deterioration

of it, and I think there may be some folks here 24

25 that will echo those sentiments that the City Diane M. Tropia, Inc.

was just constantly getting calls and complaints about this property.

The Land Trust was approached by the City and LIFT JAX, and we were asked if we would be willing to step in and partner with LIFT JAX to

5 demo this property and develop affordable 6

7 housing on it. So we have a Memorandum of

8 Understanding with LIFT JAX, under which LIFT

9 JAX is going to pay to demo the property, and

10 then we are going to build affordable housing 11

on the property. We've committed to doing that 12

at 80 percent or less of AMI to be in line with

13 the community and provide a housing alternative. 14

Our team, at the time when this was done, didn't realize that it was in the historic

overlay and that there was now demo delay when 17 all of these negotiations were going on. So 18

when our executive director submitted for the 19 20 demo permit, we were advised that we needed to

21 come here and explain all of this background,

so that is how we ended up in front of you 22

today. We only took title to this property 23 24 because we were approached and asked to demo

Now, I don't understand why Municipal Code Compliance continued to go by there and cite the property when it's -- Land Trust has gotten

themselves involved with this property, but I 16 feel like we have been misled by the City of 17

18 Jacksonville, stating for many years that they

19 was going to pay for the demolition. And then

even one at a later time, before this 20

21 organization had taken over the property, one

for so long. Hopefully, there will be 10

11 resolution to this. 12

All right. On to the park renaming, Oakland Park to Eartha M.M. White Historical Park.

MR. WELLS: Thank you.

Through the Chair to the Commission, so 16 from time to time we'll get these requests for 17

park renamings, road renamings, et cetera. And 18

so this is consistent with Chapter 745 of the 19

Ordinance Code, and it states that, if a 20

21 request to rename streets -- it requires review

22 from the Commission. In making a report and

recommendation, the Commission shall address 23

seven different -- well, six different 24

25 criteria.

> Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

MadamCourtReporter.com

168

167

And so in this particular instance, the current street name is Swooping Willow Court and the proposed street name is Swooping Willow

Court West. 5 MS. LOPERA: Are we on the Oakland Park renaming or are we on Swooping Willow Court 6

7 road renaming?

8 MR. WELLS: All right. I already read 9 that. Okay. Sorry.

So let me backtrack here.

So this is the proposed renaming of 11

12 Oakland Park. So this in accordance with

Ordinance 2025-0189. So March 11th, 2025, an 13

ordinance was introduced to propose renaming 14

15 Oakland Park to Eartha M.M. White Historical

16 Park.

10

17 So consistent with Chapter 122.105 of the Ordinance Code, the renaming and [sic] renaming 18 of public buildings, facilities, and public

19 20

parks requires a report from the Department and 21 an advisory recommendation on the renaming

22 proposal from the Commission.

23 So there's seven different criteria that you have to address, and in this particular 24

25 one, the request is -- stems from City Council.

Diane M. Tropia, Inc.

Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

11

12

13

17

18

19

So staff has evaluated the criteria. We found that Oakland Park is located at the corner of Ionia and Union Street in the Eastside National Historic District. According to archival records, there's been a park at this property since at least 1869, when the working-class Oakland neighborhood was developed and platted.

Oakland Park is historically significant because it possesses the first playground established by the City for African-American children. And due to the efforts of Jacksonville humanitarian Eartha M.M. White, the playground opened on July 4th of 1918. And to celebrate the park's opening, there was a parade from Stanton High School in LaVilla to the park.

The park is currently designated as a local landmark. This is in connection with the Old City Cemetery because of its boundaries.

The existing name of the park is connected to the 1869 plat for the town of Oakland, which Diane M. Tropia, Inc.

> Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300 MadamCourtReporter.com

> > 170

is an historically black community.

Again, according to archival records, Oakland Park existed prior to the establishment of the supervised playground. On the 1869 plat of the Oakland neighborhood, a park is shown at the present location, and a -- even included in a newspaper article in 1917, it discusses an upcoming patriotic meeting of African-American citizens of Oakland Park, which was in support of the local efforts during World War I.

Again, this will be named after Dr. Eartha Mary Magdalene White who has contributed significantly to the various (indecipherable)

of the city and state. 14 15 Dr. White is known for a variety of 16 contributions, such as establishing an orphanage for African-American children,

creating the Boys Improvement Club, which is an effort to curb juvenile delinquency. She also

20 is connected and established the Clara White

21 Mission, which provides meals for the hungry

22 and transitional housing for homeless persons.

And she also founded the Eartha M.M. White 23

24 Nursing Home. In addition to that, she managed

25 several businesses and many more endeavors, Diane M. Tropia, Inc.

> Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

MadamCourtReporter.com

1 so -- also, Dr. White was instrumental in 2 establishing Oakland Park, which, again, was the first public park for African-Americans. 3

4 And so based on this evaluation, staff 5 does not have any objections to the proposed renaming, and we found that it will be named 6 after a person that has made significant 7 8 contributions to the development of the city as 9 outlined in the ordinance.

That's the end of the report.

11 THE CHAIRMAN: Thank you.

12 Do I hear a motion?

13 COMMISSIONER GREGORY: Motion to approve 14 the park renaming from Oakland Park to Eartha 15 M.M. White Historical Park.

recommendation. It goes to City Council, so 6 7 you all are moving to recommend approval.

8 THE CHAIRMAN: Just a general question for staff. The neighborhood of Oakland, does it

still have identity -- like, it's not -- does 10

it still have edges or do we -- is Oakland Park 11

and the Old City Cemetery really the -- like, 12

13 how do we know where Oakland is anymore? Like,

when you look at Springfield, there are edges 14 to Springfield. There are edges to, you know, 15

16 Phoenix, and -- are there definable edges to

17 Oakland? I'm just curious, because there were.

MR. WELLS: Through the Chair -- or to the

Chair, there are some definable boundaries. 19

20 It's not something that we -- I believe we

21 wrote in the report itself, but that's

22 something the community is also working on,

because they do blur, especially with East- --23

24 not Eastside, but Springfield, because there 25

are some important portions of Oakland that Diane M. Tropia, Inc.

they define themselves as West Springfield --1 or East Springfield. But, nonetheless, there are some definable boundaries that we have 3 4 notated in the report itself.

5 THE CHAIRMAN: And I'm not in opposition 6 to this renaming, but it does -- it makes me think about that -- you know, that -- we had a 7 8 renaming -- was it a few meetings ago? We had 9 a renaming a few meetings ago at Loretto, and I 10 wasn't even aware of the history of the name, 11 Loretto, you know? And so I -- I wonder about this because I've known the area -- I've lived 12 13 in Jacksonville a long time, so I've known about Oakland, but it feels like its edges are 14 diminishing a bit, and I'd like to -- I'm not 15 16 opposed to this renaming, but I -- it makes me think, we need to make sure we pay attention to 17 another neighborhood's identity. You know, 18 19 iust a thought. 20

Any other discussion, though? Any other questions about this or thoughts?

COMMISSION MEMBERS: (No response.) THE CHAIRMAN: I say we should vote.

All those in favor of advising to rename

THE CHAIRMAN: So let it be known that the Commission is advising favorably to the

6 renaming of Oakland Park to Eartha M.M. White 7 8 Historical Park.

9 So we'll move on to the next one, road 10 renaming of Swooping Willow Court to Swooping Willow Court West. 11

MR. WELLS: Thank you.

So, again, this is a request to rename it from Swooping Willow Court to Swooping Willow Court West. There are six criteria that are outlined in Chapter 745 of the Ordinance Code that the Commission shall review and address.

The name change seeks to correct a nonconforming address issue and align it with the name currently being used by the property owners.

So from our analysis, we found that 22 Swooping Willow Court is along a portion of the 23 street, of Swooping Willow Court West, and was 24 25 platted in 1994 as part of the Heaven Trees, Diane M. Tropia, Inc.

Unit 3 subdivision plat. 1

The request for the name change applies to 2 the entire portion of Swooping Willow Court as 3 depicted in the location map. We found that

there's no historic structures or landmarks

identified along this portion of the subject 7 street.

And based on the best evidence available, the Planning Department does not have any objection to the proposed street name change from Swooping Willow Court to Swooping Willow Court West.

13 End of report.

14 THE CHAIRMAN: Thank you.

Do I hear any motion regarding Swooping 15 16 Willow Court?

20 COMMISSIONER MORGAN: Second. 21 COMMISSIONER GREGORY: Second.

if it's not historic? Why are we considering this? I'm just --

3 MS. LOPERA: Through the Chair to Commissioner Hoff and the Commission, the 4

5 Ordinance Code requires that you review all

road renamings within the city. 6 7

COMMISSIONER HOFF: Oh, I didn't know that.

THE CHAIRMAN: Because it's part of our 9 10 history no less. With great power comes great 11 responsibility. 12

Any other discussion about this?

COMMISSION MEMBERS: (No response.) 13

COMMISSION MEMBERS: Ave.

THE CHAIRMAN: Opposed?

COMMISSION MEMBERS: (No response.)

THE CHAIRMAN: So let it be known that the 21 22 Commission recommends approval of said name

23 change to Swooping Willow Court West. 24 All right. And then there's one more,

25 the -- another road renaming, Lenox Square to Diane M. Tropia, Inc.

MS. LOPERA: Mr. Chair, I have one thing under New Business I wanted to bring up real quick.

THE CHAIRMAN: Certainly.

MS. LOPERA: Okay. We have a few items on the deferred item list that have sat there for guite a while. Arimus and I talked about this, I don't know, maybe a week ago or -- within the recent past. But those have sat on there for a long time. I think they're sitting on there so they don't have to be renoticed, but they've

been there for so long that it would always be 23

my recommendation that notices be redone should 24

25 you ever take action on them, but --

> Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

MadamCourtReporter.com

Like, for example, the first one is actually COA-22-28339, which you all heard in June of 2023. So I guess I just would like to

know if you all are comfortable with it, if

you'll direct staff to pull those off the

deferred list. And then if ever the people

7 come back and do what they need to do to, you

8 know, give their application -- move it

forward, it can be renoticed, readvertised, and

10 put on an agenda at that time, if you all are

11 comfortable with that.

> THE CHAIRMAN: Can we just have a general discussion and then -- what do you guys think about that?

COMMISSIONER GREGORY: Through the Chair, just a question for staff. What's the general guidelines you guys have used in the past for pulling it off? I mean, like a year or something or six months? I mean, is there a number that you would normally use?

MR. WELLS: Through the Chair to Commissioner Gregory, we haven't really used a number, so anything would be advisable at this point.

> MS. LOPERA: If you have -- through the Diane M. Tropia, Inc. Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

Chair to the Commission, if you have any input on that, how long you think is acceptable to

3 let them sit there without any action, that

would maybe be helpful to staff. 4

THE CHAIRMAN: Putting such a time frame in place, when the time passes, do they just get deleted and they have to start over? Like, what are the ramifications of said time limit?

9 MR. WELLS: I'm trying to think if there's 10 a recent one, because, I mean, these ones are just -- usually we'll just keep them on the 11

12 deferred list until they respond, and

periodically we'll try to continuously email 13

the applicant, but -- and, luckily, we just had 14

15 response rates -- kind of better response rates

16 in the past couple of years, but, if anything,

17 they've been kind of just languishing there on 18

the deferred items.

COMMISSIONER GREGORY: If we were to remove them from the deferred item list, does that mean these applicants would have to then reapply? Does it, like, cancel their COA or expire it? Is there any ramification to these property owners to have an additional expense

if we removed them from the deferred item list?

Diane M. Tropia, Inc.

MS. LOPERA: Through the Chair to 1 Commissioner Gregory, that would be at the 2 discretion of the Planning Department, how they 3 4 want to handle it.

Just pulling it off the deferral list doesn't automatically close it out and close out the COA.

COMMISSIONER GREGORY: Okay.

9 THE CHAIRMAN: I think that's fine, right?

And if they come back and they want to 10 start again or they want to restart, then they 11 12 just talk with you about it, yeah? I don't 13 have any issue with that.

14 COMMISSIONER GREGORY: Yeah. 15

THE CHAIRMAN: Does anyone?

16 COMMISSIONER GREGORY: I think the only question, then -- like, I'm okay to pull them 17

off the deferred item list. It's just, what's 18 19 the timing? Like you said, like -- and I

guess -- I would maybe defer to counsel on what 20

21 is a reasonable amount of time to have to give

notice again. Is it, like, six months? You 22

know, because the real issue is our notice 23

here. Is six months, like, maybe reasonable?

25 If for six months they don't respond, then you

MR. WELLS: All right. So the resource 17 packet is deferred another cycle. 18

The pending legislation, that's next, I believe. So a couple of moving items here. So since the last Commission meeting, we had two ordinances, final action on those two ordinances.

The first one is Ordinance 2025-0122. So 24 25 this is a bill to appoint your new

(Applause.) MR. WELLS: The second one is Ordinance

2025-0101, so this is an appropriation bill to 5 6 grant additional funds to the Restore

So that was approved by City Council.

Endangered Historic Adaptable Buildings special

8 revenue fund. So this is REHAB for short.

9 City Council approved that.

And then we have a couple of moving items. Again, we have the ordinance, 2023-0876. That has not -- action has not been taken on that.

12 13 And then we have Ordinance 2025-0035. So I do need to change that because City Council 14

did approve that last night. They put in a 15

condition stating that the applicant -- the 16 17 appellant has agreed to help with the cost of

relocating the structure to an entirely 18

different site. This is in connection with the 19

Henry C. Arpen House. So the Commission, I 20 21 believe you all took action on this back in

22 December. You all decided to deny the

demolition permit. 23

MS. LOPERA: So, yeah, through the Chair 24 to the Commission, it gives the applicant --25

So I wanted just to kind of touch on a few things here. So one of the recommendations that we said that we would participate in was helping to create a scored matrix to help determine objective criteria for demolition by neglect, and we put in a deadline of July. So that's something that we need to do.

Speaking of to dos, there's -- we made a lot of different recommendations. Most of those, thankfully, are some kind of a policy decision, some of them are not. Some may require legislation, some may cost some funding, right?

But I think if we don't want this to just evaporate into the cemetery of City reports, then we need to figure out who is responsible for acting on those recommendations, right? So if the Planning Department would be responsible for acting on X, Y, Z recommendation, then -you know, then we need to approach the Planning Department. The same with the mayor's office or if we need a sponsor for legislation.

So we just kind of need to figure out, you know --

186

THE CHAIRMAN: I would suggest --COMMISSIONER HOFF: -- those things. THE CHAIRMAN: What was presented today

was a final draft, and the -- the final 4 document is due at the end of the month or what

5 6 is it?

7 MS. LOPERA: To the Chair, this is the 8 final report.

9 THE CHAIRMAN: Oh, kaputt.

10 MS. LOPERA: This is it. This was already 11 approved by the task force, presented to you here today. 12

THE CHAIRMAN: Okay. There may be a memorandum issued afterward that sort of outlines those things with suggestions. Like, you know, I think that would be the fastest course of action. Rather than just asking a question, go ahead and put some -- you know, who's going to take care of this, who's going to take it -- this is the suggestion, and then we could issue that as a -- not as an addendum necessarily, but just as a memo in regard to the demolition by neglect. I don't know, maybe that's something we talk about with Legal.

MS. LOPERA: To the Chair, I think that Diane M. Tropia, Inc.

Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

MadamCourtReporter.com

would be, you know, a perfectly fine course of action. You could also assign different things

to different -- you know, one commissioner

says, hey, I want to follow up with the Council

member for District 7 about introducing

6 legislation to address this, you know,

particular thing or, you know, divvy it up. 7 8 You could do it that way. There's a lot of

9 ways to handle it.

THE CHAIRMAN: Yeah.

And it might be -- I mean, Bill, I would ask, as the chair for the task force, that you put that together. And then if there's suggestions of commissioners to help, you know, chase some of those things down, I think we would -- I can only speak for myself, but I'm -- I would -- I'm certainly willing to help with that.

COMMISSIONER HOFF: Okay.

All right. So I guess the most kind of clear task would be to create this objective criteria for demolition by neglect with this tool. So -- because we cannot talk about it, technically, amongst ourselves outside of a

noticed meeting, I assume this will be done Diane M. Tropia, Inc.

with staff's help of some kind and Municipal Code Compliance, and then we will bring

something to review and get input on. Does

that sound like the right process? 4 5

THE CHAIRMAN: I think I'm going to have to defer --

MS. LOPERA: Through the Chair to 7 Commissioner Hoff, you could have, like, one 8 member of the Commission meet with MCCD and 10 staff to work on it without having a noticed 11 meeting, if you wanted to go --12

COMMISSIONER HOFF: Oh, sure. Right.

MS. LOPERA: -- about it that way.

I mean, another alternative would be to 14 15 call a special meeting if more than one 16 commissioner wanted to meet to work on it --17 COMMISSIONER HOFF: Okay.

MS. LOPERA: -- or do it during a meeting.

19 That's another option.

COMMISSIONER HOFF: Okay.

21 THE CHAIRMAN: Yeah, and I would say that 22 time -- you know, expediency might have a lot to do with that, you know? The quickest thing 23 to do and the easiest thing for all of us to do 24

25 is for you to do it, right?
