Jacksonville Historic Preservation Commission

September 11, 2024

City of Jacksonville

Ed Ball Building, 1st Floor - Room 1002 214 North Hogan Street - Jacksonville, Florida 32202

A NEW DAY.

Jacksonville Historic Preservation Commission Meeting

Wednesday, September 11, 2024 at 3:00 PM

Members:

Michael Montoya, Chair Ethan Gregory, Vice Chair William Hoff, Secretary Julia Epstein Maximilian Glober Becky Morgan

AGENDA

RULE 4.505 DISRUPTION OF MEETING No member of the audience shall applaud nor make any noise or remarks that are audible to the Committee that would indicate approval or disapproval of anything being discussed. Any disregard of this rule may result in removal by the Security.

REQUEST TO SPEAK: 1. Fill out a speaker card.

2. Sign in if you are going to speak.

- 3. Read the rules on the back of the card.
- 4. Place card in tray labeled "Speaker Cards".

BREAKS: Will be taken at 5 PM, 7 PM and every two hours thereafter until the close of the meeting.

NOTE: The next regular meeting will be held Wednesday, September 25, 2024.

COMMENTS FROM THE PUBLIC. Comments from the public shall be limited to no more than three minutes per person and no person shall be allowed to give or transfer his/her time to speak to another person.

ADDRESSING THE BOARD/COMMITTEE. At public hearings required by law or fixed by the Board/Committee, the presiding officer shall extend the floor to proponents and opponents of the subject matter of the public hearing, and those filing written requests or speakers cards shall be heard prior to other persons who appear at the hearing. Each person addressing the Board/Committee shall proceed to the place assigned for speaking, give his/her name in an audible tone of voice for the records, (if the person has not filled out a speaker's request card and returned it to the Board/Committee staff before addressing the Board/Committee, the person shall also give his/her address in an audible tone of voice for the records), and limit his/her comments to three (3) minutes, unless further time is granted by the Board/Committee. All remarks shall be addressed to the Board/Committee as a body and not to any member thereof. No person other than a Board/Committee Member or the person having the floor shall be permitted to enter into any discussion, either directly or through a member of the Board/Committee, without the permission of the presiding officer. All questions to the Board/Committee shall be directed through the presiding officer.

Speakers may appeal the decision of the Commission on an item they addressed. Appeals must be made to the City Council within twenty-one (21) days of the date of the Final Order in the matter. To appeal, file a Notice of Appeal with the Legislative Services under §307.203, Ord. Code. Failure to file a Notice with the Legislative Services Division within the time prescribed waives the right to appeal the Order.

A. Call to Order/Verification of Quorum

- 1. Submittal of Speaker's Cards
- 2. Breaks at 5 PM, 7 PM and every two hours thereafter until the close of the meeting
- 3. Approval of Minutes from July 24, 2024

B. Deferred Items (Next Hearing is 9/25/24)

- 1. **COA-23-28339** (3664 Richmond Street)
- 2. COA-23-29186 (2799 Selma Street)
- **3. COA-24-31124** (3629 Richmond Street)
- 4. REHAB-24-03 (157 8th Street, East)
- **5**. **COA-24-30766** (1464 Avondale Avenue)
- **6. COA-24-30820** (2142 College Street)

C. Consent Agenda

1. COA-24-30741

District: Springfield - 1448 Pearl Street, North

Applicant: Marco Guerrero, Andesco Construction, Inc.

Owner: Josefina Gattei, Bellona Property, LLC

Request: Alterations - Porch Restoration

Staff Recommendation: Approve With Conditions

2. COA-24-30849

District: Riverside/Avondale - 1237 Lechlade Place

Applicant: Autumn Martinage, Alphazet Development, LLC Owner: Gino Cogorno, Real Estate Pros of North Florida, LLC

Request: Alterations - Fence

Staff Recommendation: Approve With Conditions

3. COA-24-30895

District: Springfield – 2026/2030 Walnut Street Applicant: Joseph Markusic, Glory Homes, Inc. Owner: Felicia Luke, 4 Loco Investors LLC Request: Alterations - Accessibility Ramp

Staff Recommendation: Approve With Conditions

4. COA-24-30936

District: Springfield - 1403 Walnut Street

Applicant: TerraWise Homes, Inc. Owner: TerraWise Homes, Inc. Request: New Construction

Staff Recommendation: Approve With Conditions

5. COA-24-30958

District: Springfield -1344 Ionia Street Applicant: JWB Real Estate Capital, LLC

Owner: Hoose A, LLC Request: New Construction

Staff Recommendation: Approve With Conditions

6. COA-24-30962

District: Riverside/Avondale - 3709 Hedrick Street

Applicant: Taylor King Owner: Taylor King

Request: New Construction - Accessory Structure Staff Recommendation: Approve With Conditions

7. COA-24-31001

District: Riverside/Avondale - 1613 Van Wert Avenue

Applicant: Raymond C. Roman Owner: Deborah L. Roman Request: Alterations - Roof

Staff Recommendation: Approve With Conditions

8. COA-24-31027

District: Riverside/Avondale - 1819 Montgomery Place Applicant: Jeffrey Broome, Showcase Properties, LLC Owner: Jeffrey Broome, Showcase Properties, LLC

Request: Alterations - Masonry Painting

Staff Recommendation: Approve With Conditions

9. COA-24-31050

District: Riverside/Avondale - 2151 Dellwood Avenue

Applicant: Kristin De Han Owner: Kristin De Han Request: Alterations - Fence

Staff Recommendation: Approve With Conditions

10. COA-24-31078

District: Springfield - 414 4th Street, East

Applicant: TerraWise Homes, Inc. Owner: TerraWise Homes, Inc. Request: New Construction

Staff Recommendation: Approve With Conditions

11. COA-24-31081

District: Springfield - 2124 Laura Street, North Applicant: JWB Real Estate Capital, LLC Owner: JWB Real Estate Capital, LLC

Request: New Construction

Staff Recommendation: Approve With Conditions

12. COA-24-31082

District: Springfield - 1120 Ionia Street Applicant: JWB Real Estate Capital, LLC Owner: Hoose Homes and Investments, LLC

Request: New Construction

Staff Recommendation: Approve With Conditions

13. COA-24-31092

District: Riverside/Avondale - 3633 Richmond Street Applicant: Daniel Greer, JBL Corporation, Inc.

Owner: Daniel Ricci

Request: Demolition / New Construction

Staff Recommendation: Approve With Conditions

14. COA-24-31062

District: Riverside/Avondale - 1449 Talbot Avenue

Applicant: Lauren Papalas Owner: Lauren Papalas

Request: Alterations - Yard Feature

Staff Recommendation: Approve With Conditions

D. Previously Deferred Items to be Heard

E. Condemned Properties

F. Historic Designations

1. LS-23-01

District: 538 Ellis Road, South

Applicant: Sons of Confederate Veterans, Kirby-Smith Camp 1209, Inc. Owner: Sons of Confederate Veterans, Kirby-Smith Camp 1209, Inc.

Request: Landmark Designation

2. LM-24-03

District: 801 Jefferson Street, North Applicant: Amon D. Whetstone Owner: Amon D. Whetstone Request: Landmark Designation

3. LM-24-05

District: 801 Jefferson Street, North Applicant: Amon D. Whetstone Owner: Amon D. Whetstone Request: Landmark Designation

G. Certificates of Appropriateness

1. COA-24-31013

District: Riverside/Avondale -1238 Ingleside Avenue

Applicant: Daniel DuFresne Covenant, Roofing and Construction, Inc.

Owner: Kelly M. Summers Request: Alterations - Roof Staff Recommendation: Deny

- H. Certificate of Appropriateness / Work Initiated or Completed Without a COA
- I. Appeal of Administratively Approved COA's
- J. Minor Modifications to Previously Approved COA's
- K. Public Comments

L. New Business

1. Restore Endangered Historic Adaptable Buildings (REHAB):

REHAB-24-01

District: Springfield - 101 1st Street, West Applicant: Joshua Pardue, Jacksonville Museum Space, LLC Owner: Joshua Pardue, Jacksonville Museum Space, LLC Request: Critical Endangerment Declaration

CITY OF JACKSONVILLE HISTORIC PRESERVATION COMMISSION

Proceedings held on Wednesday, July 24, 2024, commencing at 3:01 p.m., at the Ed Ball Building, Hearing Room 1002, 214 North Hogan Street, Jacksonville, Florida, before Diane M. Tropia, FPR, a Notary Public in and for the State of Florida at Large.

PRESENT:

MICHAEL MONTOYA, Chair. ETHAN GREGORY, Vice Chair. ETHAN GREGORY, Vice Chair.
WILLIAM HOFF, Secretary.
JULIA EPSTEIN, Commission Member.

ALSO PRESENT:

ARIMUS WELLS, Planning and Development Dept SHANNON MacGILLIS, Office of General Counse

Diang M. Tropia, Inc., Post Office Box 2575, Jacksonville, FL 32203 (904) 821-0300

filled one of these speaker cards out, bring it forward, if you haven't already.

Let's see. And, also, one of the first things we do at these meetings is we go through the consent agenda. If you're on the consent agenda today and it's approved, you're welcome to remain for the meeting, but sometimes these meetings last a long time, so you're also welcome to (microphone failure).

You can't hear me? Okay. I'll lean in a little bit more, Diane.

But, yes, if you're on the consent agenda and it gets approved, you're welcome to leave if you'd like to and you're welcome to stay.

So with that, let's start with the agenda.

Oh, and, yes, if you have a cell phone with you, please silence them. And if we go past two hours, we'll take a ten-minute break. (Microphone failure) two hours. And, please, during the meeting, there should be no public displays of support or opposition. That's what the speaker cards are for.

All right. So we have the minutes from last month's meeting. Do I hear a motion for the minutes?

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

THE CHAIRMAN: We'll call the meeting to order. Welcome, everyone.

This is the Jacksonville Historic Preservation Commission meeting, Wednesday, July 24th, 2024, at 3:01.

We'll get started. The first thing we'll do is have some introductions. I'll start over on the right.

COMMISSIONER HOFF: William Hoff, commissioner.

COMMISSIONER GREGORY: Ethan Gregory, commissioner.

COMMISSIONER EPSTEIN: Julia Epstein, commissioner.

THE CHAIRMAN: Michael Montoya, chairman. MS. MacGILLIS: Shannon MacGillis, Office of General Counsel.

MR. WELLS: Arimus Wells, Planning and Development Department.

THE CHAIRMAN: We have a quorum. All commissioners are here.

Just a couple of things. If you intend to speak today, please make sure that you've

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

2

COMMISSIONER GREGORY: Motion to approve the minutes from the June 26, 2024, meeting.

COMMISSIONER EPSTEIN: Second.

THE CHAIRMAN: All those in favor? COMMISSION MEMBERS: Aye.

THE CHAIRMAN: All those opposed?

COMMISSION MEMBERS: (No response.) THE CHAIRMAN: So the first thing we'll list are the items that have been deferred. We

have COA-23-28339, 3664 Richmond Street; COA-23-29186, 2799 Selma Street; LM-24-03, 801 Jefferson Street North; and REHAB-24-01, 101 1st Street West. So those items have been deferred.

And now we'll go through the consent agenda. The consent agenda items are COA-24-30422, COA-24-30751, COA-24-30841, COA-24-30855, COA-24-30874, COA-24-30891, COA-24-30892, and COA-24-30955.

We'll open the public hearing. Is there anyone here that wishes to speak for any of the consent agenda items?

AUDIENCE MEMBER: (Indicating.)

THE CHAIRMAN: If you do, please come

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

12

1 of 47 sheets Page 1 to 4 of 122 08/03/2024 01:42:32 PM

(Audience member approaches the podium.) 1 2 THE CHAIRMAN: Please state your name and

3 address and she'll swear you in.

4 AUDIENCE MEMBER: Kim Pryor, 245 West 5th

5 Street, Springfield.

6 THE REPORTER: If you would raise your 7 right hand for me, please.

MS. PRYOR: (Complies.)

9 THE REPORTER: Do you affirm that the 10 testimony you are about to give will be the

truth, the whole truth, and nothing but the 11

truth? 12

8

19

25

10

MS. PRYOR: I do. 13

14 THE REPORTER: Thank you.

MS. PRYOR: I would like to request that 15

items COA-24-30751, the window replacement, be 16 pulled from consent, as well as 24-30855, a 17

demolition request. 18

THE CHAIRMAN: All right. Thank you.

MS. PRYOR: Thank you. 20

21 THE CHAIRMAN: Is there anyone else who

would like to speak on items on the consent 22 23 agenda?

24 AUDIENCE MEMBERS: (No response.)

THE CHAIRMAN: So we'll close the public

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

hearing. 1

I'll entertain a motion on the remaining 2 3 items on the consent agenda.

COMMISSIONER EPSTEIN: Motion to approve 4

the consent agenda without COA-24-30751 and 5 6 COA-24-30855.

COMMISSIONER GREGORY: Second. 7

8 THE CHAIRMAN: All those in favor?

COMMISSION MEMBERS: Aye. 9

THE CHAIRMAN: All those opposed?

11 COMMISSION MEMBERS: (No response.)

THE CHAIRMAN: So the remaining items are 12 approved on the consent agenda. We'll move the 13 other two to the COAs. 14

15 Thank you.

Now we'll move to Section F, Historic 16

17 Designations.

Sir, your project was pulled from the 18 consent agenda, so it's going to be heard 19 during the COA portion; is that right? Are 20

21 you ...

23

22 MR. WELLS: (Off microphone.)

AUDIENCE MEMBER: (Inaudible.)

THE CHAIRMAN: 1812 Bayard Place, yes, 24

25 sir. It was requested for your project to be

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

placed on the consent -- moved from the consent

agenda and placed on the COA. We'll get to

3 that. We'll get to that section.

4 So Section F, Historic Designations, we have LS-23-01. I'll open the public hearing 5 6 and get a staff report.

MR. WELLS: To the Chair, before we begin, 7

8 can we just confirm the applicant is here 9

16

25

5

10 THE CHAIRMAN: Yes.

Is the applicant for LS-23-01 here today? 11 12

AUDIENCE MEMBERS: (No response.)

THE CHAIRMAN: The Sons of Confederate 13

14 Veterans, the Kirby-Smith Camp, is the

applicant here today? 15

AUDIENCE MEMBERS: (No response.)

17 THE CHAIRMAN: It appears not, so we'll

have to defer this one to next month. 18

19 Okay. So now we'll go on to the COA 20 portion of the agenda, and why don't we start

21 with the first two that were removed from the

consent agenda? We'll start with COA-24-30751, 22

23 1812 Bayard Place. I will open the public

hearing and hear a staff report. 24

Excuse me. Is there any ex parte?

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

8

(904) 821-0300

6

1 COMMISSION MEMBERS: (No response.) 2 THE CHAIRMAN: Okay. We'll have a staff

3 report.

MR. WELLS: Thank you, Mr. Chair. 4

So this is application COA-24-30751 for

the property located at 1812 Bayard Place. So 6 the applicant is seeking to do wholesale window 7

replacement on a contributing structure within

the Riverside/Avondale Historic District. This 9

10 property is located on an interior lot, and it

11 consists of a two-story, Dutch Colonial Revival

12 style single-family home as characterized by

its front-facing cross gambrel roof, wraparound 13

veranda, and windows with grids. The existing 14

windows on the home are wood and metal with 15

lite patterns that include 9-over-1, 6-over-1, 16

17 a 12-grid casement, an 8-grid casement.

18 Once again, the applicant is seeking to request wholesale window replacement due to 19

termite activity. And so we conducted a site 20 21 visit on June 5th, and we noted that there were

22 an abundance of windows that had either dirt

23 buildup, aged caulking. And the applicant did note that prior attempts were made to repair 24

25 the windows, and although we do not -- or we

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

9

did not recognize any significant damage or

rot, the applicant did provide us with 2

3 additional pictures, as well, that demonstrated

termite damage as well as a report from a 4

certified window restoration company as well as 5

6 a wood destroying organisms inspection report, 7

which identified the presence of WDOs.

8 So with those additional competent, substantial evidence, we are inclined to 9

10 recommend approval with conditions as noted in the report. 11

THE CHAIRMAN: Thanks, Arimus.

Any questions for staff? 13

COMMISSIONER EPSTEIN: Through the Chair,

is the additional photos and information --15

that's been inserted into our packet or just 16

the photos that you guys took? 17

MR. WELLS: Through the Chair to 18

Commissioner Epstein, those photos are included

20 in the package. They are just located on the

21 latter end of the book.

THE CHAIRMAN: Any other questions for 22

23 staff?

12

14

19

25

1 2

7

17

18

24 COMMISSION MEMBERS: (No response.)

THE CHAIRMAN: Would the applicant please

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

come forward?

(Audience member approaches the podium.)

3 THE CHAIRMAN: Sir, please state your name

and address and she'll swear you in. 4

5 AUDIENCE MEMBER: 1812 Bayard Place,

6 Richard Metzler, M-e-t-z-l-e-r.

THE REPORTER: If you would raise your

8 right hand for me, please.

9 MR. METZLER: (Complies.)

10 THE REPORTER: Do you affirm the testimony

you are about to give will be the truth, the 11

12 whole truth, and nothing but the truth?

MR. METZLER: I do. 13

THE REPORTER: Thank you. 14

THE CHAIRMAN: So, sir, would you like to 15

16 present your project?

MR. METZLER: Yes.

This was a -- we came from South Florida

and bought this 18- -- 1913. I'm sorry, a 19

1907 -- what do you call -- older house. We've 20

been living there for about six months and we 21

had termites. We had every conceivable thing. 22

The windows were falling apart. 23

24 We had nine different configurations, and

25 what was presented to me was a photograph

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

taken, allegedly, in the '70s when it was a

duplex, and the windows appeared -- there are

three windows up over the porch, which had been

enclosed even during that picture, and they had

5 6-over-6 windows.

6 We went and we endeavored to hire a

company that would come in in a reasonable

8 amount of time and do 28 of the windows in what

we thought were an appropriate 6-over-1 9

10 configuration, which would give a harmonious

look to the building, would preserve its look 11

of the period, and was the largest number of 12

different window configurations that were in 13

the house. 14

15

So we went through an exhaustive

discussion. You know, this was three and a 16

half months ago that we actually submitted the 17

COA. I guess we did, through our 18

manufacture -- or supplier. And there were a 19

20 lot of questions. We met with the group. They

21 gave us guidance, said this is what you need.

Hire a window expert. We did. Hire a termite 22

23 person for the WDO, which we did.

24 We had exhaustive pictures of the --

25 pictures of the inside of the house, close-ups

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

10

of the damage. I mean, there's gaps in the

windows the wind howls through, the insects

come in, leakage in the house, and it's -- it's

really bad. It was done by a flipper who had

no COAs whatsoever for window replacement, 5

which is surprising. So he'd come in -- some 6

of these are Plexiglass. Some of them are just 7

8 inconsistent with any kind of a workmanlike

9 application.

10

So having done all that, we then

11 petitioned to go ahead with the whole thing,

12 and we have a very granular presentation to --

13 all the stuff that we submitted to the group,

and I can't understand why there's such 14

pushback for three and a half months. You 15

know, I've been working on this for a long, 16

17 long time, and we submitted everything that was

18 requested of us and then some. I'm sure it was

an annoyance to the staff, but I kept 19

answering, you know, where is your basis for 20

21 this whole --

22 (Timer notification.)

MR. METZLER -- objection to what was there

and what really isn't. So I don't think it was 24

25 a good, consistent, historical record for what

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

14

12

11

14

13

the actual configuration was since 1907.

2 So that's my story.

3

6

7

8

25

9

10

11 12

13

14

15

16

17 18

19

20

21

THE CHAIRMAN: Thank you, Mr. Metzler.

4 If we need to hear from you, we'll call 5 you back up.

Now we'll hear from any of the public that wants to speak on this item.

(Ms. Pryor approaches the podium.)

9 MS. PRYOR: Kim Pryor, 245 West 5th 10 Street.

Am I still sworn from earlier? 11

12 THE CHAIRMAN: Yes.

MS. PRYOR: Okay. Thank you for pulling 13 14 this off the consent agenda. I appreciate it.

As you know, windows are an integral part 15

of the historic fabric of our historic 16

structures, and I will come and speak against 17

wholesale window replacement every opportunity 18

19 that I can, but in this particular instance,

20 the photographs that were submitted, they look

21 better than a lot of the other pictures -- a

lot of other windows that other people have 22

23 requested to replace. These actually look

24 really good on the pictures.

> But where I have some issues here is in Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

> > 14

the staff report, Mr. Wells mentioned that they

saw dirt buildup and deteriorated caulking and

things of that nature. That is not a reason to 3

replace your windows. That's maintenance. 4

5 Dirt buildup needs to be cleaned off.

Deteriorated caulking -- which I imagine they 6

probably meant "glazing" instead of 7

8 "caulking" -- can be replaced.

Historic double-hung windows were created to make it very easy for someone to repair them. The sashes come out easily. They can be repaired. Termites are everywhere. As soon as they replace these windows, the termites may come back. Have they tented? Because that's the only way to get rid of drywood termites.

I spoke with Angel Corrales about this particular house, and he was there a few years ago and took a look at the windows at the request of the then owner, and he repaired one, which the owner wanted him to do, but he said the rest of them were in really good shape.

22 Again, I have -- I have photographs here 23 of what Andersen replacement windows look like from their website. These are not historically 25 accurate. I'm happy to give these to you if

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

you would like to look at them. There's

also -- each window indicated that they were

also getting a header expander, and I've pulled

that information up. 4

And, also, speaking from Angel, he told me 5 that -- I believe it was Mr. Wells -- had a 6

7 problem with header expanders on a property on

8 Myra Street, and that particular owner was

required to pull those windows because they 9

10 were incorrect.

(Timer notification.)

MS. PRYOR: Okay. I have more, but that's 12 13 my time.

THE CHAIRMAN: Thank you.

15 Is there anyone else who would like to

speak in regards to this COA? 16

17 MR. METZLER: May I make another

supplemental comment, rebuttal? 18

19 THE CHAIRMAN: Yes, sir. Yes.

20 (Mr. Metzler approaches the podium.)

21 MR. METZLER: One of the reports -- one of

the people that she cited, Angel --22

23 THE CHAIRMAN: Morales [sic]?

24 MR. METZLER: Yes, he -- I called him

25 after a recommendation to get a professional to

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

16

(904) 821-0300

come out. No response. Never replied. So

then I went to Lovejoy Construction, which is

another one on -- this is the COA list by

the -- what's it called? The local Riverside

Avondale group. This is their approved

construction -- recommended construction, so I

went and talked to Dandeneau Contracting, Mike,

who came out, looked at all the windows, and he

made a recommendation to replace them all, 9

10 which I sent to the group, to Arimus.

So what can I say? I mean, they are --

12 you know, they're leaking and they're -- and they're cold -- it's cold. The house is cold. 13

The house is hot. You know, we've been going 14

15 around on this whole thing. I'm 81 years old.

You know, I'm a veteran on disability, so I 16

17 should have some consideration on this whole

18 thing, I would think. Okay?

THE CHAIRMAN: Thank you, sir. Thank you. 19

Anyone else? Is there anyone else here to 20 21 speak on this COA?

AUDIENCE MEMBERS: (No response.) 22

23 MR. METZLER: In fact, the windows are

24 single-hung, so I'm told. 25

THE CHAIRMAN: Okay. I'm going to close Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

16

19

20

COMMISSIONER EPSTEIN: Second.

THE CHAIRMAN: Discussion?

COMMISSIONER HOFF: Through the Chair, I

10 would like to hear from Mr. Wells and his thought process on how he came to his 11 12 recommendation.

13 MR. WELLS: Through the Chair to 14 Commissioner Hoff, thank you.

So how the Department came to our recommendation is in accordance with the quide- -- in accordance with the design guidelines as well as the Ordinance Code itself.

And so we did our inspection of the windows. We did note, again, through our report, that there was not significant wood rot or damage, and so that's when we worked with the applicant. That's why it took three-or-so months to come to some type of understanding as

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

to why window replacement was warranted. And

so that's when the applicant provided

3 additional evidence through a window

4 restoration company as well as a termite

5 company. And, again, that last piece was the

wood destroying organisms report. 6

So all those three additional pieces of evidence, if anything, has corroborated the need for window replacement because of the significant termite damage that's been caused by the termite -- yeah, termite damage that's been caused because of the windows.

COMMISSIONER GREGORY: Through the Chair, I'll say that in the real estate business, I

see WDO reports almost daily, and there is -there's a good bit of termite activity here. I

17 mean, you don't normally see this many termites

on window sills. These appear to be drywoods. 18

The full extent of the damage to each window may be not ascertainable from every photo here, but I will say that there is a good

21 amount of termite activity in that home around 22

23 these windows, and that's typically the point

where drywood termites come in. They tend to

25 go for the windows initially. So that's

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

something to take into consideration.

2 COMMISSIONER EPSTEIN: Through the Chair,

I think the picture for me that stands out the

most is on 194, and I -- I think, looking at

these and my experience with historic, is that

this looks like an inspector took a screwdriver 6

7 to the window to check for WDO, and you can

8 tell it's falling apart.

And I would suspect even though these are 9 10 painted and everything, that if you were to do that, that this would happen with a lot of the 11 12 windows. That's just from my own thoughts and experience. It looks like they have been 13

14 freshly painted by somebody, but they are 15 falling apart.

THE CHAIRMAN: Just a question for staff.

17 In comparison to other reports and 18 analyses that have been done in this regard in similar kinds of situations, how would you rank 19

20 the owner's -- the applicant/owner's due

21 diligence in this process in providing to you

and the staff with the information needed to 22

23 render a decision, get this on the consent

24 agenda for today's meeting?

MR. WELLS: To the Chair, the applicant, Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

18

we found to -- has made a concerted effort to

demonstrate that.

3 Normally, we just ask for one evidence -piece of evidence from some type of a qualified 4 expert, but in this instance, they provided 5

three pieces, again. 6

> THE CHAIRMAN: Any other discussion or comments from commissioners?

9 COMMISSIONER HOFF: Through the Chair, just going to kind of share what my thought 10 11 process is here now.

So, yeah, anytime there is a wholesale window replacement request, you know, that's the most severe step someone could make on the renovation of the windows in their house.

So, you know, I also live in a historic house. I've had to tent my house a couple of times for the presence of drywood termites. So I don't really find the presence alarming.

The staff did an in-person inspection. In their opinion, they saw no significant visible 22 damage. And I do think that attempts at repair 23 should be made in this case. That's kind of where my mind is at this time, so ... 24

> THE CHAIRMAN: Is there any more comment Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

14

21

or discussion in regard to this COA

2 application?

COMMISSIONER EPSTEIN: Through the Chair, 3

if we ask them to attempt repair and then 4

windows just kind of disintegrated during 5 6

the -- pulling them out, that's my concern, is

7 that when you start taking these out, they're

8 just going to fall apart.

If that was to be the case, how would they 9 10 come back? What would be the process to come back and -- would they have to do an entirely 11

new COA, or we would have denied them a window 12

that they have asked for, replacement that they 13 14

have asked for?

17

22 23

24

1

7

8

17

18

MR. WELLS: Through the Chair to 15 Commissioner Epstein, I'll have to think about 16

that because if they did -- if you approve them

for window repairs and the windows 18

19 disintegrated or fell apart or some sort --

20 yeah, I believe they would need to submit a new

21 COA for window replacement.

COMMISSIONER EPSTEIN: Could they ask for a wholesale window replacement? Because this is a wholesale window replacement that they

have asked for as a COA.

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

So I'm guessing we would be denying this and saying they need to fix them, so how

would -- because usually once a COA is denied, 3

there's a time period before you can come back 4 5

and ask for it again.

6 MR. WELLS: That's correct.

So you would -- if you did deny it, then they couldn't ask for a wholesale replacement in the same fashion for another year from your

9 10 denial.

11 COMMISSIONER GREGORY: And through the 12 Chair, would they have to get a new COA for the repair? 13

MR. WELLS: That's correct. 14

MR. METZLER: Can I just make one more 15

statement, please? 16

THE CHAIRMAN: Briefly, yes, sir.

(Mr. Metzler approaches the podium.)

MR. METZLER: Does anybody realize the 19

impact of doing this window by window by 20

21 window? There's a time component. We're

living in the house. We're trying to 22

23 redecorate. You know, it's our home.

24 I called these people, and they said --

the repair people that did respond, they can't 25

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

even get close to this. They are booked a year out, and it's going to -- this will take

forever.

4 Can you imagine -- it would be nice to live there with card -- with plywood on this 5

window and then the next window and the next 6 7 window. It would take how many years to do 28

windows? I mean, that's a factor there. 8

THE CHAIRMAN: I completely understand, 9 10 sir.

11 MR. METZLER: And the cost. We cannot 12 afford to have these windows redone window by window. It would be extraordinary. 13

THE CHAIRMAN: Thank you.

Any other discussion? 15

COMMISSIONER HOFF: So -- through the 16

Chair to staff, so the applicant and yourself 17

were in discussion for a number of months about 18

19 this. Was there any discussion of replacing

20 the most severely damaged windows, or was the

21 discussion always about complete wholesale? 22 MR. WELLS: Through the Chair to

23 Commissioner Hoff, the duration of the

conversation really focused on wholesale window 24

25 replacement because if you look at the

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

22

condition of the windows, the majority of them, if not all, appear to be in the same condition.

COMMISSIONER EPSTEIN: Through the Chair 3

to the staff, can you speak a little bit about going out to the site and deeming the windows

fixable, and then now coming to the 6

7 understanding that they are not? What was your

8 process there?

MR. WELLS: Yeah. Through the Chair to 9 10 Commissioner Epstein, so on June 5th, when we 11 did our first -- our site visit, we took photos

12 of the windows, and we examined the windows in terms of the condition, the sills, the headers, 13

et cetera, and we made an initial determination 14

that the windows should be repaired. 15

And so after that, we met with the 16 17 applicant the next few weeks to come up with a 18 reasonable determination in terms of how they could move forward. And so what we needed from 19

them was just additional evidence, so that's 20

21 when they provided the additional evidence, so

22 the termite report -- wood destroying organisms 23 report, et cetera. So that's how we turned

our -- or changed our recommendation. 24

COMMISSIONER EPSTEIN: Through the Chair 25 Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

8

14

19

to the staff, when you go out and you review 2

the windows, how close are you able to get to 3

them?

4 I'm looking at your pictures, and they are 5 kind of from far away, and the pictures that 6 they've provided are close up. Can you -- are 7 you reviewing them as -- you know, obviously,

8 if people aren't home and everything, you can't get in the house and up close to the house, 9

10 but ...

MR. WELLS: Through the Chair to 11 12 Commissioner Epstein, so we try -- we do our 13 best to try to inspect them as closely as 14 possible. Sometimes -- anytime we do a site 15 visit, we request that the owner is there so we 16 can go inside the building.

17 In this instance, yeah, I believe -- I'll have to go through the photos one more time, 18 but I believe the photos did -- yeah, they were 19 20 far apart or -- yeah. So that's the closest we 21 could get just to get a good, holistic understanding of what the condition was, 22 23 especially on the second floor windows.

24 COMMISSIONER EPSTEIN: I'm sorry. I keep 25 asking questions.

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

Did you go out to the house another time, or you're just looking at the photos that the

3 owner provided? MR. WELLS: We did -- no, so besides our 4

first site visit, that's the only site visit we 5 did.

6

1

2

13

14

20

7 COMMISSIONER EPSTEIN: And, I'm sorry, the 8 Dandeneau Contracting, Mr. -- I'm sorry --Metzler had mentioned, is that a -- this list 9 10 of window replacements, is that something that

you provide? Is that something that RAP 11 12 provides?

MR. WELLS: My understanding, RAP is -maintains a list of window restoration --

COMMISSIONER EPSTEIN: So those are people 15 that RAP works with and would trust their 16

17 opinions? MR. WELLS: From my understanding, that's 18 19

correct, but I'll defer to RAP on that. COMMISSIONER HOFF: Through the Chair, I

21 believe there's a representative of RAP here. Could we hear from RAP to talk about their 22

23 confidence in their list that they provide to

24 you? 25

THE CHAIRMAN: I don't see why not. They Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

would need to fill out a speaker card, though.

2 (Audience member approaches the podium.)

3 THE REPORTER: Name and address, please.

4 AUDIENCE MEMBER: Shannon Blankinship, 5 2623 Herschel Street.

6 THE REPORTER: If you would raise your right hand for me, please. 7

MS. BLANKINSHIP: (Complies.)

9 THE REPORTER: Do you affirm that the 10 testimony you're about to give will be the truth, the whole truth, and nothing but the 11

truth? 12

13 MS. BLANKINSHIP: I do.

THE REPORTER: Thank you.

MS. BLANKINSHIP: Just the historic 15

16 contractor list?

17 THE CHAIRMAN: Yeah. What about these 18 contractors?

MS. BLANKINSHIP: So we do maintain one.

20 You know, in truth, I'll have to support

21 what the homeowner said. We really struggle

with contractors for windows in the 22

23 neighborhood. There are four contractors

listed on our historic contractor list, all of 24

25 which have experience doing this work all the

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

> > 28

26 time in the neighborhood. 1

You know, one of the companies come from

Orlando. They really specialize in doing

wholesale because it's so expensive to 4 transport windows to them, and they are

definitely the most expensive of the different 6

7 contractors.

8 Dandeneau Contracting that he mentioned is another one that works in the neighborhood. He 9 10 does one at a time, you know, takes them to 11 shop and restores them.

12 Most of the people in the neighborhood will work with Mike and have windows one at a 13 time, or Dave Doughman of Lovejoy Contracting 14 [sic], another one on the list, they will do 15 the windows one at a time. They are booked out 16

17 for a long while.

18 And, you know, I typically recommend, when 19 people call us, that if they have those main,

you know, important feature windows in the home 20 21 or the windows that are really priority to get

22 done, to reach out to them and have those

23 windows done so that they're not, you know,

looking, you know, years down the line of not 24 25 having any work done and in this really

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

15

16

17

18

19

20

21

22

23

24

29

unfortunate situation of needing wholesale 2 window work, which is the most challenging 3 level of window restoration work to be done.

COMMISSIONER EPSTEIN: I guess just -- I mean, this list you have put together, these are people that work in the neighborhood. And

7 I would think because of that, you would

8 respect their opinion of, you know, what 9

they've put forward here?

4

5

6

10

11

25

1

2 3

4

5

7

16

17

18

19

20

MS. BLANKINSHIP: Yes. I mean, these are the individual craftsmen in the neighborhood that focus specifically on window restoration.

12 13 Obviously, our contractor list, we say 14 these folks are experienced in the rules in 15 obtaining a COA and understand the 16 Riverside/Avondale design guidelines, but we 17 always recommend that folks use, you know, 18 Angie's List and other sort of reputable 19 sources to vet contractors in terms of, you 20 know, other reasons that they may or may not 21 want to hire them, but, I mean, they understand working in the historic district and window 22 23 restoration. 24

THE CHAIRMAN: Any other questions? COMMISSION MEMBERS: (No response.)

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

30

THE CHAIRMAN: Thank you for coming forward and speaking.

I asked staff about the sort of due

MS. BLANKINSHIP: Thank you.

THE CHAIRMAN: So we have a -- we have an applicant, and we have a report from staff.

6 This is --

8 diligence of the applicant, and it seems to be more than normal, but we have a situation where 9 10 this request has been pulled from the agenda, 11 and you have heard some testimony from both the 12 applicant and the two other citizens in the community. So I think we need to have maybe a 13 bit more discussion, but I think we need to 14 15 vote on this.

That was my reason for asking a question of staff, that in comparison to other -- this looked much more extensive than other applicant -- applications I've seen that are similar to this.

21 And Shannon's comment about the 22 contractors that RAP, not necessarily endorses, 23 but recognizes as, you know, very diligent historic contractors in the neighborhood, it

25 certainly isn't in that contractor's interest

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

to say remove these windows if that's his

2 business, to restore them, but I think --3

Any other comments about this or ... 4 COMMISSIONER EPSTEIN: Through the Chair,

5 I would just say, obviously, we're all -- you can tell we're taking this very seriously, a 6

7 wholesale window replacement in a historic

8 district with existing historic -- although it

seems like there's some nonhistoric windows as 9

10 well -- but existing historic wood windows is

always a hard one, but I would take the 11

12 information here that a craftsman who restores 13

these windows is saying, you know, that they 14 can't do it as very serious.

I know some of the windows -- some of the overall windows, things don't look bad, but when you see some of the details, you can tell, if you start picking away at these windows, it seems like -- to me, that they might start falling apart. That's my concern.

So that's how I'm leaning for this -- is that we've been given information by a craftsperson who does this in the neighborhood for a long time and more detailed photos that are showing that things might not be as they

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

32

(904) 821-0300

seem from farther away. So I'm definitely leaning towards the approval of this.

3 COMMISSIONER GREGORY: Through the Chair,

I would agree with Commissioner Epstein on this one, that they have an opinion from a historic

window contractor in the neighborhood. We have 6

7 a WDO report saying there's active termites.

And looking at the photos, you can tell there's

a good amount of damage. And this damage 9

10 appears to be, like you said, Mr. Montoya, that

11 it's more than what we've seen on other

12 applications recently for a window replacement.

There's more damage here than others, and so 13

14 that's -- I would lean towards the approval as 15

well.

18

16 THE CHAIRMAN: Bill, any other final 17 comments (microphone failure)?

COMMISSIONER HOFF: No final comments.

THE CHAIRMAN: All right. There is a 19

motion on the floor, it has been seconded, and 20 21

it's up for a vote, and I have not heard any

22 request to change the motion on the floor. So 23 if I'm not going to hear any other comment, I

24 think we need to put it to a vote.

25 All those in favor?

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

9

10

33

COMMISSIONER EPSTEIN: Aye. 1 2 COMMISSIONER GREGORY: Ave. 3 THE CHAIRMAN: Aye. 4 All those opposed?

5 COMMISSIONER HOFF: Nay.

6 THE CHAIRMAN: Let it be shown it was a 7 three-to-one vote. The item is approved.

8 MR. METZLER: Is it approved? 9

THE CHAIRMAN: You're approved, yes, sir.

10 So let's move on to the other item that was taken off of the consent agenda. It is 11 Item COA-24-30855. We'll open the -- wait. Is 12 there any ex parte for this? 13

> COMMISSION MEMBERS: (No response.) THE CHAIRMAN: I'll open the public

hearing and we'll hear a staff report.

14

15

16

17

18

19 20

21

22

23

24 25

1

8

9

10

11

13

14

15

16

17

18

21

22

MR. WELLS: Thank you, Mr. Chair.

This is COA-24-30855 for the property located at 618 Stockton Street. So this is to demolish a portion of a contributing structure and construct a two-story nonresidential addition. So this property is located on the west side of Stockton Street, between Phyllis

And as you can see from the depicted site Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

Street and Rosselle Street.

34

plan in the report, there's technically two

buildings on the property. However, the first building, which, when you view it from the 3

exterior, is actually a collection of attached 4

5 buildings that have been individually

partitioned off in terms of interior, so the --6

it's known as Buildings 1A, 1B and 2. 7

And so the second building, which is known as the Jacksonville Fire and Rescue Department's union hall, that's Building 3 on the plans. That building is not included

12 within this scope of work.

> So when the buildings were originally constructed in 1926, and up until around 2004, the buildings were owned and operated by Woodlawn Baptist Church. But, nonetheless, according to the applicant, the first building, which is a contributing structure, it will be redeveloped into a health and wellness center

19 for JFRD's uniformed personnel. 20

So, once again, the scope of work includes the demolition of Building 1B, the construction

23 of a two-story addition to Building 1A, and construction of a new vehicle use area or

25 parking lot to the west of the subject

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

1 property.

2 As you look at the elevation plans and the site plans, the proposed two-story addition

will be sited away from the street, recessed from other historic structures, and designed

with a contemporary yet compatible finish in

order to maintain a consistency with the

8 Riverside Avondale Historic District.

So based on our findings -- the applicant did provide an engineering report. That engineering report found that Building 1B 11 exhibiting -- exhibited several structural 12

issues, some of which include water damage and 13

wood rot within the floor joists, ceiling 14

joists, as well as the porch roof, 15

vulnerabilities within the roof membrane, 16 17 (inaudible) corrosion in the concrete lintels

above the windows, cracks in the exterior 18 19 masonry wall, and cracks in the arch lintels

20 that separates Building 1B and 2.

21 So, furthermore, based upon our own visual inspection of the subject property and 22 23 supporting documentation, such as architectural assessment that's included in the book package, 24 staff found the integrity of the structure --

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

so this only for 1 -- Building 1B -- reasonably

compromised that requires a significant amount of rehabilitation in order to restore back to a 3

habitable use. 4

5 But in terms of the addition itself, we

found that it provides a compatible and 6 adaptive reuse of the subject property, and it 7

8 will contribute to the mixed-use treescape

along Stockton Street and Rosselle Street. 9

10 The design of the proposed structure 11 ensures a compatible relationship with other properties in the historic district as well as 12

the proposed contemporary mid-rise building 13

style which will be compatible with the 14

remaining subject properties' buildings as well 15

as the architectural styles of the 16 17

neighborhood. We found that it will also be compatible and subordinate in height. 18

And other than that, we found that it met 19 the Ordinance Code's criteria as well as was 20

21 found to be consistent with the design 22 guidelines, and we forward to you a

recommendation for approval with the conditions 23 noted in the report. 24

THE CHAIRMAN: Thank you, Arimus. 25

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

City of Jacksonville July 24, 2024 Uncertified Condensed Copy Historic Preservation Commission

18

23

25

15

1 Do we have any questions for staff?

2 COMMISSIONER GREGORY: Yes. Through the

3 Chair, so we're demolishing Building 1B here,

and we're adding this addition to 1A, and it's 4

the commercial structure with the glass and 5

6 metal panes along here. Is it your -- staff's

7 opinion that this addition to 1A is consistent

8 in design with the neighborhood for other 9

commercial structures?

MR. WELLS: Through the Chair to Commissioner Gregory, it is compatible, we would say, because of the fact that it's recessed, it's sited appropriately from the public right-of-way, but it also picks up rhythms and themes that you will find on the main buildings, so that's what we found it to be, not necessarily consistent, but, more so, compatible.

THE CHAIRMAN: Any other questions for staff?

20 21 COMMISSION MEMBERS: (No response.) THE CHAIRMAN: Okay. We'll hear from the 22

applicant.

10

11

12

13

14

15

16

17 18

21

25

Is the applicant here?

(Ms. Trimmer approaches the podium.)

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

THE CHAIRMAN: Please state your name and address and she will swear you in.

2 3 MS. TRIMMER: Thank you so much.

Cyndy Trimmer, One Independent Drive, 4

5 Suite 1200, on behalf of the applicant.

6 I represent the Jacksonville Fire and 7 Rescue Department and also the Jacksonville

8 Association of Firefighters. They were lucky

enough to receive a State grant with a local 9

10 match that provided \$5 million to create a

11 health and wellness center for our first

12 responders.

> Looking through the properties that were available, 618 Stockton, which was owned by the Association of Firefighters, was determined to

be the most appropriate location to -- for this 16 purpose -- for the building.

17

Recognizing that we do have the existing structures, we first did an analysis to look to see whether it would be possible to rehab any of the individual structures to be able to house the services that need to be provided, and the existing buildings weren't able to be

22 23

24 reused in their current state.

> We have been working on this for several Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

years. The first proposal, once we determined that we couldn't reuse one of the structures in

the existing state, was to only preserve the

4 chapel and demolish the rest of the building so

5 that we could do a minimum one-story,

5,500-square-foot facility, which is the 6

7 minimum that was determined to be required.

8 Arimus, through a lot of time and effort 9 with the team, got to the point that we have 10 all determined that we can preserve that first building if we can do an addition to it. So 11 12 that allows us to preserve the two anchor structures that really create those corner 13 14 streetscapes and then open up between the

15 buildings to do an addition that is subordinate to the historic structures. 16

17 We talked a lot with the design team. Do

exactly like what's there? And that is always 19

we want to try to create something that looks

20 kind of the debate when you're doing anything

21 with an existing historic structure.

And Brooke Robbins was one of our 22 consultants that talked through the pros and 24 cons of do we try to do something that blends and kind of honors it, or do you do something

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

that's truly distinct and compatible, but

subordinate, recessed, pulled back into the

3 property, and we all determined that that was

the best approach for these structures. 4

5 The main chapel on the front will be enclosed along the back and preserved for

6 future restoration. It has had significant 7

water intrusion and issues with the windows.

They're just not at a place where that one can 9

10 be fixed right now. We can do the first

11 building on the corner with this addition at a

12 cost of \$5 million. The buildings themselves

all together or not even assessed at 1 million. 13

They are actually around 900,000. 14

> So we're prioritizing what we can to get this facility, which is so essential, into

16 service. And then, hopefully, we'll some day 17

have the funding to come back for the church in 18

19 the front. But we do recognize the

significance of those buildings and the 20

21 importance of preserving them, and that's why

22 we have worked so hard to make this project

23 work, preserving the first two.

24 THE CHAIRMAN: Thank you.

Do we have any questions for the 25

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

5

6

1 applicant?

2 COMMISSIONER EPSTEIN: Through the Chair, 3 can you speak if there is any remediation aside

from rebuilding the back wall of that chapel 4

5 building? Are you doing anything else to make 6

sure that it doesn't get in any worse

7 condition?

15

16

17

18

19

20

21

22

23

24

25

10

11 12

13

14

15

8 MS. TRIMMER: They're shoring it up and 9 making it watertight at this point, not full 10 mothballing, but at least making sure that there's not further deterioration to that 11 12 structure.

13 COMMISSIONER EPSTEIN: What would that 14 entail, a new roof or ...

MS. TRIMMER: They don't have the funds to fully do a new roof right now. Again, it's going to be sealing up what can be sealed up, hoping to get funds for that one down the road.

THE CHAIRMAN: Any other questions for the applicant?

COMMISSIONER HOFF: Through the Chair to the applicant, is there any site work in the parking area that's being contemplated as part of this as well, particularly along Rosselle?

MS. TRIMMER: Thank you for that question.

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

1 require another COA?

2 MS. TRIMMER: The hardscape improvements for the surface parking are part of this 3

application. 4

COMMISSIONER HOFF: Okay.

COMMISSIONER GREGORY: And any landscaping

43

44

improvements for a future COA, or this is it

8 with these trees we're showing on the diagram

9 here?

10 Because, I mean, you say you're going to 11 landscape it around these entrances to the 12 parking here and maybe this grassy area at the 13 northeast corner.

14 (Ms. Epstein exits the proceedings.)

15 THE CHAIRMAN: Let's pause for just a

16 second.

17 MS. MacGILLIS: It's a question of quorum, actually. Ms. Epstein stepped out. 18

MS. TRIMMER: They sure do make it hard 19

20 for you to see up there. It's also totally 21 really crazy down here. If you guys look at

each other and talk at all, your voices totally 22

23 cut out of the mics. Even if Arimus turns his

head ever so slightly, your voice totally cuts 24

25 out on sound.

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

42

Why, yes, there is. So the existing 1 hardscape on the site is in the condition that

3 they received it. It could use some love.

4 And, yes, the entire site is going to be redone

5 and actually landscaped so that we can create

6 some streetscape, some relief to the existing

7 condition, which is kind of devoid of trees, around the site, and that is a priority.

8 9 And recognizing the existing condition, I

should note we did look at the opportunity of building on that northeast corner of the site to see if that would have been an opportunity, and working with staff and the team, decided that it was more important to preserve the streetscape there, to not pave this site corner

16 to corner since so much of the site already is

17 paved, and, frankly, they don't have the budget

to do retention for a -- vaulted retention, if 18

19 they were to make more of this site impervious,

20 so that's why we're trying to keep the

21 development within the existing footprint of

what has been developed on the site and just 22

23 improve that rest of that hardscaped area.

24 COMMISSIONER HOFF: Through the Chair, so 25 are you contemplating improvements that will

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

(Brief pause in the proceedings.) 1

(Ms. Epstein reenters the proceedings.)

3 THE CHAIRMAN: Thanks for your patience,

4 evervone.

We can continue now.

6 MS. TRIMMER: It happens to the best of

7 us.

2

5

8 So you have a proposed site plan in there 9

that doesn't constitute a full landscape plan, but the intent is to establish the appropriate

10

11 landscape islands within the vehicle use area

12 and the landscaping that would normally be

required by Code when you're doing a surface 13

lot. 14

15 And I apologize for not having the entire 16 team with me today. We told everybody they 17 could be excused when we were on the consent agenda. 18

19 THE CHAIRMAN: Any other questions for the 20 applicant?

21 COMMISSION MEMBERS: (No response.)

22 THE CHAIRMAN: I just have one question.

23 Is there -- the future (inaudible) of the

24 church proper and the chapel, is there -- are

25 there any ideas being entertained for what use

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

that might have or what function that mighthave when funds are available to restore thestructure?

MS. TRIMMER: Again, it's owned by theJacksonville Association of Firefighters.

6 There's a lot of sister organizations that go

 ${f 7}$ into serving our first responders, and it would

8 be something that goes into service for that

9 community. There isn't a specific program yet,

but they are always looking for funding to makethat viable.

THE CHAIRMAN: So some kind ofcommunity-minded function there?MS. TRIMMER: Specifically, JFRD

MS. TRIMMER: Specifically, JFRD and JSO service.

THE CHAIRMAN: I'm just curious.

17 Any other questions for the applicant?

COMMISSION MEMBERS: (No response.)

19 THE CHAIRMAN: Thank you. If we have more

20 questions, we'll bring you back up.

21 MS. TRIMMER: Thank you.

15

16

18

13

14

15

16

17

18

THE CHAIRMAN: So now I'll open the floor

23 to anyone who wants to speak to this COA.

24 MS. PRYOR: (Indicating.)

25 THE CHAIRMAN: Please come forward.

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

46

1 (Ms. Pryor approaches the podium.)

2 MS. PRYOR: Kim Pryor.

3 So thank you for pulling this one off the

4 consent agenda because I think it required a

5 little more discussion. I have some concerns

6 here because, according to the property

7 appraiser's site, they have owned this property

8 since 2004. That's 20 years. What did they do

9 to secure the property and protect it from the

10 water intrusion and other things that they're

11 saying has caused this structure so much damage

12 that it cannot now be restored?

I am -- there's nothing to say that the other building -- that they are not going to do anything with right now. If they don't do anything to that one, no maintenance, no type of work on that one now, then where are we going to be ten years down the road? Are we going to be in the same position that, oh,

19 going to be in the same position that, oh,20 well, this one is now too bad to be restored?

You know, when you purchase a property, you have an obligation to protect it. I,

myself, own some properties that are not yet

restored, but I've made sure that the roofs are on it, that the roofs are good, they're not

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

1 leaking, and those are the types of things that

2 you have to do as a steward of a historic

3 structure to prevent future damage.

I just think we need to take a look at this a little bit more, you know, ask what did

they do had there -- what permits have been

7 pulled on this building to secure it, to do

8 some repairs that would prevent damage. There

9 is an obligation here to do everything possible

10 to protect historic structures and not to allow

them to get in such disrepair through what we

12 call "demolition by neglect."

I wonder what the condition of theproperty would be today if someone had taken

15 the time to fix the roof. I didn't see any

16 interior pictures in the slideshow that was

17 presented, but, you know, it -- again, it

18 doesn't really matter because you have an

19 obligation to protect this historic structure,

20 and I ask that you do not reward demolition by

21 neglect by granting this -- the demolition

22 request.

25

2

13

Thank you.

24 THE CHAIRMAN: Thank you.

Is there anyone else who would like to

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

48

(904) 821-0300

1 speak towards this COA application?

AUDIENCE MEMBERS: (No response.)

3 THE CHAIRMAN: No?

4 Would the applicant like to rebut the

5 statements.

6 MS. TRIMMER: (Shakes head.)

7 THE CHAIRMAN: No? You decline.

8 So I'm going to close the public hearing

9 and entertain a motion.

10 COMMISSIONER GREGORY: Motion to approve

11 COA-24-30855 at 618 Stockton Street.

12 COMMISSIONER EPSTEIN: Second.

THE CHAIRMAN: Discussion?

14 COMMISSIONER HOFF: Through the Chair, so

15 I certainly share the member of the public's

16 frustration with the idea of demolition by

17 neglect and hope to have a noticed hearing

18 within this body about that issue sometime not

19 too far from now.

In this particular case, because is it not a full demolition -- it's a partial demolition

22 that would be a part of an adaptive reuse

23 project that would give the entire project,

24 including the two other contributing buildings,

25 new life -- I'm going to be in support of this.

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

City of Jacksonville July 24, 2024 Uncertified Condensed Copy Historic Preservation Commission

19

20

21

22

COMMISSIONER EPSTEIN: Through the Chair, I agree with Bill.

I mean, if this was a total request for demolition, I think it would be a completely

5 different story, but the -- I'm sorry. The 6

chance here to take this area of town that's

7 just sat vacant and start to repair it and give

8 it new life in a wonderful new use that will

help the fire department community as well, I 9

10 think, is something I'm in support of.

1

2

3

4

11

12

24

1

2 3

4

5

14

15

16

17

18

19

20

COMMISSIONER GREGORY: Through the Chair, I agree with both commissioners on this one.

13 The adaptive reuse is great. I think it serves 14 our community well.

15 I hate to lose a contributing structure, 16 but I think what both commissioners have said,

that keeping the other structures on the 17

property and properly maintaining them is a way 18 to make this okay, and have them be a glass, 19

20 metal panel entry being subordinate and

21 recessed is -- makes that commercial addition 22

to it an acceptable use. 23

Like Commissioner Epstein said, a vital entry key to the community to have a nice

commercial building and structure there that

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

represents our community, I think, is a good

COMMISSIONER EPSTEIN: Through the Chair,

I will say just -- I do know Jude Kostage, who is with AES as well, and he is a champion for

historic -- just restoration, repair. I've 6

7 worked on [sic] him with multiple jobs, and if

8 you can fix something, he sure will. And he

will crawl all over your building and figure 9

10 out what's going on and tell you exactly how to

fix it, so I think having his structural report 11

12 here is very telling to the current condition

of that structure. 13

> THE CHAIRMAN: I agree with Commissioner Epstein. I worked with Jude on a number of projects, so -- multiple renovations and restorations at Timuquana Country Club most recently. He's a great structural engineer.

I think that -- from my input into this, I would say that the public comment that was made

in regards to demolition by neglect, I, too, am 21

very aware of that. I think it brings 22

23 attention to the structure that's going to

continue to lie vacant. I agree that that

25 one -- I think that is my biggest concern, I

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

1 think, from a --

2 This is opinion, but from an architectural

3 significance point of view, I think it is

probably the most significant piece of 4

5 architecture on the site, and so I think that a

comment towards that would be, buildings lie 6

vacant, many buildings lie vacant for a long

time. And so if people aren't concerned about 8

them, you need to stand up and speak up about 9

10 them and not let it go by, right, because it's easy to let it go by. 11

12 So I think that that would be a charge to 13 the community, that -- to monitor this project 14 and make sure that the church that's going lie vacant, the church (microphone failure) lie 15 16 vacant gets some of that love that's being given to the rest of the buildings on the 17 18 property.

Is there any other -- are there any other comments or discussion for this? We have a motion on the floor.

Are you ready to vote?

23 COMMISSIONER EPSTEIN: Through the Chair,

I'm sorry, just the -- the architect in me 24

25 wants to talk about the new structure just to

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

50

say I know working with, you know, a historic

building, a lot of times, it's very easy to

copy what's there, and I don't think that's

always the answer. And I think what they have 4

5 done here, it -- it's new, and it's modern, and

it's kind of -- all the fire stations tend to 6

7 be pretty fun and everything, so I think it's

8 kind of in keeping with that, but it is

submissive to the design that is there, and I 9

think it's very good in that respect, I'll just 10

11 say as my opinion.

12 THE CHAIRMAN: Commissioner Epstein, thank

you for that. I think that's a really great 13

14 point because, in fact, most language of design

guidelines for historic structures in regards 15

to additions suggest this thing not imitating 16

17 the historic structure because it denigrates

the impact of the historic structure itself, so 18

19 I agree with this move as well from an

architectural standpoint. 20

Thank you.

22 Any other comments or questions or 23 discussion?

24 COMMISSION MEMBERS: (No response.)

25 THE CHAIRMAN: We have a motion on the

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

24

52

53

I floor. We'll put it to the vote.

- **2** All those in favor?
- 3 COMMISSION MEMBERS: Aye.
- 4 THE CHAIRMAN: All those opposed?
- 5 COMMISSION MEMBERS: (No response.)
- 6 THE CHAIRMAN: Let it be known that
- **7** COA-24-30855 is approved.
- 8 Thank you.
- **9** Okay. Thank you, everybody.

The COAs that are listed in Item G on the agenda -- Item Number 1, COA-24-30688, has been

- 12 withdrawn. And Item -- COA -- Item Number 2,
- 13 COA-24-30766, has been deferred. So we'll
- 14 continue on with the agenda. We'll move down

15 to New Business.

Pardon me, everyone. We do -- for Number 17 1, it was requested to be withdrawn, but we do 18 actually have to vote on that.

Do we need to hear a report or anything for that or can we just put it to the vote?

21 MS. MacGILLIS: (Off microphone.)

THE CHAIRMAN: I'll entertain a motion.

23 COMMISSIONER EPSTEIN: Motion to withdraw

24 COA-24-30688.

22

25

7

8

9

18

COMMISSIONER HOFF: I will second that.

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

54

1 THE CHAIRMAN: All those in favor?

2 COMMISSION MEMBERS: Aye.

THE CHAIRMAN: The withdrawal is approved for item COA-24-30688.

Now we move on to New Business. We havesome REHAB projects to speak to.

I'm jumping ahead. I was so excited as we were moving along, but I skipped over public comments, Item K. So we'll open the floor for

10 any public comments.

11 Is anyone here today to make a public comment?

13 AUDIENCE MEMBER: (Indicating.)

14 THE CHAIRMAN: Please come forward.

15 (Audience member approaches the podium.)

16 AUDIENCE MEMBER: Mike Haskins, 417 West

17 7th Street, 32206.

I just wanted to thank this commission and

19 the staff in particular for their hard work

20 regarding the REHAB funding. As a resident of

- 21 Springfield and an employee at SPAR, I am very
- 22 much grateful and in support for additional
- 23 funding for rehabilitation of historic
- 24 structures. This is much needed.

25 I believe it is the first time the City of

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

Jacksonville has made funds available outside

55

56

2 of downtown in some years, and thank you for

3 your hard work.

4 THE CHAIRMAN: Thank you. Thank you,

5 Michael.

So now we go to New Business. We havesome REHAB projects to speak to.

8 MR. WELLS: All right. Thank you,

9 Mr. Chair.

So the first item is for REHAB-24-02. So just a little context here. Commission, if you

12 recall, back at our February 2024 meeting, the

13 Department announced the application release of

14 the Restore Endangered Historic Adaptable

15 Buildings Special Revenue Fund, which stands

16 for REHAB. So once again, this is a

17 reimbursement grant intended to provide an

18 additional incentive to the owners of historic

19 commercial buildings to rehabilitate and

20 restore them to productive use rather than

21 demolish them because of the cost of

22 rehabilitation.

23 So the program guidelines adopted by

24 Ordinance 2023-0316 limits the grant awards to

\$100,000 for eligible costs. So in order to

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

54

1 qualify for a grant the building must be at

2 least 50 years old, it must be

3 income-producing, mixed-use, or owned by a

4 nonprofit entity. It must be located outside

5 of the Jacksonville downtown boundaries. It

6 must be deemed as architecturally or

7 historically significant. And, lastly, it must

8 be designated as a local landmark or designated

9 as a contributing structure within a local

10 historic district.

11 Staff has reviewed this -- these

12 criterion, and we found that it did meet all of

13 the above as it is a designated contributing

14 structure within a local -- Springfield

15 Historic District. So we have forwarded it to

16 you for your review.

17 So in terms of this review, the Commission

now must evaluate the application and make arecommendation as to declare this building

20 critically endangered. And if you do declare

21 it as critically endangered, the application

22 will proceed to the financial review stage.

23 If you decide to deny the application for

24 critical endangerment, the property is no

25 longer eligible for the current REHAB cycle. A

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

57

denial does not hinder the applicant from 2

applying for future REHAB grant cycles. So as you can see in the body of the

3 report, there's five different criteria we have 4 to evaluate on. The fifth one is more so an 5 6 opportunity for you to throw out additional 7 insight or additional context.

8 But in this particular REHAB application, it's for 25 East 1st Street, which is a 9

10 two-story, nonresidential building with Colonial Revival style influences. This 11

12 building was actually built by William B.

Barnett, who is known for Florida's Barnett 13

14 Bank chain, which was constructed in 1901,

right after the Great Fire. In 1941, the 15

Barnett family sold the property to the Solomon 16

17 Lodge, which is one of the oldest Masonic

groups in Florida. 18 19

20

21

22

25

11

12

13

14

15

16

So the intent behind this REHAB application is to demolish -- or partially demolish and restore the structurally compromised front porch.

23 We reviewed the companion COA and we have 24 deemed it eligible for administrative approval.

> So in terms of the criterion, we found the Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

> (904) 821-0300

first one, which discusses evidence of physical

threat, loss, damage or neglect, we found that,

according to the applicant, the second story 3

front porch is exhibiting signs of distress and 4

5 it is detaching from the structure. This is

evidenced by the rotted beams and joists as 6

7

well as damaged column capitals, cornices, and

8 the railing system. The applicant has supplied

engineering drawings that corroborate those 9

10 claims and addressed those structural issues.

The building is currently being occupied and is used for union hall activities. The building does appear to be susceptible to development pressures or even national disasters due to the critically impaired columns on the front porch and a leaking roof. As such, this renders the building extremely

17 18 susceptible to damage during rain events or 19 storms. The fourth criteria discusses whether or 20

21 not the building is suitable for preservation 22 or restoration. It is our standard practice 23 that we look to whether or not the building has signs of exterior alterations that have

negatively impacted the character-defining

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

features of the building as well as if any 2 alterations have been deemed difficult or

3 costly or even impossible to reverse.

4 So based on our analysis and our archival records, the structure does not show any 5

evidence of being significantly altered, 6

7 thereby retains its historical integrity and 8

fabric.

16

17

18

19

9 And once again, the fifth criterion is, 10 again, an opportunity for the Commission to consider any additional relevant evidence or 11

12 testimony, if the applicant wills.

But other than that, we do have a letter 13 14 from SPAR that is in support of REHAB 24-02 for 15 critical endangerment.

And based on the criterion, staff forwards to you a recommendation to approve this building for critical endangerment.

THE CHAIRMAN: Thank you, Arimus.

20 I'll open it up for discussion. Or, I'm

21 sorry, I'll entertain a motion.

22 COMMISSIONER EPSTEIN: Motion to approve

23 the REHAB 24-02 request.

24 COMMISSIONER HOFF: I will second.

25 THE CHAIRMAN: Any discussion?

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

> > 60

1 COMMISSIONER GREGORY: I'm just excited

this building is finally starting to get

restored in the front there. It's a critical

piece of Springfield architecture. I think

5 this is a great use of the funds that we have

6 here.

8

7 THE CHAIRMAN: I agree.

Any other comments?

COMMISSIONER HOFF: Through the Chair, so 9 I was actually on that second story front porch 10

11 about eight years ago and it was in great need

12 of repair at that time, so I also support this.

COMMISSIONER EPSTEIN: Through the Chair, 13 I think you can see from the deterioration and 14

the columns and a lot of the -- you know, not 15

just the decorative features, but looking at 16

17 the brick kind of pulling away, which can only

18 probably bring more -- more problems in the

future, I think this is definitely critically 19

endangered and in need of these funds. 20

21 THE CHAIRMAN: Agreed.

22 Any other comments for now?

COMMISSION MEMBERS: (No response.)

24 THE CHAIRMAN: Let's open up to the floor

25 for public comment for this.

(Ms. Trimmer approaches the podium.) 1 2

MS. TRIMMER: Thank you so much.

Cyndy Trimmer, One Independent Drive,

Suite 1200, on behalf of the owner.

I know we're here to talk about how bad the porch is, but I would be remiss if I didn't take a second to say, if you've never gotten to go tour this building, do yourself a favor and do it. It is such an incredible gem. From 1901 till now, it has had two owners, and they have lovingly preserved this building. I have never been inside a building before that had such a remarkably well-preserved interior. It feels like walking back in time.

Unlike some of the projects that we have, 15 they truly have made best efforts to preserve 16 this building in exactly the state that they 17 received it in 1940. Unfortunately, they did 18 19 have water intrusion that was causing issues 20 with the porch and it got ahead of them before 21 they realized how bad it was getting, so they are going to work on a capital campaign to do a 22 23 lot of different work to preserve the character of this structure, but the important issue right now that is critical is making sure that

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

we don't lose the porch from the front of it.

And it sounds like everybody has read all the materials we submitted, so I won't belabor

the point. We just really appreciate your 4

5 support. We are so grateful for the City

establishing this program and for Arimus' work

in creating a brand-new application and 7

8 process. And we're all going to figure it out

together and we are thrilled to be the guinea 9

10 piq.

3

4

5

6

7 8

9

10

11

12

13

14

THE CHAIRMAN: Thank you.

12 Any other comments in regards to this project? 13

COMMISSION MEMBERS: (No response.) 14 15

THE CHAIRMAN: Any other discussion?

COMMISSION MEMBERS: We'll put it to the 16

vote. There's a motion on the floor. 17

All those in favor?

COMMISSION MEMBERS: Aye. 19

THE CHAIRMAN: All those opposed?

COMMISSION MEMBERS: (No response.) THE CHAIRMAN: REHAB 24-02 is approved.

MS. MacGILLIS: For clarification, the --23

REHAB 24-02, this body has declared this 24

property to be critically endangered. 25

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

THE CHAIRMAN: Yes. So we'll move on to 1 REHAB 24-03 [sic]. 3

MR. WELLS: Thank you, Mr. Chair.

4 So this is REHAB 24-06 for the property located at 213 6th Street East. So, once 5 again, we did evaluate the application in accordance with the program criterion. We did find that it was sufficient as it's located

9 within the locally designated Springfield

Historic District as a contributing structure. 10

This building is a two-story, nonresidential structure with Collegiate Gothic style influences. It's characterized by its rectangular-shaped plan, cast stone pointed door entrances, decorative glass transoms, a parapet and gabled roof and brick veneer exterior.

So the intent behind applying for the REHAB grant is for the applicant to perform structural repairs to the roof, the tower, and miscellaneous means within the sanctuary building.

So we have reviewed their companion COA 23 and we have deemed it eligible for 24 administrative approval.

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

62

And in terms of the criterion, we found 1 that there was evidence of distress, and so --

in particular there was -- on the tower of the

original church, it's leaning inwards and is in

danger of collapse. Portions of the roof on

the second floor have extensive deterioration from water infiltration. There's signs of

water intrusion that have led to deterioration

of the first floor framing, and the proscenium 9

10 beam over the alter is also sagging.

11 The sanctuary building is currently vacant due to these structural issues. And because of 12 the impaired roof system on the sanctuary and 13 associated structural damage, we found that 14 it -- it makes the building susceptible to 15 16 damage during rain events or storms.

And, lastly, the structure has been well-maintained over the years. And according to archival records and permitting, the structure does not show any evidence of being significantly altered; thereby, we found that it retains its historical integrity and fabric.

And based on this criterion, we forward to 23 you a recommendation to declare this building 24 as critically endangered. 25

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

19

20

21

22

23

THE CHAIRMAN: Thank you, Arimus. 1

2 Is there anyone here to speak in regards to this REHAB project? 3

AUDIENCE MEMBER: (Indicating.) 4

THE CHAIRMAN: Please come forward. 5

(Audience member approaches the podium.)

7 AUDIENCE MEMBER: Good afternoon, 8 everyone.

Michael Gerard. I am the assist- -- well, 9 10 I'm the pastor -- local pastor for the church.

And, first, I want to just say thank you for all of -- having this program. We've definitely been in need of some help with our building, and I think this program came along at the right time.

And I thank Arimus for entreating us and helping guide us through this process, and so I just want to say thank you first.

I do have some -- I did not -- I'm kind of new to this, so -- I do have an exhaustive picture profile that I can always forward to you, but I also have some pictures that I did print out, in addition to what you may already have, which shows the -- some of the other work that needs to be done within the building.

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

There is a more significant grant that's out

67

68

there that we definitely qualify, or in my

estimation qualify for. It's a historic -- the

History of Equal Rights grant program. And 4

that provides a lot more financing to help

further the -- you know, the guest to restore

7 the building.

8 So this is just an initial start to stop 9 the bleeding, if you will. And so this is 10 pretty much what we want. We want to just stop

the bleeding, and we've -- you know, there's 11

12 been a -- significant damage, so we need to do something to shore up the building to where we 13

can get the funding and do the research.

And we've -- it's been many years. We finally got the right people around us. And I think you've already mentioned some of the people from -- Brooke Robbins is the architect on the project. And Jude is the structural engineer. So we -- I think we've gotten the right people to help us in our quest, and I think that's what we've been lacking all along, is just the right people.

24 We've done -- believe it or not, we've 25 done a lot to try to ensure [sic] the building.

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

66

And I also have a letter here from one of our neighbors who lives directly down the street, Michelle Gillam (phonetic). She is --

she's probably well known to some of you here. 4

She's -- lives right across the street and 5

she's seen us in numerous years, and she's been 6

7 a blessing to us, and she just wanted to let

8 you know what the building meant to her and

what our organization as a whole meant to her, 9

10 so --

15

23

6

11

12

13

14

15

16

17

18

19

20

21

22

23

1

3

I don't know if you have any questions for 11 12 me.

THE CHAIRMAN: Thank you. 13

14 Any questions?

COMMISSIONER HOFF: Through the Chair, so

just -- I don't think this necessarily has 16

relevancy to declaring it endangered or not, 17

but when a structure like the church has a 18

significant amount of renovation work that's 19

needed, this grant could potentially help with 20

21 that. What's your plan to ensure all of the

22 work gets done that needs --

MR. GERARD: So after this grant, once we get started -- this is really to just shore up,

25 so it -- it buys us the time that we need.

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

We just haven't had the right people, and it --

all our best efforts have failed because we

just didn't have those who knew what this

building needed. It takes a special type of

person -- architect, engineer -- that knows

what this building needs, and I think -- I 6

7 think we're on the right track with that,

8 so ...

10

16

23

THE CHAIRMAN: Thank you. 9

Any other questions?

11 COMMISSION MEMBERS: (No response.)

12 THE CHAIRMAN: Thank you.

MR. GERARD: All right. 13

THE CHAIRMAN: Is there anyone else here 14

to speak in regard to this project? 15

AUDIENCE MEMBERS: (No response.)

17 MR. WELLS: Through the Chair, if I may, I

forgot to mention this in my report, but just 18

for the record, SPAR has also provided a letter 19

of support for the REHAB application. I did --20

21 that's a handout for you.

THE CHAIRMAN: Some discussion? 22

And before we start, just to -- I should

have done this on the first one, I guess, but 24

our task is to declare -- what we're voting on, 25

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

6

to declare this project as critically

endangered by JHPC. And Arimus has done a 2

3 really good job of laying out the criteria for

(microphone failure). Some of those items are 4

5 evidence of physical threat, loss of

6 (microphone failure) --

7

8

9

17

18

19

20

24

25

1

16

17

18

20

23

(Reporter clarification.)

THE CHAIRMAN: I'm so sorry, Diane.

Evidence of physical threat or loss,

10 damage, or neglect. If the building is vacant,

the building's susceptibility to development 11

12 pressures or natural disasters, the building's

13 suitability for preservation or rehabilitation.

14 And then as a last one, any other criteria that

15 they think was relevant to declaring it as

critically endangered. 16

> And so that's what we're tasked with voting on in regards to the reports that are being given.

So some discussion on this?

21 COMMISSIONER GREGORY: I make a motion to

approve the critical endangerment declaration 22

23 for REHAB 24-06 at 213 6th Street East.

COMMISSIONER EPSTEIN: Second.

THE CHAIRMAN: Now discussion.

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

70

COMMISSIONER EPSTEIN: Through the Chair,

I think this is a great example of a building

3 in need of this help.

And again, you know, Arimus, great job 4 5 with this.

6 I'm sure that -- you know, it seems like

7 we have an owner here who's -- they're doing

8 everything they can to maintain this, and this

is going to give them that extra help that they 9

10 need to bring the building up to a standard

that -- that it's not going to be having as 11

12 many defects that could lead to further and

further issues with the structure and issues 13

14 with, you know, some of these defining historic

15 characteristics.

> THE CHAIRMAN: All right. Well, there's a motion on the floor. Should we vote? Let's vote.

All those in favor? 19

COMMISSION MEMBERS: Aye.

21 THE CHAIRMAN: All those opposed?

22 COMMISSION MEMBERS: (No response.)

THE CHAIRMAN: Motion passes.

COMMISSIONER GREGORY: Are we skipping 24

25 24-03?

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

1 MR. WELLS: My apologies. 24-03 has been 2 deferred.

3 COMMISSIONER GREGORY: Okay.

4 THE CHAIRMAN: So we'll move on to REHAB

5 24-08, 1009 Jessie Street.

MR. WELLS: Thank you, Mr. Chair.

7 So this is REHAB application 24-08 for

8 1009 Jessie Street. So, once again, we've

reviewed the application in accordance with the 9

10 criterion. We found that it's sufficient as

11 it's -- it was recently designated a local

landmark. This is actually -- my apologies. 12

This was recently designated as a local 13

landmark a couple of months ago, actually, by 14

15 the Council.

16 So this is a two-story, mixed-use building with masonry vernacular style influences. It 17

was originally constructed as a doctor's office 18

19 on the first floor and two residential

20 apartments on the second floor. The subject 21 property is associated with Dr. Charles

McIntosh, who is a well-known medical legend 22

23 who conducted a portion of his medical studies

24 at this particular building and he lived in the

abutting one-story single residence next door.

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

72

1 So Dr. McIntosh made great strides during

his career, such as being the first black

pediatrician in Jacksonville to open a private

practice. He was also a founding member and

past president of Volunteers in Medicine. And

he was the first African-American to sit on the

Florida Board of Medical Examiners.

8 So the intent behind this application is to perform wholesale window replacement and 9 10 make miscellaneous structural repairs to the 11 buildina.

12 We reviewed the companion COA in accordance with our criterion and we deemed it 13 14 eligible for administrative approval.

So in terms of evidence of physical threat of loss, damage, or neglect, we found that the application noted the windows on the structure as being functionally obsolete or damaged. The plumbing system, the electrical system, as well as the HVAC system are all damaged and in need of upgrades. Because of this and the deferred maintenance, the building is currently vacant.

23 And from an exterior standpoint, we found that the building does not have any evidence of 24

25 susceptibility to potential damage from a

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

15

16

17

18

19

20

21

1

natural disaster; however, this building is 2 located within the recently designated Eastside 3 Historic District.

4 This district has been vulnerable to development pressures, such as the proposed 5 6 renovations to the football stadium, the 7 construction of a new soccer stadium, and the new residential developments that are occurring 8 off of Union Street. 9

Because of its siting at the corner of A. Philip Randolph Boulevard, which is a commercial corridor that's seeing a renewed interest in development, staff finds it critical to protect the McIntosh building from impending development pressures.

And the last criterion in terms of the 16 suitability for preservation or restoration, we 17 do not have any evidence of the building being 18 substantially altered, and it has been 19 20 well-maintained from -- exterior at least, over 21 the years.

According to archival records and permitting, the structure does not have any evidence of being significantly altered, thereby it retains its historical integrity and

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

COMMISSIONER EPSTEIN: Through the Chair, I think that historic Eastside that we -- the Commission recently, within the past couple of

years, declared a historic district, so -- so 4 anything we can do within that area to make

sure that there are historic structures that

are getting remediated and helped and not falling into further disrepair so that they

could become subject to being torn down I think 9 10 is great, so I love seeing this.

11 THE CHAIRMAN: Any other comments? COMMISSION MEMBERS: (No response.) 12

THE CHAIRMAN: Is there anyone here who 13 14 would like to speak to this project?

AUDIENCE MEMBER: (Indicating.) 15

THE CHAIRMAN: Yes. Please come forward. 16 17 (Audience member approaches the podium.)

THE CHAIRMAN: Give Diane your card and 18 19 she'll --

20 AUDIENCE MEMBER: I didn't fill out a 21 card.

My name is Ricky Anderson. I'm a resident 22 23 of the Eastside. I live at 624 Blodgetts Lane.

I'm also the chair of the Historic Eastside 24 CDC. 25

4

74

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

76

1 fabric.

10

11

13

14

15

22

23

24

7

8

15

16

18

So based on our analysis, we forward to 2 3 you a recommendation to approve this application for critical endangerment. 4 5

THE CHAIRMAN: Thank you, Arimus.

6 Any questions for staff?

COMMISSION MEMBERS: (No response.)

THE CHAIRMAN: I'll entertain a motion.

COMMISSIONER EPSTEIN: Motion to 9

10 approve -- I guess motion to approve REHAB 11 24-08.

12 MS. MacGILLIS: I'm sorry. Motion to 13 declare --

14 COMMISSIONER EPSTEIN: I'm sorry.

Motion to declare critically endangered REHAB 24-08.

17 COMMISSIONER HOFF: I will second.

THE CHAIRMAN: And discussion?

COMMISSIONER GREGORY: Again, I think 19

another great use of this program and the funds 20

21 of a recently designated property and building

22 that is significant to the community on the

23 Eastside. I think this is another excellent

use of funds and resources. 24

25 THE CHAIRMAN: Any other comments?

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

My first time speaking in, like -- in this 1 setting, but I do want to say thank you because we need help over there with our buildings. 3

I'm familiar with this building. I pass

by there pretty much all the time. A lot of our buildings, the -- the owners have not been 6 able to -- they don't have the resources or the 7 funds to fix them up, and they are -- they're

falling into disrepair, which you all have 9

10 noticed, but the spaces over there are all

11 special to us over there, and we just need --12 we just need help.

13

I'll be back next month, and so whatever you can do to bring light to the buildings that 14

we have over there -- we have a lot of churches 15 that are in repair -- that needs repair, that 16

17 are historic structures. One that comes to

18 mind is the Mount Olive AME Church. We have --

some of them are just sitting their vacant, so 19

I don't know if the -- we -- like, the owners 20

21 need to come forward or we need to reach out to 22 them.

And I've been making visits, going to 23

those churches and to those places because we 24 have a lot of churches within the community 25

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

6

9

22

5

77

that -- that are in -- like, within the places

2 of houses where I can go and talk to the

- 3 churches. And a lot of the pastors don't know
- about the resources that are out there, so I'm
- 5 doing my part. And I know our president, CEO
- 6 Suzanne Pickett, is doing it as well.

7 So we appreciate your help and we look 8 forward to working with you.

- 9 Thank you.
- 10 THE CHAIRMAN: Thank you.
- Anyone else want to speak on this project? 11
- 12 AUDIENCE MEMBER: (Indicating.)
- THE CHAIRMAN: Please come forward. 13
- 14 (Audience member approaches the podium.)
- THE CHAIRMAN: Sir, do you have a 15
- speaker's card? Did you fill out a speaker's 16
- 17 card?
- 18 AUDIENCE MEMBER: I'm sorry?
- 19 THE CHAIRMAN: Did you fill out a
- 20 speaker's card?
- 21 AUDIENCE MEMBER: Oh no, I don't have one.
- 22 I'm sorry. I'll complete one and I'll turn
- 23 that in.

1

- 24 THE CHAIRMAN: Just make sure you do
- 25 before you leave.

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

78

AUDIENCE MEMBER: Okav.

2 I'm Noriko Floyd, 1015 Jessie Street. I'm

- a fourth generation resident on the Eastside. 3
- I'm the steward for the historic C.B. McIntosh 4
- building, and I'm honored to be here to present 5
- this historic restoration project for this 6
- 7 REHAB program.

8 Thank you, Arimus, for creating this

9 program.

10 This is amazing that this is what the City

is doing to help us in our community on the 11

- 12 Eastside and all the historic buildings that
- need restoration help. 13

Thank you for coming out and speaking on 14

- behalf of the building also. I've never met 15
- you, but I'm going to definitely meet you and 16
- 17 introduce myself.

18 But I am the owner and the steward for the

- 19 building. And if you guys don't know of
- Dr. McIntosh, he's such an historic gentleman 20
- 21 in this city. I'm cousins [sic] of
- 22 Dr. McIntosh. My father and he were the first
- boys of the Anderson sisters of Charlotte Scott
- Anderson that's an historic young lady
- that's -- opened up the first black hardware

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

store on A. Philip Randolph Boulevard. And the

- building was given to Dr. McIntosh from
- Charlotte Scott Anderson, and we are honored to
- present this project and -- and the help that
- we need. 5

THE CHAIRMAN: Thank you.

7 COMMISSIONER GREGORY: Thank you for your

- 8 support and dedication.
 - MR. FLOYD: Thank you.

10 I'm going to get that card and turn it in.

- This one here (indicating)? 11
- 12 THE CHAIRMAN: Yes.

13 Is there anyone else here who would like

- 14 to speak to this project?
- AUDIENCE MEMBERS: (No response.) 15

16 THE CHAIRMAN: Any more discussion or any

- other comments? 17
- COMMISSION MEMBERS: (No response.) 18
- 19 THE CHAIRMAN: No? Should we put it to a
- 20 vote? There's a motion on the floor.
- 21 All those in favor?
 - COMMISSION MEMBERS: Aye.
- 23 THE CHAIRMAN: All those opposed?
- 24 COMMISSION MEMBERS: (No response.)
- 25 THE CHAIRMAN: Let it be known that the

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

motion has passed. 1

> 2 Next on the agenda, we do want to -- just

- want to call attention to some demolition 3
- delays. (Microphone failure) a report and --4
 - MR. WELLS: Yes, we have a report.
- 6 All right. Thank you, Mr. Chair.
- 7 So to the Commission, you haven't seen
- these in a few months, actually, but just to
- provide some context here, this is a demolition 9
- 10 delay process. This is in accordance with
- 11 Section 320,407 of our Ordinance Code.

12 So this is not necessarily a request to

- evaluate whether the building has structural 13
- 14 integrity or whatnot, but it's more so to
- 15 determine if the building is eligible for
- landmarking. So we evaluate the demolition 16
- 17 delay in accordance with our landmarking
- 18 criterion, and so --

This building is triggering the 320.407 19

- review because it's located within the Eastside 20
- 21 National Register Historic District and it's
- 22 listed as a contributing structure. So this
- 23 property is located at 759 Van Buren Street. It consists of a two-story residential building
- 25

with frame vernacular styled influences. It

(904) 821-0300

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

80

was originally constructed as a one-story dwelling, but it, nonetheless, is characterized 2 3 by its rectangular-shaped plan, its gabled roof, stone and wood siding, and enclosed front 4 porch. The fenestration consists of 2-over-2 5 6 aluminum sash windows, 1-over-1 vinyl windows, 7 and fixed-pane windows.

Based on our analysis, we found that the application would only meet two of the seven landmarking criterion. And as you are familiar with the landmarking piece, in order to designate this property as a landmark it needs to meet four of the seven criteria. So we do find that it meets -- it falls short of that because the owner is, of course, in objection to landmarking the property.

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

12

13

14

15

16

17

18

19

20

25

But nonetheless, the first criterion is in regard to being a significant reminder of the cultural, historical, architectural or archaeological heritage of the city, state or nation. This is because it's located within the historically black Oakland community of the Eastside Historic District.

And then the second criteria relates to its suitability for preservation or

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

82

restoration. Although it's currently vacant,

the structure appears to be in decent condition

- from the exterior. We don't have any evidence 3
- of significant deterioration; however, we do 4
- find, once again, that the property has been 5
- severely altered, of course, because this 6
- 7 building was originally built as a one-story
- 8 dwelling and at some point in time a second
- story addition was placed on the building, as 9
- 10 well as a rear addition, and the first floor 11

front porch was enclosed.

So based on that, we found that it only met, again, two of the seven criteria for local landmark designation.

So your job as a commission is to recommend to release the demolition permit for approval or to find additional criteria that would make it suitable for landmarking.

THE CHAIRMAN: Thank you, Arimus.

Questions for staff?

21 COMMISSIONER HOFF: Through the Chair to

Mr. Wells, if the applicant was not -- did not 22

23 initiate the landmark review, was that the City

or was that another entity? 24

MR. WELLS: Through the Chair to

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

Commissioner Hoff, good question.

2 So in this instance, as you are -- any time they're doing a landmarking report or

designation, that's when they have the ability

to initiate it. But if they're requesting to

demolish a contributing structure within a

7 National Register District, they have to be the

8 ones to initiate that process. We're just

using the landmarking criteria to evaluate 9

10 whether or not it should be demolished.

11 COMMISSIONER GREGORY: Just getting clarification on this. It's in the Eastside 12

Historic District, but it's not landmarked as a 13

contributing structure; is that correct? 14 MR. WELLS: Through the Chair to 15

Commissioner Gregory, that is correct. 16

17 COMMISSIONER GREGORY: Okay. Thanks.

THE CHAIRMAN: Any other questions for 18

staff? 19

20

COMMISSION MEMBERS: (No response.)

21 THE CHAIRMAN: Is there anyone here who

would like to speak to this project? 22

23 MS. PRYOR: (Indicating.)

24 THE CHAIRMAN: I will officially open the

25 public hearing.

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

(Ms. Pryor approaches the podium.) 1

MS. PRYOR: Kim Pryor, 245 West 5th 2

3 Street.

4

10

I know that the newly recognized National Historic District of the Eastside doesn't have

any protections from the City of Jacksonville. 6

This demolition delay is minimal. None of 7

8 these structures are subject to Chapter 307 of

our Ordinance Code, and that's sad. 9

I caution anyone that is wanting to

11 demolish a contributing structure to rethink.

12 You know, once this house is gone, it's gone. It is contributing. It was deemed important 13

enough to be included in the historic district. 14

But if we can --

15 16

If we allow the destruction of these 17 contributing structures to continue, then we're 18 going to be in another -- another situation

where, you know, we're just demolishing right 19

and left, like -- and we're going to have to 20

21 start fighting and chaining ourselves to houses

22 like we were threatening to do when the City

23 wouldn't stop tearing down houses in 24 Springfield.

25

Every house is important. The National Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

08/03/2024 01:42:32 PM

85

Park Service deemed that this particular 2 structure was significant. I think that we, as a body, need to also take a look at this and 3 also recognize that it is significant. And 4 5 don't just --

You know, we're going to have more and more and more of these because now people are going to want to come to the Eastside, and it's a -- it's a concern for me. We can't set a precedence that it's -- that it's easy to tear a house down, and I implore this body to take a really good look here and try to protect this structure.

Appreciate your time.

15 THE CHAIRMAN: Thank you.

Is there anyone else who would like to 16 speak to this project, this demolition delay? 17 AUDIENCE MEMBERS: (No response.) 18 19

THE CHAIRMAN: All right. I'll entertain a motion.

20

6

7

8

9

10

8

9

10

19

21 COMMISSIONER GREGORY: Motion to remove the demo delay for 759 Van Buren Street. 22

23 Am I saying that correctly?

24 MS. MacGILLIS: May I suggest a motion to

25 approve the demolition permit?

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

COMMISSIONER GREGORY: Motion to approve the demolition permit for 759 Van Buren Street.

3 COMMISSIONER EPSTEIN: Second.

THE CHAIRMAN: Discussion? 4

5 COMMISSIONER GREGORY: I think -- sorry, 6 go ahead.

THE CHAIRMAN: Just for the record, I'm looking at the report. It says that this is not a -- this neighborhood was (microphone failure) the City of Jacksonville in 1887.

This is the property description in the staff's 11

12 report. According to archival records, the 13

residential structure was constructed in 1904

14 as a one-story residential lot.

15 So it is -- it is clearly a building of considerable age. (Microphone failure) our 16 consideration for this as some public comments 17 were made. 18

So some discussion.

COMMISSIONER HOFF: Through the Chair to 20 21 staff, so because this is a nationally recognized historic district only and not a 22 23 locally recognized historic district, that -it's my understanding that that limits our role. And so a delay allows the staff time to 25

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

see if it's landmark eligible and it allows the 2 owner time to explore other avenues.

3 Could you speak to a scenario where we would not -- where it does not meet landmark 4

5 criteria and we do not release it for

demolition? Could that even happen or --

7 MR. WELLS: Through the Chair to

Commissioner Hoff, unfortunately not, because 8

that's what you're evaluating the report on, is 9

10 that set of seven criterion. So if you -- you would have to have it meet -- or find that it 11

12 meets four or more.

COMMISSIONER GREGORY: Through the 13 14 staff -- excuse me, through the Chair to staff, my understanding is that it's a historic 15

neighborhood, but it has to be a contributing 16 17 structure and [sic] landmark status, and we

would have to find those two criteria today to 18

do that, to be able to not approve the 19

20 demolition permit. And from your report here,

21 I don't see how there's enough there,

especially with Mr. Montoya's comments about 22

23 the addition of a -- possibly a second story at

24 some point to this thing.

> MS. MacGILLIS: Through the Chair, in Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

> > 88

25

12

order to find a criterion that the staff report

does not, on its face, support, you would have

to take evidence, and it would have to be 3

competent, substantial evidence. 4

5 THE CHAIRMAN: So just to clarify that with legal, I understand that the staff looks 6 7 at the criterion, and they have -- in this

particular case, it determined that it meets

two of the criteria, and that is not enough to 9

10 make it eligible for landmark status 11

(microphone failure), right?

MS. MacGILLIS: (Inaudible.)

THE CHAIRMAN: We are still in a position 13 where we can vote in terms of the demolition, 14

but it sounds like that is easily -- as a 15

scenario, if we do not approve this to continue 16

on, demolition, it would seem that the owner 17

would have a path of recourse, and that 18

19 (microphone failure) because there isn't enough

evidence in the criteria to suggest that it is 20

21 worthy of being saved under this particular set

22 of guidelines and rules?

23 MS. MacGILLIS: Hypothetically, if you were to take a vote right now and vote that it 24

25 does meet the -- you vote to recommend the

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

17

4

historic designation and thereby stop thedemolition, it would be subject to appeal

3 because there is not, as you sit in this

4 minute -- if ten people walked through the door

- Initiate -- il teri people walked tillough the door

5 and presented competent, substantial evidence

6 (microphone failure), but in this moment, on

7 the face of the report, there is no evidence,

8 competent and substantial, to bring into play

9 an additional criteria.

10

11

So, at this point, you have not enough criteria to make that designation. That's not my opinion; it is hypothetical.

12 13 So based on Section 324.07, the Historic 14 Preservation Commission is to determine 15 whether, based upon the evidence, the property 16 does or does not meet the criteria for designation. If it does not meet the criteria 17 18 for designation, it lifts the demolition hold. If this body finds it does meet the criteria 19 20 for designation, based on competent and 21 substantial evidence, then the demolition

permit would then be lifted.
COMMISSIONER GREGORY: Through the Chair,
I think I am ready to vote on this one, but I
do think the public comments were appropriate.

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

9

If there is an interest from people in the

public that want to preserve these properties

3 in this neighborhood, it takes a little more

4 proactive action from the people in the

5 neighborhood to preserve these because we don't

6 have -- it does not have the same protections

7 afforded by the City to other historic

8 districts. So if there are people in the

9 community on the Eastside that want to preserve

10 these homes, they need to step forward and get

11 with the homeowners about doing that. It's

12 going to fall a little bit more on the

13 community, it seems like, in this case.

14 THE CHAIRMAN: Yeah. It's a question --15 and I'm opining here. I'm going to use your

16 word. I'm opining a bit here. But it seems

17 like without this being declared a historic

district in the either was been to evaluate and

18 district in the city, we have to evaluate each

19 property based on landmark status. So we're in

20 a similar situation to LaVilla, where it is now

21 such a neighborhood that's completely

22 decimated, that there's not enough left for it

23 to be a historic district anymore. The only

24 thing they have left are landmark status

25 buildings. So that's the situation we're in

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

1 right now. And it sounds like --

2 We have to vote on this today. We have to

3 vote on this today, and there's another one

4 coming up, but I think this points to a real

5 concern that maybe we talk about at the end in

6 terms of not just the demolition by neglect

7 conversation, but also what we can do in this

 $oldsymbol{8}$ regard to keep this from continuing, but I

9 think we have to vote on this.

MS. MacGILLIS: From a procedural issue,the person who made the motion, perhaps to

12 restate the motion specifically to -- that you

13 move to find that this property does not meet

14 the criteria for the historic designation,

15 which would, in effect, do what your motion

16 said, which is to lift the demolition hold.

I'm sorry, I forgot, who made the motion? COMMISSIONER GREGORY: I'll revise my

18 COMMISSIONER GREGORY: I'll revise m 19 motion to -- excuse me. I make a motion to

20 find that the property at 759 Van Buren Street

21 does not meet the requisite criteria for

22 historic designation.

23 COMMISSIONER EPSTEIN: Second.

24 THE CHAIRMAN: All those in favor?

25 COMMISSION MEMBERS: Ave.

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

90

1 THE CHAIRMAN: Motion passes.

2 We'll move on to the next one, demolition

3 delay at 4160 Oxford Avenue.

MR. WELLS: Thank you.

5 So this is a demolition request for -- of

6 a two-story building at 4160 Oxford Avenue. It

7 has a historic address of 4168 Oxford Avenue.

8 This property is listed as a contributing

9 structure within the Old Ortega National

10 Register Historic District.

11 So same scenario a

So same scenario as the previous memo,

12 but -- this one is, again, requesting

13 demolition. This building is a two-story, wood

14 frame, residential building with Colonial

15 Revival styled influences. It was originally

16 constructed as a single-family dwelling;

17 however, it has been converted to office space

18 and other uses over the years. It's

19 characterized by a square shaped plan, hipped

20 roof, weatherboard cladded exterior, exposed

21 rafter ends, an exterior staircase that leads

22 to a second story entrance. Fenestration

23 consists of paired 1-over-1, double-hung, sash

24 windows. And the building was built in 1919.

25 So based on our analysis, we found that it

(904) 821-0300

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

34

93

only met two of the seven criterion. So, once

2 again, in order to make it eligible for local

3 landmark designation, it would need to meet

four of the seven. But nonetheless, the two

5 that we found it met is it being significant in

6 terms of its cultural, historical,

7 architectural, or archaeological heritage of

8 the city, state, or nation.

This one pertains to it being located 9 10 within the National Historic District for

Ortega. This is based on its -- being a 11

collection of homes, mainly 57 -- 58 residences

that are attributed to reflect the Colonial 13

14 Revival style.

1

2

7

15

17

18

15 The second criterion relates to its 16 suitability for preservation or restoration.

Although it's currently vacant, the structure 17

18 appears to be in great condition. We don't

19 have any evidence of significant exterior

20 deterioration. And we found that it, again,

21 had been well-maintained over the years.

22 According to archival records and

23 permitting, the structure does not show any

evidence of being significantly altered,

thereby we found that it met -- it's retained,

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

94

I should say, its historical integrity and fabric.

3 So, once again, we found that it only met two of the seven local landmarking criteria, 4 5 and -- end of report.

6 THE CHAIRMAN: Thank you, Arimus.

I do (microphone failure), but I'll go

8 ahead and do this. I feel like this is

(microphone failure) hearing. 9

10 Does anyone want to speak to this demo 11 delay?

12 (Audience member approaches the podium.)

AUDIENCE MEMBER: Thank you. 13

14 My name is Tim Sleeth. I represent

St. Mark's Episcopal Church Foundation, the

16 owner of the property.

> The property was acquired about 20 years ago with the intent to eventually demolish the

19 building and expand the campus. It's

20 surrounded by commercial buildings, including

21 our youth center. It's about a half a block

22 away from a significant day school.

23 So we -- our plan is to demolish the

building and improve that neighborhood to

25 continue the growth of the church and the --

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

and the services that are provided by the

2 church in the neighborhood.

3 We looked at a variety of alternatives for 95

the use of the building. It was -- frankly, it 4

5 was just not feasible to convert the building

into something that the church could actually 6

7 use, so --

8 I would bring to your attention a letter

9 that we submitted for the record from

10 Dr. Richard Hardin, who was the founder and the

last president of the Ortega Preservation 11

12 Society. He's familiar with the building. He

13 wrote a letter, at our request, and said he

14 didn't have any objection to the demolition of

15 the building and he didn't believe that the

16 building qualified for landmark status, so

17 we're -- we're planning to proceed on that

18 basis, assuming you all approve the -- the

19 report from the staff.

20

THE CHAIRMAN: Any questions?

21 MR. WELLS: Through the Chair to the

22 Commission, I did pass out a hard copy of that

23 letter that was referenced. And this is from

24 Mr. Rick Hardin, so you should have -- you do

have a paper copy of that.

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300 96

THE CHAIRMAN: Anyone else here to speak 1

2 on this demo delay?

3 AUDIENCE MEMBERS: (No response.)

THE CHAIRMAN: I will close the public 4

5 hearing and entertain a motion.

COMMISSIONER GREGORY: Motion to find that 6

7 the property at 4160 Oxford Avenue does not

8 meet the requisite criteria for historic

9 designation.

10

18

24

COMMISSIONER EPSTEIN: Second.

11 THE CHAIRMAN: Discussion? Any comments

12 or discussion on this?

COMMISSIONER EPSTEIN: Through the Chair, 13

14 again, I mean, I think this is, you know,

unfortunate. It seems like a nice, lovely 15

historic home here, but I don't know what we 16

17 can do about it, so that ...

COMMISSIONER GREGORY: I feel the same way

19 about this one as I did the -- the previous

20 demolition delay. It's incumbent upon the

21 community to, you know, provide [sic] these

22 properties that are in historic districts that

23 don't have City protection, and we're -- I mean, it looks -- again, as Ms. Epstein said,

25 it looks like a beautiful home that has

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

10

11

12

23

24

25

4

5

13

97

potential for preservation, but it doesn't 2

really fall -- meet the criteria. THE CHAIRMAN: I forgot to ask this

question of the previous speaker and the 4 applicant, but was there any consideration for

6 selling the home and moving it, allowing

7 someone to move the house to another location?

8 Because it does appear to be on a pier

foundation, and this has been done before. 9

10 There's precedent for --

3

5

11

12

13

14

15

16

17

18

19 20

21

22

23

24

7

11 12

13

14

15

16

17

18

19

25

MR. SLEETH: We discussed that possibility and we haven't found anyone who's interested.

You know, we're not in any great hurry. So if there's -- if there are groups available that might want to consider that possibility, we'd -- we would entertain it, but we don't know of anyone who wants to move that building.

There are other houses in the area, in the neighborhood, that are very, very similar to this house, so it's -- it's not unique, and it doesn't really have that kind of historic value other than its age.

And, by the way, you know, we know what the staff said about the condition of the building. We hired a local contractor to take

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

here, but if the -- potentially, if this

demolition is approved, what would be the -- is

there a time frame for that demolition?

4 MR. SLEETH: We don't currently have a time frame. We're in the capital campaign 5 process right now. There's another building 7 immediately behind it that we're -- we'll also

8 demolish. It's a much more recently 9 constructed building.

So we're trying to spread -- you know, create some space where we can add some functional buildings for the ministry.

THE CHAIRMAN: So would the --13 14 potentially, could there be a consideration for 15 a real -- like, a concerted effort to publicize the building for sale and see if someone --16 beyond just asking around -- I don't mean to 17 diminish your activity in that regard, but a 18 19 real -- like, a formal -- a formal kind of 20 marketing campaign as part of your capital 21 campaign to try to sell a historic home that --22

And I understand in our historic neighborhoods there are many homes that are repeated by design because they're built by builders of that era, but I feel that every

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

98

a look at it, and he said it wouldn't even be

worth his time to prepare a detailed bid or a

detailed proposal. It needs air conditioning, 3

it needs plumbing, wiring, heating, roof, 4 siding. So it's a -- it would be a 5

considerable expense, one that we really 6

wouldn't want to incur because we don't have

8 any use for the building in its -- you know, in

that condition and in that situation. 9 10

just sort of asking around?

THE CHAIRMAN: And when the consideration of maybe sell- -- potentially selling the building, having someone move it off site, when that was being considered or thought of, what was the -- was there any process for that or

MR. SLEETH: We asked, and we asked Dr. Hardin if he knew of anybody. We asked the contractor who looked at the building, who actually has a brother who lives in a house that's nearly identical to that house in -- in

20 21 the Ortega area, and he didn't know of anyone

22 who would incur that kind of expense for a 23 building that wasn't really unique.

this -- sorry to riddle you with questions

THE CHAIRMAN: If the demolition for 24

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

historic home has a kind of footprint and identity to it, even though it may have a

fraternal twin two blocks away. 3

So would that be something that might be considered by St. Mark's for --

MR. SLEETH: I can take that back to the 6 7 board and see if the board has a willingness to 8 do that. We don't have an immediate plan to start demolition, you know, tomorrow, so we --9 we have a little time because we still have to 10 11 raise some money to proceed with it, with the 12

THE CHAIRMAN: Okay.

MR. SLEETH: So I'll take it back to the 14 board for their consideration. 15

16 COMMISSIONER EPSTEIN: Through the Chair, there are a few websites and, you know, 17

Facebook accounts and -- that are -- where 18

19 people post about houses to be moved or houses

to save, as long as somebody wants to move it. 20

21 And it might be worth, if you decide doing

22 that, to -- like, you know, Mr. Montoya was 23 saying here, to just get the word out there a

24 little bit more.

25 MR. SLEETH: We would be happy to discuss Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

100

2

101

1 that.

2 THE CHAIRMAN: Thank you.

3 MR. SLEETH: Thank you.

4 THE CHAIRMAN: So, you know, I'll put that

to the Commission to consider this, that maybe 5

6 this project is a bit different than the first

7 one in that regard because the home --

8 obviously, like many historic homes, you can

pretty much assume it needs a lot of work, but 9

10 it's on pier foundations, and this has been

done before. Maybe delaying this for -- I 11

just -- I want to put that forward for 12

consideration. 13

14

15

20

13

20

23

MS. MacGILLIS: Per ordinance -- actually statute, you have -- it's only a 60-day period and you're 30 days in.

16 17 Point of information is that a demolition permit has its own period of time to be 18

executed. The fact that this property owner 19

may likely find someone to come and move this

21 home does not change the criterion for

landmarking designation. 22

23 COMMISSIONER GREGORY: The only thing I'll

add to your proposal regarding moving the 24

building is it may actually benefit the

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

102

applicants in that they can have someone move

their house for free and save them a cost and expense that would come from demoing the house 3

to begin with. So potentially it's even a

4

5 better option financially.

6 THE CHAIRMAN: I agree. I agree, Ethan, but it sounds like what we're tasked with 7

8 voting on today is not of that concern.

9 I would say to the applicant to please 10 consider this, no matter the vote today,

because I think it is a viable option. 11

12 Any other discussion?

COMMISSION MEMBERS: (No response.)

THE CHAIRMAN: Then we must vote. 14

All those in favor? 15

COMMISSION MEMBERS: Aye. 16

17 THE CHAIRMAN: All those opposed?

18 COMMISSION MEMBERS: (No response.)

THE CHAIRMAN: Motion passes. 19

(Discussion held off the record.)

THE CHAIRMAN: We'll take a 10-minute 21

22 break. We're in recess.

(Whereupon, a brief recess was taken.)

THE CHAIRMAN: All right. A few more 24

items on the agenda. We're at the -- Item M, 25

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

103 Information. So we have four things to speak

3 Arimus.

about.

4 MR. WELLS: To the Commission, the first

item is the bylaws. So this is something --5

just more of notification for you all. This is

something we discussed, that -- because they 7

have not been updated since -- I want to say

2002, so just a heads-up that staff, as well as 9

10 General Counsel, will be evaluating that, and

we'll have some more recommendations to -- in 11

the next successive months. 12

13 That's it on that.

14 The next item, this is just a -- more of

an informational standpoint. This is something 15

that Riverside Avondale Preservation will be 16

17 doing. So these are mainly just right-of-way

improvements within the Five Points region. So 18

19 there's two different projects going on. So

20 the first one is just painted crosswalks. So

21 they're doing three crosswalk paintings, and

22 this will be on Lomax Street, between Park

23 Street and Oak Street.

24 And then the second project that they're

25 looking to do is just installation of some new

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

trash cans. So this will be in various

104

locations. I believe a total of 14 trash cans

3 will be installed.

I will defer to Ms. Blankinship if she has 4 other details to add, and I'll just pull up the 5

renderings here on the screen. 6

COMMISSIONER EPSTEIN: Through the Chair 7

to staff, when are these trash cans going to be

installed? 9

10 I work in Five Points and I go to

11 Five Points in the mornings over the weekend

and it's like a trash disaster because of the 12

current trash can situation. 13

And I talked to Councilperson Peluso about

it and he told me these were coming, and I'm 15

just interested because it's a disaster, yeah. 16

17 THE CHAIRMAN: Do you want to --

MR. WELLS: I'll defer to Ms. Blankinship 18

19 for that.

14

(Ms. Blankinship approaches the podium.) 20

21 THE CHAIRMAN: Commissioner Epstein has

22 some trash she wants to take care of.

23 MS. BLANKINSHIP: So this project has been a long time in the making. We all share your

24 25 concern with just the litter problem in -- in

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

8

9

10

11

2

Five Points.

1

9 10

11 12

13

14

15

16

17

18

19

20

21

25

5

18

23

2 And so the new trash cans should be double 3 capacity. The opening is wide enough to fit a pizza box, which is a concern in the 4 Five Points area. And there's an inability to 5

6 reach in and grab trash out. 7 And so these three factors were primarily 8

what pushed the Merchants Association forward with this particular design. Because they really lacked the historic character that we wanted for Five Points, we added the artistic wrap at extra expense in order to try to brand them to the district a little bit better so that they wouldn't stand out.

The timeline for production, delivery, and installation is 12 weeks, and we are probably three weeks into that. The artwork was probably the first two. And so once they're delivered, the 14 trash cans, as well as an additional, I think, 14 for the Council member in other parts of Jacksonville, they should be

able to be installed immediately. 22 23 COMMISSIONER EPSTEIN: Thank you. 24

THE CHAIRMAN: Is that satisfactory? COMMISSIONER EPSTEIN: It is.

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

I will talk to you separately about my 1 concerns about the landscaping in Five Points. 2

3 MS. BLANKINSHIP: That's also underway, but, ves --4

THE CHAIRMAN: I think these are great.

6 These are the similar -- these are the 7 same trash cans we use at the University of 8 Florida. And I believe these are the -- I believe these are the trash cans in Savannah's 9

10 historic district too.

11 COMMISSIONER EPSTEIN: These are the same 12 that are in San Marco now also?

MS. BLANKINSHIP: They were just installed 13 14 in San Marco, yes.

THE CHAIRMAN: So that's great. I think 15 16 this is great.

17 COMMISSIONER EPSTEIN: Yeah.

MR. WELLS: End of report for that.

THE CHAIRMAN: That's the end of the 19

20 report. Okay.

21 So there's no Old Business -- I'm sorry,

pending legislation. 22

MR. WELLS: So the last item under

New Business is Pending Legislation. Let's

see. Since last month, Ordinance 2024- -- this 25

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

is -0420. This was for a local landmark

designation of a nonresidential building at

2259 West 26th Street. This was actually -- it

107

108

actually went to the Land Use and Zoning

Committee last week, and last night it was

approved for final action by City Council. So

it is officially a landmark designation. 7

In terms of the pending legislation -legislative items, we have 2023-0876. That's just stalled right now.

We have Resolution 2024- -- this is -0420.

12 So this is an appeal that's been filed by the

approval -- for the approval of a demolition at 13

14 125 3rd Street East. Just please note that

this property, unfortunately, has already been 15

demolished, so a withdrawal and a refund will 16

17 be issued to the appellant. So we will be

discussing process improvements at our LUZ --18

19 at the LUZ -- or Land Use and Zoning Committee

20 meeting on August 6th.

> And then the last item is just a resolution that has not been assigned an

23 ordinance number -- or a resolution number just yet, but it's also for an appeal for the denial 24

of window replacement at 1920 Montgomery Place.

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

106

And then Public Works projects, there's nothing to report there, so end of report.

3 THE CHAIRMAN: Is that it for you, Arimus?

MR. WELLS: Yes. 4

5 THE CHAIRMAN: So there's nothing else on the agenda for today, but there are a couple of 6 things that I'd like to discuss, if we could, 7

8 and perhaps vote on or make a decision on.

The first one is demolition by neglect. 9

10 I'd like to have a conversation about that. I

11 know that this is something that --

12 COMMISSIONER HOFF: Yeah, so I reached out

to Mr. Wells and Carla Lopera about holding a 13

noticed HPC meeting about this because it's 14 15 such a large issue that we come across just

about every month and that has been a problem 16

17 for a long time.

18 So I inquired about how to start that

19 process. Mr. Wells has suggested coming up

with some dates and a rough agenda. I provided 20

21 those to him via email, and he inquired about

22 who may be asked to be there. So any relevant

23 City staff, including, of course, himself,

Ms. Lopera or other OGC, possibly Municipal 24

Code, and whomever else the staff thought to be 25

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

22

23

08/03/2024 01:42:32 PM

And I know that there's interest among several community groups, probably more than I'm aware of, and also multiple City Council members to discuss this, and I'll try to find some type of a (inaudible) for this issue.

THE CHAIRMAN: That's great, Bill.

7 8 I would like to propose to the Commission -- the commissioners that are here, 9 10 entertaining, establishing a subcommittee, and it seems -- I would like to nominate Bill to be 11 the head of that subcommittee, to start sort of 12 a formal process in that regard, if -- if 13 you're interested, Commissioner Hoff, because I think this is something that we've been 15 facing -- we faced it today, we faced it last 16

it again, and we -- I think we've got to --I think that we, as a body of commissioners for Historic Preservation -- I know this is a volunteer role, but I think we can do more than vote on -- it's very important what we do, but I think we have -- there's a

potential for us to do more and have a greater

month, the month before. We're going to face

impact in the community in regards to issues Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

110 112

like this that we can --1

I know it bothers all of you as much as it does me, these things that we have to vote on, so I think this is important, and I'd like to propose that we form a subcommittee.

COMMISSIONER EPSTEIN: Second. MS. MacGILLIS: Point of information.

It may be just a semantics thing. I know

Ms. Lopera and I had looked into -- primarily 9 10

Ms. Lopera looked into your bylaws about what is -- what you can do on this type of property. 11

12 You could do a subcommittee or you could also do what's called a "task force." 13

A task force, you can hear by the tone of my voice, is probably where I'm aiming. A task force would be declared by the Chair, and -- I do also recommend -- because I'm doing this for another commission. It's actually what's called a "charging memo," and it states for the public record what is the purpose -- it's usually a limited scope, what you're looking into -- a list of tasks, an end date with a report.

And I had briefly discussed it with 24 25 Ms. Lopera. I cannot say that she said, "Oh,

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

yes, do that," but absolutely that -- she did look and see that that is an option for you.

3 THE CHAIRMAN: What I like about that is it's very pointed in its scope and it has a 4 5 time frame associated with it.

6 As a point of process or as a method or something -- or a task force, those goals, or the tasks of the task force, that doesn't have to be -- that does not have to be determined 9 10 necessarily today, does it? We can come back -- is there a process for us to vet what 11 the task should be for this group? 12

MS. MacGILLIS: It is actually a declaration of the Chair. It can be done -you can sit at your desk and write it out, or at our desks and approve it.

What we did -- what I have had happen in a different commission was that, in general, a -the task list was written out, and then at the next meeting it was discussed, do we agree that this is the task, do we agree that this is within the scope, is this -- and so you could have that as a discussion. You would not be able to write the memo and then circulate it.

THE CHAIRMAN: As the Chair -- as Chair, Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

am I able to -- you know, am I able to discuss this with the other commissioners as I

establish the goals of the task force?

MS. MacGILLIS: The discussion would need 4 to be noticed, but open. 5

6 THE CHAIRMAN: So the best time to do that would be at the next meeting? 7

8 MS. MacGILLIS: Perhaps Ms. Lopera and/or I and yourself can do a draft so you have an 9 10 outline, something to discuss --

THE CHAIRMAN: Perfect.

MS. MacGILLIS: -- and then bring it at the next meeting, and then it can be amended from there in an open meeting/discussion.

THE CHAIRMAN: So let's -- does this sound reasonable?

COMMISSIONER GREGORY: Absolutely. I'm pro having a task force.

18 Would be it prudent to -- before we 19 outline the task force here that Commissioner 20

21 Hoff has decided to volunteer for, is it

22 prudent to wait to get public feedback from 23 this proposed meeting that we have -- that

Commissioner Hoff proposed as well, before we 24

25 have an outline of what this task force is?

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

19

20

THE CHAIRMAN: I would think that we -- it 1 2 would be prudent for us to establish tasks and 3

then vet those tasks through public comment and

interaction, and then -- but I think it's best 4

for us to have a direction initially, and then 5 6

let's see what we can do about it. 7

8

9

10

11

12

13

14

15

16

17

18

19 20

21

22

23

24

25

9 10

11 12

13

14

15

16

17

18

19

20

21

MS. MacGILLIS: Perhaps have it as an agenda item at the next meeting that will be noticed and perhaps a rough outline could be part of the noticed packet so that the public would be prepared to comment on it.

THE CHAIRMAN: And so in preparation of that, I would say, is there -- I'll try not to (microphone failure) and keep everyone here longer than necessary.

Is there anything in particular that comes to mind that you'd like to state in this forum and in this meeting right now (microphone failure) public record -- public meeting minutes that we could use in developing that draft or (microphone failure)?

COMMISSIONER HOFF: So, if I may, this is the draft meeting description that I sent to Mr. Wells.

Demolition by neglect refers to the Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

practice of allowing a structure to deteriorate

to the point that demolition becomes necessary 3 or restoration becomes unreasonable. The

practice is especially problematic when it

4 5

impacts historic landmarks and contributing

structures within historic districts which have 6

been found worthy of preserving for future 7 8

generations.

This meeting -- which you could change to "task force" -- will review the status quo of the issue and discuss steps to remedy. And the draft agenda was just -- introduction, the purpose of the meeting defined, and discuss demolition by neglect, possible solutions and next steps.

THE CHAIRMAN: Thank you, Bill.

Do we agree on this? Yes? Is this something that Robert's Rules of Order -- we should vote on?

MS. MacGILLIS: You do not need to vote on it.

22 THE CHAIRMAN: I wanted to make sure, 23 cross all my Ts.

Okay. And then the last thing, the 24 25 discussions -- the projects that have come up

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

today -- and there's been some others recently

that -- the Eastside and their status, right?

We -- today, we've seen some very -- a very

115

116

specific thing in terms of demolition. Is

there -- what can we do -- the Eastside -- this

Eastside district, it's not -- is it in the

situation of LaVilla?

8 There are structures that can be saved there, but they're not -- most of them are not 9 10 going to meet landmark status designation like (microphone failure). It's going to be 11 difficult -- (microphone failure) like the 12 (microphone failure) we saw today. 13

What other steps -- can we task -- take a 14 deep breath, right? Can we task the staff with 15 pursuing a historic district on the Eastside 16 17 beyond the landmark designation? Because we --I feel like we don't have any teeth here. 18

MR. WELLS: Through the Chair to the Commission, the -- that's something that we do

21 offer to not just the Eastside Historic

District but to other districts as well, so --22

Ortega. We've offered it in the past to 23

South Shores and some other boundary -- or 24

25 neighborhoods.

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

114

1 The only issue with that is -- this is

> really -- we're really succumbing to public sentiment, and a lot of the community does not

want to go through the owner's process of

Chapter 307, which requires a COA, where it

tells you -- it dictates what type of windows

you can have, et cetera, so --

8 Especially on the Eastside, we're working with a more -- much more of a vulnerable, 10 under-resourced community. They specifically 11 did not want to go though the local historic 12 designation process.

13 Right now, I'm on a committee working to get a historic zoning overlay in place to allow 14 for -- what they refer to as -- well, to 15 discourage gentrification, but -- and 16 17 displacement, but they're looking through different avenues to maintain the historic 18

fabric, so --19 Unfortunately, the National Register 20 21 District does not give you the teeth, and so 22 that is something that we're seeing a trend --23 and we do have two more districts that are potentially coming on line. We have the North 24 25 Riverside one that you all recommended to do a

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

(904) 821-0300

10

11

12

13

14

15

16

letter for, as well as the Durkeeville -- and the Phoenix neighborhood. So they all are not 2 3 interested in doing the 307 piece.

So as staff, we can look into maybe some alternatives, maybe we can amend Chapter 307, which goes into the whole demolition delay piece. Maybe it could expand to noncontributing structures, but that is something that we'll have to do some research and evaluate whether or not there's an appetite

COMMISSIONER GREGORY: I suppose in the meantime, if there is a structure in these neighborhoods that you felt was worthy of designation, us, as commissioners, can propose that to be designated and get a staff report on it if we feel it is worthy.

Obviously, there's a -- potential issues with that with the current owners, whether they want it or not, but that is an option if it -we felt a structure was that important.

MR. WELLS: Through the --

23 COMMISSIONER EPSTEIN: That's one of our items we're charged with here is finding 24

historic structures that are suitable for

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

landmarking. 1

7

8

9

10

11

12

13

14

15

16

17

18

19

for that.

THE CHAIRMAN: You know, I understand the situation, and I think that there's probably due diligence that needs to occur on multiple fronts, but I also feel like -- not to be -you know, Martin Luther King once said, there's the best thing to do and there's the right thing to do. And sometimes, as a homeowner -and we see it in here. They don't want to do the right thing with the historic home; they want to do the best thing.

I think we need to be looking for other avenues that go beyond just necessarily ownership of something, right? It's a historic district, it's got landmark -- national status. There has to be -- we need to search for avenues, so -- I don't know what the avenues are. I think that (microphone failure).

Okay. So --

COMMISSIONER HOFF: Sorry. Just real 20 21 quick, I'll pitch a couple of things. This is 22 kind of just general information.

23 A couple a weeks ago, the Florida Trust for Historic Preservation held its annual 25 conference in Tallahassee. Next year it's

> Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

going to be in Fernandina Beach.

2 And next week there is a national conference for entities like this. It's called

the NAPC Forum. It's the only national

conference focused on the issues facing local preservation boards and commissions. It's held

119

120

7 next week down in Palm Beach, so -- just

8 putting that out there if anyone has the 9 notion.

THE CHAIRMAN: Thanks, Bill.

And that reminds me. We need to congratulate you for being honored and receiving the Volunteer of the Year award, the 2024 Florida Preservation Awards. Thank you for your service.

(Applause.)

17 COMMISSIONER EPSTEIN: I have one more thing. I will just say that I met with 18 19 Councilperson Peluso about the contributing

structures, noncontributing structures for 20

21 Riverside, Avondale, and the SPAR district, and he did tell me that RAP and SPAR are both 22

23 looking at updating their overlays. So that

might be something to get in touch with them 24

25 about, reevaluating things that were marked as

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203 (904) 821-0300

118

noncontributing structures back in 1994 or '-5, however long ago it was, because there are

quite a few buildings now that I believe should

be considered contributing and added to that 4 5 list.

So I'm going to be just kind of looking at 6 it with him on that, but he did have a question 7 that -- I didn't know the answer to it. If RAP

or SPAR updates their overlay, is that 9

10 something that we get to comment on or look at before it's approved? 11

12 MR. WELLS: Yes. I think you could

comment on it. I just don't know if you would 13 have a binding recommendation in terms of 14

whether or not something could be approved or 15

denied because I believe the -- the overlays 16 right now, they're housed within a different 17

chapter that we don't have authority over, 18

so -- that's Chapter 656. We oversee 19

Chapter 307. 20

21 But there is definitely an opportunity to 22 comment and give your opinion.

23 COMMISSIONER EPSTEIN: I think -- as long as, you know, RAP and SPAR would be willing, I 24

25 think it would be something to -- you know, to

Diane M. Tropia, Inc., Post Office Box 2375, Jacksonville, FL 32203

COA-24-30741 1448 Pearl Street North

August 28, 2024

Report of the Jacksonville Planning and Development Department Certificate of Appropriateness Application COA-24-30741

Address: 1448 Pearl Street North, RE# 071121-0000

<u>Location</u>: West side of North Pearl Street, between West 4th Street and West 5th Street

Owner: Josefina Gattei

Bellona Property LLC 800 S.E. 4th Avenue

Hallandale, Florida 33009

Applicant: Marco Guerrero

Andesco Construction, Inc.

7643 Gate Parkway, Suite 104-192

Jacksonville, Florida 32256

<u>Year Built</u>: c. 1905 (Florida Master Site File)

Designation: Springfield, Contributing

Request: Alterations

Summary Scope of Work:

1. Reopen front porch and balcony

- 2. Window replacement of four (4), non-historic aluminum windows (Administrative)
- 3. Window opening alterations of two (2) windows (Administrative)

Recommendation: Approve with Conditions

Conditions:

Reopen Front Porch and Balcony

- 1. The design and location shall be substantially consistent with the submitted plans dated June 12, 2024.
- 2. The railing system shall be made of wood or wood composite materials and the spindles centered between an upper and lower rail with no exposed ends (no vinyl or PVC).
- 3. Any new fascia boards and soffits shall be composed of wood or a cementitious material (no vinyl or PVC).
- 4. Any replacement associated with porch repairs shall be performed with like materials.
- 5. The deck boards shall run from the house toward the street front, so the lines are perpendicular to the wall plane of the structure.

- 6. A horizontal trim board shall be used along the exposed edge of the flooring, so it is hidden from street view, unless using tongue and groove boards.
- 7. The new siding shall match the historic siding in design, reveal, dimension, and exposure.
- 8. The new siding shall be feathered into the remaining siding to reduce the visibility of the repairs (no straight vertical seams).
- 9. Prior to the final inspection of any building permit, the owner or their agent shall submit to the Historic Preservation Section an affidavit and any supplementary evidence that verifies compliance with all conditions of the COA final order.

Window Replacement and Opening Alterations (Administrative)

- 10. Any exterior trim work, including traditional sill, sideboards, and header with crown molding, shall be retained or replicated in wood or cementitious materials, but not vinyl.
- 11. All new windows shall fit the original openings both horizontally and vertically and be recessed within the opening (not flush with the wall or have permanent nailing fins).
- 12. The light pattern shall be one-over-one sash style.
- 13. Any sash-style window groupings shall have traditional 4-6 inch flat mullions between window units.
- 14. All new windows shall be wood, wood clad, wood blend, vinyl or cellular PVC.
- 15. All windows shall be installed in accordance with the latest version of the HPS Window Supplement.
- 16. The two (2) new window openings, on the right side shall be aligned with existing windows along the top.
- 17. Any new siding, corner posts, and window trim repairs shall match the historic materials in design, reveal, dimension, and exposure.
- 18. The siding material being installed shall be feathered into the remaining siding to reduce the visibility of repairs; there shall be no straight vertical seams.

PROJECT DESCRIPTION

COA-24-30741 seeks to reopen a two-story front porch and balcony on contributing structure within the Springfield Historic District. Located on an interior lot, the subject property consists of a two-story Frame Vernacular style single-family home characterized by its shingled hip roof and wood drop lap siding. The applicant proposes to reopen the front porch and balcony by removing the addition infill and installing new tapered columns with brick bases, a wood railing system on the balcony, and wood deck boards.

Under **COA-23-29489**, the property owner was approved for partial siding replacement, window trim replacement, fascia replacement, front door replacement, front concrete step repairs, and window replacement of fourteen (14) non-historic windows.

Pursuant to the authority granted to Staff via the 2024 COA Matrix, window replacement of metal or non-original windows with a compatible design, placement, and arrangement and, window opening alterations that are reasonably compatible with the structure can be approved administratively. As such, this report will focus on reopening a two-story front porch and balcony.

STAFF SUMMARY AND ANALYSIS

Staff considered the applicable Design Guidelines for the Springfield Historic District and the Ordinance Code criteria found in Sections 307.106(k), 307.106(l), and 307.106(m). The following is Staff's analysis:

- According to the Jacksonville 1913-1951 Sanborn Map, the subject property originally contained a two-story single-family dwelling with a two-story open porch and balcony on the front elevation. The structure was altered at some point by infilling the balcony and half of the porch.
- The height of the proposed porch and balcony, as conditioned, is compatible with the existing height of the primary structure. The roof form will remain unchanged. As such, the proposed work is consistent with the Design Guidelines and Section 307.106(k)(1-3).
- Section 307.106(m)(8) states, "Architectural details including materials and textures shall be treated as to...enhance the architectural style or character of a landmark or historic district." The proposed porch and balcony wood ceilings, tapered columns with wraps, brick bases with caps, and wood railing and flooring, as conditioned, will match the existing structure in materials, height, and shape. The design of the porch and balcony, as conditioned, is uniform with the primary structure, which is consistent with Section 307.106(m)(1, 4, and 8) and the Design Guidelines.
- Consistent with the Historic District Design Guidelines section on "Additions," the
 proposed scope of work, as conditioned, does not require any changes to significant
 historic fabric. If removed in the future, the removal of the porch and balcony would not
 cause any damage to or detract from the historic primary structure. As such, the proposed
 scope of work, as conditioned, is consistent with Section 307.106(k)(1-3).
- The Historic Preservation Guidelines for the Springfield Historic District references "Porches" and recognizes that full-façade width entrance porches are an important design element of historic residences in the Historic District. Serving as a transitional

space between the exterior and the interior, and defining and protecting the primary entryway into the residence, front porches are the principal location for ornamentations and detailing such as piers, columns, rails and spindles, as well as brackets and other jigsawn woodwork. The size, style, sense of openness, and detailing are all important attributes of porches and should be preserved or properly restored based on physical or documentary evidence. Moreover, the Design Guidelines for the District reference Standards Two (2), Six (6), and Nine (9) of the Secretary of the Interior's Standards for Rehabilitation:

- Standard Two (2) refers to the historic character of a property being retained and preserved amid the removal of historic materials or features. The applicant's scope of work would bring the home closer to its original state and restore its architectural character—thereby achieving compatibility with the massing, size, scale and architectural features of adjacent properties, consistent with Sections 307.106(k)(1 & 3) and 307.106(l)(2).
- Standard Six (6) refers to how new features shall match the old in design, color, texture, and other visual qualities, and where possible, materials. The height, openness, column design, and wood materials of the porch and balcony are more compatible with the house and the Springfield Historic District. As such, the proposed work, as conditioned, is consistent with Section 307.106(I)(6).
- Standard Nine (9) emphasizes that exterior alterations shall not destroy historic materials, is differentiated from the old while being compatible in massing, size, scale, and architectural features in order to preserve the historical integrity of the property and its immediate surroundings. The new porch and balcony, as conditioned, will restore the front porch and balcony element on the structure, and the design and materials will differentiate the work from the old.

For these reasons, it is the position of the Planning and Development Department that the proposed work under the stated conditions is consistent with:

- Section 307.106(k) General Standards: 1, 2, and 3
- Section 307.106(I) Guidelines on "Alterations": 2 and 6
- Section 307.106(m) Guidelines on "New Construction": 1, 4, and 8
- Historic District Design Guidelines, Sections on "Roofs and Roof Surfaces," "Additions," and "Porches"

CODE CRITERIA AND DESIGN GUIDELINES

General Criteria

- 307.106(k)(1) The effect of the proposed work on the landmark, landmark site or property within an historic district upon which such work is to be done;
- 307.106(k)(2) The relationship between such work and other structures on the landmark site or other property in the historic district;

• 307.106(k)(3) - The extent to which the historic, architectural, or archaeological significance, architectural style, design, arrangement, texture and materials of the landmark or the property will be affected;

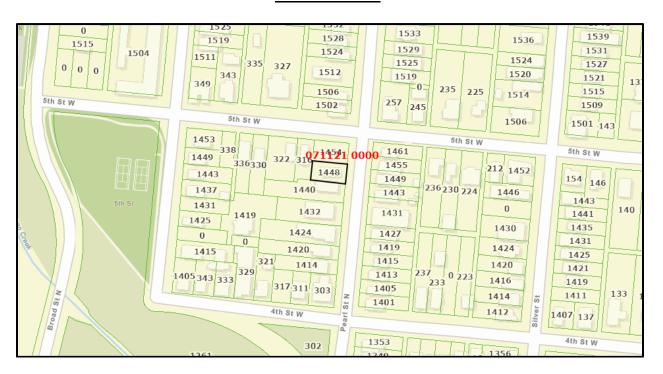

Alterations

- 307.106(I)(2) The distinguishing original qualities or character of a building, structure, or site shall not be destroyed. The removal or alteration of any historic material or distinctive architectural features shall be avoided when possible.
- 307.106(I)(6) Deteriorated architectural features shall be repaired rather than
 replaced, wherever possible. In the event replacement is necessary, the new material
 shall match the material being replaced in composition, design, color, texture, and other
 visual qualities. However, technologically advanced materials shall be considered and
 used as replacement alternatives. Repair or replacement of missing architectural
 features shall be based on accurate duplications of features, substantiated by historical,
 physical, or pictorial evidence rather than on conjectural designs or the availability of
 different architectural elements from other buildings or structures.

Historic District Design Guidelines, "Roofs and Roof Surfaces," "Additions," and "Porches"

- Secretary of the Interior's Standards for Rehabilitation (2):
 The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
- Secretary of the Interior's Standards for Rehabilitation (6):
 Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.
- Secretary of the Interior's Standards for Rehabilitation (9):
 New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.
- Secretary of the Interior's Standards for Rehabilitation (10):
 New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

Application Certification =

For applications that can be approved administratively, there is no application fee.

For all applications that must go before the Historic Preservation Commission, a fee will be applied based on the type of work performed.

Application completeness review: All applications for Certificate of Appropriateness ("Application") will be reviewed for completeness by Planning and Development Department Staff. Any Application determined to be incomplete, will be returned to the applicant with comments detailing the deficiencies. No further action on the Application will take place until the application deficiencies are addressed. Once the Application is determined to be complete, Planning and Development Department Staff will prepare an invoice for the cost of the Application.

Payment deadline: The Invoice must be paid by the payment deadline in order to have the Application heard on the next scheduled Jacksonville Historic Preservation Commission (JHPC) regular meeting. The payment deadline is outlined on the City of Jacksonville's Planning and Development Department Website. Only Complete Applications will be invoiced. It is for the benefit of the applicant to supply staff with a complete Application in advance of the payment deadline. Due to the complexity and volume of Applications received by the Planning and Development Department, there is no guarantee that COA Applications submitted on the day of the payment deadline will be heard at the next regular meeting of the JHPC.

I, hereby, certify that I am the owner or the authorized agent of the owner(s) of the property described herein, that all answers to the questions in this application and all information contained in the material attached to and made a part of this application, are accurate and true to the best of my knowledge and belief. I also attest by my signature that all required information for this application is completed and duly attached in the prescribed order. Furthermore, if the package is found to be lacking the above requirements, I understand that the application will be returned for correct information.

I UNDERSTAND THE ABOVE DISCLAIMER REGARDING APPLICATION REVIEW. AGREED TO AND SUBMITTED.

Property taxes are subject to change upon change of ownership.

- Past taxes are not a reliable projection of future taxes.
- The sale of property will prompt the removal of all exemptions, assessment caps and special classifications.

NOTICE OF PUBLIC HEARING SIGN POSTING AFFIDAVIT FOR APPLICATION FORWARDED TO THE JACKSONVILLE HISTORIC PRESERVATION COMMISSION

COA#:

As required by Sec. 307.106.(f) of the City of Jacksonville Ordinance Code: The applicant for a certificate of

appropriateness shall post signs at intervals of not more than 200 feet along all street sides of land upon which the request for a certificate of appropriateness is made. Signage should be posted at least 14 days prior to the scheduled public hearing. Where the land does not have frontage on a public street, the signs shall be erected on the nearest street right-of-way with an attached notation indicating generally the direction and distance to the land upon which the application for a certificate of appropriateness has been filed, or at such other locations and at such intervals, as determined by the Planning and Development Department, as will ensure that the signs will be seen by as many persons as possible. The signs shall be maintained by the applicant until a final determination has been made by the Commission on the application for a certificate of appropriateness. If the signs are not posted within the time requirements, the public hearing notice will be deemed inadequate and no action shall be taken until proper posting is accomplished. The signs shall be removed by the applicant within ten days after final action.
I hereby attest that the attached pictures show the NOTICE OF PUBLIC HEARING SIGNS
provided to me for application <u>COA2430741</u> were posted on the property/site located at:

GENERAL NOTES

- 1. It is the intent of the Designer that all be in accordance with 1. Smoke Detectors/Carbin Monoxide detectors to be located per FBC all requirements of the building authorties having jurisdiction over this section R314 & R315. type of construction and occupancy.
- 2. The Contractor shall verify all conditions and dimensions at the job site prior to commencing work. The Contractor shall report all discrepancies between the drawings and existing conditions to the Designer prior to commencing work.
- 3. The Contractor shall supply, locate, and build into the work all inserts, anchors, angles, plates, openings, sleeves, hangers, bracing, slab depressions, and and pitches as may be required to attach and accomodate other work.
- 4. All details and sections shown on the drawings are intended to be typical and shall be construed to apply to any similar situation elsewhere in the work, except where a different detail is shown. (Any connecting a garage to the house have some type of closure. details provided by the Engineer and/or Contractor to supercede those provided by the Designer).
- 5. Roof ventilation to be provided per FBC sections R806.

Contractor supercede those provided by the Designer.

DESIGN SPECIFICATIONS

Design Code: The 2023 Florida Building Code (FBC) - Residential Occupancy: Residential Group R-3 (One and Two Family Dwellings) Construction: Type V, Unprotected Note: Any design Specifications provided by the Engineer and/or

2. All window and door openings labled "egress" to comply with FBC section R310 & R311.

(Including but not limited to):

AUTOMATIC FIRE DETECTION

EGRESS OPENING COMPLIANCE

ALL APPLICABLE BUILDING CODES APPLY

FBC-R302.5.1: This door min. 3/8" thick solid wood, or min. 1 Honeycomb core steel, or 20 minute fire-rated. Requires doors

FBC-R302.5.2: Ducts in garage shall be min. 26ga. sheet metal, or Owens corning min. 1" thick Endura gold duct board.

1. See Floor Plan for egress window and door locations "this sheet".

FBC-R302.1: Structures set back 5' or less from the property line may layer of approved water-resistive barrier over an approved plastic be required to have fire rated overhangs and no projections closer than two feet from the property line. Please review complete code section. manufactures installation instructions.

FBC-R302.6: Garge wall shall be separated from residence and it's attic FBC-703.6.5: While previous codes have referenced that the exterior with min. 1/2" gyp. bd. applied to garage side. Garagees beneath plaster shall comply with ASTM C926 and ASTM C1063, this section habitable rooms shall be seperated from rooms above with min. 5/8" type "X" gyp. bd. where the seperation is a floor—ceiling assembly, any structure supporting the assembly shall be protected with min. 1/2"

FBC-R1601.4.7: Min. 4" clerance required around all sides ormech. equipment and componets, including ducts.

FBC-R, M1307.2: Ground-mounted mech. units shall be anchored in accordance with this section.

FBC-R303: Revises glazing requirements around wet surfaces.

FBC-R402.4.1.2: Florida Building Code — Energy Conservation requires blower door testing to confirm air leakage not greater than 5 air changes per hour. Testing must be done by an approved third party and a report is to be provided to the building official.

FBC-R303.4: Requires a whole house ventilation system meeting M1507.3 requirments when the air infiltration rate is less than 5 air changes per hour. (Which is what R402.4.1.2 above requires, thus all houses must have a whole house ventilation system).

FBC-R312: Changes requirements for guards and window fall protection.

FBC-R806: Changes attic ventilation requirements.

FBC-R905: Changes installation and type of roofing underlayment (similar to present re-roofing requirements).

FBC-R703.6.3: Where stucco is applied to lathe over wood frame construction, a bond — breaker is required between the water — resistive barrier and the stucco per one of the following methods" 2 layers of approved water— resistive barrier material, or 1 house wrap, or other approved method in accordance with the

specifically states minimum curing time between coats.

FBC-M1506: Has added minimum clearance distances between air exhaust (bathroom, kitchen, etc.) and building openings.

COA-24-30849 1237 Lechlade Place

August 28, 2024

Report of the Jacksonville Planning and Development Department Certificate of Appropriateness Application COA-24-30849

Address: 1237 Lechlade Street, RE# 079269-0004

<u>Location</u>: Northeast side of Lechlade Street, between Randall Street and Remington Street

Owner: Gino Cogorno

Real Estate Pros of North Florida, LLC

8802 Runnymeade Road Jacksonville, Florida 32204

Applicant: Autumn L. Martinage

Alphazet Development, LLC

9838 Old Baymeadows Road, #105

Jacksonville, Florida 32256

<u>Year Built</u>: c. 2024 (Property Appraiser)

Designation: Riverside Avondale, Unlisted

Request: Alteration - Fencing

Summary Scope of Work:

1. Install an 8-foot-tall fence and a 6-foot-tall gate

Recommendation: Approve with conditions

Conditions:

- 1. The location of the fencing and gate shall be substantially consistent with the site plan dated August 14, 2024.
- 2. The fence shall not exceed 8-feet-tall and shall be a wood dog ear design.
- 3. The gate shall not exceed 6-feet-tall and shall be a wood or aluminum, vertically oriented, and simple design.

(Google, 2023)

PROJECT DESCRIPTION

COA-24-30849 seeks to install an eight (8) foot tall, wood dog ear privacy fence and a six (6) foot tall, wood or aluminum gate on an unlisted property located in the Riverside Avondale Historic District. Located on an interior lot, the subject property currently consists of a one-story, single-family home and detached garage, which are under construction per previously approved COA-21-26714. The eight (8) foot tall fence will surround both the home and detached garage. Additionally, the fence will continue along the sides of a concrete ribbon driveway, end at the neighbor's fence line (1243 Lechlade St; RE: 079269-0002), and finally connect to the six (6) foot tall gate. According to the applicant, the property owner requests these fence and gate heights for privacy from and into the surrounding properties.

STAFF SUMMARY AND ANALYSIS

Staff considered the applicable Design Guidelines for the Riverside Avondale Historic District and the Ordinance Code criteria found in Sections 307.106(k) and 307.106(l). The following is Staff's analysis:

• The installation of an eight (8) foot tall, wood dog ear fence and a 6 foot tall gate, as conditioned, does not change the relationship of the subject structures or site to the surrounding area and does not negatively impact the subject structures. The fence will be located along the subject property lines, which are along the rear yards of the surrounding properties. Additionally, the new fence and gate, as conditioned, does not block any significant architectural features. The unique "flag lot" shape of the subject property conceals the home and detached garage from the street. As such, the

- proposed work, as conditioned, is consistent with Sections 307.106(k)(1 and 2) and 307.106(l)(1).
- Staff internally coordinated with the Current Planning Division and the requested eight (8) foot tall fence and six (6) foot tall gate adhere to the Zoning Code. The six (6) foot tall gate height and design, as conditioned, is consistent with Historic District Design Guidelines, Section on "Setting" that limits privacy fencing to 6 feet tall.

For these reasons, it is the position of the Planning and Development Department that the proposed work under the stated conditions is consistent with:

- Section 307.106(k) General Standards: 1 and 2
- Section 307.106(I) Guidelines on "Alterations": 1
- Historic District Design Guidelines, Section on "Setting"

CODE CRITERIA AND DESIGN GUIDELINES

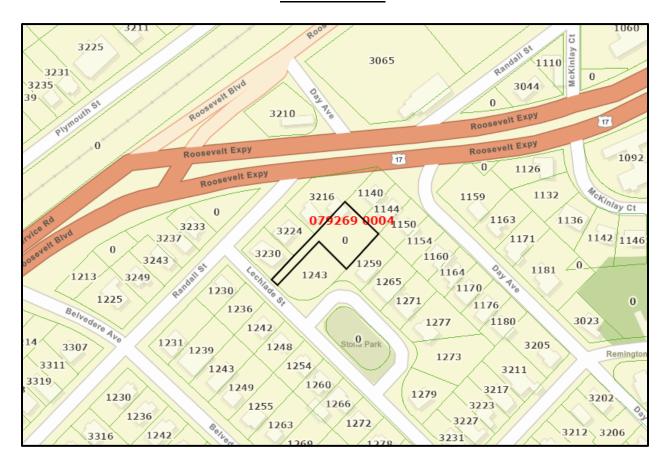

General Criteria

- 307.106(k)(1) The effect of the proposed work on the landmark, landmark site or property within an historic district upon which such work is to be done;
- 307.106(k)(2) The relationship between such work and other structures on the landmark site or other property in the historic district;

Alterations

• 307.106(l)(1) - Every reasonable effort shall be made to use a property for its originally intended purpose, or to provide a compatible use for a property that requires minimal alteration of the building structure, or site.

- Application Certification -

For applications that can be approved administratively, there is no application fee.

Application completeness review: All applications for Certificate of Appropriateness ("Application") will be reviewed for completeness by Planning and Development Department Staff. Any Application determined to be incomplete, will be returned to the applicant with comments detailing the deficiencies. No further action on the Application will take place until the application deficiencies are addressed. Once the Application is determined to be complete, Planning and Development Department Staff will prepare an invoice for the cost of the Application.

Payment deadline: The Invoice must be paid by the payment deadline in order to have the Application heard on the next scheduled Jacksonville Historic Preservation Commission (JHPC) regular meeting. The payment deadline is outlined on the City of Jacksonville's Planning and Development Department Website. Only Complete Applications will be invoiced. It is for the benefit of the applicant to supply staff with a complete Application in advance of the payment deadline. Due to the complexity and volume of Applications received by the Planning and Development Department, there is no guarantee that COA Applications submitted on the day of the payment deadline will be heard at the next regular meeting of the JHPC.

I, hereby, certify that I am the owner or the authorized agent of the owner(s) of the property described herein, that all answers to the questions in this application and all information contained in the material attached to and made a part of this application, are accurate and true to the best of my knowledge and belief. I also attest by my signature that all required information for this application is completed and duly attached in the prescribed order. Furthermore, if the package is found to be lacking the above requirements, I understand that the application will be returned for correct information.

I UNDERSTAND THE ABOVE DISCLAIMER REGARDING APPLICATION REVIEW. AGREED TO AND SUBMITTED.

Property taxes are subject to change upon change of ownership.

- Past taxes are not a reliable projection of future taxes.
- The sale of property will prompt the removal of all exemptions, assessment caps and special classifications.

ZEAL ESTATE MOS OF WOTH PL UL

As required by Sec. 307.106.(f) of the City of Jacksonville Ordinance Code: The applicant for a certificate of appropriateness shall post signs at intervals of not more than 200 feet along all street sides of land upon which the request for a certificate of appropriateness is made. Signage should be posted at least 14 days prior to the scheduled public hearing. Where the land does not have frontage on a public street, the signs shall be erected on the nearest street application for a certificate of appropriateness has been filed, or at such other locations and at such intervals, as determined by the Planning and Development Department, as will ensure that the signs will be seen by as many persons as possible. The signs shall be maintained by the applicant until a final determination has been made by the Commission on the application for a certificate of appropriateness. If the signs are not posted within the time requirements, the public hearing notice will be deemed inadequate and no action shall be taken until proper posting is accomplished. The signs shall be removed by the applicant within ten days after final action.

2030 Walnut Street, c. 1909 (Property Appraiser)

Designations: 2026 Walnut Street, Springfield, Non-contributing

2030 Walnut Street, Springfield, Contributing

Request: Alterations – Accessibility Ramp and Hardscaping

Summary Scope of Work:

1. New accessibility ramp on 2026 Walnut Street

2. Repave secondary walkway on 2030 Walnut Street

Recommendation: Approve with Conditions

Conditions:

- 1. The location and design shall be substantially consistent with the elevation plan and site plan dated July 29, 2024.
- 2. The ramp shall be a non-permanent feature and shall not obscure significant architectural details.
- 3. The railing system shall be made of wood or wood composite materials and the spindles shall be centered between an upper and lower rail with no exposed ends (no vinyl or PVC).
- 4. The wood ramp shall be painted or stained.

- 5. The secondary walkway shall be poured concrete
- 6. Any existing sidewalk shall not be altered or disturbed in any way.

2030 Walnut Street

(Google, 2023)

PROJECT DESCRIPTION

COA-24-30895 seeks to install a new accessibility ramp along the rear (west) elevation of a one-story, non-contributing, Masonry Vernacular style structure located at 2026 Walnut Street (RE: 072113-0000). Additionally, the applicant seeks to repave a secondary walkway along the right (north) and rear (west) elevations of a one-story, contributing, Frame Vernacular style structure located at 2030 Walnut Street (RE: 072112-0000). Both properties are interior lots.

As designed, the proposed ramp at 2026 Walnut Street will be constructed of wood decking, handrails, and vertical posts. It measures approximately four (4) feet tall, thirty-four (34) feet and five (5) inches long, and five (5) feet wide. The one-story, Masonry Vernacular style structure is currently used as a bar, and the new ramp will connect to and land on property 2030 Walnut Street at the left (south) side, towards the rear. Regarding the proposed secondary walkway

repaving at 2030 Walnut Street, the design includes removing the existing poured concrete walkway and repaving it with new poured concrete in the same dimensions. It measures forty-two (42) inches wide with a flare of forty-eight (48) inches wide at the existing driveway, and the walkway connects to the rear right property line of property 2026 Walnut Street. The one-story Frame Vernacular style structure at 2030 Walnut Street was originally constructed as a single-family home, and it will be used as a restaurant.

Pursuant to the authorities granted in the 2024 COA Matrix, accessibility ramps on non-residential structures and secondary walkways that are wider than three (3) feet must be reviewed and approved by the Jacksonville Historic Preservation Commission.

STAFF SUMMARY AND ANALYSIS

Staff considered the Secretary of the Interior's Standards for Rehabilitation and the Ordinance Code criteria found in Sections 307.106(k) and 307.106(l). The following is Staff's analysis:

- Consistent with Section 307.106(k)(3) and Sections 307.106(l)(1 and 3), the applicant's scope of work requires minimal change to the defining characteristics of both the contributing and non-contributing structures. The accessibility ramp is an effort to have the structure become code-compliant for the proposed use, while the secondary walkway is another pedestrian thoroughfare for patrons. As designed, the wood ramp along the rear and the poured concrete walkway allows for the historic structure at 2030 Walnut Street to be viewed as distinct and original to the site.
- As designed, the ramp will be constructed of wood with vertical handrails and the secondary walkway will be poured concrete. Installation of the ramp and walkway will cause minimal, if any, damage to the historic structures and character of the properties. As such, this scope of work is consistent with Section 307.106(I)(1 and 2).
- The Springfield District Design Guidelines acknowledge that throughout time, the needs of the users of historic structures in the district change. The "Doors and Entrances" section of the Design Guidelines notes, "Sometimes new entrances are required for practical reasons or to satisfy code requirements." The alteration of the entrances of the building and sites will allow the structures to be accessed in a variety of ways, allow for improved ingress and egress, and further the commercial uses of the structures. The proposed alterations will be similar to other accessibility ramps on structures, and other secondary walkways on sites, within the historic district in both material and design. As such, the proposed work is consistent with the Design Guidelines and Section 307.106(k)(1).
- As demonstrated by the site plan and elevations dated July 29, 2024, the design of the
 accessibility ramp and secondary walkway is differentiated from the old in terms of
 material, design, and location, but are compatible alterations of the historic structures
 and character of the properties. This retains the architectural integrity of both the
 contributing and non-contributing structures. As such, the scope of work is found to be
 consistent with Standards 2 and 9 of the Secretary of the Interior's Standards for
 Rehabilitation and Section 307.106(k)(2).

For these reasons, it is the position of the Planning and Development Department that the proposed work under the stated conditions is consistent with:

- 1. Section 307.106(k) General Standards: 1, 2, 3
- 2. Section 307.106(I) Guidelines on "Alterations": 1, 2, 3
- 3. Secretary of the Interior's Standards for Rehabilitation: 2 and 9

CODE CRITERIA AND DESIGN REGULATIONS

General Criteria

- 307.106(k)(1) The effect of the proposed work on the landmark, landmark site or property within an historic district upon which such work is to be done;
- 307.106(k)(2) The relationship between such work and other structures on the landmark site or other property in the historic district;
- 307.106(k)(3) The extent to which the historic, architectural, or archaeological significance, architectural style, design, arrangement, texture and materials of the landmark or the property will be affected;

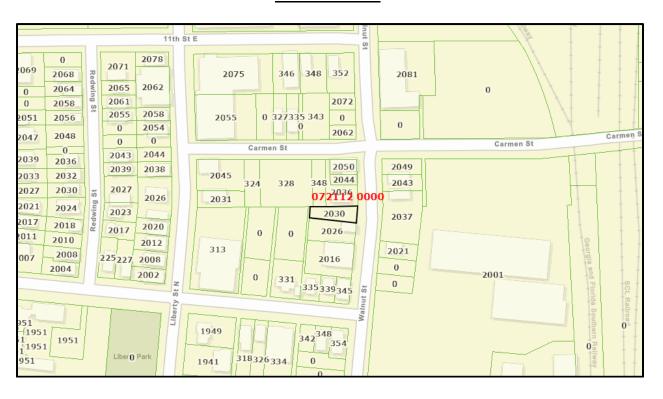

Alterations

- 307.106(I)(1) Every reasonable effort shall be made to use a property for its originally intended purpose, or to provide a compatible use for a property that requires minimal alteration of the building structure, or site.
- 307.106(l)(2) The distinguishing original qualities or character of a building, structure, or site shall not be destroyed. The removal or alteration of any historic material or distinctive architectural features shall be avoided when possible.
- 307.106(I)(3) Each building, structure, and site shall be recognized as a product of its own time. An alteration which has no historical basis and which seeks to create an earlier appearance shall be discouraged.

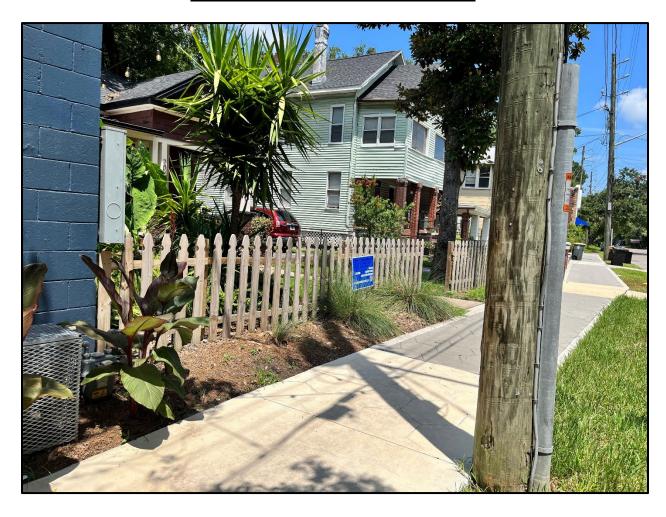

Design Guidelines, "Doors and Entrances"

- (2) The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
- (9) New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

For all applications that must go before the Historic Preservation Commission, a fee will be applied based on the type of work performed.

Application completeness review: All applications for Certificate of Appropriateness ("Application") will be reviewed for completeness by Planning and Development Department Staff. Any Application determined to be incomplete, will be returned to the applicant with comments detailing the deficiencies. No further action on the Application will take place until the application deficiencies are addressed. Once the Application is determined to be

complete, Planning and Development Department Staff will prepare an invoice for the cost of the Application.

Payment deadline: The Invoice must be paid by the payment deadline in order to have the Application heard on the next scheduled Jacksonville Historic Preservation Commission (JHPC) regular meeting. The payment deadline is outlined on the City of Jacksonville's Planning and Development Department Website. Only Complete Applications will be invoiced. It is for the benefit of the applicant to supply staff with a complete Application in advance of the payment deadline. Due to the complexity and volume of Applications received by the Planning and Development Department, there is no guarantee that COA Applications submitted on the day of the payment deadline will be heard at the next regular meeting of the JHPC.

I, hereby, certify that I am the owner or the authorized agent of the owner(s) of the property described herein, that all answers to the questions in this application and all information contained in the material attached to and made a part of this application, are accurate and true to the best of my knowledge and belief. I also attest by my signature that all required information for this application is completed and duly attached in the prescribed order. Furthermore, if the package is found to be lacking the above requirements, I understand that the application will be returned for correct information.

I UNDERSTAND THE ABOVE DISCLAIMER REGARDING APPLICATION REVIEW. AGREED TO AND SUBMITTED.

Property taxes are subject to change upon change of ownership.

- Past taxes are not a reliable projection of future taxes.
- The sale of property will prompt the removal of all exemptions, assessment caps and special classifications.

Owner:

As required by Sec. 307.106.(f) of the City of Jacksonville Ordinance Code: The applicant for a certificate of appropriateness shall post signs at intervals of not more than 200 feet along all street sides of land upon which the request for a certificate of appropriateness is made. Signage should be posted at least 14 days prior to the scheduled public hearing. Where the land does not have frontage on a public street, the signs shall be erected on the nearest street

right-of-way with an attached notation indicating generally the direction and distance to the land upon which the application for a certificate of appropriateness has been filed, or at such other locations and at such intervals, as determined by the Planning and Development Department, as will ensure that the signs will be seen by as many persons as possible. The signs shall be maintained by the applicant until a final determination has been made by the Commission on the application for a certificate of appropriateness. If the signs are not posted within the time requirements, the public hearing notice will be deemed inadequate and no action shall be taken until proper posting is accomplished. The signs shall be removed by the applicant within ten days after final action.
I hereby attest that the attached pictures show the NOTICE OF PUBLIC HEARING SIGNS
provided to me for application 24–30845 were posted on the property/site located at:

- e. Class C interior finish materials shall be permitted in places of assembly with an occupant load of 300 persons or less

BUILDING CODE SUMMARY

TEST CRITERIA 803.1.2 ROOM CORNER TEST FOR INTERIOR WALL OR CEILING FINISH MATERIALS.
INTERIOR WALL OR CEILING FINISH MATERIALS SHALL BE PERMITTED TO BE TESTED IN ACCORDANCE WITH NFPA 286, INTERIOR WALL OR CEILING FINISH MATERIALS TESTED IN ACCORDANCE WITH NFPA 286 SHALL COMPLY WITH SECTION 803.1.2.1.

803.1.2.1 ACCEPTANCE CRITERIA FOR NFPA 285. THE INTERIOR FINISH SHALL COMPLY WITH THE FOLLOWING:

1. DURING THE 40 KW EXPOSURE, FLAMES SHALL NOT SPREAD TO THE CEILING.
2. THE FLAME SHALL NOT SPREAD TO THE OUTER EXTREMITY OF THE SAMPLE ON ANY WALL OR

2. THE FLAME SMALL NOT STREET
CEILING.
3. FLASHOVER, AS DEFINED IN NFPA 286, SHALL NOT OCCUR.
4. THE PEAK HEAT RELEASE RATE THROUGHOUT THE TEST SHALL NOT EXCEED 1,000 M2.
5. THE TOTAL SMOKE RELEASED THROUGHOUT THE TEST SHALL NOT EXCEED 1,000 M2.

603,1.3 ROOM CORNER TEST FOR TEXTILE WALL COVERINGS AND EXPANDED VINYL WALL COVERINGS TEXTILE WALL COVERINGS AND EXPANDED VINYL WALL COVERINGS SHALL MEET THE CRITERIA OF SECTION 803.1.3.1 WHEN TESTED IN THE MANNER INTENDED FOR USE IN ACCORDANCE WITH THE METHOD B PROTOCOL OF NFPA 265 USING THE PRODUCT-MOUNTING SYSTEM, INCLUDING ADHESIVE.

803,1,3,1 ACCEPTANCE CRITERIA FOR NFPA 265. THE INTERIOR FINISH SHALL COMPLY WITH THE FOLLOWING:

1. DURING THE 40 KW EXPOSURE, FLAMES SHALL NOT SPREAD TO THE CEILING.
2. THE FLAME SHALL NOT SPREAD TO THE OUTER EXTREMITIES OF THE SAMPLES ON THE 8-FOOT BY 12-FOOT (203 BY 305 MM) WALLS.
3. FLASHOVER, AS DEFINED IN NIPA 265, SHALL NOT OCCUR.
4. THE TOTAL SMOKE RELEASED THROUGHOUT THE TEST SHALL NOT EXCEED 1,000 M2.

803,1.4 ACCEPTANCE CRITERIA FOR TEXTILE AND EXPANDED VINYL WALL OR CEILING COVERINGS TESTED TO ASTM ICCEPTANCE CRITERIA FOR TEATHER AND EXPANDED VINTL WALL AND CEILING COVERINGS SHALL HAVE E84 OR UL 723.

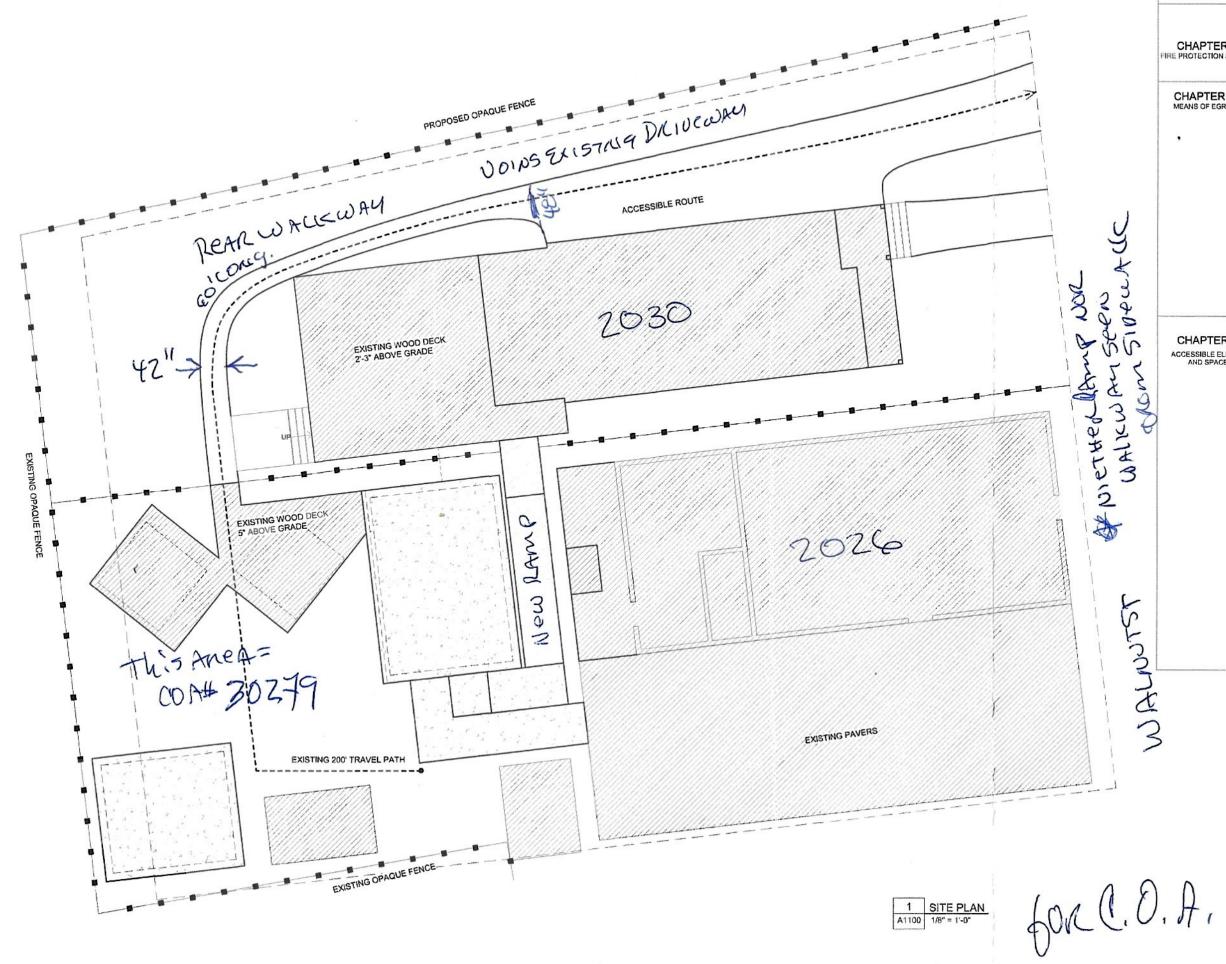

TEXTILE WALL AND CEILING COVERINGS AND EXPANDED VINYL WALL AND CEILING COVERINGS SHALL HAVE A CLASS A FLAME SPREAD INDEX IN ACCORDANCE WITH ASTM 884 OR UL 723 AND BE PROTECTED BY AN AUTOMATIC SPRINKLER SYSTEM INSTALLED IN ACCORDANCE WITH SECTION 903.3.1.1 OR 903.3.1.2. TEST SPECIMEN PREPARATION AND MOUNTING SHALL BE IN ACCORDANCE WITH ASTM E2404. TENT FABRIC

803.5 TEXTILE WALL COVERINGS.
WHERE USED AS INTERIOR WALL FINISH MATERIALS, TEXTILE WALL COVERINGS, INCLUDING
MATERIALS HAVING WOVEN OR NONWOVEN, NAPPED, TUFTED, LOOPED OR SIMILAR SURFACE AND
CAPPET AND SIMILAR TEXTILE MATERIALS, SHALL BE TESTED IN THE MANNER INTENDED FOR USE,
USING THE PRODUCT MOUNTING SYSTEM, INCLUDING ADHESIVE, AND SHALL COMPLY WITH THE
REQUIREMENTS OF SECTION 803.1.2, 803.1.3 OR 803.1.4.

803.6 TEXTILE CEILING COVERINGS.
WHERE USED AS INTERIOR CEILING FINISH MATERIALS, TEXTILE CEILING COVERINGS, INCLUDING MATERIALS HAVING WOVEN OR NONWOVEN, NAPPED, TUFTED, LOOPED OR SIMILAR SURFACE AND CARPET AND SIMILAR TEXTILE MATERIALS, SHALL BE TESTED IN THE MANNER INTENDED FOR USE, USING THE PRODUCT MOUNTING, SYSTEM, INCLUDING ADHESIVE, AND SHALL COMPLY WITH THE REQUIREMENTS OF SECTION 803.1.2 OR 803.1.4

PLASTIC

803.0 HIGH-DENSITY POLYETHYLENE (HDPE) AND POLYPROPYLENE (PP).
WHERE HIGH-DENSITY POLYETHYLENE OR POLYPROPYLENE IS USED AS AN INTERIOR FINISH IT SHALL COMPLY WITH SECTION 803.1.2.

CHAPTER 9 FIRE SPRINKLER SYSTEM - NO **CHAPTER 10** MAXIMUM FLOOR AREA ALLAOWANCE PER OCCUPANT DUTDOOR SEATING (2059 SF) (15 SF/OCCUPANT) 137 OCCUPANTS TABLE 1004.5 EGRESS WIDTH PER OCCUPANT SERVED x 0.2 = INCHES INCHES PROVIDED AT DOORS 1005,3,2 MINIMUM EXIT ACCESS TRAVEL DISTANCE - 200' MINIMUM NUMBER OF EXITS REQUIRED - 1

SLOPE: RAMP RUNS SHALL HAVE A RUNNING SLOPE NOT STEEPER THAN 1:12 405.2 PASSING SPACES: PASSING SPACES SHALL BE EITHER: A SPACE 60 INCHES (1525 MM) MINIMUM BY 60 INCHES (1525 MM) MINIMUM;... 03.5.3 405.7 LANDINGS: RAMPS SHALL HAVE LANDINGS AT THE TOP AND THE BOTTOM OF EACH RAMP RUN. LANDINGS SHALL COMPLY WITH 405.7, LENGTH: THE LANDING CLEAR LENGTH SHALL BE 60 INCHES (1525 MM) LONG MINIMUM. 405.7.3

CHAPTER 31

3102.1 GENERAL.
THE PROVISIONS OF SECTIONS 3102.1 THROUGH 3102.8 SHALL APPLY TO AIR-SUPPORTED, AIR-INFLATED, MEMBRANE-COVERED CABLE, MEMBRANE-COVERED FRAME AND TENSILE MEMBRANE STRUCTURES, COLLECTIVELY KNOWN AS MEMBRANE STRUCTURES, ERECTED FOR A PERIOD OF 180 DAYS OR LONGER. THOSE ERECTED FOR A SHORTER PERIOD OF TIME SHALL COMPLY WITH THE FLORIDA FIRE PREVENTION CODE, MEMBRANE STRUCTURES COVERING WATER STORAGE FACILITIES, WATER CLARIFIERS, WATER TREATMENT PLANTS, SEWAGE TREATMENT PLANTS, GREENHOUSES AND SIMILAR FACILITIES NOT USED FOR HUMAN OCCUPANCY ARE REQUIRED TO MEET ONLY THE REQUIREMENTS OF SECTIONS 3102.3.1 AND 3102.7. MEMBRANE STRUCTURES ERECTED ON A BUILDING, BALCONY, DECK OR OTHER STRUCTURES FROCTED ON A BUILDING, BALCONY, DECK OR OTHER STRUCTURE FOR ANY PERIOD OF TIME SHALL COMPLY WITH THIS SECTION.

3102.1.1 TENSILE MEMBRANE STRUCTURES,
TENSILE MEMBRANE STRUCTURES, INCLUDING PERMANENT AND FEMPORARY STRUCTURES, SHALL BE DESIGNED AND CONSTRUCTED IN ACCORDANCE WITH ASCE S5. THE PROVISIONS IN SECTIONS 3102.3 THROUGH 3102.6 SHALL APPLY.

3102.2 DEFINITIONS. THE FOLLOWING TERMS ARE DEFINED IN CHAPTER 2:

MEMBRANE-COVERED FRAME STRUCTURE: A NONPRESSURIZED BUILDING WHEREIN THE STRUCTURE IS COMPOSED OF A RIGID FRAMEWORK TO SUPPORT A TENSIONED MEMBRANE WHICH PROVIDES THE WEATHER BARRIER.

3102.3 TYPE OF CONSTRUCTION.
OTHER MEMBRANE STRUCTURES (MEMBRANE-COVERED FRAME STRUCTURES) SHALL BE CLASSIFIED AS TYPE V CONSTRUCTION.

3102.3.1 MEMBRANE AND INTERIOR LINER MATERIAL.
MEMBRANES AND INTERIOR LINERS SHALL BE EITHER
NONCOMBUSTBILE AS SET FORTH IN SECTION 703.5 OR MEET THE
FIRE PROPAGATION PERFORMANCE CRITERIA OF TEST METHOD 1
OR TEST METHOD 2, AS APPROPRIATE, OF NFPA 701 AND THE
MANUFACTURER'S TEST PROTOCOL.

3102.4 ALLOWABLE FLOOR AREAS.
THE AREA OF A MEMBRANE STRUCTURE SHALL NOT EXCEED THE LIMITATIONS SPECIFIED IN SECTION 506.

3102.5 MAXIMUM HEIGHT.
MEMBRANE STRUCTURES SHALL NOT EXCEED ONE STORY NOR
SHALL SUCH STRUCTURES EXCEED THE HEIGHT LIMITATIONS IN
FEET SPECIFIED IN SECTION 504.3.

3102.6 MIXED CONSTRUCTION.
MEMBRANE STRUCTURES SHALL BE PERMITTED TO BE UTILIZED
AS SPECIFIED IN THIS SECTION AS A PORTION OF BUILDINGS OF
OTHER TYPES OF CONSTRUCTION, HEIGHT AND AREA LIMITS
SHALL BE AS SPECIFIED FOR THE TYPE OF CONSTRUCTION AND
OCCUPANCY OF THE BUILDING.

3102.6.1.1MEMBRANE.
A MEMBRANE MEETING THE FIRE PROPAGATION PERFORMANCE
CRITERIA OF TEST METHOD 1 OR TEST METHOD 2, AS
APPROPRIATE, OF NFPA 701 SHALL BE PERMITTED TO BE USED AS
THE ROOF OR AS A SKYLIGHT ON BUILDINGS OF TYPE IIB, III, IV AND
V CONSTRUCTION, PROVIDED THE MEMBRANE IS NOT LESS THAN
20 FEET (6096 MM) ABOVE ANY FLOOR, BALCONY OR GALLERY.

3102.7 ENGINEERING DESIGN.

THE STRUCTURE SHALL BE DESIGNED AND CONSTRUCTED TO SUSTAIN DEAD LOADS, LOADS DUE TO TENSION OR INFLATION, LIVE LOADS INCLUDING WIND AND FLOOD LOADS AND IN ACCORDANCE WITH CHAPTER 16.

3102.7.1 LATERAL RESTRAINT, FOR MEMBRANE-COVERED FRAME STRUCTURES, THE MEMBRANE SHALL NOT BE CONSIDERED TO PROVIDE LATERAL RESTRAINT IN THE CALCULATION OF THE CAPACITIES OF THE FRAME MEMBERS.

PLAN LEGEND

EGRESS ROUTE/TRAVEL

CHANGE IN DIRECTION: RAMPS THAT CHANGE DIRECTION BETWEEN RUNS AT LANDINGS SHALL HAVE A CLEAR LANDING 60 INCHES (1525 MM) MINIMUM BY 60 INCHES (1525 MM) MINIMUM.

HANDRAILS: RAMP RUNS WITH A RISE GREATER THAN 6 INCHES (150 MM) SHALL HAVE HANDRAILS COMPLYING WITH 505

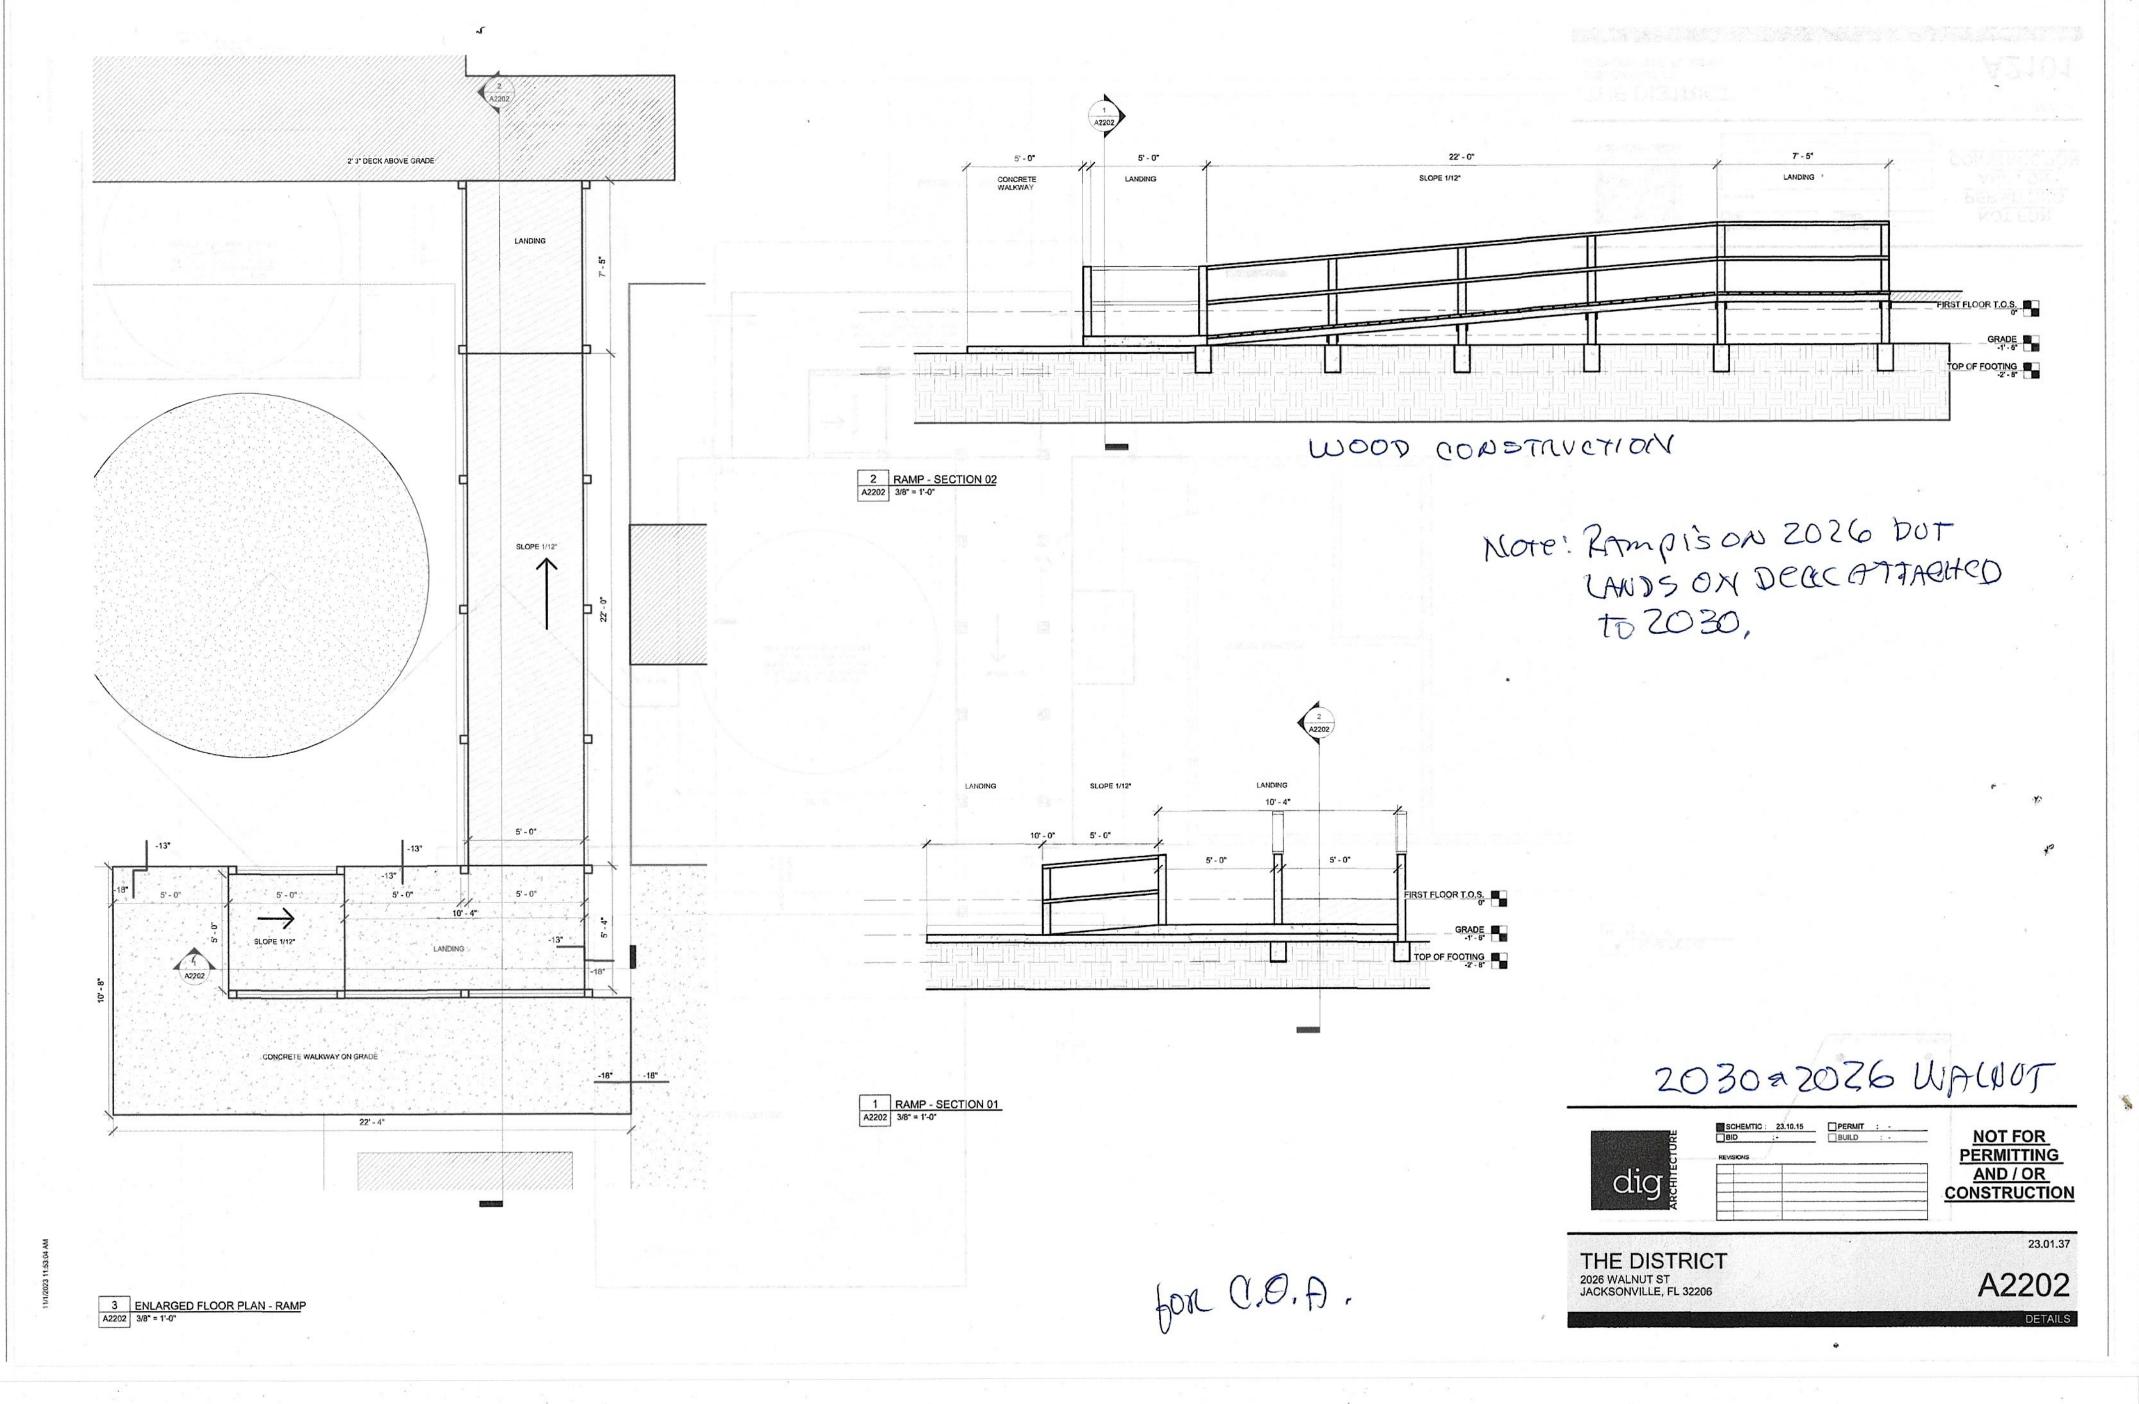

NOT FOR **PERMITTING** AND / OR CONSTRUCTION

Report of the Jacksonville Planning and Development Department Certificate of Appropriateness Application COA-24-30936

<u>Address</u>: 1403 Walnut Street, RE# 072456-0000

Location: Northeast corner of Walnut street and 4th street intersection

Owner: Jacob Shacter

Terrawise Homes, Inc. 1334 Walnut Street

Jacksonville, Florida 32206

<u>Applicant</u>: Same as owner

Year Built: N/A

Designation: Springfield

Request: New Construction (Two-Story Single-Family Residence)

Summary Scope of Work:

1. New Construction (Two-Story Single-Family Residence)

Recommendation: Approve with Conditions

Conditions:

- 1. Materials, design, and height shall be substantially consistent with the elevation drawings dated **December 29, 2023**, or as otherwise approved by the Historic Preservation Section.
- 2. Location and orientation shall be as substantially shown on the site plan dated June 14, 2024.
- 3. Prior to permitting, the applicant shall demonstrate that the front setback will be within 25 percent of the average required front yard of adjacent contributing structures.
- 4. Columns shall have caps and bases.
- 5. The fascia boards and soffits shall be composed of wood or a cementitious material (no vinyl or PVC).
- 6. The siding shall be installed with the smooth side facing outward.
- 7. The porch railing system shall be made of wood or wood composite, and the spindles shall be set in between an upper and lower railing with no exposed ends.
- 8. The front entry walkway shall be limited to the width of the front porch steps and shall be composed of brick-like pavers, poured concrete, or hexagonal brick pavers.
- 9. The secondary walkway shall be no wider than three (3) feet.
- 10. The front door shall have clear glass without any decorative etching or frosted glass.

- 11. All windows shall be installed in accordance with the latest version of the HPS Window Supplement.
- 12. Prior to the final inspection of any building permit, the owner or their agent shall submit to the Historic Preservation Section an affidavit and any supplementary evidence that verifies compliance with all conditions of the COA final order.

PROJECT DESCRIPTION

COA-24-30936 seeks to construct a two-story, single-family home in the Springfield Historic District. The subject site currently hosts an abandoned shed near the rear of the property and some fencing. The property is approximately one hundred and twenty-five (125) feet long and thirty-four (34) feet wide. There is a mix of both contributing and noncontributing structures along this block, the majority of which are two-story, single-family homes. The proposed home is of a frame vernacular design which contains a hip and gabled roof, as well as a full width front porch; a feature found commonly along the block. Materials of the structure include architectural shingles for the roof, one-over-one windows, cement lap siding, wood railing with two-by-two spindles, concrete block with stucco finish for the foundation wall, and columns along the front porch.

STAFF SUMMARY AND ANALYSIS

Staff considered the applicable Design Guidelines for the Springfield Historic District, and the Ordinance Code criteria found in Sections 307.106(k) and 307.106(m).

- The development of a two-story, single-family home on a vacant lot amid other two-story residential homes provides for compatible use of an empty lot in the Springfield Historic District and contributes to the residential streetscape. As such, the proposed single-family home is consistent with Sections 307.106(k)(1 and 2).
- The proposed work can be completed within a reasonable period of time, consistent with Section 307.106(k)(4).
- The height and massing of the proposed structure is similar to that of other homes in the district. Section 307.106(m)(3)
- The submitted elevation drawings shows vertically oriented, one-over-one windows of a traditional size and location. Similarly, the front door utilizes a single quarter light design. These features are consistent with Section 307.106(m)(2)
- The roof contains both hip and gabled sections. Nested gables are present on the front of the home, a feature found commonly throughout the district and on several homes on the block. This is consistent with Section 307.106(m)(4)
- Consistent with Section 307.106(m)(8), the proposed design of the structures contains many architectural features that found throughout the Springfield Historic District. Such details include:
 - A full width front with vertical wood railing
 - Vertically oriented windows of consistent style
 - Cement fiber siding, which is used to replicate wood lap siding and is common among new construction in the district.

- Shake siding under the gabled roof sections
- The Historic District Design Guidelines for the Springfield Historic District references "New Construction" and lists Standards Two and Nine of the Secretary of the Interior's Standards for Rehabilitation. Standard Two refers to the relationship of new construction to adjacent buildings, landscape and streetscape features, and open spaces. The relationship of the proposed building to the surrounding context is described above. Standard Nine emphasizes that new construction shall not destroy historic materials and is differentiated from the old while being compatible in massing, size, scale, and architectural features in order to preserve the historical integrity of the property and its immediate surroundings. No historic fabric will be impacted since the new construction is taking place upon an empty lot. The proposed construction is consistent in design with the surrounding homes and is generally compatible in massing and scale to the surrounding homes.

For these reasons, it is the position of the Planning and Development Department that the proposed work under the stated conditions is consistent with:

- Section 307.106(k) General Standards: 1,2, and 4
- Section 307.106(m) Guidelines on New Construction: 1-4, and 6 & 8
- Historic Preservation Guidelines for the Springfield Historic District, "New Construction"

CODE CRITERIA AND DESIGN GUIDELINES

General Criteria

- 307.106(k)(1) The effect of the proposed work on the landmark, landmark site or property within an historic district upon which such work is to be done;
- 307.106(k)(2) The relationship between such work and other structures on the landmark site or other property in the historic district;
- 307.106(k)(4) Whether the plans may be carried out by the applicant within a reasonable period of time.

New Construction

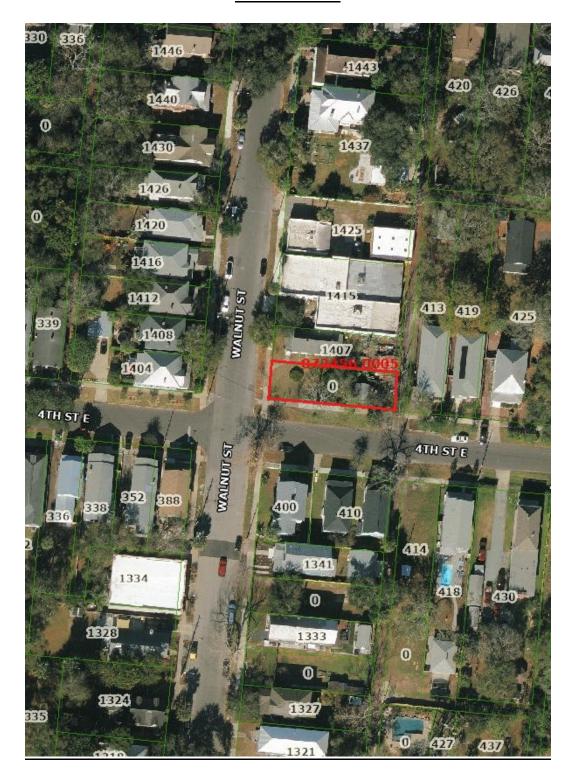

- 307.106(m)(1) Height. The height of any proposed alteration or construction shall be compatible with the style and character of the landmark and with surrounding structures in a historic district.
- 307.106(m)(2) Proportions of windows and doors. The proportions and relationships between doors and windows shall be compatible with the architectural style and character of the landmark and with surrounding structures in a historic district.

- 307.106(m)(3) Relationship of building masses, setbacks, and spaces. The relationship
 of a structure within a historic district to the open space between it and adjoining
 structures shall be compatible.
- 307.106(m)(4) Roof shape. The design of the roof shall be compatible with the architectural style and character of the landmark and surrounding structures in a historic district.
- 307.106(m)(6) Scale. The scale of the structure after alteration, construction, or partial demolition shall be compatible with its architectural style and character and with surrounding structures in a historic district.
- 307.106(m)(8) Architectural details. Architectural details including materials and textures shall be treated so as to make a landmark compatible with its original architectural style and character and to preserve and enhance the architectural style or character of a landmark or historic district. The Commission will give recommendations as to appropriate colors for any landmark or historic district.

Design Guidelines, "New Construction"

- Secretary of the Interior's Standards for Rehabilitation (2): The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
- Secretary of the Interior's Standards for Rehabilitation (9): New additions, exterior
 alterations, or related new construction shall not destroy historic materials that
 characterize the property. The new work shall be differentiated from the old and shall be
 compatible with the massing, size, scale, and architectural features to protect the historic
 integrity of the property and its environment

Application completeness review: All applications for Certificate of Appropriateness ("Application") will be reviewed for completeness by Planning and Development Department Staff. Any Application determined to be incomplete, will be returned to the applicant with comments detailing the deficiencies. No further action on the Application will take place until

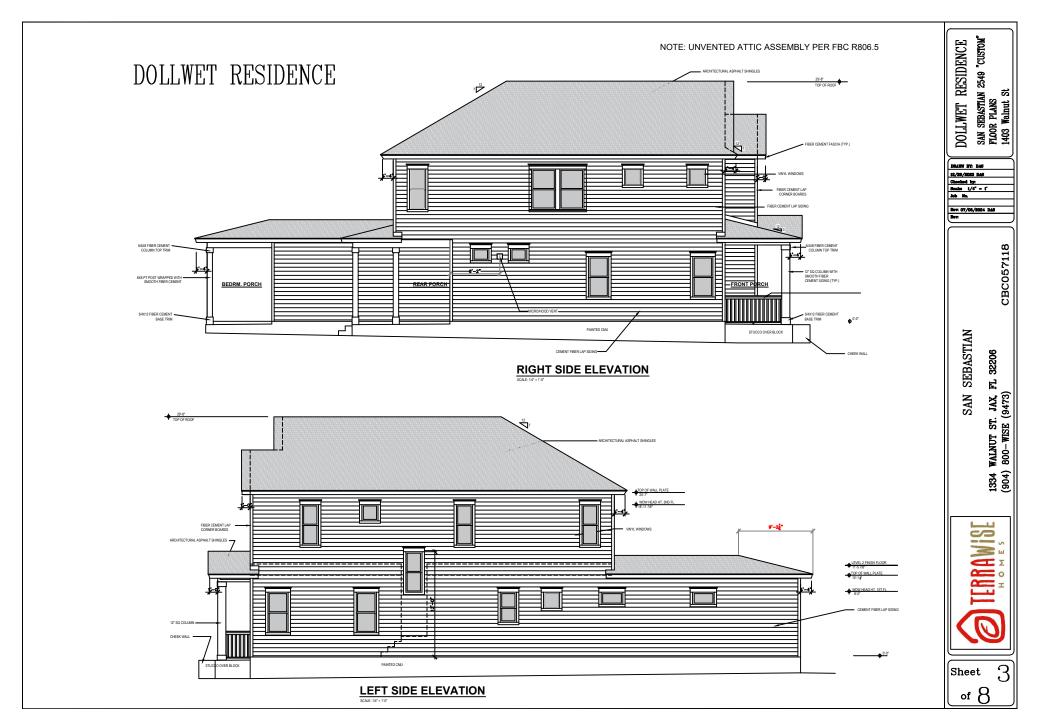

the application deficiencies are addressed. Once the Application is determined to be complete, Planning and Development Department Staff will prepare an invoice for the cost of the Application.

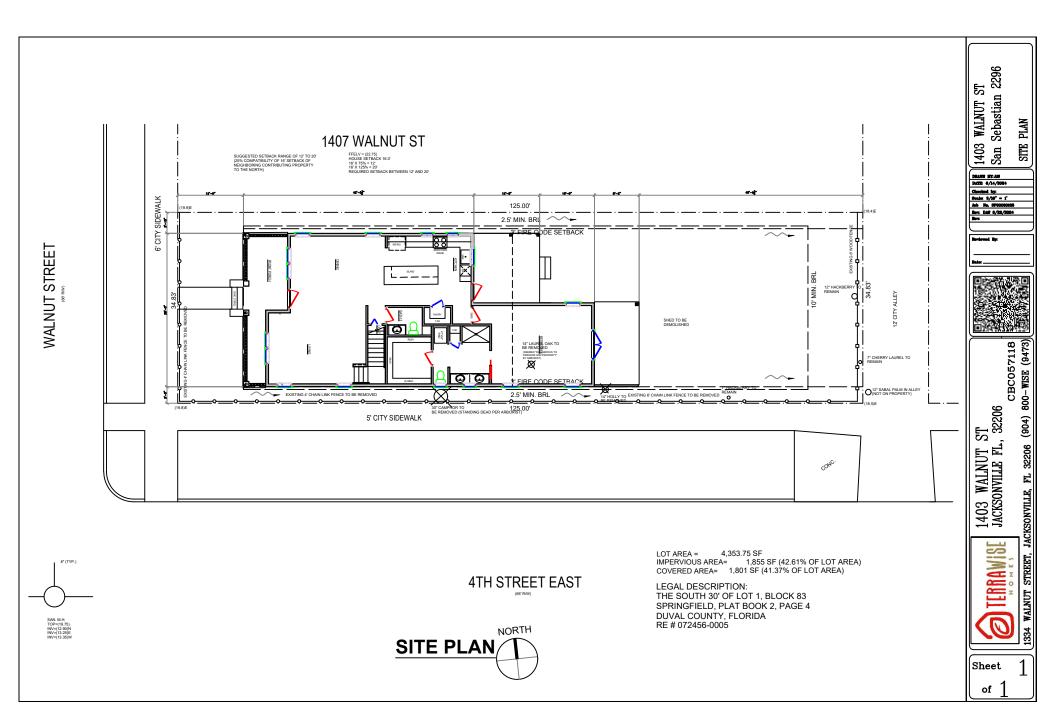

Payment deadline: The Invoice must be paid by the payment deadline in order to have the Application heard on the next scheduled Jacksonville Historic Preservation Commission (JHPC) regular meeting. The payment deadline is outlined on the City of Jacksonville's Planning and Development Department Website. Only Complete Applications will be invoiced. It is for the benefit of the applicant to supply staff with a complete Application in advance of the payment deadline. Due to the complexity and volume of Applications received by the Planning and Development Department, there is no guarantee that COA Applications submitted on the day of the payment deadline will be heard at the next regular meeting of the JHPC.

I, hereby, certify that I am the owner or the authorized agent of the owner(s) of the property described herein, that all answers to the questions in this application and all information contained in the material attached to and made a part of this application, are accurate and true to the best of my knowledge and belief. I also attest by my signature that all required information for this application is completed and duly attached in the prescribed order. Furthermore, if the package is found to be lacking the above requirements, I understand that the application will be returned for correct information.

I UNDERSTAND THE ABOVE DISCLAIMER REGARDING APPLICATION REVIEW. AGREED TO AND SUBMITTED.

Report of the Jacksonville Planning and Development Department Certificate of Appropriateness Application COA-24-30958

<u>Address</u>: 1344 Ionia Street RE# 072530-0000

Location: West side of Ionia Street, between 4th and 3rd Street East

Owner: Adam Eisman

JWB Real Estate Capital, LLC 7563 Phillips Highway Suite 109 Jacksonville, Florida 32256

Applicant: Mitchell Askelson

JWB Real Estate Companies, LLC 7563 Phillips Highway Suite 109 Jacksonville, Florida 32256

Year Built: N/A

Designation: Springfield

Request: New construction (Two-story single-family home)

Summary Scope of Work:

1. New construction of a single-family home

2. Installation of a 4-foot tall and 6-foot tall fence

Recommendation: Approve with conditions

Conditions:

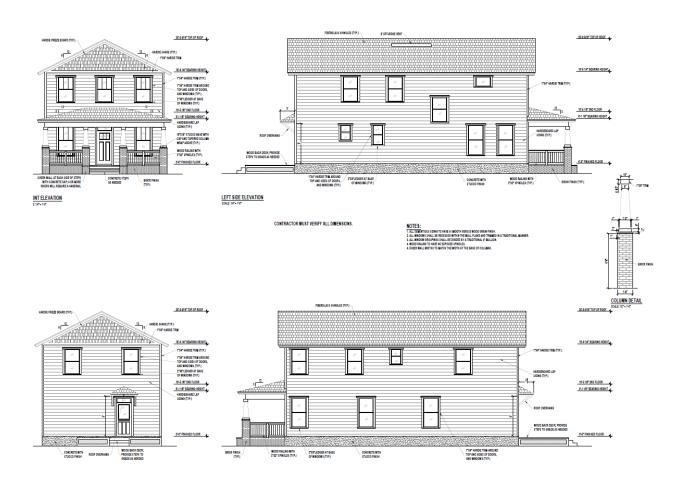

New construction of a single-family home

- 1. Materials, design, and height shall be substantially consistent with the elevation drawings dated June 12, 2024, or as otherwise approved by the Historic Preservation Section.
- 2. Location and orientation shall be as substantially shown on the site plan dated April 18, 2024.
- 3. Prior to permitting, the applicant shall demonstrate that the front setback will be within 25 percent of the average required front yard of adjacent contributing structures.
- 4. Columns shall have caps and bases.

- 5. The fascia boards and soffits shall be composed of wood or a cementitious material (no vinyl or PVC).
- 6. The siding shall be installed with the smooth side facing outward.
- 7. The porch railing system shall be made of wood or wood composite, and the spindles shall be set in between an upper and lower railing with no exposed ends.
- 8. The front entry walkway shall be limited to the width of the front porch steps and shall be composed of brick-like pavers, poured concrete, or hexagonal brick pavers.
- 9. The secondary walkway shall be no wider than three (3) feet.
- 10. The front door shall have clear glass without any decorative etching or frosted glass.
- 11. All windows shall be installed in accordance with the latest version of the HPS Window Supplement.
- 12. Prior to the final inspection of any building permit, the owner or their agent shall submit to the Historic Preservation Section an affidavit and any supplementary evidence that verifies compliance with all conditions of the COA final order.

New construction of a fence

- 1. The location of the fencing and gate(s) shall be substantially consistent with the submitted site plan.
- 2. Fencing installation shall be consistent with the Fencing and Wall Guidelines.

PROJECT DESCRIPTION

COA-24-30958 seeks to construct a new, two story, single-family home in the Springfield Historic District. The subject site is a vacant lot on the west side of Ionia Street, between 4th and 3rd Street East. The lot is approximately 125 feet in length and 34 feet wide. The home is of a frame vernacular style, has a gable roof and a porch that spans the full front width of the home. Three-over-one windows match the quarter light three grid door. There was originally a two-story home located on the property that was demolished in 2010 due to irreparable structural damage. A fence will also be installed. A four-foot dog-eared fence will extend from the midsection of the home towards the property line on each side of the home. A six-foot dog-eared fence will then run along the side and rear property lines.

STAFF SUMMARY AND ANALYSIS

Staff considered the applicable Design Guidelines for the Springfield Historic District, and the Ordinance Code criteria found in Sections 307.106(k) and 307.106(m).

- The construction of a two story, frame vernacular style, single-family home on a vacant lot in the Springfield Historic District provides for compatible use of the lot and contributes to the residential streetscape As such, the proposed single-family home is consistent with Sections 307.106(k)(1 and 2).
- The proposed work can be completed within a reasonable period of time, consistent with Section 307.106(k)(4).
- The height and massing of the proposed structure is similar to that of the nearby homes. 307.106(m)(3).
- The proposed elevation drawings shows vertically oriented windows of a traditional size and location, with the street visible windows being of a three-over-one style. The front door utilizes a three-grid design window to match the street-visible windows. The non-street visible windows are a one-over-one design. These features are consistent with Section 307.106(m)(2).
- The roof is a gabled design and would utilize fiberglass shingles. Gabel roofs are a common architectural feature in the area and fiberglass shingles are used throughout the district. This is consistent with Section 307.106(m)(4).
- Consistent with Section 307.106(m)(8), the proposed design of the structure contains many architectural details that are in keeping with historic elements found throughout the Springfield Historic District. Such details include:
 - A porch with columns and a brick base
 - Vertically oriented windows of consistent style (per side)
 - Hardie plank lap siding, which is used to replicate wood lap siding and is common among new construction in the district.
 - A wood, dog eared fence enclosing the side and backyard.
- The Historic District Design Guidelines for the Springfield Historic District references "New Construction" and lists Standards Two and Nine of the Secretary of the Interior's Standards for Rehabilitation. Standard Two refers to the relationship of new construction

to adjacent buildings, landscape and streetscape features, and open spaces. The relationship of the proposed building to the surrounding context is described above. Standard Nine emphasizes that new construction shall not destroy historic materials and is differentiated from the old while being compatible in massing, size, scale, and architectural features in order to preserve the historical integrity of the property and its immediate surroundings. No historic fabric will be impacted since the new construction is taking place upon an empty lot. The proposed construction is consistent in design with the surrounding homes and is generally compatible in massing and scale to the surrounding homes.

For these reasons, it is the position of the Planning and Development Department that the proposed work under the stated conditions is consistent with:

- Section 307.106(k) General Standards: 1,2, and 4
- Section 307.106(m) Guidelines on New Construction: 1-4, and 6 & 8
- Historic Preservation Guidelines for the Springfield Historic District, "New Construction"

CODE CRITERIA AND DESIGN GUIDELINES

General Criteria

- 307.106(k)(1) The effect of the proposed work on the landmark, landmark site or property within an historic district upon which such work is to be done;
- 307.106(k)(2) The relationship between such work and other structures on the landmark site or other property in the historic district;
- 307.106(k)(4) Whether the plans may be carried out by the applicant within a reasonable period of time.

New Construction

- 307.106(m)(1) *Height*. The height of any proposed alteration or construction shall be compatible with the style and character of the landmark and with surrounding structures in a historic district.
- 307.106(m)(2) *Proportions of windows and doors.* The proportions and relationships between doors and windows shall be compatible with the architectural style and character of the landmark and with surrounding structures in a historic district.
- 307.106(m)(3) Relationship of building masses, setbacks, and spaces. The relationship of a structure within a historic district to the open space between it and adjoining structures shall be compatible.
- 307.106(m)(4) Roof shape. The design of the roof shall be compatible with the architectural style and character of the landmark and surrounding structures in a historic district.

- 307.106(m)(6) Scale. The scale of the structure after alteration, construction, or partial demolition shall be compatible with its architectural style and character and with surrounding structures in a historic district.
- 307.106(m)(8) Architectural details. Architectural details including materials and textures shall be treated so as to make a landmark compatible with its original architectural style and character and to preserve and enhance the architectural style or character of a landmark or historic district. The Commission will give recommendations as to appropriate colors for any landmark or historic district.

Design Guidelines, "New Construction"

- Secretary of the Interior's Standards for Rehabilitation (2):
 The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
- Secretary of the Interior's Standards for Rehabilitation (9):
 New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

Application Certification -

For applications that can be approved administratively, there is no application fee.

For all applications that must go before the Historic Preservation Commission, a fee will be applied based on the type of work performed.

Application completeness review: All applications for Certificate of Appropriateness ("Application") will be reviewed for completeness by Planning and Development Department Staff. Any Application determined to be incomplete, will be returned to the applicant with comments detailing the deficiencies. No further action on the Application will take place until the application deficiencies are addressed. Once the Application is determined to be complete, Planning and Development Department Staff will prepare an invoice for the cost of the Application.

Payment deadline: The Invoice must be paid by the payment deadline in order to have the Application heard on the next scheduled Jacksonville Historic Preservation Commission (JHPC) regular meeting. The payment deadline is outlined on the City of Jacksonville's Planning and Development Department Website. Only Complete Applications will be invoiced. It is for the benefit of the applicant to supply staff with a complete Application in advance of the payment deadline. Due to the complexity and volume of Applications received by the Planning and Development Department, there is no guarantee that COA Applications submitted on the day of the payment deadline will be heard at the next regular meeting of the JHPC.

I, hereby, certify that I am the owner or the authorized agent of the owner(s) of the property described herein, that all answers to the questions in this application and all information contained in the material attached to and made a part of this application, are accurate and true to the best of my knowledge and belief. I also attest by my signature that all required information for this application is completed and duly attached in the prescribed order. Furthermore, if the package is found to be lacking the above requirements, I understand that the application will be returned for correct information.

I UNDERSTAND THE ABOVE DISCLAIMER REGARDING APPLICATION REVIEW. AGREED TO AND SUBMITTED.

DRAINAGE NOTES

- ALL STRUCTURES AND CONCRETE SLABS SHOWN ARE PROPOSED.
- DIRECTION AND INTENSITY OF STORMWATER CANNOT BE ALTERED DURING CONSTRUCTION.
- SILT FENCE TO BE INSTALLED ALONG PROJECT PERIMETER AND MAINTAINED THROUGHOUT THE DURATION OF CONSTRUCTION.
- 4. TREES MARKED FOR REMOVAL SHALL BE REPLACED, IF NEEDED, IN ACCORDANCE TO CURRENT CITY OF JACKSONVILLE
- 5. ANY GUTTERS SHALL BE INSTALLED IN THE SUCH A MANNER THAT FOLLOWS PREDEVELOPMENT STORMWATER DIRECTION.
 6. ANY COVERED PORCHES AND STOOPS SHALL BE SLOPED AT MIN. 1% AWAY FROM STRUCTURE. AT THE CONNECTION POINT OF THE PORCH AND STOOP, THE TYPICAL ELEVATION DROP SHALL BE 4 INCHES.
- GROUND ELEVATIONS AT FOUNDATION SHALL BE MIN. 6 INCHES BELOW FINISHED FLOOR ELEVATIONS.
- ELEVATIONS SHOWN REFERENCE NORTH AMERICAN VERTICAL DATUM (NAVD) 1988.
- 9. DRAIN FIELD MOUND SLOPES STEEPER THAN 5:1 SHALL BE SODDED.`
 10. FINISHED FLOOR TO BE MIN. 13" ABOVE MIDPOINT ELEVATION OF LOT PER COJ BULLETIN G-01-14.
- 11. PROPOSED DWELLING TO BE CONNECTED TO MUNICIPAL WATER.
- 12. Current FEMA F.I.R. Maps show property in FLOOD ZONE "X", according to flood insurance rate map panel: #12031C0359J. effective on 11/2/2018.
- 13. See Survey for Surveyor's Legend and Notes.

GUTTER AND DRAINAGE PIPE INSTALLATION NOTES:

- 1. 6" GUTTERS TO BE INSTALLED ON BOTH SIDES OF THE PROPOSED BUILDING. (2227H-9/8R)
- Q=CIA/97.1; C=1.0, I=4 INCHES PER HOUR (100YR-1HR), A=564ft2 (HALF OF THE ROOF AREA), 97.1 (CONVERSION FACTOR) = 23.2 GPM (GALLONS PER MINUTE).
 FLOW IS LESS THAN 46GPM, THUS INSTALL 3" DUAL WALL CORRUGATED PIPE WITH SMOOTH INTERIOR AND CORRUGATED
- EXTERIOR PIPE FROM ALL GUTTER DOWNSPOUTS TO THE FRONT OF THE PROPERTY WITH 3" POP-UP EMITTER AT THE FRONT RIGHT-OF-WAY LINE ON PRIVATE PROPERTY.
- INSTALL 10 FEET OF PERFORATED PIPE PRIOR TO THE POP-UP EMITTER PER MANUFACTURER'S SPECIFICATIONS. THIS WILL ALLOW ANY WATER REMAINING IN THE PIPE TO LEACH INTO THE SOIL
- 5. UP TO 2 DOWNSPOUTS PER SIDE OF HOUSE FOR GUTTER SYSTEM, MORE MAY BE NEEDED IF NECESSARY.

June 26, 2024

Report of the Jacksonville Planning and Development Department Certificate of Appropriateness Application COA-24-30962

<u>Address</u>: 3709 Hedrick Street, RE# 092428-0000

<u>Location</u>: North side of Hedrick Street between Van Wert Avenue and Shadowlawn Street

Owner: Taylor King

3709 Hedrick Street

Jacksonville, Florida 32205

Applicant: Same as owner

Year Built: 2019

Designation: Riverside/Avondale (New construction)

Request: New construction of an accessory structure and secondary driveway

Summary Scope of Work:

1. New construction of an accessory structure

2. Driveway Installation

Recommendation: Approve with conditions

Conditions:

New construction of accessory structure

- 1. Materials, design, and height shall be substantially consistent with the elevation drawings dated June 3, 2024, or as otherwise approved by the Historic Preservation Section.
- 2. Location and orientation shall be as substantially shown on the site plan dated August 8, 2024.
- 3. The new accessory structure shall be subordinate in height and size to the primary structure
- 4. Columns shall have caps and bases.
- 5. The fascia boards and soffits shall be composed of wood or a cementitious material (no vinyl or PVC).
- 6. The siding shall be installed with the smooth side facing outward.
- 7. The porch railing system shall be made of wood or wood composite, and the spindles shall be set in between an upper and lower railing with no exposed ends.

- 8. All windows shall be installed in accordance with the latest version of the HPS Window Supplement.
- 9. Prior to the final inspection of any building permit, the owner or their agent shall submit to the Historic Preservation Section an affidavit and any supplementary evidence that verifies compliance with all conditions of the COA final order.
- 10. The front door, if it is to have glass, shall have clear glass without any decorative etching or frosted glass.

New construction of a driveway

- 1. The driveway shall not be wider than 10 feet with a flare of 12 feet allowed at the curb.
- 2. The driveway can be poured concrete past the front wall of the main structure toward the rear of the lot.
- 3. Pavers shall have a rectangular shape, not to exceed 6" x 10" with a modular relationship of 1:2 or 3:5, and the color shall be brick-like or granite (no white blends).
- 4. Concrete ribbons shall be between 2 and 3 feet in width.
- 5. Any existing sidewalk shall not be altered or disturbed in any way.

PROJECT DESCRIPTION

COA-23-30962 seeks to construct a two-story accessory structure within the Riverside/Avondale Historic District behind a two-story single-family home. The property sits on the north side of Hedrick Street between Van Wert Avenue and Shadowlawn Street. The lot is approximately 122 feet in length and 50 feet in width. The proposed addition will be located in the rear of the property, along the northern property line, facing the alley. The proposed structure will have a garage on the first floor facing the alley and living areas on both floors. The primary construction materials will consist of asphalt shingles for the hip roof, Hardie plank siding, and concrete footing. The proposed driveway will use brick pavers. A previous contributing accessory structure was present at this location but was demolished due to structural damage and the presence of cancer-causing materials (COA-23-30123).

STAFF SUMMARY AND ANALYSIS

Staff considered the applicable Design Guidelines for the Riverside/Avondale Historic District, and the Ordinance Code criteria found in Sections 307.106(k) and 307.106(m).

- The proposed work can be completed within a reasonable period of time, consistent with Section 307.106(k)(4).
- The height of the proposed structure, approximately 27 feet, is subordinate in height to the primary structure, approximately 29 feet, and is comparable to other nearby accessory structures in the area. The scale, massing, and setbacks shown in the plans dated June 3, 2024, are also consistent with other accessory structures in the Riverside/Avondale area. As such, the proposed structure is consistent with the other structures along this block, section 307.106(m)(1,3, and 6).

- The proposed construction drawings show six-over-one windows, a design present on the main home and common in the area. The garage door will be a roll up, sectional garage door with three by two grid pattern windows. These design features are compatible with the primary structure and nearby structures and therefore is consistent with Section 307.106(m)(2).
- Regarding Section 307.106(m)(4), the design of the hip roof is consistent with the design guidelines for the district and is compatible with other roofs in the immediate area including that of the main home. Architectural shingles will be used, a feature found throughout the district.
- Consistent with Section 307.106(m)(7), the directional expression matches that of both the primary structure and other structures on the block.
- Consistent with Section 307.106(m)(8), the proposed overall design and architectural details of the structure are consistent with many of the nearby structures along the block and the primary structure of the property. For example:
 - The horizontally placed Hardie board lap siding.
 - Six-over-one windows
 - Hip roof with architectural shingles
 - Brick paver driveway (matches front walkway)
- The Design Guidelines for the District reference standards Two and Nine of the Secretary of the Interior's Standards for Rehabilitation. Standard Two refers to the relationship of new construction to adjacent buildings, landscape and streetscape features, and open spaces. The relationship of the proposed building to the surrounding context is described above. Standard Nine emphasizes that new construction shall not destroy historic materials and is differentiated from the old while being compatible in massing, size, scale, and architectural features in order to preserve the historical integrity of the property and its immediate surroundings. No significant historic fabric will be impacted since the proposed detached accessory structure will be compatible with other accessory structures. The accessory structures also blends into the Historic District by mimicking the finish and roof forms found throughout the district, while also being compatible with the massing, size, scale, and architectural features of adjacent properties.

For these reasons, it is the position of the Planning and Development Department that the proposed work under the stated conditions is consistent with:

- Section 307.106(k) General Standards: 1-4
- Section 307.106(m) Guidelines on New Construction: 1-4, 6, 7, and 8
- Historic Preservation Guidelines for the Springfield Historic District, "New Construction"

CODE CRITERIA AND DESIGN GUIDELINES

General Criteria

- 307.106(k)(1) The effect of the proposed work on the landmark, landmark site or property within an historic district upon which such work is to be done;
- 307.106(k)(2) The relationship between such work and other structures on the landmark site or other property in the historic district;
- 307.106(k)(3) The extent to which the historic, architectural, or archaeological significance, architectural style, design, arrangement, texture and materials of the landmark or the property will be affected;
- 307.106(k)(4) Whether the plans may be carried out by the applicant within a reasonable period of time.

New Construction

- 307.106(m)(1) *Height*. The height of any proposed alteration or construction shall be compatible with the style and character of the landmark and with surrounding structures in a historic district.
- 307.106(m)(2) *Proportions of windows and doors.* The proportions and relationships between doors and windows shall be compatible with the architectural style and character of the landmark and with surrounding structures in a historic district.
- 307.106(m)(3) Relationship of building masses, setbacks, and spaces. The relationship of a structure within a historic district to the open space between it and adjoining structures shall be compatible.
- 307.106(m)(4) Roof shape. The design of the roof shall be compatible with the architectural style and character of the landmark and surrounding structures in a historic district.
- 307.106(m)(6) *Scale*. The scale of the structure after alteration, construction, or partial demolition shall be compatible with its architectural style and character and with surrounding structures in a historic district.
- 307.106(m)(7) Directional expression. Facades in historic districts shall blend with other structures with regard to directional expression. Structures in an historic district shall be compatible with the dominant horizontal or vertical expression of surrounding structures. The directional expression of a landmark after alteration, construction, or partial demolition shall be compatible with its original architectural style and character.
- 307.106(m)(8) Architectural details. Architectural details including materials and textures shall be treated so as to make a landmark compatible with its original architectural style and character and to preserve and enhance the architectural style or character of a landmark or historic district. The Commission will give recommendations as to appropriate colors for any landmark or historic district.

Design Guidelines, "New Construction"

- Secretary of the Interior's Standards for Rehabilitation (2):
 The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
- Secretary of the Interior's Standards for Rehabilitation (9):
 New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

Application Certification -

For applications that can be approved administratively, there is no application fee.

For all applications that must go before the Historic Preservation Commission, a fee will be applied based on the type of work performed.

Application completeness review: All applications for Certificate of Appropriateness ("Application") will be reviewed for completeness by Planning and Development Department Staff. Any Application determined to be incomplete, will be returned to the applicant with comments detailing the deficiencies. No further action on the Application will take place until the application deficiencies are addressed. Once the Application is determined to be complete, Planning and Development Department Staff will prepare an invoice for the cost of the Application.

Payment deadline: The Invoice must be paid by the payment deadline in order to have the Application heard on the next scheduled Jacksonville Historic Preservation Commission (JHPC) regular meeting. The payment deadline is outlined on the City of Jacksonville's Planning and Development Department Website. Only Complete Applications will be invoiced. It is for the benefit of the applicant to supply staff with a complete Application in advance of the payment deadline. Due to the complexity and volume of Applications received by the Planning and Development Department, there is no guarantee that COA Applications submitted on the day of the payment deadline will be heard at the next regular meeting of the JHPC.

I, hereby, certify that I am the owner or the authorized agent of the owner(s) of the property described herein, that all answers to the questions in this application and all information contained in the material attached to and made a part of this application, are accurate and true to the best of my knowledge and belief. I also attest by my signature that all required information for this application is completed and duly attached in the prescribed order. Furthermore, if the package is found to be lacking the above requirements, I understand that the application will be returned for correct information.

I UNDERSTAND THE ABOVE DISCLAIMER REGARDING APPLICATION REVIEW. AGREED TO AND SUBMITTED.

CONSTRUCTION NOTES:

FASTENERS: FOR ALL PRESERVATIVE-TREATED & FIRE- RETARDANT TREATED: CONNECTORS SHALL BE TREATMENT RATED. FASTENERS SHALL BE HOT- DIPPED ZINC-COATED GALVANIZED, STAINLESS STEEL, SILICON BRONZE OR COPPER. FOLLOW IRC TABLE R602.3 (1) FASTENER SCHEDULE FOR STRUCTURAL MEMBERS. SITE PREPARATION: A SURFACE DRAINAGE PATTERN SHOULD BE ESTABLISHED WHICH WILL DRAIN THE ENTIRE AREA AND DIRECT WATER AWAY FROM THE HOUSE. THE FINISHED GRADE WILL BE SLOPED AWAY FROM THE FOUNDATION WALL OF THE HOUSE.

CONCRETE FOUNDATION: REMOVE ALL LOOSE & ORGANIC MATERIALS & EXCAVATE FOR FOOTINGS & PADS AS PER PLANS. THE DISTANCE OF THE FOOTING BASE TO THE FINISHED GRADE MUST BE NO LESS THAN THE DEPTH OF LOCAL FROST PENETRATION. FOOTINGS MUST BE ACCURATELY POSITIONED AND ROUGHLY LEVEL. FOOTINGS VARY IN SIZE & DEPTH DEPENDING ON THE ALLOWABLE SOIL PRESSURE AND THE LOAD. THE BOTTOM OF THE FOOTING IS ALWAYS PLACED ON UNDISTURBED SOIL OR COMPACTED GRANULAR FILL WITH

WATERPROOFING: CONCRETE WALLS BELOW GRADE SHOULD BE WATERPROOFED WITH A NON-TOXIC ELASTOMERIC MATERIAL APPLIED ON THE EXTERIOR SURFACE FROM THE FOOTINGS TO THE FINISHED GRADE LINE, TO MAKE THE WALL WATERTIGHT AGAINST ORDINARY SEEPAGE THAT MAY OCCUR.

FRAMING: PRIOR TO SILL PLATE INSTALLATION, INSPECT CONCRETE WORK CONDITION AND COMPARE ALL SITE DIMENSIONS WITH FOUNDATION PLAN DIMENSIONS. SILL ANCHOR: THE SILL PLATE SHOULD BE LEVELED CAREFULLY. IF THE TOP OF THE FOUNDATION IS LEVEL, THE SILL PLATE MAY BE LAID ON FOUNDATION WITH A CLOSED CELL FOAM GASKET OR OTHER AIR-IMPERMEABLE MATERIAL IN BETWEEN, AND OF SAME WIDTH AS SILL PLATE. SILL PLATES SHOULD BE PRESSURE TREATED 2x MATERIAL DF #2 OR BETTER & ANCHORED TO CONCRETE WALL WITH 5/8" ANCHOR BOLTS EMBEDDED 7" MIN. IN CONCRETE & 2" MIN. ABOVE CONCRETE. ANCHOR BOLT SHOULD BE PLACED 4'-0" o.c. MAX. APART AND 12" FROM ENDS WITH TWO BOLTS MIN. PER SILL PLATE.

FLOOR JOISTS: JOISTS SHOULD BE INSTALLED, LOCATED & SPACED ACCORDING TO LOCAL DESIGN PROS - VERIFY BUILDING SECTIONS VS LOCAL CONDITION REQUIREMENTS.

(2)

ANY JOISTS HAVING A SLIGHT BOW EDGEWISE SHOULD BE PLACED WITH THE CROWN ON TOP. ALL JOISTS TO HAVE A MINIMUM OF 1-1/2" BEARING AT SUPPORT. FLUSH FRAMED JOISTS TO BE FASTENED TO BEAMS WITH FULLY NAILED JOIST HANGERS. ALL FLOOR OPENINGS TO BE FRAMED WITH DOUBLE TRIMMER JOIST AND DOUBLE HEADER JOIST. INSTALL DOUBLE JOIST OR SOLID BLOCKING UNDER ALL FRAMED PARTITION WALLS. INSTALL BLOCKING BETWEEN JOISTS TO TRANSFER CONCENTRATED LOADS TO BEARING BELOW. PRODUCT QUALITY:

1. CONSIDER SPECIAL ORDERING FORMALDEHYDE-FREE PLYWOOD.

2. ZERO-VOC, NON-TOXIC & NON-CARCINOGENIC CAULKS, SEALANTS & ADHESIVES RECOMMENDED.

BUGS & PESTS:

1. NO BROAD SPECTRUM INSECTICIDES OR HERBICIDES TO BE APPLIED BEFORE, DURING OR AFTER THE FOUNDATION WORK. APPLY TERMITE SHIELDS ONLY, IF REQ'D. PROPERLY SCREEN VENTING & OPENINGS.

(2).
2. POSITIVE CONNECTION & TRANSFER OF LOAD FROM ROOF TO LOAD SUPPORTING ELEMENTS REQ'D.
3. PROVIDE ANCHORAGE OF BEAMS OR GIRDERS TO POSTS PER IRC SEC'S R407.3, R502.9 & R802.11
4. THIS STRUCTURE TO COMPLY WITH MIN. FASTENER SCHEDULE, IRC TABLES R602.3 (1) THRU (5).
5. SOLLD BLOCKING REQ'D @ ALL BEARING POINTS OF FLOOR, CEILING & ROOF SYSTEMS ACCORDING TO IRC SEC'S R502 & R802
6. ATTIC VENTILATION PER IRC SEC R806. ROOF FRAMING NOTES:

1. NUMBER OF JACK STUDS FOR ALL GIRDER & HEADER SPANS PER IRC TABLE 602.7 (1)

FLOOR PLAN NOTES:

COA-24-31001 1613 Van Wert Avenue

August 28, 2024

Report of the Jacksonville Planning and Development Department Certificate of Appropriateness Application COA-23-31001

<u>Address</u>: 1613 Van Wert Avenue, RE# 091683-0000

<u>Location</u>: Northeast corner of the intersection of Van Wert Avenue and Valencia Road

Owner: Raymond Roman

Sterling Specialties 1613 Van Wert Avenue Jacksonville Florida, 32205

Applicant: Deborah Roman

1613 Van Wert Avenue Jacksonville Florida, 32205

<u>Year Built</u>: 1973 (Property Appraiser)

<u>Designation</u>: Riverside/Avondale (Non-contributing)

Request: Alteration – Roof Replacement

Summary Scope of Work:

1. Replacement of shingled roof with a standing seam metal roof

Recommendation: Approve with conditions

Conditions:

1. New metal roofs shall be metal shingle, shingle imitation panel, 5V crimp, or standing seam (no corrugated panels).

PROJECT DESCRIPTION

COA-24-31001 seeks to replace a shingled roof with a new metal roof on a noncontributing single-family home in the Riverside/Avondale District. The building is a two story, masonry vernacular single-family home with two separate roof sections. Both sections are hip roofs. The new proposed roof is a light gray, GulfRib panel metal roof (a kind of standing seam metal roof).

STAFF SUMMARY AND ANALYSIS

Staff considered the applicable Design Guidelines for the Riverside//Avondale Historic District and the Ordinance Code criteria found in Sections 307.106(e), 307.106(k), and 307.106(l). The following in Staff's analysis:

- As stipulated in the 2024 COA matrix, the change in historic roofing material (even on noncontributing structures) cannot be approved at the administrative level 307.106(e).
- The structure of 1613 Van Wert Avenue is a noncontributing structure and as such, is held to a different standard than historic, contributing structures. Due to this fact, as well as the home's limited visibility at the end of the street and its lack of one particular design style (the home is of a masonry vernacular design), means that the use of a metal roof would have little effect on the overall historical significance of the streetscape. These factors combined make this scope of work consistent with section 307.106(k) (1,2,3, and 4)
- Pursuant to 307.106(l) (2,3, and 5) There would be little effect on the distinguishing features of the home given its relative lack of major distinguishing features and location at the end of the road.

CODE CRITERIA AND DESIGN GUIDELINES

General Criteria

- 307.106(k)(1) The effect of the proposed work on the landmark, landmark site or property within an historic district upon which such work is to be done;
- 307.106(k)(2) The relationship between such work and other structures on the landmark site or other property in the historic district;
- 307.106(k)(3) The extent to which the historic, architectural, or archaeological significance, architectural style, design, arrangement, texture and materials of the landmark or the property will be affected;
- 307.106(k)(4) Whether the plans may be carried out by the applicant within a reasonable period of time.

Alterations

- 307.106(l)(2) The distinguishing original qualities or character of a building, structure, or site shall not be destroyed. The removal or alteration of any historic material or distinctive architectural features shall be avoided when possible.
- 307.106(I)(3) Each building, structure, and site shall be recognized as a product of its own time. An alteration which has no historical basis and which seeks to create an earlier appearance shall be discouraged.
- 307.106(l)(5) Distinctive stylistic features or examples of skilled craftsmanship which characterize a building, structure, or site, shall be treated with sensitivity.

August 28, 2024

Report of the Jacksonville Planning and Development Department Certificate of Appropriateness Application COA-24-31027

Address: 1819 Montgomery Place, RE# 092902-0000

<u>Location</u>: Northeast side of Montgomery Place, between St. Johns Avenue and the St. Johns

River

Owner: Jeffrey Broome

Showcase Properties, LLC 4984 Ortega Forest Drive Jacksonville, Florida 32210

Applicant: Same as Owner

<u>Year Built</u>: c. 1990 (Property Appraiser)

<u>Designation</u>: Riverside Avondale, Non-Contributing

Request: Alteration – Paint Unpainted Brick Veneer

Summary Scope of Work:

1. Painting a structure with unpainted brick veneer

Recommendation: Approve with Conditions

Conditions:

- 1. All painting shall be limited to the brick veneer, stucco, and wood/wood-like materials.
- 2. All repairs shall be done to match the materials, dimensions, and design of the replaced fabric.
- 3. Painting and paint removal shall be consistent with National Park Service (NPS) Preservation Brief #1.

PROJECT DESCRIPTION

COA-24-31027 seeks to paint a one-story, non-contributing brick veneer structure in the Riverside Avondale Historic District. Located on an interior lot, the subject property consists of a one-story, Modern Movement style, single-family home characterized by its brown brick veneer exterior, shingled combination roof form, and covered front porch entrance. The applicant proposes to paint the brick veneer to conceal it. Their chosen paint products are a Sherwin Williams Loxon product for masonry surfaces, as a primer and bond coat, and a Sherwin Williams Emerald Rain Refresh Exterior Acrylic Latex Paint, as a topcoat. The applicant informed Staff that the topcoat paint product is self-cleaning and cuts down on maintenance and mildew. Painting brick veneer would cause a lesser degree of deterioration compared to painting regular brick.

The application also includes painting the previously painted stucco. Pursuant to the authority granted to Staff through the 2024 COA Matrix, painting previously painted materials can be approved administratively. As such, this report will focus on painting the brick veneer.

STAFF SUMMARY AND ANALYSIS

Staff considered the applicable Design Guidelines for the Historic District and the Ordinance Code criteria found in Sections 307.106(k), 307.106(l), 307.106(m), 307.106(n), and 307.106(o). The following is Staff's analysis:

Staff conducted a site visit on August 8, 2024, to take photographs of the brick veneer, verify if any damage was present, and to note the exterior characteristics of structures along the block. The brick veneer appeared to be in great condition. There are four (4) other non-contributing structures with painted brick on this block. For traditional brick surfaces, the impact of painting a brick structure instead of repointing the mortar and

performing routine maintenance can significantly deteriorate the brick, which is the structural support system of the building. Contrarily, the structural support system of the subject building is the backup wall materials and not the brick veneer finish. Painting brick veneer would cause minimal, if any, damage to the exterior wall membrane considering the structural support system will remain structurally intact. Therefore, painting the brick veneer of this drywall and stucco structure is consistent with Sections 307.106(k)(1)(3-4) and 307.106(l)(1-2).

• The Historic Preservation Guidelines for the Riverside Avondale Historic District identify masonry exterior finishes and detailing as important design features of the district. Moreover, the Design Guidelines reference Standard Three (3) of the Secretary of the Interior's Standards for Rehabilitation, which states, "Each property shall be recognized as a physical record of its time, place and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken." The proposed work would not add a conjectural feature or architectural element from other buildings, rather, it would allow the Modern Movement style structure to remain as is while only altering the non-historic exterior finish. This is consistent with the Design Guidelines and Sections 307.106(k)(1-3) and 307.106(l)(2-3)

For these reasons, it is the position of the Planning and Development Department that the proposed work is consistent with:

- Section 307.106(k) General Standards: 1, 2, 3, and 4
- Section 307.106(I) Guidelines on "Alterations": 1, 2, 3, and 7
- Historic District Design Guidelines, Section on "Exterior Fabric Masonry"
- National Park Service, Preservation Briefs: 1

CODE CRITERIA AND DESIGN GUIDELINES

General Criteria

- 307.106(k)(1) The effect of the proposed work on the landmark, landmark site or property within an historic district upon which such work is to be done;
- 307.106(k)(2) The relationship between such work and other structures on the landmark site or other property in the historic district;
- 307.106(k)(3) The extent to which the historic, architectural, or archaeological significance, architectural style, design, arrangement, texture and materials of the landmark or the property will be affected;
- 307.106(k)(4) Whether the plans may be carried out by the applicant within a reasonable period of time.

Alterations

- 307.106(I)(1) Every reasonable effort shall be made to use a property for its originally intended purpose, or to provide a compatible use for a property that requires minimal alteration of the building structure, or site.
- 307.106(l)(2) The distinguishing original qualities or character of a building, structure, or site shall not be destroyed. The removal or alteration of any historic material or distinctive architectural features shall be avoided when possible.
- 307.106(I)(3) Each building, structure, and site shall be recognized as a product of its own time. An alteration which has no historical basis and which seeks to create an earlier appearance shall be discouraged.

Historic District Design Guidelines, "Exterior Fabric - Masonry"

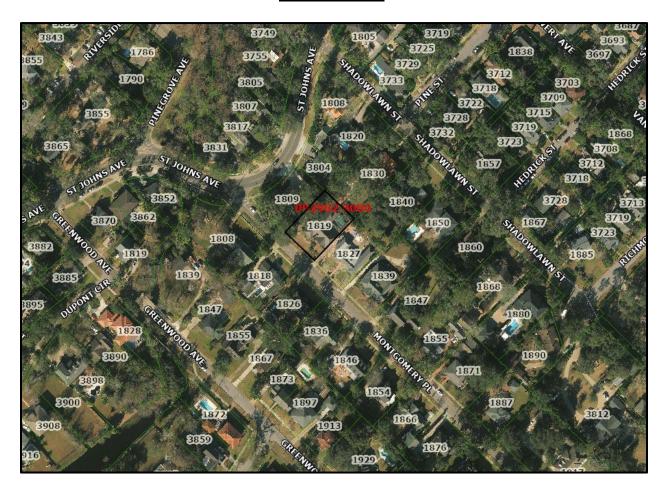

- Secretary of the Interior's Standard 2: The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
- Secretary of the Interior's Standard 3: Each property shall be recognized as a physical record of its time, place and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings shall not be undertaken.
- Exterior Fabric Masonry, Recommendation #1: "Identify, retain, and preserved masonry features that are important to defining the overall historical character of the building such as walls, brackets, railings, cornices, window architraves, door pediments, steps, and columns; and joint and unit size, tooling, and bonding patterns, coatings and color."
- Exterior Fabric Masonry, Recommendation #2: "Protect and maintain masonry by providing proper drainage so that water does not stand on flat, horizontal surfaces or accumulate in curved decorative features."
- Exterior Fabric Masonry, Recommendation #3: "Evaluate and treat the various causes of mortar joint deterioration such as leaking roofs or gutters, differential settlement of the building, capillary action or extreme weather exposure."
- Exterior Fabric Masonry, Recommendation #4: "Evaluate the overall condition of the masonry to determine whether repairs rather than protection and maintenance are required."
- Exterior Fabric Masonry, Avoid #1: "Removing or substantially altering masonry features which are important in defining the overall historical character of the building so that as a result the character is diminished."

• Exterior Fabric - Masonry, Avoid #2: "Replacing or rebuilding major portions of exterior walls that could be repaired and that would make the building essentially new construction."

National Park Service, Preservation Briefs

- National Park Service Preservation Brief #1: Assessing Cleaning and Water-Repellent Treatments for Historic Masonry Buildings
 - "The purpose of this Brief is to provide information on the variety of cleaning methods and materials that are available for use on the exterior of historic masonry buildings, and for providing guidance in selecting the most appropriate method or combination of methods."

COA-24-31050 2151 Dellwood Avenue

August 28, 2024

Report of the Jacksonville Planning and Development Department Certificate of Appropriateness Application COA-24-31050

<u>Address</u>: 2151 Dellwood Avenue, RE# 091424-0000

<u>Location</u>: North side of Dellwood Avenue, between Copeland Street and Goodwin Street

Owner: Kristin Dehan

2151 Dellwood Avenue Jacksonville Florida, 32204

App<u>licant</u>: Same as owner

Year Built: 1916 (Property Appraiser)

Designation: Riverside/Avondale, contributing

Request: Alterations-Fencing

<u>Summary Scope of Work:</u>

1. Replace existing 8-foot-tall fence like-for-like with new fence

Recommendation: Approve with Condition

Conditions:

1. The location of the fencing and gate(s) shall be substantially consistent with the site plan submitted July 11, 2024.

PROJECT DESCRIPTION

COA-24-31050 is for the replacement of an existing 8-foot-tall fence along the side and rear property lines of 2151 Dellwood Avenue, a contributing single-family home in the Riverside/Avondale District. The fence is a 6-foot tall, vertically oriented, board-on-board design with caps and trims as well as a two-foot lattice atop the fence. The fence will extend around the sides and rear property line. The arbor presently installed on the east side of the home is to be removed.

STAFF SUMMARY AND ANALYSIS

Staff considered the applicable Design Guidelines for the Riverside Avondale Historic District and the Ordinance Code criteria found in Sections 307.106(k) and 307.106(l). The following is Staff's analysis.

In general, fences that exceed six feet in height are not permitted when not located along incompatible zoning uses however there are several factors that staff have taken into consideration when assessing this property, with these being:

- The elevation of much the rear yard is greater than that of where the fence is installed along the property line meaning that a regular six-foot fence is insufficient in providing privacy to the residence.
- The proposed replacement fence will not be street visible, being only on the side and rear yards of the home.
- The proposed replacement fence shall be the same design of the current fence except for the street visible arbor which will be removed (bringing the fence closer into compliance).

Based on the above analysis, Staff finds the request to perform a like-for-like replacement of the fence to be compatible with Sections 307.106(k)(1,2, and 3) and 307.106(l)(1 and 6).

CODE CRITERIA AND DESIGN GUIDELINES

General Criteria

- 307.106(k)(1) The effect of the proposed work on the landmark, landmark site or property within an historic district upon which such work is to be done;
- 307.106(k)(2) The relationship between such work and other structures on the landmark site or other property in the historic district;
- 307.106(k)(3) The extent to which the historic, architectural, or archaeological significance, architectural style, design, arrangement, texture and materials of the landmark or the property will be affected;

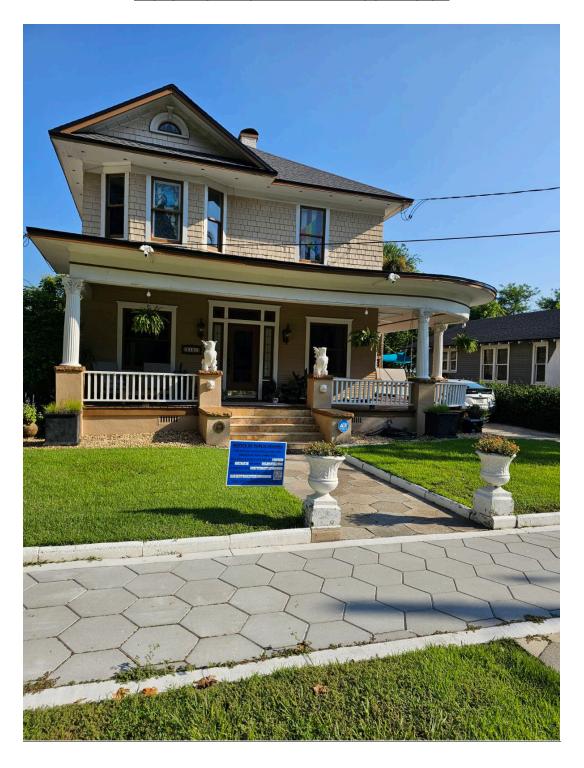

Alterations

• 307.106(l)(1) - Every reasonable effort shall be made to use a property for its originally intended purpose, or to provide a compatible use for a property that requires minimal alteration of the building structure, or site.

LOCATION MAP

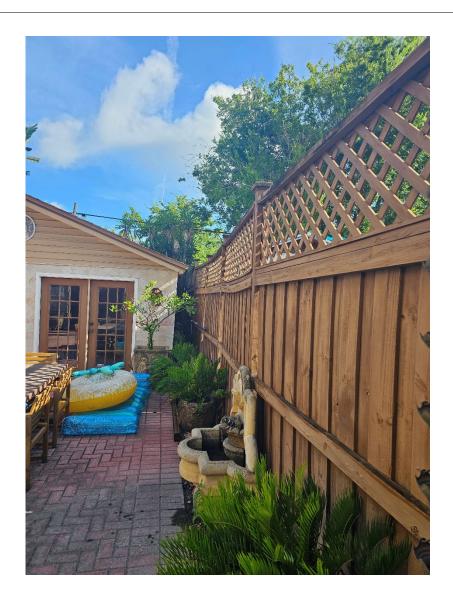

PICTURE OF PROPERTY WITH POSTED SIGN

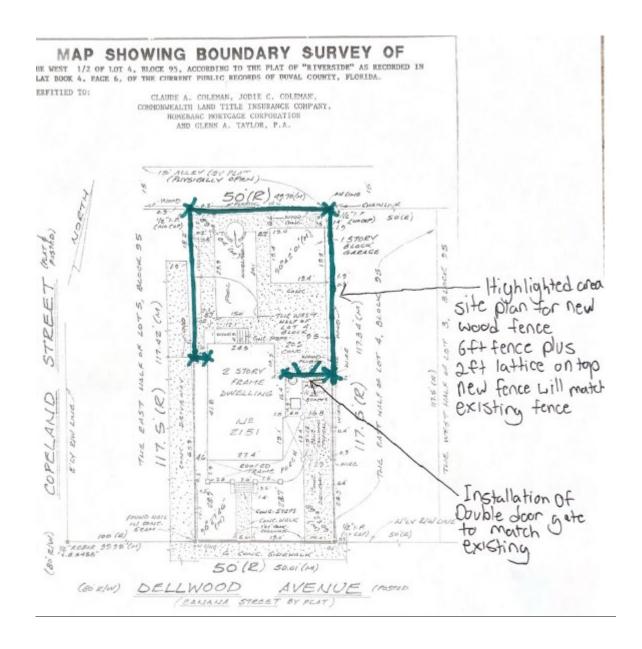

PROPOSED FENCE DESIGN

Fence style

All materials southern pine #2 pressure treated lumber. Raw materials for the fence are purchased at lumber yard and fence style is fabricated on site to match existing wood fence. Fence height is 8ft tall total. 6ft of board on board wood fence style with 2ft of lattice on top. Board on board wood fence style is boards placed on top of one another to office full privacy. 6x6x10 posts used in between sections, 2x4x8 railing and % thickness pickets. Lattice will be framed out on top to give decorative finish. New fence will be a mirror image of existing wood fence.

Application Certification

For applications that can be approved administratively, there is no application fee.

For all applications that must go before the Historic Preservation Commission, a fee will be applied based on the type of work performed.

Application completeness review: All applications for Certificate of Appropriateness ("Application") will be reviewed for completeness by Planning and Development Department Staff. Any Application determined to be incomplete, will be returned to the applicant with comments detailing the deficiencies. No further action on the Application will take place until the application deficiencies are addressed. Once the Application is determined to be complete, Planning and Development Department Staff will prepare an invoice for the cost of the Application.

Payment deadline: The Invoice must be paid by the payment deadline in order to have the Application heard on the next scheduled Jacksonville Historic Preservation Commission (JHPC) regular meeting. The payment deadline is outlined on the City of Jacksonville's Planning and Development Department Website. Only Complete Applications will be invoiced. It is for the benefit of the applicant to supply staff with a complete Application in advance of the payment deadline. Due to the complexity and volume of Applications received by the Planning and Development Department, there is no guarantee that COA Applications submitted on the day of the payment deadline will be heard at the next regular meeting of the JHPC.

I, hereby, certify that I am the owner or the authorized agent of the owner(s) of the property described herein, that all answers to the questions in this application and all information contained in the material attached to and made a part of this application, are accurate and true to the best of my knowledge and belief. I also attest by my signature that all required information for this application is completed and duly attached in the prescribed order. Furthermore, if the package is found to be lacking the above requirements, I understand that the application will be returned for correct information.

I UNDERSTAND THE ABOVE DISCLAIMER REGARDING APPLICATION REVIEW. AGREED TO AND SUBMITTED.

- 8. The front entry walkway shall be limited to the width of the front porch steps and shall be composed of brick-like pavers, poured concrete, or hexagonal brick pavers.
- 9. The front door shall have clear glass without any decorative etching or frosted glass.
- 10. All windows shall be installed in accordance with the latest version of the HPS Window Supplement.
- 11. Prior to the final inspection of any building permit, the owner or their agent shall submit to the Historic Preservation Section an affidavit and any supplementary evidence that verifies compliance with all conditions of the COA final order.

COA-24-31078 Page 2 of 9

PROJECT DESCRIPTION

COA-24-31078 seeks to construct a two-story single-family home and a one-story accessory structure within the Springfield Historic District. The subject property is currently vacant and approximately 36 feet wide and 127 feet long. The lots on this portion of the block are a mixture of one-story and two-story homes. As designed, the home consists of a gabled roof, nested gables, and a full-width porch along the front elevation. Primary materials of the structure include fiberglass shingles for the roof, one-over-one windows, fiber cement lap siding and shingles, wood railings, concrete block with a stucco finish for the foundation, and square columns along the front porch. Meanwhile, the 600-square foot accessory structure mimics the features of the primary structure by having one-over-one windows and fiber cement lap siding and shingles.

STAFF SUMMARY AND ANALYSIS

Staff considered the applicable Design Guidelines for the Historic District and the Ordinance Code criteria found in Sections 307.106(k), 307.106(l), 307.106(m), 307.106(n), and 307.106(o). The following is Staff's analysis:

- Development of a two-story single-family home on a vacant lot amidst other one-story and two-story residential homes provides for a compatible reuse of an infill lot in the Springfield Historic District and contributes to the residential streetscape. The design of the proposed structure ensures a compatible relationship with other properties in the historic district as the proposed frame vernacular style is consistent with the architectural styles of the neighborhood. As such, the proposed development is consistent with Sections 307.106(k)(1-2).
- The proposed work can be completed within a reasonable period of time, consistent with Section 307.106(k)(4).
- The overall height of the proposed primary structure from finish floor is 28 feet and 6 inches, which is compatible with the heights of adjacent structures. Meanwhile, the height of the accessory structure will be less than 15 feet in height. Staff finds the scale and massing of the proposed structures are consistent with other structures on the block. The setbacks as shown on the site plan dated July 16, 2024, are consistent with other nearby structures and have been conditioned to ensure compatibility. Massing of the proposed structures are also consistent with neighboring structures. For these reasons, the development is consistent with Sections 307.106(m)(1, 3, and 6).
- The proposed elevations depict one-over-one light pattern windows on both structures—all of which possess a header height characteristic of window design in the Springfield Historic District. The majority of the windows are vertically oriented and of a traditional size. The front door on the primary structure is a half-light craftsman-style door with sidelights, which can be found on other structures within the District. Consistent with Section 307.106(m)(2), the proportions and relationships between the windows and doors are compatible with the architectural style of structures in the neighborhood.
- Consistent with Section 307.106(m)(4), the design of the gable roof form is compatible
 with the roof forms within the District, and similar roof forms are found along the block
 as well.

COA-24-31078 Page 3 of 9

- The proposed design of the primary structure maintains the alignment of windows and sills, uniformed openings, and horizontal rhythms along the streetscape. As such, the proposed structure is compatible with the directional expression of proximate structures and consistent with Section 307.106(m)(7).
- Consistent with Section 307.106(m)(8), the proposed design of the primary structure contains many architectural details that are in keeping with historic elements found throughout the Springfield Historic District. Such details include:
 - The fiber cement lap siding, a contemporary material used to replicate the finish and dimension of horizontal wood lap siding, which is common in Springfield;
 - The block foundation with a stucco finish;
 - The one-story, full-width porch with square columns along the front elevation; and,
 - Vertically-oriented windows spaced evenly throughout the structure.
- The Design Guidelines for the District reference Standards Two and Nine of the Secretary of the Interior's Standards for Rehabilitation. Standard Two refers to the relationship of new construction to adjacent buildings, landscape and streetscape features, and open spaces. The relationship of the proposed building to the surrounding context is described above. Standard Nine emphasizes that new construction shall not destroy historic materials, is differentiated from the old while being compatible in massing, size, scale, and architectural features in order to preserve the historical integrity of the property and its immediate surroundings. No historic fabric will be impacted since the new construction is infill of a vacant residential lot, and the proposed new construction is compatible with the surrounding, contributing structures. The proposed structures are differentiated from historic structures by the finish and materials used, while being compatible with the massing, size, scale and architectural features of adjacent properties.

For these reasons, it is the position of the Planning and Development Department that the proposed work under the stated conditions is consistent with:

- Section 307.106(k) General Standards: 1, 2, and 4
- Section 307.106(m) Guidelines on New Construction: 1-4, and 6-8
- Historic Preservation Guidelines for the Springfield Historic District, "New Construction"

CODE CRITERIA AND DESIGN GUIDELINES

General Criteria

- 307.106(k)(1) The effect of the proposed work on the landmark, landmark site or property within an historic district upon which such work is to be done;
- 307.106(k)(2) The relationship between such work and other structures on the landmark site or other property in the historic district;
- 307.106(k)(4) Whether the plans may be carried out by the applicant within a reasonable period of time.

COA-24-31078 Page 4 of 9

New Construction

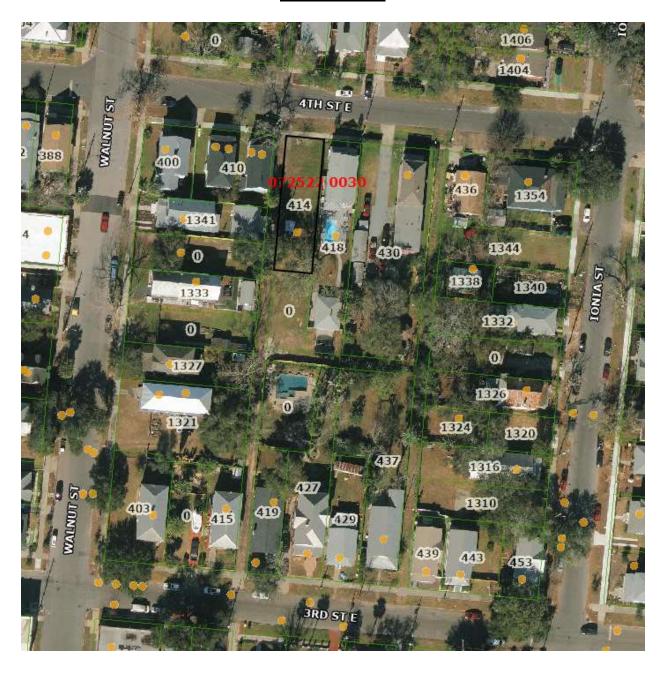

- 307.106(m)(1) *Height*. The height of any proposed alteration or construction shall be compatible with the style and character of the landmark and with surrounding structures in an historic district.
- 307.106(m)(2) *Proportions of windows and doors.* The proportions and relationships between doors and windows shall be compatible with the architectural style and character of the landmark and with surrounding structures in an historic district.
- 307.106(m)(3) Relationship of building masses, setbacks and spaces. The relationship of a structure within an historic district to the open space between it and adjoining structures shall be compatible.
- 307.106(m)(4) Roof shape. The design of the roof shall be compatible with the architectural style and character of the landmark and surrounding structures in an historic district.
- 307.106(m)(6) *Scale*. The scale of the structure after alteration, construction, or partial demolition shall be compatible with its architectural style and character and with surrounding structures in an historic district.
- 307.106(m)(7) Directional expression. Facades in historic districts shall blend with other structures with regard to directional expression. Structures in an historic district shall be compatible with the dominant horizontal or vertical expression of surrounding structures. The directional expression of a landmark after alteration, construction, or partial demolition shall be compatible with its original architectural style and character.
- 307.106(m)(8) Architectural details. Architectural details including materials and textures shall be treated so as to make a landmark compatible with its original architectural style and character and to preserve and enhance the architectural style or character of a landmark or historic district. The Commission will give recommendations as to appropriate colors for any landmark or historic district.

Design Guidelines, "New Construction"

- Secretary of the Interior's Standards for Rehabilitation (2):
 The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
- Secretary of the Interior's Standards for Rehabilitation (9):
 New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

-Application Certification —

For applications that can be approved administratively, there is no application fee.

For all applications that must go before the Historic Preservation Commission, a fee will be applied based on the type of work performed.

Application completeness review: All applications for Certificate of Appropriateness ("Application") will be reviewed for completeness by Planning and Development Department Staff. Any Application determined to be incomplete, will be returned to the applicant with

comments detailing the deficiencies. No further action on the Application will take place until the application deficiencies are addressed. Once the Application is determined to be complete, Planning and Development Department Staff will prepare an invoice for the cost of the Application.

Payment deadline: The Invoice must be paid by the payment deadline in order to have the Application heard on the next scheduled Jacksonville Historic Preservation Commission (JHPC) regular meeting. The payment deadline is outlined on the City of Jacksonville's Planning and Development Department Website. Only Complete Applications will be invoiced. It is for the benefit of the applicant to supply staff with a complete Application in advance of the payment deadline. Due to the complexity and volume of Applications received by the Planning and Development Department, there is no guarantee that COA Applications submitted on the day of the payment deadline will be heard at the next regular meeting of the JHPC.

I, hereby, certify that I am the owner or the authorized agent of the owner(s) of the property described herein, that all answers to the questions in this application and all information contained in the material attached to and made a part of this application, are accurate and true to the best of my knowledge and belief. I also attest by my signature that all required information for this application is completed and duly attached in the prescribed order. Furthermore, if the package is found to be lacking the above requirements, I understand that the application will be returned for correct information.

I UNDERSTAND THE ABOVE DISCLAIMER REGARDING APPLICATION REVIEW. AGREED TO AND SUBMITTED.

JWB Real Estate Capital, LLC 7563 Philips Highway, Suite 208 Jacksonville, Florida 32256

Applicant: Mitchell Askelson

JWB Real Estate Companies, LLC 7563 Philips Highway, Suite 208 Jacksonville, Florida 32256

Year Built: N/A

Designation: Springfield

Request: New Construction (two-story single-family residence)

Summary Scope of Work:

1. New construction of a two-story single-family home

Recommendation: Approve with Conditions

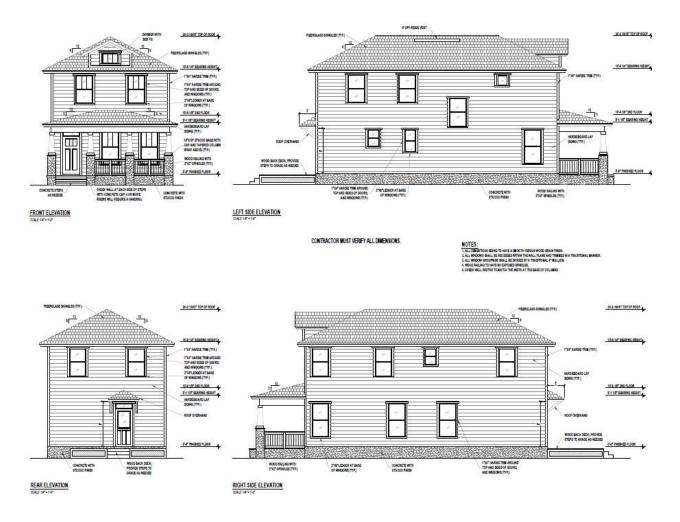

Conditions:

New construction of a two-story single-family home

- 1. Materials, design, and height shall be substantially consistent with the elevation drawings dated June 26, 2024, or as otherwise approved by the Historic Preservation Section.
- 2. Location and orientation shall be as substantially shown on the site plan dated July 8, 2024.
- 3. Prior to permitting, the applicant shall demonstrate that the front setback will be within 25 percent of the average required front yard of adjacent contributing structures.
- 4. Columns shall have caps and bases.
- 5. The fascia boards and soffits shall be composed of wood or a cementitious material (no vinyl or PVC).

COA-24-31081 Page 1 of 9

- 6. The siding shall be installed with the smooth side facing outward.
- 7. The porch railing system shall be made of wood or wood composite, and the spindles shall be set in between an upper and lower railing with no exposed ends.
- 8. The front entry walkway shall be limited to the width of the front porch steps and shall be composed of brick-like pavers, poured concrete, or hexagonal brick pavers.
- 9. The front door shall have clear glass without any decorative etching or frosted glass.
- 10. Driveway installation shall be reviewed under a separate COA application.
- 11. All windows shall be installed in accordance with the latest version of the HPS Window Supplement.
- 12. Prior to the final inspection of any building permit, the owner or their agent shall submit to the Historic Preservation Section an affidavit and any supplementary evidence that verifies compliance with all conditions of the COA final order.

COA-24-31081 Page 2 of 9

PROJECT DESCRIPTION

COA-24-31081 seeks to construct a two-story single-family home within the Springfield Historic District. The subject property is currently vacant and approximately 35 feet wide and 104 feet long. The lots on this portion of the block are a mixture of one-story and two-story homes. As designed, the home consists of a hip roof, gabled dormer, and a full-width porch along the first-floor front elevation. Primary materials of the structure include fiberglass shingles for the roof, three-over-one and one-over-one windows, fiber cement lap siding and shingles, wood railings, concrete block with a stucco finish for the foundation, and stucco tapered columns along the front porch.

STAFF SUMMARY AND ANALYSIS

Staff considered the applicable Design Guidelines for the Historic District and the Ordinance Code criteria found in Sections 307.106(k), 307.106(l), 307.106(m), 307.106(n), and 307.106(o). The following is Staff's analysis:

- Development of a two-story single-family home on a vacant lot amidst other one-story and two-story residential homes provides for a compatible reuse of an infill lot in the Springfield Historic District and contributes to the residential streetscape. The design of the proposed structure ensures a compatible relationship with other properties in the historic district as the proposed frame vernacular style is consistent with the architectural styles of the neighborhood. As such, the proposed development is consistent with Sections 307.106(k)(1-2).
- The proposed work can be completed within a reasonable period of time, consistent with Section 307.106(k)(4).
- The overall height of the proposed structure from finish floor is 24 feet and 3 inches, which is compatible with the heights of adjacent and proposed structures. The scale and massing of the proposed structure is consistent with other residences on the block. The setbacks as shown on the site plan dated July 8, 2024 are consistent with other nearby structures and have been conditioned to ensure compatibility. Massing of the proposed structure is consistent with neighboring structures. For these reasons, the development is consistent with Sections 307.106(m)(1, 3, and 6).
- The proposed three-over-one light pattern windows on the front elevation and one-over-one windows on the remaining elevations—all of which possess a header height characteristic of window design in the Springfield Historic District. The majority of the windows are vertically oriented and of a traditional size. The front door is a quarter-light craftsman-style door with a transom, which can be found on other structures within the District. Consistent with Section 307.106(m)(2), the proportions and relationships between the windows and doors are compatible with the architectural style of structures in the neighborhood.
- Consistent with Section 307.106(m)(4), the design of the hip roof form is compatible with the roof forms within the District, and similar roof forms are found along the block as well.
- The proposed design of the new structure maintains the alignment of windows and sills, uniformed openings, and horizontal rhythms along the streetscape. As such, the

COA-24-31081 Page 3 of 9

- proposed structure is compatible with the directional expression of proximate structures and consistent with Section 307.106(m)(7).
- Consistent with Section 307.106(m)(8), the proposed design of the structure contains many architectural details that are in keeping with historic elements found throughout the Springfield Historic District. Such details include:
 - The fiber cement lap siding, a contemporary material used to replicate the finish and dimension of horizontal wood lap siding, which is common in Springfield;
 - The block foundation with a stucco finish;
 - The one-story, full-width porch with stucco tapered columns along the front elevation; and,
 - Vertically-oriented windows spaced evenly throughout the structure.
- The Design Guidelines for the District reference Standards Two and Nine of the Secretary of the Interior's Standards for Rehabilitation. Standard Two refers to the relationship of new construction to adjacent buildings, landscape and streetscape features, and open spaces. The relationship of the proposed building to the surrounding context is described above. Standard Nine emphasizes that new construction shall not destroy historic materials, is differentiated from the old while being compatible in massing, size, scale, and architectural features in order to preserve the historical integrity of the property and its immediate surroundings. No historic fabric will be impacted since the new construction is infill of a vacant residential lot, and the proposed new construction is compatible with the surrounding, contributing structures. The proposed residence is differentiated from historic structures by the finish and materials used, while being compatible with the massing, size, scale and architectural features of adjacent properties.

For these reasons, it is the position of the Planning and Development Department that the proposed work under the stated conditions is consistent with:

- Section 307.106(k) General Standards: 1, 2, and 4
- Section 307.106(m) Guidelines on New Construction: 1-4, and 6-8
- Historic Preservation Guidelines for the Springfield Historic District, "New Construction"

CODE CRITERIA AND DESIGN GUIDELINES

General Criteria

- 307.106(k)(1) The effect of the proposed work on the landmark, landmark site or property within an historic district upon which such work is to be done;
- 307.106(k)(2) The relationship between such work and other structures on the landmark site or other property in the historic district;
- 307.106(k)(4) Whether the plans may be carried out by the applicant within a reasonable period of time.

COA-24-31081 Page 4 of 9

New Construction

- 307.106(m)(1) *Height*. The height of any proposed alteration or construction shall be compatible with the style and character of the landmark and with surrounding structures in an historic district.
- 307.106(m)(2) *Proportions of windows and doors.* The proportions and relationships between doors and windows shall be compatible with the architectural style and character of the landmark and with surrounding structures in an historic district.
- 307.106(m)(3) Relationship of building masses, setbacks and spaces. The relationship of a structure within an historic district to the open space between it and adjoining structures shall be compatible.
- 307.106(m)(4) Roof shape. The design of the roof shall be compatible with the architectural style and character of the landmark and surrounding structures in an historic district.
- 307.106(m)(6) *Scale*. The scale of the structure after alteration, construction, or partial demolition shall be compatible with its architectural style and character and with surrounding structures in an historic district.
- 307.106(m)(7) Directional expression. Facades in historic districts shall blend with
 other structures with regard to directional expression. Structures in an historic district
 shall be compatible with the dominant horizontal or vertical expression of surrounding
 structures. The directional expression of a landmark after alteration, construction, or
 partial demolition shall be compatible with its original architectural style and character.
- 307.106(m)(8) Architectural details. Architectural details including materials and textures shall be treated so as to make a landmark compatible with its original architectural style and character and to preserve and enhance the architectural style or character of a landmark or historic district. The Commission will give recommendations as to appropriate colors for any landmark or historic district.

Design Guidelines, "New Construction"

- Secretary of the Interior's Standards for Rehabilitation (2):
 The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
- Secretary of the Interior's Standards for Rehabilitation (9):
 New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

-Application Certification —

For applications that can be approved administratively, there is no application fee.

For all applications that must go before the Historic Preservation Commission, a fee will be applied based on the type of work performed.

Application completeness review: All applications for Certificate of Appropriateness ("Application") will be reviewed for completeness by Planning and Development Department Staff. Any Application determined to be incomplete, will be returned to the applicant with

comments detailing the deficiencies. No further action on the Application will take place until the application deficiencies are addressed. Once the Application is determined to be complete, Planning and Development Department Staff will prepare an invoice for the cost of the Application.

Payment deadline: The Invoice must be paid by the payment deadline in order to have the Application heard on the next scheduled Jacksonville Historic Preservation Commission (JHPC) regular meeting. The payment deadline is outlined on the City of Jacksonville's Planning and Development Department Website. Only Complete Applications will be invoiced. It is for the benefit of the applicant to supply staff with a complete Application in advance of the payment deadline. Due to the complexity and volume of Applications received by the Planning and Development Department, there is no guarantee that COA Applications submitted on the day of the payment deadline will be heard at the next regular meeting of the JHPC.

I, hereby, certify that I am the owner or the authorized agent of the owner(s) of the property described herein, that all answers to the questions in this application and all information contained in the material attached to and made a part of this application, are accurate and true to the best of my knowledge and belief. I also attest by my signature that all required information for this application is completed and duly attached in the prescribed order. Furthermore, if the package is found to be lacking the above requirements, I understand that the application will be returned for correct information.

I UNDERSTAND THE ABOVE DISCLAIMER REGARDING APPLICATION REVIEW. AGREED TO AND SUBMITTED.

Location: West side of Ionia Street between 1st Street and 2nd Street East

Owner: Adam Eiseman

Hoose Homes and Investments, LLC 7563 Philips Highway, Suite 208 Jacksonville, Florida 32256

Applicant: Mitchell Askelson

JWB Real Estate Companies, LLC 7563 Philips Highway, Suite 208 Jacksonville, Florida 32256

Year Built: N/A

Designation: Springfield

Request: New Construction (two-story single-family residence)

Summary Scope of Work:

1. New construction of a two-story single-family home

Recommendation: Approve with Conditions

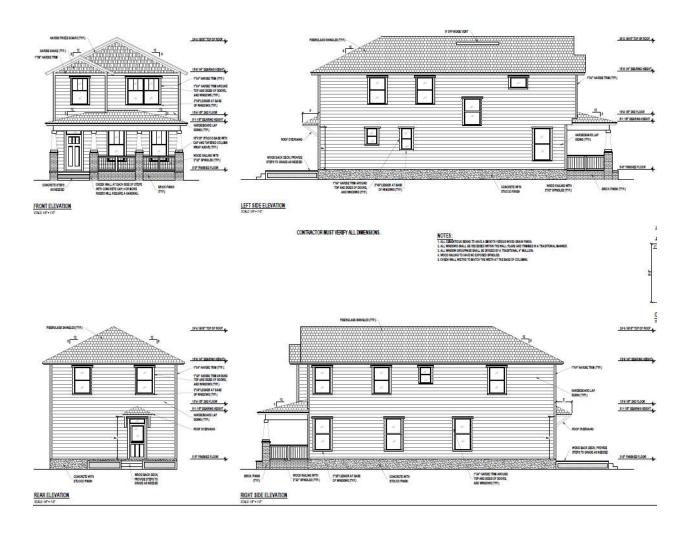

Conditions:

New construction of a two-story single-family home

- 1. Materials, design, and height shall be substantially consistent with the elevation drawings dated June 6, 2024, or as otherwise approved by the Historic Preservation Section.
- 2. Location and orientation shall be as substantially shown on the site plan dated June 24, 2024.
- 3. Prior to permitting, the applicant shall demonstrate that the front setback will be within 25 percent of the average required front yard of adjacent contributing structures.
- 4. Columns shall have caps and bases.
- 5. The fascia boards and soffits shall be composed of wood or a cementitious material (no vinyl or PVC).

COA-24-31082 Page 1 of 9

- 6. The siding shall be installed with the smooth side facing outward.
- 7. The porch railing system shall be made of wood or wood composite, and the spindles shall be set in between an upper and lower railing with no exposed ends.
- 8. The front entry walkway shall be limited to the width of the front porch steps and shall be composed of brick-like pavers, poured concrete, or hexagonal brick pavers.
- 9. The front door shall have clear glass without any decorative etching or frosted glass.
- 10. All windows shall be installed in accordance with the latest version of the HPS Window Supplement.
- 11. Prior to the final inspection of any building permit, the owner or their agent shall submit to the Historic Preservation Section an affidavit and any supplementary evidence that verifies compliance with all conditions of the COA final order.

COA-24-31082 Page 2 of 9

PROJECT DESCRIPTION

COA-24-31082 seeks to construct a two-story single-family home within the Springfield Historic District. The subject property is currently vacant and approximately 35 feet wide and 125 feet long. The lots on this portion of the block are a mixture of one-story and two-story homes. As designed, the home consists of a nested gable, and a full-width porch along the front elevation and hip roof along rear elevation. Primary materials of the structure include fiberglass shingles for the roof, three-over-one and one-over-one windows, fiber cement lap siding and shingles, wood railings, concrete block with a brick finish for the foundation, and brick tapered columns along the front porch.

STAFF SUMMARY AND ANALYSIS

Staff considered the applicable Design Guidelines for the Historic District and the Ordinance Code criteria found in Sections 307.106(k), 307.106(l), 307.106(m), 307.106(n), and 307.106(o). The following is Staff's analysis:

- Development of a two-story single-family home on a vacant lot amidst other one-story and two-story residential homes provides for a compatible reuse of an infill lot in the Springfield Historic District and contributes to the residential streetscape. The design of the proposed structure ensures a compatible relationship with other properties in the historic district as the proposed frame vernacular style is consistent with the architectural styles of the neighborhood. As such, the proposed development is consistent with Sections 307.106(k)(1-2).
- The proposed work can be completed within a reasonable period of time, consistent with Section 307.106(k)(4).
- The overall height of the proposed structure from finish floor is 24 feet and 3 inches, which is compatible with the heights of adjacent and proposed structures. The scale and massing of the proposed structure is consistent with other residences on the block. The setbacks as shown on the site plan dated June 24, 2024 are consistent with other nearby structures and have been conditioned to ensure compatibility. Massing of the proposed structure is consistent with neighboring structures. For these reasons, the development is consistent with Sections 307.106(m)(1, 3, and 6).
- The proposed three-over-one light pattern windows on the front elevation and one-over-one windows on the remaining elevations—all of which possess a header height characteristic of window design in the Springfield Historic District. The majority of the windows are vertically oriented and of a traditional size. The front door is a quarter-light craftsman-style door with a transom, which can be found on other structures within the District. Consistent with Section 307.106(m)(2), the proportions and relationships between the windows and doors are compatible with the architectural style of structures in the neighborhood.
- Consistent with Section 307.106(m)(4), the design of the gable roof form is compatible with the roof forms within the District, and similar roof forms are found along the block as well.

COA-24-31082 Page 3 of 9

- The proposed design of the new structure maintains the alignment of windows and sills, uniformed openings, and horizontal rhythms along the streetscape. As such, the proposed structure is compatible with the directional expression of proximate structures and consistent with Section 307.106(m)(7).
- Consistent with Section 307.106(m)(8), the proposed design of the structure contains many architectural details that are in keeping with historic elements found throughout the Springfield Historic District. Such details include:
 - The fiber cement lap siding, a contemporary material used to replicate the finish and dimension of horizontal wood lap siding, which is common in Springfield;
 - The block foundation with a brick finish;
 - The one-story, full-width porch with brick tapered columns along the front elevation; and,
 - Vertically-oriented windows spaced evenly throughout the structure.
- The Design Guidelines for the District reference Standards Two and Nine of the Secretary of the Interior's Standards for Rehabilitation. Standard Two refers to the relationship of new construction to adjacent buildings, landscape and streetscape features, and open spaces. The relationship of the proposed building to the surrounding context is described above. Standard Nine emphasizes that new construction shall not destroy historic materials, is differentiated from the old while being compatible in massing, size, scale, and architectural features in order to preserve the historical integrity of the property and its immediate surroundings. No historic fabric will be impacted since the new construction is infill of a vacant residential lot, and the proposed new construction is compatible with the surrounding, contributing structures. The proposed residence is differentiated from historic structures by the finish and materials used, while being compatible with the massing, size, scale and architectural features of adjacent properties.

For these reasons, it is the position of the Planning and Development Department that the proposed work under the stated conditions is consistent with:

- Section 307.106(k) General Standards: 1, 2, and 4
- Section 307.106(m) Guidelines on New Construction: 1-4, and 6-8
- Historic Preservation Guidelines for the Springfield Historic District, "New Construction"

CODE CRITERIA AND DESIGN GUIDELINES

General Criteria

- 307.106(k)(1) The effect of the proposed work on the landmark, landmark site or property within an historic district upon which such work is to be done;
- 307.106(k)(2) The relationship between such work and other structures on the landmark site or other property in the historic district;
- 307.106(k)(4) Whether the plans may be carried out by the applicant within a reasonable period of time.

COA-24-31082 Page 4 of 9

New Construction

- 307.106(m)(1) *Height*. The height of any proposed alteration or construction shall be compatible with the style and character of the landmark and with surrounding structures in an historic district.
- 307.106(m)(2) Proportions of windows and doors. The proportions and relationships between doors and windows shall be compatible with the architectural style and character of the landmark and with surrounding structures in an historic district.
- 307.106(m)(3) Relationship of building masses, setbacks and spaces. The relationship of a structure within an historic district to the open space between it and adjoining structures shall be compatible.
- 307.106(m)(4) Roof shape. The design of the roof shall be compatible with the architectural style and character of the landmark and surrounding structures in an historic district.
- 307.106(m)(6) *Scale*. The scale of the structure after alteration, construction, or partial demolition shall be compatible with its architectural style and character and with surrounding structures in an historic district.
- 307.106(m)(7) Directional expression. Facades in historic districts shall blend with other structures with regard to directional expression. Structures in an historic district shall be compatible with the dominant horizontal or vertical expression of surrounding structures. The directional expression of a landmark after alteration, construction, or partial demolition shall be compatible with its original architectural style and character.
- 307.106(m)(8) Architectural details. Architectural details including materials and textures shall be treated so as to make a landmark compatible with its original architectural style and character and to preserve and enhance the architectural style or character of a landmark or historic district. The Commission will give recommendations as to appropriate colors for any landmark or historic district.

Design Guidelines, "New Construction"

- Secretary of the Interior's Standards for Rehabilitation (2):
 The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
- Secretary of the Interior's Standards for Rehabilitation (9):
 New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

-Application Certification —

For applications that can be approved administratively, there is no application fee.

For all applications that must go before the Historic Preservation Commission, a fee will be applied based on the type of work performed.

Application completeness review: All applications for Certificate of Appropriateness ("Application") will be reviewed for completeness by Planning and Development Department Staff. Any Application determined to be incomplete, will be returned to the applicant with

comments detailing the deficiencies. No further action on the Application will take place until the application deficiencies are addressed. Once the Application is determined to be complete, Planning and Development Department Staff will prepare an invoice for the cost of the Application.

Payment deadline: The Invoice must be paid by the payment deadline in order to have the Application heard on the next scheduled Jacksonville Historic Preservation Commission (JHPC) regular meeting. The payment deadline is outlined on the City of Jacksonville's Planning and Development Department Website. Only Complete Applications will be invoiced. It is for the benefit of the applicant to supply staff with a complete Application in advance of the payment deadline. Due to the complexity and volume of Applications received by the Planning and Development Department, there is no guarantee that COA Applications submitted on the day of the payment deadline will be heard at the next regular meeting of the JHPC.

I, hereby, certify that I am the owner or the authorized agent of the owner(s) of the property described herein, that all answers to the questions in this application and all information contained in the material attached to and made a part of this application, are accurate and true to the best of my knowledge and belief. I also attest by my signature that all required information for this application is completed and duly attached in the prescribed order. Furthermore, if the package is found to be lacking the above requirements, I understand that the application will be returned for correct information.

I UNDERSTAND THE ABOVE DISCLAIMER REGARDING APPLICATION REVIEW. AGREED TO AND SUBMITTED.

August 28, 2024

Report of the Jacksonville Planning and Development Department Certificate of Appropriateness Application COA-24-31092

Addresses: 3633 Richmond Street; RE# 091672-0000

<u>Location</u>: North side of Richmond Street, between Van Wert Avenue and Ingleside Avenue

Owner: Daniel Ricci

3633 Richmond Street Jacksonville, Florida 32205

Applicant: Daniel Greer

JBL Corporation, Inc. 1949 Jersey Street

Jacksonville, Florida 32210

Year Built: Primary Structure c. 1936 (COA-20-23937)

Accessory Structure *c.* 1936 (COA-20-23937)

<u>Designation</u>: Riverside Avondale; Contributing

Request: Demolition – Accessory Structure

New Construction – Addition

Summary Scope of Work:

1. Demolition of a contributing accessory structure

- 2. Construction of a two-story addition on the primary structure
- 3. Construction of a porch addition on the primary structure
- 4. Remove and replace poured concrete driveway
- 5. Installation of a patio (Administrative)

Recommendation: Approve with Conditions

Conditions:

Demolition of a contributing accessory structure

 The demolition shall be limited to the area highlighted on the site plan dated July 25, 2024, or as otherwise approved by the Historic Preservation Section.

COA-24-31092 Page 1 of 11

New construction of a two-story addition and porch addition

- 2. The design, location, and materials used for the new construction shall be developed in accordance with the site plan and elevation drawings dated **July 25, 2024**, or as otherwise approved by the Historic Preservation Section.
- 3. The roofing on the addition shall match the metal roofing on the primary structure.
- 4. Prior to the final inspection of any building permit, the owner or their agent shall submit to the Historic Preservation Section an affidavit and any supplementary evidence that verifies compliance with all conditions of the COA final order.
- 5. All windows shall be installed in accordance with the latest version of the HPS Window Supplement.

Remove and replace poured concrete driveway

- 7. The new driveway shall not exceed 10 feet in width before the front plane of the main structure.
- 8. Poured concrete shall only be used past the front plane of the main structure towards the rear of the lot.
- 9. Pavers shall have a rectangular shape, not to exceed 6" x 10" with a modular relationship of 1:2 or 3:5, and the color shall be brick-like or granite (no white blends).
- 10. Concrete ribbons shall be between 2 and 3 feet in width.

Miscellaneous Hardscaping Improvements

11. All other hardscaping improvements not previously addressed under these conditions shall be designed and developed in accordance with the site plan dated **July 25, 2024**, or as otherwise approved by the Historic Preservation Section.

COA-24-31092 Page 2 of 11

PROJECT DESCRIPTION

COA-24-31092 seeks to demolish a contributing accessory structure, construct a two-story, addition on the side and rear of the contributing primary structure, expand the first-floor front porch on the primary structure, and replace the existing poured concrete driveway with poured concrete, but in a different configuration. Situated on the west side of Richmond Street between Van Wert Avenue and Ingleside Avenue, this interior lot is located in the Riverside Avondale Historic District. The primary structure on the property exemplifies the Tudor Revival style, which is characterized by its painted brick exterior, six-over-six windows, and cross-gable roof form, metal shingle roof, and partial width front porch with square columns. Based on the submitted elevation drawings, the proposed addition is characterized by its shingled gable roof form, painted brick veneer, six-over-six windows, and a solid paneled garage door. Staff notes the proposed demolition of the accessory structure was previously approved by the Historic Preservation Commission via COA-20-23937.

Pursuant to the authority granted to Staff via the 2024 COA Matrix, the installation of new patio can be approved administratively, subject to the conditions listed in the recommendation section of this report. The analysis in this report primarily focuses on the demolition, additions, and driveway replacement.

STAFF SUMMARY AND ANALYSIS

Staff considered the applicable Design Guidelines for the Historic District and the Ordinance Code criteria found in Sections 307.106(k), 307.106(l), 307.106(m), 307.106(n), and 307.106(o). The following is Staff's analysis:

- According to permitting records, the contributing primary structure was built in c. 1936.
 The contributing accessory structure was not mentioned on the house permit notes or in subsequent permits, but it does show up on the 1951 Sanborn Maps and appears to have matching brick, siding and roofing. If constructed during the same time as the primary structure, the accessory structure most likely was built as an open carport, before being later converted into a garage. Therefore, Staff believes the accessory structure may have been an original but altered feature, Section 307.106(n)(1).
- Consistent with Sections 307.106(k)(1-3) and 307.106(n)(2 and 9), the proposed demolition of the contributing accessory structure will not have a significant impact on the primary structure or surrounding properties due to the structure lacking many of the significant architectural details found on portions of the subject property and nearby structures. For example, the garage doors have a nondescript panel design. While the garage shares common materials with those found on the house, it lacks the more significant architectural details.
- Consistent with Section 307.106(n)(3), it is the opinion of Staff that the subject structure does not have design elements (i.e., building height, massing, and production materials) that would make reproduction difficult or impossible.
- The structure is buried into the slope of the property and has had large oak trees that compromise its foundation, Section 307.106(n)(6).

COA-24-31092 Page 3 of 11

- The proposed demolition can be completed within a reasonable period of time, consistent with Section 307.106(k)(4).
- As designed, the height and roof form of the proposed additions will be compatible with the existing height and roof form of the primary structure. As such, the proposed work is consistent with Sections 307.106(k)(1) and 307.106(m)(1 and 4).
- Section 307.106(m)(2) states, "The proportions and relationships between doors and windows shall be compatible with the architectural style and character of the landmark and with surrounding structures in a historic district." As designed, the proposed garage door and window openings will match the existing doors and windows in height and design. Staff finds the design of the openings are uniform with the primary structure, which is consistent with Section 307.106(m)(2 and 8) and the Design Guidelines.
- Consistent with the Historic District Design Guidelines, the section on Additions, the proposed scope of work does not require any changes to significant historic fabric. If removed in the future, the removal of the addition would not cause any damage to or detract from the historic primary structure. As such, the proposed scope of work is consistent with Sections 307.106(k)(1 and 2).
- According to archival records, it appears the subject property historically had a concrete ribbon driveway; however, at some point in time, the ribbon driveway was infilled with solid poured concrete and a concrete border was added. Poured concrete driveways have been determined to be non-traditional and non-historic within the Historic Districts. As such, removing and replacing a poured concrete driveway outside of its existing configuration is inconsistent with the 2024 COA Matrix and the Historic District Design Guidelines, Section on "Settings". Therefore, Staff has conditioned that removal of the non-historic poured concrete driveway be replaced with a historically appropriate material such as concrete ribbons, gravel, or brick-like pavers.

For these reasons, it is the position of the Planning and Development Department that the proposed work under the stated conditions is consistent with:

- 1. Chapter 307.106(k) General Standards: 1-4
- 2. Section 307.106(n) Guidelines on Demolition: 1-3, 6 and 9
- 3. Chapter 307.106(m) Guidelines on "New Construction": 1, 2, 4 and 8
- 4. Historic District Design Guidelines, Section on "Demolition," "Additions" and "Setting"

For these reasons, it is the position of the Planning and Development Department that the proposed work under the stated conditions is consistent with:

CODE CRITERIA AND DESIGN GUIDELINES

General Criteria

• 307.106(k)(1) - The effect of the proposed work on the landmark, landmark site or property within an historic district upon which such work is to be done;

COA-24-31092 Page 4 of 11

- 307.106(k)(2) The relationship between such work and other structures on the landmark site or other property in the historic district;
- 307.106(k)(3) The extent to which the historic, architectural, or archaeological significance, architectural style, design, arrangement, texture and materials of the landmark or the property will be affected;
- 307.106(k)(4) Whether the plans may be carried out by the applicant within a reasonable period of time.

New Construction

- 307.106(m)(1) Height. The height of any proposed alteration or construction shall be compatible with the style and character of the landmark and with surrounding structures in an historic district.
- 307.106(m)(2) *Proportions of windows and doors.* The proportions and relationships between doors and windows shall be compatible with the architectural style and character of the landmark and with surrounding structures in an historic district.
- 307.106(m)(4) Roof shape. The design of the roof shall be compatible with the architectural style and character of the landmark and surrounding structures in an historic district.
- 307.106(m)(8) Architectural details. Architectural details including materials and textures shall be treated so as to make a landmark compatible with its original architectural style and character and to preserve and enhance the architectural style or character of a landmark or historic district. The Commission will give recommendations as to appropriate colors for any landmark or historic district.

Demolition

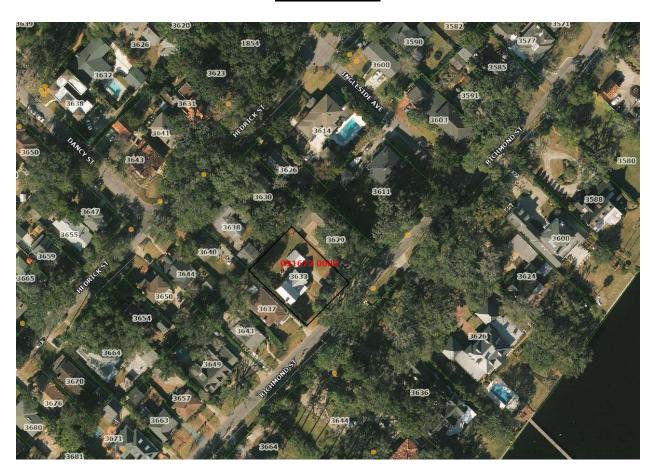

- 307.106(n)(1) The historic or architectural significance of the building or structure;
- 307.106(n)(2) The importance of the building or structure to the ambience of the historic district;
- 307.106(n)(3) The difficulty or the impossibility of reproducing such a building or structure because of its design, texture, material, detail or unique location;
- 307.106(n)(6) The difficulty or the impossibility of saving the building or structure from collapse;
- 307.106(n)(9) Whether the property no longer contributes to an historic district or no longer has significance as an historic, architectural or archaeological landmark; and

COA-24-31092 Page 5 of 11

Design Guidelines, "Demolition" "New Construction" and "Additions"

- Secretary of the Interior's Standards for Rehabilitation (2): The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
- Secretary of the Interior's Standards for Rehabilitation (9): New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

Application Certification =

For applications that can be approved administratively, there is no application fee.

For all applications that must go before the Historic Preservation Commission, a fee will be applied based on the type of work performed.

Application completeness review: All applications for Certificate of Appropriateness ("Application") will be reviewed for completeness by Planning and Development Department Staff. Any Application determined to be incomplete, will be returned to the applicant with comments detailing the deficiencies. No further action on the Application will take place until the application deficiencies are addressed. Once the Application is determined to be complete, Planning and Development Department Staff will prepare an invoice for the cost of the Application.

Payment deadline: The Invoice must be paid by the payment deadline in order to have the Application heard on the next scheduled Jacksonville Historic Preservation Commission (JHPC) regular meeting. The payment deadline is outlined on the City of Jacksonville's Planning and Development Department Website. Only Complete Applications will be invoiced. It is for the benefit of the applicant to supply staff with a complete Application in advance of the payment deadline. Due to the complexity and volume of Applications received by the Planning and Development Department, there is no guarantee that COA Applications submitted on the day of the payment deadline will be heard at the next regular meeting of the JHPC.

I, hereby, certify that I am the owner or the authorized agent of the owner(s) of the property described herein, that all answers to the questions in this application and all information contained in the material attached to and made a part of this application, are accurate and true to the best of my knowledge and belief. I also attest by my signature that all required information for this application is completed and duly attached in the prescribed order. Furthermore, if the package is found to be lacking the above requirements, I understand that the application will be returned for correct information.

I UNDERSTAND THE ABOVE DISCLAIMER REGARDING APPLICATION REVIEW. AGREED TO AND SUBMITTED.

JACKSONVILLE HISTORIC PRESERVATION COMMISSION	

Date: 8/6/2024	COA - 24-31092
Address: 3633 RICHMOND ST	Owner: DAN RICCI
JACKSONVILLE FL 320205	

As required by Sec. 307.106.(f) of the City of Jacksonville Ordinance Code: The applicant for a certificate of appropriateness shall post signs at intervals of not more than 200 feet along all street sides of land upon which the request for a certificate of appropriateness is made. Signage should be posted at least 14 days prior to the scheduled public hearing. Where the land does not have frontage on a public street, the signs shall be erected on the nearest street right-of-way with an attached notation indicating generally the direction and distance to the land upon which the application for a certificate of appropriateness has been filed, or at such other locations and at such intervals, as determined by the Planning and Development Department, as will ensure that the signs will be seen by as many persons as possible. The signs shall be maintained by the applicant until a final determination has been made by the Commission on the application for a certificate of appropriateness. If the signs are not posted within the time requirements, the public hearing notice will be deemed inadequate and no action shall be taken until proper posting is accomplished. The signs shall be removed by the applicant within ten days after final action.

Re: Demolition of the Existing Garage at 3633 Richmond Street

Dear JHPC

On behalf of our client at the above address, we are requesting to demolish the existing 2-car garage and driveway in order to make room for the proposed addition to the main house. Upon researching the history of this garage, and discussions with Arimus Wells, it was determined that the garage is not an original contributing structure and was previously approved for demolition as part of COA-20-23937 that was submitted by a separate party. Due to this, we feel that demolition of the 2-car garage is appropriate.

Sincerely

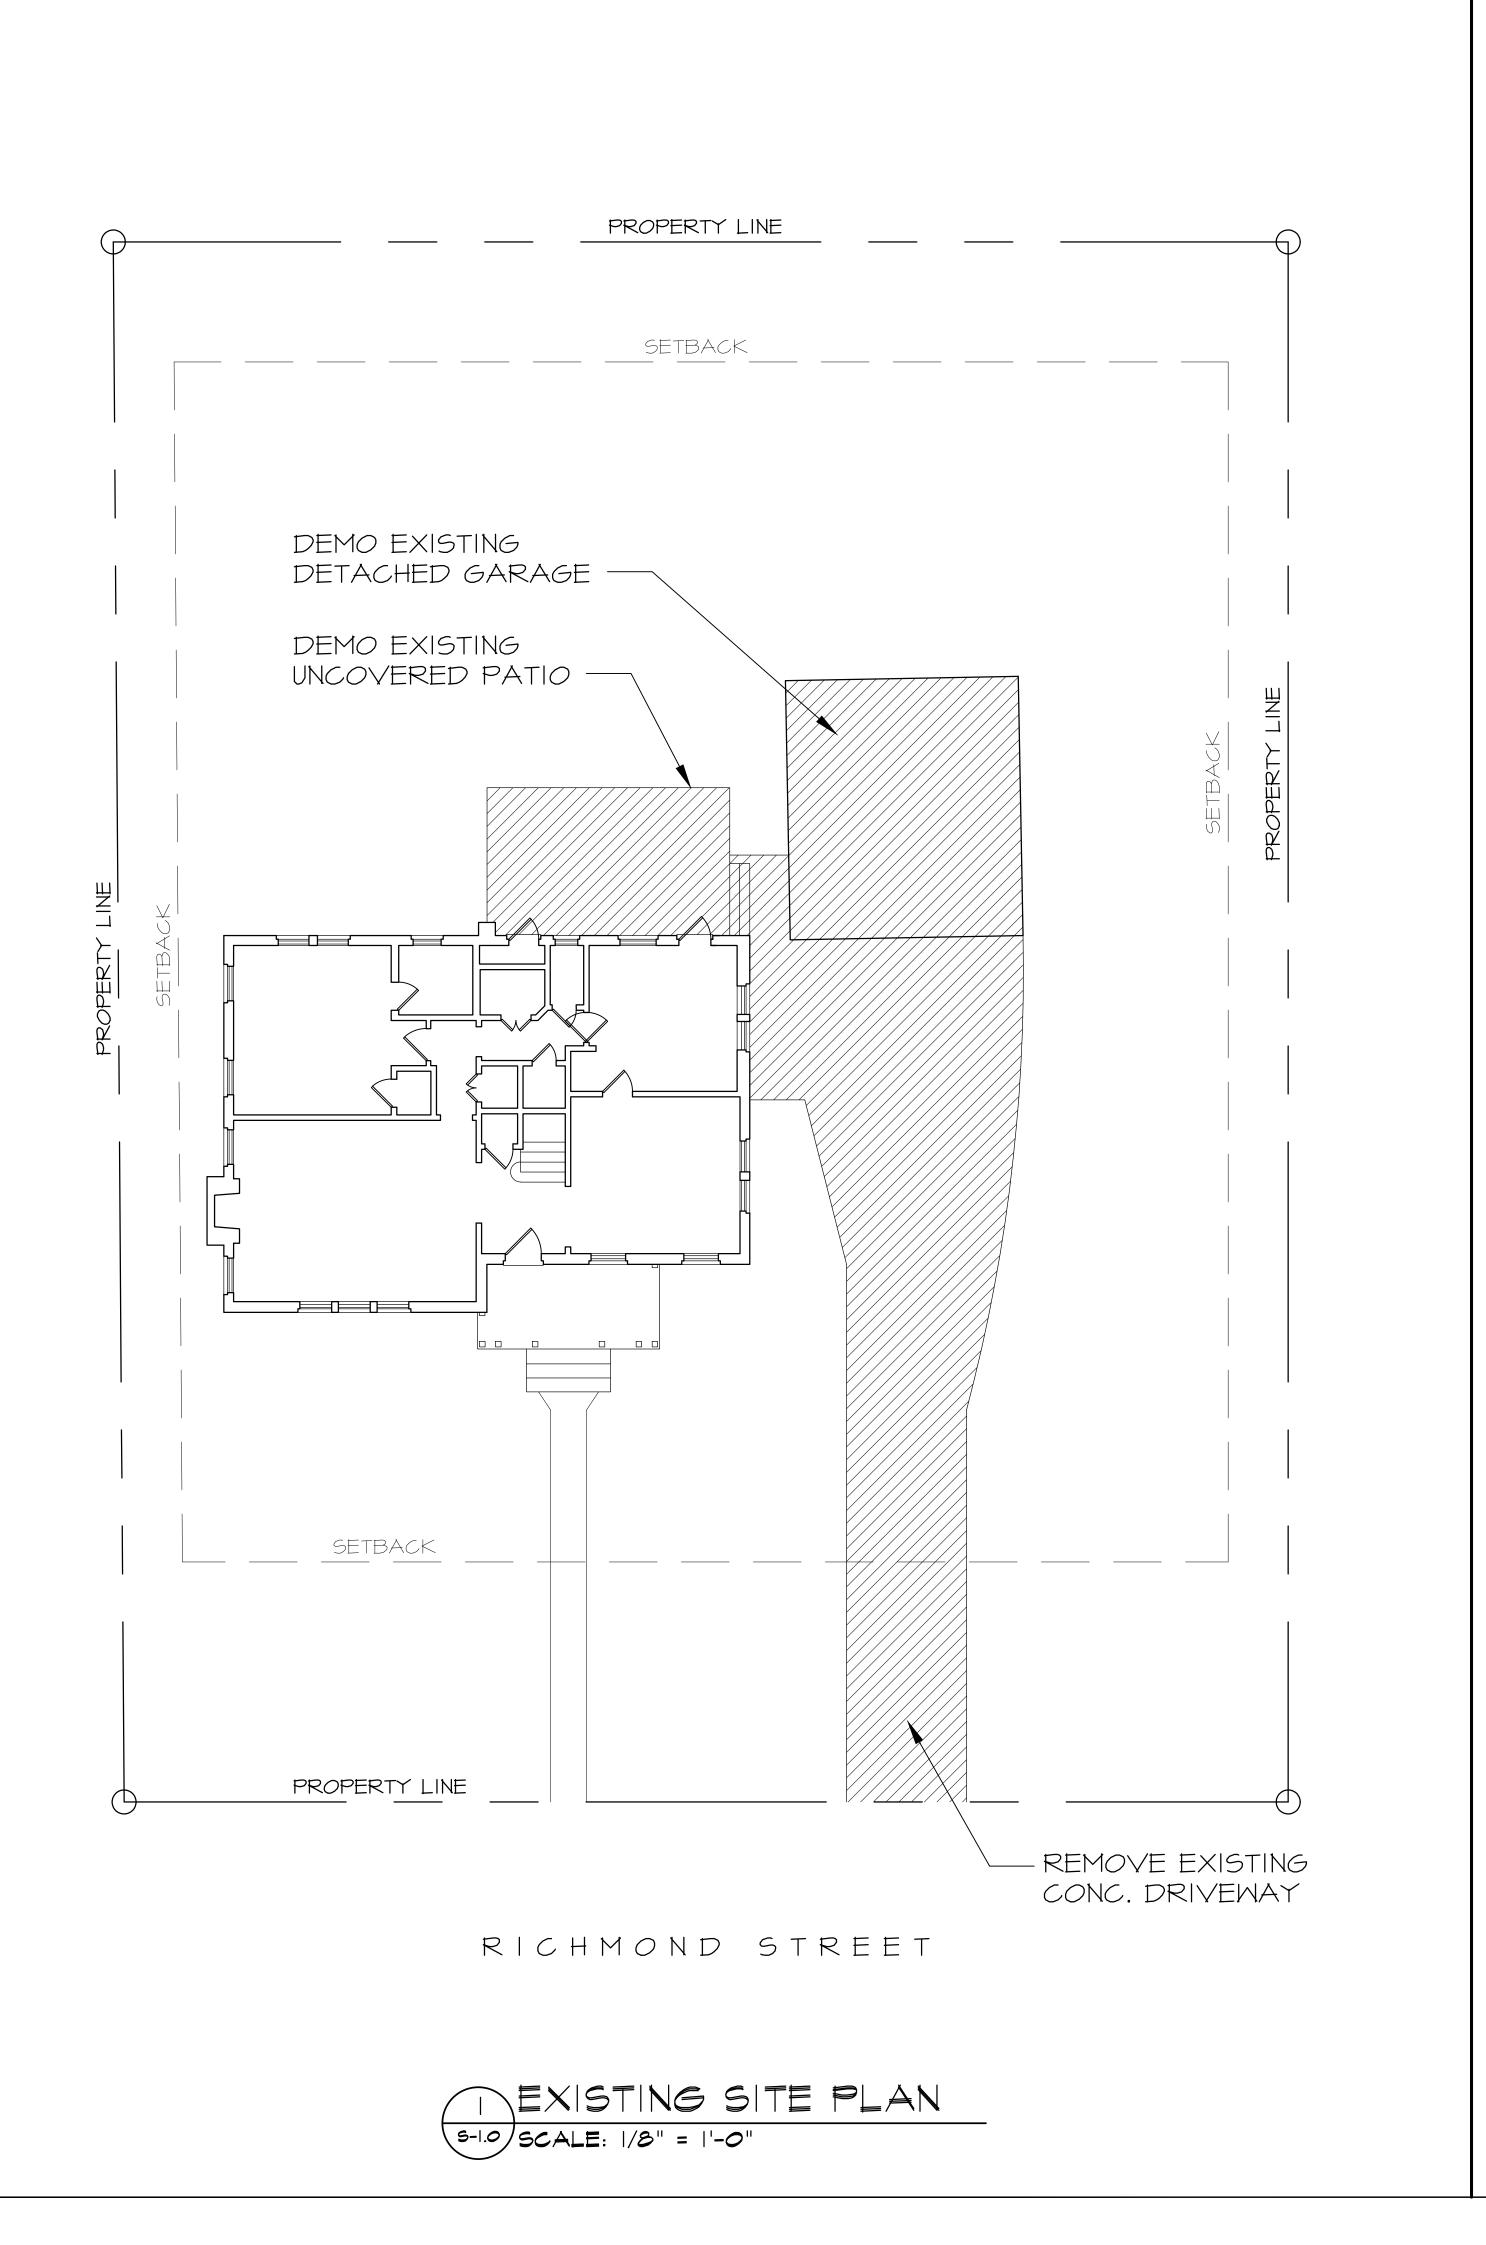

Daniel Greer JBL Corporation

BEFORE THE HISTORIC PRESERVATION COMMISSION OF THE CITY OF JACKSONVILLE

CERTIFICATE OF APPROPRIATENESS APPLICATION NO.: COA-20-23937

IN RE: The Certificate of Appropriateness Application of

Virginia Daughtry 3633 Richmond Street Jacksonville, Florida 32205

ORDER ON COA-20-23937: APPROVED with CONDITIONS

This matter came to be heard upon the Certificate of Appropriateness (COA) Application filed by David Case (Agent) with Stansel and Case Architects, LLC on behalf of Virginia Daughtrey, the owner of certain real property located 3633 Richmond Street, R.E. No. 091672-0000, seeking approval for demolition of existing garage and driveway and construction of a new two-story garage and driveway.

Having duly considered the evidence presented at the public hearing and meeting on **July 22, 2020**, including the Report of the Planning and Development Department and all attachments thereto (Staff Report), a portion of which is attached hereto as **EXHIBIT A**, and on file in its entirety in the Planning and Development Department, the Historic Preservation Commission hereby

FINDS AND DETERMINES:

- 1. That the applicant has complied with all application requirements set forth in Section 307.106 of the City of Jacksonville Ordinance Code; and
- 2. That the record contains sufficient substantial competent evidence to demonstrate that application **COA-20-23937** meets, to the extent applicable and as modified by any conditions contained herein, the standards and criteria set forth in Section 307.106 of the City of Jacksonville Ordinance Code; and
- 3. That the findings and recommendations in the Staff Report for application COA-20-23937, to the extent consistent with this Order, are hereby adopted and incorporated herein; and
- 4. That the land which is the subject of application **COA-20-23937** is owned by **Virginia Daughtrey.**

NOW THEREFORE, it is **ORDERED** by the Historic Preservation Commission:

Application COA-20-23937 is hereby APPROVED, subject to the following CONDITIONS:

- A. Regarding the request for **demolition of existing garage and driveway and construction of a new two-story garage addition and driveway**, the following conditions shall apply:
 - 1. All windows shall be recessed within the wall plane.
 - 2. All light patterns shall have raised exterior profiled muntins.
 - 3. The fascia boards and soffits shall be composed of wood or a cementitious material (no vinyl).
 - 4. The roofing shall be metal shingles with a galvanized finish to match the existing.
 - 5. The below window panel and elongated shutters shall be amended to a balconette or knee bracketed planter.
 - 6. The driveway shall be limited to 10 feet in width until past the front plane of the house and shall be either concrete ribbons with brick infill/boarder or a solid brick paver driveway with consistent rectangular form and traditional coloration.
 - 7. The driveway apron shall be maintained, replaced with brick pavers or replaced with concrete with a maximum 12 feet flare at the street.
 - 8. Minor changes to architectural details such as light patterns, column design and masonry materials can be administratively reviewed and approved by the Historic Preservation Section of the Planning and Development Department.
 - 9. Final plans and product information shall be submitted to and approved by the Historic Preservation Section of the Planning and Development Department at least one week prior to permitting.
- B. These are SUGGESTIONS for the residence:
 - 1. Try to reuse or replicate the decorative roof ridge detail.
 - 2. A more simplified design with a shed dormer could also work.
- C. Failure to exercise the COA hereby granted by performance of the action herein approved within one (1) year of the effective date of this Order shall render this COA invalid and all rights arising hereunder shall terminate.

Executed on this 5th day of August, 2020.

DISCLAIMER. The certificate of appropriateness granted herein shall not be construed as an exemption from any other applicable local, state, or federal laws, regulations, requirements, permits or approvals. All other applicable local, state or federal permits or approvals shall be obtained before commencement of the development or use and issuance of this certificate of appropriateness is based upon acknowledgement, representation and confirmation made by the applicant(s), owner(s), developer(s) and/or any authorized agent(s) or designee(s) that the subject business, development and/or use will be operated in strict compliance with all laws. Issuance of this certificate of appropriateness does not approve, promote or condone any practice or act that is prohibited or restricted by any federal, state or local laws.

Chairman

Historic Preservation Commission

TIMEFRAMES AND NOTICE OF RIGHT TO APPEAL. Chapter 307.106(S) of the Jacksonville Ordinance Code states, "Any certificate of appropriateness which has been approved pursuant to the provisions of this section shall expire 12 months from the date of issuance if the work authorized is not commenced within this period. Further, such certificate shall expire if the work authorized is not completed within five years of the date of issuance, unless otherwise extended by the Commission."

Persons listed in Section 307.202, Ord. Code, may appeal this decision to the City Council within twenty-one (21) days of the date of this Order by filing a Notice of Appeal with the Legislative Services Division of the Council as required by section 307.203, Ord. Code. Failure to file a Notice with the Legislative Services Division within the time prescribed waives the right to appeal this Order. Therefore, this Order does not become final until the expiration of the twenty-one (21) day appeal period provided in Chapter 307, Jacksonville Ordinance Code. Any work commenced during this appeal period is done at the risk of the applicant.

REQUEST / RECOMMENDATION

Demolition of existing garage and driveway Requests:

Construction of a new two-story garage addition and driveway

Recommendation:

Approve with conditions

Condition:

- 1. All windows shall be recessed within the wall plane.
- 2. All light patterns shall have raised exterior profiled muntins.
- 3. The fascia boards and soffits shall be composed of wood or a cementitious material (no vinyl).
- 4. The roofing shall be metal shingles with a galvanized finish to match the existing.
- 5. The below window panel and elongated shutters shall be amended to a balconette or knee bracketed planter.
- 6. The driveway shall be limited to 10 feet in width until past the front plane of the house and shall be either concrete ribbons with brick infill/boarder or a solid brick paver driveway with consistent rectangular form and traditional coloration.
- 7. The driveway apron shall be maintained, replaced with brick pavers or replaced with concrete with a maximum 12 feet flare at
- 8. Minor changes to the design and architectural details (i.e. light patterns, column design, and masonry materials) can be administratively reviewed by the Historic Preservation Section of the Planning and Development Department.
- 9. Final plans in accordance with the Final Order, and product information shall be submitted to and approved by the Historic Preservation Section of the Planning and Development Department at least one week prior to permitting.

Suggestion:

- 1. Try to reuse or replicate the decorative roof ridge detail.
- 2. A more simplified design with a shed dormer could also work.

It is the position of the Planning and Development Department that the proposed work under the stated conditions would be consistent with all or in part with:

- 1. The Historic Preservation Design Regulations for the Riverside Avondale Historic District's section on "New Construction" and "Setting
- 2. The Secretary of the Interior's Standards for Rehabilitation numbers 2 and 9
- 3. Chapter 307.106(k) General Standards: 1-4
- 4. Chapter 307.106(m) Guidelines on New Construction: 1-9

GENERAL INFORMATION

Chapter 307.106(k), City of Jacksonville Ordinance Code states that in considering applications for a Certificate of Appropriateness for alterations, new construction, demolition, or relocation, the Commission shall be guided by four general standards. Chapter 307.106(l), City of Jacksonville Ordinance Code states that in considering applications for Certificates of Appropriateness for alterations, the Jacksonville Historic Preservation Commission shall consider eight additional standards that reflect the same concerns as the Secretary of the Interior Standards for Rehabilitation. Chapter 307.106(m), City of Jacksonville Ordinance Code states that in considering applications for Certificates of Appropriateness for new construction, the Commission shall consider nine additional standards. In an effort to streamline the staff findings and recommendation, these additional standards are addressed under #2 and #3.

GUIDELINES, STANDARDS AND FINDINGS

1. The effect of the proposed work on the landmark, landmark site or property within a historic district upon which such work is to be done;

DESCRIPTION OF WORK

This Certificate of Appropriateness (COA) application is for the demolition of the existing two-car garage, the construction of a new two-story two-car garage addition that is attached at the same corner as the existing and the replacement of the existing concrete driveway with a new solid concrete brick-lined driveway. The applicant provided a letter regarding the evolution of the garage, its condition and practical deficiencies. The submittal also included a new toposurvey of the existing site and a full set of proposed plans. The new garage addition would be placed on roughly the same front plane as the existing and is designed with elements that echo the main house but at a smaller height and footprint. Unlike the existing garage which is very close but not attached to the main residence, the new design will have the same detached appearance because of the roofline and placement, but will actually be attached at the corner, making the garage and space above more easily accessible.

DOCUMENTED AND CURRENT CONDITIONS

According to the Florida Master Site File, this two-story residence has a Tudor Revival influence. It is characterized by its cross gable form, painted brick exterior with wide board siding in the gable ends, metal shingle roof with a decorative ridge detail, partial width front

porch with square columns and 6/6 colonial grid style double hung sash style wood windows. There is evidence of a large planter that was once on the first floor of the front facade. Based on the Florida Master Site File photograph, the porch has been reworked from a single bay, screened design with no railing to its existing three bay configuration with corner column grouping and a simple wood square spindle railing.

The garage was not mentioned on the original house permit notes or in subsequent permits, but shows up on the 1951 Sanborn and appears to have matching brick, siding and roofing so it is hypothesized to be an original feature. According to the architect however, the physical evidence which includes brick corners with horizontal siding infill indicates that it may have been converted from an open carport design. The 18-foot wide footprint and narrow two-car bay configuration is "inadequate for current use and size of vehicles." The structure is buried into the slope of the property and has had large oak trees compromise its foundation. The garage doors have a nondescript panel design. While the garage shares common materials with those found on the house, it lacks the more significant architectural details. This lack of architectural significance, it's potential altered design, and its insufficient spacing are the basis for the request and the recommendation to approve the replacement of this secondary feature that is not mentioned or even photo documented in the Florida Master Site File.

The property is located across from the riverfront side of Richmond Street and sits higher from the street due to the change in topography moving away from the river. It is situated mid-block with a non-contributing residence to the west (3637 Richmond Street), which the owner intends to incorporate into the property, and a two-story residence to the east (3629 Richmond Street) that is set back to the far rear of the property. There is a low curb at the street with an existing cut for an approximately 25-foot apron flare, which is much larger than what is found in a typical block in the district, but not unusual for the immediate vicinity. There is a low retaining wall at the front property line but no sidewalk.

2. The relationship between such work and other structures on the landmark site or other property in the historic district.

EFFECT OF WORK ON HISTORIC DISTRICT

The *Design Regulations* recognize that additions may be needed for practical reasons and state that they should be designed to have minimal effect on the historic features, be placed on the rear or least conspicuous side, and be subordinate to the historic building. The following criteria further evaluate the compatibility of the proposed addition.

Chapter 307.106(m) 1.Height

The height of any proposed alteration or construction shall be compatible with the style and character of the landmark and with surrounding structures in a historic district.

• The proposed addition would be within a few feet of the lower side-facing gable of the house. The front facing gable detail borrowed from the residence rises slightly above the main horizontal gable ridge, but this is in keeping with the original detail of the house.

Chapter 307.106(m) 2.Proportions of windows and doors

The proportions and relationships between doors and windows shall be compatible with the architectural style and character of the landmark and with surrounding structures in a historic district.

• Based on the provided architectural plans, the proposed design maintains a traditional placement and proportion of windows to wall space in keeping with the historic residence.

Chapter 307.106(m) 3. Relationship of building masses, setbacks and spaces

The relationship of a structure within a historic district to the open space between it and adjoining structures shall be compatible.

- At 2166.94 gross square feet from 399 square feet, the massing is larger than the existing one-story feature and many accessory buildings, but is not out of line when compared to some of the estate lot garages across the street.
- The front setback would be consistent with the existing, thereby maintaining the secondary placement on the lot, fully facing the street but behind the building mass of the main residence. The enlarged footprint reduces the side setback from 22 feet to a little over seven feet, but that is not out of line with other side setbacks in the area.
- The atypical large front setback of the adjacent house at 3629 Richmond Street means that like the existing, the proposed garage will be forward of this residential neighbor, but the side setbacks of the two properties should offset any impact.
- The configuration of the lot would remain largely the same, but the driveway design widens
 more at the side of the house to provide a backup space to avoid the need to back down the
 driveway.

Chapter 307.106(m) 4.Roof Shape

The design of the roof shall be compatible with the architectural style and character of the landmark and surrounding structures in a historic district.

• The roof form mimics the residence with a cross gable design with a main side gable form that is broken up by a smaller two-story section with a front facing gable. The design incorporates a shed dormer and a unique curved flare roof in front of the second car bay; an architectural detail used to form the front porch of the residence.

Chapter 307.106(m) 5.Landscaping

Landscaping shall be compatible with the architectural character and appearance of the landmark and of surrounding structures and landscapes in a historic district.

• No landscape plan was provided with this application, but the COA request and site plan show new hardscaping. The *Design Regulations* allow for concrete ribbons or gravel and the Commission has accepted brick pavers as a third option, but solid concrete has been limited to areas behind the front plane of the residence and private drives on estate lots. Wider driveway requests that put more emphasis on the automobile and parking on the front of

- properties have been limited to a 10-foot wide approach, which is a recommended condition of this report.
- Likewise, larger concrete aprons are generally avoided, so the recommendation is to just maintain the existing, replace it with brick or reduce to a 12-foot flare.

Chapter 307.106(m) 6.<u>Scale</u>

The scale of the structure after alteration, construction, or partial demolition shall be compatible with its architectural style and character and with surrounding structures in a historic district.

• The resulting lot coverage for the parcel would still be under the allowable 50% under the Riverside Avondale Zoning Overlay.

Chapter 307.106(m) 7.Directional Expression

Facades in historic districts shall blend with other structures with regard to directional expression. Structures in a historic district shall be compatible with the dominant horizontal or vertical expression of surrounding structures. The directional expression of a landmark after alteration, construction, or partial demolition shall be compatible with its original architectural style and character.

• The proposed design maintains the existing directional expression of the structure.

Chapter 307.106(m) 8. Architectural Details

Architectural details including materials and textures shall be treated so as to make a landmark compatible with its original architectural style and character and to preserve and enhance the architectural style or character of a landmark or historic district.

• The proposed design uses materials and design elements that are found on the historic residence or replicate the historic with accepted modern alternatives. These include painted brick with arched solider courses, metal shingle roof, Hardie Lap siding with a 7.5 inch exposure, 6/6 clad wood windows, carriage style appearance garage doors and a decorative gable vent. Conditions have been added to clarify materials at the eave and the finish of the roofing.

Chapter 307.106(m) 9.Impact on Archaeological Sites

New construction shall be undertaken in such a manner as to preserve the integrity of archaeological sites and landmark sites.

- According to the Duval County Florida Archaeological Plan- Phase II Probability Model, the subject property has a low probability for the presence of archaeological resources.
- 3. The extent to which the historic, architectural, or archaeological significance, architectural style, design, arrangement, texture and materials of the landmark or the property would be affected.

EFFECT OF WORK ON STRUCTURE OR SITE

Given the limited impact on historic construction and the compatible design, the project was determined to meet Standards 2^1 , 9^2 and 10^3 .

4. Whether the plans may be carried out by the applicant within a reasonable period of time

TIME FRAMES

Chapter 307.106 (S) of the Jacksonville Ordinance Code states, "Any certificate of appropriateness which has been approved pursuant to the provisions of this Section shall expire 12 months from the date of issuance if the work authorized is not commenced within this period. Further, such certificate shall expire if the work authorized is not completed within five years of the date of issuance, unless otherwise extended by the Commission." It is the opinion of the Planning and Development Department that the proposed work can be completed within the aforementioned time frame.

¹ Standard 2: The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

² Standard 9: New additions, exterior alterations or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale and architectural features to protect the historic integrity of the property and its environment.

³ **Standard 10:** New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

COA-24-31062 1449 Talbot Avenue

August 28, 2024

Report of the Jacksonville Planning and Development Department Certificate of Appropriateness Application COA-24-31062

<u>Address</u>: 1449 Talbot Avenue, RE# 079699-0000

Location: North side of Talbot Avenue, between Park Street and Fitch Street

Owner: Menelaos Papalas

1903 Woodmere Drive Jacksonville Florida, 32210

Applicant: Lauren Papalas

1903 Woodmere Drive Jacksonville Florida, 32210

Year Built: 1923 (Property Appraiser)

<u>Designation</u>: Riverside/Avondale, Contributing

Request: Alterations - Fencing

Summary Scope of Work:

1. Install six-foot fence, gates, and arbor in the side yards of the home

Recommendation: Approve with Conditions

Conditions:

- 1. The location of the fencing and gate(s) shall be substantially consistent with the site plan dated July 12, 2024.
- 2. The proposed arbor and gate shall alight with the fence and shall not exceed the front plane of the fence.
- 3. The west gate shall utilize the same design of the fence.
- 4. The arbor shall not exceed eight feet in height at its tallest point.

PROJECT DESCRIPTION

COA-24-31062 is for the replacement of a four-foot, picket fence with a new a six-foot fence, gates, and arbor at the address of 1449 Talbot Avenue, a contributing single-family home in the Riverside/Avondale District. The new fence will be a four-foot, vertically oriented, board-on-board fence with a two-foot vertical lattice atop it for a total height of six feet. The Arbor is to be installed on the east side of the home.

STAFF SUMMARY AND ANALYSIS

Staff considered the applicable Design Guidelines for the Riverside/Avondale Historic District, and the Ordinance Code criteria found in Sections 307.106(k) and 307.106(l). The following is Staff's analysis:

- The request to install a six-foot-tall, wooden board on board fence is consistent with Sections 307.106(k) (1,2, and 4)
 - The replacement of a four-foot picket fence with a six-foot fence, gates, and arbor at the subject property will have a negatable effect on the historicity of the subject property. Section 307.106(k)(1)
 - o Board on board fences are found throughout the district and commonly utilized to separate front and backyards. According to the site plan and provided images, the arbor will operate as a gate for the fence on the west side of the home. Arbors, while not common, are present in the district. As conditioned, staff recommends the arbor does not extend beyond the street-facing plane of the fence it could be considered to be a part of that fence's gate.
- The replacement of an existing fence with a new fence that does not block any significant architectural features and is consistent with Section 307.106(I)(1).

For these reasons, it is the position of the Planning and Development Department that the proposed work under the stated conditions is consistent with:

- 1. Section 307.106(k) General Standards: 1 and 2
- 2. Section 307.106(I) Guidelines on "Alterations": 1
- 3. Historic District Design Guidelines, Section on "Setting"

CODE CRITERIA AND DESIGN GUIDELINES

General Criteria

- 307.106(k)(1) The effect of the proposed work on the landmark, landmark site or property within an historic district upon which such work is to be done;
- 307.106(k)(2) The relationship between such work and other structures on the landmark site or other property in the historic district;

Alterations

 307.106(I)(1) - Every reasonable effort shall be made to use a property for its originally intended purpose, or to provide a compatible use for a property that requires minimal alteration of the building structure, or site.

Historic District Design Guidelines, "Setting"

 Fencing / Walls, Recommend #3: "Design new fences of appropriate scale on visible main and side elevations. Limit height on street-side elevations to four feet. Wooden, vertical board (stockade) privacy fences up to six feet in height are appropriate on side and rear elevations. Recess privacy fences from the wall plane on the street-side elevations."

-Application Certification —

For applications that can be approved administratively, there is no application fee.

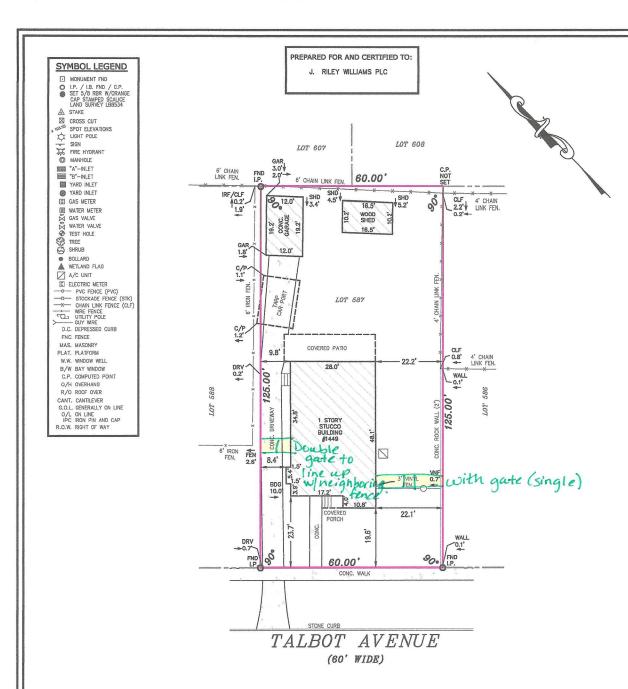

For all applications that must go before the Historic Preservation Commission, a fee will be applied based on the type of work performed.

Application completeness review: All applications for Certificate of Appropriateness ("Application") will be reviewed for completeness by Planning and Development Department Staff. Any Application determined to be incomplete, will be returned to the applicant with comments detailing the deficiencies. No further action on the Application will take place until the application deficiencies are addressed. Once the Application is determined to be complete, Planning and Development Department Staff will prepare an invoice for the cost of the Application.

Payment deadline: The Invoice must be paid by the payment deadline in order to have the Application heard on the next scheduled Jacksonville Historic Preservation Commission (JHPC) regular meeting. The payment deadline is outlined on the City of Jacksonville's Planning and Development Department Website. Only Complete Applications will be invoiced. It is for the benefit of the applicant to supply staff with a complete Application in advance of the payment deadline. Due to the complexity and volume of Applications received by the Planning and Development Department, there is no guarantee that COA Applications submitted on the day of the payment deadline will be heard at the next regular meeting of the JHPC.

I, hereby, certify that I am the owner or the authorized agent of the owner(s) of the property described herein, that all answers to the questions in this application and all information contained in the material attached to and made a part of this application, are accurate and true to the best of my knowledge and belief. I also attest by my signature that all required information for this application is completed and duly attached in the prescribed order. Furthermore, if the package is found to be lacking the above requirements, I understand that the application will be returned for correct information.

I UNDERSTAND THE ABOVE DISCLAIMER REGARDING APPLICATION REVIEW. AGREED TO AND SUBMITTED.

City of Jacksonville Revised Landmark Designation Report

Camp Mooney Cemetery at 538 South Ellis Road

LS-23-01 January 26, 2024 July 24, 2024 (Revised)

Application Prepared By:

Sons of the Confederate Veterans, Kirby Smith Camp 1209, Inc. 4884 Victoria Chase Court Jacksonville, Florida, 32257

Property Owner:

Sons of the Confederate Veterans, Kirby Smith Camp 1209, Inc. 4884 Victoria Chase Court Jacksonville, Florida, 32257

I. Planning and Development Department – Findings,Conclusions, and Recommendation

REPORT OF THE PLANNING AND DEVELOPMENT DEPARTMENT APPLICATION FOR DESIGNATION AS A CITY OF JACKSONVILLE LANDMARK

July 24, 2024

LS-23-01

GENERAL LOCATION: West side of Ellis Road (538 Ellis Road South) between Cassidy Road and West Beaver Street (U.S. Highway 90) in west Jacksonville

Prepared in accordance with the JACKSONVILLE ORDINANCE CODE, SECTION 307.104, the Jacksonville Planning and Development Department hereby forwards to the Jacksonville Historic Preservation Commission, its "Findings, Conclusions and Recommendations" on the Landmark Designation, <u>LS-23-1</u>, sponsored by the property owner Sons of the Confederate Veterans, Kirby Smith Camp 1209, Inc., 4884 Victoria Chase Court, Jacksonville, Florida 32257.

FINDINGS AND CONCLUSIONS

- (A) Consistent with the JACKSONVILLE ORDINANCE CODE, SECTION 307.104(d), the Planning and Development Department determined that the designation application for 538 Ellis Road South, Camp Mooney Cemetery, as a Landmark Site was complete.
- (B) As required, the Planning and Development Department had signs posted in front of the property being considered for designation, as well as sent notices by U.S. Mail to each owner of real property within three hundred and fifty (350) feet of the proposed landmark. Notice of the public hearing on the designation of the property at 538 South Ellis Road, Camp Mooney Cemetery, as a Landmark Site was published in the *Financial News and Daily Report*. Proof of publication is attached to this report.
- (C) Once designated, any major activities affecting the proposed landmark site at 538 Ellis Road, Camp Mooney Cemetery, will require a Certificate of Appropriateness (COA). All proposed work will be reviewed for consistency with the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings. Most routine work, such as ground maintenance, landscaping, cleaning, and repair of monuments, will not require a COA application or review by the Historic Preservation Section (HPS) of the Jacksonville Planning and Development Department. Certain activities like new fencing, new roads and pathways or major changes to them, as well as new construction, will require a COA. Any work the HPS determines to be potentially in conflict with the Secretary of the Interior Standards, will require review by the Jacksonville Historic Preservation Commission.

The purpose of the historic designation of this site is to provide protection to the property at 538 South Ellis Road, Camp Mooney Cemetery, but not to discourage or prohibit the future development of the site. The review of work through the COA process is to preserve the historic character, architectural features, and materials of this significant site, as well as, to ensure any future development is compatible with and sensitive to this primary historic resource. Any burial or disinterment at the Camp Mooney Cemetery will not require an approved Certificate of Appropriateness (COA). However, it is recommended that the Planning and Development Department be notified of new burials or disinterment for documentation purposes.

(D) In preparing the application, the Planning and Development Department has found the application to meet **two of the seven criteria**. The two criteria include the following.

A. Its value as a significant reminder of the cultural, historical, architectural, or archaeological heritage of the City, state or nation.

It is the determination of the Jacksonville Planning and Development Department that the subject property at 538 South Ellis Road, the Camp Mooney Cemetery, does meet this landmark criterion.

With state vital statistic records including birth and death records were not complete until after 1917, historic cemeteries such as the Camp Mooney Cemetery have long been recognized for possessing valuable genealogical information, particularly before 1917. However, in more recent years, cemeteries are being recognized and protected as significant historic resources that contribute to understanding our cultural past. ¹ In addition to the burials of Confederate veterans, Camp Mooney Cemetery also is significant for its association with the site of a Confederate encampment with the same name. Although the actual physical location of Camp Mooney has never been determined, it is commonly believed to be at or near the site of the cemetery

The cemetery is named after George Mooney, reportedly the pre-Civil War owner of the property containing the cemetery.² In addition to a joint ownership of a sawmill (Byrne and Mooney Company), George Mooney also operated the Mooney Machine and Engine Manufacturing Company to provide products for mills, as well as Mooney & Gookin Shipyard. Mooney was contracted with the Confederate government to construct a 600-ton gunboat to be launched before the Federal blockade was in effect. The nearly completed vessel was destroyed during the first occupation of Jacksonville in March of 1862 as well as other buildings and facilities that would have had strategic importance to the Union.

¹ Sharyn Thompson, *Florida's Historic Cemeteries, A Preservation Handbook*. (Tallahassee, Florida: Historic Tallahassee Preservation Board, 1989), pp. 3 – 5.

² According to an email from the Mirian Spalding, Florida Division of Historical Resources to Don Hillman, June 17, 2003, according to tax roles (Series S28) for Duval County, George Mooney was owning 160 acres but location not determined. In 1872 & 1873, Ellen Mooney had 160 acres at Section 18, Township 2 South, Range 26 East. The cemetery is in the northwest ½ of Section 19 to the north of Section 18. Camp Mooney Cemetery vertical file – Historic Preservation Archives, Jacksonville Planning and Development Department.

The date and origin of Camp Mooney Cemetery is not known, but could be as early as 1864 according to the landmark site application (2022). It is the opinion of Lucy Ames Edwards, author of *Grave Markers of Duval County*, p. 102, that it started out as the Wamsley family cemetery, but eventually evolved into a community cemetery. A recent inventory listed the earliest marked grave as being that of Emma A. Wamsley who died in 1877. An 1875 newspaper article reported that a church school had been established at Camp Mooney indicating the presence of a community by the same name.³ The number of graves recorded in the cemetery vary greatly from 16 in 1955 by Lucy Ames Edwards to 126 according to the current landmark site application. Other estimates included 89 marked graves identified by Jon Ferguson and Mike Lawon in March of 2021; 61 recorded by the Jacksonville Genealogical Society in 1997; and 43 graves by the Jacksonville Genealogical Society in 1977.⁴ Some of the discrepancies may vary according to how visible the markers were at the time of the survey and whether counting only markers vs markers and suspected grave sites (depressions in the ground).

A chain of titles for the property has not been found. The cemetery was incorporated within the boundaries of the 40-acre Mooney Subdivision, Addition to Buenos Aries (Plat Book 12, Page 55, 1926), platted by N. E. Roberts. The Buenos Aries Subdivision was platted in 1925 by Lola E. Mason (Plat Book 10, Page 6). The cemetery was also depicted on Rumph's Replat of the Mooney Subdivision (Plat Book 22, Page 28, 1950).

Under three separate property conveyances in the 1970s, Camp Mooney Cemetery came under the ownership of the Dr. Thomas M. Palmer Chapter No. 2261 of the United Daughters of the Confederacy. It was under the Daughters of the Confederacy that the cemetery was re-interpreted as being predominately associated with the Confederacy due to the placement of an historically inaccurate stone marker and memorial plaques to Confederate veterans buried elsewhere. In January of 2021, Camp Mooney Cemetery was conveyed through a quit claim deed (OR Book, 19592, Page 868) by the Florida Division United Daughters of the Confederacy to the Sons of the Confederate Veterans, Kirby-Smith Camp, 1209. The Kirby-Smith Camp replaced the existing stone marker with one that is historically accurate, as well as removed the memorial plaques to avoid the confusion of these individuals as being interred in Camp Mooney Cemetery. Since taking ownership of the Camp Mooney Cemetery in 2021, the Kirby-Smith Camp 1209 has installed fencing, a flagpole, updated signage, as well as the clearing of debris and removing of dead trees. An on-going maintenance plan has also been established.

The Camp Mooney Cemetery also may have significance for its association with the Camp Mooney encampment established by Confederate forces as part of a chain of encampments and fortifications paralleling the Florida Atlantic & Gulf Railroad. Although the presence of Camp Mooney has been established by historic documents as

According to the article, the church school had over 70 enrolled with an average attendance of 55.

⁵ Duval County Clerk of the Circuit, Official Records (OR) 3737-532, 3751-1188 and 4772-519. E-Mail, H. Eugene Cowger, P.E. to Joel McEachin, February 27, 1998. Vertical File – Camp Mooney Cemetery, Historic Preservation Archives, Jacksonville Planning and Development Department.

serving as an outpost and camping grounds for both Confederate and Federal troops during the Civil War, the actual physical location has never been determined, but is commonly believed to be at or near the site of the cemetery. In historic documents the encampment has been called Camp Mooney, Mooney's Place, Three-mile point and Three-mile run.⁶

B Its location is the site of a significant local, state, or national event.

It is the determination of the Jacksonville Planning and Development Department that the subject property at 538 South Ellis Road, the Camp Mooney Cemetery, does not meet this landmark criterion.

C It is identified with a person or persons who significantly contributed to the development of the city, state, or nation.

It is the determination of the Jacksonville Planning and Development Department that the subject property at 538 South Ellis Road, the Camp Mooney Cemetery, does not meet this landmark criterion.

D It is identified as the work of a master builder, designer, or architect whose individual work has influenced the development of the city, state, or nation.

It is the determination of the Jacksonville Planning and Development Department that the subject property at 538 South Ellis Road, the Camp Mooney Cemetery, does not meet this landmark criterion.

E Its value as a building is recognized for the quality of its architecture, and it retains sufficient elements showing its architectural significance.

It is the determination of the Jacksonville Planning and Development Department that the subject property at 538 South Ellis Road, the Camp Mooney Cemetery, does not meet this landmark criterion.

F It has distinguishing characteristics of an architectural style valuable for the study of a period, method of construction, or use of indigenous materials.

Schmidt, Lewis G. *Florida's East Coast, The Civil War in Florida, A Military History, Volume I* (Allentown, Pennsylvania, 1991), p. 802.

It is the determination of the Jacksonville Planning and Development Department that the subject property at 538 South Ellis Road, the Camp Mooney Cemetery, does not meet this landmark criterion.

G. Its suitability for preservation or restoration.

Historic cemeteries such as the Camp Mooney Cemetery have long been recognized for possessing valuable genealogical information, particularly when state vital statistic records including birth and death records were not routinely completed until after 1917. However, in more recent years, cemeteries are being recognized and protected as significant historic resources that contribute to understanding our cultural past. In addition to reflecting burial traditions and folk art, historic cemeteries can also provide information on settlement patterns, early trade and transportation routes, demographics, as well as epidemiology, or the study of the cause, distribution, and control of illnesses. Cemeteries, when properly maintained, can contribute valuable open and green spaces in our growing urban and suburban environments.⁷

The process of designating cemeteries as local landmark sites greatly contributes to the recommendations of the report of the Blue-Ribbon Commission on Abandoned and Neglected Cemeteries (December 2007), particularly in the areas of identifying, mapping, and recording, increased public awareness, protection from development as well as determining and assigning responsibilities. Currently fifteen cemeteries have been designated as local Landmark Sites in Jacksonville. Preparing landmark applications and reports requires a significant amount of research documenting the history of the specific cemetery, within the general historic context of the area. Properly archived and assimilated this body of information can raise public awareness and a degree of protection and preservation through local and state laws. Since taking ownership of the Camp Mooney Cemetery in 2021, the Kirby-Smith Camp 1209 has installed fencing, a flagpole, updated signage, as well as the clearing of debris and removing of dead trees. An ongoing maintenance plan has also been established.

RECOMMENDATION

According to Chapter 307.104 Jacksonville Ordinance Code, properties nominated for landmark designation must meet two criteria. Since the property owners for the Camp Mooney Cemetery, 538 South Ellis Road, sponsored the landmark site designation, at least two of the seven criteria must be met. In reviewing the application, the Planning and Development Department has found the application to meet two criteria. Based on the findings of this report, the Jacksonville Planning and Development Department recommends that the Jacksonville Historic Preservation Commission approve the designation of the Camp Mooney Cemetery, 538 South Ellis Avenue, LS-23-01, as a City of Jacksonville Landmark Site.

Wells, Arimus - PDCM

To: calvinhart@bellsouth.net

Subject: RE: LS-23-01 Staff Report / Public Hearing Reminder

Calvin,

Please see the findings below:

- 1. The informational marker at the entrance of the cemetery has been redone to be more historically accurate
- 2. The historic marker for Captain Jessie Mooney has been removed.
- 3. The memorial plans and markers for Holmes Steele, John Nathan Spearing, Isaac Silcox, Conner Roberts, John Sauls, John H. Chase, Samuel A. Cook, William James Gillen, Jr., and William H. Poor have been removed.
- 4. Any markers identified as unknown Confederate soldiers are based on previous cement markers that had sufficiently eroded to make individual identification impossible.
- 5. There is a grouping of markers for five of the Confederate soldiers killed at the Skirmish at McGirts Creek (March 1, 1864). However, at least two of the five, Joseph Henry Tanner and William Constantine Thomas, have been identified as being buried elsewhere.
- 6. An unidentified party placed a handmade concrete marker commemorating the five soldiers that died at the skirmish
- 7. In conclusion, according to the representative of the property owner, all markers and plaques remaining are directly associated with individuals buried at Camp Mooney Cemetery.

Best Regards,

Arimus

REQUEST FOR DESIGNATION OF LANDMARK OR LANDMARK SITE

- 1. Name of Proposed Landmark: --- Camp Mooney Cemetery
- 2. Address or General Location --- 538 Ellis Rd S, Jacksonville, FL 32254 of Proposed Landmark:
- 3. Name and Address of Owner: Kirby Smith Camp 1209

4884 Victoria Chase Ct Jacksonville, FL 32257

- Name and Address of Applicant (including phone and email): Calvin Hart 4884 Victoria Chase Ct Jacksonville, FL 32257 904- 226-1837 calvinhart@bellsouth.net
- 5. Type of Property: Cemetery
 - a. Type of property Cemetery
- 6. Year of Construction of Building: --- Cemetery started in 1864
- 7. Original Use: Civil War Outpost Union/Confederate Civil War Training post
- 8. Present Use: Cemetery
- 9. Physical Description (Basic design, construction and condition): .79 acres with 126 marked graves including Civil War, Spanish America War, WWI and WWII Veterans

10. What is the Historical, Architectural, or Archaeological Significance: Please use a continuation sheet if necessary.

Established in 1864, Camp Mooney Cemetery is a .79-acre property with over 126 marked gravesites. The cemetery is located just a few blocks north of I-10, at 538 Ellis Road South. The cemetery was named for George Mooney whose property it was located within. He was born in Ireland 1822. George and wife Ella appear on the 1860 and 1870 Federal Census and are buried in the Catholic Cemetery near Old City Cemetery. George M. Mooney built the Confederate Gun Boat which was burned before the occupation of Jacksonville by Union forces. The cemetery was larger but city growth and construction in the area since 1927 has resulted in many graves being destroyed or covered over by surrounding buildings.

It is the final resting place of some most Jacksonville's prominent citizens from the 1800's. During the Civil War, the site served as a Confederate and Union outpost where hundreds of soldiers camped and trained. In addition to serving as the burial ground for Confederate soldiers killed at the Skirmish at Cedar Creek (the largest Civil War battle within Jacksonville city limits), Camp Mooney is also the final resting place for soldiers from Spanish American War, as well as soldiers from World War I and World War II.

In 1875, a Christian school was located at Camp Mooney cemetery, with 55 students. In 1927, three sisters and a friend, drowned on nearby Clearwater Lake. The girls were boating, and someone started rocking the boat in fun. All were thrown into the water but only two could swim. They gave their lives trying to save the others. All four girls are buried at Camp Mooney cemetery. The attending crowd as estimated at 4000.

In 1958, with the pending construction of Interstate-10 (eastern end at present-day I10 & I95) Maggie Silcox Lee learned the path of I-10 would pass over and eliminate the Camp Mooney cemetery. She contacted Joe Hammond, a former Duval County commissioner, who petitioned Tallahassee to change route. Their success resulted in the curve in the highway and preserved the cemetery.

Since acquiring cemetery in 2021, Kirby-Smith Camp 1209 has cleared debris, removed dead trees, installed fencing, a flagpole as well as updated signage and historical marker. Veterans who rested in unmarked graves have had headstones installed. The cemetery is maintained by monthly mowing, raking and debris removal as needed.

Camp Mooney Cemetery Timeline

During the Civil War, Camp Mooney was occupied by Union and Confederacy forces 03/15/1862 Curbo, John (B1815) enlisted at Camp Mooney. Transferred to Co B, Milton Artillery, 03/15/1863 (Biographical Rosters of Florida's Confederate and Union Soldiers 1861-1865. Hartman & Coles, compliers) (Attachment 1)

08/16/1863 Winston Stephens letter to Octivia Stephens: "in camp at Mooney's place 5 miles out from Jacksonville" (attachment 2 The Rose Cottage Chronicles)

03/17/1863 Octivia Stephen's diary entry ":arrived at camps three miles from Jacksonville in the afternoon. Winston and Swep met me at the (train) cars and came here to Mrs. Mooney's place with me, had been here about half an hour when Winston had to go back to Jacksonville...."

03/21/1863 Masters, Bartolo enlisted at Camp Mooney 2nd Florida. Battery, Co A. (Biographical Rosters of Florida's Confederate and Union Soldiers 1861-1865. Hartman & Coles, compliers) (attachment 1)

George Mooney was a Jacksonville machinist and owned property in the vicinity of current day Camp Mooney cemetery. He was born in Ireland 1822. George and wife Ella appear on the 1860 & 1870 Federal census.

03/27/1875 article in The New South (Jacksonville newspaper regarding a Christian school at Camp Mooney, near property of J. H. Gardner, ESQ. As George Mooney passed away between the 1870 & 1880 Federal censuses, assume ownership of G Mooney's property was passed/sold to Mr. Gardner. (Attachment 5)

06/26/1927 Three sisters, Mary 14; Dora 12; Emma 10 Silcox & their friend, Frances Norton 18, drowned on nearby Clearwater Lake. The girls were boating, and someone started rocking the boat in fun. All were thrown into the water but only 2 could swim. They gave their lives trying to save the others.

06/27/1927 All four girls are buried at Camp Mooney cemetery. The attending crowd as estimated at 4000. The cemetery grounds, were much larger then. Growth and construction in the area since 1927 has resulted in many graves being destroyed or covered over by surrounding buildings.

07/10/1926 The Mooney subdivision was certified as an addition to the Buenes Aries area. (Attachment 6)

Named streets in this subdivision all have been renamed or no longer exist due to construction in the area. The one exception is Gay Ave is present-day Ellis Road S.

WORK DAY

Camp Mooney, August 26, Erecting Crosses of Honor

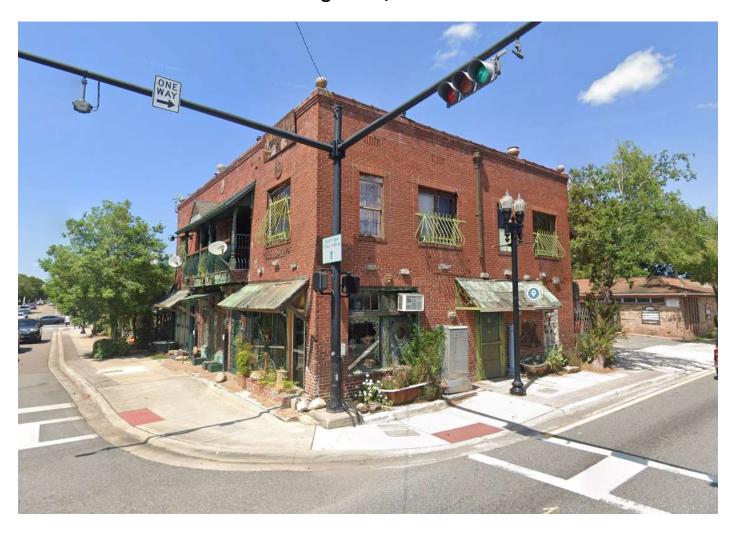

LM-24-03 801 Jefferson Street North

City of Jacksonville Landmark Designation Report

801 North Jefferson Street

LM-24-03 August 28, 2024

Application Prepared By:

Amon D. Whetstone 17 West 11th Street Jacksonville, Florida, 32202

Property Owner:

Amon D. Whetstone 17 West 11th Street Jacksonville, Florida, 32202

REPORT OF THE PLANNING AND DEVELOPMENT DEPARTMENT APPLICATION FOR DESIGNATION AS A CITY OF JACKSONVILLE LANDMARK

LM-24-03

801 North Jefferson Street The Whetsonian Building Jacksonville, Florida 32202

GENERAL LOCATION: Northeast corner of North Jefferson Street and West Union

Street in LaVilla immediately west of Downtown

Jacksonville

Prepared in accordance with the JACKSONVILLE ORDINANCE CODE, SECTION 307.104, the Jacksonville Planning and Development Department hereby forwards to the Jacksonville Historic Preservation Commission, its "Findings, Conclusions and Recommendations" on the Landmark Designation, <u>LM-24-03</u>, sponsored by Amon D. Whetstone, agent for the property owner, Dorothy Whetstone.

FINDINGS AND CONCLUSIONS

- (A) Consistent with the JACKSONVILLE ORDINANCE CODE, SECTION 307.104(d), the Planning and Development Department determined that the application for designation of the property at 801 North Jefferson Street as a Landmark was complete.
- (B) As required, the Planning and Development Department had signs posted in front of the property being considered for designation, as well as sent notices by U.S. Mail to each owner of real property within three hundred and fifty (350) feet of the proposed landmark. Notice of the public hearing on the designation of the property at 801 North Jefferson Street as a Landmark was published in the *Financial News and Daily Report*. Proof of publication is attached to this report.
- (C) Once designated, any activity affecting the exterior of the building and site of the proposed landmark at 801 North Jefferson Street will require a Certificate of Appropriateness (COA). All proposed work will be reviewed for consistency with the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings. The review of most routine work scopes including repairs, maintenance, alterations of previously altered features, small additions and size-limited new construction that would not impact significant historic elements or would not be readily street visible can be processed by the Historic Preservation Section (HPS) of the Jacksonville Planning and Development Department, but certain activities like alterations, additions, new construction, relocation and demolition that would be visible from the public right-of way, as well as any work the HPS determines

to be potentially in conflict with the *Secretary of the Interior Standards*, will require review by the Jacksonville Historic Preservation Commission.

The purpose of the historic designation of this site is to provide protection to the Whetsonian Building and the old Atlanta Life Insurance Company at 801 North Jefferson Street not to discourage or prohibit the future development of the site. The review of work through the COA process is to preserve the historic character, architectural features, and materials of this significant structure, as well as, to ensure any future development of the site is compatible with and sensitive to this primary historic resource.

(D) In preparing the application, the Planning and Development Department has found the application to meet two of the seven criteria. The two criteria include the following.

A. Its value as a significant reminder of the cultural, historical, architectural, or archaeological heritage of the City, state or nation.

The Whetstonian Building at 801 North Jefferson Street is one of the few remaining historic commercial buildings in LaVilla. Historically, the LaVilla neighborhood was defined by North Clay Street to the east, North Myrtle Avenue to the west, Old Kings Road to the north and McCoys Creek to the south. During Reconstruction, LaVilla began to take on the character that has historically defined the neighborhood well into the 20th century. The northern part of LaVilla developed into a vibrant neighborhood that became the social, cultural, and economic center of black Jacksonville, a reputation it held until the end of segregation in the 1960s. During most of its history, the community was predominantly African American, but also racially and ethnically diverse. The neighborhood became home to numerous ethnic groups, the largest being East European Jews, who originally lived, worked, and worshiped primarily in the middle section of the neighborhood. Becoming a major rail center, the southern part of LaVilla became filled with small hotels, rooming houses, restaurants, and other businesses serving the traveling public, as well as large warehouses and industrial uses dependent on rail service. Given the transient nature of the southern part of the neighborhood, this portion of LaVilla developed a notorious reputation for criminal activities.

The most significant legacy of northern LaVilla was its associated with the vibrant musical scene that developed from the 1890s until after World War II. During this period, LaVilla had a variety of clubs and venues that featured major blues and jazz performers. LaVilla's music legacy were planted in the late 19th and early 20th centuries and coincided with the development of LaVilla as the commercial, cultural, and social center of Jacksonville's African American community. Other than isolated clubs outside the downtown area such as the Two-Spot and the Havana Club, the northern part of LaVilla was the only area in the city where these nationally known blues and jazz musicians performed. The remaining buildings in the neighborhood associated with the era include the Richmond Hotel, Genovar's Hall, the Masonic Temple, Clara White Mission, the Central Hotel, and the Maceo Elks Lodge.

In the years between 1896 and 1916 before the widespread availability of electronic recording, LaVilla was alive with, music, dance and comedy performances by professional entertainers

featured in numerous clubs, vaudeville houses, and other venues such as Frank Crowd's Bijou Theater, later renamed the Globe Theater, that opened in 1909 and its competitor across West Ashley Street, the Airdome also opened in 1909 by Louis D. Joel and Morris R. Glickstein. Theatrical stock companies and tent shows were an important part of LaVilla's cultural legacy. Some of the shows were produced and managed by Blacks such as the Rabbits Foot, a traveling show owned and operated by LaVilla's pioneer Black promoter, Patrick Henry Chappelle.

During June of 1915, a new attraction, the Strand Theater, opened at 701 West Ashely Street the next block down from the Airdome and the Globe Theater. Owned and operated by the Strand Amusement Company under H.S. Walker, the Strand, located at the corner of West Ashley Street and North Jefferson Street, opened on June 12, 1915. The Strand continued as a movie house for decades before finally closing with the building being demolished in 1969. ¹ The largest venue was the Knights of Pythias Hall at 727-33 West Ashley Street which was built in 1921 by Jacksonville general contractor, P.J. McCullough. Crowned with a stepped parapet wall, the fivestory building had three storefronts on the first story, five to six apartments on each floor of the second, third and fourth stories and a large hall, dining room and kitchen on the fifth. A distinctive feature of the building was the full-width balconies on second to the fifth stories that cantilevered over West Ashley Street. On the first story, an arcade provided elevator access to the upper floors, as well as to three more stores. Demolished in 1957, the first story of the Knights of Pythias Hall housed numerous businesses over the years such as Dr. James D. Patterson's Drug Store, Sentinel Publishing Company, White Front Pool Parlor, and the Peoples Dressmaking.²

Playing in LaVilla during this time were nationally recognized performers such as Billy Kersands, Gertude "Ma" Rainey, Ferdinand "Jelly Roll" Morton, and Jacksonville resident, Arthur "Blind Blake" Phelps, who became widely known for his "piano sounding" fast guitar style. In the 1920s and 30s, the big venues, such as the Knights of Pythias Hall on West Ashley Street and the Odds Fellows Hall on North Pearl Street, featured such nationally known performers as Cab Calloway, Billie Holiday, Count Basie, Nat King Cole, Louis Armstrong, Ella Fitzgerald, and Duke Ellington ³

By the 1930s and 40s, LaVilla had become a stop along the Chitlin Circuit. Named after the Southern cuisine made from pig intestine, also spelled Chitterlings, the unofficial circuit was a connection of performing venues that featured Black entertainment within the safe environment of the Black community. Performers that followed the Chitlin Circuit usually started their tour in Baltimore or the mid-Atlantic region then traveled through the South before swinging west to Texas and north to Chicago. The name probably came from many of these venues offering soul

food such as chitterlings. Like the humble chitlins, the shows on the circuit were considered by some as being second rate and since in segregated neighborhoods under the radar screen of the larger white community. Most of the Black communities along the Chitlin Circuit had a central avenue called the "stroll" where most Black businesses and venues were located. The "stroll" in LaVilla was West Ashely Street.⁴

"Stroll" in some other cities include Beale Street in Memphis, Indiana Avenue in Indianapolis's Bronzeville, Farish Street in Jackson, Mississippi, and Auburn Avenue, "Sweet Auburn" in Atlanta, Georgia. The "stroll" such as West Ashley Street was lined with bars, restaurants, cafes, barbershops, clothing stores and theaters which attracted large crowds, particularly on Saturday night and the Monday night after Easter. Alex McBride, who performed in clubs in the area, stated "Ashley Street was just like a flower garden, everybody looking the best they could look". During the 1930s and 40s, the "stroll" in LaVilla included such popular clubs and venues as Lenape Tavern, The Top Hat, the Bronx, Emanuel's Tap Room, and the Knights of Pythias. It was during this period that LaVilla, specifically West Ashley Street, acquired such nicknames as the "Little Harlem of the South", "Jacksonville's Harlem", Jacksonville's Answer to Harlem" and the "Great Black Way", a reference to Broadway's the Great White Way. 6

Many of the venues, clubs, hotels, and restaurants associated with the Chitlin Circuit tended to concentrate in 600 and 700 block of West Ashley Street, "the Stroll" and the blocks of North Broad Street. The north side of the 600 block of West Ashley Street included the Hollywood Music Street opened in the 1920s by Joe Higdon to promote black music and to bring quality black musicians to LaVilla. In the same building were Adolph's Beauty Products and Florida Cut-Price Pharmacy. Manuel's Taproom at 622-626 West Ashley Street managed by co-owner, Chula Papa Rivera, opened 24 hours for drinks, dining and dancing, and according to *Crisis Magazine*, "the finest of its kind in the South" horseshoe-shaped bar, back room for cards, dice, and slot machines, upstairs Blue Room with stage for performers – live radio broadcast on Station WRHC. attracted a well-dressed crowd in tailored clothing. In the same block as Manuel's Taproom were Hotel Eggmont, Brad's Café, the Artistic Barbershop, the John Betsch Place, Carl, and Daisy Ford's, "Bubber's Coffee Shop."

The popular three-story Richmond Hotel, which attracted many jazz and blues greats during the 1930s including Duke Ellington, Cab Calloway, Ella Fitzgerald, and Billie Holiday, was built in 1909 at 420 North Broad Street, immediately adjacent to the Masonic Temple. In addition to a third floor ball room, a tea room and forty-eight rooms, the first floor housed a variety of businesses over the years such as a candy manufacturer, cigar maker, barber, tailor, insurance company and Vanderhorst, which has been called by one trade journal as "the largest black-owned shoe store in the Country".8 With the decline of LaVilla, the Richmond Hotel closed in

1970 and was used as a furniture showroom and storage facility. In its 1942 edition that focused on Jacksonville, the *Crisis Magazine* featured the Richmond Hotel as an "outstanding hotel for colored people in Jacksonville". It was located "close to all principal Negro businesses, theaters, and churches, and less than five minutes" drive from the railroad terminal. Most of its 48 rooms have running water, with many bathrooms adjacent. The Richmond Hotel boasts a quiet, homelike atmosphere. A Tea Room is operated for the convenience of guests." ⁹

Although currently gutted from a failed rehabilitation attempt, Genovar's Hall is one of the largest and most well-known of the Chitlin era hotels. The actual date of construction for Genovar's Hall at 644 West Ashley Street has not been determined. The first definitive listing of Genovar's Hall at the southeast corner of West Ashley Street and Jefferson Street (Hawk Street) in the city directories was in 1895 which listed Genovar Brothers (grocers) at that location. Harry Finkelstein, who later had his name inscribed on the central dormer of the west elevation facing North Jefferson Street, purchased Genovar's Hall in 1919. Harry Finkelstein, who operated a pawnshop at 633 West Bay Street, apparently rented or leased Genovar's Hall for a variety of commercial and residential uses. Members of the Finkelstein family kept ownership of Genovar's Hall until sold to the City of Jacksonville during the 1990's.

In 1933 or 34, former railroad porter, Jack D. Wynn, opened the Wynn Hotel on the second and third floors with the Lenape Tavern being located on the first floor. According to oral tradition, the Wynn Hotel, which operated under that name until 1941, was a popular lodging spot for some of these early jazz performers playing in LaVilla and the surrounding area. Reportedly, Louis Armstrong, who played at the Knights of Pythias Hall at 733 West Ashley Street, would prefer the Wynn Hotel to other more "upscale establishments" since it was located closer to the street action generated by such nearby entertainment amenities as the Hollywood Music Store, The Top Hat, Manuel's, and the Bronx. ¹⁰

Located in front of Genovar's Hall near the intersection of West Ashley Street and North Jefferson Street were two hitching rails constructed of four-inch galvanized pipes. According to oral tradition, these rails were called the "rails of hope" since many waiters and musicians would hang out in front of these hitching posts waiting for employment offers. One such occupant of the "rails" was a young, blind musician by the name of R. C. Robinson, now professionally known as Ray Charles. Born in 1930 in Albany, Georgia, Ray Charles moved with his family to Greenville, Florida whereby the age of seven he had progressively lost his vision due to glaucoma. In 1937, R.C. Robinson was sent to the Florida School for the Deaf and Blind in St. Augustine, Florida where he attended until the death of his mother in 1945. Fifteen years old at that time, R.C. Robinson moved to Jacksonville in 1945to pursue a career as a musician. He lived with family friends at 633 West Church Street directly behind Genovar's Hall, which at that time still housed the popular Lenape Tavern. While in LaVilla, Robinson hung around the Musician Union office (Local 632) at Clara White where he honed his playing skills and

provided the opportunity to back up some of these musicians at local clubs. In 1946 Robinson left Jacksonville to go on tour of central Florida with Little Louis, "Tiny" York. After playing piano as sideman to several well-known entertainers, R.C. Robinson went on to stardom as Ray Charles.¹¹

With the end of state sponsored segregation, many African American residents and businesses left the LaVilla area to seek opportunities in other parts of the city. As a result, the economic and social vitality of LaVilla declined resulting in marginal businesses or empty commercial buildings and a predominance of low-income rental units. Continued lack of investment fostered significant deterioration of LaVilla's building fabric resulting in numerous demolitions. Beginning in the 1990s LaVilla underwent major redevelopment as part of the River City Renaissance Program. The redevelopment took an urban renewal approach resulting in the demolition of nearly all residences and a significant number of commercial buildings to accommodate open space for new construction. The largest project in the redevelopment of LaVilla was the construction of the LaVilla School of the Arts (2000). Using a suburban development model, the school was located on a significant amount of property, which resulted in fracturing the traditional street grid and destroying much of the Ashley Street "Stroll." This significant disruption of the street grid impacted connectivity within LaVilla and reduced its original sense of place.

Except for several landmark structures and a cluster of older commercial buildings along North Broad Street and North Jefferson Street, LaVilla is composed of large vacant parcels and a scattering of new construction, primarily apartments and offices. Significant buildings and sites that remain are spread out and disconnected except for those in the cluster of historic buildings along North Broad Street and North Jefferson Street. The remaining buildings reflect the once vibrant commercial and institutional uses found in this part of the neighborhood.

Constructed in c. 1927, the Whetsonian Building shared a similar history found in other parts of northern LaVilla and was part of the rich cultural tradition of the area. Common at the time of construction, the building was mix use with commercial on the first floor and residential on the second. From 1928 until the end of the historic period (1974), the Whetsonian had housed a variety of small businesses owned or catering to northern LaVilla's Black residents. Well into the 1950s, the building always housed a grocery store at 801 North Jefferson Street starting with John Abraham Grocery Store in 1928, later owned and ran by M. Eswood, John Tubel, Harold L. Friedlin, and Louie's Grocery Store and Market. Other long-term businesses included McNeill's Drug Company, owned, and operated by Gertrude H. McNeill; Edna Chandler, hairdresser; Continental Investment Company, and E.&M. Beauty Salon. Different residents were listed each year in the city directories as well. Another established business that operated out of 801 North Jefferson Street was Bill's Barbecue that opened in 1949 and stayed at that location until 1973. The Apothecary Shop (pharmacy) opened in the Whetsonian in 1955 and was in business at that address until 1973. In 1975 only two businesses were listed, Broadcast T.V. Shop and the Starlite Diner. By 1978, the Starlite Diner was replaced by Jim's Diner which was still in business in

¹¹ Michael Lydon, Ray Charles, Man and Music. (New York: Riverhead Books, Penguin Putnam, Inc., 1998), pp. 29 - 38.

1985. By the late 1980s, the city directories listed no businesses or residents at 801 North Jefferson Street.¹²

The building took on a new significance with its purchase by Walter Whetstone in 1998. Born in Jacksonville in January of 1937, Walter Whetstone attended Oakland Elementary, and Matthew W. Gilbert High School in East Jacksonville. Starting at the age of fourteen he worked as a Western Union bicycle messenger before serving in the U.S. Army at the age of twenty-three. Around this time, Whetstone married Dorothy Jean Thomas in 1959 that continued for 59 years until his death in 2018. After his military service he continued working as a bicycle messenger, as well as part time with the Gulf Life Insurance Company while attending Edward Waters College in the evenings. After graduating from Edward Waters College in 1968, Whetstone began working full time with Gulf Life Insurance Company. During his successful career as agent with the company, he won numerous awards such as the life membership of the Million Dollar Round Table, a financial professionals' organization and selected for the Gulf Life Insurance Company Hall of Fame. Walter Whetstone also was involved in community service working with the Boys Scouts of America, 100 Black Men of Jacksonville and the David H. Dwight Young Men Christian Association (YMCA). ¹³

Although living in Springfield, Whetstone purchased the condemned two-story brick building at 801 North Jefferson Street, northeast corner of North Jefferson Street and West Union Street. Condemned and slated for demolition, Whetstone at the age of 61 saved the building at the last minute. The building's sewer lines were disconnected in anticipation of demolition. He opened the interior of the building by removing walls between three of the commercial units. With the purchase of the building, he began to turn it into one of the most recognizable landmarks in Downtown Jacksonville. Charlie Whetstone, his father, drove an ice truck and began to pick up a variety of things thrown out by others. Walter continued this tradition but added antiques, artifacts and art obtained from thrift stores, antique stores, garage sales and estate sales. Each item was selectively displayed on the interior and exterior of the building creating an eclectic collection that turned the building into a single work of folk art. Known for his kindness and gracefulness, Whetstone was quick to invite curious visitors attracted to the building to come in and review the collection in more detail. He also stated that if James Smithson could have his collection at the Smithsonian Institute, then he could display his at the Whetstonian. 14

The building and its eccentric collection drew the attention of Mike Wolfe and Frank Fritz who visited the Whetsonian as part of their show, "American Pickers". Wolfe aptly described Whetstone on his show, "You can tell that Walter has the eye of an artist". "The way he's placed them almost transcends them into art. What Walter did was genius. He surrounded

himself with his collection but did it in a way for others to enjoy it too" (Strickland). As a folk artist Whetstone is part of tradition of "outsider artist" with no formal art education or training who produce works for the sake of expressing their creativity rather than necessarily for money or fame. The Whetsonian has been described as a "masterpiece of outsider art" (Gilmore). 15

Whetstone's collection space also included the old Atlanta Life Insurance Company building next door at the southeast corner of North Jefferson Street and West State Street. Also purchased by Whetstone in 1998, the Mid-Modern style building was constructed by W.G. Lumpkin, Jr. in 1965 from a design by Jacksonville architect, Emilio Zeller III. ¹⁶ Originating from the Atlanta Benevolent and Protective Association formed in 1905, the Atlanta Life Insurance Company was founded in 1922 by former slave, Alonzo Herndon, who became Atlanta's most wealthy African American. ¹⁷ As part of their expansion into other states, the Atlanta Life Insurance Company acquired Jacksonville based, Afro-American Life Insurance Company in the 1990s.

B Its location is the site of a significant local, state, or national event.

It is the determination of the Jacksonville Planning and Development Department that the subject property at 801 North Jefferson Street, the Whetstonian Building, does not meet this landmark criterion.

C It is identified with a person or persons who significantly contributed to the development of the city, state, or nation.

It is the determination of the Jacksonville Planning and Development Department that the subject property at 801 North Jefferson Street, the Whetstonian Building, does not meet this landmark criterion.

D It is identified as the work of a master builder, designer, or architect whose individual work has influenced the development of the city, state, or nation.

It is the determination of the Jacksonville Planning and Development Department that the subject property at 801 North Jefferson Street, the Whetstonian Building, does not meet this landmark criterion.

E Its value as a building is recognized for the quality of its architecture, and it retains sufficient elements showing its architectural significance.

It is the determination of the Jacksonville Planning and Development Department that the subject property at 801 North Jefferson Street, the Whetstonian Building, does not meet this landmark criterion.

¹⁷ https://en.wikipedia.org/w/index.php?title=Atlanta Life&oldid=1182376219

F It has distinguishing characteristics of an architectural style valuable for the study of a period, method of construction, or use of indigenous materials.

It is the determination of the Jacksonville Planning and Development Department that the subject property at 801 North Jefferson Street, the Whetstonian Building, does not meet this landmark criterion.

G. Its suitability for preservation or restoration.

In utilizing this criterion, it has been the practice of the Planning and Development Department to evaluate proposed landmarks based on evidence of significant exterior alterations that have negatively impacted character-defining features, as well as represent alterations difficult, costly, or impossible to reverse. Further, the degree and nature of any exterior deterioration, as well as the evidence of long term and potentially on-going neglect are also a factor in evaluating potential landmarks for their suitability for preservation or restoration.

Both the Whetstonian and the old Atlanta Life Insurance Company have been altered in different ways, usually for displaying the collection or for security reasons. However, the significance of both buildings has grown beyond its architecture but now how it functions as a single work of folk art. Therefore, its preservation has been focused on preserving the buildings themselves but also to incorporate the collection into future reuse and rehabilitation plans. In the current plans the first floor of the Whetstonian will house a food court providing affordable dining with the second being used for public gatherings and meetings. The third floor will be a rooftop cigar lounge that will feature vintage whisky, spirits, beer, and wine along with a humidor to display prime cigars. The old Atlanta Life Insurance Company will house an administrative office and a small museum. The Whetsonian collection will be inventoried and displayed on walls and the small museum or appropriately stored as needed.

RECOMMENDATION

Since the agent of the property owner is the sponsor of the designation, at least two of the seven criteria must be met. In reviewing the application, the Planning and Development Department has found the application to meet two of the seven criteria. Based on the findings of this report, the Jacksonville Planning and Development Department recommends that the Jacksonville Historic Preservation Commission <u>APPROVE</u> the designation of 801 North Jefferson Street, the Whetstonian, (<u>LM-24-03</u>) as a City of Jacksonville Landmark.

THE WHETSTONIAN at LiVilla

Business Summan

Project Description

Situated on half a city block (in Downtown Jacksonville, Florida) that includes:

- a 1927 two-story brick commercial structure
- a 1965 life insurance building and
- Numerous unique artifacts (old restaurant signs, a Harriet Tubman bust, fluegel horns and trumpets and trombones and piano innards, blackface statuettes and portraits of black Jesus, carousel horses, mannequin parts, tall tin plates emblazoned with architectural slogans by Mies van der Rohe and Frank Lloyd Wright, and human-faced suns in factory cogs).

Located in what was once a thriving black neighborhood just west of downtown, the densely and most vibrant district in Jacksonville's history, LaVilla was largely destroyed during Austin's "urban renewal." Among the remains of LaVilla stands the old Brewster Hospital, three shotgun shacks, the Ritz Theatre and Museum, the Clara White Mission and <u>The Whetstonian</u>.

The two-story red brick building located at 801 Jefferson St. once the Stardust Club attracted numerous jazz and blues musicians played there from 1930s to the 1950s during the days when LaVilla was an entertainment hot spot. Performers such as Jelly Roll Morton and Blind Blake played at the Stardust.

The History Channel's "American Pickers" show came calling for an episode that aired in 2018 and in subsequent reruns.

The one-story building located at 821 Jefferson St. once the administrative office of Atlanta Life Insurance Company. Founded in 1905 by Alonzo Herndon, a prosperous Black barber and entrepreneur who rose from enslavement to become by 1927 the wealthiest African American in Atlanta.

We plan to completely renovation these two Historical Commercial Buildings located off North Jefferson Street in Downtown Jacksonville.

The site will be customized to suite our needs including: size, parking access, traffic patterns, ingress/egress, and signal access. We plan to have great curb appeal and be easy to find along our customers typical routes.

When people notice our location, they will get curious about it and plan to visit. In fact, the curiosity factor will be one of our biggest draws.

A STATE OF CHANGE

Open Space

JTA partnered with the Downtown Investment Authority to create the LaVilla Development Strategy, a plan that includes creating a park. Jones Worley Design, a national experiential design firm, was hired to document and illustrate the Jacksonville regional transportation story through the lens of the LaVilla labors, residents and families who helped build the transportation network. The Lift Ev'ry Voice and Sing Park will commemorate James Weldon Johnson's contributions to the nation, inviting people to honor Jacksonville native. The park located at 100 Lee Street will be linked to 15 other historic neighborhoods and Downtown via the Emerald Trail.

PROPOSED ADAPTVE REUSE OF BOTH BUILDINGS

The Whetstonian Building

Walter Whetstone's saving of the building and conversion into a museum with collections from the LaVilla community during gentrification, musical instruments, wagon wheels, mosaic tile, old lamps, old safe, etc., and indoor memorabilia has become a local landmark in LaVilla and downtown Jacksonville.

The proposal to renovate the Whetstonian into a place that captures the historical significance of LaVilla's cultural history. The proposal would be to convert the downstairs into a food court, the upstairs into a meeting room and a rooftop cigar bar.

Proposed organizational structure for this plan is—

- 1. Register Business as-Whetstonian LaVilla Renaissance LLC
- 2. Potential Funding source for the business
 - a. SBA Loan (7) this most common loan program, includes financial help for small businesses with special requirements. This is the best option when real estate is part of a business purchase. The maximum loan amount for a 7(a) loan is \$5 million. Key eligibility factors are based on what the business does to receive its income.
 - Loan submission through conventional lender or lenders such as Congent Bank, Lendio, SmartBiz
 - ii. Secure 5-year retail lease agreements from potential restauranters, cigar bar owners. The price per square foot after renovation is approximately \$150 with a potential increase in property value at \$300 per square foot within the next 5 years.
 - iii. The Downtown Investment Authority—The intent of the Downtown Preservation and Revitalization Program

(the "DPRP") is to foster the preservation and revitalization of unoccupied, underutilized, and/or deteriorating historic, and qualified non-historic, buildings located in downtown Jacksonville. This program is designed to serve historic projects applying for more than \$100,000, and non-historic code compliance projects.

The Atlanta Life Insurance Building

The historical significance of what was once the Atlanta Life Insurance Building is its relationship to Alonzo Franklin Herndon who founded the company in 1905. Herndon became the wealthiest black man during his time in the country. The insurance company expanded from Georgia to Florida, Kentucky, Missouri, Tennessee, and Texas. Salesman sold the low-cost insurance door-to-door.

Tim Gilmore is an author and professor at Florida State Community College and the founder of Jax PSYCHEO, an online collection of stories about Jacksonville. His interview of Walter Whetstone in October 2012 and Dorothy Whetstone's memories of her husband explains why the site 801 Jefferson Street should be preserved. Walter Whetstone had no formal training as an artist but a walk through on how he arranged items he collected and his work with copper and iron pieces truly makes him an artist.

The proposal to create a museum is two-fold. A museum that would capture the life story of Walter Whetstone as historically significant contributor to history of LaVilla and Jacksonville community. Two, preserve his unique collection of folk art, vintage items such as glass and lamps, comic books, wagon wheels, metal art pieces, etc. According to Dorothy Whetstone his vision was a place where people could gather to drink coffee and engage in conversation. the work and archive the items Walter Whetstone collected by creating a museum.

The proposed organizational structure for this plan-

- 1. Register business as—Whetstonian LaVilla Cultural Arts Museum
- 2. Tax-Exempt 501 (c) 3 organization with Internal Revenue Service
- Funding Sources for the museum local and private foundations as well as local businesses.

The Smithsonian's founding donor, James Smithson never visited the U.S. He did manage to a mass a fortune, and he left it all to his nephew, Henry Hungerford, with one caveat: If his nephew died childless (Which he did in 1835, six years After Smithson's own death). The money would go "to the United States to found at Washington, under the Name the Smithsonian Institution. It was his way of establishing his own legacy.

OVERALL RECOMMENDATION

The City of Jacksonville's Strategic Plan to revitalize and develop downtown communities, particularly LaVilla is currently being implemented, attracting outside investors capitalizing on the history of LaVilla to secure tax credits from the Downtown Investment Authority.

Strongly recommend both buildings be designated as local historical landmarks. This will assist and/or aid in securing funding for both plans. Based on my research, Walter Whetstone's wife and children would be the only owners to renovate and propose a adaptive reuse of both buildings. This is significant sense investors looking to invest in LaVilla have no vested interest in the community other than profit.

The rationale for seeking funding from the SBA is unlike private investors. The SBA funded by the government has a vested interest in helping the business succeed and the means to assist the business to withstand economic impacts. Private investors invest in businesses and/or initiatives to make a profit and maybe limited in their ability to assist if the organization is impacted by the economy.

If both plans are accepted, I can assist with the organizational development of both the establishment of the LLC and submitting required applications for the nonprofit. Will also provide nonprofit (museum) with ideas and recommendations based on your vision with potential programs to apply for funding opportunities.

Business Plan

A Business Plan is a formal written document containing the goals of a business, the methods for attaining those goals, and the time-frame for achievement of those goals. In its entirety, this document serves as a road-map (a Plan) that provides direction to the business.

Written business plans are often required to obtain a bank loan or other kinds of financing.

This Business Plan is designed for use, by THE WHETSTONIAN at LaVilla, LLC.

Assumptions

This development will include:

- · Completely renovate Building #1 (801 Jefferson Street)
- · Rehabilitate Building #2 (821 Jefferson Street)
- · Completely restore the Parking and Landscaping (around both buildings)
- Enhance the outside lighting and signage (around both buildings)
- Sidewalk and Street Enhancements (around both buildings)

The estimated development Cost:

See Estimated Project Costs Schedule \$ 3,242,500

The anticipated Source of Funding:

Capital Investment (Land & Buildings)	500,000
Economic Incentives - COJ	2,600,000
Economic Incentives – State of Florida	125,000
Addition Capital Infusion	17,500
	\$3,242,500

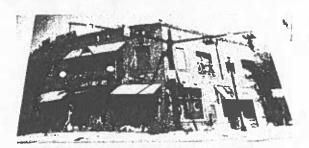

After Development:

- · Five (5) -1,750 sq. ft. Units in the Food Court Location
- · 2,200 sq. ft. Roof Top Cigar Bar
- · 2,200 sq. ft. Event Center
- Heritage Museum and Book Store
- Customized Court Yard

The Buildings and Grounds will be leased to a select group of Tenants and will also be used for the Administrative Office for The Whetstonian at LaVilla, LLC.

The development will include:

Restoration of Building #1 (2 story 4,700 sq. ft. Building)

On the 1st floor of what use to be called "The Stardust Lounge", at one time there was a poolroom, a commercial kitchen, a Bar, with space for a restaurant, Ray Charles was a frequent visitor. This area will be converted to:

• The 1st floor - will be a Food Court designed for fast casual dinning.

Food courts offer a choose-your-own-adventure selection and convenience at moderate prices. They also provide ample space and easy access to a lively, busting atmosphere and a quick bite.

• The 2nd floor - will be an Event Center - featuring Lighted Poles and Security Cameras
Will be used for the purpose public gatherings -

Entertainment and Personal Events VenuesSporting events, private receptions or parties.

Wedding Venues according to trade publications in the US the number of weddings is falling, but the spending per wedding is increasing, which is good for wedding venues and suppliers.

Business Venues is a vast industry that spans exhibitions, conferences, political meetings, corporate hospitality and meetings.

The 3rd floor - a Roof Top Cigar Lounge

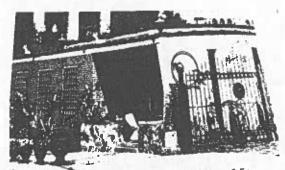

The cigar lounge will be a place where patrons can kick back and smoke cigars – with other cigar lovers.

Stepping into the Whetstonian at LaVilla cigar lounge will be like walking back in time.

You'll find a deep menu of vintage whiskey, spirits, beer and wine, and of course a humidor stocked to the ceiling with premium handmade you can smoke on the premise. The lounge will be fully furnished, lavishly so, and offer freedom of cigar smoking to every single one of our visitors.

Restoration of Building #2 (3,700 sq. ft. Building)

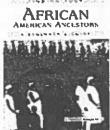

Formally used by The Atlanta Life Insurance Company as the administrative office. This building will be converted to a small museum.

African American Heritage Museum and Book Store

Will be a place where visitors can learn about the rich and diverse experience of being a person of African American descent in Northeast Florida, and how our black ancestors' lives help shape the history of Florida. The Museum will seek to educate people of all races to value the countless contributions of black Americans to the United States.

THE WHETSTONIAN at LiVilla

Economic Impact

A 2012 study by Civic Economic, a company that analyzes the impact of buying local; has found that local businesses are known to have a "multiplier effect" on their communities — the idea that every dollar spent at a local, independently owned business can stay in the community and generate a far greater economic value.

Small businesses contribute to local economies by bringing growth and innovations to the community in which the business is established. Small businesses also help stimulate economic growth by providing employment opportunities to people who may not be employable by larger corporations.

In addition to improving the community landscape it is anticipated that **the project will create 12 new iobs** for persons of the community.

12 new jobs

Entity	# of Positions	Position Description
Food Court	3	1 Clerical & 2 Maintenance
Event Center	3	1 Manager & 2 Assistance
Roof Top Cigar Bar	3	1 Manager/Bartender & 2 Waitresses
Heritage Museum	1	1 Manager
Administrative	2	1 Manager

THE WHETSTONIAN at LaVilla

Marketing Plan

Advertising is defined as:

- The art or the practice of calling public attention to one's product, service, need, etc.
- Is a means of communication with the users of a product or service.

The role of marketing in any venture cannot be over looked because it is very essential.

The management team, has designed a unique and creative plan to address the advertising needs of this new location, "a Lighted Message Area" wrapped around the roof of the building.

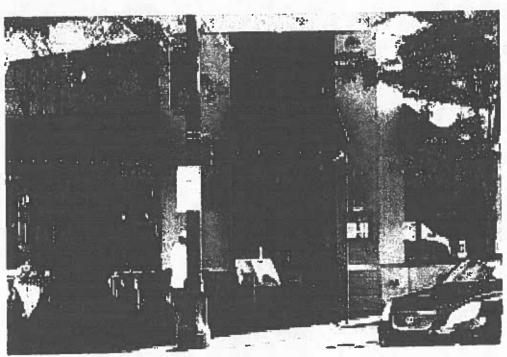

In addition to the large freestanding Pole sign, the new building is designed to have a "Message Lighted Area" under the entire roof of the building.

The "Lighted Message Area" is designed to draw public/customers attention to the Venue.

LED signs have been used by different companies in a variety of industries to attract customers and strengthen their brand. The truth is, you can offer the best services in the world, but if you don't know how to advertise effectively, you will not be able to compete in today's aggressive market.

LED signs are one of the easiest ways to advertise. When put in a high traffic, high exposure areas, an outdoor LED sign is proven to have the highest marketing Return on Investment. LED signs are proven to increase your store's visibility by 900%.

THE WHETSTONIAN at LaVilla

Roof Top Cigar Bar

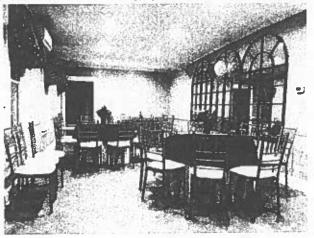

Potential Revenue \$2,000 per month

- Industry Trends Analysis Forecast to 2030 the global "Hookah or Cigar Lounges market size is projected to reach multimitation USD by 2030".
 The market is growing at a steady rate and with the rising adoption of strategies by key players; the market is expected to rise over the projected horizon.
- The high adoption of advanced technology and the presence of large players in this region are likely to create ample growth opportunities for the market.
- The revenue forecast in 2025 is put at USD 21.02 billion

THE WHETSTONIAN at Lavilla

Potential Revenue \$2,000 per month

Will be a Venue where people meet for anniversaries, birthdays, homecoming, and graduations – Life's milestones are more momentous when the people we cherish surround us.

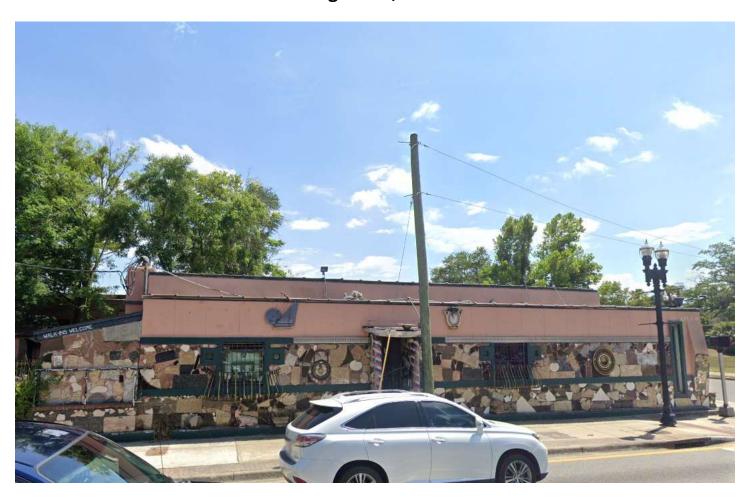

The Event Coordinators at the Whetstonian will be there to make it a success.

LM-24-05 821 Jefferson Street North

City of Jacksonville Landmark Designation Report

821 North Jefferson Street

LM-24-05 August 28, 2024

Application Prepared By:

Amon D. Whetstone 17 West 11th Street Jacksonville, Florida, 32202

Property Owner:

Amon D. Whetstone 17 West 11th Street Jacksonville, Florida, 32202

REPORT OF THE PLANNING AND DEVELOPMENT DEPARTMENT APPLICATION FOR DESIGNATION AS A CITY OF JACKSONVILLE LANDMARK

LM-24-05

821 North Jefferson Street
The Atlanta Life Insurance Company Building
Jacksonville, Florida 32202

GENERAL LOCATION: Southeast corner of North Jefferson Street and West State

Street in LaVilla immediately west of Downtown

Jacksonville

Prepared in accordance with the JACKSONVILLE ORDINANCE CODE, SECTION 307.104, the Jacksonville Planning and Development Department hereby forwards to the Jacksonville Historic Preservation Commission, its "Findings, Conclusions and Recommendations" on the Landmark Designation, <u>LM-24-05</u>, sponsored by Amon D. Whetstone, agent for the property owner, Dorothy Whetstone.

FINDINGS AND CONCLUSIONS

- (A) Consistent with the JACKSONVILLE ORDINANCE CODE, SECTION 307.104(d), the Planning and Development Department determined that the application for designation of the property at 821 North Jefferson Street as a Landmark was complete.
- (B) As required, the Planning and Development Department had signs posted in front of the property being considered for designation, as well as sent notices by U.S. Mail to each owner of real property within three hundred and fifty (350) feet of the proposed landmark. Notice of the public hearing on the designation of the property at 821 North Jefferson Street as a Landmark was published in the *Financial News and Daily Report*. Proof of publication is attached to this report.
 - (C) Once designated, any activity affecting the exterior of the building and site of the proposed landmark at 821 North Jefferson Street will require a Certificate of Appropriateness (COA). All proposed work will be reviewed for consistency with the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings. The review of most routine work scopes including repairs, maintenance, alterations of previously altered features, small additions and size-limited new construction that would not impact significant historic elements or would not be readily street visible can be processed by the Historic Preservation Section (HPS) of the Jacksonville Planning and Development Department, but certain activities like alterations, additions, new construction, relocation and demolition that would be visible from the public right-of way, as well as any work the HPS determines

to be potentially in conflict with the *Secretary of the Interior Standards*, will require review by the Jacksonville Historic Preservation Commission.

The purpose of the historic designation of this site is to provide protection to the Atlanta Life Insurance Company at 821 North Jefferson Street not to discourage or prohibit the future development of the site. The review of work through the COA process is to preserve the historic character, architectural features, and materials of this significant structure, as well as, to ensure any future development of the site is compatible with and sensitive to this primary historic resource.

(D) In preparing the application, the Planning and Development Department has found the application to meet two of the seven criteria. The two criteria include the following.

A. Its value as a significant reminder of the cultural, historical, architectural, or archaeological heritage of the City, state or nation.

The Atlanta Life Insurance Company Building at 821 North Jefferson Street is one of the few remaining commercial buildings built in the historic period, up to 1974, in LaVilla. Historically, the LaVilla neighborhood was defined by North Clay Street to the east, North Myrtle Avenue to the west, Old Kings Road to the north and McCoys Creek to the south. During Reconstruction, LaVilla began to take on the character that has historically defined the neighborhood well into the 20th century. The northern part of LaVilla developed into a vibrant neighborhood that became the social, cultural, and economic center of black Jacksonville, a reputation it held until the end of segregation in the 1960s. During most of its history, the community was predominantly African American, but also racially and ethnically diverse. The neighborhood became home to numerous ethnic groups, the largest being East European Jews, who originally lived, worked, and worshiped primarily in the middle section of the neighborhood. Becoming a major rail center, the southern part of LaVilla became filled with small hotels, rooming houses, restaurants, and other businesses serving the traveling public, as well as large warehouses and industrial uses dependent on rail service. Given the transient nature of the southern part of the neighborhood, this portion of LaVilla developed a notorious reputation for criminal activities.

The most significant legacy of northern LaVilla was its associated with the vibrant musical scene that developed from the 1890s until after World War II. During this period, LaVilla had a variety of clubs and venues that featured major blues and jazz performers. LaVilla's music legacy were planted in the late 19th and early 20th centuries and coincided with the development of LaVilla as the commercial, cultural, and social center of Jacksonville's African American community. Other than isolated clubs outside the downtown area, such as the Two-Spot and the Havana Club, the northern part of LaVilla was the only area in the city where these nationally known blues and jazz musicians performed. The remaining buildings in the neighborhood associated with the era include the Richmond Hotel, Genovar's Hall, the Masonic Temple, Clara White Mission, the Central Hotel, and the Maceo Elks Lodge.

In the years between 1896 and 1916 before the widespread availability of electronic recording, LaVilla was alive with, music, dance and comedy performances by professional entertainers

featured in numerous clubs, vaudeville houses, and other venues such as Frank Crowd's Bijou Theater, later renamed the Globe Theater, that opened in 1909 and its competitor across West Ashley Street, the Airdome also opened in 1909 by Louis D. Joel and Morris R. Glickstein. Theatrical stock companies and tent shows were an important part of LaVilla's cultural legacy. Some of the shows were produced and managed by Blacks such as the Rabbits Foot, a traveling show owned and operated by LaVilla's pioneer Black promoter, Patrick Henry Chappelle.

During June of 1915, a new attraction, the Strand Theater, opened at 701 West Ashely Street the next block down from the Airdome and the Globe Theater. Owned and operated by the Strand Amusement Company under H.S. Walker, the Strand, located at the corner of West Ashley Street and North Jefferson Street, opened on June 12, 1915. The Strand continued as a movie house for decades before finally closing with the building being demolished in 1969. ¹ The largest venue was the Knights of Pythias Hall at 727-33 West Ashley Street which was built in 1921 by Jacksonville general contractor, P.J. McCullough. Crowned with a stepped parapet wall, the five-story building had three storefronts on the first story, five to six apartments on each floor of the second, third and fourth stories and a large hall, dining room and kitchen on the fifth. A distinctive feature of the building was the full-width balconies on second to the fifth stories that cantilevered over West Ashley Street. On the first story, an arcade provided elevator access to the upper floors, as well as to three more stores. Demolished in 1957, the first story of the Knights of Pythias Hall housed numerous businesses over the years such as Dr. James D. Patterson's Drug Store, Sentinel Publishing Company, White Front Pool Parlor, and the Peoples Dressmaking.²

Playing in LaVilla during this time were nationally recognized performers such as Billy Kersands, Gertude "Ma" Rainey, Ferdinand "Jelly Roll" Morton, and Jacksonville resident, Arthur "Blind Blake" Phelps, who became widely known for his "piano-sounding" fast guitar style. In the 1920s and 30s, the big venues, such as the Knights of Pythias Hall on West Ashley Street and the Odds Fellows Hall on North Pearl Street, featured such nationally known performers as Cab Calloway, Billie Holiday, Count Basie, Nat King Cole, Louis Armstrong, Ella Fitzgerald, and Duke Ellington ³

By the 1930s and 40s, LaVilla had become a stop along the Chitlin Circuit. Named after the Southern cuisine made from pig intestine, also spelled Chitterlings, the unofficial circuit was a connection of performing venues that featured Black entertainment within the safe environment of the Black community. Performers that followed the Chitlin Circuit usually started their tour in Baltimore or the mid-Atlantic region then traveled through the South before swinging west to

Texas and north to Chicago. The name probably came from many of these venues offering soul food such as chitterlings. Like the humble chitlins, the shows on the circuit were considered by some as being second rate and since in segregated neighborhoods under the radar screen of the larger white community. Most of the black communities along the Chitlin Circuit had a central avenue called the "stroll" where most black businesses and venues were located. The "stroll" in LaVilla was West Ashely Street.⁴

"Stroll" in some other cities include Beale Street in Memphis, Indiana Avenue in Indianapolis's Bronzeville, Farish Street in Jackson, Mississippi, and Auburn Avenue, "Sweet Auburn" in Atlanta, Georgia. The "stroll" such as West Ashley Street was lined with bars, restaurants, cafes, barbershops, clothing stores and theaters which attracted large crowds, particularly on Saturday night and the Monday night after Easter. Alex McBride, who performed in clubs in the area, stated "Ashley Street was just like a flower garden, everybody looking the best they could look". During the 1930s and 40s, the "stroll" in LaVilla included such popular clubs and venues as Lenape Tavern, The Top Hat, the Bronx, Emanuel's Tap Room, and the Knights of Pythias. It was during this period that LaVilla, specifically West Ashley Street, acquired such nicknames as the "Little Harlem of the South", "Jacksonville's Harlem", Jacksonville's Answer to Harlem" and the "Great Black Way", a reference to Broadway's the Great White Way. 6

Many of the venues, clubs, hotels, and restaurants associated with the Chitlin Circuit tended to concentrate in the 600 and 700 block of West Ashley Street, "the Stroll" and the blocks of North Broad Street. The north side of the 600 block of West Ashley Street included the Hollywood Music Street that opened in the 1920s by Joe Higdon to promote black music and to bring quality black musicians to LaVilla. In the same building were Adolph's Beauty Products and Florida Cut-Price Pharmacy. Manuel's Taproom at 622-626 West Ashley Street managed by co-owner, Chula Papa Rivera, opened 24 hours for drinks, dining and dancing, and according to *Crisis Magazine*, "the finest of its kind in the South" horseshoe-shaped bar, back room for cards, dice, and slot machines, upstairs Blue Room with stage for performers – live radio broadcast on Station WRHC. attracted a well-dressed crowd in tailored clothing. In the same block as Manuel's Taproom were Hotel Eggmont, Brad's Café, the Artistic Barbershop, the John Betsch Place, Carl, and Daisy Ford's, "Bubber's Coffee Shop."

The popular three-story Richmond Hotel, which attracted many jazz and blues greats during the 1930s including Duke Ellington, Cab Calloway, Ella Fitzgerald, and Billie Holiday, was built in 1909 at 420 North Broad Street, immediately adjacent to the Masonic Temple. In addition to a third floor ball room, a tea room and forty-eight rooms, the first floor housed a variety of businesses over the years such as a candy manufacturer, cigar maker, barber, tailor, insurance company and Vanderhorst, which has been called by one trade journal as "the largest black-

owned shoe store in the Country".⁸ With the decline of LaVilla, the Richmond Hotel closed in 1970 and was used as a furniture showroom and storage facility. In its 1942 edition that focused on Jacksonville, the Crisis Magazine featured the Richmond Hotel as an "outstanding hotel for colored people in Jacksonville'. It was located "close to all principal Negro businesses, theaters, and churches, and less than five minutes' drive from the railroad terminal. Most of its 48 rooms have running water, with many bathrooms adjacent. The Richmond Hotel boasts a quiet, homelike atmosphere. A Tea Room is operated for the convenience of guests." ⁹

Although currently gutted from a failed rehabilitation attempt, Genovar's Hall is one of the most well-known of the Chitlin era hotels. The actual date of construction for Genovar's Hall at 644 West Ashley Street has not been determined. The first definitive listing of Genovar's Hall at the southeast corner of West Ashley Street and North Jefferson Street (Hawk Street) in the city directories was in 1895 which listed Genovar Brothers (grocers) at that location. Harry Finkelstein, who later had his name inscribed on the central dormer of the west elevation facing North Jefferson Street, purchased Genovar's Hall in 1919. Harry Finkelstein, who operated a pawnshop at 633 West Bay Street, apparently rented or leased Genovar's Hall for a variety of commercial and residential uses. Members of the Finkelstein family kept ownership of Genovar's Hall until sold to the City of Jacksonville during the 1990's.

In 1933 or 34, former railroad porter, Jack D. Wynn, opened the Wynn Hotel on the second and third floors with the Lenape Tavern being located on the first floor. According to oral tradition, the Wynn Hotel, which operated under that name until 1941, was a popular lodging spot for some of these early jazz performers playing in LaVilla and the surrounding area. Reportedly, Louis Armstrong, who played at the Knights of Pythias Hall at 733 West Ashley Street, would prefer the Wynn Hotel to other more "upscale establishments" since it was located closer to the street action generated by such nearby entertainment amenities as the Hollywood Music Store, The Top Hat, Manuel's, and the Bronx. ¹⁰

Located in front of Genovar's Hall near the intersection of West Ashley Street and North Jefferson Street were two hitching rails constructed of four-inch galvanized pipes. According to oral tradition, these rails were called the "rails of hope" since many waiters and musicians would hang out in front of these hitching posts waiting for employment offers. One such occupant of the "rails" was a young, blind musician by the name of R. C. Robinson, now professionally known as Ray Charles. Born in 1930 in Albany, Georgia, Ray Charles moved with his family to Greenville, Florida whereby the age of seven he had progressively lost his vision due to glaucoma. In 1937, R.C. Robinson was sent to the Florida School for the Deaf and Blind in St. Augustine, Florida where he attended until the death of his mother in 1945. Fifteen years old at that time, R.C. Robinson moved to Jacksonville to pursue a career as a musician. He lived with family friends at 633 West Church Street directly behind Genovar's Hall, which at that time still

housed the popular Lenape Tavern. While in LaVilla, Robinson hung around the Musician Union office at Clara White where he honed his playing skills and provided the opportunity to back up some of these musicians at local clubs. After playing piano as sideman to several well-known entertainers, R.C. Robinson went on to stardom as Ray Charles.

With the end of state sponsored segregation, many African American residents and businesses left the LaVilla area to seek opportunities in other parts of the city. As a result, the economic and social vitality of LaVilla declined resulting in marginal businesses or empty commercial buildings and a predominance of low-income rental units. Continued lack of investment fostered significant deterioration of LaVilla's building fabric resulting in numerous demolitions. Beginning in the 1990s LaVilla underwent major redevelopment as part of the River City Renaissance Program. The redevelopment took an urban renewal approach resulting in the demolition of nearly all residences and a significant number of commercial buildings to accommodate open space for new construction. The largest project in the redevelopment of LaVilla was the construction of the LaVilla School of the Arts (2000). Using a suburban development model, the school was located on a significant amount of property, which resulted in fracturing the traditional street grid and destroying much of the Ashley Street "Stroll." This significant disruption of the street grid impacted connectivity within LaVilla and reduced its original sense of place.

Except for several landmark structures and a cluster of older commercial buildings along North Broad Street and North Jefferson Street, LaVilla is composed of large vacant parcels and a scattering of new construction, primarily apartments and offices. Significant buildings and sites that remain are spread out and disconnected except for those in the cluster of historic buildings along North Broad Street and North Jefferson Street. The remaining buildings reflect the once vibrant commercial and institutional uses found in this part of the neighborhood.

The Atlanta Life Insurance Company Building took on a new significance with its purchase by Walter Whetstone in 1998. Born in Jacksonville in January of 1937, Walter Whetstone attended Oakland Elementary and Matthew W. Gilbert High School in East Jacksonville. Starting at the age of fourteen he worked as a Western Union bicycle messenger before serving in the U.S. Army at the age of twenty-three. Around this time, Whetstone married Dorothy Jean Thomas in 1959 that continued for 59 years until his death in 2018. After his military service he continued working as a bicycle messenger, as well as part time with the Gulf Life Insurance Company while attending Edward Waters College in the evenings. After graduating from Edward Waters College in 1968, Whetstone began working full time with Gulf Life Insurance Company. During his successful career as an agent with the company, he won numerous awards such as the life membership of the Million Dollar Round Table, a financial professionals' organization and was selected for the Gulf Life Insurance Company Hall of Fame. Walter Whetstone also was involved in community service working with the Boys Scouts of America, 100 Black Men of Jacksonville and the David H. Dwight Young Men Christian Association (YMCA). 11

With the purchase of the Atlanta Life Insurance Building at 821 North Jefferson Street along with the Whetsonian Building at 801 North Jefferson Street he began to turn both buildings into

Page 7

¹¹ Walter Whetstone Obituary, January 7, 1927 – May 4, 2018, Aaron and Burney Funeral Home and Cremation Services (Obituary/Walter -Whetstone/Sympathy – Landing.

the most recognizable landmarks in Downtown Jacksonville. Charlie Whetstone, his father, drove an ice truck and began to pick up a variety of things thrown out by others. Walter continued this tradition but added antiques, artifacts and art obtained from thrift stores, antique stores, garage sales and estate sales. Each item was selectively displayed on the interior and exterior of the building creating an eclectic collection that turned the building into a single work of folk art. Known for his kindness and gracefulness, Whetstone was quick to invite curious visitors attracted to the two buildings to come in and review the collection in more detail. He also stated that if James Smithson could have his collection at the Smithsonian Institute, then he could display his at the Whetstonian.¹²

The building and its eccentric collection drew the attention of Mike Wolfe and Frank Fritz who visited the Whetsonian as part of their show, "American Pickers". Wolfe aptly described Whetstone on his show, "You can tell that Walter has the eye of an artist". "The way he's placed them almost transcends them into art. What Walter did was genius. He surrounded himself with his collection but did it in a way for others to enjoy it too" (Strickland). As a folk artist Whetstone is part of tradition of "outsider artist" with no formal art education or training who produce works for the sake of expressing their creativity rather than necessarily for money or fame. Both the Alanta Life Insurance Company building and the Whetsonian have been collectively described as a "masterpiece of outsider art" (Gilmore). 13

Whetstone's collection space also included the old Atlanta Life Insurance Company building next door at the southeast corner of North Jefferson Street and West State Street. Also purchased by Whetstone in 1998 the Mid-Modern style building was constructed by W.G. Lumpkin, Jr. in 1965 from a design by Jacksonville architect, Emilio Zeller III. ¹⁴ Originating from the Atlanta Benevolent and Protective Association formed in 1905, the Atlanta Life Insurance Company was founded in 1922 by former slave, Alonzo Herndon, who became Atlanta's most wealthy African American. ¹⁵ As part of their expansion into other states, the Atlanta Life Insurance Company acquired Jacksonville based, Afro-American Life Insurance Company in the 1990s.

B Its location is the site of a significant local, state or national event.

It is the determination of the Jacksonville Planning and Development Department that the subject property at 821 North Jefferson Street, the Atlanta Life Insurance Company Building does not meet this landmark criterion.

C It is identified with a person or persons who significantly contributed to the development of the City, state or nation.

It is the determination of the Jacksonville Planning and Development Department that the subject property at 821 North Jefferson Street, the Atlanta Life Insurance Company Building does not meet this landmark criterion.

D It is identified as the work of a master builder, designer, or architect whose individual work has influenced the development of the City, state or nation.

The Atlanta Life Insurance Company was designed by well-respected Jacksonville architect, Emilio Zeller III who was member of a new generation of young architects that began their practice in Jacksonville during the 1950s and 1960s. Some of the members of this new generation included Robert Boardman, Robert Broward, Harry Burns, Lamar Drake, Tom Ewart, George R. Fisher, W. Stanley Gordon, J. Brooks Hass, Fred Irish, William Marshall, James Meechan, William Morgan, and Willis Stephens. Exposed to newer architectural influences and thought, many of these younger architects focused on Mid-Modern designs as exemplified with the Atlanta Life Insurance Company. A native of Santiago, Dominican Republic, Zeller came to Jacksonville with his family in 1941. He graduated from Landon High School in 1952. In 1957, he graduated from the Georgia Institute of Technology with a Bachelor of Science and Bachelor of Architecture focusing on structural design. Returning to Jacksonville in 1962, Zeller formed his own company that operated until 1988. His company has been credited with the design of over five hundred properties that included office buildings, apartment complexes, schools, and single-family homes. Zeller was active professionally serving as a director on the Jacksonville Chapter of the Florida Planning and Zoning Association, as well as serving as president of the Jacksonville Chapter of the American Institute of Architects in 1986 and becoming a director in the state chapter in 1988. He was also active in the community serving as a volunteer for over thirty-one years with the Salvation Army. Zeller was recognized as a Life Member by the organization's board and territorial commander. He served for twenty-four years as a member of the Jacksonville Housing Authority. 16

E Its value as a building is recognized for the quality of its architecture, and it retains sufficient elements showing its architectural significance.

It is the determination of the Jacksonville Planning and Development Department that the subject property at 821 North Jefferson Street, the Atlanta Life Insurance Company Building does not meet this landmark criterion.

¹⁶ Resident News, February, 2022, p. 3.

F It has distinguishing characteristics of an architectural style valuable for the study of a period, method of construction, or use of indigenous materials.

It is the determination of the Jacksonville Planning and Development Department that the subject property at 821 North Jefferson Street, the Atlanta Life Insurance Company Building does not meet this landmark criterion.

G. Its suitability for preservation or restoration.

In utilizing this criterion, it has been the practice of the Planning and Development Department to evaluate proposed landmarks based on evidence of significant exterior alterations that have negatively impacted character-defining features, as well as represent alterations difficult, costly, or impossible to reverse. Further, the degree and nature of any exterior deterioration, as well as the evidence of long term and potentially on-going neglect are also a factor in evaluating potential landmarks for their suitability for preservation or restoration.

Both the Whetstonian Building and the Old Atlanta Life Insurance Company have been altered in different ways, usually for displaying the collection or for security reasons. However, the significance of both buildings has grown beyond its architecture but now how they function as a single work of folk art. Therefore, its preservation has been focused on preserving the buildings themselves but also to incorporate the collection into future reuse and rehabilitation plans. According to current plans, the first floor of the Whetstonian Building will house a food court providing affordable dining with the second being used for public gatherings and meetings. The third floor will be a rooftop cigar lounge that will feature vintage whisky, spirits, beer, and wine along with a humidor to display prime cigars. The Old Atlanta Life Insurance Company building will house an administrative office and a small museum. The Whetstone's collection will be inventoried and displayed on walls and in the small museum or appropriately stored as needed.

RECOMMENDATION

Since an agent of the property owner is the sponsor of the designation, at least two of the seven criteria must be met. In reviewing the application, the Planning and Development Department has found the application to meet two of the seven criteria. Based on the findings of this report, the Jacksonville Planning and Development Department recommends that the Jacksonville Historic Preservation Commission <u>APPROVE</u> the designation of 821 North Jefferson Street, the Atlanta Life Insurance Company Building, (LM-24-05) as a City of Jacksonville Landmark.

Business Summan

Project Description

Situated on half a city block (in Downtown Jacksonville, Florida) that includes:

- a 1927 two-story brick commercial structure
- a 1965 life insurance building and
- Numerous unique artifacts (old restaurant signs, a Harriet Tubman bust, fluegel horns and trumpets and trombones and piano innards, blackface statuettes and portraits of black Jesus, carousel horses, mannequin parts, tall tin plates emblazoned with architectural slogans by Mies van der Rohe and Frank Lloyd Wright, and human-faced suns in factory cogs).

Located in what was once a thriving black neighborhood just west of downtown, the densely and most vibrant district in Jacksonville's history, LaVilla was largely destroyed during Austin's "urban renewal." Among the remains of LaVilla stands the old Brewster Hospital, three shotgun shacks, the Ritz Theatre and Museum, the Clara White Mission and The Whetstonian.

The two-story red brick building located at 801 Jefferson St. once the Stardust Club attracted numerous jazz and blues musicians played there from 1930s to the 1950s during the days when LaVilla was an entertainment hot spot. Performers such as Jelly Roll Morton and Blind Blake played at the Stardust.

The History Channel's "American Pickers" show came calling for an episode that aired in 2018 and in subsequent reruns.

The one-story building located at 821 Jefferson St. once the administrative office of Atlanta Life Insurance Company. Founded in 1905 by Alonzo Herndon, a prosperous Black barber and entrepreneur who rose from enslavement to become by 1927 the wealthiest African American in Atlanta.

We plan to completely renovation these two Historical Commercial Buildings located off North Jefferson Street in Downtown Jacksonville.

The site will be customized to suite our needs including: size, parking access, traffic patterns, ingress/egress, and signal access. We plan to have great curb appeal and be easy to find along our customers typical routes.

When people notice our location, they will get curious about it and plan to visit. In fact, the curiosity factor will be one of our biggest draws.

4. TATEMENT OF SIGNIFICANCE	
The following is a list of the cultural, historical, architects applicable local designation criteria outlined in section 3	ural, or archaeological significance with reference to all 07.104(f), of the Jacksonville Ordinance Code.
Mark "x" in any applicable boxes for the criteria to qualithow it is applicable. If more space is needed please use a landmark on each sheet.	fy for a landmark, using the space to the right to specify a continuation sheet and write the name of the potential
X Its value as a significant reminder of the cultural, historical, architectural, or archaeological heritage of the city, state, or nation	The building represents one of the few remaining buildings in the historic African American neighborhood of LaVilla
X tts location is the site of a significant local, state, or national event.	The building in the historic downtown neighborhood LaVilla.
X_ it is identified with a person or persons who significantly contributed to the development of the city, state, or nation.	Ray Charles was known to frequent the site when it was the Stardust Lounge. Atlanta Life Insurance Company, founded by former slave Alonzo Franklin Herndon, Walter Whetstone African American employee for Western Union
It is identified as the work of a master builder, designer, or architect, whose individual work has influenced the development of the city, state, or nation.	
Its value as a building is recognized for the quality of its architecture, and it retains sufficient elements showing its architectural significance.	
X It has distinguishing characteristics of an architectural style valuable for the study of a period, method of construction, or use of indigenous materials	The building is one few building of the 1900s exhibiting masonry and mix use of commercial and residential. It is reminder of the once historic neighborhood and entertainment center for African Americans.
X Its suitability for preservation of restoration	

Open Space

JTA partnered with the Downtown Investment Authority to create the LaVilla Development Strategy, a plan that includes creating a park. Jones Worley Design, a national experiential design firm, was hired to document and illustrate the Jacksonville regional transportation story through the lens of the LaVilla labors, residents and families who helped build the transportation network. The Lift Ev'ry Voice and Sing Park will commemorate James Weldon Johnson's contributions to the nation, inviting people to honor Jacksonville native. The park located at 100 Lee Street will be linked to 15 other historic neighborhoods and Downtown via the Emerald Trail.

PROPOSED ADAPTVE REUSE OF BOTH BUILDINGS

The Whetstonian Building

Walter Whetstone's saving of the building and conversion into a museum with collections from the LaVilla community during gentrification, musical instruments, wagon wheels, mosaic tile, old lamps, old safe, etc., and indoor memorabilia has become a local landmark in LaVilla and downtown Jacksonville.

The proposal to renovate the Whetstonian into a place that captures the historical significance of LaVilla's cultural history. The proposal would be to convert the downstairs into a food court, the upstairs into a meeting room and a rooftop cigar bar.

Proposed organizational structure for this plan is—

- 1. Register Business as-Whetstonian LaVilla Renaissance LLC
- 2. Potential Funding source for the business
 - a. SBA Loan (7) this most common loan program, includes financial help for small businesses with special requirements. This is the best option when real estate is part of a business purchase. The maximum loan amount for a 7(a) loan is \$5 million. Key eligibility factors are based on what the business does to receive its income.
 - Loan submission through conventional lender or lenders such as Congent Bank, Lendio, SmartBiz
 - ii. Secure 5-year retail lease agreements from potential restauranters, cigar bar owners. The price per square foot after renovation is approximately \$150 with a potential increase in property value at \$300 per square foot within the next 5 years.
 - iii. The Downtown Investment Authority—The intent of the Downtown Preservation and Revitalization Program

(the "DPRP") is to foster the preservation and revitalization of unoccupied, underutilized, and/or deteriorating historic, and qualified non-historic, buildings located in downtown Jacksonville. This program is designed to serve historic projects applying for more than \$100,000, and non-historic code compliance projects.

The Atlanta Life Insurance Building

The historical significance of what was once the Atlanta Life Insurance Building is its relationship to Alonzo Franklin Herndon who founded the company in 1905. Herndon became the wealthiest black man during his time in the country. The insurance company expanded from Georgia to Florida, Kentucky, Missouri, Tennessee, and Texas. Salesman sold the low-cost insurance door-to-door.

Tim Gilmore is an author and professor at Florida State Community College and the founder of Jax PSYCHEO, an online collection of stories about Jacksonville. His interview of Walter Whetstone in October 2012 and Dorothy Whetstone's memories of her husband explains why the site 801 Jefferson Street should be preserved. Walter Whetstone had no formal training as an artist but a walk through on how he arranged items he collected and his work with copper and iron pieces truly makes him an artist.

The proposal to create a museum is two-fold. A museum that would capture the life story of Walter Whetstone as historically significant contributor to history of LaVilla and Jacksonville community. Two, preserve his unique collection of folk art, vintage items such as glass and lamps, comic books, wagon wheels, metal art pieces, etc. According to Dorothy Whetstone his vision was a place where people could gather to drink coffee and engage in conversation. the work and archive the items Walter Whetstone collected by creating a museum.

The proposed organizational structure for this plan-

- 1. Register business as—Whetstonian LaVilla Cultural Arts Museum
- 2. Tax-Exempt 501 (c) 3 organization with Internal Revenue Service
- 3. Funding Sources for the museum local and private foundations as well as local businesses.

The Smithsonian's founding donor, James Smithson never visited the U.S. He did manage to a mass a fortune, and he left it all to his nephew, Henry Hungerford, with one caveat: If his nephew died childless (Which he did in 1835, six years After Smithson's own death). The money would go "to the United States to found at Washington, under the Name the Smithsonian Institution. It was his way of establishing his own legacy.

OVERALL RECOMMENDATION

The City of Jacksonville's Strategic Plan to revitalize and develop downtown communities, particularly LaVilla is currently being implemented, attracting outside investors capitalizing on the history of LaVilla to secure tax credits from the Downtown Investment Authority.

Strongly recommend both buildings be designated as local historical landmarks. This will assist and/or aid in securing funding for both plans. Based on my research, Walter Whetstone's wife and children would be the only owners to renovate and propose a adaptive reuse of both buildings. This is significant sense investors looking to invest in LaVilla have no vested interest in the community other than profit.

The rationale for seeking funding from the SBA is unlike private investors. The SBA funded by the government has a vested interest in helping the business succeed and the means to assist the business to withstand economic impacts. Private investors invest in businesses and/or initiatives to make a profit and maybe limited in their ability to assist if the organization is impacted by the economy.

If both plans are accepted, I can assist with the organizational development of both the establishment of the LLC and submitting required applications for the nonprofit. Will also provide nonprofit (museum) with ideas and recommendations based on your vision with potential programs to apply for funding opportunities.

Business Plan

A Business Plan is a formal written document containing the goals of a business, the methods for attaining those goals, and the time-frame for achievement of those goals. In its entirety, this document serves as a road-map (a Plan) that provides direction to the business.

Written business plans are often required to obtain a bank loan or other kinds of financing.

This Business Plan is designed for use, by THE WHETSTONIAN at LaVilla, LLC.

Assumptions

This development will include:

- · Completely renovate Building #1 (80) Jefferson Street)
- · Rehabilitate Building #2 (821 Jefferson Street)
- · Completely restore the Parking and Landscaping (around both buildings)
- · Enhance the outside lighting and signage (around both buildings)
- Sidewalk and Street Enhancements (around both buildings)

The estimated development Cost:

See Estimated Project Costs Schedule \$ 3,242,500

The anticipated Source of Funding:

•	Capital Investment (Land & Buildings)	500,000
	Economic Incentives - COJ	2,600,000
	Economic Incentives – State of Florida	125,000
	Addition Capital Infusion	17,500
	commissions ambinance assembles.	\$3,242,500

After Development:

- · Five (5) -1,750 sq. ft. Units in the Food Court Location
- · 2,200 sq. ft. Roof Top Cigar Bar
- · 2,200 sq. ft. Event Center
- Heritage Museum and Book Store
- Customized Court Yard

The Buildings and Grounds will be leased to a select group of Tenants and will also be used for the Administrative Office for The Whetstonian at LaVilla, LLC.

The development will include:

Restoration of Building #1 (2 story 4,700 sq. ft. Building)

On the 1st floor of what use to be called "The Stardust Lounge", at one time there was a poolroom, a commercial kitchen, a Bar, with space for a restaurant, Ray Charles was a frequent visitor. This area will be converted to:

• The 1st floor - will be a Food Court designed for fast casual dinning.

Food courts offer a choose-your-own-adventure selection and convenience at moderate prices. They also provide ample space and easy access to a lively, busting atmosphere and a quick bite.

• The 2nd floor - will be an Event Center - featuring Lighted Poles and Security Cameras
Will be used for the purpose public gatherings -

Entertainment and Personal Events VenuesSporting events, private receptions or parties.

Wedding Venues according to trade publications in the US the number of weddings is falling, but the spending per wedding is increasing, which is good for wedding venues and suppliers.

Business Venues is a vast industry that spans exhibitions, conferences, political meetings, corporate hospitality and meetings.

• The 3rd floor - a Roof Top Cigar Lounge

The cigar lounge will be a place where patrons can kick back and smoke cigars – with other cigar lovers.

Stepping into the Whetstonian at LaVilla cigar lounge will be like walking back in time.

You'll find a deep menu of vintage whiskey, spirits, beer and wine, and of course a humidor stocked to the ceiling with premium handmade you can smoke on the premise. The lounge will be fully furnished, lavishly so, and offer freedom of cigar smoking to every single one of our visitors.

Restoration of Building #2 (3,700 sq. ft. Building)

Formally used by The Atlanta Life Insurance Company as the administrative office. This building will be converted to a small museum.

African American Heritage Museum and Book Store

Will be a place where visitors can learn about the rich and diverse experience of being a person of African American descent in Northeast Florida, and how our black ancestors' lives help shape the history of Florida. The Museum will seek to educate people of all races to value the countless contributions of black Americans to the United States.

Economic Impact

A 2012 study by Civic Economic, a company that analyzes the impact of buying local; has found that local businesses are known to have a "multiplier effect" on their communities — the idea that every dollar spent at a local, independently owned business can stay in the community and generate a far greater economic value.

Small businesses contribute to local economies by bringing growth and innovations to the community in which the business is established. Small businesses also help stimulate economic growth by providing employment opportunities to people who may not be employable by larger corporations.

In addition to improving the community landscape it is anticipated that **the project will create 12 new iobs** for persons of the community.

12 new jobs

Entity	# of Positions	Position Description

Marketing Plan

Advertising is defined as:

- The art or the practice of calling public attention to one's product, service, need, etc.
- Is a means of communication with the users of a product or service.

The role of marketing in any venture cannot be over looked because it is very essential.

The management team, has designed a unique and creative plan to address the advertising needs of this new location, "a Lighted Message Area" wrapped around the roof of the building.

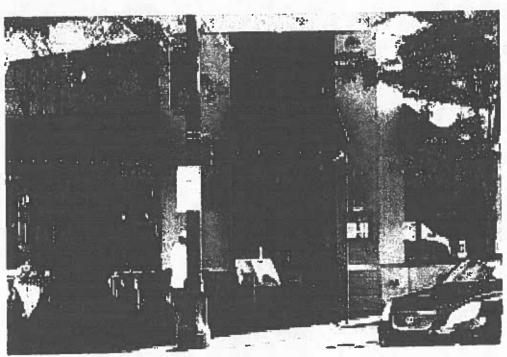

In addition to the large freestanding Pole sign, the new building is designed to have a "Message Lighted Area" under the entire roof of the building.

The "Lighted Message Area" is designed to draw public/customers attention to the Venue.

LED signs have been used by different companies in a variety of industries to attract customers and strengthen their brand. The truth is, you can offer the best services in the world, but if you don't know how to advertise effectively, you will not be able to compete in today's aggressive market.

LED signs are one of the easiest ways to advertise. When put in a high traffic, high exposure areas, an outdoor LED sign is proven to have the highest marketing Return on Investment. LED signs are proven to increase your store's visibility by 900%.

Covenant Roofing and Construction

4590 CR 218

Middleburg, Florida 32068

<u>Year Built</u>: 1925 (Property Appraiser)

<u>Designation</u>: Riverside/Avondale (Contributing)

Request: Alteration – Roof Replacement

Summary Scope of Work:

1. Replacement of shingled roof with a standing seam metal roof

Recommendation: Deny

PROJECT DESCRIPTION

COA-24-31013 seeks to replace a shingled roof with a new metal roof on a contributing single-family home in the Riverside/Avondale District. Built in 1925, the structure is a single story, bungalow style home and is characterized by its lateral gable roof, an open porch under a cross gable and four-over-one windows. The current roof utilizes composition shingles. The proposed scope of work seeks to reroof the structure utilizing Ash Gray, GulfRib 26ga panels, a kind of standing seam metal roof.

STAFF SUMMARY AND ANALYSIS

Staff considered the applicable Design Guidelines for the Riverside Avondale Historic District and the Ordinance Code criteria found in Sections 307.106(k) and 307.106(l). The following is Staff's analysis:

- Metal roofs on contributing structures are rare in the Riverside/Avondale district and as such are given a high level of scrutiny by Staff during review due to the texture, color, material, and impact the replacement product will have on the structure's architectural and historical significance. Per the Florida Master Site File for this property, this structure has no record of a metal roof. That fact combined with the emphasis placed on the roof as a character-defining feature has led staff to find that the installation of a new metal roof would be inconsistent with Sections 307.106(k)(1,2, and 3) and 307.106(l)(2, and 3).
- 307.106(I)(6) states that deteriorated architectural features shall be repaired rather than replaced, wherever possible. If replacement is deemed a necessity, the new material shall match the material being replaced in composition, design, color, texture, and other visual qualities. The proposed material would not be following these guidelines since the intent is to remove the existing composite shingle roof and replace it with a new standing seam metal roof. This would change the visual qualities of the current roof. Therefore, this scope of work is inconsistent with Standard 6. 307.106(I)(6).
- Based on the Design Guidelines for the district, bungalow style homes in the Riverside/Avondale historic district should utilize some form of shingles, such as composition shingles. As such, the installation of a metal roof would be inconsistent with the design guidelines for the Riverside/Avondale District.

CODE CRITERIA AND DESIGN GUIDELINES

General Criteria

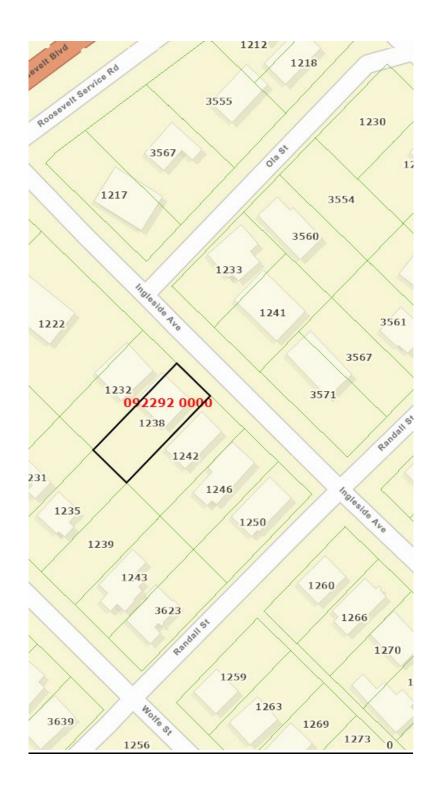

- 307.106(k)(1) The effect of the proposed work on the landmark, landmark site or property within an historic district upon which such work is to be done;
- 307.106(k)(2) The relationship between such work and other structures on the landmark site or other property in the historic district;
- 307.106(k)(3) The extent to which the historic, architectural, or archaeological significance, architectural style, design, arrangement, texture and materials of the landmark or the property will be affected;

Alterations

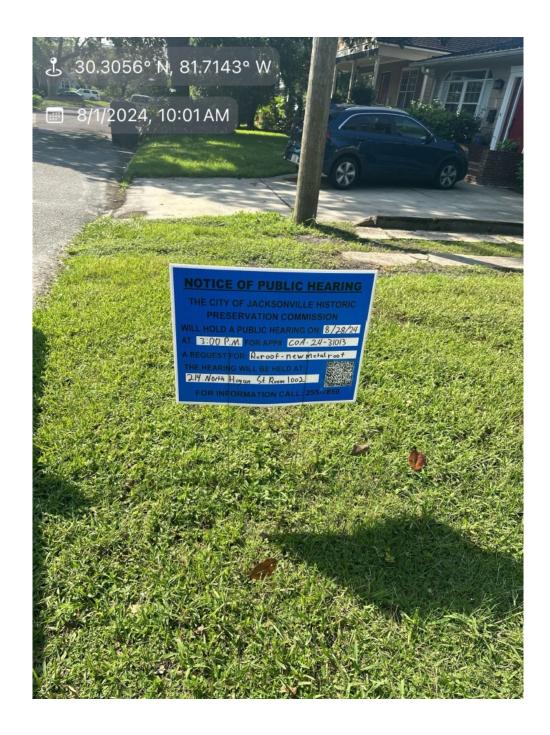

- 307.106(I)(2) The distinguishing original qualities or character of a building, structure, or site shall not be destroyed. The removal or alteration of any historic material or distinctive architectural features shall be avoided when possible.
- 307.106(I)(3) Each building, structure, and site shall be recognized as a product of its own time. An alteration which has no historical basis and which seeks to create an earlier appearance shall be discouraged.
- 307.106(l)(6) Deteriorated architectural features shall be repaired rather than replaced, wherever possible. In the event replacement is necessary, the new material shall match the

material being replaced in composition, design, color, texture, and other visual qualities. However, technologically advanced materials shall be considered and used as replacement alternatives. Repair or replacement of missing architectural features shall be based on accurate duplications of features, substantiated by historical, physical, or pictorial evidence rather than on conjectural designs or the availability of different architectural elements from other buildings or structures.

JACKSONVILLE HISTORIC PRESERVATION COMMISSION

REHAB-24-01 101 1st Street West

Planning and Development Department

Ed Ball Building 214 North Hogan Street, Suite 300 Jacksonville, FL 32202

MEMORANDUM

TO: Chairperson and Members

Jacksonville Historic Preservation Commission

FROM: Arimus Wells, City Planner Supervisor

Community Planning Division / Historic Preservation Section

RE: Critical Endangerment Review – REHAB-24-01 (101 1st Street West)

DATE: August 28, 2024

On February 1, 2024, the Planning and Development Department announced the application release of the Restore Endangered Historic Adaptable Buildings (REHAB) Special Revenue Fund. This is a reimbursement grant intended to provide an additional incentive to the owners of historic commercial buildings to rehabilitate and restore them to productive use rather than demolish them because of the cost of rehabilitation. The program guidelines adopted by Ordinance 2023-316 limit grant awards to \$100,000 for eligible costs. In order to qualify for a grant, the building in question must meet the following criteria:

- The building must be at least 50 years old; and
- The building must be income-producing, mixed-use, or owned by a not-for-profit corporation; and
- The building must be located throughout Jacksonville, excluding the Downtown Area as defined in Sec. 55.105, Ordinance Code; and
- The building must be architecturally or historically significant; and
- The building must be: a) a designated local landmark, or b) a contributing structure to a designated local historic district; or c) declared a potential local landmark, with final local landmark approved by the City Council prior to final approval of the grant.

Staff has reviewed application **REHAB-24-01** for sufficiency and found it meets the aforementioned criteria. As such, the application progresses to the next phase, which requires the property owner to have their building declared as critically endangered by the Historic Preservation Commission.

If the Commission declares the building as critically endangered, the application may proceed to the financial review phase. If the Commission denies the application, the property owner is no longer eligible for the current REHAB grant cycle. A denial does not preclude the property owner from applying for future REHAB grant cycles.

GENERAL INFORMATION:

Constructed in 1921, 101 West 1st Street is a two-story nonresidential building with Neo-Classical Revival style influences. The structure can be characterized by its T-shaped plan, two-story portico, doric columns, cast stone balustrades, masonry parapets, decorative dentils, frieze and rosette pattern, multi-paned windows, flat roof, and cast stone exterior. The building originally housed the 1st Church of Christ Science organization but was later renovated into the Karpeles Manuscript Library Museum. The museum (1992-2023) was originally one of the 15 Karpeles facilities around the country to display founder David Karpeles' private collections of historic documents and manuscripts.

The applicant is seeking REHAB grant funding in order to perform roof repairs, window restoration, and miscellaneous structural repairs to the building. The applicant's scope of work is captured under COA-24-31025 and has been deemed eligible for administrative approval.

STANDARDS, CRITERIA AND FINDINGS:

Pursuant to the provisions of Section 111.909 of the Ordinance Code, the Planning and Development Department and the Historic Preservation Commission shall evaluate and consider whether to declare a building as critically endangered based on the following criteria:

A. Evidence of physical threat of loss, damage, or neglect.

Buildings can be endangered due to a physical threat of loss or damage, or loss of the integrity of the surrounding area that impacts the view or appreciation of its context. When evaluating this criterion, Staff considered various possible claims of evidence such as any visible signs of significant deterioration or neglect, whether the building has been cited for building code violations, or whether routine maintenance has been performed on the building. According to the applicant, the building is exhibiting the following signs of distress:

- Portions of the roof and second floor have extensive deterioration from water infiltration; this has led to plaster damage and flooding in the basement
- The windows on the structure are either functionally obsolete or damaged.

B. If the building is currently vacant.

According to the applicant the subject building is currently vacant due to structural issues and deferred maintenance.

C. The building's susceptibility to development or natural disasters.

Staff finds the building likely to incur significant damage from a natural disaster due to the critically impaired roof system on the sanctuary and associated structural damages. The building is also approximately 150 feet from Hogans Creek, which is prone to flooding. Furthermore, the subject property is located within the AE flood zone. Flood zone designations are assigned by the Federal Emergency Management Agency (FEMA). FEMA defines the various flooding characteristics of different lands based on a 100-year storm. The 100-year storm or Special Flood Hazard Area (SFHA) refers to a flood occurring from a storm event that happens an average of every 100 years. This does not mean that a storm of this type will happen every 100-years. There is a 1-percent chance that a storm of this magnitude will occur in any given year. The AE flood zone is defined as areas within the 100-year floodplain or SFHA where flood insurance is mandatory. Based on these findings, Staff renders the building susceptible to damage during rain events or storms.

D. The building's suitability for preservation or restoration.

In utilizing this criterion, it has been the practice of the Planning and Development Department to evaluate proposed critically endangered buildings based on evidence of significant exterior alterations that have negatively impacted character-defining features, as well as alterations deemed difficult, costly, or impossible to reverse. Further, the degree and nature of any exterior deterioration, as well as the evidence of long-term and potentially ongoing neglect is also a factor in evaluating potentially critically endangered buildings for their suitability for preservation or restoration. Not having any evidence of significant exterior deterioration, the structure has been well maintained over the years. According to archival records and permitting, the structure

does not show any evidence of being significantly altered, thereby retaining its historical integrity and fabric.

E. Any other criteria the JHPC considers relevant.

The primary intent of this criterion is to allow the Historic Preservation Commission the opportunity to offer additional insight and evidence that may be useful in determining whether the affected building should be declared as critically endangered.

RECOMMENDATION:

Based on the foregoing, it is the recommendation of the Planning and Development Department that the building associated with Grant Application for REHAB Special Revenue Fund **REHAB-24-01** be **APPROVED** for Critical Endangerment.

Critically Endangered Criteria

Ordinance 2023-0316, provides that, with respect to action upon the REHAB Special Revenue Fund Grant Application, the Historic Preservation Commission shall first determine whether, based upon the best available evidence, the property does or does not meet the criteria for critical endangerment. Such a determination shall be made by a vote of the Commission and shall be accompanied by a report stating the findings of the Commission concerning the relationship between the property and the criteria for potential designation set forth below. As such, the Commission shall consider the following criteria:

- (1) Evidence of a physical threat of loss, damage, or neglect.
- (2) If the building is currently vacant.
- (3) The building's susceptibility to development pressures or natural disasters.
- (4) The building's suitability for preservation or rehabilitation.
- (5) Any other criteria the JHPC may consider relevant.

Statement of Endangerment

17. Given the aforementioned criteria by which the grant application will be reviewed, please describe how the building does or does not meet the criteria for critical endangerment. Provide as much information as you can. You may also attach a separate sheet, if necessary.

,	
(1) Evidence of a physical threat of loss, damage, or neglect.	Prevous owner did not invest into building up keep for 30+ years. Roof, basement flooding, plaster damage, and historic window damage was imminent.
(2) If the building is currently vacant.	Yes
(3) The building's susceptibility to development pressures or natural disasters.	Historic windows leak with minor rain, plaster Pall out in the last year, busement flooding, roof replacement necessary
(4) The building's suitability for preservation or rehabilitation.	Building bones are in good Shape, need to make improvements and upkeep that were neglected by previous owner.
(5) Any other criteria the JHPC may consider relevant.	Josh (current owner) has a home in Springfield and is passion ate about making it the best neighborhood in Urban Jax. We are working with local rendors and lept on local springfield employees.

MEMORANDUM

TO: Chairperson and Members

Jacksonville Historic Preservation Commission

FROM: Arimus Wells, City Planner Supervisor

Community Planning Division / Historic Preservation Section

RE: Critical Endangerment Review – REHAB-24-04 (723 4th Street West)

DATE: August 28, 2024

On February 1, 2024, the Planning and Development Department announced the application release of the Restore Endangered Historic Adaptable Buildings (REHAB) Special Revenue Fund. This is a reimbursement grant intended to provide an additional incentive to the owners of historic commercial buildings to rehabilitate and restore them to productive use rather than demolish them because of the cost of rehabilitation. The program guidelines adopted by Ordinance 2023-316 limit grant awards to \$100,000 for eligible costs. In order to qualify for a grant, the building in question must meet the following criteria:

- The building must be at least 50 years old; and
- The building must be income-producing, mixed-use, or owned by a not-for-profit corporation; and
- The building must be located throughout Jacksonville, excluding the Downtown Area as defined in Sec. 55.105, Ordinance Code; and
- The building must be architecturally or historically significant; and
- The building must be: a) a designated local landmark, or b) a contributing structure to a designated local historic district; or c) declared a potential local landmark, with final local landmark approved by the City Council prior to final approval of the grant.

Staff has reviewed application **REHAB-24-04** for sufficiency and found it meets the aforementioned criteria. As such, the application progresses to the next phase, which requires the property owner to have their building declared as critically endangered by the Historic Preservation Commission.

If the Commission declares the building as critically endangered, the application may proceed to the financial review phase. If the Commission denies the application, the property owner is no longer eligible for the current REHAB grant cycle. A denial does not preclude the property owner from applying for future REHAB grant cycles.

GENERAL INFORMATION:

Constructed in 1911, El-Beth-El Divine Holiness Church (formerly West 4th Street Church of God) is a one-story institutional building with Masonry Vernacular style influences. The structure can be characterized by its rectangular-shaped plan, rusticated concrete block exterior, front-facing gable roof covered with tin v-crimp panels behind a raised parapet, and small square tower. The church is known as one of the few remaining religious buildings directly associated with the old Hansontown community—which was significantly erased by urban renewal and replaced by institutional and governmental uses.

The applicant is seeking REHAB grant funding in order to perform roof repairs, replace the doors, and miscellaneous structural repairs to the building. The applicant's scope of work is captured under COA-24-31032 and has been deemed eligible for administrative approval.

STANDARDS, CRITERIA AND FINDINGS:

Pursuant to the provisions of Section 111.909 of the Ordinance Code, the Planning and Development Department and the Historic Preservation Commission shall evaluate and consider whether to declare a building as critically endangered based on the following criteria:

A. Evidence of physical threat of loss, damage, or neglect.

Buildings can be endangered due to a physical threat of loss or damage, or loss of the integrity of the surrounding area that impacts the view or appreciation of its context. When evaluating this criterion, Staff considered various possible claims of evidence such as any visible signs of significant deterioration or neglect, whether the building has been cited for building code violations, or whether routine maintenance has been performed on the building. According to the applicant, the sanctuary is exhibiting the following signs of distress:

 Portions of the roof and second floor have structural deficiencies and extensive deterioration from water infiltration; this has led to damage to the plaster walls and acoustic ceiling tiles.

B. If the building is currently vacant.

According to the applicant and supplementary property records, the subject building is currently occupied and is being used as a place of worship by church members.

C. The building's susceptibility to development or natural disasters.

Staff finds the building likely to incur significant damage from a natural disaster due to the critically impaired roof system on the sanctuary and associated structural damages. As such, this renders the building susceptible to damage during rain events or storms.

D. The building's suitability for preservation or restoration.

In utilizing this criterion, it has been the practice of the Planning and Development Department to evaluate proposed critically endangered buildings based on evidence of significant exterior alterations that have negatively impacted character-defining features, as well as alterations deemed difficult, costly, or impossible to reverse. Further, the degree and nature of any exterior deterioration, as well as the evidence of long-term and potentially ongoing neglect is also a factor in evaluating potentially critically endangered buildings for their suitability for preservation or restoration. Not having any evidence of significant exterior deterioration, the structure has been reasonably maintained over the years. According to archival records and permitting, the most significant alterations to the original design are the enclosing of back windows, and the replacement of the original wooden sashes with more contemporary aluminum windows. A few of the original wooden sashes, some with decorative art glass, are still evident. Most of the original interior finishes such as the wood flooring

and bead board ceiling are still present but covered by more contemporary materials such as carpet and acoustic tiles. Although occupied as a church since constructed, the building does not appear to have had any significant mechanical upgrades.

E. Any other criteria the JHPC considers relevant.

The primary intent of this criterion is to allow the Historic Preservation Commission the opportunity to offer additional insight and evidence that may be useful in determining whether the affected building should be declared as critically endangered.

RECOMMENDATION:

Based on the foregoing, it is the recommendation of the Planning and Development Department that the building associated with Grant Application for REHAB Special Revenue Fund **REHAB-24-04** be **APPROVED** for Critical Endangerment.

Critically Endangered Criteria

Ordinance 2023-0316, provides that, with respect to action upon the REHAB Special Revenue Fund Grant Application, the Historic Preservation Commission shall first determine whether, based upon the best available evidence, the property does or does not meet the criteria for critical endangerment. Such a determination shall be made by a vote of the Commission and shall be accompanied by a report stating the findings of the Commission concerning the relationship between the property and the criteria for potential designation set forth below. As such, the Commission shall consider the following criteria:

- (1) Evidence of a physical threat of loss, damage, or neglect.
- (2) If the building is currently vacant.
- (3) The building's susceptibility to development pressures or natural disasters.
- (4) The building's suitability for preservation or rehabilitation.
- (5) Any other criteria the JHPC may consider relevant.

Statement of Endangerment 17. Given the aforementioned criteria by which the grant application will be reviewed, please describe how the building does or does not meet the criteria for critical endangerment. Provide as much information as you can. You may also attach a separate sheet, if necessary. Over time, the church has had numerous repairs which have altered the (1) Evidence of a physical threat of original architecture. There is also evidence of significant roof deterioration that has allowed water to penetrate inside causing damage to the plaster loss, damage, or neglect. and acoustic ceiling tiles. The church initially had an abundance of stained and art glass that has over time been removed due to deterioration of the sashes. Roof leaks have led to the acoustic tiles on the ceiling falling off revealing the original wooden bead board finish on the ceiling. There is evidence of extensive water damage at the southeast corner of the sanctuary where the original plaster has dropped from the wood lathe. N/A (2) If the building is currently vacant. The building is susceptible to development pressures to (3) The building's susceptibility to acquire and demolish the sanctuary in order to build development pressures or natural exorbitantly unfordable rental properties on the land it disasters. stands. The church is suitable for preservation and rehabilitation because it is valuable as a significant reminder of the cultural, historical, architectural (4) The building's suitability for heritage African American residents in the City of Jacksonville. It is one of preservation or rehabilitation. the few remaining religious buildings directly associated with the Old Hanstown Community. For almost 100 years, Hanstown and Sugar Hill were vibrant African American Communities with numerous organizations and groups established to meet the social, cultural and spiritual needs of tits residents. Research indicates that oral sources reported that the this rusticated block building was constructed by members who were responsible for mixing and casting the concrete blocks on site. In 2003, the Planning and Development Department (5) Any other criteria the JHPC may determined that this church located at 723 West Street consider relevant. "is sufficiently sound, and has enough of its original interior and exterior fabric to make proper rehabilitation a feasible option".

Required Attachments (see Ordinance 2023-316 and its associated Guidelines for details)
The following attachments must be included with submittal of the application.
COA Application (Tracking Number: H)
Articles of Organization
Proof of Property Ownership
Rehabilitation Plan
Proposed Acquisition Cost and Funding Source
Financial Statement or Annual Report (for the prior fiscal year)
Detailed Construction Budget
Evidence of Applicable Taxes Current
Evidence of Relevance Experience and Performance on Projects of Similar Type and Scale
Proof of Contributing Structure or Landmark Status
Evidence of 501(c)(3) tax exemption status (Not-for-Profit Corporations Only)
Authorization and Acknowledgment
have read and reviewed my application. I understand that my application will not be deemed sufficient until all of the requested information has been supplied.
I understand that prior to application submittal, a pre-application meeting with the Planning and Development Department and/or the Downtown Investment Authority (DIA) and the Office of Economic Development (OED) is required.
✓ I am also aware that any proposed improvements that affect the exterior of the building including any alterations, new construction, demolition and relocation, will require a consistency review through a Certification of Appropriateness (COA) application. Depending on the scope of work, the COA can either be reviewed administratively or by the Commission.
I understand that I will be notified of the date and place of any public meetings at which the referenced building will be considered by the Jacksonville Historic Preservation Commission for critical endangerment status. I understand that the owner and/or authorized agent should be present at all public hearings; otherwise, the application will be deferred. I understand Staff will issue the required public notice sign(s), which must be posted on the property at least fourteen (14) working days prior to the Commission meeting. It will be my responsibility to post and maintain the sign(s) until a determination has been made by the Commission.

REMOVAL OF TOTAL OR PARTIAL EXEMPTION

Tax Year 2024

This property no longer qualifies for a total or partial exemption. As of January 1 of this year, the property was not being used for tax exempt purposes.

Do not return this form if you still qualify for this exemption.

Warning

Florida Law prescribes that it is the duty of the owner of any property to notify the Property Appraiser promptly whenever the use of the property or the status or condition of the owner changes so as to change the exempt status of the property. If any property owner fails to so notify the Property Appraiser and the Property Appraiser determines that for any year within the prior 10 years the owner was not entitled to receive such exemption, the property shall be subject to the taxes exempted as a result of such failure, plus 15 percent interest per annum and a penalty of 50 percent of the taxes exempted. Reference Sec. 196.011 (9)(a) F.S.

Please remove the above exemption(s) from my property for the current year.

Ordinance 2003-503-E / Church of God (El-Beth-el Divine Holiness Church)

723-725 West Fourth Street

Re:

Ordinance 2003-504-E / Old Southern Drug Company Building

20 West Adams Street

Enclosed are certified copies of the above captioned ordinances designating each property as a landmark site. These ordinances were passed by City Council on June 24, 2003 and signed by the Mayor on June 26, 2003.

Pursuant to the requirements of the legislation, I am notifying your Department of these landmark designations and requesting that said designations be recorded in the public records of Duval County, Florida.

Please forward the completed documents to this office. If you have questions or need more information please contact me at 630-1404.

Respectfully,

Dana M. Farris Chief of Legislative Services Jacksonville City Council 1

٥٤ 31 Introduced by the Council President at the request of the Jacksonville Historic Preservation Commission:

ORDINANCE 2003-503-E

AN ORDINANCE DESIGNATING THE OLD WEST 4" STREET (EL-BETH-EL DIVINE HOLINESS GOD CHURCH OF WEST FOURTH STREET. 723~725 CHURCH) ON A LAND**MARK** JACKSONVILLE, FLORIDA AS DIRECTING THE ZONING ADMINISTRATOR TO ENTER THE LANDMARK SITE DESIGNATION ON THE ZONING ATLAS; DIRECTING THE COUNCIL SECRETARY TO NOTIFY EACH APPLICANT, THE PROPERTY OWNER AND THE PROPERTY APPRAISER OF THE LANDMARK SITE DESIGNATION AND TO CAUSE SAID DESIGNATION TO BE RECORDED IN THE DUVAL COUNTY, FLORIDA; RECORDS OF PUBLIC PROVIDING AN EFFECTIVE DATE.

Jacksonville City Council (the "Council") WHEREAS, the promulgated Chapter 307, Ordinance Code, to facilitate designation of landmarks and landmark sites, where appropriate; and

WHEREAS, property owners within 350 feet of the boundaries of the property located on 723 - 725 West 4th Street have been notified of the intent to designate the structure (the "Subject Property"), located on southside of West Adams Street between North Man Street and North Laura Street in Downtown Jacksonville; and

Chapter 307, the requirements of WHEREAS. pursuant to Ordinance Code, the Council has considered the issue of designating the Subject Property as a landmark site, taking into consideration its importance and historical value, as more fully set forth in the Designation Application and Report of the Planning and Development

Department, a copy of which is on file in the Office of Legislative Services as Exhibit "A" to this legislation, and incorporated by reference herein (the "Report"); and

. 7

WHEREAS, public hearings have been held by the Jacksonville Historic Preservation Commission, the Council and its committees regarding the issue of designating the Subject Property as a landmark site; and

WHEREAS, by enacting this ordinance, the Council is exercising its power and authority to protect the health, safety and welfare of the City of Jacksonville; now, therefore

BE IT ORDAINED by the Council of the City of Jacksonville:

Section 1. Designation of Landmark Site. Pursuant to Chapter 307, Ordinance Code, the Council hereby designates the Subject Property as a landmark site.

Section 2. Satisfaction of Requisite Criteria. The Council hereby finds that the Subject Property satisfies at least two (2) of the requisite criteria set forth in Section 307.104(j), Ordinance Code, as more fully set forth in Exhibit "A" to this legislation, a copy of which is on file in the Office of Legislative Services and incorporated by reference herein (the "Report").

Section 3. Landmark Site Designation on Zoning Atlas.

The Council hereby directs the Zoning Administrator to designate the Subject Property as a landmark site on the Zoning Atlas.

Section 4. Notice of Landmark Site Designation. The Council hereby directs the Council Secretary to notify each applicant, the property owner and the Property Appraiser of the designation of the Subject Property as a landmark site.

This Ordinance shall become

The

Recording of Landmark Site Designation.

Council hereby directs the Council Secretary to record this

effective upon signature by the Mayor or upon becoming effective

ordinance in the public records for Duval County, Florida.

Effective Date.

El Bethel Divine Holiness Church, Inc. 723 West 4th Street Jacksonville, Florida 32209

Dear El Bethel Divine Holiness Church, Inc.:

Congratulations! It is a pleasure to forward the enclosed certificate honoring the official listing of the West 4th Street Church of God in the National Register of Historic Places on September 27th, 2022. This is a proper tribute to the historic significance of this property.

We hope that you will display this certificate in an appropriate location as a permanent reminder of the historical significance of this property. We will be happy to answer any questions you may have regarding the National Register program, and to work with you in any way we can to preserve this important cultural resource.

On behalf of Secretary of State Cord Byrd and our historic preservation staff, I salute you on achieving this formal acknowledgement. We appreciate your interest in preserving this important element of Florida's cultural resources.

Sincerely,

Ruben A. Acosta

REHABILITATION PLAN - EL BETH EL CHURCH

This plan aims to balance the preservation of the church's historical and architectural significance with the practical needs of its current and future use, ensuring it remains a valuable asset to the community.

1. Preliminary Assessment and Documentation

- **Historical Research:** Collect historical documents, photographs, and previous renovation records to understand the building's original state and subsequent changes.
- Condition Assessment: Conduct a thorough condition assessment focusing on structural integrity, roof and foundation condition, existing water damage, and the state of original features (e.g., wooden sashes with decorative art glass, bead board ceilings).
- **Environmental Assessment:** Evaluate the surrounding environment's impact on the building, including potential risks from water damage and the effect of nearby structures.

2. Immediate Stabilization Measures

- Water Ingress Mitigation: Address immediate sources of water penetration, especially around the roof, foundation, and damaged plaster walls, to prevent further deterioration.
- **Structural Stabilization:** Ensure the building's structural integrity, particularly where evidence of deterioration exists due to water damage.

3. Detailed Planning and Approvals

- **Regulatory Compliance:** Check for any local, state, or federal regulations or historic preservation guidelines that need to be followed.
- **Expert Consultations:** Engage with architects, structural engineers, and conservation specialists experienced in historic buildings to develop detailed plans.
- Community Engagement: Involve community stakeholders and potentially the congregation in the planning process to ensure the rehabilitation meets both preservation and current use needs.

4. Restoration and Preservation

- Exterior Restoration: Restore the front elevation and square tower, including the replacement of contemporary aluminum windows with replicas of the original wooden sashes and decorative art glass where possible.
- **Roof Repair:** Replace or repair the tin v-crimp panels and address any structural issues in the roof to prevent future water damage. Ensure the restoration is sympathetic to the original design, particularly at the intersection with the raised parapets.
- **Foundation and Structural Repair:** Strengthen the foundation and any structural elements that have suffered from deterioration, ensuring they are protected against future damage.

• Interior Restoration: Remove contemporary materials covering original finishes (e.g., carpet over wood flooring, acoustic tiles over bead board ceilings) and restore original features where possible. Where original elements cannot be salvaged, use sympathetic materials and techniques to maintain the historical character.

5. Modernization for Current Use

- **Mechanical Upgrades:** Install modern electrical, heating, and plumbing systems to meet current standards while ensuring these interventions are reversible and do not harm the building's historical elements.
- Accessibility Improvements: Ensure the building is accessible to all, incorporating ramps, elevators, or other features as needed, in a manner that respects the building's historical character.
- **Energy Efficiency:** Implement energy-efficient lighting, climate control, and insulation improvements compatible with the building's historical status.

6. Long-Term Maintenance Plan

- Develop a maintenance schedule for regular inspections and upkeep, especially of the roof, foundation, and water drainage systems, to prevent future deterioration.
- Establish a preservation fund or seek grants for ongoing maintenance and future restoration needs.

7. Documentation and Education

- Document the rehabilitation process in detail for historical records and future reference.
- Use the rehabilitation project as an educational tool to engage the community and visitors about the importance of preserving historical buildings and the history of the El Beth El Church.

REHAB-24-07 841 Franklin Street

Planning and Development Department

Ed Ball Building 214 North Hogan Street, Suite 300 Jacksonville, FL 32202

MEMORANDUM

TO: Chairperson and Members

Jacksonville Historic Preservation Commission

FROM: Arimus Wells, City Planner Supervisor

Community Planning Division / Historic Preservation Section

RE: Critical Endangerment Review – REHAB-24-07 (841 Franklin St)

DATE: August 28, 2024

On February 1, 2024, the Planning and Development Department announced the application release of the Restore Endangered Historic Adaptable Buildings (REHAB) Special Revenue Fund. This is a reimbursement grant intended to provide an additional incentive to the owners of historic commercial buildings to rehabilitate and restore them to productive use rather than demolish them because of the cost of rehabilitation. The program guidelines adopted by Ordinance 2023-316 limit grant awards to \$100,000 for eligible costs. In order to qualify for a grant, the building in question must meet the following criteria:

- The building must be at least 50 years old; and
- The building must be income-producing, mixed-use, or owned by a not-for-profit corporation; and
- The building must be located throughout Jacksonville, excluding the Downtown Area as defined in Sec. 55.105, Ordinance Code; and
- The building must be architecturally or historically significant; and
- The building must be: a) a designated local landmark, or b) a contributing structure to a designated local historic district; or c) declared a potential local landmark, with final local landmark approved by the City Council prior to final approval of the grant.

Staff has reviewed application **REHAB-24-07** for sufficiency and found it meets the aforementioned criteria. As such, the application progresses to the next phase, which requires the property owner to have their building declared as critically endangered by the Historic Preservation Commission.

If the Commission declares the building as critically endangered, the application may proceed to the financial review phase. If the Commission denies the application, the property owner is no longer eligible for the current REHAB grant cycle. A denial does not preclude the property owner from applying for future REHAB grant cycles.

GENERAL INFORMATION:

Constructed in 1922, Mount Olive African Methodist Episcopal (A.M.E.) Church is a three-story institutional building with Neoclassical Revival style influences. The structure can be characterized by its rusticated concrete block exterior, full height Doric columns, raised portico, decorative balustrades, symmetrically balanced windows, central entryway, and smooth cast stone trim. The structure was designed and built by Richard Lewis Brown (1854–1948), the first Black architect in Jacksonville. R.L. Brown was not only an architect and builder but was also an A.M.E. pastor, farmer, politician, and community leader. The church is also connected to the life of Abraham Lincoln (A.L.) Lewis, A.M.E. member and founder/president of the Afro-American Life Insurance Company.

The applicant is seeking REHAB grant funding in order to order to perform roof repairs, masonry repairs, and miscellaneous structural repairs to the building. The applicant's scope of work is captured under COA-24-30518 and has been deemed eligible for administrative approval.

STANDARDS, CRITERIA AND FINDINGS:

Pursuant to the provisions of Section 111.909 of the Ordinance Code, the Planning and Development Department and the Historic Preservation Commission shall evaluate and consider whether to declare a building as critically endangered based on the following criteria:

A. Evidence of physical threat of loss, damage, or neglect.

Buildings can be endangered due to a physical threat of loss or damage, or loss of the integrity of the surrounding area that impacts the view or appreciation of its context. When evaluating this criterion, Staff considered various possible claims of evidence such as any visible signs of significant deterioration or neglect, whether the building has been cited for building code violations, or whether routine maintenance has been performed on the building. According to the applicant, the sanctuary is exhibiting the following signs of distress:

- The stained-glass windows on the structure are either functionally obsolete, missing, or damaged.
- Portions of the roof and second floor have structural deficiencies and extensive deterioration from water infiltration.

B. If the building is currently vacant.

According to the applicant and supplementary property records, the subject building is currently occupied and is being used as a place of worship by church members.

C. The building's susceptibility to development or natural disasters.

Staff finds the building likely to incur significant damage from a natural disaster due to the critically impaired roof system on the sanctuary and associated structural damages. As such, this renders the building susceptible to damage during rain events or storms.

The building is also considered extremely vulnerable to surrounding development pressures that are occurring within the recently designated Eastside Historic District. Examples of this include the proposed renovations to the football stadium, the construction of a new soccer stadium, and the new residential developments off Union Street. Because of its proximity to A. Philip Randolph Boulevard, a commercial corridor, Staff finds it critical to protect the Mt. Olive A.M.E. Church from impending development pressures.

D. The building's suitability for preservation or restoration.

In utilizing this criterion, it has been the practice of the Planning and Development Department to evaluate proposed critically endangered buildings based on evidence of significant exterior alterations that have negatively impacted character-defining features, as well as alterations deemed difficult, costly, or impossible to reverse.

Further, the degree and nature of any exterior deterioration, as well as the evidence of long-term and potentially ongoing neglect is also a factor in evaluating potentially critically endangered buildings for their suitability for preservation or restoration. Not having any evidence of significant exterior deterioration, the structure has been well maintained over the years. According to archival records and permitting, the church has not been significantly altered and still has most of its original character defining features such as the full height columns supporting a pediment, arched windows with stained glass, and rusticated concrete block finish on the exterior. Although appearing to be well maintained over the years, the sanctuary has evidence of deterioration from water penetration, as well as some of the lead framing in the stained-glass windows becoming stressed causing them to bow.

E. Any other criteria the JHPC considers relevant.

The primary intent of this criterion is to allow the Historic Preservation Commission the opportunity to offer additional insight and evidence that may be useful in determining whether the affected building should be declared as critically endangered.

RECOMMENDATION:

Based on the foregoing, it is the recommendation of the Planning and Development Department that the building associated with Grant Application for REHAB Special Revenue Fund **REHAB-24-07** be **APPROVED** for Critical Endangerment.

Critically Endangered Criteria

Ordinance 2023-0316, provides that, with respect to action upon the REHAB Special Revenue Fund Grant Application, the Historic Preservation Commission shall first determine whether, based upon the best available evidence, the property does or does not meet the criteria for critical endangerment. Such a determination shall be made by a vote of the Commission and shall be accompanied by a report stating the findings of the Commission concerning the relationship between the property and the criteria for potential designation set forth below. As such, the Commission shall consider the following criteria:

- (1) Evidence of a physical threat of loss, damage, or neglect.
- (2) If the building is currently vacant.
- (3) The building's susceptibility to development pressures or natural disasters.
- (4) The building's suitability for preservation or rehabilitation.
- (5) Any other criteria the JHPC may consider relevant.

Statement of Endangerment	
	which the grant application will be reviewed, please describe how iteria for critical endangerment. Provide as much information as you a, if necessary.
(1) Evidence of a physical threat of loss, damage, or neglect.	The church building is desperately in need of renovation due to water penetration from the roof, and broken and/or missing stained glass windows.
(2) If the building is currently vacant.	The building is still used as a place of worship by the members of the church.
(3) The building's susceptibility to development pressures or natural disasters.	The building is most susceptible to high winds and rain storms that would further damage the structure and interior of the building.
(4) The building's suitability for preservation or rehabilitation.	Overall the building is well maintained and is suitable for preservation because of its historical significance.
(5) Any other criteria the JHPC may consider relevant.	

Part Two: Financial Review Required Attachments (see Ordinance 2023-316 and its associated Guidelines for details) The following attachments must be included with submittal of the application. COA Application (Tracking Number: $H = 3 0_5 1_8$) Articles of Organization **Proof of Property Ownership** Rehabilitation Plan Proposed Acquisition Cost and Funding Source Financial Statement or Annual Report (for the prior fiscal year) **Detailed Construction Budget Evidence of Applicable Taxes Current** Evidence of Relevance Experience and Performance on Projects of Similar Type and Scale Proof of Contributing Structure or Landmark Status Evidence of 501(c)(3) tax exemption status (Not-for-Profit Corporations Only) Authorization and Acknowledgment I have read and reviewed my application. I understand that my application will not be deemed sufficient until all of the requested information has been supplied. I understand that prior to application submittal, a pre-application meeting with the Planning and Development Department and/or the Downtown Investment Authority (DIA) and the Office of Economic Development (OED) is required. ✓ I am also aware that any proposed improvements that affect the exterior of the building including any alterations, new construction, demolition and relocation, will require a consistency review through a Certification of Appropriateness (COA) application. Depending on the scope of work, the COA can either be reviewed administratively or by the Commission. I understand that I will be notified of the date and place of any public meetings at which the referenced building will be considered by the Jacksonville Historic Preservation Commission for critical endangerment status. I understand that the owner and/or authorized agent should be present at all public hearings; otherwise, the application will be deferred. I understand Staff will issue the required public notice sign(s), which must be posted on the property at least fourteen (14) working days prior to the Commission meeting. It will be my responsibility to post and maintain the sign(s) until a determination has been made by the Commission.

Relevant Projects:

Adaptive Reuse of the Jacksonville Federal Reserve Bank – 2020-2023, Jacksonville, FL

Role: Project Architect, Project Manager, Interior Designer

Owner: JWB Real Estate capital

Project scope involves the historic renovation of the 1922 Jacksonville Federal Reserve Bank into a mixed-use facility including restaurant space, business suites, and multiple stories of banquet space. SHPO/NPS Project.

Adaptive Reuse of the Baptist Convention Building – 2019-2023, Jacksonville, FL

Role: Project Architect, Project Manager, Interior Designer

Owner: JWB Real Estate capital

Project scope involves the historic renovation of the 1924 Baptist Convention building into a mixeduse development including retail suits, multiple restaurants, and 24 residential apartments. The building was originally designed by Henry Klutho. SHPO/NPS Project.

Porter Mansion Interior Renovation and Code Upgrades – 2020-2022, Jacksonville, FL

Role: Project Architect, Project Manager, Interior Designer

Owner: JWB Real Estate capital

Project scope involves the historic renovation of the 1904 Porter Mansion to address code compliances issues for Accessibility and Interior Modifications for a Change in Use. The scope of work required approval from the Florida Trust for Historic Preservation for the Alteration to the Historic Easement, a state waiver for accessibility exemption for the upper floors, and local COJ Landmarking.

Adaptive Reuse of the Barnett National Bank, 2017-2019, Jacksonville, FL

Role: Architectural Consultant, Construction Administration, LEED Consultant

Owner: SouthEast Development Group

Project scope involves the historic renovation of the Barnett National Bank (1926) into a mixed-use development, including commercial office space, retail, and 108 1 and 2-bedroom apartments. LEED V4 Certified Building. SHPO/NPS Project.

20 West Adams Street FSCJ Student Housing* 2016, Jacksonville, FL

Role: Project Architect, Project Manager, Interior Designer

Project scope involved the historic renovation of the Lerner Shops (1911) into student apartment style dormitories and a café for FSCJ. SHPO/NPS Project.

Jessie Ball duPont Center*, 2013-2016 Original Construction, 2016-Present Ongoing Work

Role: Project Architect/Manager, LEED Administrator, Furniture Selection

Owner: Jessie Ball duPont Fund

Project scope included the renovation of the Haydon Burns Library (1965), Jacksonville, FL into an office center and gathering place for philanthropic and nonprofit organizations. Scope included Core & Shell renovations along with Extensive Tenant Renovations. LEED Gold Facility.

BUDGET PROPOSAL COST:

*\$745,000.00

*this budget proposal is valid for 30 days only

Notes

This is a Budget Proposal only, based on the scope of work described below.

We include an Allowance for unforeseen roof framing repairs of 20% only. Actual conditions will be assessed upon removal of the existing roofing system.

We reserve the right to negotiate the terms of the Owner-Contractor Agreement.

All work during normal business hours. Additional costs may be incurred for after-hours, weekend, and/or holiday work.

Schedule is subject to actual date of award, permitting, and material lead times.

Monthly pay applications net 30.

Page 2 Mt. Olive A.M.E. Church 841 Franklin Street Jacksonville, FL 32206

Inclusions

- Removal and disposal of existing roofing materials
- Removal and disposal of existing wall and curb flashings
- Removal and disposal of existing soffit and fascia
- Removal and replacement of roof sheathing with new plywood decking
- Cut and cap qty (2) vents below the roof
- Furnish and install new architectural shingles to match existing
- Manufacturer's 30-year limited warranty
- Furnish and install new wood fascia and soffit
- Remove and replace gutters and downspouts to match existing profile
- Support/repair qty (1) existing parapet wall
- · Repoint and patch brick parapet
- Stone coping repair*includes creating a mold to match existing, repairs on qty (2) sides
- Clean and seal existing stone coping
- 20% Allowance for roof framing repairs*see note above
- Temporary fencing
- Daily clean-up
- · Required permits

Exclusions:

- Escalation or Contingency
- Design/Engineering
- Historic applications (by others)
- Environmental, Right of Way or other specialty Permits
- Lead or asbestos survey(s)/Abatement
- Private inspection services
- Structural repairs/replacement, other than specifically noted under inclusions above
- Building envelope repairs*to be priced separately
- Repairs of building elements at gutter/downspout locations
- Restoration of qty (2) towers
- Roof curbs, roof-mounted equipment
- Insulation/Sound proofing/acoustic panels
- Landscape repair/replacement
- Sidewalk/paving repair/replacement
- Unforeseen conditions
- Performance and/or payment bond
- Builder's risk insurance
- Any work not specifically listed above

Thank you for the opportunity to be a part of your team for this important project. We hope to work with you soon.

Property: Mount Olive Church 841 Franklin Street Jacksonville, FL 32206

INVOICE # TM-2041191

Dear Applicant:

We're pleased to tell you we determined you're exempt from federal income tax under Internal Revenue Code (IRC) Section 501(c)(3). Donors can deduct contributions they make to you under IRC Section 170. You're also qualified to receive tax deductible bequests, devises, transfers or gifts under Section 2055, 2106, or 2522. This letter could help resolve questions on your exempt status. Please keep it for your records.

Organizations exempt under IRC Section 501(c)(3) are further classified as either public charities or private foundations. We determined you're a public charity under the IRC Section listed at the top of this letter.

If we indicated at the top of this letter that you're required to file Form 990/990-EZ/990-N, our records show you're required to file an annual information return (Form 990 or Form 990-EZ) or electronic notice (Form 990-N, the e-Postcard). If you don't file a required return or notice for three consecutive years, your exempt status will be automatically revoked.

If we indicated at the top of this letter that an addendum applies, the enclosed addendum is an integral part of this letter.

For important information about your responsibilities as a tax-exempt organization, go to www.irs.gov/charities. Enter "4221-PC" in the search bar to view Publication 4221-PC, Compliance Guide for 501(c)(3) Public Charities, which describes your recordkeeping, reporting, and disclosure requirements.

Sincerely,

stephene a martin

MEMORANDUM

TO: Chairperson and Members

Jacksonville Historic Preservation Commission

FROM: Arimus Wells, City Planner Supervisor

Community Planning Division / Historic Preservation Section

RE: Request for Demolition, Section 320.407 Review – Demolition of Two (2)

Contributing Structures at 222 and 228 East Duval Street

DATE: August 28, 2024

The property owner is seeking building permits to demolish two (2) residential structures located on subject parcels, RE: 073561-0000 and 073560-0000. The stated scope of work includes **the demolition of two buildings:** 222 East Duval Street and 228 East Duval Street. Both structures are listed as contributing properties in the Downtown National Register Historic District.

Because the structures are contributing to the National Register district, any demolition activities require a review by the Jacksonville Historic Preservation Commission (JHPC) pursuant to §320.407, Jacksonville Ordinance Code. The JHPC must review and take action on such requests for demolition within 60 calendar days after the complete demolition application is received by the Historic Preservation Section of the Jacksonville Planning and Development Department. If the Commission fails to act within the 60-day period, the demolition request is considered to have been granted. If the Commission approves the permit application, the demolition may proceed. If the Commission denies the application, the property owner can appeal the decision to the City Council. The appeal must be filed within 14 calendar days from the date of the Commission meeting. The case file, including the demolition application and the Commission's recommendation regarding the property's potential for landmark status, will be forwarded to the City Council, which will vote to approve the demolition request or to proceed with landmark designation.

The City of Jacksonville acquired the dilapidated properties of 222 and 228 East Duval Street in December 2023. Since the City is seeking demolition and is not in support of a landmark designation for the structures, the Commission must find that the property meets at least four (4) of the seven (7) criteria outlined in the designation procedures for landmarks codified in §307.104, Jacksonville Ordinance Code, before forwarding any landmark recommendation to City Council.

PROPERTY DESCRIPTIONS:

222 East Duval Street – Constructed in c. 1904, 222 East Duval Street, also known as the Croghan House, is a two-story Frame Vernacular residential building. Notable architectural features include a hip roof along the rear of the structure and a gable roof fronting the street. The structure also has an offset entrance. It appears the structure had a two-story front porch. However, the front porch on the first floor (supported by columns) is partially enclosed, and the second-story tier has been fully enclosed.

228 East Duval Street – Constructed in c. 1906, 228 East Duval Street, also known as the Alyce Apartments, is a two-story Frame Vernacular residential building. Notable architectural features include a hip roof along the rear of the structure and nested gable roof fronting the street. The structure also has an offset entrance. It appears the structure had a two-story front porch. However, both the first and second floors of the open-air features have been fully enclosed. The first floor also consists of fluted, tapered columns that support the second story terrace. The residence was previously used as a rooming house.

STAFF ANALYSIS:

In the 1991 Florida Master Site File surveys, the reviewer's initial determination of each structure's significance was that both structures should not be considered eligible for individual local designation. While this earlier evaluation is only a cursory assessment of significance, staff does not have any additional documentation that would meet the necessary additional criteria needed to overcome the owner's objection to local landmark designation. Staff also reviewed the demolition permit, associated pictures, and researched the properties

for evaluative and documentary purposes. Based on our evaluation, it is the opinion of the Planning and Development Department that:

- 222 East Duval Street meets at least three (3) criteria (A, F and G) for landmark designation
- 228 East Duval Street meets at least three (3) criteria (A, F and G) for landmark designation

A. Its value as a significant reminder of the cultural, historical, architectural, or archaeological heritage of the City, state or nation.

It is the determination of the Planning and Development Department that 222 and 228 East Duval Street meet criterion (A) for landmark designation based on the following analysis:

Both structures are significant by being located within Downtown Jacksonville. According to the National Register of Historic Places nomination, the significance of the subject properties, as related to the historical and architectural heritage of Downtown Jacksonville, is not so much the importance of the individual residences but collectively, as they contribute to one of the last remaining concentrations of residential structures in Downtown.

The two decades following the 1901 fire were a significant period of growth for Jacksonville, both in the Downtown and in the surrounding suburbs, particularly Springfield and Riverside. Between 1900 and 1914, real estate value quadrupled in Jacksonville from 11 million to 50 million. The population grew from 28,429 to 57,699 between 1900 and 1910.¹ By 1903, the number of new buildings permitted exceeded the 2,368 structures destroyed in the 1901 fire.² The significant increase in population during the first decade of the twentieth century created a strong demand for new housing. Many were constructed in the outlying suburbs, but a considerable number of the new homes were constructed in the part of downtown destroyed by the fire. Some of Jacksonville's leading citizens built large and elaborate new homes in downtown, a few being Mayor and later U.S. Senator Duncan U. Fletcher, U.S. Senator James A. Taliaferro, Joseph R. Parrott, vice-president of the Florida East Coast Railroad, W.G. Toomer, Wilson and Toomer, the largest fertilizer producer in Florida, and J.B. Bours, hardware dealer.

However, the majority of historic residences were smaller, less decorative one and two-story wood frame structures now found predominately in the northeast section of Downtown. In the Cathedral District - defined on the south by East Monroe Street, the north by East Church Street, the west by Ocean Street and the east by Catherine Street - the 1991 survey recorded 50 residences. Eighty percent of the 50 structures were two-story with all reflecting the Frame

¹ James B. Crooks. Jacksonville After the Fire, 1901-1919: A New South City. (Jacksonville, Florida: University of North Florida Presses, 1991) pp. 30

² Wayne W. Wood, Jacksonville's Architectural Heritage, Landmarks for the Future. (Jacksonville, Florida: University of North Florida Press, 1989), p. 28.

Vernacular style or some variation such as Colonial Revival, Craftsman, and Queen Anne influences, as well as the single-story Folk Victorian style, many times referred to as "shotgun houses." Although all were built before 1920, 36 percent were constructed in c.1903 and 16 percent c. 1912 based on the 1903 and 1913 Sanborn Maps. Based on city directory research, most of the original or early occupants of the residences had working class jobs.

B. Its location is the site of a significant local, state or national event.

Based on the currently available information on file, it is the determination of the Planning and Development Department that 222 and 228 East Duval Street do not meet this criterion.

C. It is identified with a person or persons who significantly contributed to the development of the City, state or nation.

No information was found on the structure's early residents. Based on the currently available information on file, it is the determination of the Planning and Development Department that 222 and 228 East Duval Street do not meet this criterion.

<u>D.</u> It is identified as the work of a master builder, designer, or architect whose individual work has influenced the development of the City, state or nation.

The original builder, designer or architect is unknown; therefore, it is the determination of the Planning and Development Department that 222 and 228 East Duval Street do not meet this criterion.

E. Its value as a building is recognized for the quality of its architecture and it retains sufficient elements showing its architectural significance.

Based on the currently available information on file, it is the determination of the Planning and Development Department that 222 and 228 East Duval Street do not meet this criterion.

F. It has distinguishing characteristics of an architectural style valuable for the study of a period, method of construction, or use of indigenous materials.

It is the determination of the Planning and Development Department that 222 and 228 East Duval Street meet criterion (F) for landmark designation based on the following analysis:

The subject properties possess distinguishing characteristics of Frame Vernacular buildings, also known as National Folk Houses. These houses represent a significant change in construction and design that coincided with the expansion of railroads during the second half of the 19th century. Railroads

improved the transfer of cut timbers to lumberyards found in most towns and cities that over time standardized lumber shape and sizes. It also ushered in the widespread use of light balloon framing covered by wood sheathing, usually siding and shingles. The basic design and shape of these homes were not restricted to any one area but found across the country. The McAlester's identified six distinctive styles including: Gable and Hip Front; Gable-Front-Wing; Hall and Parlor; I-House; Massed Plan - Side Gable and Pvramidal. Frame Vernacular style buildings are important regionally as they represent vanishing examples of how builders utilized simple and time-tested construction principles and combined local building materials (such as Southern yellow pine and cypress) with manufactured products shipped by railroad (such as sash windows, doors, and hardware) to construct solid and functional spaces for the Southern climate. Surrounded by outlying sawmills at the time, these houses were constructed of old-growth Southern yellow pine that had been so heavily timbered as to be almost non-existent by the 1930s. Today, this quality pinewood is only available from re-milled timbers salvaged from demolitions or from original logs preserved in the muddy bottom of Florida creeks and rivers. The Frame Vernacular style survived well into the twentieth century, particularly in the South, but is being replaced with houses of contemporary design, construction and materials.

G. Its suitability for preservation or restoration

It is the determination of the Planning and Development Department that 222 and 228 East Duval Street meet criterion (G) for landmark designation based on the following analysis:

Although currently vacant, the structures appear to be in decent condition. While the structures have some original architectural fabric (with significant alterations to the siding, windows, doors, and porches), the structures have been vacant for some time and have been without consistent maintenance. The properties have been subject to vandalism, fire damage, and water damage. However, given the limited access and information regarding the structural integrity of both structure, Staff is unable to support a claim of irreparability for both structures.

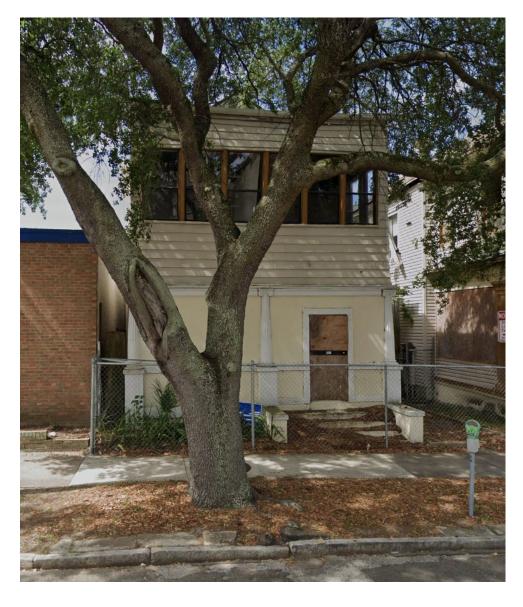

Based on these findings, the Planning and Development Department finds:

- 222 East Duval Street meets at least three (3) criteria (A, F and G) for landmark designation
- 228 East Duval Street meets at least three (3) criteria (A, F and G) for landmark designation

Procedural Timeline

Within 60 calendar days, the Historic Preservation Commission shall issue a final decision on the subject of demolition. If the Commission votes to deny the demolition permit application, at the next meeting after it considered the demolition request, so long as the next meeting is no less than 21 days following, (unless the Applicant has requested a continuance or deferral), it shall also issue an advisory recommendation to the City Council on the structure's landmark status utilizing the criteria and procedures in Section 307.104. The Historic Preservation Commission shall call a special meeting to meet the 60-calendar day deadline, if necessary. If the Historic Preservation Commission fails to meet this deadline, the demolition permit application shall be considered granted. If the Historic Preservation Commission elects to grant the demolition permit application, such decision shall constitute the final action by the City, and the Commission shall not consider landmarking status for the structure.

Criteria

Section 320.407(c), Ordinance Code, provides that, with respect to action upon Applications for Demolition Permits, the Historic Preservation Commission shall determine whether, based upon the evidence, the property does or does not meet the criteria for designation. Such a determination shall be made by advisory recommendation of the Commission and shall be accompanied by a report stating the findings of the Commission concerning the relationship between the property and the National Register of Historic Places criteria for potential designation set forth below. Filing of this application implies an assumption of objection to potential local landmark designation. As such, the Commission must find that the property meets at least four of the following seven criteria:

- (1) Its value as a significant reminder of the cultural, historical, architectural, or archaeological heritage of the City, state or nation.
- (2) Its location is the site of a significant local, state or national event.
- (3) It is identified with a person or persons who significantly contributed to the development of the City, state or nation.
- (4) It is identified as the work of a master builder, designer, or architect whose individual work has influenced the development of the City, state or nation.
- (5) Its value as a building is recognized for the quality of its architecture, and it retains sufficient elements showing its architectural significance.
- (6) It has distinguishing characteristics of an architectural style valuable for the study of a period, method of construction, or use of indigenous materials.
- (7) Its suitability for preservation or restoration.

Statement of Significance 17. Given the aforementioned criteria by which the demolition request will be reviewed, please describe how the property does or does not meet the criteria for designation. Provide as much information as you can. You may also attach a separate sheet, if necessary. Please see attached memo. (1) Its value as a significant reminder of the cultural, historical, architectural, or archaeological heritage of the City, state or nation. Please see attached memo. (2) Its location is the site of a significant local, state or national event. Please see attached memo. (3) It is identified with a person or persons who significantly contributed to the development of the City, state or nation. Please see attached memo. (4) It is identified as the work of a master builder, designer, or architect whose individual work has influenced the development of the City, state or nation. Please see attached memo. (5) Its value as a building is recognized for the quality of its architecture, and it retains sufficient elements showing its architectural significance. Please see attached memo. (6) It has distinguishing characteristics of an architectural style valuable for the study of a period, method of construction, or use of indigenous materials. Please see attached memo. (7) Its suitability for preservation or restoration.

Required Attachments				
The following attachments must be included with submittal of the application.				
Copy of Building Permit for Demolition (for each property) – If Applicable				
	Property Appraiser Record Card (for each property) – https://paopropertysearch.coj.net/Basic/Search.aspx			
Documentation of any effort to save the structure	e(s)			
Any supporting documentation - Optional				
Authorization and Acknowledgment				
Please review your application. No application will be deemed sufficient until all of the requested information has been supplied. The acceptance of an application as being sufficient does not guarantee its approval by the Jacksonville Historic Preservation Commission (JHPC). The owner and/or authorized agent should be present at the public hearing; otherwise, the application will be deferred. I understand that I will be notified of the date and place of any public meetings at which the demolition review will be considered by the Jacksonville Historic Preservation Commission. If the demolition permit is approved, I understand that my permit will be released. If the Commission decides to deny my demolition permit and pursue local landmark designation, I understand Staff will issue the required public notice sign(s), which must be posted on the property within five (5) working days after the Commission's decision. It will be my responsibility to post and maintain the sign(s) until a determination has been made by City Council. I am also aware that if designated, any				
construction activities affecting the subject properties including alterations, new construction, demolition and relocation, will require a consistency review through an application for a Certification of Appropriateness. If the proposed designation is denied, I understand that my permit will be released.				
I hereby certify that I have read and understand the information contained in this application, that I am the owner or authorized agent for the owner with authority to make this application, and that all of the information contained in this application, including the attachments, is true and correct to the best of my knowledge.

MEMORANDUM

To: Arimus Wells, City Planner Supervisor

Historic Preservation Section

From: Susan Kelly, Redevelopment Coordinator

Downtown Investment Authority

Date: August 6, 2024

RE: Request for Demolition, Section 320.407 review – 222 and 228 Duval Street

The City of Jacksonville acquired the dilapidated properties of 216, 222 and 228 East Duval Street in December 2023. The structure at 216 East Duval Street was demolished on August 3, 2024, as an emergency action by the Municipal Code Compliance Division. As the property owner of 222 and 228 East Duval Street, the City seeks to demolish the residential structures located on these properties. Both two-story residences are identified as contributing structures to the Downtown National Register Historic District. Because the structures are contributing to the National Register district, it is our understanding that their demolition will require a review by the Jacksonville Historic Preservation Commission (JHPC) pursuant to \$320.407, Jacksonville Ordinance Code.

PROPERTY DESCRIPTION - 222 East Duval Street:

222 East Duval Street, also known as the Croghan House, is a two-story Frame Vernacular residential building. Notable architectural features include a hip roof along the rear of the structure and a gable roof fronting the street. The structure also has an offset entrance. It appears the structure had a two-story front porch. However, the front porch on the first floor (supported by columns) is partially enclosed, and the second-story tier has been fully enclosed. The residence was constructed c. 1904.

PROPERTY DESCRIPTION - 228 East Duval Street:

228 East Duval Street, also known as the Alyce Apartments, is a two-story Frame Vernacular residential building. Notable architectural features include a hip roof along the rear of the structure and nested gable roof fronting the street. The structure also has an offset entrance. It appears the structure had a two-story front porch. However, both the first and second floors of the open-air features have been fully enclosed. The first floor also consists of fluted, tapered columns that support the second story terrace. The residence was previously used as a rooming house and was constructed c. 1906.

DIA Staff researched the properties, and our findings are provided below:

1. Its value as a significant reminder of the cultural, historical, architectural, or archaeological heritage of the City, state or nation.

The significance of the subject properties, as related to the historical and architectural heritage of Downtown Jacksonville, is not so much the importance of the individual residences but collectively, as they contribute to one of the last remaining concentrations of residential structures in Downtown.

The two decades following the 1901 fire were a significant period of growth for Jacksonville, both in the Downtown and in the surrounding suburbs, particularly Springfield and Riverside. Between 1900 and 1914, real estate value quadrupled in Jacksonville from 11 million to 50 million. The population grew from 28,429 to 57,699 between 1900 and 1910. By 1903, the number of new buildings permitted exceeded the 2,368 structures destroyed in the 1901 fire. The significant increase in population during the first decade of the twentieth century created a strong demand for new housing. Many were constructed in the outlying suburbs, but a considerable number of the new homes were constructed in the part of downtown destroyed by the fire. Some of Jacksonville's leading citizens built large and elaborate new homes in downtown, a few being Mayor and later U.S. Senator Duncan U. Fletcher, U.S. Senator James A. Taliaferro, Joseph R. Parrott, vice-president of the Florida East Coast Railroad, W.G. Toomer, Wilson and Toomer, the largest fertilizer producer in Florida, and J.B. Bours, hardware dealer.

However, the majority of historic residences were smaller, less decorative one and two-story wood frame structures now found predominately in the northeast section of Downtown. In the Cathedral District - defined on the south by East Monroe Street, the north by East Church Street, the west by Ocean Street and the east by Catherine Street - the 1991 survey recorded 50 residences. Eighty percent of the 50 structures were two-story with all reflecting the Frame Vernacular style or some variation such as Colonial Revival, Craftsman, and Queen Anne influences, as well as the single-story Folk Victorian style, many times referred to as "shotgun houses." Although all were built before 1920, 36 percent were constructed in c.1903 and 16 percent c. 1912 based on the 1903 and 1913 Sanborn Maps. Based on city directory research, most of the original or early occupants of the residences had working class jobs.

Historic Property Associates. A Historic Building Resurvey of Downtown Jacksonville. Jacksonville Planning and Development Department, May, 2005.

¹ James B. Crooks. *Jacksonville After the Fire*, 1901-1919: A New South City. (Jacksonville, Florida: University of North Florida Presses, 1991) pp. 30 – 33.

² Wayne W. Wood, *Jacksonville's Architectural Heritage, Landmarks for the Future*. (Jacksonville, Florida: University of North Florida Press, 1989), p. 28.

The most common style for residential buildings in the Downtown Jacksonville Historic District is the Frame Vernacular style so identified because of its construction. There are approximately 22 examples of Frame Vernacular buildings in the historic district, the majority of which are two stories in height and were constructed as apartments or rooming houses to serve the housing need of a rapidly growing population immediately following the devastating fire. The properties had front-facing gable roof, side facing gable roof or hip roof, as well as a full width front porch and wood sash windows. The buildings usually rest on brick piers. The exterior siding is mainly horizontal weatherboard or drop siding. Most of these residences had brick fireplaces and kitchen chimneys.

- **2.** <u>Its location is the site of a significant local, state or national event.</u>

 Based on the currently available information, the subject properties do not appear to meet this criterion.
- 3. <u>It is identified with a person or persons who significantly contributed to the development of the City, state or nation.</u>

Based on the currently available information, the subject properties do not appear to meet this criterion.

4. <u>It is identified as the work of a master builder, designer, or architect whose individual work has influenced the development of the City, state or nation.</u>

Based on the currently available information, the subject properties do not appear to meet this criterion.

5. Its value as a building is recognized for the quality of its architecture and it retains sufficient elements showing its architectural significance.

Based on the currently available information, the subject properties do not appear to meet this criterion.

6. <u>It has distinguishing characteristics of an architectural style valuable for the study of a period, method of construction, or use of indigenous materials.</u>

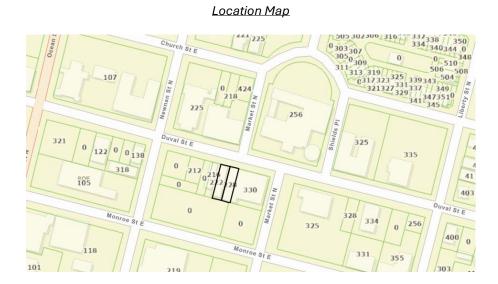

In A Field Guide to American Houses by Virginia & Lee McAlester (1984, pp.88 - 98), most Frame Vernacular style houses were identified as National Folk Houses. These houses represent a significant change in construction and design that coincided with the expansion of railroads during the second half of the 19th century. Railroads improved the transfer of cut timbers to lumberyards found in most towns and cities that over time standardized lumber

shape and sizes. It also ushered in the widespread use of light balloon framing covered by wood sheathing, usually siding and shingles. The basic design and shape of these homes were not restricted to any one area but found across the country. The McAlester's identified six distinctive styles including: Gable and Hip Front; Gable-Front-Wing; Hall and Parlor; I-House; Massed Plan – Side Gable and Pyramidal.

Frame Vernacular style buildings are important regionally as they represent vanishing examples of how builders utilized simple and time-tested construction principles and combined local building materials (such as Southern yellow pine and cypress) with manufactured products shipped by railroad (such as sash windows, doors, and hardware) to construct solid and functional spaces for the Southern climate. Surrounded by outlying sawmills at the time, these houses were constructed of old-growth Southern yellow pine that had been so heavily timbered as to be almost non-existent by the 1930s. Today, this quality pinewood is only available from re-milled timbers salvaged from demolitions or from original logs preserved in the muddy bottom of Florida creeks and rivers. The Frame Vernacular style survived well into the twentieth century, particularly in the South, but is being replaced with houses of contemporary design, construction and materials.

7. <u>Its suitability for preservation or restoration</u>

While the structures have some original architectural fabric (with significant alterations to the siding, windows, doors, and porches), the structures have been vacant for some time and have been without consistent maintenance. The properties have been subject to vandalism, fire damage, and water damage. As a result, the structures are in very poor condition and are not suitable for preservation or restoration. Based on the currently available information, the subject properties do not appear to meet this criterion.

Property taxes are subject to change upon change of ownership.

- Past taxes are not a reliable projection of future taxes.
- The sale of property will prompt the removal of all exemptions, assessment caps and special classifications.

CONTINUATION SHEET

STATEMENT OF SIGNIFICANCE

Architectural Narrative: This two-story Frame Vernacular residential building is located at 220 East Duval Street. Notable architectural features include a front-facing gable roof, two offset entrances, and a tiered porch. The porch has a shed roof supported by fluted Ionic columns. The upper level has been enclosed with double-hung sash windows and solid wall material. The exterior wall fabric is aluminum siding. Fenestration consists of 2/2 double-hung sash windows. Alterations consist of the exterior wall fabric and the material used to enclose the porch.

Architectural Context: Frame Vernacular, the prevalent style of residential architecture in Florida, refers to the common wood frame construction technique employed by lay or self-taught builders. Before the Civil War, residents relied upon local materials and their own methods and designs to construct buildings. The Industrial Revolution permitted standardization of building materials and parts and exerted a pervasive influence over vernacular house design. Popular magazines helped to make architectural trends universal throughout the country. The railroad provided cheap and efficient transportation for manufactured building materials. Ultimately, individual builders had access to a myriad of finished architectural products from which to create their own designs.

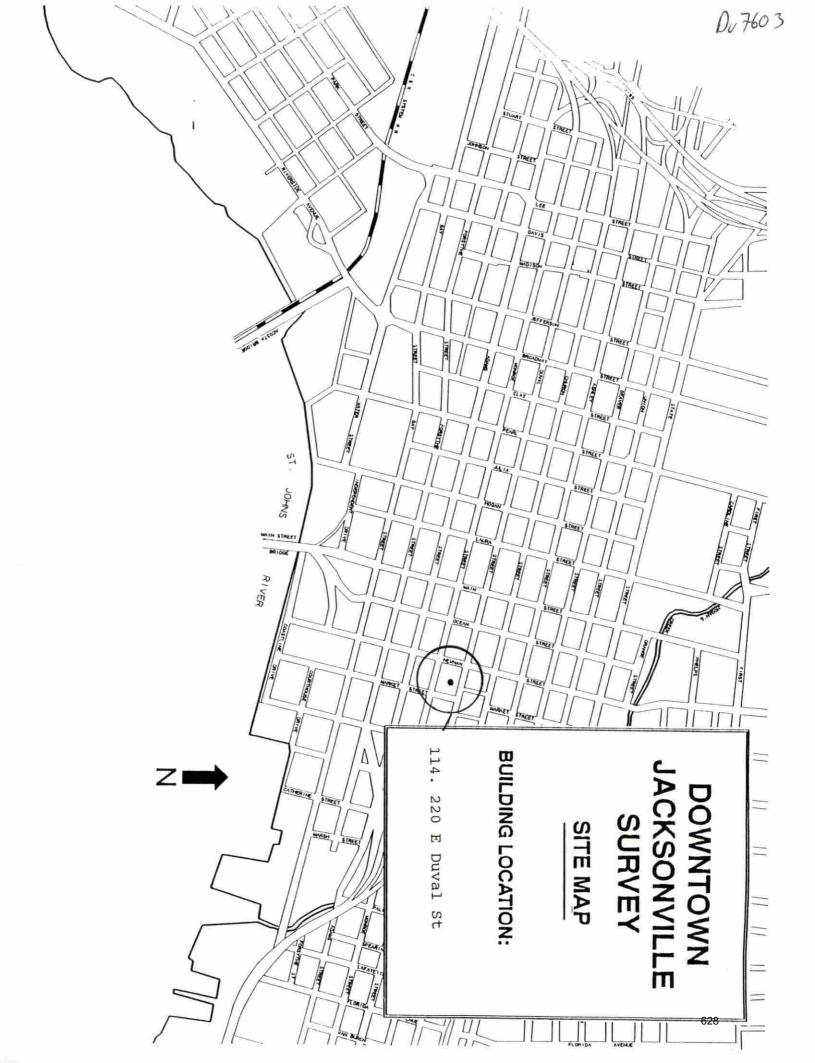

Frame Vernacular houses are typically one or two stories in height, with wood balloon frame structural systems and brick pier foundations. Plans are usually rectangular, though L-shaped plans were often used to maximize cross-ventilation. Gable or hip roofs usually have steep pitches which accommodate attic space. Horizontal drop siding and weatherboard are the most common exterior wall surface materials. Wood shingles were often used to cover the roofs, but they have nearly always been replaced by composition shingle. Porches, most commonly simple entrance or end porches, are common features of the style. Fenestration is regular, but not always symmetrical. Windows are generally double-hung sash with multi-pane glazing and doors contain recessed wood panels. Exterior decoration is sparse and limited to ornamental woodwork.

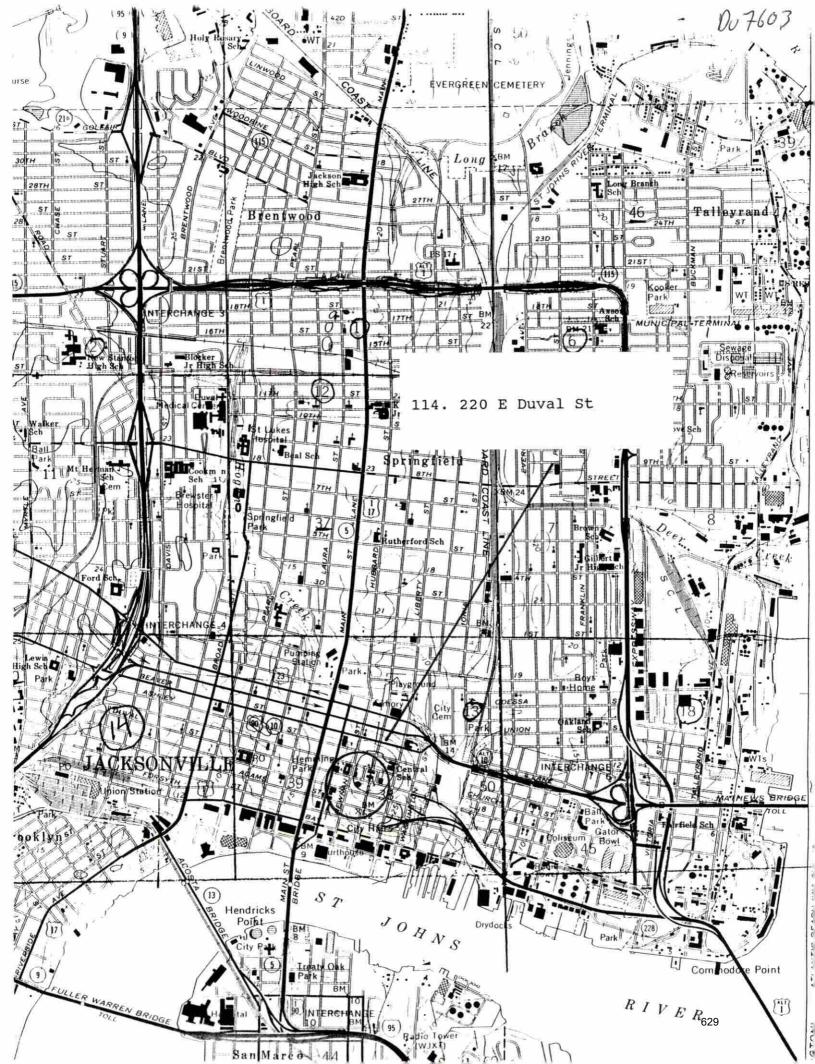

Historical Narrative: Located in the downtown area, the Croghan House embodies many of the architectural characteristics of buildings constructed in Jacksonville immediately after the Great Fire of 1901. According to R.L. Polk's Jacksonville City Directory, Ida Thell was the first resident in 1901. From 1910 to 1925 the house was occupied by P.J. and Gertrude Croghan. Mr Crogan was a commercial traveler.

Historical Context: Located on a narrow bend of the St. Johns River, the downtown Jacksonville area was once an important fording point used by Indians, Spanish explorers, and British colonists. During the Second Spanish Colonial period (1784-1821) the area, then known as Cows Ford, was the site of several large land grants. Little significant development occurred there, however, until after the United States acquired Florida from Spain in 1821.

Isaiah D. Hart, who emigrated from the St. Marys River area, surveyed and laid out the town of Jacksonville in 1822. Despite a devastating fire in 1845, and the effects of the Civil War, Jacksonville experienced steady economic growth as a major shipping port. Lumbering and tourism also played prominent roles in the local economy. Beginning in the 1870s, rail and steamship service to northern markets transformed the city into the gateway to Florida's peninsula. As a result, Jacksonville's population grew steadily throughout the remainder of the nineteenth century. The size of the original town was markedly increased by the annexation of surrounding suburbs, including La Villa, East Jacksonville, Riverside, and Springfield in 1887.

In 1901 a devastating fire destroyed over 2,000 buildings in the downtown area and left over 8,677 people homeless. The fire gave Jacksonville an opportunity to rebuild a modern, twentieth century city. Fireproof materials, brick, stone, concrete and steel, were employed in erecting a new skyline. Architects flocked to the city and designed buildings that reflected contemporary national trends. Intensive building activity took place during the first three decades of the twentieth century. By the time of the collapse of the Florida land boom in 1926 much of the area of downtown Jacksonville had been developed. Jacksonville, unlike many other communities in Florida, continued to grow during the Great Depression years of the 1930s. Since World War II, however, urban renewal projects, coupled with intensive pressure for modern development, has led to the destruction of a significant number of historic buildings in the downtown area. Those that remain are worthy of preservation for they represent important, non-renewable resources that are vital in understanding the city's past.

STATEMENT OF SIGNIFICANCE

Architectural Narrative: This two-story Frame Vernacular residential building is located at 222 East Duval Street. Notable architectural features include a front-facing gable roof, a rectangular oriel window, a semi-octagonal bay window, an offset entrance, and entrance porch. The porch has an integrated roof supported by square wooden posts. The exterior wall fabric is asbestos shingle. Fenestration consists of 2/2 double-hung sash windows. Alterations consist of the exterior wall fabric.

Architectural Context: Frame Vernacular, the prevalent style of residential architecture in Florida, refers to the common wood frame construction technique employed by lay or self-taught builders. Before the Civil War, residents relied upon local materials and their own methods and designs to construct buildings. The Industrial Revolution permitted standardization of building materials and parts and exerted a pervasive influence over vernacular house design. Popular magazines helped to make architectural trends universal throughout the country. The railroad provided cheap and efficient transportation for manufactured building materials. Ultimately, individual builders had access to a myriad of finished architectural products from which to create their own designs.

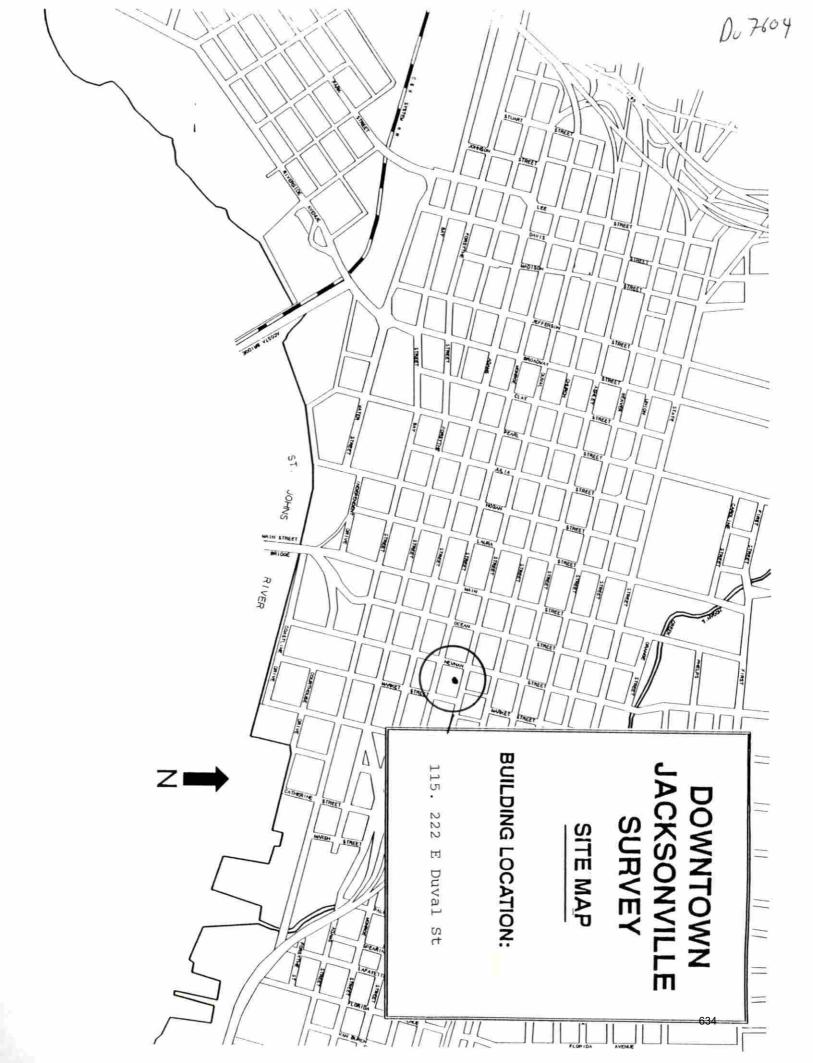

Frame Vernacular houses are typically one or two stories in height, with wood balloon frame structural systems and brick pier foundations. Plans are usually rectangular, though L-shaped plans were often used to maximize crossventilation. Gable or hip roofs usually have steep pitches which accommodate attic space. Horizontal drop siding and weatherboard are the most common exterior wall surface materials. Wood shingles were often used to cover the roofs, but they have nearly always been replaced by composition shingle. Porches, most commonly simple entrance or end porches, are common features of the style. Fenestration is regular, but not always symmetrical. Windows are generally double-hung sash with multi-pane glazing and doors contain recessed wood panels. Exterior decoration is sparse and limited to ornamental woodwork.

Historical Narrative: Located in the downtown area, the Alyce Apartments embodies many of the architectural characteristics of buildings constructed in Jacksonville immediately after the Great Fire of 1901. It first appears on Sanborn Company maps in 1903. According to R.L. Polk's Jacksonville City Directory, the building was listed as the Alyce Apartments in 1925.

Historical Context: Located on a narrow bend of the St. Johns River, the downtown Jacksonville area was once an important fording point used by Indians, Spanish explorers, and British colonists. During the Second Spanish Colonial period (1784-1821) the area, then known as Cows Ford, was the site of several large land grants. Little significant development occurred there, however, until after the United States acquired Florida from Spain in 1821.

Isaiah D. Hart, who emigrated from the St. Marys River area, surveyed and laid out the town of Jacksonville in 1822. Planning and Development

RE: Ordinance 2024-0471 / Demolition Timeline / Process Improvements

DATE: July 30, 2024

On April 24, the Historic Preservation Commission (HPC) approved demolition of 125 East 3rd Street (COA-24-30120) in the Springfield Historic District; this was in alignment with the Planning and Development Department (PDD) recommendation. An appeal of the approval was filed by a third party on May 28 (Res. 2024-471). A copy of the Staff Report and Meeting Minutes are attached.

Due to internal practices and an ambiguity within the Ordinance Code, the Applicant/Owner demolished the structure before action was taken on the appeal by City Council. Following are key dates:

- **April 24, 2024** The HPC voted to approve Certificate of Appropriateness (COA-24-30120) for the demolition of 125 East 3rd Street.
- April 25, 2024 The Applicant/Owner initiated a permit request for demolition (Permit #B-24-151361)
- May 9, 2024 The Applicant/Owner was sent a copy of the COA Final Order executed on May 6, 2024. As was standard practice, PDD Staff (Historic Preservation Section) signed off on the demolition permit within the 21-day appeal period.
- May 23, 2024 Preservation SOS, a neighborhood group in Springfield, sent PDD staff an email requesting materials needed to file an appeal of COA-24-30120. PDD Staff notified the Applicant/Owner via email about a potential appeal, recommending a pause until final action was taken by City Council.

- May 27, 2024 (Memorial Day) The 21-day appeal period ended on a legal holiday. Per Section 1.102(i), Ordinance Code, if a deadline falls on a legal holiday, the appeal period shall end on the next business day.
- May 28, 2024 *Preservation SOS* filed their appeal with the Legislative Services Division. The Office of General Counsel (OGC) determined that the appeal was timely filed.
- May 30, 2024 Applicant/Owner proceeded to obtain permit approved for demolition. The Building Inspections Division (BID) was unaware of the appeal and, consequently, finalized the permit.
- May 31, 2024 The Legislative Services Division notified Planning Department staff that an appeal was filed. The Ordinance Code (Sec. 307.204(a)) also requires that the Legislative Services Division notify the Chief of BID of the pending appeal. However, the Chief of BID was not notified. The Ordinance Code does not explicitly require the Applicant/Owner to be notified.
- July 1, 2024 Planning Department staff were notified about the property being demolished.
 Although Planning Department staff immediately contacted the Applicant/Owner and placed a stop work order on the permit, the significantly dilapidated structure was fully demolished before word reached the site. According to the Applicant/Owner, they proceeded with their permit because they were not notified that an appeal was filed.

Demolition of a building with an active appeal is an unfortunate and unacceptable event. To ensure the situation does not repeat, PDD and OGC identified and will take action in the following areas:

- 1. **Ordinance Code** OGC identified an opportunity to update Sec. 307.204(a and b) to require notification of the property owner and applicant when an appeal has been filed.
- 2. **COA Final Order** OGC identified an opportunity to add language to Final Orders that clarifies the 21-day appeal period.
- 3. **COA Permit Reviews** PDD will not sign off on permits until after the 21-day appeal deadline (as notated on the signed Final Order) has expired. This applies only to COAs that require HPC action; it does not apply to COAs administratively approved by PDD.
- 4. **Notification of Appeals** PDD will formally notify the applicant/owner and the appellant any time an appeal has been filed, regardless of whether a determination on standing has been made.
