William Joyce	P-45-18 SS#9	Single Source Purchase Program Management Services for "Better Jacksonville" Transportation and Road Widening Projects in the North and West Areas Department of Public Works/Engineering & Construction Management Division	That the City of Jacksonville enter into a Single Source Contract with HDR Engineering, Inc., for Program Management Services for Better Jacksonville Transportation and Road Widening Projects in the North and West Areas by: (i) incorporating the attached Scope of Services identified as Exhibit 'A' and Contract Fee Schedules identified as Exhibits, B, C, & D; (ii) providing a period of service from date of execution of the contract to project completion and (iii) providing a not-to-exceed maximum indebtedness of \$181,600.86. Patrick Greive Randall Barnes	P-38-16	Contract Amendment No. 2 Financial Services Advisor Finance and Administration Department/Treasury Division	That PSEC recommend award of swap termination services to PFM as contemplated under RFP P-38-16 as an optional service subject to separate negotiations. This is necessary to allow for the review and analysis of potentially terminating a Swap associated with an upcoming bond refunding. We have negotiated pricing favorable to the city and in alignment with the master contract. No change in max indebtedness or term is necessary to engage PFM for this additional optional service as the costs of termination would likely be absorbed into the bond deal upon re-issuance and paid for through future principal and interest payments which are separately budgeted.	1/31/19
